(cross-leveled with GERMAN 7160). A course for intermediate to advanced students of German. This course helps learners develop further the necessary communicative skills in German. The particular emphasis is on oral and writing skills, and texts that provide insight into contemporary German culture and social life.
Credit Hours: 3
Prerequisites: GERMAN 3230 or equivalent language capacity

GERMAN 4220: Eerie Tales: Classic German Narratives
In this class, we will read classic uncanny tales in German by major authors, and will explore the traits of this category across a variety of literary movements.
Credit Hours: 3
Prerequisites: GERMAN 3230 or equivalent language capacity

GERMAN 4230: Enlightenment and Revolution
Reading and discussion of selected works by major German writers from 1740 to 1870.
Credit Hours: 3
Prerequisites: GERMAN 3230 or equivalent

GERMAN 4240: Modernism and Modernity
Reading and discussion of selected works by major German writers from 1870 to the present.
Credit Hours: 3
Prerequisites: GERMAN 3230 or equivalent

GERMAN 4260: Recent German Literature
This course examines 'post-unification' works (i.e. by formerly East and West German authors) of literature and film written since 1989 that addresses social and political changes leading to or resulting from unification and the experience of WWII. Students will analyze the
diverse cultural, political and economic factors that influence writers and filmmakers whose aesthetic production in turn helps shape contemporary German society.

Credit Hours: 3
Prerequisites: GERMAN 3230

GERMAN 4730: German Internship and Methods
(cross-leveled with GERMAN 7730). Supervised introduction to the methodology of the teaching of elementary German; conducted in a classroom environment.

Credit Hours: 3
Prerequisites: junior standing, GERMAN 4230, or instructor's consent

GERMAN 4810: Case Studies in an Inter/Multicultural World
(same as T_A_M 4810, PEA_ST 4810, DST_VS 4805). This interdisciplinary course examines the ways in which people across the globe are affected every day by an unprecedented array of linkages that defy geographic and political boundaries. Also serves as one of the seminars for the certificate in Digital Global Studies. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Sophomore standing; 2.75 GPA or instructor's consent

GERMAN 4820: Blogging the World: The Web in Cultural Context
(same as FRENCH 4820 and RUSS 4820; cross-leveled GERMAN 7820, FRENCH 7820, RUSS 7820). Innovative interdisciplinary course addresses issues of access to international news and specific cultural context working in cross-disciplinary teams. Students in journalism, foreign language, international studies, political science and various other disciplines track cultural developments and information on non-US Web sites, blogs and digital social networks along with exploring various historical forms of communication that preceded the digital era of the Web. Students analyze the potential and limitations/ effects of blogs and the web in specific contemporary cultural contexts and as part of the broader historical evolution of the web. The course is taught in English. The goal of this course is two-fold; students learn the particulars of web blogging, explore various features of the contemporary social network landscape while focusing on the concept of culture, in particular the cultures of Europe and the US. Questions asked are: what is culture? What is common or popular right now in other cultures? And how do new social networks amplify or alter certain features or culture across national and international contests?

Credit Hours: 3
Prerequisites: sophomore standing required

GERMAN 4840: Totalitarianism and Culture
(same as RUSS 4840; cross-leveled with GERMAN 7840, RUSS 7840). In this course, we will explore the politics and poetics of totalitarian culture by examining the paintings, music, sculptures, buildings, and films produced under the rule of these regimes. In the process, we will learn how Nazi and Soviet culture producers made carefully calibrated appeals to their respective mass audiences, drawing upon the German and Russian cultural traditions - and on scientific rhetorics of cultural history and racial destiny - in crafting their utopian visions of worlds transformed, wrongs righted, and societies perfected.

Credit Hours: 3
Recommended: Junior standing or above; students taking this course for WI should have taken a 2000- or 3000-level WI course before beginning this class

GERMAN 4840H: Totalitarianism and Culture - Honors
(same as RUSS 4840H; cross-leveled with GERMAN 7840, RUSS 7840). In this course, we will explore the politics and poetics of totalitarian culture by examining the paintings, music, sculptures, buildings, and films produced under the rule of these regimes. In the process, we will learn how Nazi and Soviet culture producers made carefully calibrated appeals to their respective mass audiences, drawing upon the German and Russian cultural traditions - and on scientific rhetorics of cultural history and racial destiny - in crafting their utopian visions of worlds transformed, wrongs righted, and societies perfected.

Credit Hours: 3
Prerequisites: Honors eligibility required
Recommended: Junior standing or above; students taking this course for WI should have taken a 2000- or 3000-level WI course before beginning this class

GERMAN 4840HW: Totalitarianism and Culture - Honors/Writing Intensive
(same as RUSS 4840HW; cross-leveled with GERMAN 7840, RUSS 7840). In this course, we will explore the politics and poetics of totalitarian culture by examining the paintings, music, sculptures, buildings, and films produced under the rule of these regimes. In the process, we will learn how Nazi and Soviet culture producers made carefully calibrated appeals to their respective mass audiences, drawing upon the German and Russian cultural traditions - and on scientific rhetorics of cultural history and racial destiny - in crafting their utopian visions of worlds transformed, wrongs righted, and societies perfected.

Credit Hours: 3

GERMAN 4850: Revolution and Media in a Global Perspective (same as RUSS 4850; cross-leveled with RUSS 7850). This course offers a historical and global survey of the rise of modern revolution, from France to Haiti to Russia to the Black Power movement and beyond. Drawing on media studies and cultural studies, we will explore how revolutions are tied up in specific medial environments. This entails asking how media spread revolution, whether in print and visual culture, in the broadcast media of the twentieth century, or in the digital landscapes of the twenty-first century, and how revolutions can be understood themselves as media events. In the process students will develop a critical vocabulary for discussing the role of media in political and cultural revolution and counter-revolution in a global perspective. Graded on A-F basis only.
Credit Hours: 3

GERMAN 4960: Special Readings in German
Independent study through readings, conferences, and reports.
Credit Hour: 1-3
Prerequisites: instructor's consent
Recommended: junior standing

GERMAN 4980: German Capstone Seminar (cross-leveled with GERMAN 7980). Required of all senior German majors; usually taken in the senior year. Focuses on contemporary Germany and brings together aspects of German literature and culture studies during the degree program.
Credit Hours: 3
Prerequisites: senior standing or departmental consent

GERMAN 7001: Topics in German-General
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent.
Credit Hour: 1-3

GERMAN 7005: Topics in German - Humanities
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent.
Credit Hour: 1-99

GERMAN 7070: Intensive Beginning German
This course is primarily designed for graduate students seeking reading knowledge of German. It is conducted in English and consequently students do not learn how to speak or write German as they typically do in language acquisition classes. The focus instead lies on grammar, vocabulary building, and translation. No previous familiarity with German is expected, but by the end of the course students will ideally be able to understand the basic gist of scholarly texts in their respective disciplines. Graded on A-F basis only.
Credit Hours: 3

GERMAN 7085: Problems in German
Credit Hour: 1-3
Prerequisites: chairman's consent

GERMAN 7160: German Conversation and Composition III (cross-leveled with GERMAN 4160). A course for intermediate to advanced students of German. This course helps learners develop further the necessary communicative skills in German. The particular emphasis is on oral and writing skills, and texts that provide insight into contemporary German culture and social life.
Credit Hours: 3
Prerequisites: GERMAN 4230 or equivalent

GERMAN 7650: Faust (cross-leveled with GERMAN 4650). Faust.
Credit Hours: 3
Prerequisites: GERMAN 4230 or equivalent

GERMAN 7670: Medieval German Literature 1170-1210 (cross-leveled with GERMAN 4670). Analysis of major narrative and lyric poetry of the Age of Chivalry.
Credit Hours: 3
Prerequisites: GERMAN 4230 or equivalent

GERMAN 7730: German Internship and Methods (cross-leveled with GERMAN 4730). Supervised introduction to the methodology of the teaching of elementary German; conducted in a classroom environment.
Credit Hours: 3
Prerequisites: GERMAN 4230 or equivalent, or instructor's consent

GERMAN 7840: Totalitarianism and Culture (same as RUSS 7840; cross-leveled with GERMAN 4840, RUSS 4840). In this course, we will explore the politics and poetics of totalitarian culture by examining the paintings, music, sculptures, buildings, and films produced under the rule of these regimes. In the process, we will learn how Nazi and Soviet culture producers made carefully calibrated appeals to their respective mass audiences, drawing upon the German and Russian cultural traditions - and on scientific rhetorics of cultural history and racial destiny - in crafting their utopian visions of worlds transformed, wrongs righted, and societies perfected.
Credit Hours: 3
GERMAN 7850: Revolution and Media in a Global Perspective
(same as RUSS 7850; cross-leveled with RUSS 4850, GERMAN 4850).
This course offers a historical and global survey of the rise of modern revolution, from France to Haiti to Russia to the Black Power movement and beyond. Drawing on media studies and cultural studies, we will explore how revolutions are tied up in specific medial environments. This entails asking how media spread revolution, whether in print and visual culture, in the broadcast media of the twentieth century, or in the digital landscapes of the twenty-first century, and how revolutions can be understood themselves as media events. In the process students will develop a critical vocabulary for discussing the role of media in political and cultural revolution and counter-revolution in a global perspective.
Graded on A-F basis only.
Credit Hours: 3

GERMAN 7960: Special Readings in German
Independent study through readings, conferences, and reports.
Credit Hour: 1-3
Prerequisites: instructor's consent

GERMAN 7980: German Capstone Seminar
(cross-leveled with GERMAN 4980). Focuses on contemporary Germany and brings together aspects of German literature and culture studies during the degree program.
Credit Hours: 3
Prerequisites: one 3000-level literature course or equivalent, or instructor's consent

GERMAN 8005: Topics in German - Humanities
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent.
Credit Hour: 1-99

GERMAN 8050: Research in German
Translations or creative work not leading to thesis. Credit hours arranged.
Credit Hour: 1-3

GERMAN 8085: Problems in German
Credit Hour: 1-3
Prerequisites: chairman's consent

GERMAN 8087: Seminar in German
Course content varies.
Credit Hours: 3

GERMAN 8090: Research in German
Graded on S/U basis only.
Credit Hour: 1-3
Prerequisites: graduate director's consent

Graduate School Courses

GRAD 4000: Supporting Your Professional Goals
(Cross-Listed with GRAD 7000). This course will help you set professional goals and gain knowledge and skills by participating in a series of professional development workshops to help you meet those goals.
Credit Hour: 1

GRAD 4010: Preparing To Be A Graduate Teaching Assistant
Provides an understanding of the roles and responsibilities of teaching assistants to prepare students for graduate school. Learning will take place through observation, lecture, reading and discussion. Graded on S/U basis only.
Credit Hour: 1

GRAD 7000: Supporting Your Professional Goals
(Cross-Listed with GRAD 4000). This course will help you set professional goals and gain knowledge and skills by participating in a series of professional development workshops to help you meet those goals.
Credit Hour: 1

GRAD 7302: Tools for Teaching American Students
Emphasis on advanced academic listening, discrete pronunciation skills, techniques for laboratory teaching and one-to-one interactions. Integrated with a general overview of American classroom culture.
Credit Hours: 4

GRAD 7303: Communication and Culture for American College Teaching
This class will focus on the linguistic aspects of teaching, as well as specific pedagogical; and cultural aspects of the American classroom. It will emphasize fluency development at the suprasegmental level, and interactive teaching skills, like organizational, questioning and compensation strategies.
Credit Hours: 4

GRAD 9001: Topics in Graduate School
Organized study of selected professional and career development topics. Subjects and course credit may vary from semester to semester.
Credit Hour: 1-99
Prerequisites: instructor's and academic advisor's consent

GRAD 9010: Preparing Future Faculty I
First course in a two-semester Preparing Future Faculty program that introduces Ph.D. students to a variety of faculty roles and work environments. Graded on S/U basis only.
Credit Hour: 1
Prerequisites: instructor's consent

GRAD 9020: Preparing Future Faculty II
Second course in a two-semester Preparing Future Faculty program that introduces Ph.D. students to a variety of faculty roles and work environments. Topics build upon those presented in GRAD 9010 and focus on the job search and career development processes. Graded on S/U basis only.
Credit Hour: 1
Prerequisites: GRAD 9010

GRAD 9050: Preparing Future Professionals for Post-Graduate Studies Careers
Specialized leadership and transferable skills course that helps students recognize their potential and versatility for careers within and beyond the academy. Beyond leadership theory, the course is framed by 4 competency areas: 1) Analytic competencies; 2) Personal competencies; 3) Communication competencies and 4) Organizational competencies. Learning is enhanced with short text readings and videos in the course management system. Guest speakers. To pass the course, students must attend class; complete a self-assessment; complete an informational interview or job shadow with a leader of choice; and submit 3 short assignments including an Individual Development Plan with goals. Graded on S/U basis only.

Credit Hour: 1

GRAD 9072: Science Policy and Public Engagement
It is important the STEM professionals to understand the intersections between science, politics, and society to understand how the decisions that affect them are made. Junior scholars who understand the goals and implications of publicly funded science will likely have an advantage when seeking jobs and funding. This program also will explore numerous careers in the science policy realm.

Credit Hours: 3

GRAD 9080: Essentials for Public Engagement
This course will focus on understanding the role of scholarship and research in society and how to integrate public needs with research, ways to the public engages with scholarly research and how researchers can effectively engage individuals and groups. Topics covered include: different types of public engagement, public policy, ethics, broader impacts of research, extension education, public communication, theoretical rationale for engagement, historical trends in public engagement.

Credit Hours: 1

GRAD 9082: Science Policy and Public Engagement
It is important the STEM professionals to understand the intersections between science, politics, and society to understand how the decisions that affect them are made. Junior scholars who understand the goals and implications of publicly funded science will likely have an advantage when seeking jobs and funding. This program also will explore numerous careers in the science policy realm.

Credit Hour: 1

GRAD 9084: Instructional and Communication Strategies for Effective College Teaching
This class will focus on teaching and presentation strategies such as lesson design, using case studies and problem based learning, interactive learning, and classroom and course management. The linguistic emphasis will be on reduction, linking and speech patterns as well as pragmatic issues of organizing, clarifying and emphasizing ideas. Requires an MU Oral Language Proficiency Assessment score of 3 and course consent. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: ITAP language level 3P or GRAD 7303 and level 2; consent required

Grammar (Intensive English Program) Courses

IEPG__0001: Grammar with Writing I
Students will learn to recognize and use basic grammatical structures. Students will use these structures to produce basic sentences and short paragraphs on topics from daily life. Not open to native speakers of English. No college credit.

Credit Hours: 3
Prerequisites: must be admitted to the IEP program and placed into the course by the IEP; consent of department required

IEPG__0002: Grammar II
Students will learn low-intermediate grammatical structures including modals, simple and progressive verb tenses, and expressions of quantity. Not open to native speakers of English. No college credit.

Credit Hours: 3
Prerequisites: must be admitted to the IEP program and placed into the course by the IEP; consent of department required

IEPG__0003: Grammar for Academic Purposes III
Students will learn intermediate grammatical structures including present perfect tense, simple gerunds and infinitives, comparatives and superlatives, and restrictive adjective clauses. Not open to native speakers of English. No college credit.

Credit Hours: 3
Prerequisites: must be admitted to the IEP program and placed into the course by the IEP; consent of department required

IEPG__0004: Grammar for Academic Purposes IV
Students will learn high-intermediate grammatical structures including past perfect tense, passive voice, noun clauses, adjective clauses, and adverb clauses. Not open to native speakers of English. No college credit.

Credit Hours: 3
Prerequisites: must be admitted to the IEP program and placed into the course by the IEP; consent of department required

IEPG__0005: Grammar for Academic Purposes V
Students will learn advanced grammatical structures including passive and perfect modals, passive gerunds and infinitives, conditional clauses, and reported speech. Not open to native speakers of English. No college credit.

Credit Hours: 3
Prerequisites: must be admitted to the IEP program and placed into the course by the IEP; consent of department required

Greek Courses
GREEK 1100: Elementary Ancient Greek I
Study of forms, grammar, syntax. Early attention to reading in simple Attic prose.
Credit Hours: 4

GREEK 1100H: Elementary Ancient Greek I - Honors
Study of forms, grammar, syntax. Early attention to reading in simple Attic prose.

Credit Hours: 4
Prerequisites: Honors eligibility required

GREEK 1200: Elementary Ancient Greek II
Continuation of GREEK 1100. Readings in Attic prose.

Credit Hours: 4
Prerequisites: GREEK 1100

GREEK 1200H: Elementary Ancient Greek II - Honors
Continuation of GREEK 1100H. Readings in Attic prose.

Credit Hours: 4
Prerequisites: GREEK 1100H, Honors eligibility required

GREEK 2000: Greek Reading
Selected works of Greek literature.

Credit Hours: 3
Prerequisites: GREEK 1200

GREEK 2000H: Greek Reading - Honors
Selected works of Greek literature.

Credit Hours: 3
Prerequisites: GREEK 1200, Honors eligibility required

GREEK 4300: Intermediate Readings
Selected advanced readings in prose and poetry. Introduction to Homer.

Credit Hours: 3
Prerequisites: GREEK 2000

GREEK 4300H: Intermediate Readings - Honors
Selected advanced readings in prose and poetry. Introduction to Homer.

Credit Hours: 3
Prerequisites: GREEK 2000; honors eligibility required

GREEK 4500: Greek Stylistics
(cross-leveled with GREEK 7500). Study and practice of Greek prose, with special consideration to basic problems: abstract expression, word order, sentence structure and use of common rhetorical devices.

Credit Hours: 3
Recommended: GREEK 4300

GREEK 4510: Greek Tragedy
(cross-leveled with GREEK 7510). Selected works of Aeschylus, Sophocles, Euripides, with special attention to language, style, ideas, and dramatic techniques.

Credit Hours: 3
Recommended: GREEK 4300

GREEK 4520: Greek Comedy
(cross-leveled with GREEK 7520). Selected plays of Aristophanes and Menander, with special attention to cultural contexts.

Credit Hours: 3
Recommended: GREEK 4300

GREEK 4530: Greek Lyric Poetry
(cross-leveled with GREEK 7530). Selected readings from lyric poets, with attention to verse forms, and dialects.

Credit Hours: 3
Recommended: GREEK 4300

GREEK 4540: Greek Oratory
(cross-leveled with GREEK 7540). Selections from Greek orators, with emphasis on Lysias and Demosthenes.

Credit Hours: 3
Recommended: GREEK 4300

GREEK 4550: Greek Historians
(cross-leveled with GREEK 7560). Reading and analysis of selected texts of major Greek historians.

Credit Hours: 3
Recommended: GREEK 4300

GREEK 4560: Greek Historians
(cross-leveled with GREEK 7560). Reading and analysis of selected texts of major Greek historians.

Credit Hours: 3
Recommended: GREEK 4300

GREEK 4700: Survey of Greek Literature
(cross-leveled with GREEK 7700). Greek literature from origins to end of Roman period; emphasis on authors not covered in other courses, to provide general view of styles and genres.

Credit Hours: 3
Recommended: GREEK 4300

GREEK 4960: Special Readings in Greek
Readings in authors and texts not covered in other courses.

Credit Hours: 3
Recommended: GREEK 4300

GREEK 7300: Intermediate Readings in Greek
Selected advanced readings in prose and poetry. Introduction to Homer.

Credit Hours: 3
Recommended: GREEK 4300

GREEK 7500: Greek Stylistics
(cross-leveled with GREEK 4500). Study and practice of general Greek prose tendencies, with special consideration to basic problems: abstract expression, word order, sentence structure and use of common rhetorical devices.

Credit Hours: 3

GREEK 7510: Greek Tragedy
(cross-leveled with GREEK 4510). Selected works of Aeschylus, Sophocles, Euripides, with special attention to language, style, ideas, and dramatic techniques.

Credit Hours: 3

and biological pathways, and illustrates them with short informatics experiments. Mainly online resources will be used, so no programming is necessary. Also, the course includes a short primer of molecular biology, so background in molecular biology is not required.

**Credit Hours:** 3  
**Prerequisites:** Departmental consent required

**HMI 4440: Health Information Technology**  
(cross-leveled with HMI 7440). In this course, the student will learn 1) The Python programming language and how to use it for biomedical applications 2) the SQL database language and how to design and operate a database, and 3) HTML and javascript languages and how to design a web application. Applications will be healthcare focused.

**Credit Hours:** 3  
**Prerequisites:** Departmental consent required

**HMI 7432: Health Database Management and Public Health Data Systems**  
This course will cover foundational knowledge relevant to database management and public health data systems for Public Health Informatics (PHI). The purpose of this course is to provide students with concepts relevant to the effective use of data, information, and knowledge tools to build, manage, merge, retrieve, and analyze public health data from appropriate health data systems. The emphasis of the course is to use, develop and adapt public health information systems as needed to support public health efforts through use of public health informatics tools and practices to support existing and evolving relationships between clinical and public health systems. The focus is to plan, develop, implement, manage and evaluate database management systems and health data systems that meet the needs of public health practice through PHI.

**Credit Hours:** 3

**HMI 7435: Scripting for Public Health Informatics**  
In this online course, the student will learn 1) the Python programming language and how to use it to manipulate common forms of public health data, 2) the SQL language and how to design and interact with a relational database and its contents.

**Credit Hours:** 3  
**Prerequisites:** College-level Statistics; Graduate standing or permission of the instructor

**HMI 7440: Health Information Technology**  
(cross-leveled with HMI 4440). In this course, the student will learn 1) The Python programming language and how to use it for biomedical applications 2) the SQL database language and how to design and operate a database, and 3) HTML and javascript languages and how to design a web application. Applications will be healthcare focused.

**Credit Hours:** 3  
**Prerequisites:** college algebra and statistics

**HMI 7471: Introduction to Accounting and Finance in Health Care**  
This course introduces the current financial environment in which providers operate and the fundamentals of financial accounting, with an emphasis on accounting and financial management principles and concepts that are critical to decision making for department-level management of health services organizations. This course provides the foundation for the second healthcare financial management course offered in the second year of this program.

**Credit Hours:** 3  
**Prerequisites:** Graduate standing or consent of instructor
HMI 7564: Health Ethics Theory
An introduction to health ethics theory and methodology. We discuss metaethics and normative ethics theories, normative ethics in health ethics and methods of ethics case work up.

Credit Hours: 3

HMI 7566: Health Informatics Ethics
An introduction to how the increasing use of distance-based technologies, computers, and online communications may impact the ethical delivery of health care. Examples of questions to be addressed: Is it possible that the increasing use of computers in healthcare has made things worse? How should HIPAA be interpreted and why is there such confusion about it? Should patients be able to ‘post’ negative comments about providers on social media sites? What should be done about the increasing amounts of personal information healthcare corporations are collecting on patients?

Credit Hours: 3

HMI 7567: Health Organizational Ethics
Examples of questions to be addressed: Should hospitals and doctors try to maximize profits? Do providers have a moral obligation to serve people who cannot pay? Is it okay to deceive an insurance company if it means better patient care? What should employees do if their employer is committing fraud? Is it ethical for hospitals to drug-test employees and investigate their private lives? What is the ethical way to hire and fire healthcare staff? What should you do if your supervisor is evil?

Credit Hours: 3
Prerequisites: HMI 7564 or equivalent course, or permission of instructor

HMI 8090: Thesis Research in Health Management and Informatics
Research leading to a thesis. May be repeated to maximum of 9 hours. Graded on S/U basis only.

Credit Hour: 1-6
Prerequisites: Advisor's consent

HMI 8401: Topics in Health Management and Informatics
Organized study of selected topics. Subjects will vary from semester to semester. May be repeated for credit with departmental consent.

Credit Hours: 3

HMI 8410: Methods of Health Services Research
Writing intensive course provides students with basic understanding of literature search, experimental designs, evaluation methods, ethics, reporting and application of health services research. Practical research problems are discussed and students prepare a professional, managerially relevant research proposal.

Credit Hours: 3
Prerequisites: HMI 7410; Satisfactory completion of a college-level course in statistics

HMI 8411: Biomedical and Health Vocabularies and Ontologies
Basic and advanced concepts of controlled terminologies and their use in the representation of biomedical information and knowledge, with emphasis on terminology management in the health care enterprise. Syntactic and semantic structure of controlled terminologies are examined and a number of representative terminologies are analyzed.

Credit Hours: 3

HMI 8443: Enterprise Information and Solutions Architecture for Strategic Healthcare Operations
Organization and development of infrastructure necessary to support an enterprise information system for patient care. Components of architecture are introduced in a problem-based approach, case examples are presented as the basis for addressing specific attributes of the components, as well as problems facing the design of an enterprise information system for health care.

Credit Hours: 3

HMI 8445: Information Security, Evaluation and Policy
The purpose of this course is to provide an extensive overview, practical applications and analyses of functionality and usability evaluations of health care information technology, and to discuss the impact of security on the present and future healthcare settings.

Credit Hours: 3

HMI 8447: Data Warehousing and Data/Text Mining for Health Care
An introduction to the basic concepts of data warehouse and data/text mining, creating an understanding of why we need those technologies and how they can be applied to healthcare problems.

Credit Hours: 3
Prerequisites: HMI 8441

HMI 8450: Administration of Health Care Organizations
Analyze health care organizations, emphasizing organizational structure, and strategy, and managerial leadership. Topics include governance,
adoption, design, interorganizational networks, and organizational performance.

Credit Hours: 3

HMI 8461: Managing Human Resources in Health Care Organizations
Provides a framework for understanding and thinking strategically about employee relations and management of people in organizations, drawing on insights from social sciences to explore how psychological, economic, social, and cultural forces influence human resources management in health care.

Credit Hours: 3

HMI 8470: Strategic Planning and Marketing for Health Care Organizations
Analysis of strategic planning and services management and marketing concepts, techniques, and tools in the health care industry. Includes analyzing the environment, assessing the organization's strengths and weaknesses, formulating strategy to achieve competitive advantage, and implementing strategy through service management and marketing.

Credit Hours: 3
Prerequisites: HMI 7410, and HMI 8524

HMI 8472: Financial Management for Health Care Organizations
Application of concepts, tools and techniques of financial management and their interrelationships as they apply to current and future operation of health care organizations. Prerequisites: For Residential students: HMI 7410, HMI 7471, HMI 8460, HMI 8524. For Executive students: HMI 7410, HMI 8460, HMI 8524, and satisfactory completion of college-level courses in managerial accounting and financial management or satisfactory completion of HMI's online accounting and finance module.

Credit Hours: 3

HMI 8478: Knowledge Management in Health Care
Representing clinical terms, concepts and knowledge in a form for manipulation by intelligent systems. Theoretical formalisms and conceptual representations of medical information. Examination of knowledge engineering tools and decision support systems.

Credit Hours: 3

HMI 8485: Problems in Health Management and Informatics
Intensive study of an area of health services management.

Credit Hour: 1-6
Prerequisites: instructor's consent

HMI 8515: Problems in Medical Ethics and Clinical Ethics Consultation Practicum
The Problems in Medical Ethics Course is a practicum based course with a hands-on clinical ethics consultation component. The course will provide the student with a tailored learning experience that will encourage and develop skills and a working knowledge about health care ethics, and the ability to respond effectively when confronted with the difficult ethical dilemmas that may be encountered at multiple levels in the complex arena of health care. Specifically students will cultivate skills which will optimize their ability to work as an ethics consultant in a multidimensional and diverse society as well as an inclusive health care environment. The course is designed with flexibility in mind, however there are mandatory onsite components which will require the student to attend structured meetings, consultations and presentations.

Credit Hours: 5
Prerequisites: M-4 status for medical students. For Graduate students, HMI 7564 - Health Ethics Theory and HMI 8565 - Health Care Ethics and permission of instructor

HMI 8524: Health Economics
Building upon previous knowledge of basic economic theories, concepts, and tools, the structure, organization, activities, functions, and problems of health and medical care are considered from an economics perspective.

Credit Hours: 3
Prerequisites: microeconomics

HMI 8544: Managerial Epidemiology (Population Health Management)
Examination of basic epidemiological concepts and methods as they apply to health services management. Lectures and discussions focus on the most useful measures of occurrence of health events, methods of data collection, research study design, the interpretation of epidemiological data, and the limitations of epidemiological methods, providing the background needed by students to critically review, draw conclusions from, and use information encountered in their roles as healthcare managers. Emphasis is placed on practical applications of epidemiology to health services planning, problem solving, policy development, and systems-thinking.

Credit Hours: 3
Prerequisites: Restricted to HMI students only

HMI 8545: Methods in Public Health Informatics/Biostatistics
This course will cover foundational statistical knowledge and methods relevant to Public Health Informatics (PHI). The purpose of this course is to teach students to identify and perform appropriate statistical methods for the data analysis of data from many commonly used experimental designs in the field of PHI. The emphasis of the course is on the understanding of theoretical assumptions underlying these statistical methods. The focus of this course is to perform selected statistical analyses using, SPSS and/or R and to interpret statistical results, in a manner relevant to public health informatics in the context of public health. This course builds upon previous knowledge of basic statistics, concepts, and tools by applying them specifically to the public health field.

Credit Hours: 3
Recommended: college algebra

HMI 8546: Public Health Information and Visualization (GIS) in Public Health
This course will cover foundational knowledge of Geographic Information Systems (GIS) relevant to Public Health Informatics (PHI). The purpose of this course is to learn basic descriptive and analytical functions of GIS for research and application areas in the field of PHI. The course emphasis is for students to gain hands-on experience in the use of GIS, mapping, and spatial data analysis software such as ArcGIS, R, and Instant Atlas. The focus is on the use of geographic information systems (GISs) in the analysis of public health data. No previous knowledge
of mapping or GIS is required, but one is expected to have a working knowledge of MS Office, Windows operating systems, and Biostatistics (prerequisites Methods in Public Health Informatics/Biostatistics). This course builds upon previous knowledge of basic statistics, concepts, and tools by applying them in a GIS context specific to Public Health Informatics.

**Credit Hours:** 3  
**Prerequisites:** HMI 8545  

**HMI 8550: Health Data Analytics**

The purpose of this course is to provide you with an applied approach to analyze healthcare data. It will enhance abilities to know when and how to use theories, concepts, and tools of data analysis and statistics to evaluate and analyze health care data systematically. The emphasis of the course is on the use of data analysis in the health care field. The focus is on applying data analysis to health care data, problems and issues in the health care system, and on the data application necessary to make decisions based on the analysis. This course builds upon previous knowledge of basic statistics and analytics, concepts, and tools by applying them specifically to the health care system.

**Credit Hours:** 3  
**Prerequisites:** college algebra and statistics or permission of instructor  

**HMI 8565: Health Care Ethics**

Explores ethics issues and controversies facing clinicians and healthcare administrators. Topics may include end-of-life care, imperiled newborns, maternal-fetal conflict, procreative liberty, genetic screening and enhancement, organ procurement and allocation, rationing, public health, workplace relationships, and conflicts of interest.

**Credit Hours:** 3

**HMI 8571: Decision Support in Health Care Systems**

Applies principles and techniques of computer-assisted decision making to solve health care problems. Clinical and managerial applications of artificial intelligence, including expert systems reviewed. Advantages of integrating decision support programs with databases are discussed.

**Credit Hours:** 3

**HMI 8573: Decision Making for Health Care Organizations**

Applies and integrates data and decision making techniques with process analytic and improvement tools and techniques. Also includes applications of spread sheets and relational databases in healthcare settings.

**Credit Hours:** 3  
**Prerequisites:** Restricted to HMI students  

**HMI 8574: Health Care Law**

Survey of the function and methods of law as applied to health care administration and health care.

**Credit Hours:** 3  
**Prerequisites:** HMI 7410, HMI 7471, HMI 8460, HMI 8524. Non HMI students with a Graduate or professional school career may be able to take the course with instructor consent

**HMI 8575: Health Policy and Politics**

Overview and critical analysis of health policy issues in the United States, including how the dynamics of the policy making process have shaped outcomes, successful and unsuccessful, of a number of important policy initiatives.

**Credit Hours:** 3

**HMI 8580: Project Management**

This course is designed to provide an in-depth understanding of the fundamentals of project management and its application to the provision of health care. A problem-based approach is used to frame both the theoretical underpinnings of project management and hands-on practical application. Students will develop an understanding of the foundations of project management designed to enable them to successfully complete the certification exam to become a certified project manager. Course content includes project scope development, project work breakdown, financial control, and human resources management for projects.

**Credit Hours:** 3

**HMI 8610: Consumer Health Informatics**

Consumer health informatics explores the branch of medical informatics that analyzes consumers' needs for information; studies and implements methods of making information accessible to consumers; and models and integrates consumers' preferences into medical information systems.

**Credit Hours:** 3  
**Prerequisites:** HMI 7430 or instructor's consent  

**HMI 8689: Field Experience in Health Management and Informatics**

Supervised field experience in approved health agencies and institutions. Opportunity for observation and service participation in various fields of health. Graded on an A-F basis only.

**Credit Hours:** 3

**HMI 8810: Research Methods in Informatics**

Research Methods in Health and Bioinformatics is a writing intensive course that provides students with an understanding of research proposal development, literature searching, research synthesis, research designs, evaluation methods, and ethics. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Second semester or later in PhD program or instructor's consent  

**HMI 8870: Knowledge Representation in Biology and Medicine**

The main topics presented in the course are: logic systems, knowledge representation methods, production systems and representation of statistical and uncertain knowledge. Graded on A-F basis only.

**Credit Hours:** 3

**HMI 8880: Agile Project Management in Healthcare**

Overview of the theory and methods associated with agile project management within the context of healthcare operations. Focus of the course is on knowledge of agile principles and agile techniques and the use of appropriate analysis tools. Course encompasses many approaches to agile project management including Scrum, Kanban, Lean,
extreme programming (XP) and test driven development (TDD), and appropriate construction and management of information projects that are supportive of best practice clinical, administrative, and strategic policy and procedure in the delivery of health. A problem-based approach is used to provide the basis for addressing issues and solutions specific to the health delivery environment. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HMI 8580

Health Professions Courses

HTH_PR 1001: Topics in Health Professions
Organized study of selected topics in Health Professions. Particular topics and credit may vary each semester.

Credit Hour: 1-3
Prerequisites: instructor’s consent

HTH_PR 1100: Introductory Topics in Pharmacy
The course includes presentations and discussions on the profession of pharmacy including: the roles and responsibilities of the pharmacist, educational requirements to obtain the degree, career opportunities, student life, legal and ethical issues, and study skills development. Enrollment limited to Freshman enrolled in Early Assurance Program. Graded on S/U basis only.

Credit Hour: 1
Prerequisites: Instructor's consent

HTH_PR 2000: Leadership in Health Care
This course will cover a broad range of concepts in leadership and professional development. Focus will be placed on knowledge and skills necessary for effective leadership in the Health Professions. The first of two semesters series. Graded on S/U basis only.

Credit Hour: 1-99
Prerequisites: instructors consent
Recommended: to students in specified leadership programs

HTH_PR 2001: Topics in Health Professions
Organized study of selected topics in health professions. Particular topics and earnable credit may vary from semester to semester.

Credit Hour: 1-99
Prerequisites: sophomore standing and instructor's consent

HTH_PR 2960: Special Readings in Health Professions
Directed study of literature and research reports in the health-related professions.

Credit Hour: 1-3
Prerequisites: instructor's consent

HTH_PR 4085: Problems in Health Professions
Credit Hour: 1-99
Prerequisites: instructor's consent

Students who enroll in this course will be assigned to mini-teams of students from a range of disciplines. Through this course, students will develop an understanding of their own unique role as a healthcare provider and the importance of client- and community-centered care and effective teamwork, as well as communication skills. Graded on A-F basis only. Recommended: Students must be enrolled in one of the following programs in order to take this course: Communication Sciences, Athletic Training, Respiratory therapy, Radiography, Clinical Laboratory Sciences, Diagnostic Ultrasound. Undeclared/non-professional program students may not enroll.

Credit Hour: 1

HTH_PR 4250: Human Kinesiology
(same as PH_THR 4250). Study of principles of physical laws, biomechanics and anatomic structure relative to human movement. Application through analysis of daily functional performance, exercise and sport.

Credit Hours: 3
Prerequisites: PTH_AS 2201

HTH_PR 4950: Research Apprenticeship in Health Professions
This course provides undergraduate students in the health professions and related disciplines experience with research in the health professions and related disciplines experience with research in the health professions. Students will assist in the development and execution of research projects under the supervision of an SHP faculty member.

Credit Hour: 1-3
Prerequisites: instructor’s consent

HTH_PR 7001: Topics in Health Professions
Organized study of selected topics in health and/or healthcare. Topic and credit may vary from semester to semester.

Credit Hour: 1-3
Prerequisites: instructor's consent

HTH_PR 7100: Introduction to Interprofessional Practice
(cross-leveled with HTH_PR 4100). This course serves as a foundation and introduction to interprofessional education and collaboration. Students will develop an understanding of their own unique role as a healthcare provider and the importance of client- and community-centered care and effective teamwork, as well as communication skills. Graded on A-F basis only.

Credit Hour: 1
Prerequisites: Students must be enrolled in a professional graduate program (Occupational therapy, Physical Therapy, Communication Sciences and Disorders, Athletic Training within the School of Health Professions or other approved programs (Applied Behavioral Analysis)

HTH_PR 7300: Health Care in the United States
Overview of financing, structure, and outcomes in the U.S. health care system. Contemporary health care issues, policy, and politics will be addressed. Graded on A-F basis only.

Credit Hours: 3
**Prerequisites:**
One of the following - HLTHPSYC 8200, ESC_PS 8087

---

**Credit Hour**

**Prerequisites:**
Individual study not leading to thesis or dissertation.

**Credit Hour**

**Prerequisites:** instructor's consent

---

**Health Psychology Courses**

**HLTHPSYC 8200: Advanced Applied Behavior Analysis**
This course provides students with a basic understanding of the fundamentals of behavior analysis and behavioral interventions designed to establish, shape, strengthen and maintain desirable behavior and reduce aberrant behavior. The course focuses on the application of behavioral principles using procedures such as differential reinforcement, extinction, antecedent interventions, and punishment. Graded on A-F basis only.

**Credit Hours: 3**

**HLTHPSYC 8250: Methods in Applied Behavior Analysis**
This course provides students with a basic understanding of systematic data collection and analysis methods used in applied behavior analysis to make informed (data-driven) clinical decisions. Graded on A-F basis only.

**Credit Hours: 3**

---

**Health Sciences Courses**

**HLTH_SCI 1000: Introduction to the Health Professions**
Overview of clinical/non-clinical health careers; aptitudes/abilities needed for each; the history, current and future state of health care in the U.S: introduction to diverse populations and patient/family issues; Assists with career planning/selection of appropriate majors. Graded on A-F basis only.

**Credit Hours: 3**

**HLTH_SCI 1000H: Introduction to the Health Professions - Honors**
Overview of clinical/non-clinical health careers; aptitudes/abilities needed for each; the history, current and future state of health care in the U.S: introduction to diverse populations and patient/family issues; Assists with career planning/selection of appropriate majors. Graded on A-F basis only.

**Credit Hours: 3**

**Prerequisites:** Honors Eligibility required

**HLTH_SCI 2100: Health Sciences Seminar**
Professional Development course for Health Science Majors. Topics include resume development/revision, interviewing skills, applying to graduate/professional programs and/or jobs, professional communication, etc. Graded on S/U basis only.

**Credit Hours: 3**

**Prerequisites:** Health Sciences Majors only

---

**Credit Hour:** 1

**Prerequisites:**
sophomore standing required; restricted to Health Science majors only

**HLTH_SCI 2200W: Nuclear Weapons: Environmental, Health and Social Effects - Writing Intensive**
(same as SOCIOL 2281 and PEA_ST 2200). Environmental consequences of the nuclear arms race, 'regional' nuclear war, and weapons testing for human health, agriculture, and society. Examining 'a world without nuclear weapons'; political dialogue on proliferation; Iran, North Korea, and nuclear weapons conventions. Graded on A-F basis only.

**Credit Hours: 3**

---

**HLTH_SCI 2200: Nuclear Weapons: Environmental, Health and Social Effects**
(same as SOCIOL 2281 and PEA_ST 2200). Environmental consequences of the nuclear arms race, 'regional' nuclear war, and weapons testing for human health, agriculture, and society. Examining 'a world without nuclear weapons'; political dialogue on proliferation; Iran, North Korea, and nuclear weapons conventions. Graded on A-F basis only.

**Credit Hours: 3**

---

**HLTH_SCI 2300H: Health Care In Missouri - Honors**
This course focuses primarily on application of general health concepts and tools specifically from the perspective of the State of Missouri. It is known for its mixture of large urban areas with rural regions and an extensive farming culture. Missouri has a population of six million people. The state's capitol is in Jefferson City and the most populated cities are: Kansas City-459,787; St. Louis-319,294; Springfield-159,498; Independence-116,830 and Columbia-108,500. Thirty-seven percent of Missouri's population is rural (MO Health Assessment). This course will assist the 69% of Department of Health Science majors, who stay in Missouri after graduation, to better understand the unique issues facing their future patients and clientele. Students will be exposed to specific challenges and successes in Missouri as they relate to health care and public health from a variety of perspectives. This course will examine the health of all Missourians; however, the course will highlight the challenges facing vulnerable populations within the state (minorities, women, LGBT and rural/urban community members) in order to increase cultural competence. Graded on A-F basis only.

**Credit Hours: 3**

**Prerequisites:** Health Sciences Majors only

---

**HLTH_SCI 2300H: Health Care In Missouri**
This course focuses primarily on application of general health concepts and tools specifically from the perspective of the State of Missouri. It is known for its mixture of large urban areas with rural regions and an extensive farming culture. Missouri has a population of six million people. The state's capitol is in Jefferson City and the most populated cities are: Kansas City-459,787; St. Louis-319,294; Springfield-159,498; Independence-116,830 and Columbia-108,500. Thirty-seven percent of Missouri's population is rural (MO Health Assessment). This course will assist the 69% of Department of Health Science majors, who stay in Missouri after graduation, to better understand the unique issues facing their future patients and clientele. Students will be exposed to
specific challenges and successes in Missouri as they relate to health care and public health from a variety of perspectives. This course will examine the health of all Missourians; however, the course will highlight the challenges facing vulnerable populations within the state (minorities, women, LGBT and rural/urban community members) in order to increase cultural competence. Graded on A-F basis only.

**Credit Hours: 3**
**Prerequisites:** Health Sciences Majors only; Honors eligibility required

**HLTH_SCI 2500: Introduction to Rehabilitation Science**
This course provides a comprehensive introduction to health care rehabilitation. Topics explored will provide foundational knowledge for future rehabilitation professionals and will facilitate the development of skills necessary for success in rehabilitation science graduate and professional degree programs. These topics include the development of the field of rehabilitation, models of disablement/enablement, interprofessional collaboration among rehabilitation providers, and development and growth of critical thinking skills in the rehabilitation sciences. Graded on A-F basis only.

**Credit Hours: 3**

**HLTH_SCI 2800: Social Justice in Health**
This course introduces the social justice framework and the building of inclusive classrooms and clinics. It includes weekly topics on inclusion, social identities, implicit bias, socioeconomic status, allyship and intrusion. Tools examined include: good personal communication, understanding an inclusive culture, how to be an ally, strategies to recognize and mitigate bias in health situations. Experiential activities and dialogue are the main avenues of learning in this course. Graded on S/U basis only.

**Credit Hour: 1**
**Prerequisites:** Restricted to Health Sciences Majors during preregistration

**HLTH_SCI 2850: Introduction to The Impact of Bias, Prejudice and Discrimination on Health Care**
The course is an introduction to concepts of bias, prejudice and discrimination that occurs within health care settings in the United States. We will examine the problem from multiple disciplines, including evidence from sociology, psychology, anthropology, history, and health sciences. Examining these materials will help students better understand the impact of bias, prejudice, and discrimination on access to health care, and on the overall health of people and populations who are impacted by prejudice and discrimination. With the completion of this course, students will be better equipped to provide quality person-centered care and be able to think critically about how to begin the process of ending harmful discriminatory practices. Graded on A-F basis only.

**Credit Hours: 3**
**Prerequisites:** Restricted to Health Sciences Majors

**HLTH_SCI 2850H: Introduction to The Impact of Bias, Prejudice and Discrimination on Health Care - Honors**
The course is an introduction to concepts of bias, prejudice and discrimination that occurs within health care settings in the United States. We will examine the problem from multiple disciplines, including evidence from sociology, psychology, anthropology, history, and health sciences. Examining these materials will help students better understand the impact of bias, prejudice, and discrimination on access to health care, and on the overall health of people and populations who are impacted by prejudice and discrimination. With the completion of this course, students will be better equipped to provide quality person-centered care and be able to think critically about how to begin the process of ending harmful discriminatory practices. Graded on A-F basis only.

**Credit Hours: 3**
**Prerequisites:** Restricted to Health Sciences Majors. Honors eligibility required

**HLTH_SCI 3300: Public Health Principles, Practice, and Education**
Public Health is the science and practice of protecting and improving the health of communities through education, promotion of healthy lifestyles, and research for disease and injury prevention. This course focuses on the basic structures of the Public Health system in the U.S. and provides an introduction to the factors that influence and shape that system. Among others, factors include socioeconomic, financing, politics and global issues. Students in this course will be challenged to consider the complex web of factors affecting the health of communities. The course will explore: health needs assessments, examining relationships among behavioral, environmental and genetic factors that enhance or compromise health, examining factors that influence the learning process, and examining factors that enhance or compromise the process of health education. Graded on an A-F basis only.

**Credit Hours: 3**
**Prerequisites:** Restricted to Health Sciences Majors during preregistration

**HLTH_SCI 3300H: Public Health Principles, Practice, & Education - Honors**
Public Health is the science and practice of protecting and improving the health of communities through education, promotion of healthy lifestyles, and research for disease and injury prevention. This course focuses on the basic structures of the Public Health system in the U.S. and provides an introduction to the factors that influence and shape that system. Among others, factors include socioeconomic, financing, politics and global issues. Students in this course will be challenged to consider the complex web of factors affecting the health of communities. The course will explore: health needs assessments, examining relationships among behavioral, environmental and genetic factors that enhance or compromise health, examining factors that influence the learning process, and examining factors that enhance or compromise the process of health education. Graded on an A-F basis only.

**Prerequisites:** Honors eligibility required

**HLTH_SCI 3300W: Public Health Principles, Practice, and Education - Writing Intensive**
Public Health is the science and practice of protecting and improving the health of communities through education, promotion of healthy lifestyles, and research for disease and injury prevention. This course focuses on the basic structures of the Public Health system in the U.S. and provides an introduction to the factors that influence and shape that system. Among others, factors include socioeconomic, financing, politics and global issues. Students in this course will be challenged to consider the complex web of factors affecting the health of communities. The course will explore: health needs assessments, examining relationships among behavioral, environmental and genetic factors that enhance or
compromise health, examining factors that influence the learning process, and examining factors that enhance or compromise the process of health education. Graded on an A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Health Sciences Majors during pre-registration

HLTH_SCI 3310: Social and Behavioral Health Theory and Practice
Social and Behavioral Health (SBH) is the core discipline of public health that focuses on the factors that influence individuals' and communities health actions and decisions. This course will take both a theoretical and a practical approach to understanding SBH. Students will gain an understanding of theory and develop practical skills to apply theories to real world health issues. Readings, assignments, and discussions will focus largely on ways to understand and change health behaviors and various individual, relational, community, and social-level influences on health. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Health Sciences Majors during pre-registration. Sophomore standing required

HLTH_SCI 3400: Global Public Health and Health Care Systems
(same as P_EA-ST 3401). An introduction to public health in a global context, with an emphasis on understanding how disparities in socioeconomic status, differences in political and national health care systems and the work of international organizations impact health in communities around the world. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Health Science majors, in junior or senior status

HLTH_SCI 3450: Introduction to Epidemiology
(same as P HLTH 3450). Epidemiology is the basic science of Public Health, focusing on the study of distribution and determinants of health-related states and events. The purpose of this course is to gain a basic understanding of Epidemiology principles and methods and how to use these as a framework in assessing and addressing population health issues. Employing a mix of lecture, discussion, and assignments, students will explore the epidemiological investigation process, the etiology of disease, disability, and death, how to identify population subgroups with increased risk of disease, disability, and death and how to contribute to the development and evaluation of public health programs and services that improve the health of subgroups at risk and the general population. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Acceptance into the Public Health Undergraduate Program or by Department Consent

HLTH_SCI 3500: Mental Health
This course provides a look at mental health problems with regard to influences, etiology, diagnosis, and treatment. Students learn theories of mental health, diagnostic criteria, treatment modalities, and community issues concerning the mental health system. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HLTH_SCI 2100

HLTH_SCI 3600: Health Promotion Programs I: Assessment and Planning
(same as P_HLTH 3600). Health promotion planning is the development and implementation of a well-researched and tailored intervention to increase the health status of an individual and population. This course will provide a comprehensive introduction to health promotion planning and assessment by integrating a solid theoretical foundation of the discipline with hands-on experience in assessing needs, assets and capacity for health education, health education and project planning, funding, intervention development, implementation of health education projects, and evaluation. Special attention placed on implementing health education and promotion programs that are tailored to the particular population in need as well as specialized for the appropriate setting be it school, work, health care clinic, or the community. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Health Science majors
Corequisites: HLTH_SCI 3610

HLTH_SCI 3610: Health Promotion Programs II: Implementation, Evaluation, and Communication
(same as P_HLTH 3610). This course builds on topics covered in Health Promotion Programs I: Assessment and Planning. It will provide a comprehensive introduction to the implementation, evaluation and communication required for successful health promotion programs by integrating a solid theoretical foundation of the discipline with hands-on experience in the implementation of health promotion program, developing an evaluation and communication strategies for successful health education and health promotion programs in a variety of community-based settings. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Health Sciences Majors only
Corequisites: HLTH_SCI 3600

HLTH_SCI 3680: Autism Spectrum Disorder and Public Health
This class is designed to help students think critically about the identification and treatment of autism spectrum disorder (ASD) in the United States. Students will explore current research and debates surrounding the definition, prevention and treatment of ASD in the United States. In addition to learning about the presentation and treatment of ASD, they will also be introduced to concepts in public health, psychology, psychiatry, and health services research. We will also discuss the history of our beliefs about ASD and how these beliefs have influenced policy, systems, services and treatment over the last century. Graded on A-F basis only.

Credit Hours: 3

HLTH_SCI 3800: Holistic Health Systems for the Health Professions
This course will explore the various aspects of the holistic health movement and how they interact with American health care. Topics will include complementary and alternative medicine, or CAM. acupuncture, chiropractic, herbal remedies, naturopathy, traditional Chinese medicine, Ayurveda, midwifery, New Age healing, and others. Students will learn about the underlying philosophical principles of these practices, cultures of origin, treatments offered, and what consumers of health care as well as members of the health care workforce need to know about them. Graded on A-F basis only. Recommended: The most successful students
will have taken other Health Sciences courses, particularly HLTH_SCI 3300: Public Health, prior to enrolling in this course.

Credit Hours: 3
Prerequisites: Restricted to students in junior or senior status. Restricted to Health Sciences Majors during pre-registration

HLTH_SCI 3900: Introduction to The Research Process and Evidence Base
This course provides an introduction to the basic quantitative and qualitative research techniques used in public health, health education and promotion, and the health professions. Conducting research, making medical decisions based on research findings, and using and interpreting research and evidence in practice settings all represent potential outcomes for students selecting a career in public health or the health professions. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Health Sciences Majors with junior or senior standing

HLTH_SCI 3900H: Introduction to The Research Process and Evidence Base - Honors
This course provides an introduction to the basic quantitative and qualitative research techniques used in public health, health education and promotion, and the health professions. Conducting research, making medical decisions based on research findings, and using and interpreting research and evidence in practice settings all represent potential outcomes for students selecting a career in public health or the health professions. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Health Sciences Majors with junior or senior standing. Honors eligibility required

HLTH_SCI 3900HW: Introduction to The Research Process and Evidence Base - Honors/Writing Intensive
This course provides an introduction to the basic quantitative and qualitative research techniques used in public health, health education and promotion, and the health professions. Conducting research, making medical decisions based on research findings, and using and interpreting research and evidence in practice settings all represent potential outcomes for students selecting a career in public health or the health professions. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Health Sciences Majors with junior or senior standing. Honors eligibility required

HLTH_SCI 3900W: Introduction to The Research Process and Evidence Base - Writing Intensive
(same as P_HLTH 3900W). This course provides an introduction to the basic quantitative and qualitative research techniques used in public health, health education and promotion, and the health professions. Conducting research, making medical decisions based on research findings, and using and interpreting research and evidence in practice settings all represent potential outcomes for students selecting a career in public health or the health professions. Graded on A-F basis only.

Credit Hours: 3

Prerequisites: Restricted to Health Sciences Majors with junior or senior standing

HLTH_SCI 3965: Strategies for Effective Peer Education in Health Sciences
(same as WGST 3960, P_HLTH 3965). Course designed to promote effective presentation skills on a variety of health topics, specifically sexual health. Students will engage in experiential practice and skill building surrounding cultural competency, difficult discourses, discussion facilitation and behavior management. Graded on A-F basis only.

Credit Hour: 1
Prerequisites: Instructor's consent

HLTH_SCI 4001: Topics in Health Science
Organized study of selected topics. Subjects will vary from semester to semester. Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites: Restricted to Health Sciences Majors during preregistration

HLTH_SCI 4002: Health Sciences Study Abroad - not for capstone
This course gives students the opportunity to apply critical thinking and analysis to various health issues through the global lens of a study abroad experience. Health issues are affected and complicated by cultural, educational, political, and environmental systems. This program is designed to allow students to gain firsthand knowledge in disease prevention and disability, compliance, health education, and the specific health issues in a local community. Course work will vary based on the study abroad location. This section is not eligible for Health Sciences major's internship/capstone credit. Graded A-F only.

Credit Hour: 1-6
Prerequisites: Sophomore Standing Required

HLTH_SCI 4085: Problems in Health Sciences
Students will individually examine a specific health related problem, conduct research, and pose solutions to the problem as related to a health science course or a health field. Course work and content will vary based on the subject and may supplement regular course enrollment. Communication with instructor on topic, progress, and feedback should be timely for successful completion of course. Graded on A-F basis only.

Credit Hour: 1-6
Prerequisites: Instructor consent

HLTH_SCI 4300: Health Care in the United States
Overview of financing, structure, and outcomes in the U.S. health care system. Contemporary health care issues, policy, and politics will be addressed. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Sophomore standing; Restricted to Health Sciences Majors during pre-registration

HLTH_SCI 4300H: Health Care in the United States - Honors
Overview of financing, structure, and outcomes in the U.S. health care system. Contemporary health care issues, policy, and politics will be addressed. Graded on A-F basis only.

</table>
Hebrew Courses

HEBREW 1100: Elementary Hebrew I
For beginners with no prior knowledge of Hebrew. Five hours of classroom instruction, with one hour lab work weekly.
Credit Hours: 6

HEBREW 1200: Elementary Hebrew II
Five hours of classroom instruction, with one hour lab work weekly.
Credit Hours: 6
Prerequisites: C- or better in HEBREW 1100, or equivalent

HEBREW 3085: Problems in Hebrew
Supervised study of Hebrew language and/or culture.
Credit Hour: 1-3
Prerequisites: instructor's consent

HEBREW 3845: Modern Israeli Film
(same as FILMS_VS 3845). Examines the modern film of developing Israel. Discusses complex social relationships. Introduces concepts of Hebrew language and its use in the arts world-wide. Discusses varied communities in Israel, and universal themes such as democracy and social justice. Provides introduction to Israeli culture. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: sophomore standing or instructor's consent required

History Courses

HIST 1004: Undergraduate Topics in History-Social Science
Organized study of selected topics. Subjects and credits may vary from semester to semester. May be repeated for credit with departmental consent.
Credit Hour: 1-3

HIST 1100: Survey of American History to 1865
Introduction to U.S. history through the Civil War, surveying political, economic, social and cultural development of the American people. No credit will be given to students who have received credit in HIST 1400 (AP credit for US History).
Credit Hours: 3

HIST 1100H: Survey of American History to 1865 - Honors
Introduction to U.S. history since 1865, surveying political, economic, social, and cultural development of the American people. No credit will be given to students who have received credit in HIST 1400 (AP credit for US History).
Credit Hours: 3
Prerequisites: Honors eligibility required

HIST 1200: Survey of American History Since 1865
Introduction to U.S. history since 1865, surveying political, economic, social, and cultural development of the American people. No credit will be given to students who have received credit in HIST 1400 (AP credit for US History).
Credit Hours: 3

HIST 1200H: Survey of American History Since 1865 - Honors
Introduction to U.S. history since 1865, surveying political, economic, social, and cultural development of the American people. No credit will be given to students who have received credit in HIST 1400 (AP credit for US History).
Credit Hours: 3
Prerequisites: Honors eligibility required

HIST 1400: American History
Broad survey of political, economic, social, intellectual, diplomatic and constitutional development of American people from first English settlements to present day; emphasizes evolution of American culture and institutions. Students may not receive additional credit for HIST 1100 and/or HIST 1200.
Credit Hours: 5

HIST 1410: African American History
(same as BL_STU 1410). Survey of social, political and economic development to the African American people in American life from 1619 to the present.
Credit Hours: 3

HIST 1500: Origins of European History
(same as HIST 1500H). The roots and development of European culture, society, and institutions in the ancient, medieval, and early modern periods.
Credit Hours: 3

HIST 1500H: Origins of European History - Honors
(same as HIST 1500) The roots and development of European culture, society, and institutions in the ancient, medieval, and early modern periods.
Credit Hours: 3
Prerequisites: Honors eligibility required

HIST 1510: History of Modern Europe
Selected major themes in European history from French Revolution to recent times. Breakdown of traditional institutions, ideas; political, social revolution; industrialization, nationalism, imperialism, world wars; democratic, totalitarian ideologies, movements; quest for international order, European unity.
Credit Hours: 3

HIST 1510H: History of Modern Europe - Honors
Selected major themes in European history from French Revolution to recent times. Breakdown of traditional institutions, ideas; political, social revolution; industrialization, nationalism, imperialism, world wars; democratic, totalitarian ideologies, movements; quest for international order, European unity.
Credit Hours: 3
Prerequisites: Honors eligibility required

HIST 1510HW: History of Modern Europe - Honors/Writing Intensive
Selected major themes in European history from French Revolution to recent times. Breakdown of traditional institutions, ideas; political, social revolution; industrialization, nationalism, imperialism, world wars; democratic, totalitarian ideologies, movements; quest for international order, European unity.

Credit Hours: 3
Prerequisites: Honors eligibility required

HIST 1520: The Ancient World
Survey of institutional and cultural development of ancient Near East, Greece, Rome, and Asia.

Credit Hours: 3

HIST 1540: England Before the Glorious Revolution
Survey of English institutions, culture and politics from the Roman invasion to the Revolution of 1688.

Credit Hours: 3

HIST 1550: Britain 1688 to the Present
Surveys British history from 1688 to present. Emphasizes social and economic change.

Credit Hours: 3

HIST 1570: Survey of Early Modern Europe, 1350-1650
Survey of Western and Central Europe (including Britain) from the Black Death to the end of the Thirty Years’ War. This period comprises late medieval crises, the Renaissance, Reformation, Counter-Reformation, Exploration and the New World, the Confessional Age, early modern state-building, and the Thirty Years’ War.

Credit Hours: 3

HIST 1590: Women and the Family in the Pre-Modern West
Examines the changing roles of women and familial structures from the Ancient Mediterranean World to the Protestant Reformation and the effects of religious, political and economic change on the family.

Credit Hours: 3

HIST 1600: Foundations of Russian History
A survey of the Kievan and Muscovite period to the end of the 17th century.

Credit Hours: 3

HIST 1790: History of Early Africa
(same as BL_STU 1790). This course introduces students to the early history of Africa. It focuses on political, social, economic and cultural developments based on primary and secondary sources available in print and online.

Credit Hours: 3

HIST 1800: History of Modern Africa
(same as BL_STU 1800). This course introduces students to the recent history of Africa. It provides them with an opportunity to understand the main challenges Africans faced since colonial times based on primary and secondary sources.

Credit Hours: 3

HIST 1830: Survey of East Asian History
(same as KOREAN 1830). Introductory survey of the history of East Asian countries (China, Korea, Vietnam, and Japan) in the past two thousand years, focusing on their cultural, economic, and political traditions as well as their transformations in the modern era.

Credit Hours: 3

HIST 1840: Colonial Latin America
Survey of Latin America, 1492-1825; Exploration and conquest; European settlement; colonial government and institutions; economy and society; cultural and intellectual life, independence movements.

Credit Hours: 3

HIST 1850: Latin America Since Independence
Political, social and economic developments; nationalism; revolutionary movements; U.S. influence.

Credit Hours: 3

HIST 1861: History of Modern India
(same as S_A_ST 1861). This course surveys the history of the South Asian subcontinent from the early seventeenth through the twentieth century. Emphasis will be placed on cultural and social history, religion, arts and literature, imperialism and colonialism, and the sources used for the study of modern civilizations. Students will develop a basic knowledge and vocabulary necessary to pursue additional South Asian courses.

Credit Hours: 3

HIST 1871: History of China in Modern Times
This is a lecture course designed to introduce to beginning level students the epic journey of China’s historical transformation since c. 1600. This survey provides a basis for understanding the painstaking transition from ‘tradition’ to ‘modernity’ in China.

Credit Hours: 3

HIST 1872: Mao’s China and Beyond: China Since 1949
Through a series of readings, images, and film we will look at the dramatic cultural, economic, social and intellectual changes the People’s Republic of China has experienced since 1949, and look at the intertwined, yet often contradictory, challenges facing Beijing in regards to the task of furthering economic prosperity while promoting policies of integrating with the international society.

Credit Hours: 3

HIST 2004: Topics in History-Social Science
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent.
HIST 2100: The Revolutionary Transformation of America (same as CNST_DEM 2100). In the broadest of terms, this is a course on origins. On one hand, we will devote significant class time to discussing ‘the causes which impelled’ the colonies to throw off the yoke of British rule. We will examine this on both a practical and a more abstract level, focusing first on writings that delineate why colonists grew to perceive the economic, social, and political conditions of British rule as insufferable, and then on how they translated these practical concerns into a more ideological justification of violent revolution.

Credit Hours: 3

HIST 2100H: The Revolutionary Transformation of America - Honors (same as CNST_DEM 2100H). In the broadest of terms, this is a course on origins. On one hand, we will devote significant class time to discussing ‘the causes which impelled’ the colonies to throw off the yoke of British rule. We will examine this on both a practical and a more abstract level, focusing first on writings that delineate why colonists grew to perceive the economic, social, and political conditions of British rule as insufferable, and then on how they translated these practical concerns into a more ideological justification of violent revolution.

Credit Hours: 3

Prerequisites: Honors eligibility required

HIST 2120: The Young Republic (same as CNST_DEM 2120). This course examines the early years of the United States under the (then) new Constitution, an important historical period with which present-day Americans are increasingly unfamiliar. Our focus will be on abandoning our preconceptions about the nation’s early history and thoroughly understanding the choices that were posed and made in the years after 1789 and that would determine what type of nation the U.S. would become.

Credit Hours: 3

HIST 2120H: The Young Republic - Honors (same as CNST_DEM 2120H). This course examines the early years of the United States under the (then) new Constitution, an important historical period with which present-day Americans are increasingly unfamiliar. Our focus will be on abandoning our preconceptions about the nation's early history and thoroughly understanding the choices that were posed and made in the years after 1789 and that would determine what type of nation the U.S. would become.

Credit Hours: 3

Prerequisites: Honors eligibility required

HIST 2150: The American Civil War: A Global History (same as CNST_DEM 2150). In this class students will study the American Civil War from the perspective of global history. The familiar actors and events will be covered - the debate over slavery, the secession of the South, the rise of Abraham Lincoln, the great battles and generals, etc. But these familiar episodes will take on different meanings when viewed in relation to global structures of politics, economics, social relations, and ideology. The 1860s was at once a formative moment in the history of globalization and the key decade for the formation and consolidation of modern nations.

Credit Hours: 3

HIST 2210: Twentieth Century America (same as CNST_DEM 2210). Survey of American development from 1900 to present. For students who have not taken advanced courses in American history, especially HIST 4210, HIST 4220, or HIST 4230.

Credit Hours: 3

HIST 2220: America in the 1960’s (same as PEA_ST 2220). Examines the political and cultural main currents of the 1960s. Emphasizes the challenges mounted by protest groups and the responses of America’s political leadership to the ferment of the period.

Credit Hours: 3

HIST 2230: Walt Disney and American Culture Examines Walt Disney's influence on shaping of modern American culture.

Credit Hours: 3

HIST 2240: Flight in America: From the Wright Brothers to the Space Age This course focuses on the history of flying in the U.S. from its beginnings to the Apollo moon missions. In a little over a century, aviation and space flight have transformed our world in deep and enduring ways. We will focus on key innovations and the people behind them. This is an exciting story, full of fascinating men and women.

Credit Hours: 3

HIST 2400: Social History of U.S. Women (same as WGST 2400). This course, the social History of US Women, offers a general overview of US Women, beginning with the colonial period up to the present day.

Credit Hours: 3

HIST 2410: African American Women in History (same as BL_STU 2410 and WGST 2410). African American Women in history is a topics course covering major issues affecting black women since their introduction into english-speaking North America to the present.

Credit Hours: 3

HIST 2430: History of American Religion (same as CNST_DEM 2430). Examines Walt Disney’s influence on shaping of modern American culture.

Credit Hours: 3

HIST 2440: History of Missouri Survey of Missouri’s development from the beginning of settlement to present.

Credit Hours: 3
HIST 2445: American Constitutional Democracy
(same as POL_SC 2445, CNST_DEM 2445). This course offers an introduction to American constitutional democracy. On the one hand, this course will strive to set the development of America's constitutional democracy into its historical context and to explain it in relation to larger social, political, military, and economic events. A second emphasis is on the nature and character of the American democratic system. Graded on A-F basis only.

Credit Hours: 3

HIST 2520: From Waterloo to Sarajevo: European History, 1815-1914
Political, social, economic, and cultural development of Europe from French Revolution to outbreak of World War I.

Credit Hours: 3
Prerequisites: sophomore standing required

HIST 2520W: From Waterloo to Sarajevo: European History, 1815-1914 - Writing Intensive
Political, social, economic, and cultural development of Europe from French Revolution to outbreak of World War I.

Credit Hours: 3
Prerequisites: sophomore standing required

HIST 2530: Ukrainian History from Medieval to Modern Times
A successor state of the former Soviet Union, Ukraine occupies a strategic position in Eastern Europe. The course will trace the long, turbulent history of this East Slavic nation, culminating in the independence in 1991.

Credit Hours: 3

HIST 2570: The First World War and its Aftermath
(same as CNST_DEM 2570). This course examines the experience of Europeans in the turbulent years during and immediately following the First World War. After investigating the origins and nature of WWI, we will then examine the political, social and cultural climate of the interwar years.

Credit Hours: 3

HIST 2580: Mafia Myth and Reality: The Italian Mafia and the Nation-State, 1860 to the Present
This course explores contemporary cultural representations of the Mafia in film and literature and grounds these fictional representations in the history of modern Italy. We trace the emergence of the various Mafia networks during the wars of the Risorgimento and the construction of the 'southern problem', and the impact transnational Italian migration, the rise of Fascism and the postwar reconstruction had on the form and function of these networks.

Credit Hours: 3

HIST 2590: Epidemics and Society
This course is an interdisciplinary survey of epidemic diseases from the ancient to modern eras. We will focus on the conditions that have given rise to epidemics and how different societies have understood and responded to them. We will trace the connections of epidemic diseases to increased globalization, examining links between epidemics and warfare, exploration, colonization, and trade networks. This course will conclude with a discussion of newly emerging diseases in the contemporary world.

Credit Hours: 3

HIST 2630: History of Christian Traditions
(same as REL_ST 2630). An overview of the origins and development of Christianities from the first century of the Common Era to the present day. Topics will include competing Christian theologies, colonialism, conversion narratives, globalization, religious violence, and heresy.

Credit Hours: 3

HIST 2700: History of Pirates: Maritime Raiding From the Ancient to the Modern Eras
This course examines piracy from the ancient to the modern world, with a particular focus on the Mediterranean and Atlantic from the 15th through the 18th centuries. We'll look at a variety of firsthand accounts of piracy as well as historical interpretations of the motivations for and impact of piracy.

Credit Hours: 3

HIST 2710: History of Korea: Premodern to Hypermodern
(same as KOREAN 2810). This course examines Korea historically. The area known as Korea and the people identified as Korean are considered temporally from the ancient times to the contemporary period. This course begins with the questions of what is Korea and when it became a distinct place in world history.

Credit Hours: 3

HIST 2810: Taiwan: The First Chinese Democracy
This course is an introduction to the history of Taiwan, from the seventeenth century to the present day. This course examines historical development leading to the contemporary situation. It problematizes the notion that 'democracy is not suitable for Chinese society.'

Credit Hours: 3

HIST 2904: Black Studies in Slavery and Freedom
(same as BL_STU 2904). This course provides study of historical background, economic, political and social implications of slavery and freedom in the African Diaspora (Americas, Africa, Europe, Asia) as well as the legal and extralegal struggles for and meaning of (global, local, and national) freedom.

Credit Hours: 3

HIST 2950: Sophomore Seminar
This course is designed to introduce history majors to the experience of doing original research early in their undergraduate career. Topic will vary.

Credit Hours: 3
Prerequisites: departmental consent required
HIST 2950W: Sophomore Seminar - Writing Intensive
This course is designed to introduce history majors to the experience of doing original research early in their undergraduate career. Topic will vary.

**Credit Hours:** 3
**Prerequisites:** departmental consent required

---

HIST 3000: History of Religion in America to the Civil War
(same as REL_ST 3000). Studies major American religious traditions from the Age of Discovery to the Civil War, especially the evolution of religious practices and institutions and their influence upon American social, intellectual and political developments.

**Credit Hours:** 3
**Prerequisites:** sophomore standing

---

HIST 3010: Colonial America
This course will examine major colonial American events from a cultural history standpoint. We will explore the ways in which the famous and not so famous shaped and were shaped by events of the seventeenth and eighteenth centuries and how these people understood the changing meaning of American liberty.

**Credit Hours:** 3

---

(same as BL_STU 3200). Examines the dismantling of American apartheid and its transformation into a new racial control system. It also explores how and why the Civil Rights Movement was converted into a struggle for Black Power.

**Credit Hours:** 3

---

HIST 3210: History of Religion in Post-Civil War America
(same as REL_ST 3210). Surveys major American religious traditions from 1865 to the present. Focuses on the evaluation of religious practices and institutions and their interaction with and influence upon American social, intellectual and political developments.

**Credit Hours:** 3

---

HIST 3220: U.S. Women's Political History, 1880-Present
(same as WGST 3220). This course explores American women’s engagement with American politics (broadly defined) over the course of the twentieth century. It addresses issues of political identity, organization, ideology, and division.

**Credit Hours:** 3
**Prerequisites:** sophomore standing

---

HIST 3230: Individualism and Success in Modern America, 1830-Present
This course explores changing notions of individualism and success in American culture during the 19th and 20th centuries. Standards defining achievement, gain, and happiness for the individual citizen have evolved over time, and we will examine a wide variety of sources - advice literature, essays, novels, historical texts, plays and movies, political and religious texts, social criticism - to analyze this broad evolution. The resulting insights into a variety of historical issues and values, problems and possibilities, promise to forge a deeper understanding of what it has meant to be a successful individual in the United States over the last two hundred years.

**Credit Hours:** 3

---

HIST 3485: The United States and the Middle East
This course will explore the history of American relations with the Middle East. How have U.S. Policy-makers defined American interests in this region? How have they sought to protect and advance those interests? We will consider the cultural stereotypes and assumptions Americans have brought to their relations with the Middle East, and the images of the Middle East that have been projected in American popular culture. Finally, we will explore the ways in which the current political situations in the Middle East reflects the results of past U.S.

**Credit Hours:** 3

---

HIST 3510: The Ancient Greek World
Political and social institutions, intellectual life of Greek city-states to time of Alexander.

**Credit Hours:** 3

---

HIST 3520: The Roman World
Rise and development of Roman institutions, Rome's imperialism and culture through reign of Marcus Aurelius.

**Credit Hours:** 3

---

HIST 3530: The Hellenistic World: From Alexander to Rome
The achievements of Alexander the Great; political, social, economic development of Hellenistic kingdoms from his death to 31 B. C.

**Credit Hours:** 3

---

HIST 3540W: 20th Century Europe - Writing Intensive
Political, social, and economic development of Europe from 1900 to the present, with emphasis on the period between the two world wars.

**Credit Hours:** 3

---

HIST 3540: 20th Century Europe
Political, social, and economic development of Europe from 1900 to the present, with emphasis on the period between the two world wars.

**Credit Hours:** 3

---

HIST 3550: Science and Medicine in Ancient and Medieval Europe
This course explores how ancient observations and theories about the natural world and the human body led to the development of ‘natural philosophy’ and medicine as fields of expertise. We will be examining attitudes and beliefs about the natural world and man's place within it from Egyptian-Babylonian roots through the Middle Ages.

**Credit Hours:** 3

---

HIST 3555: Galileo and His World
(same as GN_HON 3230H). The purpose of this course is to evaluate Galileo's contribution to modern science on the basis, primarily, of his actual writings. In the process, we will examine the 'Galileo Myth', focusing on the problem of scientific truth and freedom of thought.

**Credit Hours:** 3
**Prerequisites:** sophomore standing
Credit Hours: 3

HIST 3560: The Scientific Revolution
We will examine changing scientific beliefs and practices from 1500 to 1800, a time often referred to as the Scientific Revolution and as the birth of modern science. At the core, this is an examination of how knowledge itself changed: how it was gathered, tested and disseminated. We will also examine how the study of the natural world branched from one subject (‘natural philosophy’) into multiple specialized disciplines including astronomy, physics, botany, biology, geology and chemistry.

Credit Hours: 3
Prerequisites: sophomore standing

HIST 3570: European Women in the 19th Century
(same as WGST 3570). Examines the history of European women from 1750 to 1900. The course focuses on how industrialization, the French Revolution and nation-formation changed women's roles in the family, workplace and the state. Grading: exams, papers and discussions.

Credit Hours: 3
Prerequisites: sophomore standing

HIST 3580: Modern Italy, 1815 to the Present
Political, cultural and social history of Italy since 1815. Looks at how Unification, World War, Fascism, the Cold War, Student protests, the women's movement and the end of the USSR shaped contemporary Italy.

Credit Hours: 3

HIST 3590: The Early Middle Ages
This course will focus on the social, political, economic, and cultural development of Europe from roughly 300 to 1050.

Credit Hours: 3
Prerequisites: sophomore standing

HIST 3610: Ireland, 1100s to 1850
(same as PEA_ST 3610). Ireland, from Conquest to Famine: Ireland's history as the first British Colony, from the conquests of the 1100s and 1500s-1600s to the Irish rebellion of 1798 and the Great Famine and mass emigration of 1845-50.

Credit Hours: 3
Prerequisites: sophomore standing

HIST 3611: Ireland, 1850-1923
(same as PEA_ST 3611). Ireland, from Famine to Partition: Irish history from the Great Famine of 1845-50 to the revolutions of 1916-23 that brought partial independence from Britain but partitioned Ireland into two hostile and trouble states.

Credit Hours: 3
Prerequisites: sophomore standing

HIST 3612: Ireland, 1920-Present
(same as PEA_ST 3612). Ireland, from Partition to the Present: After surveying the conflicts that led to Irish revolution and partition in 1916-23, the course focuses on the development of post partition Ireland and Northern Ireland, and on the violence that has scarred Northern Ireland since the 1960s.

Credit Hours: 3
Prerequisites: May be restricted to History majors only during preregistration
Recommended: HIST 3610 and/or HIST 3611

HIST 3624: Comparative Approaches to Black Studies in History
(same as BL_STU 3624). Comparative approach to the study of Black Diaspora history that focuses on the theory, method, structure, and application of modes of cultural production within the history of Black Diaspora cultures. Program consent for repetition.

Credit Hours: 3

HIST 3624W: Comparative Approaches to Black Studies in History - Writing Intensive
(same as BL_STU 3624). Comparative approach to the study of Black Diaspora history that focuses on the theory, method, structure, and application of modes of cultural production within the history of Black Diaspora cultures. Program consent for repetition.

Credit Hours: 3

HIST 3630: Islam and the West
This course provides a historical intellectual context for the raging debate on Islam and the West. It will discuss how Muslims conceived and reacted variously to the political and cultural challenge the West posed in the nineteenth and twentieth century. It will focus on the discourse on the reception of modernization in Islam. It will highlight the political and cultural energies invested by various Muslim elite communities to distinguish between modernization and Westernization. Islamic fundamentalism, the dominant Islamic expression of our time, will be useful discussed in the context of this debate and praxis about modernization, authenticity, and Westernization.

Credit Hours: 3
Prerequisites: junior/senior standing

HIST 3650: History of Mexico
Survey of Mexican history from Cortes to present day.

Credit Hours: 3

HIST 3670: Social Revolution in Latin America
(same as PEA_ST 3670). Twentieth century social revolutions in selected Latin American countries.

Credit Hours: 3
HIST 4000: Age of Jefferson
(same as CNST_DEM 4000; cross-leveled with HIST 7000). Political, constitutional, cultural, and economic developments in United States during formative period of Republic, 1787-1828. Special attention to Constitutional Convention, formation of national political institutions.
Credit Hours: 3

HIST 4004: Topics in History-Social Science
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent.
Credit Hour: 1-6

HIST 4004H: Topics in History-Social Science - Honors
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent.
Credit Hour: 1-6
Prerequisites: Honors eligibility required

HIST 4004W: Topics in History-Social Science - Writing Intensive
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent.
Credit Hour: 1-6

HIST 4010: The Age of Jackson
(cross-leveled with HIST 7010). This course will examine American Politics, society and culture in the 1820's, 1830's, and 1840's. Considerable attention will be devoted to Andrew Jackson himself, as a figure who both shaped and represented his era, for better or worse.
Credit Hours: 3

HIST 4030: History of the Old South
(cross-leveled with HIST 4030). Study of the South to 1860.
Credit Hours: 3

HIST 4040: Slavery and the Crisis of the Union: The American Civil War Era
(same as BL_STU 4040, CNST_DEM 4040; cross-leveled with HIST 7040). This class explores the history of the Civil War era, a transformative moment in both U.S. and world history. Our goal is to explore and answer a number of questions of great historical significance: How and why did slavery persist in an age of liberal democracy? Why did the pre-war Union prove unable to tolerate the plural visions and diverse institutions of its people? Was the descent into war more a measure of institutional weakness than of the intensity of moral conflict? What were the constituent elements of the competing wartime 'nationalisms' that evolved in both north and south? How and why did a war that began to restore the Union become one for emancipation? How was it the forerunner of modern, 'total' warfare? Did the governmental, socio-economic and racial changes wrought by war constitute a "second American revolution"? Were the limits or the achievements of post-war Reconstruction more notable? And, last but certainly not least, how did the triumph of the Union condition the political and economic development of a rapidly globalizing world?
Credit Hours: 3

HIST 4060: The Period of the American Revolution, 1760-1789
Analysis of the Revolution, its causes and consequences, through establishment of the new government in 1789.
Credit Hours: 3

HIST 4070: Indians and Europeans in Early America
(cross-leveled with HIST 7070). A study of the cultural, political and often military struggle that took place for control of North America from contact through mid 19th century emphasizing native efforts to resist European domination and expansion in areas that became the U.S. and Canada.
Credit Hours: 3

HIST 4075: Global History in Oxford
(same as CNST_DEM 4075). This course examines global and transnational history in the ‘modern’ period since 1400. It includes an embedded week of study abroad at Oxford University (United Kingdom) over spring break.
Credit Hours: 4

HIST 4075H: Global History in Oxford - Honors
This course examines global and transnational history in the ‘modern’ period since 1400. It includes an embedded week of study abroad at Oxford University (United Kingdom) over spring break.
Credit Hours: 4
Prerequisites: Honors eligibility required

HIST 4080: American Foreign Policy from Colonial Times to 1898
(same as PEA_ST 4080, CNST_DEM 4080; cross-leveled with PEA_ST 7080, HIST 7080). This class probes the entwined development of the U.S. nation and empire, to the backdrop of accelerating structures of global economic integration, technological innovation, and the hardening of national, racial, and ideological formations.
Credit Hours: 3

HIST 4085: Special Problems in History
Independent investigation leading to a paper or project.
Credit Hour: 1-6
Prerequisites: Department consent required

HIST 4085H: Special Problems in History - Honors
Independent investigation leading to a paper or project.
Credit Hour: 1-99
Prerequisites: Honors eligibility required

HIST 4085W: Special Problems in History - Writing Intensive
Independent investigation leading to a paper or project.
Credit Hour: 1-6
Prerequisites: Department consent required
HIST 4100: American Cultural and Intellectual History to 1865
(same as CNST_DEM 4100; cross-level with HIST 7100). Origins and growth of American values and ideas considered in their social context. Topics include: the work ethic, republican politics, revivalism, reform movements, sexual attitudes, literature in the marketplace, Afro-American and slave-holding subcultures.

Credit Hours: 3

HIST 4200: American Cultural and Intellectual History Since 1865
Tensions and transformations in American culture to the present. Topics include: spiritual crisis in Christianity; rise of welfare state liberalism; socialist and feminist alternatives; literature and the arts.

Credit Hours: 3

HIST 4220: U.S. Society Between the Wars 1918-1945
(cross-leveled with HIST 7220). Detailed examination of American history from end of World War I to end of World War II.

Credit Hours: 3

HIST 4230: Our Times: United States Since 1945
(cross-leveled with HIST 7230). Detailed examination of American history from end of World War II to the present.

Credit Hours: 3

HIST 4235: The Wire: Race, Urban Inequality, and the 'Crisis' of the American City
(cross-leveled with HIST 7235). The HBO series 'The Wire', a crime drama based on the border city of Baltimore, exposed the interlocking, structural realities giving shape to the landscapes, neighborhoods, and lived experiences of urban America during the early twenty-first century. Through vivid storytelling, 'The Wire' complicates understandings of the 'urban crisis' through a focus on the inner workings of major institutions such as the media, public schools, politics, underground economies, public housing, and the criminal justice system and on the ways in which poor and working-class black residents negotiate power and survival. Using the cable series as a lens, this class offers students the opportunity to critically examine the historical, economic, social, and political dimensions of urban inequality.

Credit Hours: 3

HIST 4240: History of the New South
(cross-leveled with HIST 7240). Study of the South since 1860.

Credit Hours: 3

HIST 4250: U.S. Foreign Relations, 1898-1945
(cross-leveled with HIST 4250). A history of American Foreign Policy from the Spanish American War to the end of World War II.

Credit Hours: 3

Prerequisites: sophomore standing

HIST 4260: The Age of Ascendancy: U.S. Foreign Relations, 1945 - Present
(same as PEA_ST 4260; cross-leveled with HIST 7260). Surveys the Cold War in Europe and Asia, the Korean and Vietnam Wars, and Middle East policy.

Credit Hours: 3

HIST 4270: African-Americans in the Twentieth Century
(same as BL_STU 4270; cross-leveled with HIST 7270, BL_STU 7270). Surveys the African-American experience from 1900 to the present. Attention is given to economic, political, social, and cultural trends.

Credit Hours: 3

HIST 4280: America in the Reagan Years
(cross-leveled with HIST 7280). Examines the major political, economic, social, and cultural currents and developments of the 'Long Eighties,' from Jimmy Carter’s 'malaise speech' of July 1979 to Bill Clinton’s mid-1990s embrace of welfare reform and pronouncement that the era of big government was over.

Credit Hours: 3

HIST 4290: Innovation in 20th and 21st Century America
(cross-leveled with HIST 7290). This course focuses on innovations that have shaped our world and the people behind them, from Edison and the introduction of electric light to airplanes, transistors, semiconductors, fracking, subprime mortgages, televangelism, Uber, and Airbnb. The idea is not to determine which innovations are most important, but to examine how innovations are created and why some are successful and others are not.

Credit Hours: 3

HIST 4303: Black Studies in Race, Class, Gender and U.S. Policy
(same as BL_STU 4303; cross-leveled with HIST 7303, BL_STU 7303). Examines the causes and effects of the vast social and economic inequalities that exist between blacks and whites in US society, including the role federal, state and local government plays in creating and addressing such inequalities as financial, tax, environmental, trade, and foreign policies as well as issues of human and social welfare.

Credit Hours: 3

HIST 4310: Adoption, Child Welfare and the Family, 1850-Present
(same as WGST 4310; cross-leveled with HIST 7310 and WGST 7310). This interdisciplinary U.S. history course will address topics such as: changing legal and social meaning of adoption since 1850; historical connections between adoption and poverty, family, gender race, sexuality, class, fertility, identity; and more recent issues such as transnational adoption.

Credit Hours: 3

HIST 4320: Adoption, Child Welfare and the Family, 1850-Present
(same as CNST_DEM 4400; cross-level with HIST 7400). American law from English origins to present. Reviews common law, codification, legal reform movements, slavery law, administrative state, formalism, legal realism, jurisprudential questions concerning rule of law.
HIST 4415: African Americans and American Justice
(same as BL_STU 4415; cross-leveled with HIST 7415, BL_STU 7415). This course provides opportunities to review and discuss selected court cases and legislation in which black men, women, or children were plaintiffs and defendants or affected by the laws.

Credit Hours: 3

HIST 4415W: African Americans and American Justice - Writing Intensive
(same as BL_STU 4415W; cross-leveled with HIST 7415, BL_STU 7415). This course provides opportunities to review and discuss selected court cases and legislation in which black men, women, or children were plaintiffs and defendants or affected by the laws.

Credit Hours: 3

HIST 4425: The Superhero in American Culture From Washington to Wolverine
This course aims to help students become better informed and more critical consumers of popular culture by situating a selection of important American works and genres within the historical context of their creation, and in the history of American culture. Students will be challenged to look for historical patterns in popular culture and to consider the particular habits of thought and action that American popular culture seems to reinforce.

Credit Hours: 3

Prerequisites: HIST 1100 or HIST 1200 or HIST 1400 or HIST 2210

HIST 4430: The Great West in American History
(cross-leveled with HIST 7430). Historical development of major regions, with emphasis on response to environment, public land policy, role of government in economic and resource development, citizen action, and cultural pluralism.

Credit Hours: 3

HIST 4440: History of the American Environment
(cross-leveled with HIST 7440). A reading and discussion course exploring diverse responses to the changing American environment from early man to the present, including ecological, institutional, and philosophical aspects.

Credit Hours: 3

HIST 4445: American Political Economy from the Commerce Clause to the Great Recession
This course examines the history of the American political economy from the founding of the United States to the recent Great Recession. Scholars of political economy explore the ways in which politics and public policy intersect with economics, such as the operation of the institutions like the tax system, the first and second Banks of the United States in the late 18th and early 19th centuries, and the Federal Reserve after 1913. We will focus on efforts by the U.S. federal government to regulate the American economy and bring economic affairs under the control of the American people and their representatives through a wide variety of political, legal, and institutional mechanisms. A specialized knowledge of economics is not required for this course.

Credit Hours: 3

HIST 4445W: American Political Economy from the Commerce Clause to the Great Recession - Writing Intensive
This course examines the history of the American political economy from the founding of the United States to the recent Great Recession. Scholars of political economy explore the ways in which politics and public policy intersect with economics, such as the operation of the institutions like the tax system, the first and second Banks of the United States in the late 18th and early 19th centuries, and the Federal Reserve after 1913. We will focus on efforts by the U.S. federal government to regulate the American economy and bring economic affairs under the control of the American people and their representatives through a wide variety of political, legal, and institutional mechanisms. A specialized knowledge of economics is not required for this course.

Credit Hours: 3

HIST 4500: Philip II and Alexander the Great of Macadonia
(cross-leveled with HIST 7500). Concentrates on the history and politics of Greece during reigns of these two kings along with Alexander's military conquests and various controversies from the period.

Credit Hours: 3

HIST 4510: Crime and Punishment: Law in Classical Athens
(cross-leveled with HIST 7510). Examines the main principles of Athenian law and judicial procedures including history of law code and study of actual speeches from a variety of law suits and procedures.

Credit Hours: 3

HIST 4515: Power and Oratory in Ancient Greece
(cross-leveled with HIST 7515). Concentrates on the rise of oratory in Greece and how oratory was exploited for political ends. Special attention will be paid to the Athenian Democracy in the fifth and fourth centuries BC.

Credit Hours: 3

HIST 4520: The Rise and Fall of the Roman Republic
(cross-leveled with HIST 7520). Analysis of the downfall of Republican institutions and the origins of autocracy, from the Gracchi to the death of Augustus in A.D. 14.

Credit Hours: 3

HIST 4530: The Roman Empire
(cross-leveled with HIST 7530). Roman imperialism; management of, and rebellion in, the Empire; cultural exchange between Rome and its provinces.

Credit Hours: 3

HIST 4535: Monastic Worlds
(same as REL_ST 4535, MDVL_REN 4535; cross-leveled with REL_ST 7535, MDVL_REN 7535). Monastic Worlds is an experiential learning course designed to serve as a Humanities Field School in medieval and
early modern studies. It will be taught by faculty from UMKC and UMC through the Intercampus Course Sharing initiative. The class introduces students to humanities research methodology and the religious history and culture of premodern Europe and the contemporary Midwest by using the monastic communities as a focal point to learn about musicology, history, art history, literature, and religion. Following two weeks of online course modules, students will travel to the Benedictine communities of Conception Abbey in Conception, Missouri and Mount Saint Scholastica's in Atchison, Kansas, for additional face-to-face classes and research projects. On-site, students will participate in communal living and attend face-to-face classes on the historical and cultural worlds of medieval and early modern Europe. They will practice ethnography through observation of and participation in communal life of prayer, study, book production, and labor. Students will also have the opportunity to work with the manuscripts and rare books owned by these communities and visit the largest reliquary collection in North America, housed at the nearby Benedictine community of the Sisters of Perpetual Adoration in Clyde, MO. This course has an associated fee. Contact teaching faculty for this year’s fee details. Graded on A/F basis only.

Credit Hours: 3

HIST 4540: The Later Roman Empire
(cross-leveled with HIST 7540). Political, religious and cultural life in Late Antiquity, from the ‘soldier emperors,’ to the barbarian kingdoms and early Byzantium.

Credit Hours: 3

HIST 4550: Age of the Vikings
(cross-leveled with HIST 7550). Scandinavia and Scandinavian expansion in the Central Middle Ages. Covers political, economic, religious, and cultural effects of the Viking movement.

Credit Hours: 3
Prerequisites: junior standing required
Recommended: HIST 1500, HIST 1540, HIST 1600 or HIST 2560

HIST 4550W: Age of the Vikings - Writing Intensive
(cross-leveled with HIST 7550). Scandinavia and Scandinavian expansion in the Central Middle Ages. Covers political, economic, religious, and cultural effects of the Viking movement.

Credit Hours: 3
Prerequisites: junior standing required
Recommended: HIST 1500, HIST 1540, HIST 1600 or HIST 2560

HIST 4555W: Medieval France - Writing Intensive
(cross-leveled with HIST 7555). This course covers the area that became the kingdom of France from the end of the Roman era until the end of the Hundred Years War; emphasis on political and cultural developments.

Credit Hours: 3
Prerequisites: junior standing
Recommended: Previous coursework in medieval history

HIST 4560: The Crusades
(cross-leveled with HIST 4560). Survey of the European crusading movement from its inception in the late eleventh century to its decline during the later Middle Ages.

Credit Hours: 3

HIST 4560: The Crusades
Prerequisites: junior standing

HIST 4560: The Crusades: Identity, Culture, Empire
(cross-leveled with HIST 7580). This course will explore some of the ideas, institutions and events that shaped modern Western civilization and thought, focusing on Western Europe, but also giving attention to the relationship between the West and the rest of the world. The course will introduce topics such as the rise of, nationalism, the cult of science, scientific racism and sexism, consumer mass culture, fascist ideology, existentialism, psychoanalysis, the modern city, gender and sexuality.

Credit Hours: 3

HIST 4565: Age of the Vikings - Writing Intensive
(cross-leveled with HIST 7550). Scandinavia and Scandinavian expansion in the Central Middle Ages. Covers political, economic, religious, and cultural effects of the Viking movement.

Credit Hours: 3

HIST 4570: Age of the Renaissance
(cross-leveled with HIST 7570). Humanism and Renaissance. The 'Renaissance problem'.

Credit Hours: 3

HIST 4580: The 'Making' of Modern Europe: Identity, Culture, Empire
(cross-leveled with HIST 7580). This course will explore some of the ideas, institutions and events that shaped modern Western civilization and thought, focusing on Western Europe, but also giving attention to the relationship between the West and the rest of the world. The course will introduce topics such as the rise of, nationalism, the cult of science, scientific racism and sexism, consumer mass culture, fascist ideology, existentialism, psychoanalysis, the modern city, gender and sexuality.

Credit Hours: 3

HIST 4585: Rome from Fascism to Liberation, 1922-1944
In this course we will explore the history of Fascism and German occupation in Italy through the city of Rome. We will study how fascism remade Rome, the arrival of the Germans, the history of the Jewish community and the deportations and the resistance.

Credit Hours: 3

HIST 4605: Early Modern Spain, 1450-1750
(cross-leveled with HIST 7605). In this course, we begin with Fernando and Isabel, whose marriage brought together the two principle territories of Castile and Aragon, leading to the beginnings of a 'united' Spain. As we trace the political and social history of Spain through the early modern era, we'll also be examining the many myths surrounding Spanish history including topics such as the Columbus' voyages, the Spanish Inquisition and the Black Legend.

Credit Hours: 3

HIST 4620: Modern England
(cross-leveled with HIST 7620). Surveys British history in the 18th and 19th centuries. Emphasizes social and economic change.

Credit Hours: 3

HIST 4625: Nature vs. Nurture: The History of a Debate
(cross-leveled with HIST 7625). The purpose of this course is to explore the debate on nature vs. nurture in human society from the late eighteenth century to the present. The goal of this course is to give biology, history, and social science (including journalism) majors a better understanding of how this debate between nature and culture has played out over the past 250 years, and what impact it has left on biology, the social sciences, and public discourse today.

Credit Hours: 3

HIST 4630: The Age of the Renaissance
(cross-leveled with HIST 7630). Major changes in European economic, social, political, religious, and intellectual life between 1250-1500. Humanism and Renaissance. The 'Renaissance problem'.

Credit Hours: 3

HIST 4640: The Age of the Reformation
(cross-leveled with HIST 7640). State of Europe about 1500. Political, diplomatic, social, and intellectual changes to 1648. Humanistic reform
movements, Protestant-Catholic Reformation. Development of the modern state and international relations.

Credit Hours: 3

HIST 4645: Witchcraft and Witch Hunting in Pre-Modern Europe
(cross-leveled with HIST 7645). The surviving evidence indicates that between 1400 and 1700, at least 50,000 women, men, and children were executed for practicing witchcraft. Is there an explanation for this? Does it make any sense in terms of the intellectual, religious, social, political, and economic contexts of this period in European history? Fundamental to this course are the assumptions that there are many, not one, reasonable explanations for witchcraft beliefs and persecutions, and that when studied in the various historical contexts this phenomenon must be understood as an integral part of European society during these centuries.

Credit Hours: 3

HIST 4650: Revolutionary France, 1789-1815
(cross-leveled with HIST 7650). Revolutionary upheavals of the revolutionary-Napoleonic era, which destroyed traditional French society and laid the basis for modern France.

Credit Hours: 3

Prerequisites: junior standing

HIST 4660: Gender, War, and Migration: Europe, 1914 to the Present
(same as WGST 4660; cross-leveled with HIST 7660, WGST 7660). Scholars have long recognized the fundamental ways that war and migration marked the lives of European women and men in the 20th century, and yet, rarely have they focused on the interrelations between mobilities, violence and gender. This class explores how war and mass migrations inscribed new gendered, racial and class hierarchies into the European landscape, and created new kinds of political and social divides. The total wars of World War I and World War II, requiring the participation of civilians and soldiers, erasing lines separating the home front from the battlefield, forcing millions to flee their homes, and drawing men and women from the colonies into the war effort reshaped notions of gender, work, family, nation and citizenship within Europe. The subsequent wars of decolonization and post war migrations, followed by the conflicts that erupted at the end of the Cold War challenged the postwar gender ideals underpinning the European welfare state and the European Union, and fueled the rise of contemporary xenophobic and racist populist movements. Course materials will include historical monographs, articles, novels, memoirs and films.

Credit Hours: 3

HIST 4670: From the Holy Roman Empire to the First World War: German History, 1750-1918
(cross-leveled with HIST 7670). Cultural, social and political history of Central Europe from 1800 to 1914. A case study in incomplete modernization, focused on industrialization, unification, cultural crisis and imperialism.

Credit Hours: 3

HIST 4670W: From the Holy Roman Empire to the First World War: German History, 1750-1918 - Writing Intensive
(cross-leveled with HIST 7670). Cultural, social and political history of Central Europe from 1800 to 1914. A case study in incomplete modernization, focused on industrialization, unification, cultural crisis and imperialism.

Credit Hours: 3

HIST 4680: From the Rise of the Nazis to the Fall of the Wall: German History in the Twentieth Century
(cross-leveled with HIST 7680). Cultural, social and political history from 1914 to present day. Focus on world wars, national socialism, the holocaust, the cold war and the emergence of East and West Germany.

Credit Hours: 3

HIST 4680W: From the Rise of the Nazis to the Fall of the Wall: German History in the Twentieth Century - Writing Intensive
(cross-leveled with HIST 7680). Cultural, social and political history from 1914 to present day. Focus on world wars, national socialism, the holocaust, the cold war and the emergence of East and West Germany.

Credit Hours: 3

HIST 4700: Imperial Russia, 1682-1825
(cross-leveled with HIST 7700). Russia in the 18th and early 19th centuries, with special emphasis on the reigns of Peter I, Catherine II, and Alexander I.

Credit Hours: 3

HIST 4710: The Russian Revolution
(cross-leveled with HIST 7710). Analyzes the transformation of Russian society that produced the collapse of autocracy, efforts to create a parliamentary government, the Bolshevik seizure of power in 1917, and the civil war that followed.

Credit Hours: 3

HIST 4740: Modern China and Japan: War, Imperialism and Memory
(cross-leveled with HIST 7800). This course examines the interaction between Japan and China since the late nineteenth century in an effort to understand deeper historical reasons behind the rising tension in East Asia at the present time.

Credit Hours: 3

HIST 4815: African History Through the Digital Medium
(cross-leveled with HIST 7815). This course invites students to explore the history of Africa through the digital medium. It offers a hands-on approach to understand how knowledge about African history, culture, and society is produced and disseminated over the World Wide Web.

Credit Hours: 3

HIST 4815W: African History Through the Digital Medium - Writing Intensive
(cross-leveled with HIST 7815). This course invites students to explore the history of Africa through the digital medium. It offers a hands-on approach to understand how knowledge about African history, culture, and society is produced and disseminated over the World Wide Web.

Credit Hours: 3

HIST 4821: Constitutionalism in the Americas
(cross-leveled with HIST 7821). This course looks at the history of constitutions and constitutional democracy in the Americas as a whole - the United States and Latin America. The U.S. Constitution was a
pioneering document in the Americas, and this course examines the international influence of the United States' experiment with constitutional democracy. While the course will examine the inspiration of the U.S. Constitution, it will also examine republics that drew upon the same philosophical antecedents that inspired the founders of the United States but may have opted for different forms and practices.

Credit Hours: 3

HIST 4821W: Constitutionalism in the Americas - Writing Intensive (cross-leveled with HIST 7821). This course looks at the history of constitutions and constitutional democracy in the Americas as a whole - the United States and Latin America. The U.S. Constitution was a pioneering document in the Americas, and this course examines the international influence of the United States' experiment with constitutional democracy. While the course will examine the inspiration of the U.S. Constitution, it will also examine republics that drew upon the same philosophical antecedents that inspired the founders of the United States but may have opted for different forms and practices.

Credit Hours: 3

HIST 4840: History of the Mongols (cross-leveled with HIST 7840). In the 13th century, the Mongols went from warring tribes to the largest Eurasian empire in history. This course examines the Mongol tribes, Chinggis Khan's unification of the tribes, the Mongols rapid military victories across Eurasian and their equally rapid decline.

Credit Hours: 3

HIST 4850: Traversing the Muslim World (same as S_A_ST 4850; cross-leveled with HIST 7850). The traveler's tale formed an important part of the medieval world's system of knowledge. This writing intensive seminar-style course examines a wide array of the most influential travelers in Muslim lands such as Ibn Fadlan, Ibn Battuta, Benjamin of Tudela and Marco Polo.

Credit Hours: 3

HIST 4850W: Traversing the Muslim World - Writing Intensive (same as S_A_ST 4850; cross-leveled with HIST 7850). The traveler's tale formed an important part of the medieval world's system of knowledge. This writing intensive seminar-style course examines a wide array of the most influential travelers in Muslim lands such as Ibn Fadlan, Ibn Battuta, Benjamin of Tudela and Marco Polo.

Credit Hours: 3

HIST 4865: Buying Desire: History of Consumption (cross-leveled with HIST 7865). This course explores the history of consumption practice in various cultural contexts. The course is divided into four parts: 'Masses As Consumers', 'Selling/Consuming Cultures', 'Consumption as (Postcolonial) Modernity', and 'Consumption and the Nation'. Under each section are thematically related texts on particular cultural contexts. The reading of ethnographic texts on consumption is to be accompanied by critical discussions that locate consumption within the practices of the nation-state-making and global product-marketing.

Credit Hours: 3

HIST 4867: North Korea: History, Political Economy, Culture (same as KOREAN 4867; cross-leveled with HIST 7867). The aim of this course is to survey North Korea's history, especially in terms of political economy and culture. Through several themes, we will examine the historical situations of North Korea from its beginnings in the postliberation period to the present, as North Korea undergoes monumental changes.

Credit Hours: 3

HIST 4870: Southeast Asia Since the Eighteenth Century
The general objective of this course is to introduce students to the fascinating world of Southeast Asia. We will look at the shared history of commodity, cultural, and religious exchanges that gave this region a collective character, as well as explore the historical conditions from which individual modern Southeast Asian state emerged.

Credit Hours: 3

HIST 4880: Chinese Migration: From Yellow Peril to Model Minority (same as POL_SC 4900, CNST_DEM 4900). This course surveys Chinese emigration in the global context over the span of five centuries. We will pay special attention to the changing relationships between China and Chinese migrants. Our emphasis will be on history as a process of negotiation and contestation of heterogeneous groups or individuals through creative and selective acts.

Credit Hours: 3

HIST 4900: Beltway History: American Constitutional Democracy in Theory and Practice (same as POL_SC 4900, CNST_DEM 4900). This course is an experiential overview of American political history for students participating in the Kinder Forum's Washington internship program, showing how American constitutional democracy was developed and implemented right here on the Potomac, as much as possible in the actual places where the events occurred. Emphasis will be placed on the interplay between constitutional theory and actual political experience over time, and the tensions and institutional changes that emerged as Americans and their government coped with cataclysmic social changes, unparalleled economic development, and fearsome international challenges.

Credit Hours: 3

HIST 4904: Historical and Contemporary Slavery (same as BL_STU 4904). An exploration of slavery in both its historical and contemporary context, focusing on the origins, characteristics, and struggles to abolish the practice. Historical slavery examined using
African enslavement in the Americas, and contemporary slavery using human trafficking and forced labor in the developed and developing world.

**Credit Hours: 3**

**HIST 4910: History in the Public: An Introduction to the Theory and Practice of Public History**
(cross-leveled with HIST 7910). The purpose of this course is to introduce students to the world of public history, the central questions and debates in the field, and to offer students the opportunity to practice public history.

**Credit Hours: 3**

**HIST 4910W: History in the Public: An Introduction to the Theory & Practice of Public History - Writing Intensive**
(cross-leveled with HIST 7910). The purpose of this course is to introduce students to the world of public history, the central questions and debates in the field, and to offer students the opportunity to practice public history.

**Credit Hours: 3**

**HIST 4940: Internship in History**
Professional training in history and archive-related fields. Graded on S/U basis only.

**Credit Hours: 3**

**Prerequisites:** departmental consent

**HIST 4970: Undergraduate Seminar in Third World History**
Readings in selected problems in the history of Africa, Asia or Latin America with reports and discussion.

**Credit Hours: 3**

**Prerequisites:** departmental consent

**HIST 4970W: Undergraduate Seminar in Third World History - Writing Intensive**
Readings in selected problems in the history of Africa, Asia or Latin America with reports and discussion.

**Credit Hours: 3**

**Prerequisites:** departmental consent

**HIST 4971: Undergraduate Seminar in European History**
Readings in problems in European history with reports and discussion.

**Credit Hours: 3**

**Prerequisites:** departmental consent

**HIST 4971W: Undergraduate Seminar in European History - Writing Intensive**
Readings in problems in European history with reports and discussion.

**Credit Hours: 3**

**Prerequisites:** departmental consent

**HIST 4972: Undergraduate Seminar in American History**
Readings in selected problems in American history with reports and discussion on selected topics.

**Credit Hours: 3**

**Prerequisites:** departmental consent

**HIST 4972W: Undergraduate Seminar in American History - Writing Intensive**
Readings in selected problems in American history with reports and discussion on selected topics.

**Credit Hours: 3**

**Prerequisites:** departmental consent

**HIST 4975: Journal on Constitutional Democracy**
(same as POL_SC 4975, CNST_DEM 4975). The Journal is sponsored by the Kinder Institute on Constitutional Democracy and staffed by current and former participants in the Institute's undergraduate Society of Fellows program. Each volume of the Journal is organized around a student-selected idea or era central to the historical development and philosophical foundations of constitutional democracy in the United States. Student-authored essays address this theme via arguments and historical overviews crafted from the close reading and analysis of primary source documents, with the exception being that participating in the Journal will relate back to and advance students' study of American political thought and history.

**Credit Hours:** 1-3

**HIST 4980: Undergraduate Thesis in History**
Individually directed research leading to a senior thesis.

**Credit Hours: 3**

**Prerequisites:** departmental consent

**HIST 4981: Undergraduate Thesis in History**
Continuation of HIST 4980.

**Credit Hours: 3**

**Prerequisites:** departmental consent

**HIST 4981W: Undergraduate Thesis in History - Writing Intensive**
Continuation of HIST 4980.

**Credit Hours: 3**

**Prerequisites:** departmental consent

**HIST 4995: Honors Thesis in History**
Research and completion of the thesis required for graduation with Honors in History.

**Credit Hours: 3**

**Prerequisites:** departmental consent

**HIST 4995W: Honors Thesis in History - Writing Intensive**
Research and completion of the thesis required for graduation with Honors in History.

**Credit Hours: 3**

**Prerequisites:** departmental consent

**HIST 4996: Honors Thesis in History**
Continuation of HIST 4995.

**Credit Hours: 3**

**Prerequisites:** departmental consent
**HIST 4996W: Honors Thesis in History - Writing Intensive**
Continuation of HIST 4995.

Credit Hours: 3
Prerequisites: departmental consent

**HIST 7000: Age of Jefferson**
(cross-leveled with HIST 4000, CNST_DEM 4000). Political, constitutional, cultural, and economic developments in United States during formative period of Republic, 1787-1828. Special attention to Constitutional Convention, formation of national political institutions.

Credit Hours: 3

**HIST 7004: Topics in History - Social Science**
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Graduate students will be expected to complete additional reading and writing assignments commiserate with graduate level course requirements. May be repeated to maximum of 6 hours.

Credit Hours: 3
Prerequisites: departmental consent

**HIST 7010: The Age of Jackson**
(cross-leveled with HIST 4010). This course will examine American politics, society and culture in the 1820's, 1830's, and 1840's. Considerable attention will be devoted to Andrew Jackson himself, as a figure who both shaped and represented his era, for better or worse.

Credit Hours: 3

**HIST 7030: History of the Old South**
(cross-leveled with HIST 4030). Study of the South to 1860.

Credit Hours: 3

**HIST 7040: Slavery and the Crisis of the Union: The American Civil War Era**
(cross-leveled with HIST 4040). This class explores the history of the Civil War era, a transformative moment in both U.S. and world history. Our goal is to explore and answer a number of questions of great historical significance: How and why did slavery persist in an age of liberal democracy? Why did the pre-war Union prove unable to tolerate the plural visions and diverse institutions of its people? Was the descent into war a measure of institutional weakness than of the intensity of moral conflict? What were the constituent elements of the competing wartime 'nationalisms' that evolved in both north and south? How and why did a war that began to restore the Union become one for emancipation? How was it the forerunner of modern, 'total' warfare? Did the governmental, socio-economic and racial changes wrought by war constitute a 'second American revolution'? Were the limits or the achievements of post-war Reconstruction more notable? And, last but certainly not least, how did the triumph of the Union condition the political and economic development of a rapidly globalizing world? Graded on A-F basis only.

Credit Hours: 3

**HIST 7060: The Period of the American Revolution, 1760-1789**
Analysis of the Revolution, its causes and consequences, through establishment of the new government in 1789.

Credit Hours: 3

**HIST 7070: Indians and Europeans in Early America**
(cross-leveled with HIST 4070). A study of the cultural, political and often military struggle that took place for control of North America from contact through mid 19th century emphasizing native efforts to resist European domination and expansion in areas that became the U.S. and Canada.

Credit Hours: 3

**HIST 7080: American Foreign Policy from Colonial Times to 1898**
(same as PEA_ST 7080; cross-leveled PEA_ST 4080, HIST 4080, CNST_DEM 4080). This class probes the entwined development of the U.S. nation and empire, to the backdrop of accelerating structures of global economic integration, technological innovation, and the hardening of national, racial, and ideological formations.

Credit Hours: 3

**HIST 7100: American Cultural and Intellectual History to 1865**
(cross-leveled with HIST 4100, CNST_DEM 4100). Origins and growth of American values and ideas considered in their social context. Topics include: the work ethic, republican politics, revivalism, reform movements, sexual attitudes, literature in the marketplace, Afro-American and slave-holding subcultures.

Credit Hours: 3

**HIST 7110: American Cultural and Intellectual History to 1865**
(cross-leveled with HIST 4100, CNST_DEM 4100). Origins and growth of American values and ideas considered in their social context. Topics include: the work ethic, republican politics, revivalism, reform movements, sexual attitudes, literature in the marketplace, Afro-American and slave-holding subcultures.

Credit Hours: 3

**HIST 7120: U.S. Society Between the Wars 1918-1945**
(cross-leveled with HIST 4220). Detailed examination of American history from end of World War I to end of World War II.

Credit Hours: 3

**HIST 7220: Our Times: United States Since 1945**
(cross-leveled with HIST 4235). The HBO series 'The Wire', a crime drama based on the border city of Baltimore, exposed the interlocking, structural realities giving shape to the landscapes, neighborhoods, and lived experiences of urban America during the early twenty-first century. Through vivid storytelling, 'The Wire' complicates understandings of the 'urban crisis' through a focus on the inner workings of major institutions such as the media, public schools, politics, underground economies, public housing, and the criminal justice system and on the ways in which poor and working-class black residents negotiate power and survival. Using the cable series as a lens, this class offers students the opportunity to critically examine the historical, economic, social, and political dimensions of urban inequality. Graded on A-F basis only.

Credit Hours: 3
HIST 7240: History of the New South  
(cross-leveled with HIST 4240). Study of the South since 1860.  
Credit Hours: 3

HIST 7260: The Age of Ascendancy: U.S. Foreign Relations, 1945-Present  
(same as PEA_ST 7260; cross-leveled with HIST 4260). Surveys the Cold War in Europe and Asia, the Korean and Vietnam Wars, and Middle East policy.  
Credit Hours: 3

HIST 7270: African-Americans in the Twentieth Century  
(same as BL_STU 7270; cross-leveled with HIST 4270, BL_STU 4270). Surveys the African-American experience from 1900 to the present. Attention is given to economic, political, social, and cultural trends.  
Credit Hours: 3

HIST 7280: America in the Reagan Years  
(cross-leveled with HIST 4280). Examines the major political, economic, social, and cultural currents and developments of the 'Long Eighties,' from Jimmy Carter's 'malaise speech' of July 1979 to Bill Clinton's mid-1990s embrace of welfare reform and pronouncement that the era of big government was over.  
Credit Hours: 3

HIST 7290: Innovation in 20th and 21st Century America  
(cross-leveled with HIST 4290). This course focuses on innovations that have shaped our world and the people behind them, from Edison and the introduction of electric light to airplanes, transistors, semiconductors, fracking, subprime mortgages, televangelism, Uber, and Airbnb. The idea is not to determine which innovations are most important, but to examine how innovations are created and why some are successful and others are not.  
Credit Hours: 3

HIST 7303: Black Studies in Race, Class, Gender and US Policy  
(same as BL_STU 7303; cross-leveled with HIST 4303, BL_STU 4303). Examines the causes and effects of the vast social and economic inequalities that exist between blacks and whites in US society, including the role federal, state and local government plays in creating and addressing such inequalities as financial, tax, environmental, trade, and foreign policies as well as issues of human and social welfare. Graded on A-F basis only.  
Credit Hours: 3

HIST 7310: Adoption Child Welfare and the Family, 1850-present  
(same as WGST 7310; cross-leveled with HIST 4310, WGST 4310). This interdisciplinary U.S. history course will address topics such as: changing legal and social meanings of adoption since 1850; historical connections between adoption and poverty, family, gender, race, sexuality, class, fertility, identity; and more recent issues such as transnational adoption.  
Credit Hours: 3

HIST 7400: History of American Law  
(cross-leveled with HIST 4400, CNST_DEM 4400). American law from English origins to present. Reviews common law, codification, legal reform movements, slavery law, administrative state, formalism, legal realism, jurisprudential questions concerning rule of law.  
Credit Hours: 3  
Prerequisites: HIST 1100, HIST 1200, or HIST 1400

HIST 7415: African Americans and American Justice  
(same as BL_STU 7415; cross-leveled with HIST 4415, BL_STU 4415). This course provides opportunities to review and discuss selected court cases and legislation in which black men, women, or children were plaintiffs and defendants or affected by the laws.  
Credit Hours: 3

HIST 7500: Philip II and Alexander the Great of Macedonia  
(cross-leveled with HIST 7500). Concentrates on the history and politics of Greece during reigns of these two kings along with Alexander's military conquests and various controversies from the period.  
Credit Hours: 3

HIST 7510: Crime and Punishment: Law in Classical Athens  
(cross-leveled with HIST 4510). Examines the main principles of Athenian law and judicial procedures including history of law code and study of actual speeches from a variety of law suits and procedures.  
Credit Hours: 3

HIST 7515: Power and Oratory in Ancient Greece  
(cross-leveled with HIST 4515). Concentrates on the rise of oratory in Greece and how oratory was exploited for political ends. Special attention will be paid to the Athenian Democracy in the fifth and fourth centuries BC.  
Credit Hours: 3  
Prerequisites: instructor's consent

HIST 7520: The Rise and Fall of the Roman Republic  
(cross-leveled with HIST 7520). Analysis of the downfall of Republican institutions and the origins of autocracy, from the Gracchi to the death of Augustus in A.D. 14.  
Credit Hours: 3

HIST 7530: The Roman Empire  
(cross-leveled with HIST 4530). Roman imperialism; management of, and rebellion in, the Empire; cultural exchange between Rome and its provinces.  
Credit Hours: 3

HIST 7540: The Later Roman Empire  
(cross-leveled with HIST 4540). Political, religious and cultural life in Late Antiquity, from the 'soldier emperors,' to the barbarian kingdoms and early Byzantium.  
Credit Hours: 3
HIST 7550: Age of the Vikings  
(cross-leveled with HIST 4550). Scandinavia and Scandinavian expansion in the Central Middle Ages. Covers political, economic, religious, and cultural effects of the Viking movement.  
Credit Hours: 3  
Prerequisites: consent required  
Recommended: HIST 1550, HIST 1530, HIST 2550 or HIST 2560

HIST 7555: Medieval France  
(cross-leveled with HIST 4555). This course covers the area that became the kingdom of France from the end of the Roman era until the end of the Hundred Years War; emphasize on political and cultural developments.  
Credit Hours: 3  
Prerequisites: instructor's consent

HIST 7560: The Crusades  
(cross-leveled with HIST 4560). Survey of the European crusading movement from its inception in the late eleventh century to its decline during the later Middle Ages.  
Credit Hours: 3

HIST 7580: The 'Making' of Modern Europe: Identity, Culture, Empire  
(cross-leveled with HIST 4580). This course will explore some of the ideas, institutions and events that shaped modern Western civilization and thought, focusing on Western Europe, but also giving attention to the relationship between the West and the rest of the world. The course will introduce topics such as the rise of, nationalism, the cult of science, scientific racism and sexism, consumer mass culture, fascist ideology, existentialism, psychoanalysis, the modern city, gender and sexuality. Graded on A-F basis only.  
Credit Hours: 3

HIST 7605: Early Modern Spain, 1450-1750  
(cross-leveled with HIST 4605). In this course, we begin with Fernando and Isabel, whose marriage brought together the two principle territories of Castile and Aragon, leading to the beginnings of a ‘united’ Spain. As we trace the political and social history of Spain through the early modern era, we’ll also be examining the many myths surrounding Spanish history including topics such as the Columbus’ voyages, the Spanish Inquisition and the Black Legend. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: Department consent required

HIST 7620: Modern England  
(cross-leveled with HIST 4620). Surveys British history in the 18th and 19th centuries. Emphasizes social and economic change.  
Credit Hours: 3

HIST 7625: Nature vs. Nurture: The History of a Debate  
(cross-leveled with HIST 4625). The purpose of this course is to explore the debate on nature vs. nurture in human society from the late eighteenth century to the present. The goal of the course is to give biology, history, and social science (including journalism) majors a better understanding of how this debate between nature and culture has played out over the past 250 years, and what impact it has left on biology, the social sciences, and public discourse today. Graded on A-F basis only.  
Credit Hours: 3

HIST 7630: The Age of the Renaissance  
(cross-leveled with HIST 4630). Major changes in European economic, social, political, religious, and intellectual life between 1250-1500. Humanism and Renaissance. The ‘Renaissance problem.’  
Credit Hours: 3

HIST 7640: The Age of the Renaissance  
(cross-leveled with HIST 4640). State of Europe about 1500. Political, diplomatic, social, and intellectual changes to 1648. Humanistic reform movements. Protestant-Catholic Reformation. Development of the modern state and international relations.  
Credit Hours: 3

HIST 7645: Witchcraft and Witch Hunting in Pre-Modern Europe  
(cross-leveled with HIST 4645). The surviving evidence indicates that between 1400 and 1700, at least 50,000 women, men, and children were executed for practicing witchcraft. Is there an explanation for this? Does it make any sense in terms of the intellectual, religious, social, political, and economic contexts of this period in European history? Fundamental to this course are the assumptions that there are many, not one, reasonable explanations for witchcraft beliefs and persecutions, and that when studied in terms of the various historical contexts this phenomenon must be understood as an integral part of European society during these centuries. Graded on A-F basis only.  
Credit Hours: 3

HIST 7650: Revolutionary France, 1789-1851  
(cross-leveled with HIST 4650). Revolutionary upheavals of the revolutionary-Napoleonic era, which destroyed traditional French society and laid the basis for modern France.  
Credit Hours: 3

HIST 7655: Medieval Europe from 1250 to 1500  
(cross-leveled with HIST 4655). The medieval period from the later Middle Ages to the end of the fifteenth century.  
Credit Hours: 3

HIST 7660: From the Holy Roman Empire to the First World War: German History, 1750-1918  
(cross-leveled with HIST 4660). Cultural, social and political history of Central Europe from 1800 to 1914. A case study in incomplete modernization, focused on industrialization, unification, cultural crisis and imperialism.  
Credit Hours: 3

HIST 7670: From the Rise of the Nazis to the Fall of the Wall: German History in the Twentieth Century  
(cross-leveled with HIST 4670). Cultural, social and political history from 1914 to present day. Focus on world wars, national socialism, the holocaust, the cold war and the emergence of East and West Germany.  
Credit Hours: 3
HIST 7700: Imperial Russia, 1682-1825  
(cross-leveled with HIST 4700). Russia in the 18th and early 19th centuries, with special emphasis on the reigns of Peter I, Catherine II, and Alexander I.  
Credit Hours: 3

HIST 7710: The Russian Revolution  
(cross-leveled with HIST 4710). Analyzes the transformation of Russian society that produced the collapse of autocracy, efforts to create a parliamentary government, the Bolshevik seizure of power in 1917, and the civil war that followed.  
Credit Hours: 3

HIST 7800: Modern China and Japan: War, Imperialism and Memory  
(cross-leveled with HIST 4800). This course examines the interaction between Japan and China since the late nineteenth century in an effort to understand deeper historical reasons behind the rising tension in East Asia at the present time.  
Credit Hours: 3

HIST 7821: Constitutionalism in the Americas  
(cross-leveled with HIST 4821). This course looks at the history of constitutions and constitutional democracy in the Americas as a whole - the United States and Latin America. The U.S. Constitution was a pioneering document in the Americas, and this course examines the international influence of the United States' experiment with constitutional democracy. While the course will examine the inspiration of the U.S. Constitution, it will also examine republics that drew upon the same philosophical antecedents that inspired the founders of the United States but may have opted for different forms and practices. Graded on A-F basis only.  
Credit Hours: 3

HIST 7850: Traversing the Muslim World  
(cross-leveled with HIST 4850, S_A_ST 4850). The traveler's tale formed an important part of the medieval world's system of knowledge. This writing intensive discussion-based course examines a wide array of the most influential travelers in Muslim lands such as Ibn Fadlan, Ibn Battuta, Benjamin of Tudela and Marco Polo.  
Credit Hours: 3

HIST 7865: Buying Desire: History of Consumption  
(cross-leveled with HIST 4865). This course explores the history of consumption practice in various cultural contexts. The course is divided into four parts: 'Masses As Consumers', 'Selling/Consuming Cultures', 'Consumption as (Postcolonial) Modernity', and 'Consumption and the Nation'. Under each section are thematically related texts on particular cultural contexts. The reading of ethnographic texts on consumption is to be accompanied by critical discussions that locate consumption within the practices of the nation-state-making and global product-marketing. Graded on A-F basis only.  
Credit Hours: 3

HIST 7867: North Korea: History, Political Economy, Culture  
(cross-leveled with HIST 4867). The aim of this course is to survey North Korea's history, especially in terms of political economy and culture. Through several themes, we will examine the historical situations of North Korea from its beginnings in the postliberation period to the present, as North Korea undergoes monumental changes. Graded on A-F basis only.  
Credit Hours: 3

HIST 7880: Chinese Migration: From Yellow Peril to Model Minority  
(cross-leveled with HIST 4880). This course surveys Chinese emigration in the global context over the span of five centuries. We will pay special attention to the changing relationships between China and Chinese migrants. Our emphasis will be on history as a process of negotiation and contestation of heterogeneous groups or individuals through creative and selective activities.  
Credit Hours: 3

HIST 7910: History in the Public: An Introduction to the Theory and Practice of Public History  
(cross-leveled with HIST 4910). The purpose of this course is to introduce students to the world of public history, the central questions and debates in the field, and to offer students the opportunity to practice public history. Graded on A-F basis only.  
Credit Hours: 3

HIST 7940: Internship in History  
(cross-leveled with HIST 4940). Professional training in history and archive-related fields. Graded on S/U basis only.  
Credit Hours: 3

HIST 7990: Economic Analysis of Policy & Regulation  
(cross-leveled with ABM 4990). Apply economic concepts and tools to analyze the policy-making process and the implications of policy for individuals, firms, markets and society. Policy topics include, among other things, agricultural support programs, environmental policy, international trade, international development, and agribusiness regulation.  
Credit Hours: 3  
Recommended: Graduate students should have previous coursework in basic econometrics and at least intermediate-level micro economic theory

HIST 8000: Studies in American Colonial History  
Readings in American history from beginning of English settlements to adoption of the Constitution. May be repeated to a maximum of 6 hours.  
Credit Hours: 3

HIST 8001: Seminar in the History of Colonial America  
Directed research in the colonial and revolutionary period of American history. May be repeated to a maximum of 6 hours.  
Credit Hours: 3

HIST 8004: Topics in History-General  
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to maximum of 6 hours.
HIST 8010: Studies in American Religious History, 1750-1850
This class will examine important ideas and trends in the field, with an emphasis on popular religious movements. This is a reading-based seminar, revolving around discussion of influential recent books. May be repeated to a maximum of 6 hours.

Credit Hours: 3

HIST 8020: Seminar in the Early American Republic
Directed research in the period 1787-1861. May be repeated to a maximum of 6 hours.

Credit Hours: 3

HIST 8021: Studies in the Early American Republic
This is an intense reading and discussion course designed to give students a crash course in the historiography of this period (emphasizing political culture) as well as practical experience in assimilating themselves quickly to a field. Students must attend and be prepared to participate knowledgeably in each class section. Graded on A-F basis only.

Credit Hours: 3

HIST 8030: Studies in Sectional Controversy, Civil War and Reconstruction
Directed readings and discussions of major issues in the period of national unification of the United States, from 1850 through 1877. May be repeated to a maximum of 6 hours.

Credit Hours: 3

HIST 8040: Seminar in Imperial History
Empires have been the predominant organizing political structure in modern world history (c. 1500-2000). Yet historians mostly structure historical inquiry around nations. This graduate class seeks to redress this imbalance by acquainting students with a diverse selection of the modern Anglophone historiography on empire, as well as giving them the opportunity to develop their own research project on an aspect of imperial history of their choosing. This class is reading and writing intensive, as should be expected of graduate students. Graded on A-F basis only.

Credit Hours: 3

HIST 8041: The Making of the Atlantic World
(same as CNST_DEM 8041). Commerce, colonization, enslavement, and warfare connected western Europe, West Africa, and the Americas into an Atlantic world from the fifteenth to the eighteenth century. This course introduces students to several key themes in the scholarship of the Atlantic world: contact and imperial conquest, migration, slavery, servitude, and race, and the interaction of law and society. We will focus on the British Atlantic, and also engage with other framings, including the Iberian and African Atlantics. Graded on A-F basis only.

Credit Hours: 3

HIST 8042: From the Age of Revolutions to the Age of Nation-States, 1760-1900
(same as CNST_DEM 8042). This course will immerse students in the history and historiography of the nineteenth century Atlantic World. The key arc that students will trace is the move from the age of revolutions to the formation of modern, bureaucratic nation-states, a process which unfolded across the Atlantic basin. Graded on A-F basis only.

Credit Hours: 3

HIST 8045: Atlantic History and Politics
(same as CNST_DEM 8045). In this interdisciplinary graduate course, students will examine some of the most significant texts of the Atlantic world c. 1750-present. They will track the evolution of ideas of liberty, natural rights, politics, and empire that have conditioned the historical development of the Atlantic basin. Graded on A-F basis only.

Credit Hours: 3

HIST 8050: Britain and the World
(same as CNST_DEM 8050). In this course students will engage with the rich and dynamic global history of Great Britain. The core of the course will be daily guest lectures delivered by faculty members of Oxford University. The course also includes three excursions to sites of historical significance within England. Graded on A-F basis only.

Credit Hours: 3

HIST 8060: Kinder Institute Colloquia
(same as CNST_DEM 8060). In this year-long course, students will actively participate in the regular events put on by the Kinder Institute on Constitutional Democracy. The core of the course will be the public lectures, seminar presentations/discussions, workshops, and annual conference sponsored by the Kinder Institute. In addition to actively participating in these events, students will produce reaction papers that provide their assessment and analysis. Graded on A-F only.

Credit Hours: 3

HIST 8085: Problems in History
Individual work not leading to dissertation.

Credit Hour: 1-99

Prerequisites: instructor's consent

HIST 8089: Masters Research in History
Work equal to research done for a dissertation, but not leading to thesis.

Credit Hour: 1-99

Prerequisites: instructor's consent

HIST 8090: Masters Research in History
Graded on a S/U basis only.

Credit Hour: 1-99

Prerequisites: instructor's consent

HIST 8210: Studies in Recent United States History
Critical evaluation of writing in American history in period 1929-present. May be repeated to a maximum of 6 hours.

Credit Hours: 3
HIST 8211: Seminar in Recent United States History
Advanced seminar in American history from 1929 to present. May be repeated to a maximum of 12 hours.
Credit Hours: 1-12

HIST 8405: Studies in Gender
Studies in recent research material focused on the analysis of the intersections of gender, race and class in particular times and places. May be repeated to a maximum of 6 hours.
Credit Hours: 3

HIST 8406: The Politics of the Body in Historical Perspective
This graduate seminar will launch an investigative inquiry into how the body has been conceptualized in the historical past and how it continues to serve as a site of contention. This course will offer an opportunity to introduce students to the major intellectual debates that guide the study of the body and body-related processes in current scholarship. Graded on A-F basis only.
Credit Hours: 3

HIST 8410: Independent Readings for History Ph.D. Comprehensive Examination
Independent readings for Ph.D. Comprehensives.
Credit Hours: 1-99
Prerequisites: Open only to graduate students formally admitted to candidacy for Ph.D. in history

HIST 8415: Studies in African-American History
(same as BL_STU 8415). Readings on selected topics in African-American history from 1619 to the present, with emphasis on conflicting interpretations. May be repeated to a maximum of 6 hours.
Credit Hours: 3

HIST 8416: Seminar in African-American History
(same as BL_STU 8416). Directed research in selected topics in African-American history. May be repeated to a maximum of 6 hours.
Credit Hours: 3

HIST 8440: Studies in American Western and Environmental History
Readings, class discussion, and written analysis on topics in American Western and environmental history from early settlement to the present. May be repeated to a maximum of 6 hours.
Credit Hours: 3

HIST 8450: Studies in the History of the South
Group readings and appraisal of controversial interpretations in Southern history. May be repeated to a maximum of 6 hours.
Credit Hours: 3

HIST 8455: Studies in the History of American Diplomacy
Readings in evolution of American diplomacy from the Revolution to present. May be repeated to a maximum of 6 hours.
Credit Hours: 3

HIST 8457: Studies in the History of the United States and the World
This graduate seminar will explore the emerging historiographical field known as 'The United States and the World', broadly defined to encompass both the history of U.S. foreign policy and other topics like the history of trade, immigration, and cultural exchange. This course will focus on historiography and methodology in order to introduce students to the existing literature, assist in preparation for comprehensive examinations, identify major trends in the field, and suggest directions for future research. Graded on A-F basis only.
Credit Hours: 3

HIST 8460: Studies in Trans-Atlantic History
This course examines important historical themes in a trans-Atlantic context. Readings will invite exploration of changes, continuities, contrasts, and causation of similar phenomena on both side of the ocean, in the Americas, Europe, and/or Africa.
Credit Hours: 3

HIST 8480: Historiography
Acquaints graduate students with examples of modern historical thought and practice by examining various conceptual approaches to the study of history. May be repeated to a maximum of six hours.
Credit Hours: 3
Prerequisites: departmental consent

HIST 8510: Seminar in Ancient History
Readings and research on selected problems in ancient history. May be repeated to a maximum of 6 hours.
Credit Hours: 3

HIST 8531: Studies in English History
Readings in historical literature covering period since 1660; particular reference to new interpretations of political, social developments. May be repeated to a maximum of 6 hours.
Credit Hours: 3

HIST 8540: Seminar in Medieval Culture
Investigates cultural developments in the medieval period. May be repeated to a maximum of 6 hours.
Credit Hours: 3

HIST 8541: Studies in Medieval History
Readings in medieval history and historiography with emphasis on current scholarship. May be repeated to a maximum of 6 hours.
Credit Hours: 3

HIST 8542: Seminar in Medieval Paleography
This course provides an introduction to medieval and Renaissance manuscript-sources and their use as research-tools in a fairly wide variety of sub-fields (e.g., archival study, scholastic text-analysis, vernacular literature). Graded on A-F basis only.
Credit Hours: 3

HIST 8545: Studies in the History of American Diplomacy
Readings in evolution of American diplomacy from the Revolution to present. May be repeated to a maximum of 6 hours.
Credit Hours: 3
**Prerequisites:** departmental consent and competence in Latin grammar required

**HIST 8550: Seminar in the Renaissance and Reformation**
Analyze problems of the period 1300-1600; emphasizes intellectual history. May be repeated to a maximum of 6 hours.

**Credit Hours:** 3

**HIST 8551: Studies in Early Modern European History**
Readings in historical classics and current scholarship on Renaissance, Reformation, Baroque, and Enlightenment periods. Problem of modernity. May be repeated to a maximum of 6 hours.

**Credit Hours:** 3

**HIST 8565: Studies in the History of Medicine**
This course will focus on interpretations on the impact of disease on western society at various times through history. Chronic diseases play an important role in shaping societies, but it is generally in response to epidemics that we see significant social reactions and changes. As a thematic course, this covers a broad sweep of time, from medieval to modern. Graded on A-F basis only.

**Credit Hours:** 3

**HIST 8570: Studies in Modern European History**
Readings in recent research material on selected topics. May be repeated to a maximum of 6 hours.

**Credit Hours:** 3

**GN_HON 1030H: Honors Discussion Groups**
Informal discussion between students and faculty on various academic topics. Graded S/U only.

**Credit Hours:** 1-2

**Prerequisites:** Honors eligibility required

**GN_HON 1050H: Honors Seminar**
Freshman-sophomore seminar offering a small group opportunity to write about and discuss basic works chosen by instructor.

**Credit Hours:** 1-3

**Prerequisites:** Honors eligibility required

**GN_HON 1070H: Honors Elective Colloquium**

**Credit Hours:** 1-3

**Prerequisites:** Honors eligibility required

**GN_HON 1080H: Honors Internship**
Independent study under the supervision of a regular faculty member.

**Credit Hours:** 1-3

**Prerequisites:** written proposal with professor's approval submitted in advance to Director of the Honors College. Honors eligibility required

**GN_HON 2010H: Honors Tutorial**
Small group of students (2-5) engage in collaborative work under faculty guidance. The focus is determined in advance by a faculty member and shaped through discussion with the enrolled students. Course may be repeated for credit. Honors eligibility required

**Credit Hours:** 1-3

**Prerequisites:** instructor's consent

**GN_HON 2011H: Unbound: Reading Without Limits**
Joining forces with the Unbound Book Festival, held late April each year here in Columbia, the Unbound tutorial seeks to engage students in the life-long learning approach to reading for pleasure, for the pursuit of engagement, and as a social construct (rather than simply an isolated act). Students will read no fewer than four works of fiction, non-fiction, poetry, and essays, and discuss them as a reading circle but also have the opportunity to meet the authors during the Unbound Book Festival and discuss with them their ideas and skills. Graded on A-F basis only.

**Credit Hours:** 1

**Prerequisites:** Honors eligibility required

**GN_HON 2012H: BBQ: Culture, Cuts, and Consumption - Honors**
This course will focus on providing you with a sound understanding of the culture, context, culinary, and commercial aspects of Barbecue. We will explore how the meat industry plays a role in BBQ, the environmental implications (of both meat and wood usage), the culture (from your backyard to the national competitions, and even BBQ abroad), and look into how and why BBQ has become such a phenomenon. We will spend some time with a local (KC) author who has written a novel on BBQ that is currently being turned into a TV series. And then we will spend time visiting local BBQ 'joints', speaking with owners and pitmasters, customers and devotees, about their business models, their culinary decisions, and their traditions - yes, we will taste, but we will also learn, and use what we have learned, to understand the world of BBQ and its intersections in our daily and national lives. Graded on A-F basis only.
Credit Hour: 1
Prerequisites: Honors eligibility required

GN_HON 2015H: Theory and Practice of Tutoring Writing Seminar (same as ENGLSH 2015H). Addresses both the theory and practice of tutoring and the foundations of good writing. This course also qualifies students for a part-time job working as Writing Lab/Online Writery tutors in future semesters.
Credit Hours: 3
Prerequisites: ENGLSH 1000; instructor’s consent

GN_HON 2112HW: Here Be Monsters - Honors/Writing Intensive
Exploring the art, literature, music and philosophy of the Medieval and Renaissance periods, this course opens in North Africa during the late Roman Empire on the threshold between the classical and medieval eras, and it closes in Shakespeare's London during the English Renaissance. In between, we'll explore the fens of Beowulf's Denmark, the battlefields of Roland and Charlemagne, and Hell itself in Dante's Inferno; meet werewolves and dragons and pilgrims; navigate the intellectual, political, and religious turmoil of medieval Europe; and encounter the glory of Renaissance Italy. This is the second course in the long-running Honors Humanities Sequence.
Credit Hours: 3
Prerequisites: Honors eligibility required

GN_HON 2085H: Honors Problems
Independent study under the supervision of a regular faculty member.
Credit Hour: 1-3
Prerequisites: written proposal with professor’s approval submitted in advance to Director of the Honors College. Honors eligibility required

GN_HON 2113H: The Early Modern World: The 17th-19th Centuries
Renaissance periods, this course opens in North Africa during the late
Credit Hours: 3
Prerequisites: Honors eligibility required

GN_HON 2111H: The Ancient World
The reading list is comprised of the great writers of classical Greece and Rome such as Homer, Sophocles, Plato, Aristotle, Virgil and Apuleius, and of the biblical period, the authors of the Book of Job and the Gospel of Mark.
Credit Hours: 3
Prerequisites: Honors eligibility required

GN_HON 2111HW: The Ancient World - Honors/Writing Intensive
The reading list is comprised of the great writers of classical Greece and Rome such as Homer, Sophocles, Plato, Aristotle, Virgil and Apuleius, and of the biblical period, the authors of the Book of Job and the Gospel of Mark.
Credit Hours: 3
Prerequisites: Honors eligibility required

GN_HON 2112H: The Middle Ages and the Renaissance
The literature, art and philosophy which reflect the interaction of biblical thought with the classical past, and ultimately an emerging humanism, form the contents of the second semester. Readings include selections from such central figures as Aquinas, Chaucer, Dante, and Shakespeare. Special lectures are presented on the art, architecture and music of these eras.
Credit Hours: 3
Prerequisites: Honors eligibility required

GN_HON 2114H: The Modern Era
The final semester of the Humanities Sequence deals with the intellectual and cultural developments from the mid-nineteenth to the late twentieth century. Lectures and discussions will be held on the philosophy of Marx, Nietzsche, Sartre and Hannah Arendt; on the literary works of Dickens, Dostoevsky, James Joyce, Virginia Woolf, T.S. Eliot, and Toni Morrison. Special lectures are presented on the music of the period.
Credit Hours: 3
Prerequisites: Honors eligibility required

GN_HON 2114HW: The Modern Era - Honors/Writing Intensive
The final semester of the Humanities Sequence deals with the intellectual and cultural developments from the mid-nineteenth to the late twentieth century. Lectures and discussions will be held on the philosophy of Marx, Nietzsche, Sartre and Hannah Arendt; on the literary works of Dickens, Dostoevsky, James Joyce, Virginia Woolf, T.S. Eliot, and Toni Morrison. Special lectures are presented on the music of the period.
Credit Hours: 3
Prerequisites: Honors eligibility required

GN_HON 2120H: Honors Humanities Colloquium
Credit Hour: 2-3
Prerequisites: Honors eligibility required

GN_HON 2230H: Honors Social Science Colloquium - Honors/Writing Intensive
Credit Hour: 2-3
Prerequisites: Honors eligibility required
GN_HON 2231H: Genocide in the Modern World: An Introduction
This course examines the multitude of genocide’s facets - its causes, course of events, consequences, and the pursuit of prevention and punishment - since the advent of the Twentieth Century (with some examination of historical antecedents). Specific historical and conceptual aspects of various case studies will be examined and a framework for the study of genocide will be developed and applied, starting with the legal definition of genocide and ending with very nuanced theories, behaviors, and components of specific events. The class will use foundational case studies to understand the place of genocide throughout history and end with an investigation into current and on-going genocides, as well as the international pursuit of justice in the wake of these events. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Honors eligibility required

GN_HON 2243H: Human Sciences Sequence I: Personal Identity
This interdisciplinary course approached the perennial but fascinating question of how we define, develop, and present ourselves. It considers this question from a range of disciplinary, regional, and thematic perspectives.
Credit Hours: 3
Prerequisites: Honors eligibility required

GN_HON 2244H: Social Relations
This interdisciplinary course explores the construction of human identity as it related to social groups (these groups might include anything from the family to fan clubs, sports teams to college students).
Credit Hours: 3
Prerequisites: Honors eligibility required

GN_HON 2245H: Social Organization
This course examines various forms of social organization from an interdisciplinary perspective. The course will examine small organizations (such as families and kin networks) that are grounded in face-to-face relationships and then consider the impact of large-scale organizations (such as markets and states). The class will also explore how these larger organizations can hold together in the absence of direct personal connections between members.
Credit Hours: 3
Prerequisites: Honors eligibility required

GN_HON 2246H: Global Citizenship
This course continues our introduction to the fundamental problems and concepts of social science by concentrating on today's emerging global society and the ways in which it shapes social identity. The course also aims at encouraging students to think of themselves as global citizens - people who possess a sense of their own role as citizens of the world.
Credit Hours: 3
Prerequisites: Honors eligibility required

GN_HON 2246HW: Global Citizenship - Honors/Writing Intensive
This course continues our introduction to the fundamental problems and concepts of social science by concentrating on today's emerging global society and the ways in which it shapes social identity. The course also aims at encouraging students to think of themselves as global citizens - people who possess a sense of their own role as citizens of the world.
Credit Hours: 3
Prerequisites: Honors eligibility required

GN_HON 22461H: Environment: From Molecules to the Cosmos
Inquiry-based exploration of how the world was made, environments formed, life evolved, and how it works together to sustain life on Earth. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Honors eligibility required

GN_HON 22462H: Energy: From Particles to Civilizations
Inquiry based exploration of energy, what it is, how it is used, and how it sustains our life on Earth. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Honors eligibility required
GN_HON 2950H: Honors Preceptorship
Active participation in a professor's research for up to six hours a week.

Credit Hour: 1-3
Prerequisites: written description of the work with professor's approval submitted in advance to Director of the Honors College. Honors eligibility required

GN_HON 3070H: Honors Electives Colloquium
Credit Hour: 2-3
Prerequisites: Honors eligibility required

GN_HON 3070HW: Honors Electives Colloquium - Honors/Writing Intensive
Honors Electives Colloquium - Honors/Writing Intensive.

Credit Hour: 2-3
Prerequisites: Honors eligibility required

GN_HON 3112H: Interdisciplinary Topics in the Humanities: Aesthetics and Performance
Aesthetics and Performance is the 2nd course offered in a four-semester, upper-level Humanities Series. It takes an interdisciplinary approach to a variety of topics relevant to such disciplines as Art History, Art, Theater, English, and Film Studies. Students will be introduced to key figures, ideas, and texts in aesthetics and performance. The course format will be a combination of guest lectures, small-group discussion, and when possible, team-teaching. May be repeated for credit.

Credit Hours: 3
Prerequisites: junior or senior standing. Honors eligibility required

GN_HON 3113H: Interdisciplinary Topics in the Humanities: Big Ideas, Big Questions
Big Ideas, Big Questions is the 3rd course offered in a four-semester, upper-level Humanities Series. It takes an interdisciplinary approach to concepts, theories, debates, and questions central to our understanding of the humanities.

Credit Hours: 3
Prerequisites: upper-level standing or permission of instructor; Honors eligibility required

GN_HON 3120H: Honors Humanities Colloquium
Credit Hour: 2-3
Prerequisites: junior standing. Honors eligibility required

GN_HON 3120HW: Honors Humanities Colloquium - Honors/Writing Intensive
Credit Hour: 2-3
Prerequisites: junior standing. Honors eligibility required

GN_HON 3210H: Honors Behavioral Colloquium
Credit Hour: 2-3
Prerequisites: junior standing. Honors eligibility required

GN_HON 3210HW: Honors Behavioral Colloquium - Honors/Writing Intensive
Credit Hour: 2-3
Prerequisites: Honors eligibility required

GN_HON 3241H: Evolution of Human Nature
(same as ANTHRO 3340H). We will investigate the topic of human nature, asking such questions as: What are we like? Why do we behave the way we do? Are we inherently selfish or social? Do we have a unitary 'self' or are we made up of many (and sometimes contradictory) selves? Is there a single 'human' nature or are there distinct 'male' and 'female' natures? Does human nature vary across cultures? Insights come from fields ranging from genetics to literature. The concept of 'human nature' is fiercely contested and debated both within and between academic disciplines. We will be focusing on the scientific study of human nature, seeking naturalistic explanations by formulating and testing hypotheses. In particular, we will use evolutionary theory to unify explanations from disparate disciplines like biology, psychology, and anthropology. In each class, we will discuss one specific topic like sex or violence and seek to make sense of it from both the proximate level (what triggers the behavior and how does it develop?) and the ultimate level (why and how did our evolutionary history imbue us with this capacity?). Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Honors eligibility required

GN_HON 3241HW: Evolution of Human Nature - Honors/Writing Intensive

GN_HON 3242H: The Future Is Indigenous! - Honors
Today, Indigenous peoples around the world are reasserting an ancient idea that our human responsibilities to the planet come through place, and that our planetary responsibilities are fulfilled by investing in and
learning from place. Place-based Indigenous thought and activism give us new ways of thinking about global citizenship within a more-than-human democracy of beings - a 'pluriverse' - and changes our understanding of what it means to be human in the twenty-first century. After looking at the limitations of the system of global ethics in cosmopolitan philosophy, we will get acquainted with the 'place thought' of three Indigenous peoples: the Western Apache of the USA, the Maori of Aotearoa/New Zealand, and the Huaorani of the Ecuadorian Amazon. This course satisfies three credit hours of general education requirements in the behavioral and social sciences and is part of the Honors College's Interdisciplinary Topics in the Human Sciences series. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Honors eligibility required

These courses may be cross-listed with courses in graduate or professional programs or one-of-a-kind courses which may have no other more appropriate academic home. Interdisciplinary or experimental courses are encouraged.

**Credit Hour:** 1-3  
**Prerequisites:** Restricted to juniors and seniors. Honors eligibility required
HSP_MGMT 2190: Seminar in Professional Development
A systematic approach to expose students to a journey of self-assessment and to develop life-long skills for their careers in the hospitality industry. Using professionalism as a framework, students are made aware of the foundation of effective workplace relationship and how to appropriately manage these relationships toward career success. Topics include self management, workplace relationship, and career planning tools. Graded on A-F basis only.

Credit Hour: 1
Prerequisites: HSP_MGMT 1100; restricted to Hospitality Management majors only

HSP_MGMT 2200: Fundamentals of Conference and Events Industry
Overview of the Meeting, Incentive, Convention and Exhibition (MICE) management industry in hospitality and tourism from a macro perspective. The knowledge and information available to conference and meeting business are described and evaluated, including the trend and issues facing the industry, the characteristics of the size and scope of the market, key players, and different sectors in the meeting industry. Graded on A-F basis only.

Credit Hours: 3
Prerequisites or Corequisites: HSP_MGMT 1100 or Instructor Consent

HSP_MGMT 2300: Fundamentals of the Food and Beverage Industry
An introduction to the macro aspects and a comprehensive overview of the Food and Beverage industry. The course begins with a history of meals away from home and an overview of commercial versus noncommercial food and beverage operations. Detailed considerations are given to components of the food service businesses: size and scope of the industry, major classifications, ownership types, key players, consumer purchasing behavior, quality assurance, trends, challenges, cultural diversity, ethical considerations, and impact of globalization. Graded on A-F basis only.

Credit Hours: 3
Prerequisites or Corequisites: HSP_MGMT 1100 or Instructor Consent

HSP_MGMT 2400: Fundamentals of Lodging Industry
Explores the foundations of the global lodging industry. The history of the industry, relationship of tourism, size and scope, classification and types, major global players will be examined. Issues related to the impact of globalization, international hotel investment, development and operations, global competitions, political aspects, human resources and cultural diversity will be discussed. Graded on A-F basis only.

Credit Hours: 3
Prerequisites or Corequisites: HSP_MGMT 1100 or Instructor Consent

HSP_MGMT 2500: Fundamentals of Sport Venue Industry
An overview of the Sport Venue Industry from a macro perspective. Students will be exposed to the major aspects regarding management of athletic and recreational facilities. Topics will include: history, trends and globalization of sport and venue development, types of sport facilities and major key players, construction and finance, facility systems and operations, sales and marketing, liability and risk management, ticket and box office operation, and event management. Cultural diversity, ethical issues and career opportunities in Sport Venue Management will also be explored. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HSP_MGMT 1100 or instructor consent

HSP_MGMT 3100: Guest Service Management
Addresses the essence of delivering memorable guest experience through high-quality guest service management. Topics include concepts of guest service quality, guest behavior, perceptions and satisfaction, guest service assessment methods, and guest recovery strategies. Students will then learn how to leverage their understanding of these concepts to establish guest service culture and strategies to meet organizational goals within the context of hospitality businesses. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to junior and senior level students only

HSP_MGMT 3104: Topics in Hospitality Management
An examination of specific subject matter areas in the field of hospitality management will be addressed. Current issues, trends and challenges will also be discussed. Graded on A-F basis only.

Credit Hours: 1-3
Prerequisites: HSP_MGMT 1100; Restricted to Hospitality Management junior and senior students

HSP_MGMT 3105: Problems in Hospitality Management
Students develop problem solving, analytical skills by engaging in a supervised study of a selected field in the hospitality industry. Challenges and issues will be identified and probable solutions will be weighed and evaluated. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: instructor's consent required

HSP_MGMT 3115: Management of Gaming Operations
An overview, analysis of gaming management and financial elements unique to operating gaming businesses. Topics include: History and development of gaming, economic relationships, social impact, legal and changing competitive environments, consumer behavior and psychological forces, corporate culture and technology, revenue control, and promotion and marketing. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HSP_MGMT 1100; 60 credit hours, 21 yrs old. Restricted to Hospitality Management students during early registration. Other students meeting pre-reqs can register after early registration

HSP_MGMT 3200: Conference and Meeting Management
Addresses the different operational aspects regarding convention and meeting planning management. Students will be exposed to skill-based knowledge pertaining to meeting and event planning, implementation and management. Topics discussed to include group business market, the role of the event planner, the various techniques and services used to meet their needs. Food and beverage, technology used, legal issues, social responsibility, and international aspects in the convention and meeting industry will be addressed. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HSP_MGMT 1100; 60 credit hours. Restricted to Hospitality Management students during early registration
HSP_MGMT 3300: Food Production Management
Explore the production and service aspects of the food and beverage businesses. It will examine principles of concept development, menu planning, pricing and costing, forecasting, standardize recipe and testing, purchasing, food sanitation and safety, quantity food production, delivery of service, inventory control, quality assurance, professionalism and team work. Students will rotate through the different functions of the ‘front’ and ‘back of the house’ of a food facility. This supervised student-operated facility enables students to apply theories to the actual food service operation. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HSP_MGMT 2300; HSP_MGMT 3310, 60 credit hours, Credit Hour basis only.

HSP_MGMT 3310: Food Service Budgeting and Controls
Examines management systems and techniques in the food and beverage industry. Topics include: effective use and control of food, beverage, and labor costs to manage a company's operations, with emphasis on computer applications, problems solving and analytical skills, making sound financial decisions, and excellence in customer service. This is a Math Reasoning Proficiency course. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HSP_MGMT 1100; MATH 1100. Restricted to HM students during early registration. Other students meeting pre-reqs may register after early registration

HSP_MGMT 3315: Banquet and Catering Management
Engage in the management of service and production systems in catering operations and banquet facilities. An emphasis will be placed on the fundamentals of communication and planning with event coordinators, menu planning, sales and marketing, food and beverage cost control, guest service standards, quantity food productions, food safety, needs and challenges of catering both on and off premises. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HSP_MGMT 2300; 60 credit hours, Restricted to Hospitality Management students during early registration

HSP_MGMT 3320: Beverage Management
Explore and analyze operational and managerial elements of the bar and beverage industry. Topics include: alcoholic versus non-alcoholic beverage, beverage menu development, pricing strategy and costing, sensory evaluation, food and beverage pairing, marketing and promotion, inventory control, training of personnel, legal aspects of responsible service of alcohol. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HSP_MGMT 2300; 60 credit hours, 21 yrs old. Restricted to Hospitality Management students during early registration

HSP_MGMT 3400: Lodging Operations and Management
Exposes students to the principles of managing lodging businesses regarding the fundamental principles, hows and whys of management. Topics include: Analysis of the functions of each department, organization structure, inter-relationship among various departments of a lodging facility, property management system, safety and security, guest service and satisfaction, and total quality issues. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HSP_MGMT 2400; 60 credit hours. Restricted to Hospitality Management students during early registration

HSP_MGMT 3420: Technology Applications in the Lodging Industry
Survey of the technology applications, issues, and trends in the lodging industry. The role of technology in operations and as a strategic tool to achieve competitive advantage will be examined. Students will need to have a good grasp of how to best implement information technology that will impact the future of their organizations. Current technology issues of interest and importance to the industry will also be explored. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HSP_MGMT 2400. Open to Hospitality Management junior and senior students only

HSP_MGMT 3500: Sport Venue Operation Management
Examines the various operational dynamics and management of sport venues and facilities. Topics such as public versus private ownership and governance structures, facility planning and feasibility study, design and construction, event planning, programming and execution, sales and marketing, box office operations, and financial management will be addressed. Ethical issues, legal responsibilities, risk and security management will also be discussed. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HSP_MGMT 2400; 60 credit hours. Restricted to Hospitality Management students during early registration. Other students meeting pre-reqs may register after early registration

HSP_MGMT 3993: Field Training in Hospitality Management
Applies theories into actual industry setting. Aspects such as career paths, team work, inter-relationship in the workplace and professionalism are explored. Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites: instructor's consent

HSP_MGMT 4100: Hospitality Human Resources Management
(cross-leveled with HSP_MGMT 7100). Examines effective management of human resources issues in hospitality businesses. It addresses issues related to managing subordinates through hiring the right person for the position, training properly, evaluating employees' performance accurately and promptly, rewarding good behaviors, and motivating and coaching them. Manpower planning, equal employment practices and employee relations, quality of work life, compensation and reward structure, and how to make sound human resource management decisions will also be discussed. This is a writing intensive course. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: 60 credit hours. Restricted to HM students during early registration. Other students meeting pre-req may register after early registration
HSP_MGMT 4100W: Hospitality Human Resources Management - Writing Intensive
(cross-leveled with HSP_MGMT 7100). Examines effective management of human resources issues in hospitality businesses. It addresses issues related to managing subordinates through hiring the right person for the position, training property, evaluating employees' performance accurately and promptly, rewarding good behaviors, and motivating and coaching them. Manpower planning, equal employment practices and employee relations, quality of work life, compensation and reward structure, and how to make sound human resource management decisions will also be discussed. This is a writing intensive course. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: HSP_MGMT 1100; 60 credit hours. Restricted to HM students during early registration. Other students meeting prereqs may register after early registration

HSP_MGMT 4110: Hospitality and Tourism Marketing
(cross-leveled with HSP_MGMT 7110). Application of a customer-oriented approach to sales and marketing management in hospitality and tourism industry. The marketing techniques available to hospitality businesses are described and evaluated, including service marketing mix, packaging, travel trade, advertising, sales promotion, merchandising, and personal selling. Marketing of hospitality services regarding human factors, consumer demand, planning, professional considerations are also discussed. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: HSP_MGMT 1100; 60 credit hours. Restricted to HM students during early registration. Other students meeting pre-reqs may register after early registration

HSP_MGMT 4180: Strategic Management in the Hospitality Industry
(cross-leveled with HSP_MGMT 7180) Focuses on developing conceptual skills and application of the principles of strategic management in the context of the hospitality industry. It involves handling and analyzing ambiguous facts as well as relevant industry problems and issues facing management personnel in the global hospitality markets. Topics include: Business environments, mission statement, corporate and business strategies, evaluation and control. It requires that students to apply functions of management, finance, human resources, and marketing, learn how to engage in team building. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: HSP_MGMT 3100; MANGMT 3000; 60 credit hours. Restricted to Hospitality Management students during early registration

HSP_MGMT 4190: Trends in Hospitality Management
To keep abreast of the development that affects current managerial practices, this course is a survey of key trends and critical issues that impact the hospitality industry. Best practices, opportunities and challenges facing the industry will also be discussed. Graded on A-F basis only.
Credit Hours: 1

Prerequisites: HSP_MGMT 1100 and open to Hospitality Management students only

HSP_MGMT 4200: Destination Management
(cross-leveled with HSP_MGMT 7200). An overview of hospitality and tourism destination management using a system approach that integrates a variety of hospitality and tourism organizations and businesses. Destination management will be examined from the perspectives of travelers and destination communities in the context of economic, socio-cultural, and environmental impacts. Optimal planning, development, marketing of destination image and position in the context of the overall management plan will be addressed. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: HSP_MGMT 1100. 60 credit hours. Restricted to HM students during early registration

HSP_MGMT 4280W: Special Events Management - Writing Intensive
Synthesis of theories and a comprehensive guide in understanding, planning, promoting and producing special events. Topics include: Event design, feasibility studies, legal compliance, promotion, safety and security, logistics, staffing, financial control and technology. It is based on a systematic, step-by-step approach to event planning, implementation, and management. This course requires a considerable amount of teamwork. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: HSP_MGMT 3200. Open Hospitality Management senior students only

HSP_MGMT 4380W: Managing Food Service Businesses - Writing Intensive
Students explore the market positioning and the management of the student-run food service operation from concept development to execution. Students will apply knowledge gained from marketing, human resources and operational budgeting to develop their themes and menu. Students will hone their problem solving, leadership and interpersonal skills while engaging in team building. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: HSP_MGMT 3300. Open to Hospitality Management senior students only

HSP_MGMT 4400: Hospitality Finance Management
(cross-leveled with HSP_MGMT 7400). Application of financial principles to the hospitality industry. The focus is to provide students a foundation on how to use numbers and fundamental financial analysis to operate a successful hospitality business. Topics include forecasting, profit and loss statement, balance sheet, capital budgeting, and revenue management related to the hospitality industry. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: FINANC 2000; 60 credit hours

HSP_MGMT 4480W: Advanced Lodging Management - Writing Intensive
Apply, integrate, and synthesize previously learned knowledge, skills, and experience to solve real problems that the lodging industry faces. Specifically, managerial responsibilities, organizational structures and
current trends will be examined. Throughout the class students will develop their professional identity, leadership skills and confidence to participate in the workforce. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 3400. Open to Hospitality Management senior students only

---

**HSP_MGMT 4500: Management and Promotion of Live Entertainment**  
Examines the various media used to promote venues, events and live entertainment. Topics include: Artist management, budgets and financial management, insurance, liabilities, contracts and riders, event production and tour scheduling, sport communication, and community relations. In particular, emphasis will be on the use of social media platforms in promotions, public relations, and other revenue generating activities of the industry. The principles of organizational advocacy, press conferences, and crisis communication plans will also be discussed. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 1100; 60 credit hours. Restricted to Hospitality Management students during early registration

---

**HSP_MGMT 4515: The Business of Sport Venue Management**  
Focuses on the business aspects of managing athletic and recreational venues. The course examines the management and financial tools that managers use to run their sport venues and businesses. Traditional and innovative methods of revenue acquisition, financial business structure, sponsorship and forecasting processes as it pertains to the effective management of venues and sport organizations are discussed. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 2500. Open to Hospitality Management junior and senior students only

---

**HSP_MGMT 4580W: Sport Venue and Facility Management - Writing Intensive**  
Applies previously learned principles and concepts of sport venue management and develop critical planning and organizational skills required of sport venue managers. The course will address three main modules: Security and risk management, the sport venue, and the sport event. The security and risk management module will examine efficient best practices and how they can significantly reduce the occurrence of injury and loss at sports venues and events. The sport venue and event modules will integrate concepts of venue planning, construction and operations; and event conception, planning, execution and reconciliation through case study analysis. Ethical considerations will also be stressed. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 3500. Open to Hospitality Management seniors only

---

**HSP_MGMT 4993: Internship in Hospitality Management**  
Students apply concepts and theories from their coursework to practical work experiences in the hospitality industry, under the direction of industry professionals and faculty evaluation. It is the student's responsibility to secure an internship position and all internship experience must have prior approval from his/her advisor. In addition to the field experience, students will develop their problem solving and analytical skills through projects that are operational in nature. Graded on A-F basis only. Enrollment is limited to students who have completed a minimum of 75 credits and completed HSP_MGMT 1100, HSP_MGMT 2190 and one of the courses from students designated emphasis areas: HSP_MGMT 3200, HSP_MGMT 3300, HSP_MGMT 3400 or HSP_MGMT 3500. Enrollment limited to Hospitality Management students with a minimum of 75 credits; HSP_MGMT 1100; HSP_MGMT 2190 and one of the courses from students designated emphasis areas: HSP_MGMT 3200, HSP_MGMT 3300, HSP_MGMT 3400 or HSP_MGMT 3500.

**Credit Hours:** 3  
**Prerequisites:** Instructor's consent required

---

**HSP_MGMT 7100: Hospitality Human Resources Management**  
(cross-leveled with HSP_MGMT 4100). Examines effective management of human resources issues in hospitality businesses. It addresses issues related to managing subordinates through hiring the right person for the position, training properly, evaluating employees' performance accurately and promptly, rewarding good behaviors, and motivating and coaching them. Manpower planning, equal employment practices and employee relations, quality of work life, compensation and reward structure, and how to make sound human resource management decisions will also be discussed. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** instructor's consent

---

**HSP_MGMT 7110: Hospitality and Tourism Marketing**  
(cross-leveled with HSP_MGMT 4110). Application of a customer-oriented approach to sales and marketing management in hospitality and tourism industry. The marketing techniques available to hospitality businesses are described and evaluated, including service marketing mix, packaging, travel trade, advertising, sales promotion, merchandising, and personal selling. Marketing of hospitality services regarding human factors, consumer demand, planning, professional considerations are also discussed. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** instructor's consent

---

**HSP_MGMT 7180: Strategic Management in the Hospitality Industry**  
(cross-leveled with HSP_MGMT 4180). Focuses on developing conceptual skills and application of the principles of strategic management in the context of the hospitality industry. It involves handling and analyzing ambiguous facts as well as relevant industry problems and issues facing management personnel in the global hospitality markets. Topics include: Business environments, mission statement, corporate and business strategies, evaluation and control. It requires that students to apply functions of management, finance, human resources, and marketing, learn how to engage in planning by examining situations from the perspectives of customer, employee, and management. The ultimate goal is to encourage students to think ‘out-of-the-box’ in order to find innovative solutions that will reshape the hospitality industry and define how the hospitality company of tomorrow will create value. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Instructor's consent
HSP_MGMT 7200: Destination Management
(cross-leveled with HSP_MGMT 4200). An overview of hospitality and tourism destination management using a system approach that integrates a variety of hospitality and tourism organizations and businesses. Destination management will be examined from the perspectives of travelers and destination communities in the context of economic, socio-cultural, and environmental impacts. Optimal planning, development, marketing of destination image and position in the context of the overall management plan will be addressed. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: instructor's consent

HSP_MGMT 7400: Hospitality Finance Management
(cross-leveled with HSP_MGMT 4400). Application of financial principles to the hospitality industry. The focus is to provide students a foundation on how to use numbers and fundamental financial analysis to operate a successful hospitality business. Topics include forecasting, profit and loss statement, balance sheet, capital budgeting, and revenue management related to the hospitality industry. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: instructor's consent

Human Development And Family Science Courses

H_D_FS 1600: Foundations of Family Science
Introduction to family science discipline and profession. Introduces historical changes in families, diversity by race, ethnicity, class, life stage and sexual orientation, and interaction of families with neighborhoods, schools, the workplace, and larger systems.
Credit Hours: 3

H_D_FS 1610: Intimate Relationships and Marriage
Examination of historical and contemporary issues pertaining to intimate and marital relationships such as relationship formation and dissolution processes, love, sex, behavioral scripts, and conflict. Diversity related to race, ethnicity, gender, age, and sexual orientation is explored.
Credit Hours: 3

H_D_FS 2200: Research Methods in Human Development and Family Science
Introduction to research methods in the social sciences. Emphasis on both qualitative and quantitative methods, as well as applied research and program evaluation.
Credit Hours: 3
Prerequisites: STAT 1200 or STAT 1300 or STAT 1400 or ESC_PS 4170; sophomore standing

H_D_FS 2250: Child Life Volunteer Experience
Introductory experience in a children's hospital child life program. Designed to expose the prospective child life student to, and encourage exploration of, the health care environment. Introduction to hospitalized children and their families, child life programming, environmental issues, value of volunteerism within the healthcare setting, and development of pre-professional interpersonal skills. Graded on S/U basis only.
Credit Hour: 1

Prerequisites or Corequisites: H_D_FS 2400 or H_D_FS 2400W
Recommended: Students in the HDFS - Child Life emphasis should complete this course no later than the 2nd semester of the Sophomore year

H_D_FS 2300: Multicultural Study of Children and Families
Study of cultural variation in family life around the world and within America (e.g.: African-American, Hispanic American). Attention is paid to the external conditions that affect the internal workings of these families.
Credit Hours: 3

H_D_FS 2400: Principles of Human Development
Concepts and principles basic to an understanding of human development and learning throughout the life span.
Credit Hours: 3

H_D_FS 2400H: Principles of Human Development - Honors
Concepts and principles basic to an understanding of human development and learning throughout the life span.
Credit Hours: 4
Prerequisites: ENGLISH 1000. Honors eligibility required

H_D_FS 2400HW: Principles of Human Development - Honors/ Writing Intensive
Concepts and principles basic to an understanding of human development and learning throughout the life span.
Credit Hours: 4
Prerequisites: ENGLISH 1000. Honors eligibility required

H_D_FS 2400W: Principles of Human Development - Writing Intensive
Concepts and principles basic to an understanding of human development and learning throughout the life span.
Credit Hours: 4
Prerequisites: ENGLISH 1000

H_D_FS 2450: Human Sexuality Across the Life Span
An introductory survey of human sexuality including gender, love and intimacy, sexual expression and variation, sexual orientation, contraception, pregnancy and birth, sexually transmitted infections, sexual coercion, and sex in society. Sexuality within the context of intimate relationships across the life course will be emphasized.
Credit Hours: 3

H_D_FS 2510: Observation, Assessment, and Curriculum Planning
Fundamental course for students in the Child Development and Education emphasis area, and for other students planning to engage in work that requires observation and assessment of young children's development, as well as planning, implementation and evaluation of developmentally appropriate curriculum.
Credit Hours: 4
Prerequisites: H_D_FS 2400 or H_D_FS 2400W
H_D_FS 3050: Child Development: Birth to 3 (Infant/Toddler)
Child development from birth to age 3. Topics include growth patterns; influences of disabilities and risk factors; environmental factors and attachment; language acquisition; brain development; cognitive and social-emotional development; and perceptual and sensory motor skills. Some course content overlaps with H_D_FS 3500.

Credit Hours: 3
Prerequisites: Some sections may be restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI-ECE). Some sections may be restricted to HDFS, Pre-HDFS, and Education majors during Early Registration

H_D_FS 3085: Problems in Human Development and Family Science
Independent work on special problems in human development and family science. Graded on S/U basis only.

Credit Hour: 1-30
Prerequisites: instructor's consent

H_D_FS 3090: Research Experience in Human Development and Family Science
Student training and engagement in research with a H_D_FS faculty member. Students learn about the research process and methods, and develop research skills (e.g., data collection, entry, coding, analysis) through hands-on work. Graded on S/U basis only. May be repeated for credit.

Credit Hour: 1-30
Prerequisites: H_D_FS 2200; instructor's consent

H_D_FS 3150: Child Development 4-8 (Early Childhood)
Physical, cognitive, social/emotional and personality growth and development during early childhood. Topics include major theories of development and current research and ideas in conjunction with historical approaches to examining growth and development in ages 4-8.

Credit Hours: 3
Prerequisites: Some sections may be restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI-ECE). Some sections may be restricted to HDFS, Pre-HDFS, and Education majors during Early Registration

H_D_FS 3150W: Child Development 4-8 (Early Childhood) - Writing Intensive
Physical, cognitive, social/emotional and personality growth and development during early childhood. Topics include major theories of development and current research and ideas in conjunction with historical approaches to examining growth and development in ages 4-8.

Credit Hours: 3
Prerequisites: Some sections may be restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI-ECE). Some sections may be restricted to HDFS, Pre-HDFS, and Education majors during Early Registration

H_D_FS 3250: Introduction to Early Childhood Education in a Mobile Society
Role of a professional as a teacher, administrator, or advocate in early childhood programming. Topics include professionalism and ethics; identifying child abuse; the role of an early childhood educator; program models and working with children and professional colleagues.

Credit Hours: 3
Prerequisites: enrollment restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI_ECE)

H_D_FS 3350: Child Guidance and Classroom Environments
Examines developmentally appropriate practice in child guidance. Current guidance methods and programs will be covered. Students will develop their own approach to guidance based upon course content.

Credit Hours: 3
Prerequisites: enrollment is restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI_ECE)

H_D_FS 3420: Early and Middle Childhood
Emotional, cognitive, and physical development of the child before puberty. Observation is integral part of course. Cannot receive credit for more than one of the following: PSYCH 2410, H_D_FS 3420, or ESC_PS 2500.

Credit Hours: 3
Prerequisites: Restricted to Education, HDFS and Pre-HDFS majors during preregistration period

H_D_FS 3420W: Early and Middle Childhood - Writing Intensive
Emotional, cognitive, and physical development of the child before puberty. Observation is integral part of course. Cannot receive credit for more than one of the following: PSYCH 2410, H_D_FS 3420, or ESC_PS 2500.

Credit Hours: 3
Prerequisites: Restricted to Education, HDFS and Pre-HDFS majors during preregistration period

H_D_FS 3430: Adolescence and Young Adulthood
Physical, intellectual, and psychosocial maturation of adolescents and young adults within the context of life long developmental sequelae.

Credit Hours: 3
Prerequisites: Restricted to HDFS and Pre-HDFS majors during preregistration period

H_D_FS 3430H: Adolescence and Young Adulthood - Honors
Physical, intellectual, and psychosocial maturation of adolescents and young adults within the context of life long developmental sequelae.

Credit Hours: 3
Prerequisites: Restricted to HDFS and Pre-HDFS majors during preregistration period. Honors eligibility required

H_D_FS 3440: Adulthood and Aging
Examination of biological, cognitive, psychological and social changes experienced across adulthood.

Credit Hours: 3

H_D_FS 3450: Health, Safety and Nutrition
Topics include planning, promoting, and maintaining health and safe learning/care environments; understanding childhood illnesses and...
establishing healthy lifestyles; performing first aid; and maintaining care providers' health and safe relationships with others; identifying and reporting child abuse; nutrients for life; and safe food preparations.

Credit Hours: 3
Prerequisites: enrollment is restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI_ECE)

H_D_FS 3500: Infant-Toddler Practicum
Practical experience working with infants and toddlers, applying developmentally appropriate practice and theoretical perspectives. Emphasizes cognitive, social/emotional, creative and motor development; and staff and family relationships in child care settings. Graded on A-F basis only.

Credit Hours: 6
Prerequisites or Corequisites: H_D_FS 3050 or H_D_FS 3420/H_D_FS 3420W or instructor's consent

H_D_FS 3530: Foundations of Community-Based Programs for Children and Youth
Examines non-academic community-based programming for children and youth. Experience working with these age groups. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: H_D_FS 3420 or equivalent or instructor's consent

H_D_FS 3550: Technology and Young Children
Students will learn how electronic technology impacts the development of young children in educational, home and community environments, and how technology can be used to enhance teaching and learning.

Credit Hours: 3
Prerequisites: H_D_FS 3420 or equivalent and instructor's consent, junior standing.

H_D_FS 3570: Working with Families
This course examines application of an ecological model to the understanding of variation in parental roles, perspectives, approaches, and challenges. The course also provides an overview of effective communication strategies and parent education programs. Course content overlaps with H_D_FS 3600 thus students may not enroll in both courses. Students will NOT receive credit for both H_D_FS 3600 and H_D_FS 3750.

Credit Hours: 3
Prerequisites: Restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI-ECE) or by instructor consent

H_D_FS 3590: Children's Play
This course is an examination of the complex phenomenon of play in children's lives. Emphasis is placed on the value of play in developmental, social, and cultural contexts. Topics include the exploration of play theories and supporting empirical evidence, play materials, various environments, violence and conflict resolution, and therapeutic uses of play. Observation and assessment of children at play and analysis of play environments is required.

Credit Hours: 3
Prerequisites: H_D_FS 2400/H_D_FS 2400W, H_D_FS 3050 and H_D_FS 3150/H_D_FS 3150W, or instructor's consent, junior standing. Enrollment is restricted to H_D_FS and Pre H_D_FS majors during preregistration period.

H_D_FS 3630: Diversity in the Lives of Young Children and Families
In this course, students will explore cultural diversity in daily life and beliefs in families with young children. The focus is on U.S. families, with attention to the multiple cultures from which they come.

Credit Hours: 3
Prerequisites: Restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI-ECE), or by instructor consent.

H_D_FS 3650: Preschool Practicum
Practical experience working with children ages 2.5-5 years of age, applying developmentally appropriate practice and theoretical perspectives. Emphasizes cognitive, social and emotional, creative, and motor development, and family and staff relationships in a child care setting. Graded on A-F basis only.

Credit Hours: 6
Prerequisites or Corequisites: H_D_FS 3150/H_D_FS 3150W, or H_D_FS 3420/H_D_FS 3420W, or instructor's consent

H_D_FS 3720: Student Teaching Prekindergarten
Experience working with children (2-5 years), using general guidance principles and methods for fostering creativity.

Credit Hours: 6
Prerequisites: H_D_FS 3420 or equivalent and instructor's consent

H_D_FS 3730: Field Training Practicum
Field training experiences under supervision. May be repeated for credit. Graded on S/U basis only.

Credit Hours: 3
Prerequisites: advisor's consent

H_D_FS 3750: Working with Families
This course focuses on application of an ecological model to the understanding of variation in parental roles, perspectives, approaches, and challenges. The course also provides an overview of effective communication strategies and parent education programs. Course content overlaps with H_D_FS 3600 thus students may not enroll in both courses. Students will NOT receive credit for both H_D_FS 3600 and H_D_FS 3750.

Credit Hours: 3
Prerequisites: Restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI-ECE) or by instructor consent

H_D_FS 3800: Children's Play
This course is an examination of the complex phenomenon of play in children's lives. Emphasis is placed on the value of play in developmental, social, and cultural contexts. Topics include the exploration of play theories and supporting empirical evidence, play materials, various environments, violence and conflict resolution, and therapeutic uses of play. Observation and assessment of children at play and analysis of play environments is required.

Credit Hours: 3
Prerequisites: H_D_FS 2400/H_D_FS 2400W, H_D_FS 3050 and H_D_FS 3150/H_D_FS 3150W, or instructor's consent, junior standing. Enrollment is restricted to H_D_FS and Pre H_D_FS majors during preregistration period.

H_D_FS 3950: Practicum I: Child Observations in Classroom Environment
Opportunity for Early Childhood Education teacher candidates to have a guided learning experience in a professional agency that provides services to children and families. Some course content overlaps with LTC 4110.

Credit Hours: 3
Prerequisites: restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI-ECE); H_D_FS 3050, H_D_FS 3150, H_D_FS 3250, H_D_FS 3350 and H_D_FS 3450

H_D_FS 3960: Readings in Human Development and Family Science
Readings in recent research; critical discussions.
**H_D_FS 4001: Topics in Human Development and Family Science**
Selected current topics in field of interest.

**Credit Hour:** 1-30

**Prerequisites:**
- H_D_FS 3500 and H_D_FS 3700, consent required
- H_D_FS 3050, H_D_FS 3150/H_D_FS 3150W, or instructor's consent. Restricted to HDFS majors

---

**H_D_FS 4085: Problems in Human Development and Family Science**
Independent work on special problems in human development and family science. Graded on S/U basis only.

**Credit Hour:** 1-6

**Prerequisites:**
- H_D_FS 2200, H_D_FS 2400/H_D_FS 2400W, H_D_FS 3500 or H_D_FS 3700, or instructor's consent

---

**H_D_FS 4090: Advanced Research in Human Development and Family Science**
Advanced training and engagement in research with a H_D_FS faculty member. Student develops research skills (e.g., data collection, entry, coding, analysis) and works semi-independently on own research project. Graded on S/U basis only. May be repeated for credit.

**Credit Hour:** 1-30

**Prerequisites:**
- H_D_FS 2200 and H_D_FS 3090; instructor's consent

---

**H_D_FS 4100: Children in Healthcare Settings**
(cross-leveled with H_D_FS 7100). Overview of the medical conditions and treatments commonly encountered by children and adolescents in healthcare settings and their typical reactions to healthcare experiences. Introduction to the philosophy and the role of the child life specialist in the healthcare setting.

**Credit Hours:** 3

**Prerequisites:**

---

**H_D_FS 4110: Child Life Theory and Practice**
(cross-leveled with H_D_FS 7110). Focuses on theoretical foundations and principal intervention strategies used in Child Life professional practice.

**Credit Hours:** 3

**Prerequisites:**
- H_D_FS 2200, H_D_FS 3050, H_D_FS 3150/H_D_FS 3150W, and H_D_FS 3500 or H_D_FS 3700, or instructor's consent

---

**H_D_FS 4130: Child Life Practicum**
(cross-leveled with H_D_FS 7130). Observation of Child Life staff at Children’s Hospital and experience helping children and adolescents cope with hospitalization.

**Credit Hours:** 3

**Prerequisites:**
- H_D_FS 3500 and H_D_FS 3700, consent required

---

**H_D_FS 4150: Development of Curriculum for Children Ages Birth to 3**
Students will learn and use assessment and documentation to inform curriculum; plan and evaluate developmentally appropriate activities; and learn about effective ways to share curriculum information with families. Focus is on children ages birth to 3.

**Credit Hours:** 3

---

**H_D_FS 4200: Latino/a Youth and Families**
Current issues in theory, methods, and research in U.S. Latino/a youth and families are examined from a social and developmental psychological perspective. The course is an advanced level study, with a particular focus on history, theories, methods, research, and applied social issues. Topics will include, parenting, siblings, youth development and adjustment, stress, risky behaviors, gender issues, assessment, study design, cultural values, intervention programs, and immigration issues.

**Credit Hours:** 3

**Prerequisites:**
- Pre-H_D_FS and H_D_FS majors must complete H_D_FS 1600, H_D_FS 2200, H_D_FS 2300, H_D_FS 2400/H_D_FS 2400W

---

**H_D_FS 4250: Development of Curriculum for Children 4-8**
Students will learn and use assessment and documentation to inform curriculum, plan and evaluate developmentally appropriate activities; and learn about effective ways to share curriculum information with families. Focus is on children ages 4-8.

**Credit Hours:** 3

**Prerequisites:**
- Enrollment is restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI_ECE)

---

**H_D_FS 4300: Black Families**
(same as BL_STU 4300). Emphasis is on the unique social, economic, religious, educational, and political environments that have affected the structure and function of the Black family.

**Credit Hours:** 3

**Prerequisites:**
- H_D_FS 2200 or equivalent, and junior standing

---

**H_D_FS 4350: Assessing Young Children and their Environments**

**Credit Hours:** 3

**Prerequisites:**
- Enrollment is restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI_ECE)

---

**H_D_FS 4400: Childhood Death and Bereavement**
(cross-leveled with H_D_FS 7400). An exploration of issues that arise for children and families when facing life-threatening illness and death. The course also includes an examination of coping and helping strategies for dying and grieving children.

**Credit Hours:** 3

**Prerequisites:**
- H_D_FS 2200, H_D_FS 2400/H_D_FS 2400W, H_D_FS 3050 and H_D_FS 3150/H_D_FS 3150W (or H_D_FS 3420/H_D_FS 3420W) or instructor's consent. Restricted to HDFS majors during early registration period

---

**H_D_FS 4420: Environmental Influences on Lifespan Cognition**
This course covers the change and growth of cognition through the lifespan with particular attention to how the environment influences...
Prerequisites: Pre-HDFS and HDFS majors must complete H_D_FS 1600, H_D_FS 2200, H_D_FS 2300 and H_D_FS 2400/H_D_FS 2400W

Credit Hours: 3
Prerequisites: Pre-HDFS and HDFS Majors must complete H_D_FS 1600, H_D_FS 2200, H_D_FS 2300, H_D_FS 2400/H_D_FS 2400W, H_D_FS 3050, H_D_FS 3150/H_D_FS 3150W (or H_D_FS 3420/H_D_FS 3420W instead of H_D_FS 3050 and H_D_FS 3150/H_D_FS 3150W)

H_D_FS 4450: Understanding and Adapting for Developmental Differences
This course focuses on knowledge of disability conditions, assessment and identification, interventions in inclusive environments, and collaborations among service providers.

Credit Hours: 3
Prerequisites: enrollment is restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI_ECE)

H_D_FS 4550: Practicum II: Curriculum Development and Implementation
Practicum in ECE is an opportunity for teacher candidates to have a guided learning experience in a professional agency that provides services to children and families, and allows teacher candidates to have the opportunity to use and implement theories and practices. Course content overlaps with LTC 4110. Not recommended for students to enroll in both courses.

Credit Hours: 3
Prerequisites: restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI-ECE)

H_D_FS 4570: Administration of Programs for Children and Families (cross-leveled with H_D_FS 7570). The development of leadership and management skills for administering community-based early childhood programs for children and their families. Includes an overview of early childhood standards; budgeting, funding and financial matters; developing, equipping, and staffing a center; recruiting children and families; curriculum; health, safety, and nutrition; volunteer and staff development, and program evaluation. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: H_D_FS 1600, H_D_FS 2200 or equivalent, H_D_FS 2300, H_D_FS 2400/2400W, H_D_FS 2510, H_D_FS 3500 or H_D_FS 3700, or instructor's consent

H_D_FS 4630: The Process of Divorce
(cross-leveled with H_D_FS 7630). Examination of theory and research related to marital dissolution. The impact of divorce on children and adults, and divorce intervention strategies are considered.

Credit Hours: 3
Prerequisites: Pre-HDFS and HDFS majors must complete H_D_FS 1600, H_D_FS 2200, H_D_FS 2300 and H_D_FS 2400/H_D_FS 2400W

H_D_FS 4640: Interpersonal Relationships
In-depth examination of interpersonal relationships, including theoretical perspectives, research methods, relationship forms, relationship processes, and how context affects relationships. Students are introduced to the field of close relationships.

Credit Hours: 3
Prerequisites: Pre-HDFS and HDFS majors must complete H_D_FS 1600, H_D_FS 2200, H_D_FS 2300 and H_D_FS 2400/H_D_FS 2400W

H_D_FS 4650: Administration/Supervision in Early Childhood Settings
Exploration of issues surrounding the administration of ECE programs including identification of community needs, analysis of business opportunities, evaluation and appropriate use of quality programming, consideration of policy and equal responsibilities, and professionalism. Course content overlaps with H_D_FS 4570. Students may NOT enroll in both courses. Students will not receive credit for both H_D_FS 4650 and H_D_FS 4570.

Credit Hours: 3
Prerequisites: Restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI-ECE)

H_D_FS 4680: Family Communication
(same as COMMUN 4520; cross-leveled with H_D_FS 7680). Analysis of the functions and processes of communication within families.

Credit Hours: 3
Prerequisites: junior standing or departmental consent. May be restricted to Communication majors only during early registration

H_D_FS 4700: Children and Families in Poverty
Study of the extent, distribution, and implications of poverty on children and families. Examination of myths and realities, social conditions, policies, and programs that contribute to or reduce poverty and its consequences.

Credit Hours: 3
Prerequisites: Pre-HDFS and HDFS majors must complete H_D_FS 1600, H_D_FS 2200, H_D_FS 2300 and H_D_FS 2400/H_D_FS 2400W

H_D_FS 4720: Child and Family Advocacy
(cross-leveled with H_D_FS 7720). Study of the processes of social policies, legislation, and regulations affecting children and families at the local, state and federal levels. The course emphasizes current issues and need for citizen involvement.

Credit Hours: 3
**Prerequisites:** Restricted to HDFS and Pre-HDFS majors during pre-registration period; Pre-HDFS and HDFS majors must complete H_D_FS 1600, H_D_FS 2200, H_D_FS 2300 and H_D_FS 2400/H_D_FS 2400W

**H_D_FS 4740: Parent-Child Relations Over the Life Course**
Examines the development, continuities, transitions, and discontinuities of parent-child relationships over the life course. Considers the influence of parents on children and children on parents.

**Credit Hours:** 3
**Recommended:** H_D_FS 1600 and H_D_FS 2200

**H_D_FS 4750: Practicum III: Capstone Experience**
This experience allows the student to demonstrate practical application of developmentally appropriate early childhood teaching techniques and skills, teaching experience and developmental feedback. Includes observation and evaluation of classroom experience. Course content overlaps with H_D_FS 3700 and LTC 4170. Not recommended for students to enroll in both courses. Students will not receive credit for both H_D_FS 4750 and H_D_FS 3700 or H_D_FS 4750 and LTC 4170.

**Credit Hours:** 6
**Prerequisites:** restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI-ECE). H_D_FS 3950, H_D_FS 4150, H_D_FS 4250, H_D_FS 4350, H_D_FS 4450 and H_D_FS 4550

**H_D_FS 4800: Program and Curriculum Design for FACS Education in Middle and Secondary Schools**
(cross-leveled with H_D_FS 7800). What should a teacher do about planning for student learning in FACS? Includes objectives, lesson designs, resources, learner diversity, thinking skills, reasoning processes, articulation, legislation.

**Credit Hours:** 3
**Prerequisites:** ESC_PS 2010 and SPC_ED 2020 or equivalent. Admission to Phase II, and instructor's consent

**H_D_FS 4820: Assessment in Family and Consumer Sciences Education**
(cross-leveled with H_D_FS 7820). What should a teacher do to determine the extent to which program/lesson objectives have been achieved? Includes the selection, design, and use of a wide variety of assessment tools and techniques, and the impact of assessment on the evaluation of learners and program design.

**Credit Hours:** 2
**Prerequisites:** admission into Phase II, H_D_FS 4800, and instructor's consent

**H_D_FS 4830: Methods of Teaching FACS in Middle and Secondary Schools**
(cross-leveled with H_D_FS 7830). What should a teacher do to help students achieve learner objectives? Includes classroom management strategies, choosing and using instructional methods to stimulate thinking skills and reasoning processes, communication skills, professionalism, and public relations.

**Credit Hours:** 3
**Prerequisites:** admission into Phase II, and instructor's consent

**H_D_FS 4940: Field Experience in Family and Consumer Sciences**
Students will observe and assist in FACS classroom.

**Credit Hour:** 1
**Prerequisites:** to be taken concurrently with H_D_FS 4800, and instructor's consent

**H_D_FS 4941: Field Experience in Family and Consumer Sciences**
Students will be involved in real-world experiences in a FACS classroom.

**Credit Hour:** 1
**Prerequisites:** to be taken concurrently with H_D_FS 4830; requires instructor's consent

**H_D_FS 4942: Student Teaching FACS in Middle and Secondary Schools**
What guided practicum experiences will directly contribute to success as a classroom teacher? Students will teach for sixteen weeks within the state of Missouri under the supervision of an experienced FACS teacher.

**Credit Hour:** 1-15
**Prerequisites:** H_D_FS 4800, H_D_FS 4820, H_D_FS 4830, ENGLSH 1000, admittance to Phase III, and instructor's consent

**H_D_FS 4942W: Student Teaching FACS in Middle and Secondary Schools - Writing Intensive**
What guided practicum experiences will directly contribute to success as a classroom teacher? Students will teach for sixteen weeks within the state of Missouri under the supervision of an experienced FACS teacher.

**Credit Hour:** 1-15
**Prerequisites:** H_D_FS 4800, H_D_FS 4820, H_D_FS 4830, ENGLSH 1000, admittance to Phase III, and instructor's consent

**H_D_FS 4970: Families and Lifespan Development Capstone**
Focus on integrating, extending, critiquing, and applying knowledge gained in the Families and Lifespan Development option within a family and lifespan development educational framework. Graded on A-F basis only.

**Credit Hours:** 4
**Prerequisites:** senior standing and instructor's consent

**H_D_FS 4970W: Families and Lifespan Development Capstone - Writing Intensive**
Focus on integrating, extending, critiquing, and applying knowledge gained in the Families and Lifespan Development option within a family and lifespan development educational framework. Graded on A-F basis only.

**Credit Hours:** 4
**Prerequisites:** senior standing and instructor's consent

**H_D_FS 4971: Child Development and Education Capstone**
Practical experience working with young children (up to 10) in out-of-home care facilities. Program planning for children and working with parents. Lab hours required.

**Credit Hours:** 9
**Prerequisites:** H_D_FS 2200, H_D_FS 3500 and H_D_FS 3700, or equivalent and instructor's consent
H_D_FS 4993: Internship in Human Development and Family Science
Internships or field training experiences under supervision. Graded on S/U basis only.

Credit Hour: 1-30
Prerequisites: H_D_FS 2200 or equivalent and instructor's consent

H_D_FS 7001: Topics in Human Development and Family Science
Selected current topics in field of interest.

Credit Hour: 1-99

H_D_FS 7085: Problems
Independent work on special problems in human development and family studies. Graded on S/U basis only.

Credit Hour: 1-99
Prerequisites: instructor's consent

H_D_FS 7100: Children in Healthcare Settings

Credit Hours: 3

H_D_FS 7110: Child Life Theory and Practice
Focuses on theoretical foundations and principal intervention strategies used in Child Life professional practice.

Credit Hours: 3
Prerequisites: H_D_FS 2200, H_D_FS 3050, H_D_FS 3150/H_D_FS 3150W, and H_D_FS 3500 or H_D_FS 3700, or instructor's consent

H_D_FS 7130: Child Life Practicum
Observation of Child Life staff at Children's Hospital and experience helping children and adolescents cope with hospitalization.

Credit Hours: 3
Prerequisites: H_D_FS 3500 and H_D_FS 3700, consent required

H_D_FS 7200: Latino Families and Youth
This course will cover the critical integration of theoretical, methodological, and empirical issues in Latino psychology using a cross-cultural, cross-ethnic perspective, including the increased sensitivity to issues and challenges facing Latino families and youth from a social science perspective. There will be a particular focus on selected topics in social and developmental psychology, as well as, understanding the relevance to other areas of study, to policy contexts, and to applied settings. Students will provide a written, integrative literature review and research proposal related to the course topic. The course will consist primarily of seminar discussions based on the textbook and additional readings. Students will lead class discussions based on the readings and their QRCs. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Instructor's consent

H_D_FS 7231: Foundations of Youth Development
This course provides an introduction to the field of youth development and the professions that include youth work. This course is designed to provide a foundation of knowledge that students will need to begin any course in the Great Plains IDEA Youth Development programs. Priority given to students in the Great Plains IDEA Youth Development programs.

Credit Hours: 1

H_D_FS 7233: Basic Grant Development and Management
This course introduces students to grant development and management. This short-course is not intended to cover all aspects of grant development and management, but it will help students gain confidence in their grant development abilities and inspire them to learn more. Priority given to students in the Great Plains IDEA Grant master's and certificate programs.

Credit Hours: 3

H_D_FS 7252: Adult Development
This course presents a life-span, multidisciplinary developmental framework that considers sociohistorical influences, individual differences, and concern for promoting optimal functioning. Priority given to students in the Great Plains IDEA Group master's and certificate programs.

Credit Hours: 3

H_D_FS 7255: Aging Policy
Policy development in the context of the economic status of the elderly populations. Retirement planning and the retirement decision; Social Security and public transfer programs for the elderly; intrafamily transfers to/from the elderly; private pensions; financing medical care for the elderly; prospects and issues for the future. Priority given to students in the Great Plains IDEA Group master's and certificate programs.

Credit Hours: 3

H_D_FS 7256: Environments and Aging
Examination of attributes of physical environments that support special needs of older people and application of this knowledge to the design and management of housing, institutional settings, neighborhoods and communities. Priority given to students in the Great Plains IDEA Group master's and certificate programs.

Credit Hours: 3

H_D_FS 7257: Aging and the Family
Theories and research related to personal and family adjustments in later life affecting older persons and their inter-generational relationships. Related issues including demographics are also examined through the use of current literature. Priority given to students in the Great Plains IDEA Group master's and certificate programs.

Credit Hours: 3
H_D_FS 7259: Mental Health and Aging
Student is introduced to the range of issues utilizing several theoretical perspectives and the systems framework. Major mental, emotional, and psychiatric problems encountered in old age are examined, along with normal processes of aging individual's personality, mental and brain functions. Priority given to students in the Great Plains Idea Group master's and certificate programs.

Credit Hours: 3

H_D_FS 7260: Women and Aging
Women and aging is the study of theory, research and application of issues related to women and the aging experience. Priority given to students in the Great Plains Idea Group master's and certificate programs.

Credit Hours: 3

H_D_FS 7261: Biological Principles of Aging
This course will give an overview of the normal aging process of the human body systems, environmental factors influencing normal aging, diseases and disorders associated with aging. A special topics unit will include but is not limited to interviews and observations dealing with the aging process in humans. Priority given to students in the Great Plains Idea Group master's and certificate programs.

Credit Hours: 3

H_D_FS 7262: Long-Term Care Administration
Provides information for persons interested in leadership role in long-term care, or for those considering careers intersecting with senior living organizations. Also considers long-term care options. Priority given to students in the Great Plains Idea Group master's and certificate programs.

Credit Hours: 3

H_D_FS 7300: Black Families
(same as BL_STU 7300). Emphasis is on the unique social, economic, religious, educational, and political environments that have affected the structure and function of the black families.

Credit Hours: 3

Prerequisites: H_D_FS 2200 or equivalent

H_D_FS 7400: Childhood Death and Bereavement
(cross-leveled with H_D_FS 4400). An exploration of issues that arise for children and families when facing terminal illness or death. The course also includes an examination of coping and helping strategies for dying and grieving children.

Credit Hours: 3

Prerequisites: H_D_FS 2200, H_D_FS 2400/H_D_FS 2400W, H_D_FS 3150 and H_D_FS 3150/H_D_FS 3150W (or H_D_FS 3420/H_D_FS 3420W) and instructor's consent. Restricted to HDFS and Pre-HDFS majors during pre-registration period

H_D_FS 7570: Administration of Programs for Children and Families
(cross-leveled with H_D_FS 4570). The development of leadership and management skills for administering community-based early childhood programs for children and their families. Includes an overview of early childhood standards; budgeting, funding and financial matters; developing, equipping, and staffing a center; recruiting children and families; curriculum; health, safety, and nutrition; volunteer and staff development, and program evaluation. Graded on A-F basis only.

Credit Hours: 3

Prerequisites: H_D_FS 1600, H_D_FS 2200 or equivalent. H_D_FS 2300, H_D_FS 2400/2400W, H_D_FS 2510, H_D_FS 3500 or H_D_FS 3700, or instructors consent

H_D_FS 7600: Resilience in Families
Exploration of the evolution of a resilience approach to the study of families and human development. Using a lifespan approach, students will explore resilience across time as well as within special populations such as families experiencing crisis and trauma, culturally diverse families, and military families. Graded on A-F basis only.

Credit Hours: 3

H_D_FS 7610: Stress and Resilience in Families
(cross-leveled with H_D_FS 4610). Introduction to the study of stressor events in families, such as poverty, violence within families, substance abuse, and health problems. Emphasis is on both prevention and coping.

Credit Hours: 3

H_D_FS 7630: The Process of Divorce
(cross-leveled with H_D_FS 4630). Examination of theory and research related to marital dissolution. The impact of divorce on children and adults, and divorce intervention strategies will be considered.

Credit Hours: 3

Prerequisites: Pre-HDFS and HDFS majors must complete H_D_FS 1600, H_D_FS 2200, H_D_FS 2300 and H_D_FS 2400/H_D_FS 2400W

H_D_FS 7640: Interpersonal Relationships
(cross-leveled with H_D_FS 4640). In-depth examination of interpersonal relationships, including theoretical perspectives, research methods, relationship forms, relationship processes, and how context affects relationships. Students will also be introduced to the field of close relationships.

Credit Hours: 3

H_D_FS 7650: Family Crisis Intervention
Individuals and families in crises are examined. Focus is on grief and loss, substance abuse, family violence, and suicidal ideation. Examination of evidence-based preventions and treatments and community resources for those affected by stress, trauma, and crises. Graded on A-F basis only.

Credit Hours: 3

H_D_FS 7690: Family Resource Management
Survey course of personal finance and family resource management literature to provide an overview of how individual and family members develop and exercise their capacity to obtain and manage resources to meet life needs. Resources include the self, other people, time, money, energy, material assets, space, and environment. Graded on A-F basis only.

H_D_FS 8235: Administration and Program Management
This course introduces students to the development, administration and management of youth-serving organizations. Priority given to students in the Great Plains Idea Group master's and certificate programs.
Credit Hours: 3

H_D_FS 8236: Federal and State Policies that Impact Youth Development
This course examines various federal and state policies that affect developmental opportunities for youth. Course participants will also examine not only how policies are developed, but also why. Priority given to students in the Great Plains Idea Group master's and certificate programs.
Credit Hours: 3

H_D_FS 8237: Youth Cultures and the Cultures of Youth
This course examines the cultural contexts that affect youth from within and outside the family. Students will study social, ethnic, and educational processes that affect youth, and they will examine how history has shaped the current cultural climate of the U.S. Priority given to students in the Great Plains Idea Group master's and certificate programs.
Credit Hours: 3

H_D_FS 8238: Program Design, Implementation and Evaluation
The course will discuss program design, implementation, and outcome evaluation. This course will focus on planning, designing logic models, and evaluating program. Students will evaluate a community-based project.
Credit Hours: 3
Prerequisites: Priority given to students in the Great Plains Idea Group master's and certificate programs

H_D_FS 8239: Community Youth Development
This course focuses on community youth development from a strength-based or developmental asset approach. This approach encompasses both individual development and interpersonal projects. Priority given to students in the Great Plains Idea Group master's and certificate programs.
Credit Hours: 3

H_D_FS 8240: Youth Development
This course introduces the developmental period of adolescence. Emphasis will be on developmental tasks of this life stage and influences of family and home, school, peers and other contextual forces. Priority given to students in the Great Plains Idea Group master's and certificate programs.
Credit Hours: 3

H_D_FS 8253: Physical Health in Aging
This course identifies the basic physiologic changes during aging and their effects on health and disease. The focus will be on successful aging with special emphasis on physical activity and nutrition. Practical application to community settings is addressed. Priority given to students in the Great Plains Idea Group master's and certificate program.
Credit Hours: 3

H_D_FS 8254: Gerontology Research Methods and Program Evaluation
Overview of program evaluation, research methods and grant writing in gerontology. Includes application of quantitative and qualitative methods in professional settings. Priority given to students in the Great Plains Idea Group master's and certificate programs.
Credit Hours: 3

H_D_FS 8258: Professional Seminar in Gerontology
An integrative experience for gerontology students designed to be taken near the end of the degree program. By applying knowledge gained in earlier course work, students strengthen skills in ethical decision-making behavior, apply these skills in gerontology-related areas such as advocacy, professionalism, family and workplace issues.
Credit Hours: 3
Prerequisites: Completion of all other gerontology program coursework.
Priority given to students in the Great Plains Idea Group master's and certificate programs

H_D_FS 8300: Advanced Seminar on Multicultural Families
Advanced study of multicultural (racial, ethnic, social) families within American society. Attention is focused on each group's unique cultural heritage and social environment.
Credit Hours: 3
Prerequisites: instructor's consent

H_D_FS 8420: Cognitive Development
(same as PSYCH 8420). Study of the development of reasoning, perception and language.
Credit Hours: 3

H_D_FS 8440: Social and Emotional Development
(same as PSYCH 8440). Seminar on emotional and social development in children, with focus on research and theory on the impact of various family, school, and societal factors.
Credit Hours: 3

H_D_FS 8450: Adolescence and Emerging Adulthood
Seminar on development during adolescence and emerging adulthood from biological, cognitive, psychosocial, and cultural perspectives, and with a focus on health-related attitudes and behaviors.
Credit Hours: 3
H_D_FS 8460: Life Course Perspective
Seminar on the life course perspective, an interdisciplinary approach to the study of lives over time and the interplay between human lives and social institutions. Deals with how individual lives are shaped by social change and social structure.
Credit Hours: 3

H_D_FS 8500: Prosocial and Moral Development
The course objective is to increase the understanding of the study of morality from psychological and developmental perspectives and the critical integration of theoretical, methodological, and empirical issues in moral psychology. It will also cover understanding the relevance of moral concepts and findings to other areas of study, policy contexts, and applied settings. Students will provide a written, integrative literature review and research proposal related to the course topic. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Instructor's consent

H_D_FS 8510: Parenting Education
Study of theories, models, research and skills regarding parenting effectiveness and parent-child relations in the context of Western and Eastern cultures. Included are comparisons of the relative strengths and weaknesses of various parenting approaches, historical perspective on parenthood and children, parenting roles, strategies for contemporary parenting, developmental interaction from infancy through adulthood and selected special concerns of parents. A Bio-Ecological Systems approach will be utilized in this course. Graded on A-F basis only.
Credit Hours: 3

H_D_FS 8520: Lifespan Development
This course covers the human development including the cognitive, social-emotional, motor, language, and moral domains from both a lifespan and a bio-ecological perspective. Course content focuses on the major theories of development as well as current research on the micro-macro interrelationship. Students who complete this course will have a better understanding of individual human developmental processes and their relationship with context and within family and community matters. Graded on A-F basis only.
Credit Hours: 3

H_D_FS 8610: Remarriage & Stepfamilies: Development, Dynamics, & Intervention
The processes of remarriage and reconstituted family dynamics; special developmental needs and intervention models will be studied. The impact on children is considered.
Credit Hours: 3
Prerequisites: instructor's consent

H_D_FS 8630: Gendered Relations in Families
(same as WGST 8630). From a feminist perspective, the roles of gender in shaping family life experience and of family life experience in shaping gender will be explored. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: instructor's consent

H_D_FS 8640: Family Interaction
Examination of intrafamilial interaction. Includes an overview of theories used to study family interaction, critical review of the assessment of family interaction; and examination of contemporary research on family interaction focusing on intra and inter-generational relationships.
Credit Hours: 3
Prerequisites: H_D_FS 1600 and H_D_FS 2200 or equivalent; or instructor's consent

H_D_FS 8710: Children, Families and Public Policy
Seminar on societal issues relating to children and families, with focus on the development of public policies.
Credit Hours: 3
Prerequisites: instructor's consent

H_D_FS 8770: Poverty
Implications of poverty for child, adult, and family functioning. Poverty-related policies and programs.
Credit Hours: 3

H_D_FS 8960: Readings in Human Development and Family Science
Readings in recent research; critical evaluation.
Credit Hours: 1-99
Prerequisites: instructor's consent

H_D_FS 8972: Internship in Human Development and Family Science
Internships and/or field training experiences under supervision. Graded on S/U basis only.
Credit Hours: 1-99
Prerequisites: instructor's consent

H_D_FS 9090: Research in Human Development and Family Science
Independent research leading to thesis or dissertation. Graded on S/U basis only.
Credit Hours: 1-99

H_D_FS 9100: Teaching Practicum
Supervised experience in teaching various audiences, including college students, professionals, and community residents. Graded on S/U basis only.
Credit Hours: 2-6
Prerequisites: instructor's consent

H_D_FS 9200: Advanced Research Methods in Human Development and Family Science
(same as NURSE 9410). Examination of issues related to the study of individuals and their families; measurement, designs, and interpretation of statistical analyses. Statistics are placed in perspective through readings and discussions of the relationships between theory, research design, and data analyses.
Credit Hours: 3
Prerequisites: H_D_FS 8200 or instructor's consent
H_D_FS 9210: Research Practicum in Human Development and Family Science
Independent research activities in conjunction with faculty. Graded on S/U basis only.
Credit Hour: 2-6
Prerequisites: instructor's consent

H_D_FS 9420: Qualitative Methods
(same as NURSE 9420). Examines the following selected qualitative research approaches appropriate for the study of nursing phenomena and the extension or modification of scientific knowledge so as to be relevant to nursing: case study research methods, verbal qualitative approaches, and nonverbal qualitative approaches. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: NURSE 7150 and doctoral status (or permission of faculty)

Industrial And Manufacturing Systems Courses

IMSE 1000: Introduction to Industrial Engineering
Introduction to industrial engineering profession, the Industrial and Manufacturing Systems Engineering department, and the core topics of industrial engineering. Introduction to problem solving, ethics and industrial engineering design and analysis techniques.
Credit Hour: 1

IMSE 2030: Fundamentals of Systems Design and Analysis
Develop an understanding of a systems approach to the design and operation of modern industrial organizations: systems structure and function, system specification, structured problem solving and system design methodology.
Credit Hours: 3

IMSE 2110: Probability and Statistics for Engineers
Introduction to data analysis, probability concepts, random variables, parameter estimation and hypothesis testing.
Credit Hours: 3
Prerequisites: MATH 1500. Restricted to Engineering Students who are non-IMSE majors

IMSE 2210: Linear Algebra for Engineers
Study of quantitative methods necessary for analysis, modeling and design of optimal industrial systems.
Credit Hours: 3
Prerequisites: MATH 1700

IMSE 2710: Engineering Economic Analysis
Fundamentals of engineering economic decision making. Includes time value of money, breakeven analysis, capital budgeting, replacement, after-tax analysis, inflation, risk, sensitivity analysis and multi-attribute analysis.
Credit Hours: 3
Prerequisites: Restricted to IMSE students or by Departmental consent. Grade of C- or better in IMSE 3110

IMSE 3030: Manufacturing and Supply Systems
Provide a structured approach for the design and optimization of a system throughout its lifecycle: techniques following the logical sequence of strategic analysis, system design, implementation, and monitoring.
Credit Hours: 3
Prerequisites: IMSE 2030

IMSE 3110: Probability Models for Engineers
Introduction to probability concept and theory, random variables, discrete and continuous probability distributions, joint probability distributions.
Credit Hours: 3
Prerequisites: MATH 1500. Restricted to IMSE students only

IMSE 3810: Ergonomics and Workstation Design
Ergonomics and human factors theories applied to the design of man-machine systems. Discussion of ergonomic methods for measurement, assessment, and evaluation, with major topics including workstation design, environmental stresses, and workplace safety. Includes lab.
Credit Hours: 3
Prerequisites: Restricted to IMSE students. ENGINR 1200 and IMSE 4110

IMSE 3810W: Ergonomics and Workstation Design - Writing Intensive
Ergonomics and human factors theories applied to the design of man-machine systems. Discussion of ergonomic methods for measurement, assessment, and evaluation, with major topics including workstation design, environmental stresses, and workplace safety. Includes lab.
Prerequisites:
Credit Hours: 3
Prerequisites: Restricted to IMSE students. ENGINR 1200 and IMSE 4110

IMSE 4001: Topics in Industrial and Manufacturing Systems Engineering
Current and new technical developments in industrial engineering.
Credit Hours: 3

IMSE 4085: Problems in Industrial Engineering
Supervised investigation in industrial engineering presented in form of an engineering report.
Credit Hour: 1-4

IMSE 4110: Engineering Statistics
(cross-leveled with IMSE 7110). Understanding and application of statistical analysis techniques. Emphasis on hypothesis testing, regression analysis, analysis of variance (ANOVA) and design of experiments (DOE).
Credit Hours: 3
Prerequisites: Restricted to IMSE students or by Departmental consent. Grade of C- or better in IMSE 3110
IMSE 4210: Linear Optimization  
(cross-leveled with IMSE 7210). Theory and application of linear optimization.  
**Credit Hours:** 3  
**Prerequisites:** Restricted to IMSE students. Grade of C- or better in IMSE 2210  

IMSE 4220: Optimization Modeling and Computational Methods  
(cross-leveled with IMSE 7220). Modeling and solution techniques for mathematical optimization, including linear, nonlinear, integer, and stochastic programming. Emphasis on formulation of models for most-efficient use of solution algorithms. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** IMSE 3110, IMSE 4210  

IMSE 4230: Operations Research Models  
(cross-leveled with IMSE 7230). Formulates probabilistic models and determines optimal control policies for queuing and inventory systems. Introduces Markov chains and dynamic programming.  
**Credit Hours:** 3  
**Prerequisites:** Restricted to IMSE students or by Departmental consent. Grade of C- or better in IMSE 2210 and IMSE 3110  

IMSE 4280: Systems Simulation  
(cross-leveled with IMSE 7280). Discrete-event stochastic systems modeling and experimentation using simulation software. Statistical design and analysis including distribution fitting and alternative comparison methodologies.  
**Credit Hours:** 3  
**Prerequisites:** Restricted to IMSE students. CMP_SC 1050. Grade of C- or better in IMSE 4110  

IMSE 4310: Integrated Production Systems Design  
(cross-leveled with IMSE 7310). Design and operation of production systems, including lean six sigma concepts, just-in-time/kanban, facility layout and material flow issues.  
**Credit Hours:** 3  
**Prerequisites:** Restricted to IMSE students or by Departmental consent. IMSE 4210, IMSE 4280  

IMSE 4330: Material Flow and Logistics System Design  
(cross-leveled with IMSE 7330). Modeling and analysis of structural and operational issues associated with material-flow system design including facility location, warehouse/inventory systems, and distribution/transportation systems.  
**Credit Hours:** 3  
**Prerequisites:** IMSE 4210 and IMSE 4280  

IMSE 4350: Production and Operations Analysis  
(cross-leveled with IMSE 7350). Quantitative methods for forecasting, scheduling, and production control in manufacturing and service systems. Use of Enterprise Resource Planning (ERP) systems.  
**Credit Hours:** 3  
**Prerequisites:** Restricted to IMSE students or by Departmental consent. IMSE 4210 and IMSE 4230  

IMSE 4360: Supply Chain Engineering  
(cross-leveled with IMSE 7360). Modeling and analysis of supply chain network design and management issues including integration of production, inventory control, supplier selection, risk management and logistics network design. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** IMSE 4350  

IMSE 4370: Service Systems Engineering and Management  
(cross-leveled with IMSE 7370). Service systems contribute to more than 75% of US GDP and provide close to 80% employment. This course introduces students to service system engineering and management and will discuss models, concepts and solution methods important in the design, control, and operation of service systems. In addition, this course will provide students the ability to apply industrial engineering and operations research tools for analyzing service enterprises, including supply chain engineering, financial engineering and revenue management. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** IMSE 4210 or instructor's consent  

IMSE 4380: Six Sigma Methodology  
(cross-leveled with IMSE 7380). An overview of the Six Sigma DMAIC methodology for analyzing and improving processes. Requires completing a Six Sigma Green Belt project. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** Grade of C or better in IMSE 2110 or IMSE 4110 or STAT 4710  

IMSE 4385: Lean Six Sigma Green Belt Project  
(cross-leveled with IMSE 7385). Application of the Lean Six Sigma methodology in an industry-based project. Prerequisites: IMSE 4310  
**Credit Hour:** 1  

IMSE 4410: Data Engineering and Predictive Modeling  
(cross-leveled with IMSE 7410). Introduces data structures and relational databases. Addresses the integration of computation and data. Provides training on data preparation and pre-processing using SQL, Python, and R. Covers the most commonly used predictive modeling methods, their core principles and real-life applications. Includes the use of current software for data analytics and building machine learning models.  
**Credit Hours:** 3  
**Prerequisites:** Restricted to IMSE students. CMP_SC 1050 and IMSE 4110  

IMSE 4420: Web-Based Information Systems  
(cross-leveled with IMSE 7420). Data models, design of databases using E-R, UML (Access/Oracle), web databases, web servers and interfaces (Visual Basic, JavaScript), E-commerce infrastructure (PDM, STEP, XML), data mining for management information and services.  
**Credit Hours:** 3  
**Prerequisites:** IMSE 4410 and instructor's consent
IMSE 4550: Computer Aided Design and Manufacturing
(cross-leveled with IMSE 7550). Product realization process from design, process planning, to manufacturing. Includes CE, DFS/DFM, CAD, CAPP, CNC, and survey of manufacturing methods.
Credit Hours: 4
Prerequisites: Restricted to IMSE students; Junior Standing
Corequisites: ENGINR 2200

IMSE 4560: Introduction to Rapid Prototyping
(cross-leveled with IMSE 7560). Course covers all five MU systems: FDM, SLS, SLA, Polyjet, 3DP. Students will learn fundamental rapid prototyping and related concepts, and design and produce models from each system. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: IMSE 4550

IMSE 4570: Computer Integrated Manufacturing Control
(cross-leveled with IMSE 7570). Implementation of computer integrated manufacturing (CIM) and automation at the shop floor level. Covers essential components of machine sensing and actuation (including programmable robots), information representation and processing, data communication and networking.
Credit Hours: 3
Prerequisites: IMSE 4550

IMSE 4580: Industrial Energy Efficiency and Management
(cross-leveled with IMSE 7580). Introduction to the fundamentals of industrial energy efficiency and management. Covers the essential concepts, best practices, management systems and current standards to achieve and improve energy efficiency in industrial settings, and utilizes hands-on experiences involving real assessment and analysis of industrial site visits and projects.
Credit Hours: 3
Prerequisites: IMSE 2030 or instructor's consent

IMSE 4610: Engineering Quality Control
(cross-leveled with IMSE 7610). Analysis of quality in manufacturing including control charts, sampling plans, process capability, experimental design; introduction to system reliability. Overview of Six Sigma and DMAIC methodology.
Credit Hours: 3
Prerequisites: Restricted to IMSE students or by Departmental consent. IMSE 4110

IMSE 4750: Entrepreneurial Innovation Management: Enterprise Conception
(same as MANGMT 4750). Develop a new business and technology plan including marketing, finance, engineering, manufacturing, and production concepts in this joint College of Engineering and College of Business course.
Credit Hours: 3
Prerequisites: sophomore standing

IMSE 4755H: Entrepreneurial Innovation Management: Enterprise Conception-Honors
Develop a new business and technology plan including marketing, finance, engineering, manufacturing, and production concepts in this joint College of Engineering and College of Business course.
Credit Hours: 3
Prerequisites: sophomore standing. Honors eligibility required

IMSE 4810: Cognitive Ergonomics
(cross-leveled with IMSE 7810). This course will cover the study of empirical research in Cognitive ergonomics and Human-Computer Interaction (HCI). Students will learn cognitive information processing, mental workload, human reliability, and empirical methods in HCI research. Graded on A-F basis only.
Credit Hours: 3
Recommended: Junior or senior level undergraduate students

IMSE 4910: Industrial Engineering Internship
An industry-based learning experience that provides opportunities to apply industrial engineering skills, concepts and theories in a practical context. Requires submission of an internship plan for prior approval and a final oral presentation / written report at the completion of the internship. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: instructor and departmental consent
Recommended: junior standing

IMSE 4920: Industrial Engineering COOP
An industry-based learning experience that provides opportunities to apply industrial engineering skills, concepts and theories in a practical context. Requires submission of a COOP plan for prior approval and a final oral presentation / written report at the completion of the COOP. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: instructor and departmental consent
Recommended: junior standing

IMSE 4970: Capstone Design I
Overview of professional engineering issues such as ethics, team dynamics, communication, and project management. Includes team-based industrial assessments to develop skills in problem/opportunity identification. Graded on A-F basis only.
Credit Hour: 1
Prerequisites: Restricted to IMSE students; Senior Standing, IMSE 2030; IMSE 2710
IMSE 4970W: Capstone Design I - Writing Intensive  
Overview of professional engineering issues such as ethics, team dynamics, communication, and project management. Includes team-based industrial assessments to develop skills in problem/opportunity identification. Graded on A-F basis only.  
Credit Hour: 1  
Prerequisites: Restricted to IMSE students; Senior Standing, IMSE 2030; IMSE 2710

IMSE 4980: Capstone Design II  
Industry-based team design experience structured to integrate material presented throughout the Industrial and Manufacturing Systems Engineering curriculum. Must immediately follow IMSE 4970.  
Credit Hours: 3  
Prerequisites: Restricted to IMSE student; IMSE 3810, IMSE 4310, and IMSE 4970

IMSE 4980W: Capstone Design II - Writing Intensive  
Industry-based team design experience structured to integrate material presented throughout the Industrial and Manufacturing Systems Engineering curriculum. Must immediately follow IMSE 4970.  
Credit Hours: 3  
Prerequisites: Restricted to IMSE student; IMSE 3810, IMSE 4310, and IMSE 4970

IMSE 4990: Undergraduate Research in Industrial Engineering  
Independent investigation or project in industrial engineering. May be repeated to 6 hours.  
Credit Hour: 0-6

IMSE 4995: Undergraduate Research Industrial Engineering - Honors  
Independent investigation or project in industrial engineering. May be repeated to 6 hours. Enrollment limited to receiving departmental honors  
Credit Hour: 0-6  
Prerequisites: Restricted to IMSE students only

IMSE 7001: Topics in Industrial and Manufacturing Systems Engineering  
Current and new technical developments in industrial engineering.  
Credit Hours: 3

IMSE 7100: Engineering Statistics  
(cross-leveled with IMSE 4110). Understanding and application of statistical analysis of techniques. Emphasis on hypothesis testing, regression analysis, analysis of variance (ANOVA) and design of experiments (DOE).  
Credit Hours: 3  
Prerequisites: grade of C- or better in IMSE 3110

IMSE 7200: Optimization Modeling and Computational Methods  
(cross-leveled with IMSE 4220). Modeling and solution techniques for mathematical optimization, including linear, nonlinear, integer, and stochastic programming. Emphasis on formulation of models for most-efficient use of solution algorithms. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: IMSE 2210

IMSE 7230: Operations Research Models  
(cross-leveled with IMSE 4230). Formulates probabilistic models and determines optimal control policies for queuing and inventory systems. Introduces Markov chains and dynamic programming.  
Credit Hours: 3  
Prerequisites: IMSE 3110, IMSE 4210

IMSE 7280: Systems Simulation  
(cross-leveled with IMSE 4280). Discrete-event stochastic systems modeling and experimentation using simulation software. Statistical design and analysis including distribution fitting and alternative comparison methodologies. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: Restricted to IMSE students. CMP_SC 1050. Grade of C- or better in IMSE 4110

IMSE 7310: Integrated Production Systems Design  
(cross-leveled with IMSE 4310). Design and operation of production systems, including lean production concepts, just-in-time / kanban, facility layout and material flow issues.  
Credit Hours: 3  
Prerequisites: IMSE 4210, IMSE 4280

IMSE 7330: Material Flow and Logistics System Design  
(cross-leveled with IMSE 4330). Modeling and analysis of structural and operational issues associated with material-flow system design including facility location, warehouse/inventory systems, and distribution/transportation systems.  
Credit Hours: 3  
Prerequisites: IMSE 4210, IMSE 4280

IMSE 7350: Production and Operations Analysis  
(cross-leveled with IMSE 4350). Quantitative methods for forecasting, scheduling, and production control in manufacturing and service systems. Use of Enterprise Resource Planning (ERP) systems.  
Credit Hours: 3  
Prerequisites: IMSE 4210 and IMSE 4230

IMSE 7360: Supply Chain Engineering  
(cross-leveled with IMSE 4360). Modeling and analysis of supply chain network design and management issues including integration of production, inventory control, supplier selection, risk management and logistics network design. Graded on A-F basis only.  
Credit Hours: 3
Prerequisites: IMSE 4350

IMSE 7370: Service Systems Engineering and Management
(cross-leveled with IMSE 4370). Service systems contribute to more than 75% of US GDP and provide close to 80% employment. This course introduces students to service system engineering and management and will discuss models, concepts and solution methods important in the design, control, and operation of service systems. In addition, this course will provide students the ability to apply industrial engineering and operations research tools for analyzing service enterprises, including supply chain engineering, financial engineering and revenue management. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: IMSE 4210 or Instructor’s consent

IMSE 7380: Six Sigma Methodology
(cross-leveled with IMSE 4380). An overview of the Six Sigma DMAIC methodology for analyzing and improving processes. Requires completing a Six Sigma Green Belt project. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Grade of C or better in IMSE 2110 or IMSE 4110 or STAT 4710

IMSE 7385: Lean Six Sigma Green Belt Project
(cross-leveled with IMSE 4385). Application of the Lean Six Sigma methodology in an industry-based project.

Credit Hour: 1
Prerequisites: IMSE 4310

IMSE 7410: Data Engineering and Predictive Modeling
(cross-leveled with IMSE 4410). Introduces data structures and relational databases. Addresses the integration of computation and data. Provides training on data preparation and pre-processing using SQL, Python, and R. Covers the most commonly used predictive modeling methods, their core principles and real-life applications. Includes the use of current software for data analytics and building machine learning models. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: CMP_SC 1050 and IMSE 4110

IMSE 7420: Web-Based Information Systems
(cross-leveled with IMSE 4420). Data models, design of databases using E-R, UML (Access/Oracle), web databases, web servers and interfaces (Visual Basic, JavaScript), E-commerce infrastructure (PDM, STEP, XML), data mining for management information and services.

Credit Hours: 3
Prerequisites: IMSE 4410 and instructor’s consent

IMSE 7550: Computer Aided Design and Manufacturing
(cross-leveled with IMSE 4550). Product realization process from design, process planning, to manufacturing. Includes CE, DFS/DFM, CAD, CAPP, CNC, and survey of manufacturing methods.

Credit Hours: 4

IMSE 7560: Introduction to Rapid Prototyping
(cross-leveled with IMSE 4560). Course covers all five MU systems: FDM, SLS, SLA, Polyjet, 3DP. Students will learn fundamental rapid prototyping and related concepts, and design and produce models from each system. Graded on A-F basis only.

Credit Hours: 3

IMSE 7570: Computer Integrated Manufacturing Control
(cross-leveled with IMSE 4570). Implementation of computer integrated manufacturing (CIM) and automation at the shop floor level. Covers essential components of machine sensing and actuation (including programmable robots), information representation and processing, data communication and networking.

Credit Hours: 3
Prerequisites: IMSE 4550

IMSE 7580: Industrial Energy Efficiency and Management
(cross-leveled with IMSE 4580). Introduction to the fundamentals of industrial energy efficiency and management. Covers the essential concepts, best practices, management systems and current standards to achieve and improve energy efficiency in industrial settings, and utilizes hands-on experiences involving real assessment and analysis of industrial site visits and projects.

Credit Hours: 3
Prerequisites: IMSE 2030 or instructor’s consent

IMSE 7580: Industrial Energy Efficiency and Management
(cross-leveled with IMSE 4580). Introduction to the fundamentals of industrial energy efficiency and management. Covers the essential concepts, best practices, management systems and current standards to achieve and improve energy efficiency in industrial settings, and utilizes hands-on experiences involving real assessment and analysis of industrial site visits and projects.

Credit Hours: 3
Prerequisites: IMSE 2030 or instructor’s consent

IMSE 7610: Engineering Quality Control
(cross-leveled with IMSE 4610). Analysis of quality in manufacturing including control charts, sampling plans, process capability, experimental design; introduction to system reliability. Overview of Six Sigma and DMAIC methodology.

Credit Hours: 3
Prerequisites: IMSE 4110 or IMSE 7110

IMSE 7720: Introduction to Life Cycle Analysis
(cross-leveled with IMSE 4720). Introduction to life cycle thinking, application of ISO standards for conducting an LCA. Students learn process, input-output and hybrid LCA modeling basics, in addition to the application of LCA skills and thinking to improve the performance of systems and processes. Graded on A-F basis only.

Credit Hours: 3

IMSE 7750: Entrepreneurial Innovation Management: Advanced Enterprise Conception
Develop a new business and technology plan (including marketing, finance, engineering, manufacturing, and production concepts) in this joint College of Engineering/College of Business course.

Credit Hours: 3

IMSE 7810: Cognitive Ergonomics and Decision Making
(cross-leveled with IMSE 4810). This course will cover the study of empirical research in cognitive ergonomics and Human-Computer Interaction (HCI). Students will learn cognitive information processing, mental workload, human reliability, decision-making, and empirical methods in HCI research. Graded on A-F basis only.
**IMSE 8001: Advanced Topics in Industrial & Manufacturing Systems Engineering**
Current and new technical developments in industrial engineering.

**Credit Hours:** 3

**IMSE 8030: Advanced Manufacturing and Supply Systems**
The design, regulation, and optimization of manufacturing and supply systems through systems analysis.

**Credit Hours:** 3

**IMSE 8085: Problems in Industrial and Manufacturing Systems Engineering**
Supervised investigation in industrial engineering to be presented in the form of an engineering report.

**Credit Hour:** 1-99

**IMSE 8087: Industrial Engineering Graduate Seminar**
Selected topics in industrial engineering; oral presentations and engineering reports. Graded on S/U basis only.

**Credit Hours:** 0

**IMSE 8110: Design and Analysis of Engineering Experiments**
Application of advanced statistical methods for the design and analysis of experiments, including two-level factorial designs and fractional factorial designs, response surface methods, and random effects models. Graded on A-F basis only.

**Credit Hours:** 3

**Prerequisites:** IMSE 4110 or IMSE 7110 or equivalent

**IMSE 8210: Linear and Network Optimization**
Applications of discrete operations research methods, including linear programming, network models, fuzzy sets, integer programming, and meta-heuristics. Graded on A-F basis only.

**Credit Hours:** 3

**IMSE 8220: Nonlinear Optimization**
Introduces computational non-linear mathematical programming procedures their use in solving complex industrial systems design problems. Graded on A-F basis only.

**Credit Hours:** 3

**IMSE 8230: Stochastic Processes and Models**
Theory and applications of stochastic processes; includes continuous time Markov chain, Markov decision process, queueing theory, and stochastic manufacturing systems. Graded on A-F basis only.

**Credit Hours:** 3

**IMSE 8310: Advanced Integrated Production Systems**
Advanced study of the design and operation of flow shop, job shop, and cell-based production systems, including scheduling, layout and material flow issues. Graded on A-F basis only.

**Credit Hours:** 3

**IMSE 8370: Supply Chain Modeling and Analysis**
Theory and application of supply chain networks, integration of production and inventory control methods. Graded on A-F basis only.

**Credit Hours:** 3

**IMSE 8410: Advanced Computational Systems and Data Engineering**
Enable students to utilize advanced computational and data capabilities for research and industrial practice through 1) proper project, code, and data management techniques; 2) wide range of research workflows to solve complex problems; 3) integration of optimization or other domain specific software tools; and 4) parallel computing on High Performance Computing clusters. Graded on A-F basis only.

**Credit Hours:** 3

**IMSE 8550: Advanced CAD/CAM**
Covers the state-of-the-art in CAD/CAM and explores the latest developments, residual problems, and new direction in CAD/CAM. Includes sculptured surface modeling, rapid prototyping and manufacturing, integrated process planning, shape analysis, machine intelligence. Graded on A-F basis only.

**Credit Hours:** 3

**IMSE 8810: Human Factors**
Human factors inputs, outputs and environment and their influence on design and evaluation of man and machine systems.

**Credit Hours:** 3

**IMSE 8810: Advanced CAD/CAM**
Covers the state-of-the-art in CAD/CAM and explores the latest developments, residual problems, and new direction in CAD/CAM. Includes sculptured surface modeling, rapid prototyping and manufacturing, integrated process planning, shape analysis, machine intelligence. Graded on A-F basis only.

**Credit Hours:** 3

**IMSE 8990: Research-Masters Thesis in Industrial Engineering**
Independent investigation in field of industrial engineering to be presented as a thesis. Graded on S/U basis only.

**Credit Hour:** 1-99

**IMSE 9990: Research-Doctoral Dissertation in Industrial Engineering**
Independent investigation in field of industrial engineering to be presented as a dissertation. Graded on S/U basis only.

**Credit Hour:** 1-99

**Information Science And Learning Technologies Courses**

**IS_LT 1111: Information Use and Student Success**
In this course, students will learn to frame meaningful questions, gain knowledge and skills to succeed academically, understand the structure and content of information resources, evaluate information, and use information resources as genuine learning tools.
IS_LT 2222: Information Management and the Successful Scholar
This course will help students determine what information is needed for a project; access and critically evaluate information in the library and the internet; understand intellectual property, develop skills for lifelong learning, and learn to use a variety of technological tools that can help them succeed in college. Graded on A-F basis only.

Credit Hours: 3

IS_LT 2467: Inquiry into Empowering Learners with Technology
This course examines models and strategies for integrating technology into the teaching and learning process, with a focus on transformative, meaningful learning instead of passive technology use. Topics include digital citizenship, professional online presence, and designing and facilitating learning with technology. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Consent required (students must be admitted to College of Education's Teacher Education program)

IS_LT 3450: Introduction to Research in Educational Settings
(same as ED_LPA 3450). This course provides an introduction to quantitative, qualitative, and mixed methods research, with an emphasis on how various forms of data collection and prior research can inform and improve practice. Students will: (1) develop skills in locating research relevant to their professional interests; (2) understand multiple forms of data collection strategies; and (3) identify ethical considerations associated with research. Graded on A-F basis only.

Credit Hours: 3

IS_LT 4099: Making and Education (3D printing)
(cross-leveled with IS_LT 7099). This course - via hands-on activities and projects - will immerse you into the making and 3D printing culture. You will learn how to design and redesign 3D objects, learn 3D modeling software 3D printing. You will learn how to teach STEM concepts through 3D modeling and 3D printing.

Credit Hour: 1-3

IS_LT 4310: Seminar in Information Science and Learning Technologies
Discussion and critical study of current developments in the field of information science and learning technologies.

Credit Hour: 1-3

IS_LT 4356: Interactive Web Design with JavaScript
(cross-leveled with IS_LT 7356). Attain skills in designing/developing interactive web sites/applications using JavaScript, JavaScript libraries, AJAX, plugins, widgets, user interface themes. Add effects, animations to photo galleries, slide shows, carousels to support instruction. Integrate Google Maps and application API's in learning activities. Dynamically modify web pages based on user actions.

Credit Hours: 3
Prerequisites: IS_LT 4370

IS_LT 4360: Introduction to Web Development
(cross-leveled with IS_LT 7360). Basic web design and HTML. Covers file transfer and UNIX/LINUX servers management. Develops understanding of web graphic formats. Emphasizes user interface, navigation, and instructional design in building web sites. Online. Graded on A-F basis only.

Credit Hours: 3

IS_LT 4361: Introduction to Digital Media
(cross-leveled with IS_LT 7361). Hands-on approach to multimedia production techniques. Develops understanding of technical and conceptual tools for the basics of digital media, video editing, still image and audio file manipulation. Students create web portfolio to present their digital products. Graded on A-F basis only.

Credit Hours: 3

IS_LT 4367: Introduction to Research in Educational Settings
(same as ED_LPA 3450). This course provides an introduction to quantitative, qualitative, and mixed methods research, with an emphasis on how various forms of data collection and prior research can inform and improve practice. Students will: (1) develop skills in locating research relevant to their professional interests; (2) understand multiple forms of data collection strategies; and (3) identify ethical considerations associated with research. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Consent required (students must be admitted to College of Education's Teacher Education program)

IS_LT 4360: Introduction to Web Development
(cross-leveled with IS_LT 7360). Basic web design and HTML. Covers file transfer and UNIX/LINUX servers management. Develops understanding of web graphic formats. Emphasizes user interface, navigation, and instructional design in building web sites. Online. Graded on A-F basis only.

Credit Hours: 3

IS_LT 4370: Intermediate Web Development
(cross-leveled with IS_LT 7370). Development of design and web authoring skills. Topics include CSS, HTML, web interactivity through the use of JavaScript, Dreamweaver and usability practices. Upon completion, students will be ready to create high-impact and highly functional web pages.

Credit Hours: 3

IS_LT 4372: Exploring CourseSites
(cross-leveled with IS_LT 7372). This course will prepare you to work within the CourseSites Learning Management System (LMS) to set up and manage an online course. As a student in this course, you will investigate and manipulate components of CourseSites from an instructor's perspective. Graded on A-F basis only.

Credit Hour: 1

IS_LT 4373: Exploring Moodle
(cross-leveled with IS_LT 7373). This course will prepare students to work within the Moodle Learning Management System (LMS) to set up and manage an online course. Students in the course will investigate and manipulate components of Moodle from an instructor's perspective. Graded on A-F basis only.

Credit Hour: 1

IS_LT 4374: Exploring Canvas
(cross-leveled with IS_LT 7374). This course will prepare students to work within the Canvas Learning Management System (LMS) to set up and manage an online course. Students will investigate and manipulate components of Canvas from an instructor's perspective. Graded on A-F basis only.

Credit Hour: 1

IS_LT 4383: Rapid Development Tools for Online Learning
(cross-leveled with IS_LT 7383). Students will apply principles of rapid development and use rapid development tools to create a prototype of an e-learning module that uses technology features that can enhance learning (e.g. learner interactions). Specific competencies include: Storyboard and 'rapidly' develop an e-learning module using software
IS_LT 4384: Designing Games for Learning
(cross-leveled with IS_LT 7384). Learn why games can be useful in learning and how to design them. Play some exemplary games that will help you understand the mechanics of game design and work incrementally towards designing and developing your own educational game prototype via game modifications (‘mods’), engaging in gaming communities, evaluating existing games, building learning plans using games and learning the basics of a simple gaming shell language. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Junior or senior standing required

IS_LT 4473: Introduction to Project Management
Knowledge and tools for major phases of project management life cycle: project initiation, planning, execution, and closure. Integrated online discussions focus on application and resources. Includes discussions of Lean Project Management techniques and the role of Project Managers. Graded on A-F basis only.

Credit Hours: 3

IS_LT 7099: Making and Education (3D printing)
(cross-leveled with IS_LT 4099). This course--via hands-on activities and projects--will immerse you into the making and 3D printing culture. You will learn how to design and redesign 3D objects, learn 3D modeling software 3D printing. You will learn how to teach STEM concepts through 3D modeling and 3D printing.

Credit Hours: 3

IS_LT 7301: Introduction to Information Technology
The nature of information and information transfer in the institutional setting; covers the culture of information in society, standards for information processing and transfer, and networking in communications perspectives of information providing agencies.

Credit Hours: 3

IS_LT 7302: Organization of Information
In order to retrieve and use information, that information must first be organized. This course investigates systems and structures for organizing information in a variety of contexts.

Credit Hours: 3

IS_LT 7305: Foundations of Library and Information Science
An introduction to the background, contexts, organizations, issues, ethics, values, and terms of information science, the information professions, and the library as an idea, space, institution, and repository of the cultural record.

Credit Hours: 3

IS_LT 7306: School Library Early Field Experience
30-50 clock hours of early field experience in K-12 school libraries. Students will observe an experienced school librarian and have limited interactions with students. Emphasis to include professional library skills in program management and administration (e.g., managing collections and technology) and working with the school community. Graded on S/U basis only.

Credit Hour: 1
Prerequisites: Instructor permission and enrollment in the school library media specialist emphasis area

IS_LT 7307: School Library Mid-Level Field Experience
45-60 clock hours of mid-level field experience in K-12 school libraries. Students will observe an experienced school librarian and have structured interactions with students. Emphasis to include professional library skills in information and knowledge (e.g., preparing and leading instruction, classroom management) and teaching for learning (e.g., collaborating with the school community). Graded on S/U basis only.

Credit Hour: 1
Prerequisites: Instructor permission and enrollment in the school library media specialist emphasis area. Enrollment in or successful completion of IS_LT 7306

IS_LT 7310: Seminar in Information Science and Learning Technology
Discussion and critical study of current developments in the field of information science and learning technologies.

Credit Hour: 1-3

IS_LT 7312: Principles of Cataloging and Classification

Credit Hours: 3
Prerequisites: IS_LT 7305

IS_LT 7313: Collection and Access Management
Selection of materials for libraries and information agencies, policies for collection management, freedom and diversity of information, access to information and evaluation of collections and access.

Credit Hours: 3

IS_LT 7314: Reference Sources and Services
General reference sources with emphasis on print sources. Principles, developments and trends in reference services and reference service organization.

Credit Hours: 3

IS_LT 7315: Management of Information Agencies
Concepts of management applied to libraries and information systems; management tools, programming, models and simulation in an environment of an information producing or disseminating agency.

Credit Hours: 3
### IS_LT 7320: Emerging Technologies in Libraries
Critically examines web technologies, devices, and methods used to access collections and services, promote social interaction, and facilitate communication. Focuses on new and emerging software, resources, and communication methods including their discovery and implementation. Graded on A-F basis only.

**Credit Hours:** 3

### IS_LT 7344: Library Information Systems
Focuses on the automated library systems marketplace. Covers integrated online library systems from the systems, functional and user perspective. Includes management approaches for procurement and operation of such systems.

**Credit Hours:** 3

### IS_LT 7365: Interactive Web Design with JavaScript
(cross-leveled with IS_LT 4356). Attain skills in designing/developing interactive web sites/applications using JavaScript, JavaScript libraries, AJAX, plugins, widgets, user interface themes. Add effects, animations to photo galleries, slide shows, carousels to support instruction. Integrate Google Maps and application API's in learning activities. Dynamically modify web pages based on user actions.

**Credit Hours:** 3
**Prerequisites:** IS_LT 4370 or IS_LT 7370

### IS_LT 7360: Introduction to Web Development
(cross-leveled with IS_LT 4360). Basic web design and HTML. Covers file transfer and UNIX/LINUX servers management. Develops understanding of web graphic formats. Emphasizes user interface, navigation, and instructional design in building web sites. Online. Graded on A-F basis only.

**Credit Hours:** 3

### IS_LT 7361: Introduction to Digital Media
(cross-leveled with IS_LT 4361). Hands-on approach to multimedia production techniques. Develops understanding of technical and conceptual tools for the basics of digital media, video editing, still image and audio file manipulation. Students create web portfolio to present their digital products. Graded on A-F basis only.

**Credit Hours:** 3

### IS_LT 7366: Technology Leadership
Develop skills, knowledge, and values needed to provide leadership in schools. Analyzes characteristics of effective leaders, focusing on staff development. Explores technology and school reform, technology integration, and current issues. Online. Graded on A-F basis only.

**Credit Hours:** 3

### IS_LT 7360: Intermediate Web Development
(cross-leveled with IS_LT 4370). Development of design and web authoring skills. Topics include CSS, HTML, web interactivity through the use of JavaScript, Dreamweaver and usability practices. Upon completion, students will be ready to create high-impact and highly functional web pages.

**Credit Hours:** 3
**Prerequisites:** IS_LT 4360 or instructor's consent

### IS_LT 7372: Exploring CourseSites
(cross-leveled with IS_LT 4372). This course will prepare you to work within the CourseSites Learning Management System (LMS) to set up and manage an online course. As a student in this course, you will investigate and manipulate components of CourseSites from an instructor's perspective. Graded on A-F basis only.

**Credit Hour:** 1

### IS_LT 7373: Exploring Moodle
(cross-leveled with IS_LT 4373). This course will prepare you to work within the Moodle Learning Management System (LMS) to set up and manage an online course. As a student in this course, you will investigate and manipulate components of Moodle from an instructor's perspective. Graded on A-F basis only.

**Credit Hour:** 1

### IS_LT 7374: Exploring Canvas
(cross-leveled with IS_LT 4374). This course will prepare students to work within the Canvas Learning Management System (LMS) to set up and manage an online course. Students will investigate and manipulate components of Canvas from an instructor's perspective. Graded on A-F basis only.

**Credit Hour:** 1

### IS_LT 7375: Mobile Web App Development
(cross-leveled with IS_LT 4375). The purpose of this course is to provide students with knowledge necessary to create a mobile app with basic functions using HTML 5, JavaScript, and CSS3. Through this course, students will obtain knowledge of mobile web app development including both design and development phases. Upon the completion of this course, students will produce a mobile web app that can be operated via a mobile device. Graded on A-F basis only. Recommended: Students must be able to hand code: html, Styling and positioning web pages using CSS & JavaScript, and JavaScript basic functions.

**Credit Hours:** 3
**Prerequisites:** IS_LT 4370 or IS_LT 7370 or permission of instructor

### IS_LT 7378: Electronic Portfolio Development
This course provides an overview of electronic portfolio development. Students will select, categorize and document their accomplishments in the Technology in Schools emphasis area for review and assessment. Students will demonstrate mastery of the ISTE Standards and commitment to ongoing learning. Web development skills are required. Graded on A-F basis only.

**Credit Hour:** 1
**Prerequisites:** Restricted to students admitted into the Technology in Schools emphasis

### IS_LT 7380: School Library Practicum
Directed, project-based experience in school libraries. Graded on S/U basis only.

**Credit Hour:** 1-3
Prerequisites: admission to MA, initial certification or 24 completed LIS credit hours taken at MU; instructor’s consent

IS_LT 7381: Practicum in Information Agencies
Provides a supervised work experience for master's degree students in a public, academic, or special library. Graded on S/U basis only.

Credit Hour: 2-3
Prerequisites: IS_LT 7301, IS_LT 7302 or IS_LT 7312, IS_LT 7314, IS_LT 7315

IS_LT 7383: Rapid Development Tools for Online Learning
(cross-leveled with IS_LT 4383). Students will apply principles of rapid development and use rapid development tools to create a prototype of an e-learning module that uses technology features that can enhance learning (e.g. learner interactions). Specific competencies include: Storyboard and ‘rapidly’ develop an e-learning module using software designed to support this process; Use software tools that develop specific elements of e-learning (e.g. video, animation, gaming), and incorporate those elements into an e-learning module; Evaluate rapidly developed e-learning products; Compare and contrast features of rapid development software packages. Graded on A-F basis only.

Credit Hours: 3

IS_LT 7384: Designing Games for Learning
(cross-leveled with IS_LT 4384). Learn why games can be useful in learning and how to design them. Play some exemplary games that will help you understand the mechanics of game design and work incrementally towards designing and developing your own educational game prototype via game modifications (‘mods’), engaging in gaming communities, evaluating existing games, building learning plans using games and learning the basics of a simple gaming shell language. Graded on A-F basis only.

Credit Hours: 3

IS_LT 9012: Public Library Community Partnerships
This is a service learning course. Students will have the opportunity to work with local community leaders on a project. Students will learn about partnerships and advocacy for the library, developing leadership skills through action and reflection.

Credit Hours: 3
Prerequisites: IS_LT 7305 and IS_LT 9444

IS_LT 9013: Public Library Administration
This class is covers three main components: planning, human resources, and budgeting, focusing on public libraries.

Credit Hours: 3
Prerequisites: IS_LT 7305
Recommended: IS_LT 9444

IS_LT 9085: Problems in Information Science and Learning Technology
Independent, directed study on a topic in the areas of information science and learning technologies.

Credit Hour: 1-99
Prerequisites: departmental consent

IS_LT 9090: Research in Information Science and Learning Technologies
Dissertation research. Graded on S/U basis only.

Credit Hour: 1-99
Prerequisites: Doctoral Committee Chair’s consent

IS_LT 9403: Gender Construction in Children’s/Adolescent Literature and Media
This course will cover some of the theoretical concepts about the construction of gender in our culture and how that construction is enabled by literature and media for children and adolescents. Graded on A-F basis only.

Credit Hours: 3

IS_LT 9404: School Library Administration
Emphasizes school library administration: program development, implementation, evaluation; planning cycle; budget process; services for diverse school constituencies. Effects of national, state, district guidelines, standards and policies on library media programs.

Credit Hours: 3

IS_LT 9405: Sociocultural Aspects of Literacy
This course will cover sociocultural and social constructionist theory as they relate to literacy. Sociocultural theory, in terms of literacy, looks at how both social elements and cultural elements interact to impact literacy behaviors and outcomes. Graded on A-F basis only.

Credit Hours: 3

IS_LT 9406: Curriculum and the School Library
Focuses on the library media specialist as teacher and instructional partner. Emphasizes negotiating instructional partnerships, integrating information problem-solving models into the curriculum, curriculum mapping, and resource-based learning models.

Credit Hours: 3

IS_LT 9407: Intellectual Freedom and Its Discontents
The course examines principles and contradictions of intellectual freedom and their relation to librarianship. The nature of free speech, the First Amendment, sources of censorship, and professional disputes about intellectual freedom practice in libraries will be important topics.

Credit Hours: 3

IS_LT 9408: Information Policy
Examination of the roles of private and public sectors in information policy formation. Includes consideration of social, economic, political and technological issues.

Credit Hours: 3

IS_LT 9409: Seminar in Digital Libraries
This course is a project-based learning environment that combines instructor-prepared content, group-based student projects, and threaded asynchronous discussions on selected topics relating to the design, development, and implementation of practical digital libraries. Research
directives within the broad domain of digital library development are also covered.

Credit Hours: 3

**IS_LT 9410: Seminar in Information Science and Learning Technology**
Discussion and critical study of current developments in information science and learning technologies.

Credit Hour: 1-3

**IS_LT 9411: Doctoral Seminar in Information Science and Learning Technologies**
Discussion and critical study of current developments in information science and learning technologies. Graded on A-F basis only.

Credit Hours: 3

**IS_LT 9413: Electronic Resource Management**
This course explores electronic resources (primarily subscription journals and databases) in terms of products, pricing, in-house management of resources, both technical and organizational, licensing, configuring databases and organizing websites for the end user, statistical reporting, and future trends.

Credit Hours: 3

**IS_LT 9417: Action Research**
Study of concepts associated with action research; and the processes and procedures for conducting action research. Culminating project is the development of an action research project.

Credit Hours: 3

**IS_LT 9419: American Library History**
Students in this course will learn about the history of libraries in America, reading about and analyzing the political, cultural, and social roles of particular libraries and the library as an institution. Graded on A-F basis only.

Credit Hours: 3

**IS_LT 9420: Scholarly Communication**
Exploration of the production and communication of information and knowledge in the disciplines.

Credit Hours: 3

**IS_LT 9421: Usability of Information Systems and Services**
Introduction to concepts and methods of usability testing and research and user-centered design strategy. Course takes a process approach to define target audiences and usability problems, create and administer investigative procedures, analyze results, and report findings effectively. Graded on A-F basis only.

Credit Hours: 3

**IS_LT 9423: Ethics, Data, and Information**
Critical inquiry into perennial and emerging issues in the ethics of data and information.

Credit Hours: 3

**IS_LT 9426: Diversity in the Information Professions**
Leadership to promote employment, organizational, collection and program diversity within libraries and information agencies in the U.S. This course includes management and diversity theories, discussions of workplace climate, and discussions of discrimination and hostility issues. Graded on A-F basis only.

Credit Hours: 3

**IS_LT 9427: The Information Society**
This class critically examines the control, dissemination, and effects of information on the modern world. We will study the complex relationship between information and society, looking at how each is a reflection and shaper of the other. The relationship of libraries and other information agencies to the state, and the role of information professionals in the political and cultural spheres are central themes in the course. Graded on A-F basis only.

Credit Hours: 3

**IS_LT 9428: History of Books and Media**
Examines the history and philosophy of books and media from the beginnings of writing to the Internet, emphasizing the effects of changes in communication and information technologies. The focus is on the social, cultural, intellectual, scientific, and religious impacts of shifts in the media for preserving and transmitting information. Graded on A-F basis only.

Credit Hours: 3

**IS_LT 9429: Metadata**
The contacts in your phone, the embedded GPS information in the photo you took on vacation, and the information that allows you to track down an article in a database are all metadata. Today more than ever, metadata is at the heart of what information professionals do as we organize, teach about, search for, and analyze information. This class explores a variety of kinds of metadata, and the tools and systems for working with it, from the point of view of the information professional. Graded on A-F basis only.

Credit Hours: 3

**IS_LT 9431: Children's Library Materials**
Evaluation and selection of materials for children birth-age 13 (Grade 6). Early literacy, emergent readers, reader response theory; social, cultural contexts of readers and reading, trends in publishing.

Credit Hours: 3

**IS_LT 9433: Youth Services in Libraries**
Examines physical, mental, and emotional development of youth birth through high school. Emphasis on community analysis, outreach services, program design and techniques. Graded on A-F basis only.

Credit Hours: 3
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Description</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>IS_LT 9434</td>
<td>Teen Library Materials</td>
<td>Evaluation, selection of print, alternate formats for teens, 13-18 (Grades 7-12). Personal, social, popular culture contexts of teen readers and texts; emphasizes reader response; challenges common assumptions about teens and reading.</td>
<td>3</td>
</tr>
<tr>
<td>IS_LT 9435</td>
<td>Adult Services in Libraries</td>
<td>Library services to adults, including special populations. Emphasis on information needs of adults, organization and management of adult services.</td>
<td>3</td>
</tr>
<tr>
<td>IS_LT 9437</td>
<td>Reader Advisory Services</td>
<td>Examination of value and role of leisure reading and leisure reading materials. Coverage of reader advisory techniques, support processes, and resources for providing reader advisory services to various audiences. Graded on A-F basis only.</td>
<td>3</td>
</tr>
<tr>
<td>IS_LT 9438</td>
<td>Marketing and Libraries</td>
<td>This course provides an introduction to marketing - concepts, planning, strategies and evaluation - as related to libraries and information agencies. Graded on A-F basis only.</td>
<td>3</td>
</tr>
<tr>
<td>IS_LT 9439</td>
<td>Digital Humanities and Information</td>
<td>This course on history, philosophy, and methods in the emerging field of 'digital humanities' focuses on topics at the nexus of information, the humanities disciplines, technology, and culture, as well as the contexts of the academy, libraries/archives, museums, and media. Graded on A-F basis only.</td>
<td>3</td>
</tr>
<tr>
<td>IS_LT 9440</td>
<td>Learning with Web-based Technologies</td>
<td>Explores the potential of the Internet to support inquiry-based learning through collaborative activities, research, and authoring/publishing. Investigates goals and methods of online learning. Examines learning theories and models of teaching/learning in relation to selected Internet activities for K-12, undergraduate students and learners in other fields outside education (e.g., work placed learning, non-formal learning).</td>
<td>3</td>
</tr>
<tr>
<td>IS_LT 9443</td>
<td>The Academic Library</td>
<td>Development, objectives, organization and structure, nature of the collections and responsibility for their development, philosophy of library services, measurement and standards of library effectiveness.</td>
<td>3</td>
</tr>
<tr>
<td>IS_LT 9444</td>
<td>The Public Library</td>
<td>An overview of public library history, missions, and societal roles. Includes public library funding, organization, and management.</td>
<td>3</td>
</tr>
<tr>
<td>IS_LT 9445</td>
<td>Special Libraries and Information Centers</td>
<td>Goals of special librarianship including information provision, management styles. Library functions as performed in special libraries. Contributions of special libraries, such as information analysis centers, information brokering, and accountability for and evaluation of services.</td>
<td>3</td>
</tr>
<tr>
<td>IS_LT 9446</td>
<td>International and Comparative Librarianship</td>
<td>International libraries, intercultural information concerns, how information agencies differ between nations and global information issues. Course presents various countries, their information infrastructures and the influence of information and communication technologies.</td>
<td>3</td>
</tr>
<tr>
<td>IS_LT 9447</td>
<td>Human Centered Design</td>
<td>Provides an overview of iterative design and project management methodologies that develop solutions to interactive systems and tools. Students will learn how to implement rapid prototyping and evaluation techniques by focusing on the user and task needs, along with human factors. The methods and techniques in this course will enhance understanding of task performance, user satisfaction, and design research. Graded on A-F basis only.</td>
<td>3</td>
</tr>
<tr>
<td>IS_LT 9448</td>
<td>International Libraries in Context</td>
<td>Study Abroad course. Visit and study international libraries and related institutions. Covers the political, cultural, social, and economic context in which they operate.</td>
<td>3</td>
</tr>
<tr>
<td>IS_LT 9449</td>
<td>Services for Business Communities and Entrepreneurs</td>
<td>The course covers the introduction to and application of basic concepts of business information in academic, public and special library environments, and the information searching techniques used for specific business information needs (finding company information, industry information, investment information, statistical information, marketing information, etc.) Course includes service to entrepreneurs. Content covers company, investment, industry, statistical and marketing information and includes use of GIS systems.</td>
<td>3</td>
</tr>
<tr>
<td>IS_LT 9450</td>
<td>Research Methods in Information Science and Learning Technologies</td>
<td>Research methods and ethics of research in the social sciences, focusing on the information professions and learning technologies.</td>
<td>3</td>
</tr>
<tr>
<td>IS_LT 9452</td>
<td>Information Literacy Instruction</td>
<td>This course is designed to prepare Library Science students/Information professionals for the variety of teaching situations they will encounter in library and information agency settings. Students will consider learning theory applicable to library instruction, learning styles, teaching methods, and appropriate evaluation of library instruction. Students will also learn strategies for incorporating library instruction into the institutional curriculum. Graded on A-F basis only.</td>
<td>3</td>
</tr>
</tbody>
</table>
IS_LT 9453: Planning and Evaluation of Information Services
The course focuses on the complexity of the planning process in libraries and other information agencies, including the influence of external environments (upper administrations, user communities, information producers) on planning. Internal elements of the organization (staffing, services, finances) are discussed, as are external elements (requirements of a parent organization, legal constraints, etc.). The role of evaluation of personnel, budgets, facilities, access to information, and services is integrated into the process of providing service. 
Credit Hours: 3

IS_LT 9454: Copyright in Libraries
An introductory and practical course covering the foundations of copyright, fair use, e-reserves, related laws including DMCA and TEACH and managing copyright in the public and school environments.
Credit Hours: 3

IS_LT 9455: Formative and Summative Evaluation
Study of the process of gathering data and making judgments about the effectiveness of instructional programs that uses technology. Covers techniques of a formative evaluation process to revise instruction. Culminating project is planning and conducting a portion of a summative evaluation of instructional program.
Credit Hours: 3

IS_LT 9456: Designing Computer Support for Collaborative Learning
Students will examine the theoretical bases for using collaboration and social interaction as methods for learning, and learn key methods and approaches for designing computer supported collaborative learning. Graded A-F only.
Credit Hours: 3

IS_LT 9457: Designing Computer Support for Cooperative Work
Study of the tools and methods of groupware and communities of practice, including their psychological, social and organizational effects. Students focus on designing and developing improved tools and methods. Graded on A-F basis only.
Credit Hours: 3

IS_LT 9458: Technology and Assessment
Learn how to assess specific types of knowledge, using technology to enhance the process. Topics include use of tools/strategies for data collection to guide instructional decision-making and investigating technologies to improve assessment of student learning. Emphasis on aligning learning objectives, activities, and assessments and developing performance assessments to measure higher-order thinking. Graded on A-F basis only.
Credit Hours: 3

IS_LT 9460: Human Computer Interaction Research and Analysis
Human Computer Interaction (HCI) is a discipline concerned with the design, evaluation, and implementation of interactive computing systems for human use and with the study of major phenomena surrounding these systems. This course provides an overview of the interdisciplinary HCI field while focusing on the theories and research. Students will apply principles and research methods to a range of interface design problems that impact learning, information retrieval, and performance tools. Graded on A-F basis only.
Credit Hours: 3

IS_LT 9461: Interaction Design
Students will learn the basic concepts of interaction design, then focus on usability engineering and prototyping principles to support the design process for learning and performance based technologies.
Credit Hours: 3

IS_LT 9462: Learning Analytics
Learn how to discover, interpret, and communicate meaningful data patterns in this introductory course. Explore models and applications of learning analytics, as well as privacy and ethical considerations related to the collection and dissemination of learning data. Gain hands-on experience with analytics technologies (e.g., Tableau or Python) that can be used to prepare, visualize, and share data pertaining to learning. Graded on A-F basis only. Note: No programming background required for Tableau option.
Credit Hours: 3

IS_LT 9463: Project Management
This course introduces the learner to the necessary and practical project management concepts and skills that lead to reductions in project cycle
time while maintaining control over budget, resources, risk, and delivered value. This course proposes to integrate practical project management skills within the project management lifecycle (i.e., initiating, planning, executing, controlling, and closing).

Credit Hours: 3

IS_LT 9474: Front End Analysis of Systems
Develop skills for systematically analyzing learning, or other types of systems, that need to be improved. Develop data collection instruments (e.g. surveys, observation protocols, interviews); analyze secondary data; analyze tasks or activities in the system, and interpret data to make recommendations for system improvement. Skills will be learned by doing and applying to real systems that need improvement.

Credit Hours: 3

IS_LT 9475: Diffusion of Educational Innovations
In-depth analysis of innovation development and adoption processes in educational organizations, including schools, universities, and training centers.

Credit Hours: 3

IS_LT 9480: Internship in Information Science and Learning Technologies
Provides internship experience under supervision in advanced levels of practical experience in Information Science and Learning Technology Research and Teaching. Graded on S/U basis only.

Credit Hour: 1-99
Prerequisites: School director's consent

IS_LT 9481: School Library Internship
12 weeks of guided practice in K-12 school libraries. Strengthens, extends effective professional skills, attitudes, dispositions, essential to supporting student learning and achievement. Graded on S/U basis only.

Credit Hour: 1-8
Prerequisites: Instructor permission and enrollment in library media specialist emphasis area; satisfactory completion of IS_LT 7306 and IS_LT 7307

IS_LT 9483: Capstone: Online Education Emphasis Area
Culminating course for Online Education emphasis area in Information Science and Learning Technologies graduate degree. Design/develop/evaluate an online course or rework existing course. Analyze evaluation data from two external reviewers (novice/expert). Write paper describing results and modifications. To be taken during last semester of student's program. Graded on S/U basis only.

Credit Hour: 1

IS_LT 9484: Teaching Online Courses
Learn to be an effective online instructor! Examine issues in teaching and learning online; instructor and student roles; instructional strategies for supporting diverse learners; methods of student assessment; online communication; classroom management; characteristics of online learning management systems. Projects put you in the role of instructor to practice what you learn.

Credit Hours: 3

IS_LT 9485: Designing Online Learning
Online learning is everywhere! This online course will teach you how to leverage existing software tools to design and develop online learning activities in multiple domains that are grounded in sound learning principles. Course will focus on developing online learning for meaningful learning outcomes such as problem solving, building communities, and developing collaboration skills.

Credit Hours: 3
Prerequisites: Instructor consent

IS_LT 9490: Archival Practice
Students address evidence, memory, and power dynamics while defining the archival profession, principles, and core archival knowledge guiding professional practice. Explore the archival profession through original research centered on the social responsibilities of archivists. Graded on A-F basis only.

Credit Hours: 3

IS_LT 9491: Appraisal and Archival Systems
Students discuss appraisal theory, documentation strategies, and microappraisal applications. Learn strategies for collection preservation and access using ArchivesSpace, and relate the records continuum and lifecycle theories to the archival mission. Graded on A-F basis only.

Credit Hours: 3

IS_LT 9492: Data and Records Management
Examine societal recordkeeping and professional work to identify, manage, preserve, and provide multimedia records access for evidential, legal, leisure, and informational purposes. Study trust and transparency in records, and apply archival ethics through project-based learning. Graded on A-F basis only.

Credit Hours: 3

Information Technology Courses

INFOTC 1000: Introduction to Information Technology
This course introduces the field of Information Technology including foundation experiences and knowledge, the history of digital technologies, emphasis areas in the program, career opportunities, and ethical/social issues. Students participate in activities that introduce students to digital media, digital systems, and software engineering. Students learn to use distributed version control systems and how to work on collaborative teams.

Credit Hours: 3

INFOTC 1001: Topics in Information Technology
Topics may vary from semester to semester. May be repeated upon consent of department.

Credit Hours: 3

INFOTC 1040: Introduction to Problem Solving and Programming
An introduction to problem solving methods and programming concepts, providing experience in designing, developing, implementing, and testing programs. Cannot be taken for credit after CMP_SC 1050.
INFOTC 1600: Digital Systems
This course provides a foundation of knowledge of digital systems including terminology, concepts, architecture, processes, tools, hardware, and software.

Credit Hours: 3

INFOTC 1610: Introduction to Digital Media Design
This project-based course is an introduction to the concepts and practices of audio design, graphic design, motion media design and basic video editing. Current technologies are employed to examine design fundamentals and applications of media design that apply to audio and video production and new media production.

Credit Hours: 3

INFOTC 2001: Topics in Information Technology
Topics may vary from semester to semester. May be repeated upon consent of department.

Credit Hours: 3

INFOTC 2040: Programming Languages and Paradigms
This course presents programming principles and their syntactical representation and implementation across languages including those that are compiled and interpreted. The course shows how to implement algorithms and data structures to solve problems while utilizing paradigms offered by the programming languages such as procedural, object-oriented, protocol-oriented, functional, and declarative. Language support for strong and weak typing and type safety are covered along with support for optional values. Provides experience in developing algorithms and determining their efficiency, designing application architecture, and developing applications. Building and using libraries/application programming interfaces is covered. Git and GitHub are used for code versioning and collaboration. Integrated development environments (IDEs) are used for managing, building, debugging, and testing applications.

Credit Hours: 3
Prerequisites: INFOTC 1040 or CMP_SC 1050, or prior experience with programming and consent of instructor

INFOTC 2610: Digital Media Design I
This project-based course examines the fundamentals of media technology, from capture devices to the software and hardware that processes data. Through hands-on experience with capturing technology, audio recording devices, and the software and hardware components needed to manipulate the recordings, students will process big-data files to create meaningful manipulations in assembly, engineering, and colorization. Students will utilize a spectrum of camera equipment, recording devices and facilities to achieve an understanding of audio/video capture, project planning and implementation, hardware assessment, optimization practices through hardware acceleration, and video processing. This course also focuses on basic editing theory and industry trends. This is done through in-class demonstrations, online modules, and supplementary material hosted on online.

Credit Hours: 3
Prerequisites: C- or higher in INFOTC 1610 or FILMS_VS 1880 or DST_VS 1880, or instructor content through course equivalencies

INFOTC 2615: Color Processing and Design
This course is an intensive study of the techniques, software, principles, technology, data management practices, sciences, problems and theories of color processing for video in media. The course will prepare students for work in industries related to color processing and delivery, while providing further enrichment to technology related to media production, including camera and sensor science, computer hardware, and peripherals. Graded on A-F basis only.

Credit Hours: 3

INFOTC 2620: Computer Modeling and Animation I
Introduction to the field of computer modeling and animation with an emphasis on tools. Learn programming methods for developing customized modeling and animation algorithms. Graded on A-F basis only.

Credit Hours: 3

INFOTC 2630: Introduction to Game Theory and Design
Students will develop foundational skills in game design and theory, and become proficient in the tools used to develop conceptual gaming environments. The student will develop skills to discuss, develop, and demonstrate the design process in cooperation with current game theories and practices. The student will develop collaborative and cooperative design techniques mirroring that of the industry. Graded on A-F basis only.

Credit Hours: 3

INFOTC 2810: Fundamentals of Network Technology
This course includes an overview of networking and the common wireless standards. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: INFOTC 1040 or CMP_SC 1050 with C- or higher

INFOTC 2830: Web Application Development I
(same as CMP_SC 2830). This course will attempt to provide a comprehensive understanding of the evolution, the technologies, and the tools of the Internet. In particular, issues pertaining to the World Wide Web and Multimedia (HTML, CGI, Web based applications) will be discussed in detail.

Credit Hours: 3
Prerequisites: INFOTC 2040 or CMP_SC 2050 with a C- or higher

INFOTC 2910: Cyber Security
This course covers numerous platform-independent security topics including threats, problem ports and services, theory and practice of defense in security, intrusion detection, data security, securing remote access, user education and support, designing a secure network and security management. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: INFOTC 1040 or CMP_SC 1050, and INFOTC 2810
INFOTC 3001: Topics in Information Technology
Topics may vary from semester to semester. May be repeated upon consent of department. Graded on A-F basis only.
Credit Hours: 3

INFOTC 3330: Object Oriented Programming
(same as CMP_SC 3330). This course focuses on object-oriented programming concepts such as: Abstraction, Polymorphism, Encapsulation, Inheritance, Interfaces, Abstract Classes, Files, Streams, and Object Serialization. Topics such as GUI and event-driven programming, APIs, and design patterns are also tackled. Java SE 8, NetBeans 8 IDE, and JavaFX Scene Builder 2.0 are used to build Java SE applications that include user interfaces developed using JavaFX. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: INFOTC 2040 or CMP_SC 2050, or Instructor Consent

INFOTC 3380: Database Systems and Applications
This course covers database management systems (DBMS) and the development of applications that utilize databases including relational/SQL and NoSQL types. Topics include the evolution of data storage and databases, data modeling, relational and NoSQL databases, SQL, document, graph and key-value storage and retrieval, application development using databases, database scaling, database trends, and popular database systems. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: C- or higher in CMP_SC 2050 or INFOTC 2040; or experience developing applications and permission of the instructor

INFOTC 3530: UNIX Operating System
(same as CMP_SC 3530). This course is an introduction to UNIX and UNIX-like operating systems and interfaces, to include the file system, command shells, text editors, pipes and filters, input/output system, shell scripting and Regular Expressions. The course will also incorporate an aspect of programming in a UNIX environment, cloud computing, containers and an introduction to System Administration. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: INFOTC 2040, or CMP_SC 2050, or Instructor Consent

INFOTC 3600: User Experience Design I
This course is a first in a series that focuses on User Experience (UX) Design for software applications. This course introduces the beginner to processes, techniques and methods of evaluation to design, model and evaluate application designs and user interfaces.
Credit Hours: 3
Prerequisites: May be restricted to Information Technology majors during early registration

INFOTC 3610: Digital Media Design II
This project-based course builds upon the fundamentals of production and media processing learned in INFOTC 2610 and introduces industry standard advanced video and audio capture technology, software, and data management systems. The course is designed to provide further hands-on experience with digital video capturing technology, non-linear editing software, Digital Audio Workstations, and broadcast technology through three large-scale collaborative media projects. These projects build upon the principles of data management and software, while introducing project management, team management, and direct-to-market media strategies. Students will utilize a spectrum of industry standard camera equipment, recording devices and facilities to achieve a fuller understanding of audio/video capture and post production.
Credit Hours: 3

INFOTC 3620: Computer Modeling and Animation II
Prerequisites: C- or higher in INFOTC 2610. Instructor consent with approved equivalencies
Credit Hours: 3

INFOTC 3630: Introduction to Virtual Reality
This course covers advanced methods for modeling and animation with an emphasis on computer science theory and virtual reality. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: INFOTC 1040 or CMP_SC 1050 with C- or higher

INFOTC 3640: Motion Graphics and Visual Effects I
This advanced media creation course is an introduction to the fundamentals of motion graphic design, 2-D animation, and visual effects creation. It is a project based course that requires understanding of NLEs, experience in media creation and design, understanding of basic audio/video compression, and understanding of basic media design and concepts. Computer programs designed for graphic design, motion graphics, 2-D animation, and visual effects are integrated throughout the course. Starting media will be provided for each project.
Credit Hours: 3
Prerequisites: INFOTC 1040 or CMP_SC 1050 with C- or higher

INFOTC 3650: Project and Team Management
This course focuses on the business analysis, development tools, communication skills, and management techniques required to successfully lead personnel, meet deadlines, and create digital media projects in today's media production industry. May be taken as Writing Intensive.
Credit Hours: 3
Prerequisites: C- or higher in INFOTC 1610 or FILMS_VS 1880 or DST_VS 1880

INFOTC 3650W: Project and Team Management - Writing Intensive
This course focuses on the business analysis, development tools, communication skills, and management techniques required to successfully lead personnel, meet deadlines, and create digital media projects in today's media production industry.
Credit Hours: 3
Prerequisites: C- or higher in INFOTC 1610 or FILMS_VS 1880 or DST_VS 1880

INFOTC 3660: Audio Engineering
This course is an intensive study of the techniques and art behind the use of audio in today’s media design environments. From the theater to television, from tablet and mobile device to computer, this course will focus on the four major sound design areas: sound in cinema, sound creation, sound manipulation, and environmental sound layering.
Credit Hours: 3
Prerequisites: C- or higher in INFOTC 1610 or FILMS_VS 1880 or DST_VS 1880

INFOTC 3810: Computer Network Security
This course covers principles of networking, configuration and security, authentication, IP security, network management security, wireless security, and system security. By studying attacks on computer systems, network, and the Web as well as detection and prevention. Work is completed in Unix/Linux environments and in Microsoft Windows environment. Students will need a virtual private infrastructure to perform multiple tasks; additionally unlimited AWS cloud resources will be available for them. The course emphasizes 'learning by doing' and has a high percentage of hands-on and theory. Much of this information consists of skills and abilities employers want and expect in the real world of IT - in small to medium size organization. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: INFOTC 2810

INFOTC 3850: Computer System Administration
This course will cover network management tools, network maintenance, data management, remote access management, intrusion detection, responsibilities and ethics, required plans and policies, design of a well-managed network. Some work will be done in both Windows and Linux environments. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: INFOTC 2040 or CMP_SC 2050, junior standing. May be restricted to Information Technology majors during early registration

INFOTC 3910: Advanced Cyber Security
Students develop a deeper understanding of modern information and system protection technology and methods, including examining the various areas of network security including intrusion detection, reconnaissance, exploitation, and defense against cyber-attacks, as well as principles and techniques for digital forensics investigation. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: INFOTC 2910

INFOTC 3940: Internship in Information Technology
Information Technology-related experience in business or industry jointly supervised by faculty and IT professionals. Students should apply one semester in advance for consent of the supervising professor. Graded on an S/U basis only.
Credit Hour: 1-6
Prerequisites: Instructor Consent

INFOTC 4001: Topics in Information Technology
Topics may vary from semester to semester. May be repeated upon consent of department. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: May be restricted to Information Technology majors during early registration

INFOTC 4001W: Topics in Information Technology - Writing Intensive
Topics may vary from semester to semester. May be repeated upon consent of department. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: May be restricted to Information Technology majors during early registration

INFOTC 4085: Independent Projects
A student interested in doing an independent study project should first choose an area and instructor to work with. The student and instructor decide on a suitable Information Technology topic. The student writes up a detailed description of the project, including references, deadlines and deliverables. The instructor and student decide on details for completing the project during the semester for a grade.
Credit Hours: 3
Prerequisites: Consent of instructor

INFOTC 4200: Software Engineering
Software Engineering covers the principles, processes, and professional practices used to design, develop, test, deploy, and manage software systems in a team-based, collaborative environment. A range of software engineering methodologies are covered with an emphasis on agile software development using incremental methods of managing the development activities.
Credit Hours: 3
Prerequisites: INFOTC 2040 or CMP_SC 2050 or permission of the instructor

INFOTC 4390: Database Administration
This course is designed to give a firm foundation in Database Administrators’ tasks. The primary goal is to give necessary knowledge and skills to setup, maintain and troubleshoot an Oracle database. This is an instructor-led course featuring lecture and hands-on exercises. Online demonstration and written practice sessions reinforce the concepts and skills introduced. The course defined objectives are designed to support preparation for the Oracle Certified Professional examination.
Credit Hours: 3
Prerequisites: CMP_SC 4380

INFOTC 4400: C#/.NET Development
Learn how to develop and debug multi-threaded Windows desktop applications based on the object-oriented (OO), Model-View-Controller (MVC), and Model View ViewModel (MVVM) paradigms using C#, .NET, Windows Presentation Foundations (WPF), and Visual Studio. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: INFOTC 2040 or CMP_SC 2050
INFOTC 4405: iOS App Development I
(same as CMP_SC 4405). This is a first in a series of courses on developing iOS applications using Xcode, and the Swift programming language on the macOS platform.

Credit Hours: 3
Prerequisites: INFOTC 1040 or CMP_SC 1050, or consent of instructor
Recommended: Prior experience programming in any programming language. The student should understand basic language concepts such as variables, data structures, control structures, and functions

INFOTC 4410: Android App Development I
This is the first in a series of courses on developing Android applications using Android Studio and the Java and Kotlin programming languages.

Credit Hours: 3
Prerequisites: INFOTC 1040 or CMP_SC 1050, or consent of instructor

INFOTC 4420: Android App Development II
This is the second in a series of courses on developing Android applications using Android Studio and the Java and Kotlin programming languages. This course covers intermediate-level topics in application design, more complex UI implementations, and data persistence.

Credit Hours: 3
Prerequisites: INFOTC 4410, or consent of instructor

INFOTC 4425: iOS App Development II
This is the second in a series of courses on developing iOS applications using Xcode and Swift programming language on the macOS platform. This course covers intermediate-level topics in application design, more complex UI implementations, and data persistence.

Credit Hours: 3
Prerequisites: INFOTC 4405 with C- or higher

INFOTC 4440: Android App Development III
This is a third in a series of courses on developing Android applications using Android Studio and the Java and Kotlin programming languages. This course covers advanced topics in application architecture, application design, data persistence, and client-server architecture.

Credit Hours: 3
Prerequisites: INFOTC 4420 or permission of the instructor

INFOTC 4445: iOS App Development III
This is the third in a series of courses on developing iOS applications using Xcode and Swift programming language on the macOS platform. This course covers advanced topics in application architecture, application design, complex UI designs, data persistence, and client-server architecture.

Credit Hours: 3
Prerequisites: INFOTC 4425

INFOTC 4500: Team-Based Mobile Device Application Development
This is a multi-disciplinary, team-based course on developing applications for mobile devices. Teams will be comprised of students who are software developers and students who are designers. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: INFOTC 2040; or CMP_SC 2050; or permission of instructor with applicable experience

INFOTC 4600: User Experience Design II
This course is the second in a series that focuses on User Experience (UX) Design for software applications. This course further develops the processes, techniques and methods of evaluation to design, model, and evaluate application designs and user interfaces.

Credit Hours: 3
Prerequisites: INFOTC 1600

INFOTC 4610: Advanced Multimedia Design and Technology
Students enrolled in INFOTC 4610 are immersed in upper level study of media technology, software, and trends in the industry, with focus on advanced media design, motion media capture techniques, portfolio development, and industry standard technology and software. Students will work both independently and in small focus groups to produce industry results in narrative, non-fiction, and commercial media design projects. This course may be taken as INFOTC 4610W for WI credit. If IT majors take this course as WI, it will serve as Capstone. This is a Study Abroad course.

Credit Hours: 3
Prerequisites: INFOTC 4610W: Advanced Multimedia Design and Technology - Writing Intensive
Students enrolled in INFOTC 4610 are immersed in upper level study of media technology, software, and trends in the industry, with focus on advanced media design, motion media capture techniques, portfolio development, and industry standard technology and software. Students will work both independently and in small focus groups to produce industry results in narrative, non-fiction, and commercial media design projects. This course may be taken as INFOTC 4610W for WI credit. If IT majors take this course as WI, it will serve as Capstone. This is a Study Abroad course.

Credit Hours: 3
Prerequisites: IT Majors must complete INFOTC 2610; other majors may seek instructor consent

INFOTC 4630: Game Development
(same as CMP_SC 4630). The course focuses on rapid game prototyping and development utilizing the Unity game engine and C#. You will learn the fundamentals of game programming and also a platform which is actually used to make published games across multiple platforms (Mac, PC, web, iOS, Android etc). Graded on A-F basis only.

Credit Hours: 3
Prerequisites: INFOTC 3630 or CMP_SC 2050 or INFOTC 2040 with C- or higher

INFOTC 4640: Motion Graphics and Visual Effects II
This course builds on fundamentals of digital motion picture effects technology learned in Digital Effects I. Computer programs designed for digital visual special effects in film and broadcast are integrated throughout the course.
Credit Hours: 3  
Prerequisites: C- or higher in INFOTC 3640

INFOTC 4650: Shader Programming  
The focus of this course is modern computer graphics algorithms and programming, with an emphasis on games, shader languages, (GLSL and Cg) and Graphical Processor Units (GPUs).

Credit Hours: 3  
Prerequisites: CMP_SC 2050, INFOTC 2620

INFOTC 4830: Web Application Development II  
(same as CMP_SC 4830; cross-leveled with CMP_SC 7830). This course will study the science and engineering of the World Wide Web. We will study the languages, protocols, services and tools that enable the web. Emphasis will be placed on basics and technologies.

Credit Hours: 3  
Prerequisites: CMP_SC 2830 with a C- or higher

INFOTC 4910: Digital Forensics  
(same as CMP_SC 4910). This course introduces an overview of basic Digital Forensics procedures and techniques to enable students to perform a digital investigation of physical storage media and volume analysis, including preservation, analysis, and acquisition of artifacts that resides in hard disk and random access memory, for Linux and Windows systems. Work is completed in Unix/Linux environments and in Microsoft Windows environment. Students will need to setup a virtual private infrastructure to perform multiple tasks. The course emphasizes 'learning by doing' and has a 90% hands-on and 10% theory. Much of this information consists of skills and abilities that employers want and expect in the real world of IT - in a small to medium size organization. Graded on A-F basis only.

Credit Hours: 3  
Prerequisites: INFOTC 2910 and INFOTC 3910

INFOTC 4970W: Senior Capstone Design - Writing Intensive  
This course is an opportunity for you to demonstrate that you have achieved the goals established by the Information Technology (IT) program. You will do this through a series of writing exercises, class activities, and a team-based project. You will demonstrate your ability to synthesize various methods and skills, apply them to new, novel, complex, and integrated project requirements in real-world IT problems. Graded on A-F basis only.

Credit Hours: 3  
Prerequisites: C- or higher in INFOTC 4320, or CMP_SC 4320, or INFOTC 3650. Must have senior standing. Restricted to INFOTC majors

INFOTC 4990: Undergraduate Research in Information Technology  
Research topics as defined by instructor and student.

Credit Hour: 1-6  
Prerequisites: Instructor’s consent

INFOTC 4995: Undergraduate Research in Information Technology - Honors  
Research topics as defined by instructor and student.

Credit Hour: 1-6

Integrative Neuroscience Courses

NEUROSCI 7990: Non-Thesis Research in Neuroscience  
The course is intended primarily for post-baccalaureate students who have not entered a formal graduate program but who are performing neuroscience research. Graded on A-F basis only.

Credit Hour: 1-3  
Prerequisites: instructor’s consent required

NEUROSCI 8020: Advances in Neuroscience and Neuropathology  
In depth review of recent advances in basic neuroscience research as well as pathological conditions affecting nervous systems at the cellular and systems level, and the methods and techniques used to study the nervous system. Graded on A-F basis only.

Credit Hour: 1-3

NEUROSCI 8187: Neuroscience Journal Club  
In depth readings and presentations/discussions of neuroscience journal articles including recent advances in basic neuroscience research, pathological conditions affecting nervous systems, and neuroscience techniques. Graded on S/U basis only. May be repeated for credit.

Credit Hour: 1

NEUROSCI 8440: Integrative Neuroscience 1  
(same as BIO_SC 8440). Organization, development and function of the nervous system focusing on cellular and molecular processes. Graded on A-F basis only.

Credit Hours: 3

NEUROSCI 8442: Integrative Neuroscience II  
(same as BIO_SC 8442). Organization and function of the nervous system at the systems level to examine processes of behavior and cognition. Graded on A-F basis only.

Credit Hours: 3

NEUROSCI 9090: Thesis Research in Neuroscience  
The course is intended primarily for graduate students who are working with mentors in departments that do not offer courses (e.g. Radiology). Graded on A-F basis only.

Credit Hour: 1-6  
Prerequisites: Instructor’s consent required

Interdisciplinary Studies Courses

INTDSC 1001: Proseminar in Interdisciplinary Studies  
Lecture/discussion survey of time-management, note taking techniques, in the context of the three courses that are part of a Freshman Interest Group. Regular use of library, electronic mail and computing facilities is stressed. Elective credit only; students cannot receive credit for INTDSC 2001 and INTDSC 1001 or INTDSC 1150. Graded on S/U basis only.

Credit Hour: 1
INTDSC 1020: University Freshmen Seminar (same as SSC 1020). To maximize student's potential to achieve academic success and to adjust responsibly to the individual and interpersonal challenges presented by collegiate life. Attainment of an appropriate balance between personal freedom and social responsibility underlies all seminar activities. No credit for students who have earned credit for AFNR 1115, INTDSC 1001, IS_LT 1110, ED_LPA 3100 or an equivalent first year orientation course at another institution. Credit restrictions that apply to orientation classes apply to this course. Students are not allowed to be enrolled in SSC 1020 and SSC 1150 in the same semester.

Credit Hour: 1  
Prerequisites: Restricted to freshman only

INTDSC 1940: Internship  
Limited to freshmen/sophomores who are ‘undecided’ or otherwise not accepted into a major. Graded on S/U basis only.

Credit Hour: 0-1

INTDSC 2001: Proseminar in Interdisciplinary Studies  
Lecture/discussion survey of a range of issues of special importance for transfer students new to the University. Elective credit only; no credit for INTDSC 1001 and/or SSC 1150. Graded on A-F basis only.

Credit Hour: 1

INTDSC 2942: Internship and Career Exploration in Arts and Science  
This course is designed to develop skills required to successfully apply for, and be successful in, internships and employment.

Credit Hour: 1

INTDSC 4940: Internship in Interdisciplinary Studies  
Internship limited to students pursuing the BA in Interdisciplinary Studies degree. Graded on S/U basis only.

Credit Hour: 1-6  
Prerequisites: departmental Consent Required

INTDSC 4942: Arts and Science Internship  
Internship limited to students in the College of Arts and Science.

Credit Hour: 1-6  
Prerequisites: Consent of instructor required

INTDSC 4960: Readings in Interdisciplinary Studies  
Independent readings with supervisory faculty member. Open only to Interdisciplinary Studies majors. May be repeated up to a maximum of 6 hours.

Credit Hour: 1-6

INTDSC 4970: Service Learning Project.  
Independent readings with supervisory faculty member; Students will engage in service activities, directly relevant to their areas of academic emphasis, in community not-for-profit agencies. At the same time as participants work in the community, they will research their agency and organization, undergo mock employment interviews, create a cover letter and resume based on the professional skills they have gained through their service, and reflect on careers and leadership in public service. Graded on A-F basis only.

Credit Hour: 3-6  
Prerequisites: restricted to Interdisciplinary, General Studies and International Studies students

INTDSC 4970W: Service Learning Project. - Writing Intensive  
Independent readings with supervisory faculty member; Students will engage in service activities, directly relevant to their areas of academic emphasis, in community not-for-profit agencies. At the same time as participants work in the community, they will research their agency and organization, undergo mock employment interviews, create a cover letter and resume based on the professional skills they have gained through their service, and reflect on careers and leadership in public service. Graded on A-F basis only.

Credit Hour: 3-6  
Prerequisites: restricted to Interdisciplinary, General Studies and International Studies students

INTDSC 4971: Capstone Internship in Interdisciplinary Studies  
Internship experience which serves as the student's capstone experience. Program advisor must approve internships. Section 2 of this course will be designated for Service Learning Capstone experience. Graded on S/U basis only.

Credit Hour: 1-6

Internal Medicine Courses

IN_MED 6002: Medicine Clerkship  
Students spend eight weeks on the medicine inpatient service at University Hospital and Harry S. Truman Veterans Hospital where they learn to care for adult patients with acute and chronic illnesses. Teaching emphasizes the principles of differential diagnosis and problem solving as well as the integration of basic science information into the art of patient care. Students also gain clinical experience in medical interviewing and physical examination.

Credit Hours: 8

IN_MED 6012: Rural Medicine Clerkship  
Rural Medicine Clerkship

Credit Hours: 8

IN_MED 6022: Springfield Medicine Clerkship  
Students learn to care for adult patients with acute and chronic illnesses. Teaching emphasizes the principles of differential diagnosis and problem solving as well as the integration of basic science information into the art of patient care. Students also gain clinical experience in medical interviewing and physical examination.

Credit Hours: 8

IN_MED 6052: Springfield Medical Consultation  
The student will work with the Medical Consultation attending faculty. The student will be expected to participate in an interdisciplinary manner
with the Rehabilitation physicians as well as the therapy services and other ancillary services caring for the patients. Internists and medical subspecialists frequently encounter patients who are in a particular condition that requires unique skills. During this rotation medicine students will: 1. Provide assessment, management, and follow-up of the medical illnesses of patients in a Rehabilitation facility under the supervision of the medical consultant attending. 2. Be intimately involved in this multidisciplinary approach to patient care. 3. Work collaboratively with rehabilitation attending physicians, nurses, pharmacists, therapists, and other ancillary support staff.

**Credit Hours:** 5  
**Prerequisites:** Successful completion of the Medicine Clerkship and M-4 Status. M3 students can be considered on an individual basis. Springfield faculty approval needed before registration

---

**IN_MED 6056: Springfield Infectious Diseases**  
The fourth-year medicine student will work as part of the infectious diseases team providing hands-on clinical services in inpatient and/or consultative settings. Students will participate in daily inpatient rounds, mini-lectures, and clinical case conferences. Students will utilize a variety of evidence-based resources and on-line modules. Infectious diseases faculty are readily available for one-on-one discussion.

**Credit Hours:** 5  
**Prerequisites:** Successful completion of 5 of the 7 core clerkships, one of which must be Internal Medicine

---

**IN_MED 6102: Remediation Medicine Clerkship**  
Enrolled students are those who received an unsatisfactory grade in a Medicine Clerkship at any Mizzou Med location or site. This course allows them the opportunity to rectify a deficiency.

**Credit Hours:** 8  
**Prerequisites:** IN_MED 6002 Medicine Clerkship, received unsatisfactory grade

---

**IN_MED 6122: Remediation of Springfield Internal Medicine Clerkship**  
Students learn to care for adult patients with acute and chronic illnesses. Teaching emphasizes the principles of differential diagnosis and problem solving as well as the integration of basic science information into the art of patient care. Students also gain clinical experience in medical interviewing and physical examination.

**Credit Hours:** 8  
**Prerequisites:** successful completion of the first two years of medical school

---

**IN_MED 6263: ABS Internal Medicine Research**  
ABS Internal Medicine Research

**Credit Hour:** 5-10

---

**IN_MED 6265: ABS IN MED RSCH/REVIEW**  
ABS in Medicine Research Review

**Credit Hours:** 5

---

**IN_MED 6500: Cardiology Consultation Service**  
On the inpatient cardiology consultation block, the senior student gains experience in cardiology consultation at either the University Hospital or the Harry S Truman VA Hospital. Through active participation in the consult service the student is provided the opportunity to acquire knowledge of cardiovascular anatomy, physiology, cardiovascular pharmacology, prevention of cardiovascular disease, risk factors for cardiac disease, lipid disorders, chronic coronary artery disease management and its complications, cardiac arrhythmias and conduction abnormalities, hypertension, valvular heart disease, cardiomyopathy, pericardial disease, pulmonary heart disease, peripheral vascular disease, cerebral vascular disease, adult congenital heart disease, and pre- and post-operative assessment of patients with or without cardiac problems. Students will be evaluated using the standard department student elective evaluation form submitted to the Internal Medicine Education Office. Each faculty working with the student will have the opportunity to contribute to the final grade. The final evaluation will be based on student performance on the cardiology consultation service and active participation in the cardiology conferences. Students' skills in performing a history and physical exam, the quality of their presentation, the quality of their knowledge base, the quality of their interactions will constitute the basis of grade assignment.

**Credit Hours:** 5

---

**IN_MED 6507: Endocrinology/Metabolism**  
The Endocrinology rotation is designed to enable the student to deal with clinical problems in diabetes endocrinology and metabolism with particular emphasis on the more common problems in an ambulatory setting. During the rotation the student will have the opportunity to see patients with a wide range of endocrine disorders. These patients will be used as the focus for teaching with the emphasis placed on differential diagnosis, pathophysiology, management, and how the disorder affects the patient as a whole. By the end of the rotation the student should be able to evaluate and manage patients with: 1. Diabetes Mellitus 2. Hypoglycemia 3. Thyroid disorders including goiters, thyroid nodules, hyperthyroidism and hypothyroidism 4. Adrenal disorders including adrenal incidentalomas, Cushings and Hyperaldosteronism 5. Pituitary problems including hypopituitarism, conditions due to pituitary hormone excess that including Cushing's disease, acromegaly and prolactinoma. 6. Calcium abnormalities including hyperparathyroidism, hypoparathyroidism, hypercalcemia, hypocalcaemia and osteoporosis. 7. Polycystic ovarian syndrome. Evaluations: The course grade will be based on students' skill in performing a history and physical exam, the quality of the presentation, the quality of their knowledge base and the quality of their interactions.

**Credit Hours:** 5

---

**IN_MED 6508: General Internal Medicine Outpatient**  
General Internal Medicine Outpatient

**Credit Hours:** 5

---

**IN_MED 6513: Infectious Diseases**  
The goals of the Infectious Diseases elective will be to: 1. Teach the student how to be an effective consultant. 2. Assist the student in his/her knowledge of disease processes. 3. Help the student improve his/her history taking and physical examination skills. 4. Enhance the student's knowledge regarding the use of antimicrobial agents. 5. Improve the student's understanding of the diagnosis and management of commonly-
encountered infectious diseases with attention to the use of the history and readily available laboratory tests.

Credit Hours: 5

IN_MED 6515: Problems in Medical Ethics
Problems in Medical Ethics
Credit Hours: 5

IN_MED 6800: Coronary Care Unit
During the Coronary Intensive Care Unit rotation, the medical student is provided the opportunity to acquire knowledge in the evaluation and management of acute and chronic coronary artery disease, lifethreatening cardiac arrhythmia’s, acute severe congestive heart failure, acute valvular disease, acute infective endocarditis, hypertensive emergencies, cardiac tamponade, aortic dissection, aortic pulmonary embolism, life-threatening complications of cardiac therapy, hypotension, and shock. The Coronary Intensive Care rotation allows the student to evaluate and treat these patients in close conjunction with medical residents, cardiology fellows and cardiology faculty. Students will be evaluated using the standard Department student elective evaluation form submitted to the Internal Medicine Education Office. Each faculty working with the student will have the opportunity to contribute to the final grade. The final evaluation will be based on student performance on the cardiology consultation service and active participation in the cardiology conferences. Students' skills in performing a history and physical exam, the quality of their presentation, the quality of their knowledge base, the quality of their interactions will constitute the basis of grade assignment.

Credit Hours: 5

IN_MED 6801: Diabetes Mellitus Externship
Diabetes Mellitus Externship
Credit Hours: 5

IN_MED 6802: Gastroenterology
Medical students will be assigned to the inpatient GI consultation service, where they will see and evaluate patients, read about their problems, and present them to the GI fellow and/or teaching attending. They should attend all endoscopic procedures on the patients they follow on the inpatient service. They should also attend a sampling of outpatient procedures each week in the Endoscopy Center. As time permits, they may be assigned to one or more GI clinics during the rotation as well. Medical students will be expected to attend all GI conferences during the rotation. Students are also encouraged to attend Internal Medicine Grand Rounds and Internal Medicine Morning Report. They may also be assigned to give one formal presentation during their rotation. It is recommended that they read the entire GI-Liver section of the Internal Medicine textbook that they used on their third-year Internal Medicine Clerkship. Ongoing feedback is provided to the student during the rotation. At the end of the rotation, a formal written evaluation will be prepared by the inpatient attending, in conjunction with the GI fellow with whom the resident/medical student worked with. Conference participation is factored in.

Credit Hours: 5

IN_MED 6803: Subinternship in Internal Medicine
The internal medicine subinternship builds on the skills begun during the internal medicine clerkship and prepares the student for the internship year. 1. Students will refine and further develop skills in: a. Physical exam, history taking, chart review, and written notes; b. Problem list development and management plan; data interpretation and synthesis; c. Oral presentation; d. Interpersonal relations with patients, families, staff and peers; e. Time management i. Self-directed learning ii. Evidence-based medicine 2. Expand knowledge base in general internal medicine 3. Assume primary responsibility for inpatient care 4. Further develop in the role of primary care giver Patient management skills, medical record keeping, presentation skills, knowledge base, and ability to handle responsibility will be carefully observed by both the senior ward resident and the attending physician. Students will receive constructive feedback/suggestions for improvement throughout the rotation from both the attending and the senior ward resident. The attending, with input from the senior ward resident and the third year students, will report the final scores using the Department of Internal Medicine standard electives evaluation form. Students will meet with the attending physician at the end of the block to discuss their performance. Students will not receive elective credit for three weeks rotations.

Credit Hours: 5

IN_MED 6805: Hematology and Medical Oncology Chronic Care
The specific objective of the course is to assist the student in developing a greater understanding for the care of chronically ill patients with hematologic and neoplastic diseases. The student's evaluation is based predominantly on his/her performance in presentation and in written chart notes of patients under the student's care. This evaluation will be by the attending physician with whom the student has worked. The standard department student elective evaluation form will be used to document student performance.

Credit Hours: 5

IN_MED 6806: Immunology/Rheumatology
The overall curricular objectives of this elective include: 1. Basic Information. The student should be able to: a. Perform a medical history and screening physical examination with attention to symptoms and signs of rheumatic disease; b. Understand the basic pathophysiology and clinical diagnosis of common arthritic and musculoskeletal diseases in adults. b. Understand the natural history of rheumatic diseases, particularly rheumatoid arthritis, soft tissue rheumatism, degenerative joint disease, systemic lupus erythematosus and spondyloarthropathies. c. Understand the short and long term management of rheumatic conditions and apply these principles together with overall clinical judgment in the management of individual patients. These therapeutic measures include: 1. Drug therapy, 2. Physical rehabilitative measures, and 3. Surgical intervention. d. Learn the uses and pitfalls of laboratory tests in practice. e. Formulate ways to approach the emotional problems of patients with chronic disease. 1. Understand the value of the comprehensive approach in arthritis treatment including patient education, the role of the allied health professional and community resources.

Credit Hours: 5

IN_MED 6807: Medical Intensive Care
Under the supervision of the medical critical care attending, the medical students are part of a team providing assessment, management, and follow-up of critically ill patients. Students will be intimately involved in
this multidisciplinary approach to patient care. As a member of the ICU patient management team, the student will work collaboratively with residents, fellows, medical attendings, nurses, pharmacists, respiratory therapists and the nutritional support staff. The team will work in a coordinated fashion with consulting physicians and services, social services, physical therapy workers, and the radiology and pathology laboratory departments, and chaplain services.

Credit Hours: 5

IN_MED 6808: Nephrology Advanced Elective
This elective builds on the knowledge and skills students have acquired in the third year course in Internal Medicine. Students will have the opportunity to perform histories and physicals, participate in the decision-making process of patient management, and be responsible for daily follow-up in patients with fluid and electrolyte problems, acid-base disturbances, acute and chronic renal failure and a variety of renal diseases. The focus in these areas will be at a much higher level of responsibility and management than in the third-year course.

Credit Hours: 5

IN_MED 6809: Pulmonary Medicine Diagnostic Services
The Pulmonary Medicine Service is designed to allow students to participate in the diagnosis and care of hospitalized patients with an acute pulmonary problem as well as continuity follow up of existing known disease processes. This service evaluates and assists in management of adult patients at the University or VA Medical Centers. Either rotation includes intensive care unit patients with primary surgical or cardiac diagnoses, the rotation at the VA Medical Center also includes intensive care unit patients with primary medical diagnoses. The rotation will introduce the student to major clinical entities including the diagnosis and management of infectious lung disorders, neoplasms of the lungs, chronic obstructive pulmonary disease, asthma, acute respiratory failure, occupational pulmonary disease and interstitial lung disorders. The student will be introduced to the variety of diagnostic tests including radiographic studies, fiberoptic bronchoscopy, pulmonary function testing, cardiopulmonary exercise testing, surgical lung biopsy, thoracentesis and pleural biopsy, and arterial blood sampling. Students also participate in consultation on patients requiring outpatient pulmonary clinic evaluation. Each student is encouraged to spend extra time in the pulmonary function lab, and have pulmonary function tests and cardiopulmonary exercise tests done on themselves, depending on available time. Each student rotating through the pulmonary service will be expected to evaluate and present patients fully on a daily basis to the pulmonary consult team, including the attending physician. The student will have an opportunity to assist fellows and faculty with procedures such as bronchoscopy and thoracentesis. Students will have the opportunity to interpret pulmonary function tests, chest radiographs and other radiographic studies such as computed tomography and nuclear medicine studies of the thorax.

Credit Hours: 5

IN_MED 6902: SCC Cardiac Electrophysiology Two Week
The student will work as part of a team providing hands-on clinical services in both the inpatient and outpatient settings in a consultative manner. Students will learn using a variety of evidence-based resources, didactic teaching, demonstration, and observation. This is intended as an introductory experience in the specialty of Cardiac Electrophysiology.

Credit Hours: 3
Prerequisites: instructor's consent
INTL_S 4940: Internship in International Studies
Internship limited to students pursuing the AB in International Studies degree. May be repeated to a maximum of six hours. Graded on S/U basis only.
Credit Hour: 1-6

INTL_S 4960: Readings in International Studies
Independent readings with supervisory faculty member. Open only to International Studies majors. May be repeated up to a maximum of 6 hours.
Credit Hour: 1-6

Italian Courses
ITAL 1100: Elementary Italian I
Intensive approach to beginning language. This course focuses on developing basic language skills (reading, writing, speaking, and listening) in Italian. The 5-hour option is open ONLY to Bachelor of Music students and only with override from the Department. The 5-hour option cannot be applied to meets Arts and Science or Journalism foreign language requirements. Offered in the Fall.
Credit Hour: 5-6
Prerequisites: Grade in the C range or better in ITAL 1100 or its equivalent

ITAL 1200: Elementary Italian II
Students will expand the grammar structures learned in the previous semester and will continue to build on the skills acquired in Elementary Italian I. The 5-hour option is open ONLY to Bachelor of Music students and only with override from the Department. The 5-hour option cannot be applied to meets Arts and Science or Journalism foreign language requirements. Offered in the Spring.
Credit Hour: 5-6

ITAL 2001: Undergraduate Topics in Italian-General
Organized study of selected topics. Subjects and credits may vary from semester to semester. Departmental consent for repetition.
Credit Hour: 1-3

ITAL 2005: Undergraduate Topics in Italian-Humanities/Fine Arts
Organized study of selected topics. Subjects and credits may vary from semester to semester. Departmental consent for repetition.
Credit Hour: 1-3

ITAL 2160: Intermediate Italian
Continues development of language skills acquired in Elementary Italian. While learning new structures and new vocabulary, students also review basic grammar components. By the end of the course, students are able to understand (through reading and listening) and communicate (in writing and orally) in a variety of both formal and informal situations. Offered in the Fall.
Credit Hours: 3
Prerequisites: ITAL 1200

ITAL 2310: Italian Civilization
In this course students will focus on a broad range of Italian achievements, sociopolitical events, and artistic and literary movements from the past to the present. Open to any student interested. No knowledge of Italian required.
Credit Hours: 3

ITAL 2850: Italian Cinema
(same as FILMS_VS 2850). It offers a historical overview of Italian Cinema from the silent era to the present. The course will provide the analytical skills necessary to read and critically analyze a film. Social and historical issues will be raised and examined for each film as appropriate. No knowledge of Italian required.
Credit Hours: 3
Prerequisites: sophomore standing

ITAL 3005: Topics in Italian-Humanities/Fine Arts
Subject varies from semester to semester. Departmental consent for repetition. No knowledge of Italian required.
Credit Hour: 1-3
Prerequisites: sophomore standing or ENGLSH 1000

ITAL 3150: Post-Intermediate Italian
Gives emphasis on acquiring communicative multi-skills competence necessary to understand and discuss a variety of written and aural texts, from newspaper articles to brief literature excerpts. It offers students opportunity to review grammar components as will as learning more complex structures, to expand their vocabulary, and to use language in a variety of cultural contexts.
Credit Hours: 3
Prerequisites: ITAL 2160

ITAL 3160: Italian Composition
Continues the development of the language skills acquired in Intermediate and Post-Intermediate Italian. It offers students the opportunity to expand their vocabulary, to use the language in a variety of contexts prompted by cultural activities, and to acquire more complex grammatical structures. Emphasis is given on refining writing skills in connection with different text types.
Credit Hours: 3
Prerequisites: ITAL 3150

ITAL 3310: Contemporary Italian Fiction, Media and Culture
This course focuses on the culture and creative production (i.e., literature, film, music, art, etc.) as well as the sociopolitical context of contemporary Italy. Content may vary from semester to semester. No knowledge of Italian required.
Credit Hours: 3
Prerequisites: sophomore standing or ENGLSH 1000

ITAL 3430: Italian Women Studies
An interdisciplinary course on gender structures and representations in Italy through literature, media, politics, art, and feminist theories. Content may vary from semester to semester. No knowledge of Italian required.
Credit Hours: 3
**Prerequisites:** sophomore standing or ENGLSH 1000

**ITAL 3450: Transnational and Migrant Cinema**
This course aims to introduce students to the concept of transnational cinema by discussing international circulation and reception of films and by analyzing issues of migration and ethnicity in contemporary films, media, and culture. The course will use Italian films as well as international films located in Italy as case studies to learn what defines transnational cinema and to discuss transnational and migrant cinema in the context of Europe and the Mediterranean Sea.

**Credit Hours:** 3

**Recommended:** Junior standing

**ITAL 4070: Italian for Reading Knowledge**
Designed for rapid acquisition of a reading knowledge of Italian. Cannot be taken to fulfill undergraduate language requirement.

**Credit Hours:** 3

**Prerequisites:** instructor's consent

**ITAL 7085: Problems in Italian Studies**
Independent study through readings, conferences, reports.

**Credit Hour:** 1-3

---

**Japanese Courses**

**JAPNSE 1100: Elementary Japanese I**
For beginners with no prior knowledge of Japanese. Three hours of lecture instruction and three hours of practice/drill per week in small groups.

**Credit Hours:** 6

**JAPNSE 1200: Elementary Japanese II**
For beginners with some prior knowledge of Japanese. Three hours of lecture instruction and three hours of practice/drill per week in small groups.

**Credit Hours:** 6

**Prerequisites:** C- or better in JAPNSE 1100, or equivalent

**JAPNSE 2160: Japanese Conversation and Composition**
Develops oral and written command of Japanese as well as listening comprehension and further essay writing skills.

**Credit Hours:** 3

**Prerequisites:** C- or better in JAPNSE 1200, or equivalent

**JAPNSE 2310: Japanese Civilization I**
Survey of Japanese culture and arts before 1868. May be taken independently of JAPNSE 2320. No knowledge of Japanese required. No foreign language credit.

**Credit Hours:** 3

**JAPNSE 3085: Problems in Japanese**
Supervised study in Japanese language and/or culture.

**Credit Hour:** 1-3

**Prerequisites:** instructor's consent

**JAPNSE 3160: Intermediate Japanese Composition and Conversation**
Further develops oral and written command of Japanese as well as listening comprehension and further essay writing skills.

**Credit Hours:** 3

**Prerequisites:** C- or better in JAPNSE 2160

**JAPNSE 3360: Modern Japanese Literature (in Translation)**
Surveys Japanese literature from 1868 to present. Analyzes works by such authors as Soseki, Tanizaki, Kawabata, Mishima, Oe, Murakami, and others. Readings and lectures in English.

**Credit Hours:** 3

**Recommended:** sophomore standing

**JAPNSE 3370: Intermediate Readings in Japanese**
Develops reading and speaking skills and acquisition of more Kanji, vocabulary, and complex structures.

**Credit Hours:** 3

**Prerequisites:** C- or better in JAPNSE 3160, or equivalent, or instructor's consent

**JAPNSE 3380: Intermediate Japanese II**
Continues development of intermediate reading, listening, speaking, and writing skills achieved in JAPNSE 3370, with attention to vocabulary acquisition, expansion of knowledge of kanji, and understanding of complex grammatical structures. Authentic readings in Japanese literature and exercises using authentic multi-media materials also help students gain greater familiarity with Japanese culture. Encourages development of student autonomy in language learning with the introduction and use of appropriate reference materials.

**Credit Hours:** 3

**Prerequisites:** JAPNSE 3370

**JAPNSE 3850: Traditional Japanese Theatre**
Study of the history, scripts, and performance techniques of Japanese theatre from 14th century through late 19th century. Examines major plays (in English translations) and the culture that created them. Looks at staging and performance techniques of traditional puppet theatre. Course included stage performances and performances on campus and/or in the community.

**Credit Hours:** 3

**Prerequisites:** sophomore standing or instructor's consent

**JAPNSE 3880: Japan and its Cinema**
Survey and analysis of selected Japanese films from the 1940s to present. Films will be viewed and discussed in terms of history, techniques, artistry, and social impact. English subtitles. No foreign language credit.

**Credit Hours:** 3

**Prerequisites:** sophomore standing or instructor's consent
JAPNSE 4005: Topics in Japanese - Humanities
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Suitable for students who have taken JAPNSE 3370 or equivalent.

Credit Hour: 1-3
Prerequisites: instructor's consent, sophomore standing

JAPNSE 4005H: Topics in Japanese - Humanities - Honors
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Suitable for students who have taken JAPNSE 3370 or equivalent.

Credit Hour: 1-3
Prerequisites: instructor's consent, sophomore standing; Honors eligibility required

JAPNSE 4160: Advanced Japanese I
Continues development of reading, listening, speaking, writing skills, with attention to vocabulary acquisition, expansion of knowledge of kanji, and understanding of complex grammatical structures. Authentic readings in Japanese literature, exercises using authentic multi-media materials. Encourages development of student autonomy in language learning with introduction and use of appropriate reference materials.

Credit Hours: 3
Prerequisites: JAPNSE 3380 or equivalent, or instructor's consent

JAPNSE 4180: Advanced Japanese II
This course continues the development of reading, listening, speaking, and writing skills, with attention to vocabulary acquisition, expansion of knowledge of kanji, and understanding of complex grammatical structures. Authentic readings in Japanese literature and exercises using authentic multimedia materials also help students gain greater familiarity with Japanese culture. The course encourages the development of student autonomy in language learning with the introduction and use of appropriate reference materials.

Credit Hours: 3
Prerequisites: JAPNSE 4160

Journalism Courses

JOURN _0501: Study Abroad: Exchange Graduate
Attributes: Study Abroad Program, Requires Consent, Journalism Course Fee. Course Has Non Standard Meeting Dates, Course Not Transcribed on Students Record Instruction Mode: Traditional Location: Study Abroad Exchange Units: 0 - 12 units

Credit Hour: 0-12

JOURN _0900: News Practicum
Instruction in fundamentals of newswriting for students entering the graduate program without an undergraduate degree in journalism.

Credit Hours: 3

JOURN 1000: The News Media: Journalism and Advertising in a Democratic Society
How do you know the media are telling the full truth and nothing but the truth? In this course, you will learn how to decide what information sources to trust. You'll survey the roles played by you, the consumer, as well as by journalists, strategic communicators and advertisers in their relationships with different audiences. Students will weigh the merits of various storytelling methods, uses of social media and revenue models while developing a deeper understanding of the ethical issues facing consumers and journalists in today’s fast-paced media environment. Pre-Journalism and Journalism majors cannot count this course towards the Bachelor of Journalism.

Credit Hours: 3

JOURN 1010: Career Explorations in Journalism
Colloquium in which experts discuss their specialties and answer students' questions on the nature and current status of their disciplines. Graded on S/U basis only.

Credit Hour: 1
Prerequisites: Undeclared Journalism, Pre-Journalism, or Science and Agricultural Journalism majors only

JOURN 1010H: Career Explorations in Journalism - Honors
Colloquium in which experts discuss their specialties and answer students' questions on the nature and current status of their disciplines. Graded on S/U basis only.

Credit Hour: 1
Prerequisites: Freshman Journalism and Science and Agricultural Journalism Majors only. Honors Eligibility Required

JOURN 1100: Principles of Journalism in Democracy
Course designed to acquaint students with concepts and functions of journalism in American society. Stresses the basic issues and problems facing journalists and the mass media.

Credit Hours: 3
Prerequisites: During early registration, limited to Undeclared Journalism, Pre-Journalism, or Science and Agricultural Journalism majors only

JOURN 1200: Fundamentals of Written Journalism and Strategic Communication
Visual Fundamentals is designed to be one of three courses to introduce students to the basics of journalism and strategic communication practice. In this course, students will learn and practice the basics of visual and audio storytelling and design across the disciplines of journalism and strategic communication. Effective storytelling in audio, video, still photography and design requires an understanding of both the theory and philosophy as well as the software fundamentals necessary to manipulate these elements. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: Undeclared Journalism or Pre-Journalism majors during early registration

JOURN 1300: Fundamentals of Written Journalism and Strategic Communication
Fundamentals of Written Journalism and Strategic Communication is designed to be one of three courses to introduce students to the basics of journalism and strategic communication practice. In this course, students will learn and practice the basics of information gathering and writing across the disciplines of journalism and strategic communication. Good
media writing requires more than an ability to craft clear sentences. It requires accuracy, curiosity, creativity and attention to detail. The class encompasses a variety of activities that will teach the following skills: AP style; News writing; Reporting; Interviewing; Story structure; Storyboarding/scripting; Generating creative ideas; Research; Strategic thinking; Persuasive writing; Use of multiple platforms; Judgment; Attribution; Meeting deadlines. Graded on A-F basis only.

**Credit Hours:** 2
**Prerequisites:** Undeclared Journalism or Pre-Journalism majors during early registration

---

**JOURN 1301: Topics in Journalism and Strategic Communication**
Organized study of selected topics. Subjects, specific content, and credits may vary from semester to semester. Graded on A-F basis only.

**Credit Hour:** 1-3

---

**JOURN 1400: Applied Projects for Journalism and Strategic Communication**
This course is designed to introduce students to the basics of journalism and strategic communication practice. This course allows students to build on the basic principles and skills learned in the fundamentals courses through hands-on projects. Students will work individually and in teams to complete four projects throughout the semester. Two projects focus on journalism/news and two focus on strategic communication. Students will learn how communication differs depending on their role and their audience. Additionally, students will be challenged to think critically about how journalism and strategic communication intersect and overlap, yet remain distinct in today's complex media landscape. Finally, this course will help students better identify an academic major in the journalism school, as well as informing students' individual career interests and plans. The class puts into practice all of the skills learned in Writing Fundamentals and Visual Fundamentals, including (but not limited to): Reporting; Interviewing; Proper framing; Proper use of lighting, stability and sound; Using sequencing and matched action; Creativity; Pacing; Use of multiple platforms; AP style; News writing; Reporting; Interviewing; Story structure; Storyboarding/scripting; Generating creative ideas; Research; Strategic thinking; Persuasive writing; Use of multiple platforms; Judgment; Attribution; Meeting deadlines. Graded on A-F basis only.

**Credit Hours:** 2
**Prerequisites:** JOURN 1200 and JOURN 1300

---

**JOURN 1940: Pre-Sequence Internship**
Internship for Journalism students who have not yet entered their emphasis areas. Used to satisfy employer requirements. Graded on S/U basis only.

**Credit Hour:** 0-1
**Prerequisites:** Consent from internship coordinator required

---

**JOURN 2000: Cross-Cultural Journalism**
Cross-Cultural Journalism provides journalistic tools for the coverage of diverse ethnic, gender, ability and ideological groups inside and outside the United States. The critical role of diverse voices in a democracy will be discussed.

**Credit Hours:** 3

---

**Prerequisites:** sophomore standing required; C- or higher in JOURN 1100 and UM GPA of 2.8. Restricted to Undeclared Journalism, Pre-Journalism, Journalism and Science and Agricultural Journalism Students Only

**JOURN 2100: News**
Introduction to fundamentals of news writing. Lectures, discussions and laboratory work provide training under deadline pressure in writing basic news stories. Stories cover several 'live' assignments. May not be taken concurrently with JOURN 2150.

(cross-leveled with JOURN 7220). Students will produce a free-standing collection of outstanding, polished creative work to demonstrate his/her ability to perform at a high level of creativity.

Credit Hours: 3  
Prerequisites: JOURN 4208 or JOURN 4228. Restricted to Strategic Communication and Science and Agricultural Journalism students only
JOURN 4224: Effective Job Search Strategies
Are you getting ready to apply for a job or internship? A resume is a brief written account of personal, educational, and professional qualifications and experience that you prepare as part of your application materials for a prospective job. To ensure that your resume is read by the recipient, you will need a cover letter that markets your unique qualifications for the specified job description. In the current global economy, it is essential for job seekers to optimize their chances of being considered and hired for positions that are well-suited to their qualifications and interests. This course will help you effectively develop employment application materials for today’s job market by honing your resume writing skills, providing you with tools to create an impressive resume (or to improve the one you already have), and giving suggestions on developing an effective cover letter. You will study different types of resume and cover letter formats that can be applied to various prospective employment situations and your own personal career goals. You will undertake a critical assessment of the professional skills you already possess, brainstorm and apply the best ways to market these skills in your resume and cover letter, and enhance your application materials by using specific tips and techniques to make you more competitive for the job you seek. Special focus is placed on developing effective application correspondence, follow-up correspondence, and interviewing techniques. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4200, JOURN 4204, and JOURN 4952

JOURN 4226: Strategic Design and Visuals I
Course gives students a foundation in visual communication in areas such as typography, balance, eye flow and layouts.

Credit Hours: 3
Prerequisites: junior standing. Restricted to Strategic Communications students only

JOURN 4226H: Strategic Design and Visuals I - Honors
Course gives students a foundation in visual communication in areas such as typography, balance, eye flow and layouts.

Credit Hours: 3
Prerequisites: Restricted to Strategic Communication students only with junior standing or higher. Honors eligibility required

JOURN 4228: Strategic Design and Visuals II
(cross-leveled with JOURN 7228). Advanced course in strategic design and visuals. Persuasive visual principles applied to variety of integrated media including print, broadcast and on-line. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4200, JOURN 4204 and JOURN 4952

JOURN 4236: Psychology in Advertising
(cross-leveled with JOURN 7236). Application of psychological principles, learning, perception, motivation, attitudes to advertising. Emphasis on the increasing use of psychographics (the ‘lifestyle’ factor) to understand consumer wants and buying behavior.

Credit Hours: 3
Prerequisites: JOURN 4200, JOURN 4204, JOURN 4952

JOURN 4242: Strategic Communication Leadership
(cross-leveled with JOURN 7242). Strategic Communication Leadership is aimed at students who are eager to develop their skills and abilities in management and leadership with the likely outcome that they will be leaders in media organizations or as entrepreneurs. Rooted in principles of ethical persuasion and strategic communication, it will help develop individual skills and abilities and the mindset of helping others achieve their goals. Based on the experience and writings of CEO and world-renowned leader David Novak (Strategic Communication alumnus 1974), this is the one of three courses comprising the Leadership Interest Area in Strategic Communication. This course will call on students to commit to the process of their own growth and self-discovery and to help foster the growth and development of fellow learners. It will be an intensive experience and, with commitment to the program, will be immediately applicable to the students’ current and future personal and professional lives. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4200, JOURN 4204, JOURN 4952

JOURN 4242W: Strategic Communication Leadership - Writing Intensive
(cross-leveled with JOURN 7242). Strategic Communication Leadership is aimed at students who are eager to develop their skills and abilities in management and leadership with the likely outcome that they will be leaders in media organizations or as entrepreneurs. Rooted in principles of ethical persuasion and strategic communication, it will help develop individual skills and abilities and the mindset of helping others achieve their goals. Based on the experience and writings of CEO and world-renowned leader David Novak (Strategic Communication alumnus 1974), this is the one of three courses comprising the Leadership Interest Area in Strategic Communication. This course will call on students to commit to the process of their own growth and self-discovery and to help foster the growth and development of fellow learners. It will be an intensive experience and, with commitment to the program, will be immediately applicable to the students’ current and future personal and professional lives. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4200, JOURN 4204, JOURN 4952

JOURN 4244: Creating Cultures Through Effective Strategic Communication and Leadership
(cross-leveled with JOURN 7244). The course focuses on the role culture and communication play in organizational success, management, and leadership. Rooted in principles of ethical persuasion and strategic communication, it helps students develop individual skills and abilities and the mindset of helping others achieve their goals. The course is distinctly different from traditional organizational studies because of its focus on communication and marketing principles. It offers hands-on learning through the case method. Based on experience and writings of CEO and world-renowned leader David Novak (Strategic Communication alumnus 1974), this is one of three courses comprising the Leadership interest area in Strategic Communication. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Journalism majors only
JOURN 4244W: Creating Cultures Through Effective Strategic Communication and Leadership - Writing Intensive
(cross-leveled with JOURN 7244). The course focuses on the role culture and communication play in organizational success, management, and leadership. Rooted in principles of ethical persuasion and strategic communication, it helps students develop individual skills and abilities and the mindset of helping others achieve their goals. The course is distinctly different from traditional organizational studies because of its focus on communication and marketing principles. It provides hands-on learning through the case method. Based on experience and writings of CEO and world-renowned leader David Novak (Strategic Communication Alumnus 1974), this is one of three courses comprising the Leadership interest area in Strategic Communication. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Journalism majors only

JOURN 4246: Taking People With You: Entrepreneurial Leadership and Innovation
(cross-leveled with JOURN 7246). In this course, students explore the current landscape of entrepreneurship (with specific reference to the strategic communication space) and practice a human-centered approach to solving problems. Students will gain valuable leadership skills and develop the knowledge and mindset needed to pursue their own entrepreneurial ventures or to become innovators and 'intrapreneurs' within existing organizations. The course introduces students to insight-driven approaches to innovation including David Novak’s Taking People with You philosophy of leadership and design thinking while offering ample opportunities to put these methods into practice. To simulate the entrepreneurial process, students identify an unmet need or market opportunity and develop an innovative product or service to solve a real-world problem. 'Startup teams' of four students engage in research, ideation, rapid prototyping, and iterative design to develop insights and a solution to meet the needs of real customers. Teams also conduct a market analysis, and develop a business model and go-to-market strategy for launching their startup and enlisting key partners to support their venture. The course culminates in a pitch competition in which teams present their ideas and strategies to a panel of industry experts and investors. In the process, students gain valuable leadership skills, develop an entrepreneurial mindset, and learn how to work with diverse teams and audiences to collaborate and solve problems. This is one of the three courses comprising the Leadership Interest Area in Strategic Communication. Students admitted to this course are also given priority to participate in the Novak Future Leaders Tour to San Francisco, where they gain exposure to ideas and leaders at some of the world's most innovative companies and organizations. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Journalism majors only

JOURN 4248: Media Strategy and Planning
(cross-leveled with JOURN 7248). Course deals with strategic planning and the selection and evaluation of appropriate media outlets. Students gain a clear understanding of the problems and issues involved in crafting effective media strategies, creative problem solving and selection of appropriate media.

Credit Hours: 3
Prerequisites: JOURN 4200, JOURN 4204, JOURN 4952

JOURN 4250: Management of Strategic Communication
(cross-leveled with JOURN 7250). How to lead and contribute to strategically sound, highly creative and seamlessly integrated strategic communication on the agency or client side of the business. Directly relevant to agency account management and account planning, as well as client career paths.

Credit Hours: 3
Prerequisites: Consent of Instructor required

JOURN 4252: Branded Strategic Storytelling
(cross-leveled with JOURN 7252). This course for Strategic Communication students integrates digital and content marketing planning and operational methodologies designed to deepen students' knowledge of content creation, distribution strategies and audience engagement. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4200, JOURN 4204 and JOURN 4952

JOURN 4254: Tools, Techniques and Technology of Visual Storytelling
(cross-leveled with JOURN 7254). In this course, students will learn how to professionally shoot and strategically edit video, visuals and textual content, strategize how to publish that content on owned media and social media platforms, utilize tools like GoPro and Drone technology, and even VR/AR and 360 attachments to make content that is more immersive, influential, impactful and persuasive. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4200, JOURN 4204, JOURN 4952

JOURN 4256: Public Relations
Current methods of communicating with constituents as practiced by agencies, corporations and government/not-for profit organizations.

Credit Hours: 3
Prerequisites: JOURN 4200, JOURN 4204, and JOURN 4952

JOURN 4256H: Public Relations - Honors
Current methods of communicating with constituents as practiced by agencies, corporations and government/not-for profit organizations. Honors eligibility required

Credit Hours: 3
Prerequisites: JOURN 4200, JOURN 4204 and JOURN 4952

JOURN 4262: Digital Strategy I
(cross-leveled with JOURN 7262). Course covers every step from integrating Internet efforts into the overall strategic communication plan to building a website that works. Designed for those with an interest in interactive advertising. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4200, JOURN 4204, and JOURN 4952

JOURN 4263: Digital Strategy II
(cross-leveled with JOURN 7263). Course goes in-depth on top issues in the interactive process from video advertising to social networking sites and how to increase campaign performance with web analytics. Designed
for those who want a career in interactive advertising. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** JOURN 4262

---

**JOURN 4268: Strategic Communication Practicum**  
(cross-leveled with JOURN 7268). Practical experience in public relations, corporate communications and strategic planning with the Missouri School of Journalism serving as client. Students from all journalism disciplines will apply knowledge and skills on a variety of platforms.

**Credit Hours:** 3  
**Prerequisites:** JOURN 4200, JOURN 4204 and JOURN 4952

---

**JOURN 4270: Public Relations Writing**  
(cross-leveled with JOURN 7270). Develop skills and capabilities in strategic communication applications, including news releases, media advisories, pitch letters, video news releases, media relations techniques, writing for electronic and broadcast media, feature writing, brochures and speeches. Graded on A-F basis.

**Credit Hours:** 3  
**Prerequisites:** Consent of instructor

---

Independent research arranged with individual faculty member. Contract must be approved by instructor and dean. Not accepted as a substitute for any regularly scheduled course. Some sections of the course may be offered on either A-F graded or S/U graded basis only.
Credit Hour: 1-3
Prerequisites: Consent of instructor required

JOURN 4350W: Problems in Journalism - Writing Intensive
Independent research arranged with individual faculty member. Contract must be approved by instructor and dean. Not accepted as a substitute for any regularly scheduled course. Some sections of the course may be offered on either A-F graded or S/U graded basis only.
Credit Hour: 1-3
Prerequisites: Consent of instructor required

JOURN 4360: Fundamentals of Design
(cross-leveled with JOURN 7360). This is a beginning course in editorial design. We will study design history and learn basic design principles and concepts in both print and digital platforms. You will be introduced to software programs such as InDesign, Photoshop and Illustrator, as well as basic HTML coding.
Credit Hours: 2
Prerequisites: Consent of instructor required
Recommended: JOURN 2100 or JOURN 2150

JOURN 4370: Film Studies: The Intersections of Documentary Film and Journalism
(same as FILMS_VS 4370; cross-leveled with FILMS_VS 7370, JOURN 7370). The popularity of documentary film in the past ten years has skyrocketed, and recent award-winning documentaries such as Inside Job (2010), Blackfish (2013), and The Invisible War (2012) are simultaneously entertaining audiences and investigating serious issues like the financial collapse, killer whale captivity, and sex crimes in the military—issues that in the past might have been covered exclusively by investigative journalism. What explains the public's growing fascination with documentary? How is documentary film reacting to recent transformations in the media landscape? Is it filling a critical need that journalism is no longer willing or able to meet? This course will explore the intersection of these two nonfiction storytelling forms—documentary film and journalism—and examine the role played by advocacy in both modes, as well as the cultural and ethical implications of the convergence between journalism and documentary film. In that it is centered on contemporary documentary film culture, the course also takes advantage of the True/False Film Festival, and will be host to a conference during Week 6, featuring a number of major visiting filmmakers and film critics. Attendance at some sessions is required. Graded on A-F basis only.
Credit Hours: 3

JOURN 4371: Documentary Theory
(cross-leveled with JOURN 7371). Documentary and other long-form story telling methods involve a complex series of decisions made in the creation of the work that determines its style, length, direction, point of view and more. These and a thousand other editing decisions are the difference between a successful project that touches its audience and one that falls short. The focus of this course is on the craft of editing, as seen in a variety of documentary and other works and explored through the decisions made in and out of the editing room that lead to the final product. The course will introduce important concepts of editing, the work of significant editors in both documentary and narrative fiction films, and seek to apply those techniques to the conceptualization of documentary work students will do as part of their degree. Students will understand the history of documentary editing as it evolved on its own and as influenced by narrative fiction films, the language of editing, the work of important editors and directors and how it influences today's aesthetic and how to apply what they have learned to their own documentary projects at an advanced level. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Consent of instructor required

JOURN 4372: Documentary Reporting
(cross-leveled with JOURN 7372). Students will learn elementary documentary reporting techniques by producing video and audio content in small group and individual projects. The course focuses on collection of content in the field, interviewing, research, story construction, editing and presentation. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Instructor consent

JOURN 4373: Documentary Development
(cross-leveled with JOURN 7373). This course will concern itself primarily with the formation of projects: from theories behind different kinds of documentaries, through real world investigations and research into possible projects, into the pitching and writing stage and lastly to the final idea that will be the basis of students' senior films. The ability to properly think of, clearly articulate, pitch and hone a project idea often makes the difference between a successful and unsuccessful final film. Still these ideas don't materialize out of thin air; inspiration for great documentaries can come from many places. Understanding how to seize viable project
ideas is a crucial skill for a documentary filmmaker. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4371

JOURN 4375: Documentary Business and the Public Sphere
(cross-leveled with JOURN 7375). Whether it be through contract employment, freelancing, or independent production, creating documentaries requires a knowledge of professional and business practices that differ from many other parts of journalism. The course will introduce important concepts related to the development and production of documentary work, as well as the public distribution of that work. Students will research the industry and develop skills to manage business and professional relationships with the documentary world. Students will build and maintain personal branding materials. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: JOURN 4564

JOURN 4377: Documentary Senior Project
Students in this course will begin work on a yearlong documentary project to be the capstone of their work in the documentary journalism program. This course will concentrate on the research, reporting and field acquisition work for the senior documentary project. Students will show and discuss their work in group settings to share progress and report results. Each will also meet individually with the instructor to fine tune the direction and content of the project. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: JOURN 4375

JOURN 4379W: Documentary Senior Capstone - Writing Intensive
Focus on the completion of a long-form documentary work and its place in current documentary programming. Students will apply knowledge from previous documentary courses in this capstone experience through writing, in-class presentations and their finished work.

Credit Hours: 3
Prerequisites: JOURN 4377

JOURN 4400: Introduction to News Editing
(cross-leveled with JOURN 7400). Introduces the fundamentals of editing stories and writing headlines for publication online and in print, including an emphasis on style and grammar. Emphasized editing for an online audience.

Credit Hour: 1-2
Prerequisites: Consent of instructor required
Recommended: JOURN 4450 or JOURN 4804

JOURN 4406: Digital News Editing
(cross-leveled with JOURN 7406). Real-world experience in digital editing and news decision-making coupled with newspaper production; emphasis on editing and headline writing across platforms, design for home page and mobile, social media, ethics and fundamentals of grammar. Lab work is hands-on experience at columbiamissourian.com and the Missourian newspaper.

Credit Hours: 3

JOURN 4408: Magazine Editing
(cross-leveled with JOURN 7408). Lectures provide an introduction to the magazine industry, including types of publications, roles of an editor and skills needed for today's magazine editor. Labs focus heavily on sentence structure, grammar, syntax, usage, punctuation and style.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4450 or JOURN 4804

JOURN 4410: Intermediate Writing
(cross-leveled with JOURN 7410). In-depth reporting, research, and writing techniques with a magazine focus. Students produce articles for Vox, the Missourian and other magazines, publications or digital outlets.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4450 or JOURN 4804

JOURN 4410W: Intermediate Writing - Writing Intensive
(cross-leveled with JOURN 7410). In-depth reporting, research, and writing techniques with a magazine focus. Students produce articles for Vox, the Missourian and other magazines, publications or digital outlets.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4450 or JOURN 4804

JOURN 4414: Field Reporting on the Food System and Environment
(same as AGSC_COM 4414; cross-leveled with JOURN 7414, AGSC_COM 7414). Field reporting on the social, political, scientific, economic and ethical dimensions of the food system and environment, with emphasis on explanatory story-telling. Includes multi-day field trip. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Consent of instructor required

JOURN 4415: Current Issues in Science Journalism
(same as AGSC_COM 4415). Focuses on covering the interplay of one or more current issues of concern to journalists, scientists and society. The focus for any given semester may be biotechnology, climate change, energy, food safety, global population growth, wildlife or another issue. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 2100 or instructor's consent

JOURN 4416: Science, Health and Environmental Writing
(cross-leveled with JOURN 7416). In this course students learn how to cover science, health and environmental topics by reporting and writing several stories for publication. Students can develop a marketable specialty or cover these angles in any beat. This course can serve as a substitute for JOURN 4410 Intermediate Writing.

Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 4804 or JOURN 4206 or JOURN 4300 or JOURN 4372
JOURN 4416W: Science, Health and Environmental Writing - Writing Intensive
(cross-leveled with JOURN 7416). In this course students learn how to cover science, health and environmental topics by reporting and writing several stories for publication. Students can develop a marketable specialty or cover these angles in any beat. This course can serve as a substitute for JOURN 4410 Intermediate Writing.

Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 4804 or JOURN 4206 or JOURN 4300 or JOURN 4372

JOURN 4418: Critical Reviewing
(cross-leveled with JOURN 7418). This course seeks to enrich students' understanding of the arts; support their attendance of concerts, plays, films, and exhibitions; sharpen their skills in critical thinking; and encourage the publication of their reviews in Vox as well as other outlets. Students will analyze the works of critics, gain a general appreciation of the ways to approach each art, and write reviews.

Credit Hours: 3
Prerequisites: JOURN _0900 or JOURN 2100. Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4418W: Critical Reviewing - Writing Intensive
(cross-leveled with JOURN 7418). This course seeks to enrich students' understanding of the arts; support their attendance of concerts, plays, films, and exhibitions; sharpen their skills in critical thinking; and encourage the publication of their reviews in Vox as well as other outlets. Students will analyze the works of critics, gain a general appreciation of the ways to approach each art, and write reviews.

Credit Hours: 3
Prerequisites: JOURN _0900 or JOURN 2100. Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4420: Editorial Writing

Credit Hours: 3
Prerequisites: JOURN 4450. Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4422: Sports Journalism
(cross-leveled with JOURN 7422). A review of everything from 'how to watch Sports' to the history of sports writing. Contact instructor for consent on this course. Priority will be given to Sports Journalism students. All other consent will be given on a first-come, first-serve basis as space allows. Course graded on A-F basis only.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4450/JOURN 7450 or JOURN 4804/JOURN 7804 or JOURN 4306/JOURN 7306 or JOURN 4560/JOURN 7560.

JOURN 4424: Covering Traumatic Events
(cross-leveled with JOURN 7424). This course will prepare reporters and future newsroom managers across platforms for the ethical, practical and emotional challenges of reporting accurately and sensitively on traumatic events. It will give students a deeper understanding of the psychological impact of such events, including natural and man-made disasters, violent crime, accidents, terrorism and war. The course will explore how news coverage affects individuals and communities, and the psychological challenges and ethical hazards for the journalists who cover these events, with a focus on best newsroom practices for managing fast-breaking news stories and mitigating the effects on communities and staffs. The course will also explore the challenges of technology in the context of traumatic events and how social media have affected coverage of and response to crime, war and disasters. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 7450; JOURN 4804 or JOURN 7804; or JOURN 4560 or JOURN 7560

JOURN 4426: Religion Reporting and Writing
(same as REL_ST 4418; cross-leveled with JOURN 7426, REL_ST 7418). Advanced seminar in religion reporting and writing. Examines the role of religion journalism in faith, public life and culture.

Credit Hours: 3
Prerequisites: Consent of Instructor required. Recommended JOURN 4450 or JOURN 4804

JOURN 4428: Health Reporting Skills
This course focuses on research and analysis techniques journalists use to understand and report on health policy, health-care quality, medical research and the business of health care. Graded on A-F basis only.

Credit Hour: 2-3
Prerequisites: Consents of Instructor required. Recommended JOURN 4450 or JOURN 4804

JOURN 4430: Computer-Assisted Reporting
(cross-leveled with JOURN 7430). How to negotiate for, transfer and process electronic information; the unique opportunities computers provide for analyzing information.

Credit Hours: 3
Prerequisites: Students must have completed JOURN 4306 or 4450 or 4804

JOURN 4432: Advanced Data Journalism
(cross-leveled with JOURN 7432). Teaches students how to creatively solve problems in journalism using computer programming. Students will learn how to code using the Python language, and how to apply those coding skills to perform real-world tasks. Students will learn the concepts, theory and practical programming skills needed to clean data, scrape web sites and turn databases into interactive online experiences. By the end of the semester, students will have learned the skills to create interactive database presentations, and will have created a functional web app that will serve as a portfolio piece. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Consent of Instructor required
Recommended: JOURN 4502
JOURN 4434: The Art and Mechanics of the Business Story (cross-leveled with JOURN 7434). The purpose of this course is to give students a deep understanding of business journalism and for them to apply those skills in a real newsroom, Missouri Business Alert. The class will cover everything from audience to financials, and students will leave the class with several work samples to show potential employers.

Credit Hours: 3
Prerequisites: Journalism and Science and Agricultural Journalism majors only; JOURN 4450 or JOURN 7450, or JOURN 4306 or JOURN 7306, or JOURN 4804 or JOURN 7804, or JOURN 4556 or JOURN 7556

JOURN 4436: Investigative Reporting (cross-leveled with JOURN 7436). Advanced course designed to acquaint reporters with public issues. Students write two in-depth projects and other shorter assignments. Students meet weekly with instructor for editorial suggestions.

Credit Hours: 3
Prerequisites: Consent of instructor required

JOURN 4438: Business, Financial and Economic Journalism (cross-leveled with JOURN 7438). Understanding the news from the business sector and nation's economy for journalists and public relations students. Including financial filings, equity markets, local business, economic indicators, job creation, business data, sports business and what makes business/economic news different from other journalism. Includes tour of business journalism outlets and markets in New York. Open to all journalism school emphasis areas.

Credit Hours: 3
Prerequisites: Restricted to Journalism and Agricultural Journalism majors

JOURN 4439: Advanced Business Journalism (cross-leveled with JOURN 7439). This class requires students to write business stories every week and to attain a high level of financial literacy in the process. The class will cover topics behind the headlines, showing students how to spot economic trends, the stories behind the economy's main actors, and the keys to spotting a troubled business. By the end of the class, all students will be certified users of the Bloomberg Terminal. To take this course, students must enroll in one of the two attached accounting classes (grad or undergrad). Both are offered online. Prerequisites: Students must have taken or take concurrently with this course: ACCTCY 2010 or ACCTCY 7310 Accounting for Managers.

Credit Hour: 1-3

JOURN 4444: Team-Based Mobile Device Application Development
This is a multi-disciplinary, team-based course on developing applications for mobile devices. Teams will be comprised of students who are software developers and students who are designers. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4804 or JOURN 4204 or JOURN 4306 or JOURN 4450

JOURN 4448: Public Service Journalism: Covering State Government (cross-leveled with JOURN 7448). One of the most important roles journalism plays in society is holding the powerful accountable and keeping the public informed about what those in charge are doing. Covering state government allows journalists to do both of these things. This course gives you the background you need to provide effective government coverage, and gives you hands-on experience.

Credit Hour: 1-3
Prerequisites: Instructor consent in consultation with the respective faculty groups

JOURN 4450: News Reporting (cross-leveled with JOURN 7450). Assignments on a daily city newspaper covering community news, city, county and state affairs, sports and lifestyle issues. Experience in gathering and writing news, writing under deadline conditions.

Credit Hours: 3
Prerequisites: JOURN 2100

JOURN 4450W: News Reporting - Writing Intensive (cross-leveled with JOURN 7450). Assignments on a daily city newspaper covering community news, city, county and state affairs, sports and lifestyle issues. Experience in gathering and writing news, writing under deadline conditions.

Credit Hours: 3
Prerequisites: JOURN 4450

JOURN 4460: Advanced News Reporting (cross-leveled with JOURN 7460). Assignments to more difficult beat areas, team reporting and some investigative reporting for community newspaper. Individual conferences and weekly class sessions on contemporary reporting problems.

Credit Hours: 3
Prerequisites: JOURN 4450

JOURN 4460W: Advanced News Reporting - Writing Intensive (cross-leveled with JOURN 7460). Assignments to more difficult beat areas, team reporting and some investigative reporting for community newspaper. Individual conferences and weekly class sessions on contemporary reporting problems.

Credit Hours: 3
Prerequisites: JOURN 4450

JOURN 4462: Emerging Technologies in Journalism (cross-leveled with JOURN 7462). This course quickly responds to technology developments in journalism through a combination of theory, practice and research. Students learn to use the developing technology and also strategies to manage its impact on media organizations while expanding academic discourse. May be repeated for credit. Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites: junior standing; restricted to Journalism and Science and Agricultural Journalism students only
JOURN 4464: Magazines Across Platforms
(cross-leveled with JOURN 7464). As digital editors for Vox Magazine, students manage and create content for Vox's digital platforms, including its WordPress website, blog, social media accounts and award-winning iPad app. Students also work with analytics, engagement and multimedia. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4450 or JOURN 4804

JOURN 4480: Will Write for Food (and Wine)
(same as AGSC_COM 4480; cross-leveled with JOURN 7480). Course focuses on food and wine writing in current U.S. culture. Come ready to create mouthwatering narrative and actively seek publishing your finished work. An emphasis will be placed on class participation and written critiques of peer-reviewed articles in class. This course can serve as a substitute for JOURN 4410 Intermediate Writing. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4450 or JOURN 4804

JOURN 4480W: Will Write for Food (and Wine) - Writing Intensive
(same as AGSC_COM 4480; cross-leveled with JOURN 7480). Course focuses on food and wine writing in current U.S. culture. Come ready to create mouthwatering narrative and actively seek publishing your finished work. An emphasis will be placed on class participation and written critiques of peer-reviewed articles in class. This course can serve as a substitute for JOURN 4410 Intermediate Writing. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4450 or JOURN 4804

JOURN 4482: Field Reporting: Wine Country Writing
(same as AGSC_COM 4482). Students will examine wine culture, agricultural issues in the vineyard, wine trends, the historical context of wine and Missouri settlement, and more. Come ready to shape articles into sharp focus and make them fresh with input from fellow student critiques. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 2100

JOURN 4482W: Field Reporting: Wine Country Writing - Writing Intensive
(same as AGSC_COM 4482W). Students will examine wine culture, agricultural issues in the vineyard, wine trends, the historical context of wine and Missouri settlement, and more. Come ready to shape articles into sharp focus and make them fresh with input from fellow student critiques. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 2100

JOURN 4500: Publication Design
(cross-leveled with JOURN 7500). Intermediate design techniques and theories of editorial design. Students apply classroom teachings by designing pages for the Columbia Missourian and Vox Magazine. Students work under deadline and learn attention-to-detail through use and execution of design style guides.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4360

JOURN 4502: Multimedia Planning and Design
(cross-leveled with JOURN 7502). Class covers the basics of web design - Storyboarding, navigation, information architecture, reader behavior, usability studies - as they relate to journalistic stories and persuasive messages.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: Completion of one of the following--JOURN 4804 or JOURN 4508 or JOURN 4406 or JOURN 4506 or JOURN 4204 or JOURN 4306 or JOURN 4450 or JOURN 4560

JOURN 4505: Magazine Design
Introduction to typography of magazines from manuscript markup through layout to page proof. Extensions and limitations of typography are considered in light of current practice and economic possibilities.

Credit Hours: 3
Prerequisites: Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4507: Information Graphics
(cross-leveled with JOURN 7507)Work as a news artist for a daily city newspaper graphically covering community news, sports and lifestyle issues. Emphasis on visual thinking and effective presentation. Experience with state-of-the-art software.

Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 4804

JOURN 4510: Visual Communication
How to communicate through pictures. Topics: visual perception, vocabulary, the role of words, picture editing, design and layout, printers, taste and judgment, camera mechanics. For journalism students who are not photographers.

Credit Hours: 3
Prerequisites: Restricted to Journalism and Science and Agricultural Journalism majors only with Junior standing

JOURN 4550: Basic Photography and Photo Editing
(cross-leveled with JOURN 7550). A basic survey for non-photojournalism majors and others with no prior experience who desire a working knowledge of photojournalistic theory and practice.

Credit Hours: 3
Prerequisites: instructor's consent. Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4554: Visual Editing for Multimedia
(cross-leveled with JOURN 7554). This class develops understanding of multimedia storytelling by focusing on editing, production, and business model practices for online visual journalism. It builds on a foundation...
of digital editing, photojournalism, photo editing, videography, and multimedia production. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4804 or JOURN 4550 or JOURN 4306 or JOURN 4406 or JOURN 4506 and instructor's consent; restricted to Journalism and Science and Agricultural Journalism students only

JOURN 4556: Fundamentals of Photojournalism
(cross-leveled with JOURN 7556). A rigorous skills course for advanced students preparing for a career in photojournalism consisting of weekly exercises in black and white and color photographic story telling and lectures that explore the philosophical, historical and ethical roots of the profession.

Credit Hours: 3
Prerequisites: instructor's consent

JOURN 4556W: Fundamentals of Photojournalism - Writing Intensive
(cross-leveled with JOURN 7556). A rigorous skills course for advanced students preparing for a career in photojournalism consisting of weekly exercises in black and white and color photographic story telling and lectures that explore the philosophical, historical and ethical roots of the profession.

Credit Hours: 3
Prerequisites: instructor's consent

JOURN 4558: Advanced Techniques in Photojournalism

Credit Hours: 3
Prerequisites: JOURN 4556

JOURN 4560: Staff Photojournalism
(cross-leveled with JOURN 7560). A laboratory course exploring the photojournalist's role in the news-gathering process. As staffers for the Columbia Missourian, students cover news, sports, features, food assignments and originate single pictures and stories.

Credit Hours: 3
Prerequisites: Consent of Instructor Required
Recommended: JOURN 4558

JOURN 4562: Photojournalism Business Practices
(cross-leveled with JOURN 7562). Discusses legal, financial, organizational and entrepreneurial issues for photojournalists. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4558 or JOURN 7558 and JOURN 4566 or JOURN 7566 or consent of instructor; junior standing; restricted to Journalism and Science and Agricultural Journalism students only

JOURN 4564: Micro-Documentary Photojournalism and Videography
(cross-leveled with JOURN 7564). This course extends student's understanding and abilities to produce short-form video journalism. They will produce, from concepts to web publication, two five-minute non-fiction videos that serves the public through engaging visual sound techniques and compelling narrative. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4558 or JOURN 4306 or JOURN 4804

JOURN 4566: Electronic Photojournalism
(cross-leveled with JOURN 7566). Concepts and skills to incorporate photographs, audio and video for interactive presentation, with an emphasis on project design and coding for web and mobile devices. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4556 and instructor's consent

JOURN 4568: History of Photojournalism
(cross-leveled with JOURN 7568). Examination of the aesthetic and technological development of photography from its invention in 1839 to the present. Primary emphasis on the evolution and impact of the picture press and the documentary tradition in America, although international developments are studied as well.

Credit Hours: 3
Prerequisites: Journalism and Science and Agricultural Journalism majors only with Junior standing

JOURN 4568W: History of Photojournalism - Writing Intensive
(cross-leveled with JOURN 7568). Examination of the aesthetic and technological development of photography from its invention in 1839 to the present. Primary emphasis on the evolution and impact of the picture press and the documentary tradition in America, although international developments are studied as well.

Credit Hours: 3
Prerequisites: Journalism and Science and Agricultural Journalism majors only with Junior standing

JOURN 4650: International Issues and the Media
(cross-leveled with JOURN 7650). Attached to an internship-based journalism study abroad program, this course is an overview of the media in a geographic region. The course aims to enhance students' research, writing, reporting and analytical skills so that they can produce articles, multimedia products and communications campaigns.

Credit Hours: 3
Prerequisites: JOURN 4556 or JOURN 4450 or JOURN 4804 or JOURN 4300 or JOURN 4200

JOURN 4656: International News Media Systems
A comparative survey of current news media systems and how they affect the international flow of information. Newspapers, news agencies, broadcasting and satellite networks of the world are analyzed.

Credit Hours: 3
Prerequisites: junior standing in Journalism or Science and Agricultural Journalism

JOURN 4658: International Journalism
(cross-leveled with JOURN 7658). An examination of the gathering, editing and dissemination of international news. The impact of social,
economic, cultural and political structures on news media performance is evaluated.

Credit Hours: 3
Prerequisites: junior standing. Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4660: Media Forces Shaping the European Union
(cross-leveled with JOURN 7660). Seminar analyzes the role of media in shaping policies and actions of the European Union member nations and their people. Open to graduate students regardless of major and to undergraduates with instructor’s consent. Course qualifies for EU Certificate Program.

Credit Hours: 3
Prerequisites: Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4662: Global News Across Platforms
(cross-leveled with JOURN 7662). Online, radio, and print production for a converged media enterprise, Global Journalist. Students report, write, plan, edit, design, and produce a video and radio program and website on international news while working under weekly deadlines.

Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 4804 or JOURN 4300 or JOURN 4372 or JOURN 4564

JOURN 4700: Engaged Journalism
(cross-leveled with JOURN 7700). An examination of how information is shared outside professional journalism, and how journalists can interact with communities. Topics will include community collaboration, social media, audience outreach and understanding, and an expanding definition of ‘news’. Students will work with the community on behalf of the Missourian. All interest areas welcome.

Credit Hour: 1-3
Prerequisites: JOURN 4450 or JOURN 4804 or JOURN 4300 or JOURN 4206 or JOURN 4560

JOURN 4706: The Community Newspaper
(cross-leveled with JOURN 7706). The role of the newspaper in the community. Handling of news categories especially applicable to smaller newspaper. Field trips giving students experience in publishing newspapers in the state.

Credit Hours: 3
Prerequisites: JOURN 2100. Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4710: Newspaper Management
(cross-leveled with JOURN 7710). Department-by-department organization, business practices, personnel, rate structures, equipment, production, laws and regulations of concern to newspaper management. Cases examine critical newspaper management issues.

Credit Hours: 3
Prerequisites: Journalism and Science and Agricultural Journalism majors with Junior standing

JOURN 4716: Women and the Media
(same as WGST 4716; cross-leveled with JOURN 7716, WGST 7716). Focus on portrayal of women in American mass media. Other goals: historical perspective on women as journalists; exposure to issues usually not covered by mass media; research and writing skills. Enrollment limited to Journalism and Science and Agricultural Journalism majors only with junior standing required.

Credit Hours: 3
Prerequisites: instructor’s consent

JOURN 4718: Law and the Justice System
(cross-leveled with JOURN 7718). Lectures, readings, discussions, writing assignments relating to justice system reporting from the view of attorneys, prosecutors, judges, correction and probation officers with the cooperation of the Missouri Bar.

Credit Hours: 3
Prerequisites: Consent of instructor required

JOURN 4734: Journalism and Chaos: How to Understand and Cover 21st Century Business Models
(cross-leveled with JOURN 7734). The purpose of this class is to explore alternative business/journalism models that can be grown from the rib of the traditional newsroom. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Junior Standing. Restricted to Journalism and Science and Agricultural Journalism students only

JOURN 4736: Changing Media Business Models
Analysis of the economic changes in news media industry. Explore concepts and theories of monetizing media. Hands-on experience in creating innovations in media business models.

Credit Hours: 3
Prerequisites: Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4738: Language, Thought and Journalism
This online course helps you, as S.I. Hayakawa wrote, ‘to think more clearly, to speak and to write more effectively, and to listen and to read with greater understanding.’ It explores the biases and limitations of language, culture, technology and other factors as applied to the practice of journalism and mass communications.

Credit Hours: 3
Prerequisites: Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4804: Convergence Reporting
(cross-leveled with JOURN 7804). Practice and theory of reporting for converged media. Students produce multimedia reports for traditional and converged media operations. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Convergence, Print and Digital, Photojournalism, and Magazine students, and Science and Agricultural Journalism students
JOURN 4804W: Convergence Reporting - Writing Intensive  
(cross-leveled with JOURN 7804). Practice and theory of reporting for converged media. Students produce multimedia reports for traditional and converged media operations. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: Restricted to Convergence, Print and Digital, Photojournalism, and Magazine students, and Science and Agricultural Journalism students

JOURN 4806: Convergence Editing and Producing  
(cross-leveled with JOURN 7806). Practice and theory of editing and producing material for publication or broadcast in a converged environment. Students produce media for multiple outlets. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: JOURN 4306 or JOURN 4804 or JOURN 4450

JOURN 4810: National News Writing and Production  
(cross-leveled with JOURN 7810). Learn updated storytelling and video-production techniques on-site at Newsy, a next generation news network. You will work weekly shifts throughout the semester, culminating in the production of your own portfolio and mock interviews with hiring managers. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: instructor consent required

JOURN 4812: Online Audience Development  
(cross-leveled with JOURN 7812). You’re already using social media every day - but are you using it in the most effective way possible? In Online Audience Development students will explore, envision and evaluate the possibilities of social media integration in news production workflows. We’ll experiment with emerging social platforms to see how they might fit in a newsroom’s social media and branding playbook. You will also exercise, develop and improve on all the journalism skills practiced in previous classes: researching, reporting, editing, producing, proofreading, photo editing and design. The big difference? This time you’ll be reporting on our newsrooms in order to help create deeper connections with the audience. Graded on A/F basis only.  
Credit Hours: 3  
Prerequisites: JOURN 4560 or JOURN 4804 or JOURN 4306 or JOURN 4450 or instructor consent. Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4814: Multimedia Sports Journalism  
(cross-leveled with JOURN 7814). Assignments on a daily regional website and radio station covering sports with converged media. Experience in reporting game and feature stories under deadline conditions. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: Instructor's consent required

JOURN 4900: Internship in Journalism  
Credit for approved employment in journalism. Specifications for this course appear in the Undergraduate Catalog. Graded on S/U basis only.  
Credit Hour: 1-6  
Prerequisites: Consent from internship coordinator required

JOURN 4950: Understanding Audiences  
Focuses on the recipients of journalistic efforts by teaching students to identify, analyze and address media audiences. Students will learn a variety of research methods and gain hands-on experience with audience analysis through team-based practical projects.  
Credit Hours: 3  
Prerequisites: JOURN 2000 and junior standing. Strategic Communication students may not enroll in this entry level research course

JOURN 4952: Strategic Communication Research I  
(cross-leveled with JOURN 7952). Introduction to techniques and practice of strategic communication research. Emphasis on research techniques and use of research results, including consumer analysis, attitude measurement and evaluation of externally supplied research.  
Credit Hours: 3  
Prerequisites: Restricted to Strategic Communication and Science and Agricultural Journalism Majors

JOURN 4970: Strategic Campaigns  
(cross-leveled with JOURN 7970). This capstone course, gives students a hands-on opportunity to use their skills and apply strategic communication learning to a real client situation. To be taken final semester. Application required for Mojo Ad section and will include additional leadership responsibilities.  
Credit Hours: 3  
Prerequisites: Consent of Instructor required

JOURN 4970W: Strategic Campaigns - Writing Intensive  
(cross-leveled with JOURN 7970). This capstone course, gives students a hands-on opportunity to use their skills and apply strategic communication learning to a real client situation. To be taken final semester. Application required for Mojo Ad section and will include additional leadership responsibilities.  
Credit Hours: 3  
Prerequisites: Consent of Instructor required

JOURN 4972: Photo and Visual Editing  
(cross-leveled with JOURN 7972). An advanced visual editing course. Primary work is as a photo/multimedia editor on the Columbia Missourian photo desk. You collaborate on daily and semester projects and are assigned specific leadership roles.  
Credit Hours: 3  
Prerequisites: JOURN 4408 or JOURN 4204 or JOURN 4500 or JOURN 4560

JOURN 4974: Advanced Internet Applications for Radio/TV News  
(cross-leveled with JOURN 7974). Integration of advanced Internet research and publishing skills with production and management of the KOMU-TV/KBIA Radio World Wide Web news service.  
Credit Hours: 3  
Prerequisites: JOURN 4306
JOURN 4976: Seminar in Radio/TV News  
(cross-leveled with JOURN 7976). Seminar in network and local news process, in coverage of major issues and social problems, in relationships of radio-TV news and government institutions.  
Prerequisites: Consent of instructor required  
Credit Hours: 3

JOURN 4978: Media Management and Leadership  
(cross-leveled with JOURN 7978). Dramatic changes in technology and the media’s role in converging technologies require new management and leadership techniques and paradigms. Students will write case examining these changes.  
Prerequisites: JOURN 4306 or JOURN 4804. Restricted to Journalism and Science and Agricultural Journalism majors only  
Credit Hours: 3

JOURN 4980: The Picture Story and Photographic Essay  
(cross-leveled with JOURN 7980). Production of photo stories/essays for newspapers, magazines and news media presentations. Research, photography, design and layout. Final portfolio will show journalistic strength and versatility in black and white, and color.  
Prerequisites: JOURN 4560

JOURN 4984: Magazine Staff  
(cross-leveled with JOURN 7984). This course provides hands-on experience serving as an editor on a magazine staff. Students are department editors for Vox Magazine and learn how to take a story from an idea through story creation and production and to the printed page, as well as best practices for executing that idea across multiple platforms. Students learn about pitching, working with writers, designers and photographers, editing for content and style, successful story packaging and team collaboration.  
Prerequisites: Consent of instructor required  
Recommended: JOURN 4408 and JOURN 4410 or JOURN 4412 or JOURN 4416 or JOURN 4480  
Credit Hours: 3

JOURN 4986: Advanced Writing  
(cross-leveled with JOURN 7986). This course builds on the in-depth, reporting, research, and writing techniques of Intermediate Writing and other writing and reporting classes. It is designed for those who wish to pursue writing as a career. Students complete writing assignments and analyze the work of well-known magazine and book authors.  
Prerequisites: Consent of instructor required  
Recommended: JOURN 4410 or JOURN 4412 or JOURN 4416 or JOURN 4480  
Credit Hours: 3

JOURN 4986W: Advanced Writing - Writing Intensive  
(cross-leveled with JOURN 7986). This course builds on the in-depth, reporting, research, and writing techniques of Intermediate Writing and other writing and reporting classes. It is designed for those who wish to pursue writing as a career. Students complete writing assignments and analyze the work of well-known magazine and book authors.  
Prerequisites: Consent of instructor required  
Recommended: JOURN 4410 or JOURN 4412 or JOURN 4416 or JOURN 4480  
Credit Hours: 3

JOURN 4988W: Advanced Publication Design  
(cross-leveled with JOURN 7988). Project-based capstone in which skills learned in previous courses are applied to professional-level design challenges, such as feature, cover or iPad designs; multimedia prototypes; special editions; or other applications for Vox Magazine, Columbia Missourian, or other outlets.  
Prerequisites: Consent of instructor required  
Recommended: JOURN 4500  
Credit Hours: 3

JOURN 4990W: Journalism and Democracy - Writing Intensive  
This course seeks to cultivate critical-thinking skills by helping students synthesize and apply knowledge gained from a journalism education to the evaluation of news media performance in a democratic society.  
Prerequisites: Consent of instructor required  
Recommended: JOURN 4450  
Credit Hours: 3

JOURN 4992: Innovation and Audience Outreach in Converged Media  
(cross-leveled with JOURN 7992). Capstone course brings together the reporting, editing, audience focus, management and marketing skills gained in previous journalism courses. Students evaluate audiences and sustainability for journalistic content, applications, products and experiences and plan, produce and promote internal and external projects. Graded on A-F basis only.  
Prerequisites: Consent of instructor required  
Credit Hours: 3

JOURN 4992W: Innovation and Audience Outreach in Converged Media - Writing Intensive  
(cross-leveled with JOURN 7992). Capstone course brings together the reporting, editing, audience focus, management and marketing skills gained in previous journalism courses. Students evaluate audiences and sustainability for journalistic content, applications, products and experiences and plan, produce and promote internal and external projects. Graded on A-F basis only.  
Prerequisites: Consent of instructor required  
Credit Hours: 3
and sustainability for journalistic content, applications, products and experiences and plan, produce and promote internal and external projects. Graded on A-F basis only.

**Credit Hours:** 3
**Prerequisites:** Consent of instructor required

---

**JOURN 4994: Magazine Publishing**
(cross-leveled with JOURN 7994). This capstone experience explores key components and recent trends in the magazine industry. The primary focus is creating a magazine prototype that includes conceptualizing ideas and editorial for new titles, as well as business plans for advertising, circulation, finance and production. The course follows a nuts and bolts, learn-by-doing approach to how these components work together and influence one another. Graded on A-F basis only.

**Credit Hours:** 3
**Prerequisites:** JOURN 4408 and either JOURN 4410 or equivalent, or JOURN 4360 or 4500. Restricted to Journalism and Science and Agricultural Journalism majors only

---

**JOURN 7000: Communications Law**
Legal concepts, including prior restraint, libel, privacy, obscenity, contempt and access as they relate to print, broadcast, advertising and other areas.

**Credit Hours:** 3

---

**JOURN 7050: Communications Practice**
Special instruction in the school's media as an extension of existing advanced media courses, or, in advertising, an extension of advertising creative courses. Contract must be approved by instructor and dean. Some sections of the course may be offered on either A-F or S/U graded basis only.

**Credit Hour:** 1-3
**Prerequisites:** Study Abroad sections require consent by International Program. Obtain consent in 76 Gannett

---

**JOURN 7122: Fundamentals of Data Reporting**
(cross-leveled with JOURN 4122). Explores the importance to journalists of mining public records and data; reviews basic newsroom mathematics; teaches basic techniques for using Microsoft Excel to create and manipulate spreadsheets and to produce graphics. Graded on A-F basis only. This course is not to be taken by students who have already completed JOURN 4430 or JOURN 7430. Restricted to Graduate Journalism students.

**Credit Hour:** 1
**Prerequisites:** Consent of instructor required

---

**JOURN 7126: Digital Audio and Visual Basics for Journalists**
(cross-leveled with JOURN 4126). Introduces journalism students to audio and video tools used in converged environments. Students will create news stories, ads or promos to meet journalistic or strategic communication goals. Graded on S/U basis only.

**Credit Hour:** 1

---

**JOURN 7130: Account Services**
(cross-leveled with JOURN 4130). Designed for advanced strategic communication students preparing for careers in account services. Section topics vary.

**Credit Hour:** 1

---

**JOURN 7138: Public Relations Techniques**
(cross-leveled with JOURN 4138). Designed for advanced strategic communication students preparing for careers in public relations. Section topics vary.

**Credit Hour:** 1

---

**JOURN 7140: Interactive Techniques**
(cross-leveled with JOURN 4140). Designed for advanced strategic communications students preparing for careers in interactive media. Section topics may vary.

**Credit Hour:** 1

---

**JOURN 7146: Strategic Communication Techniques**
(cross-leveled with JOURN 4146). Designed for advanced strategic communication students. Section topics vary. Graded on A-F basis only.

**Credit Hour:** 1

---

**JOURN 7148: Interviewing Essentials**
(cross-leveled with JOURN 4148). This class focuses on the journalistic interviewing process, from identifying and gaining access to the best sources, setting ethical boundaries, asking the most effective questions and ensuring accuracy. It applies to the full range of story types, from breaking news to in-depth work in all coverage areas.

**Credit Hour:** 1
**Prerequisites:** Consent of instructor required

---

**JOURN 7150: Using Infographics**
An introduction to the various types of information graphics and how each can be used effectively to help explain the news. Additional emphasis on generating graphic ideas and on the specific challenges of gathering information for graphics.

**Credit Hour:** 1

---

**JOURN 7152: Concepts in Participatory Journalism**
Journalists need to know how to be in conversation with their communities rather than lecture to them. In this course, we will look at how a collaborative culture is changing journalism, and how journalists can take advantage of the new landscape. Graded on A-F basis only.

**Credit Hour:** 1
**Prerequisites:** instructor's consent required

---

**JOURN 7160: Social Media Foundations and Practice**
(cross-leveled with JOURN 4160). This course introduces social media usage and research basics for journalism students. Graded on A-F basis only.

**Credit Hour:** 1
JOURN 7180: Newsroom Content Creation  
(cross-leveled with JOURN 4180). This course puts students working together in a combined newsroom hub, producing content for publication on its own platform or for campus media outlets. Graded on A-F basis only.  
**Credit Hours:** 3

JOURN 7188: Area Seminar  
Special lectures, readings, discussions relating to the urban journalism, state government reporting or local public affairs reporting programs.  
**Credit Hours:** 3

JOURN 7200: Principles of Strategic Communication  
(cross-leveled with JOURN 4200). Foundation course familiarizing students with an array of strategic communication tools and how they are used in the field.  
**Credit Hours:** 3

JOURN 7204: Introduction to Strategic Writing and Design  
This course will teach you about strategic writing and design, and then show you how to apply these skills to key communication platforms such as digital media, TV, radio, social media and others. Along the way, you will learn to think, write and design creatively and strategically. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** Restricted to Journalism Strategic Communication and Science and Agriculture Journalism Majors

JOURN 7206: Strategic Writing I  
(cross-leveled with JOURN 7206). Students learn strategic writing for a variety of media such as print, radio, television, outdoor, new media, news releases, pitch letters and other persuasive messages.  
**Credit Hours:** 3  
**Prerequisites:** JOURN 4200, JOURN 4226, JOURN 4952

JOURN 7208: Strategic Writing II  
(cross-leveled with JOURN 4208). Advanced course in the creation of advertising and public relations materials with an emphasis on strategic planning, developing creative concepts, producing and polishing copy and visuals, execution of finished product and refining. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** JOURN 4200, JOURN 4204 and JOURN 4952

JOURN 7212: Sports and Entertainment Promotion  
(cross-leveled with JOURN 4212). Course focuses on the role that research, sponsorship, advertising, public relations, social media, positioning, target marketing, psychographics, and other strategic communication processes play in the promotion of the sports and entertainment industry. The course will critically analyze and examine how chief executive officers of sport and entertainment organizations choose, maintain, or redirect their promotion strategies and activities to help achieve organization missions, encourage tickets sales, and attract large audiences.  
**Credit Hours:** 3  
**Prerequisites:** core courses and JOURN 4208 or JOURN 7208

JOURN 7213: Strategic Communication Mobile Sports Production  
(cross-leveled with JOURN 4213). This class is designed to prepare Strategic Communication students for vital new positions in the world of sports marketing with the emphasis on video productions, strategic planning, and strategic dissemination of video content via multiple media, channels and platforms. Graded on A-F basis only.  
**Credit Hours:** 3

JOURN 7214: Strategic Communication Integrated Sports Production  
(cross-leveled with JOURN 4214). This course will prepare Strategic Communication students for vital new positions in the world of sports marketing with an emphasis on video production, graphics, social media analytics, messaging management and strategic planning. Students will be taught basic information, techniques and strategies necessary for success in these fields. You will be working closely with the Mizzou Sports Network and Strategic Communication faculty from day one. Graded on A-F basis only.  
**Credit Hours:** 3

JOURN 7216: Media Sales  
(cross-leveled with JOURN 4216). Focus of this course is to familiarize students with how to sell a variety of media including newspaper, radio, television, outdoor, new media, and others.  
**Credit Hours:** 3

JOURN 7218: Mojo Ad Staff  
(cross-leveled with JOURN 4218). Application of strategic communication skills in a professional services agency specializing in the youth and young adult segment. Positions include management, planning, creative media and research. Other electives required based on position. Application required. Graded on A-F basis only.  
**Credit Hours:** 3

JOURN 7220: Creative Portfolio  
(cross-leveled with JOURN 4220). Students will produce a free-standing collection of outstanding, polished creative work to demonstrate his/her ability to perform at a high level of creativity.  
**Credit Hours:** 3

JOURN 7228: Strategic Design and Visuals II  
(cross-leveled with JOURN 4228). Advanced course in strategic design and visuals. Persuasive visual principles applied to variety of integrated media including print, broadcast and on-line. Graded on A-F basis only.  
**Credit Hours:** 3

**Prerequisites:** JOURN 4200, JOURN 4204 and JOURN 4952
JOURN 7236: Psychology in Advertising
(cross-leveled with JOURN 4236). Application of psychological principles, learning, perception, motivation, attitudes to advertising. Emphasis on the increasing use of psychographics (the 'lifestyle' factor) to understand consumer wants and buying behavior.

Credit Hours: 3
Prerequisites: JOURN 4200 or JOURN 7200, JOURN 4952 or JOURN 7952, JOURN 4204 or JOURN 7204

JOURN 7242: Strategic Communication Leadership
(cross-leveled with JOURN 4242). Strategic Communication Leadership is aimed at students who are eager to develop their skills and abilities in management and leadership with the likely outcome that they will be leaders in media organizations or as entrepreneurs. Rooted in principles of ethical persuasion and strategic communication, it will help develop individual skills and abilities and the mindset of helping others achieve their goals. Based on the experience and writings of CEO and world-renowned leader David Novak (Strategic Communication alumnus 1974), this is the one of three courses comprising the Leadership Interest Area in Strategic Communication. This course will call on students to commit to the process of their own growth and self-discovery and to help foster the growth and development of fellow learners. It will be an intensive experience and, with commitment to the program, will be immediately applicable to the students' current and future personal and professional lives. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Journalism Graduate students only

JOURN 7244: Creating Cultures Through Effective Strategic Communication and Leadership
(cross-leveled with JOURN 4244). The course focuses on the role culture and communication play in organizational success, management, and leadership. Rooted in principles of ethical persuasion and strategic communication, it helps students develop individual skills and abilities and the mindset of helping others achieve their goals. The course is distinctly different from traditional organizational studies because of its focus on communication and marketing principles. It offers hands on learning through the case method. Based on the experience and writings of CEO and world-renowned leader David Novak (Strategic Communication alumnus 1974), this is one of three courses comprising the Leadership interest area in Strategic Communication. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Graduate Journalism Majors only

JOURN 7246: Taking People With You: Entrepreneurial Leadership and Innovation
(cross-leveled with JOURN 4246). In this course, students explore the current landscape of entrepreneurship (with specific reference to the strategic communication space) and practice a human-centered approach to solving problems. Students will gain valuable leadership skills and develop the knowledge and mindset needed to pursue their own entrepreneurial ventures or to become innovators and ‘intrapreneurs’ within existing organizations. The course introduces students to insight-driven approaches to innovation including David Novak’s Taking People with You philosophy of leadership and design thinking while offering ample opportunities to put these methods into practice. To simulate the entrepreneurial process, students identify an unmet need or market opportunity and develop an innovative product or service to solve a real-world problem. ‘Startup teams’ of four students engage in research, ideation, rapid prototyping, and iterative design to develop insights and a solution to meet the needs of real customers. Teams also conduct a market analysis, and develop a business model and go-to-market strategy for launching their startup and enlisting key partners to support their venture. The course culminates in a pitch competition in which teams present their ideas and strategies to a panel of industry experts and investors. In the process, students gain valuable leadership skills, develop an entrepreneurial mindset, and learn how to work with diverse teams and audiences to collaborate and solve problems. This is one of the three courses comprising the Leadership Interest Area in Strategic Communication. Students admitted to this course are also given priority to participate in the Novak Future Leaders Tour to San Francisco, where they gain exposure to ideas and leaders at some of the world’s most innovative companies and organizations. Graded on A-F only.

Credit Hours: 3
Prerequisites: Graduate Journalism majors only

JOURN 7248: Media Strategy and Planning
(cross-leveled with JOURN 4248). Course deals with strategic planning and the selection and evaluation of appropriate media outlets. Students gain a clear understanding of the problems and issues involved in crafting effective media strategies, creative problem solving and selection of appropriate media.

Credit Hours: 3
Prerequisites: JOURN 4200 or JOURN 7200, JOURN 4952 or JOURN 7952, JOURN 4204 or JOURN 7204. Restricted to Journalism graduate students

JOURN 7250: Management of Strategic Communication
(cross-leveled with JOURN 4250). How to lead and contribute to strategically sound, highly creative and seamlessly integrated strategic communication on the agency or client side of the business. Directly relevant to agency account management and account planning, as well as client career paths.

Credit Hours: 3
Prerequisites: Consent of Instructor required

JOURN 7252: Branded Strategic Storytelling
(cross-leveled with JOURN 4252). This course for Strategic Communication students integrates digital and content marketing planning and operational methodologies designed to deepen students’ knowledge of content creation, distribution strategies and audience engagement. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Graduate Journalism Majors only

JOURN 7254: Tools, Techniques and Technology of Visual Storytelling
(cross-leveled with JOURN 4254). In this course, students will learn how to professionally shoot and strategically edit video, visuals and textual content, strategize how to publish that content on owned media and social media platforms, utilize tools like GoPro and Drone technology, and even VR/AR and 360 attachments to make content that is more immersive, influential, impactful and persuasive. Graded on A-F basis only.
JOURN 7256: Public Relations
Current methods of communicating with constituents as practiced by agencies, corporations and government/not-for-profit organizations.

Credit Hours: 3
Prerequisites: Graduate Journalism Majors only
Recommended: JOURN 7200, JOURN 7204

JOURN 7262: Digital Strategy I
(cross-leveled with JOURN 4262). Course covers every step from integrating Internet efforts into the overall strategic communication plan to building a website that works. Designed for those with an interest in interactive advertising. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 7200, JOURN 7204 and JOURN 7952

JOURN 7263: Digital Strategy II
(cross-leveled with JOURN 4263). Course goes in-depth on top issues in the interactive process from video advertising to social networking sites and how to increase campaign performance with web analytics. Designed for those who want a career in interactive advertising. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 7262. Restricted to Journalism Graduate students

JOURN 7268: Strategic Communication Practicum
(cross-leveled with JOURN 4268) Practical experience in public relations, corporate communications and strategic planning with the Missouri School of Journalism serving as client. Students from all journalism disciplines will apply knowledge and skills on a variety of platforms.

Credit Hours: 3
Prerequisites: JOURN 4200 or JOURN 7200, JOURN 4204 or JOURN 7204 and JOURN 4952 or JOURN 7952

JOURN 7270: Public Relations Writing
(cross-leveled with JOURN 4270). Develop skills and capabilities in strategic communication applications, including news releases, media advisories, pitch letters, video news releases, media relations techniques, writing for electronic and broadcast media, feature writing, brochures and speeches. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Consent of instructor

JOURN 7300: Broadcast News I
Beginning reporting and news writing for radio, television and their online services. Introduction to use of audio and video recorders and editing systems in production of news stories. Consideration of ethical issues, economic factors, relationships with news sources and gender and ethnic diversity in the newsroom and in news stories.

Credit Hours: 3
Prerequisites: JOURN 2100

JOURN 7301: Topics in Journalism
Selected current topics in journalism. Specific topics to be announced at time of registration.

Credit Hour: 1-3

JOURN 7306: Broadcast News II
Introduction to general assignment reporting skills for the newsroom environment. Instruction in time management, writing, storytelling and performance. Team skills and ethnic diversity in the newsroom are discussed. Students begin work for broadcast newsrooms.

Credit Hours: 3
Prerequisites: JOURN 4300 or JOURN 7300

JOURN 7308: Broadcast News III
(cross-leveled with JOURN 4308). Intermediate reporting and news writing skills for radio and television. Advanced techniques in the use of video and sound in production of news stories.

Credit Hours: 3
Prerequisites: JOURN 7306

JOURN 7310: News Producing

Credit Hour: 1-3
Prerequisites: JOURN 4308 or JOURN 7308

JOURN 7320: Advanced Broadcast Reporting
(cross-leveled with JOURN 4320). In-depth reporting and editing for radio or television; advanced production techniques; emphasis on writing, interviewing, effective use of audio or videotape at KOMU-TV or KBIA.

Credit Hours: 3
Prerequisites: JOURN 4308 or JOURN 7308

JOURN 7328: Advanced News Communication
(cross-leveled with JOURN 4328). This course will examine and practice the components of effective interviewing and on-set and live reporting for television news. Students will anchor KOMU-TV's morning newscasts.

Credit Hour: 1
Prerequisites: JOURN 4306 or JOURN 7306

JOURN 7340: Viewing Journalism Films: Images of the Reporter
(cross-leveled with JOURN 4340). The course will examine images of journalists in American films ranging from 'Citizen Kane' to the present. Students will analyze award-winning movies that pose key questions about the professional responsibilities of journalists in all fields. Topics will include issues related to the practice of journalism as well as those triggered by the work of specific journalists, such as Woodward and Bernstein.

Credit Hours: 2
Prerequisites: Instructor's consent required
JOURN 7350: Problems in Journalism
Independent research arranged with individual faculty member. Contract must be approved by instructor and dean. Not accepted as a substitute for any regularly scheduled course. Some sections of the course may be graded on either A-F or S/U basis only.

Credit Hours: 1-3

JOURN 7360: Fundamentals of Design
(cross-leveled with JOURN 4360). This is a beginning course in editorial design. We will study design history and learn basic design principles and concepts in both print and digital platforms. You will be introduced to software programs such as InDesign, Photoshop and Illustrator, as well as basic HTML coding.

Credit Hours: 2
Prerequisites: Consent of instructor required
Recommended: JOURN 2100 or JOURN 2150

JOURN 7370: The Intersections of Documentary Film and Journalism
(same as FILMS_VS 7370; cross-leveled with JOURN 4370, FILMS_VS 4370). The popularity of documentary film in the past ten years has skyrocketed, and recent award-winning documentaries such as Inside Job (2010), Blackfish (2013), and The Invisible War (2012) are simultaneously entertaining audiences and investigating serious issues like the financial collapse, killer whale captivity, and sex crimes in the military-issues that in the past might have been covered exclusively by investigative journalism. What explains the public's growing fascination with documentary? How is documentary film reacting to recent transformations in the media landscape? Is it filling a critical need that journalism is no longer willing or able to meet? This course will explore the intersection of these two nonfiction storytelling forms--documentary film and journalism--and examine the role played by advocacy in both modes, as well as the cultural and ethical implications of the convergence between journalism and documentary film. In that it is centered on contemporary documentary film culture, the course also takes advantage of the True/False Film Festival, and will be host to a conference during Week 6, featuring a number of major visiting filmmakers and film critics. Attendance at some sessions is required. Graded on A-F basis only.

Credit Hours: 3

JOURN 7371: Documentary Theory
(cross-leveled with JOURN 4371). Documentary and other long-form story telling methods involve a complex series of decisions made in the creation of the work that determines its style, length, direction, point of view and more. These and a thousand other editing decisions are the difference between a successful project that touches its audience and one that falls short. The focus of this course is on the craft of editing, as seen in a variety of documentary and other works and explained through the decisions made in and out of the editing room that lead to the final product. The course will introduce important concepts of editing, the work of significant editors in both documentary and narrative fiction films, and seek to apply those techniques to the conceptualization of documentary work students will do as part of their degree. Students will understand the history of documentary editing as it evolved on its own and as influenced by narrative fiction films, the language of editing, the work of important editors and directors and how it influences today's aesthetic and how to apply what they have learned to their own documentary projects at an advanced level. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: JOURN 7564
Recommended: JOURN 7370

JOURN 7372: Documentary Reporting
(cross-leveled with JOURN 4372). Students will learn elementary documentary reporting techniques by producing video and audio content in small group and individual projects. The course focuses on collection of content in the field, interviewing, research, story construction, editing and presentation. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Instructor consent

JOURN 7373: Documentary Development
(cross-leveled with JOURN 4373). This course will concern itself primarily with the formation of projects: from theories behind different kinds of documentaries, through real world investigations and research into possible projects, into the pitching and writing stage and lastly to the final idea that will be the basis of students' senior films. The ability to properly think of, clearly articulate, pitch and hone in on a project idea often makes the difference between a successful and unsuccessful final film. Still these ideas don't materialize out of thin air; inspiration for great documentaries can come from many places. Understanding how to seize viable project ideas is a crucial skill for a documentary filmmaker. Graded on A-F basis only.

Credit Hours: 3

JOURN 7374: Documentary Business and the Public Sphere
(cross-leveled with JOURN 4374). Whether it be through contract employment, freelancing, or independent production, creating documentaries requires a knowledge of professional and business practices that differ from many other parts of journalism. The course will introduce important concepts related to the development and production of documentary work, as well as the public distribution of that work. Students will research the industry and develop skills to manage business and professional relationships with the documentary world. Students will build and maintain personal branding materials. Graded on A-F basis only.

Credit Hours: 3

JOURN 7400: Introduction to News Editing
(cross-leveled with JOURN 4400). Introduces the fundamentals of editing of stories and writing headlines for publication online and in print, including an emphasis on style and grammar. Emphasized editing for an online audience.

Credit Hours: 3
Prerequisites: Consent of instructor required

JOURN 7406: Digital News Editing
(cross-leveled with JOURN 4406). Real-world experience in digital editing and news decision-making coupled with newspaper production; emphasis on editing and headline writing across platforms, design for home page and mobile, social media, ethics and fundamentals of grammar. Lab work
JOURN 7408: Magazine Editing
(cross-leveled with JOURN 4408). Lectures provide an introduction to the magazine industry, including types of publications, roles of an editor and skills needed for today's magazine editor. Labs focus heavily on sentence structure, grammar, syntax, usage, punctuation and style.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4450 or JOURN 4804

JOURN 7410: Intermediate Writing
(cross-leveled with JOURN 4410). In-depth reporting, research, and writing techniques with a magazine focus. Students produce articles for Vox, the Missourian and other magazines, publications or digital outlets.

Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 7450 or JOURN 4804 or JOURN 7804. Restricted to Journalism majors only

JOURN 7414: Field Reporting on the Food System and Environment
(same as AGSC_COM 7414; cross-leveled with JOURN 4414, AGSC_COM 4414). Field reporting on the social, political, scientific, economic and ethical dimensions of the food system and environment, with emphasis on explanatory story-telling. Includes multi-day filed trip. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: instructor's consent required

JOURN 7416: Science, Health and Environmental Writing
(cross-leveled with JOURN 4416). In this course students learn how to cover science, health and environmental topics by reporting and writing several stories for publication. Students can develop a marketable specialty or cover these angles in any beat. This course can serve as a substitute for JOURN 7410 Intermediate Writing.

Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 4804 or JOURN 4206 or JOURN 4300 or JOURN 4372

JOURN 7418: Critical Reviewing
(cross-leveled with JOURN 4418). This course seeks to enrich students' understanding of the arts; support their attendance of concerts, plays, films, and exhibitions; sharpen their skills in critical thinking; and encourage the publication of their reviews in Vox as well as other outlets. Students will analyze the works of critics, gain a general appreciation of the ways to approach each art, and write reviews.

Credit Hours: 3
Prerequisites: JOURN _0900 or JOURN 2100

JOURN 7420: Editorial Writing

Credit Hours: 3

Prerequisites: JOURN 4450

JOURN 7422: Sports Journalism
(cross-leveled with JOURN 4422). A review of everything from 'How to Watch Sports' to the history of sports writing.

Credit Hours: 3
Recommended: JOURN 4450/JOURN 7450 or JOURN 4804/JOURN 7804 or JOURN 4306/JOURN 7306 or JOURN 4560/JOURN 7560. Priority will be given to Sports Journalism students. All other consent will be given on a first-come first-served basis as space allows

JOURN 7424: Covering Traumatic Events
(cross-leveled with JOURN 4424). This course will prepare reporters and future newsroom managers across platforms for the ethical, practical and emotional challenges of reporting accurately and sensitively on traumatic events. It will give students a deeper understanding of the psychological impact of such events, including natural and man-made disasters, violent crime, accidents, terrorism and war. The course will explore how news coverage affects individuals and communities, and the psychological challenges and ethical hazards for the journalists who cover these events, with a focus on best newsroom practices for managing fast-breaking news stories and mitigating the effects on communities and staffs. The course will also explore the challenges of technology in the context of traumatic events and how social media have affected coverage of and response to crime, war and disasters. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 7450; JOURN 4804 or JOURN 7804; or JOURN 4560 or JOURN 7560

JOURN 7426: Religion Reporting and Writing
(same as REL_ST 7418; cross-leveled with JOURN 4426, REL_ST 4418). Advanced seminar in religion reporting and writing. Examines the role of religion journalism in faith, public life and culture.

Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 7450 or its equivalent in professional writing experience and instructor's consent

JOURN 7428: Health Reporting Skills
This course focuses on reporting, sourcing and analysis techniques journalists use to understand and report on health policy, health-care quality, medical research and the business of health care. Graded on A-F basis only.

Credit Hour: 2-3
Prerequisites: JOURN 4450 or JOURN 7450, JOURN 4306 or JOURN 7306, or JOURN 4804 or JOURN 7804 and instructor's consent

JOURN 7430: Computer-Assisted Reporting
(cross-leveled with JOURN 4430). How to negotiate for, transfer and process electronic information; the unique opportunities computers provide for analyzing information.

Credit Hours: 3
Prerequisites: Graduate standing is required and students must have completed JOURN 7306 or 7450 or 7804
JOURN 7432: Advanced Data Journalism
(cross-leveled with JOURN 4432). Teaches students how to creatively solve problems in journalism using computer programming. Students will learn how to code using the Python language, and how to apply those coding skills to perform real-world tasks. Students will learn the concepts, theory and practical programming skills needed to clean data, scrape websites and turn databases into interactive online experiences. By the end of the semester, students will have learned the skills to create interactive database presentations, and will have created a functional web app that will serve as a portfolio piece.
Credit Hours: 3
Prerequisites: JOURN 4430
Recommended: JOURN 4502

JOURN 7434: The Art and Mechanics of the Business Story
(cross-leveled with JOURN 4434). The purpose of this course is to give students a deep understanding of business journalism and for them to apply those skills in a real newsroom, Missouri Business Alert. The class will cover everything from audience to financials, and students will leave the class with several work samples to show potential employers. Those classes include: JOURN 4450 or JOURN 7450; JOURN 4306 or JOURN 7306; JOURN 4804 or JOURN 7804; JOURN 4556 or JOURN 7556.
Credit Hours: 3
Prerequisites: Journalism Graduate students who have passes a newsroom reporting class (or its equivalent)

JOURN 7436: Investigative Reporting
(cross-leveled with JOURN 4436). Advanced course designed to acquaint reporters with public issues. Students write two in-depth projects and other shorter assignments. Students meet weekly with instructor for editorial suggestions.
Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 7450 and instructor's consent

JOURN 7438: Business, Financial and Economic Journalism
(cross-leveled with JOURN 4438). Understanding the news from the business sector and nation's economy for journalists and public relations students. Including financial filings, equity markets, local business, economic indicators, job creation, business data, sports business and what makes business/economic news different from other journalism. Includes tour of business journalism outlets and markets in New York. Open to all sequences and platforms.
Credit Hours: 3

JOURN 7439: Advanced Business Journalism
(cross-leveled with JOURN 4439). This class requires students to write business stories every week and to attain a high level of financial literacy in the process. The class will cover topics behind the headlines, showing students how to spot economic trends, the stories behind the economy's main actors, and the keys to spotting a troubled business. By the end of the class, all students will be certified users of the Bloomberg Terminal. To take this course, students must enroll in one of the two attached accounting classes (grad or undergrad). Both are offered online. Graded on A-F basis only. Prerequisites: Students must have taken or take concurrently with this course: ACCTCY 2010 or ACCTCY 7310.
Credit Hour: 1-3

JOURN 7440: Mapping for Stories and Graphics
Learn mapping software to discover information for news stories and lay the foundations for compelling news information graphics. Students will learn how to create maps for print, broadcast and online. Graded on A-F basis only.
Credit Hours: 2
Prerequisites: JOURN 2100 and instructor's consent

JOURN 7448: Public Service Journalism: Covering State Government
(cross-leveled with JOURN 4448). One of the most important roles journalism plays in society is holding the powerful accountable and keeping the public informed about what those in charge are doing. Covering state government allows journalists to do both of these things. This course gives you the background you need to provide effective government coverage, and gives you hands-on experience. Graded on A-F basis only.
Credit Hour: 1-3
Prerequisites: Instructor consent required

JOURN 7450: News Reporting
(cross-leveled with JOURN 4450). Assignments on a daily city newspaper covering community news, city, county and state affairs, sports and lifestyle issues. Experience in gathering and writing news, writing under deadline conditions.
Credit Hours: 3
Prerequisites: JOURN _0900 or JOURN 2100

JOURN 7460: Advanced News Reporting
(cross-leveled with JOURN 7460). Assignments to more difficult beat areas, team reporting, and some investigative reporting for community newspaper. Individual conferences and weekly class sessions on contemporary reporting problems.
Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 7450

JOURN 7462: Emerging Technologies in Journalism
(cross-leveled with JOURN 4462). This course quickly responds to technology developments in journalism through a combination of theory, practice and research. Students learn to use the developing technology and also strategies to manage its impact on media organizations while expanding academic discourse. May be repeated for credit. Graded A-F basis only.
Credit Hour: 1-3

JOURN 7464: Magazines Across Platforms
(cross-leveled with JOURN 4464). As digital editors for Vox Magazine, students manage and create content for Vox's digital platforms, including its WordPress website, blog, social media accounts and award-winning iPad app. Students also work with analytics, engagement and multimedia. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Consent of instructor required
**JOURN 7450: Will Write for Food (and Wine)**
(cross-leveled with AGSC_COM 4480, JOURN 4480). Course focuses on food and wine writing in current U.S. culture. Come ready to create mouthwatering narrative and actively seek publishing your finished work. An emphasis will be placed on class participation and written critiques of peer-reviewed articles in class. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Junior standing, instructor's consent and JOURN 4450. Restricted to Journalism and Science Agriculture Journalism students only

**JOURN 7500: Publication Design**
(cross-leveled with JOURN 4500). Intermediate design techniques and theories of editorial design. Students apply classroom teachings by designing pages for the Columbia Missourian and Vox Magazine. Students work under deadline and learn attention-to-detail through use of execution of design style guides.

**Credit Hours:** 3  
**Prerequisites:** JOURN 4360 and instructor's consent. Restricted to Journalism Graduate students only

**JOURN 7502: Multimedia Planning and Design**
(cross-leveled with JOURN 4502). Class covers the basics of web design - Storyboarding, navigation, information architecture, reader behavior, usability studies - as they relate to journalistic stories and persuasive messages. Prerequisites: Completion of one of the following: JOURN 4804, JOURN 4508, JOURN 4406, JOURN 4506, JOURN 4306, JOURN 4450 or JOURN 4560; or by instructor's consent.

**Credit Hours:** 3

**JOURN 7506: Magazine Design**
Introduction to typography of magazines from manuscript markup through layout to page proof. Extensions and limitations of typography are considered in light of current practice and economic possibilities.

**Credit Hours:** 3

**JOURN 7508: Information Graphics**
(cross-leveled with JOURN 4508). Work as a news artist for a daily city newspaper graphically covering community news, sports and lifestyle issues. Emphasis on visual thinking and effective presentation. Experience with state-of-the-art software.

**Credit Hours:** 3  
**Prerequisites:** JOURN 4450 or JOURN 7450 or the professional equivalent, or instructor's consent

**JOURN 7510: Visual Communications**
How to communicate through pictures. Topics: visual perception, vocabulary, the role of words, picture editing, design and layout, printers, taste and judgment, camera mechanics. For journalism students who are not photographers.

**Credit Hour:** 2-3

**JOURN 7554: Visual Editing for Multimedia**
(cross-leveled with JOURN 4554). This class develops understanding of multimedia storytelling by focusing on editing, production, and business model practices for online visual journalism. It builds on a foundation of digital editing, photojournalism, photo editing, videography, and multimedia production. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** JOURN 4804 or JOURN 4550 or JOURN 4306 or JOURN 4406 or JOURN 4506 and instructor's consent; restricted to Journalism and Science and Agriculture Journalism students only

**JOURN 7556: Staff Photojournalism**
(cross-leveled with JOURN 4556). A rigorous skills course for advanced students preparing for a career in photojournalism consisting of weekly exercises in black and white and color photographic story telling and lectures that explore the philosophical, historical and ethical roots of the profession.

**Credit Hours:** 3  
**Prerequisites:** instructor's consent required

**JOURN 7558: Advanced Techniques in Photojournalism**

**Credit Hours:** 3  
**Prerequisites:** JOURN 4556 or JOURN 7556

**JOURN 7560: Photojournalism Business Practices**
(cross-leveled with JOURN 4560). A laboratory course exploring the photojournalist's role in the news-gathering process. As staffers for the Columbia Missourian, students cover news, sports, features, food assignments and originate single pictures and stories.

**Credit Hours:** 3  
**Prerequisites:** JOURN 4558 or JOURN 7558

**JOURN 7562: Photojournalism Business Practices**
(cross-leveled with JOURN 4562). Discusses legal, financial, organizational and entrepreneurial issues for photojournalists. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** JOURN 4558 or JOURN 7558 and JOURN 4566 or JOURN 7566, or instructor's consent required. Restricted to graduate Journalism majors only

**JOURN 7564: Micro-Documentary Photojournalism and Videography**
(cross-leveled with JOURN 4564). This course extends students' understanding and abilities to produce short-form video journalism. They will produce, from concept to web publication, two five-minute non-fiction videos that serves the public through engaging visual sound techniques and compelling narrative. Graded on A/F basis only.

**Credit Hours:** 3  
**Prerequisites:** JOURN 4558 or JOURN 7558 or JOURN 4306 or JOURN 7306 or JOURN 4804 or JOURN 7804 or consent of instructor. Restricted to Journalism or Science and Agricultural Journalism students only
JOURN 7566: Electronic Photojournalism
(cross-leveled with JOURN 4566). Concepts and skills to incorporate photographs, audio and video for interactive presentation, with an emphasis on project design and coding for web and mobile devices. Graded on A-F basis.

Credit Hours: 3
Prerequisites: JOURN 4556 or JOURN 7556 and instructor's consent required

JOURN 7568: History of Photojournalism
(cross-leveled with JOURN 4568). Examination of the aesthetic and technological development of photography from its invention in 1839 to the present. Primary emphasis on the evolution and impact of the picture press and the documentary tradition in America, although international developments are studied as well.

Credit Hours: 3

JOURN 7565: International Issues Reporting
An advanced professional seminar on how to recognize, report and write about the domestic influence of international political, economic and cultural problems and trends.

Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 7450

JOURN 7566: International News Media Systems
A comparative survey of current news media systems and how they affect the international flow of information. Newspapers, news agencies, broadcasting and satellite networks of the world are analyzed.

Credit Hours: 3

JOURN 7568: International Journalism
(cross-leveled with JOURN 4658). An examination of the gathering, editing and dissemination of international news. The impact of social, economic, cultural and political structures on news media performance is evaluated.

Credit Hours: 3

JOURN 7650: Media Forces Shaping the European Union
(cross-leveled with JOURN 4660). Seminar analyzes the role of media in shaping policies and actions of the European Union member nations and their people. Open to graduate students regardless of major and to undergraduates with instructor's consent. Course qualifies for EU Certificate Program.

Credit Hours: 3

JOURN 7662: Global News Across Platforms
(cross-leveled with JOURN 4662). Online, radio, and print production for a converged media enterprise, Global Journalist. Students report, write, plan, edit, design, and produce a video and radio program and website on international news while working under weekly deadlines.

Credit Hours: 3

JOURN 7700: Engaged Journalism
(cross-leveled with JOURN 4700). An examination of how information is shared outside professional journalism, and how journalists can interact with communities. Topics will include community collaboration, social media, audience outreach and understanding, and an expanding definition of 'news.' Students will work with the community on behalf of the Missourian. All interest areas welcome.

Credit Hours: 1-3
Prerequisites: instructor's consent required

JOURN 7706: The Community Newspaper
(cross-leveled with JOURN 4706). The role of the newspaper in the community. Handling of news categories especially applicable to smaller newspaper. Field trips giving students experience in publishing newspapers in the state.

Credit Hours: 3
Prerequisites: JOURN _0900 and JOURN 2100

JOURN 7716: Women and the Media
(same as WGST 7716; cross-leveled with JOURN 4716, WGST 4716). Focus on portrayal of women in American mass media. Other goals: historical perspective on women as journalists; exposure to issues usually not covered by mass media; research and writing skills.

Credit Hours: 3
Prerequisites: instructor's consent required

JOURN 7718: Law and the Justice System
(cross-leveled with JOURN 4718). Lectures, readings, discussions, writing assignments relating to justice system reporting from the view of attorneys, prosecutors, judges, correction and probation officers, with the cooperation of the Missouri Bar.

Credit Hours: 3
Prerequisites: JOURN _0900 or JOURN 2100

JOURN 7734: Journalism and Chaos: How to Understand and Cover 21st Century Business Models
(cross-leveled with JOURN 4734). The purpose of this class is to explore alternative business/journalism models that can be grown from the rib of the traditional newsroom.

Credit Hours: 3
Prerequisites: Restricted to Journalism and Agricultural Journalism students only

JOURN 7736: Changing Media Business Models
Analysis of the economic changes in news media. Explore concepts and theories of monetizing media. Hands-on experience in creating innovations in media business models.

Credit Hours: 3

JOURN 7738: Thought, Language and Journalism
This seminar uses the methods of science to explore and better understand the biases and limitations of language, culture, technology and other factors shaping the semantic environment as applied to the practice of journalism and mass communications studies.

Credit Hour: 1-3
JOURN 7802: Fundamentals of TV, Radio and Photojournalism
Skills, theory and ethics of broadcast news and photojournalism for non-broadcast majors. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: JOURN 2100

JOURN 7804: Convergence Reporting
(cross-leveled with JOURN 4804). Practice and theory of reporting for converged media. Students produce multimedia reports for traditional and converged media operations. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: JOURN 7802 or instructor's consent

JOURN 7806: Convergence Editing and Producing
(cross-leveled with JOURN 4806). Practice and theory of editing and producing material for publication or broadcast in a converged environment. Students produce media for multiple outlets. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: JOURN 4306 or JOURN 7306 or JOURN 4804 or JOURN 7804

JOURN 7810: National News Writing and Production
(cross-leveled with JOURN 4810). Learn updated storytelling and video-production techniques on-site at Newsy, a next generation news network. You will work weekly shifts throughout the semester, culminating in the production of your own portfolio and mock interviews with hiring managers. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: instructor's consent required

JOURN 7812: Online Audience Development
(cross-leveled with JOURN 4812). You're already using social media every day - but are you using it in the most effective way possible? In Online Audience Development students will explore, envision and evaluate the possibilities of social media integration in news production workflows. We'll experiment with emerging social platforms to see how they might fit in a newsroom's social media and branding playbook. You will also exercise, develop and improve on all the journalism skills practiced in previous classes: researching, reporting, editing, producing, proofreading, photo editing and design. The big difference? This time you'll be reporting on our newsrooms in order to help create deeper connections with the audience. Graded A-F basis only.
Credit Hours: 3
Prerequisites: Instructor's consent required

JOURN 7814: Multimedia Sports Journalism
Assignments on a daily regional website and radio station covering sports with converged media. Experience in reporting game and feature stories under deadline conditions. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: JOURN 4306 or JOURN 7306, or JOURN 4450 or JOURN 7450, or JOURN 4804 or JOURN 7804, or JOURN 4556 or JOURN 7556 or JOURN 4560 or JOURN 7560. Restricted to Journalism and Science and Agricultural Journalism students only. Instructor's consent required

JOURN 7940: Internship in Journalism
Credit for approved employment in journalism. Specifications for this course appear in the Undergraduate Catalog. Graded on S/U basis only.
Credit Hour: 1-6
Prerequisites: Restricted to Journalism students only

JOURN 7952: Strategic Communication Research I
(cross-leveled with JOURN 4952). Introduction to techniques and practice of strategic communication research. Emphasis on research techniques and use of research results, including consumer analysis, attitude measurement and evaluation of externally supplied research.
Credit Hours: 3
Prerequisites: Restricted to Strategic Communication and Science and Agricultural Journalism Majors

JOURN 7970: Strategic Campaigns
(cross-leveled with JOURN 4970). This capstone course gives students a hands-on opportunity to use their skills and apply strategic communication learning to a real client situation. To be taken final semester. Application required for Mojo Ad section and will include additional leadership responsibilities.
Credit Hours: 3
Prerequisites: JOURN 4204 or JOURN 7204

JOURN 7972: Photo and Visual Editing
(cross-leveled with JOURN 4972). An advanced visual editing course. Primary work is as a photo/multimedia editor on the Columbia Missourian photo desk. Your collaborate on daily and semester projects and are assigned specific leadership roles.
Credit Hours: 3
Prerequisites: JOURN 4408 or JOURN 7408 or JOURN 4204 or JOURN 7204 or JOURN 4500 or JOURN 7500 or JOURN 4560 or JOURN 7560

JOURN 7974: Advanced Internet Applications for Radio/TV News
(cross-leveled with JOURN 4974). Integration of advanced Internet research and publishing skills with production and management of the KOMU-TV/KBIA Radio World Wide Web news service.
Credit Hours: 3
Prerequisites: JOURN 4306 or JOURN 7306

JOURN 7976: Seminar in Radio-TV News
(cross-leveled with JOURN 4976). Seminar in network and local news process, in coverage of major issues and social problems, in relationships of radio-TV news and government institutions. Not for students who have taken JOURN 8096.
Credit Hours: 3
Prerequisites: JOURN 4306; instructor's consent required

JOURN 7978: Media Management and Leadership
(cross-leveled with JOURN 4978). Dramatic changes in technology and the media's role in converging technologies require new management
and leadership techniques and paradigms. Students will write case examining these changes.

**Credit Hours:** 3  
**Prerequisites:** JOURN 4306 or JOURN 4804

---

**JOURN 7980: The Picture Story and Photographic Essay**  
(cross-leveled with JOURN 4980). Production of photo stories/essays for newspapers, magazines and news media presentations. Research, photography, design and layout. Final portfolio will show journalistic strength and versatility in black and white, and color.

**Credit Hours:** 3  
**Prerequisites:** JOURN 4560 or JOURN 7560

---

**JOURN 7984: Magazine Staff**  
(cross-leveled with JOURN 4984). This course provides hands-on experience serving as an editor on a magazine staff. Students are department editors for Vox Magazine and learn how to take a story from an idea through story creation and production and to the printed page, as well as best practices for executing that idea across multiple platforms. Students learn about pitching, working with writers, designers and photographers, editing for content and style, successful story packaging and team collaboration.

**Credit Hours:** 3  
**Prerequisites:** JOURN 4410 or JOURN 7410, JOURN 4408 or JOURN 7408

---

**JOURN 7986: Advanced Writing**  
(cross-leveled with JOURN 4986). This course builds on the in-depth, reporting, research, and writing techniques of Intermediate Writing and other writing and reporting classes. It is designed for those who wish to pursue writing as a career. Students complete writing assignments and analyze the work of well-known magazine and book authors.

**Credit Hours:** 3  
**Prerequisites:** JOURN 4410 or JOURN 7410 or equivalent. Restricted to Journalism students only

---

**JOURN 7988: Advanced Publication Design**  
(cross-leveled with JOURN 4988). Project-based capstone in which skills learned in previous courses are applied to professional-level design challenges, such as feature, cover or iPad designs; multimedia prototypes; special editions; or other applications for Vox Magazine, Columbia Missourian or other outlets.

**Credit Hours:** 3  
**Prerequisites:** Consent of instructor required  
**Recommended:** JOURN 4500 or JOURN 7500

---

**JOURN 7992: Innovation and Audience Outreach in Converged Media**  
(cross-leveled with JOURN 4992). Capstone course brings together the reporting, editing, audience focus, management and marketing skills gained in previous journalism courses. Students evaluate audiences and sustainability for journalistic content, applications, products and experiences and plan, produce and promote internal and external projects. Graded on A-F basis only.

**Credit Hours:** 3

---

**JOURN 7994: Magazine Publishing**  
(cross-leveled with JOURN 4994). This capstone experience explores key components and recent trends in the magazine industry. The primary focus is creating a magazine prototype that includes conceptualizing ideas and editorial for new titles, as well as business plans for advertising, circulation, finance and production. The course follows a nuts and bolts, learn-by-doing approach to how these components work together and influence one another.

**Credit Hours:** 3  
**Prerequisites:** JOURN 4408 or JOURN 7408 and either JOURN 4410 or JOURN 7410 or equivalent, or JOURN 4360 or JOURN 7360 or JOURN 4500 or JOURN 7500. Restricted to Journalism students only

---

**JOURN 8000: Mass Media Seminar**  
Concepts, functions and major problems of print and electronic media in the United States. Two hours lecture and one hour of discussion lab each week.

**Credit Hours:** 3

---

**JOURN 8001: Seminar on Topics in Journalism**  
Problems, issues and approaches to research in selected topic areas. Specific content varies by needs of faculty and students and will be announced in advance.

**Credit Hours:** 3

---

**JOURN 8006: Quantitative Research Methods in Journalism**  
Research methods of utility in journalism and philosophy of science. Emphasis on understanding common quantitative methods and tools.

**Credit Hours:** 3  
**Prerequisites:** six hours of journalism or instructor's consent

---

**JOURN 8008: Qualitative Research Methods in Journalism**  
Course is designed to introduce graduate students to common qualitative approaches applicable to the study of journalism and mass communication. Students will learn a variety of approaches, practical methodologies and tools that will help them conduct research.

**Credit Hours:** 3

---

**JOURN 8010: Advanced Qualitative Methods in Journalism**  
Designed to familiarize doctoral students with qualitative approaches applicable to the study of journalism and mass communication. Students will be introduced to a variety of philosophical and conceptual approaches as well as to practical tools-oriented methodologies in four major areas of qualitative research.

**Credit Hours:** 3

---

**JOURN 8016: Advanced Quantitative Research Methods**  
Experimental design, factor analysis, semantic differential and Q methodology as tools for the researcher in journalism, communication.

**Credit Hours:** 3

<tbody>
<tr>
<td>JOURN 8020</td>
<td>Principles and Tools in Strategic Communication Planning</td>
<td>Introduces the latest principles of strategic communication and the importance of strategic planning in many contemporary communication fields. A significant operational component in the course introduces skills such as budgeting, scheduling objective-setting, organizing personal time, and managing people.</td>
<td>3</td>
</tr>
<tr>
<td>JOURN 8026</td>
<td>Philosophy of Journalism</td>
<td>Seminar deals with wide assortment of philosophical questions in journalism but concentrates on epistemology, political press theory and ethics. Such questions as ‘objectivity’ in journalism, press responsibility, professionalism.</td>
<td>3</td>
</tr>
<tr>
<td>JOURN 8028</td>
<td>The Literature of Journalism</td>
<td>Reading of ten basic books about journalism. Several books are assigned to everyone; several are assigned on an individual basis, and several are electives. Oral reports, short papers, and class discussion.</td>
<td>3</td>
</tr>
<tr>
<td>JOURN 8030</td>
<td>History of Mass Media</td>
<td>American mass media from colonial days to present in the context of social, economic and political change. History research.</td>
<td>3</td>
</tr>
<tr>
<td>JOURN 8032</td>
<td>Media Sociology</td>
<td>This course examines the relationship between media (and journalism in particular) and society by addressing the impact of society on media and the impact of media on society. It connects media actors, organizations, and institutions to important sociological concepts, such as socialization, social interaction, social roles, and social structures, concerns, such as power, ideology, autonomy, and identity, and debates, such as agency-structure, subjectivity-objectivity, and stability-change. Graded on A-F basis only.</td>
<td>3</td>
</tr>
<tr>
<td>JOURN 8036</td>
<td>Historical Methods</td>
<td>Graduate seminar in research methods and theoretical approaches used by media historians, including oral history, biography, quantitative and archival research.</td>
<td>3</td>
</tr>
<tr>
<td>JOURN 8038</td>
<td>Seminar in Communications Law</td>
<td>A graduate-level survey of issues in media law, as well as an introduction to First Amendment theory and scholarship. The course familiarizes students with fundamental concepts of mass media law through exposure to primary materials and provides students with the opportunity to analyze the issues discussed in class through individual research projects.</td>
<td>3</td>
</tr>
<tr>
<td>JOURN 8042</td>
<td>Health News and Promotion</td>
<td>This is an advanced seminar that examines and critiques the literature on health communication in news about health and its impact and health promotion campaigns.</td>
<td>3</td>
</tr>
<tr>
<td>JOURN 8044</td>
<td>Strategic Conflict Management</td>
<td>Strategic conflict management is a cross-disciplinary study that integrated organizational behavior, crisis management, conflict resolution and image repair. This course melds theory with practice, and is for those venturing into media management, law, and strategic communication.</td>
<td>3</td>
</tr>
<tr>
<td>JOURN 8046</td>
<td>Controls of Information</td>
<td>A detail of actions by government, largely the federal government, calculated to limit or alter the content of information in the United States.</td>
<td>3</td>
</tr>
<tr>
<td>JOURN 8052</td>
<td>Case Studies in the Digital Globe</td>
<td>This course seeks to broaden students perspective about how digital technology affects the world around us. Final course in the CDiG certificate. Inter-departmental course.</td>
<td>3</td>
</tr>
<tr>
<td>JOURN 8054</td>
<td>Entrepreneurship and Media of the Future</td>
<td>This course will give students an intense hands-on experience in working with real entrepreneurs on complex business problems in the journalism field. Example companies are the Associated Press, Kachingle, the Chicago Sun-Times, Spot-Us and the Media Policy Center. The goal is to offer a solution or solutions to the stated problem, and to present these ideas in a competitive, symposium environment.</td>
<td>3</td>
</tr>
<tr>
<td>JOURN 8056</td>
<td>Theory of Mass Communication</td>
<td>Major communication theories and theorists. Interpersonal theories are included as they relate to mass communication.</td>
<td>3</td>
</tr>
<tr>
<td>JOURN 8058</td>
<td>Communication in Media Organizations</td>
<td>Covers key concepts in management and communication in media organizations, including print, broadcast, advertising and public relations. Topics include leadership, human resource management, managerial/employee communication, career success, financial decision-making, teambuilding and goal setting in media organizations.</td>
<td>3</td>
</tr>
<tr>
<td>JOURN 8068</td>
<td>The Mass Media and the Presidency</td>
<td>This seminar examines that historical triad of the free expression clauses of the First Amendment, the presidency and the American mass media through readings, class assignments and a project.</td>
<td>3</td>
</tr>
</tbody>
</table>
JOURN 8070: Proseminar in Communications
Seminar on professional and academic issues in journalism and communication. Specific discussion topics selected by faculty and students on a per class basis.
Credit Hour: 1-3

JOURN 8080: Media Ethics
An introduction to and application of ethical theory to their contemporary mass media.
Credit Hours: 3

JOURN 8085: Problems in Journalism
Individual work on chosen and specified problems not associated with the master's thesis or project. Topic must be arranged with supervising teacher prior to registration.
Credit Hour: 1-4
Prerequisites: Master's students only

JOURN 8090: Research in Journalism
Guidance for graduate students engaged in research toward production of the thesis. Graded on a S/U basis only.
Credit Hour: 1-9

JOURN 8092: Photography in Society
Social and political dimensions of still photography with emphasis on critical thinking and analysis in visual communication.
Credit Hours: 3

JOURN 8098: MA Project Seminar
Choosing and designing an appropriate profession project; preparation to carry out work successfully; discussion of trends and future directions in various areas of journalism. Must be completed before starting the professional project. Graded on S/U basis only.
Credit Hour: 1

JOURN 8100: MA Thesis Seminar
Choosing and developing an appropriate research topic for a thesis; designing a research strategy and learning appropriate investigative techniques. Must be completed before starting thesis. Graded on S/U basis only.
Credit Hour: 1

JOURN 8106: The Magazine: Then and Now
Examines magazines' history, role, economics and ethical practices, and the companies and people who produce them, particularly in the United States. It also reviews research perspectives that have illuminated this medium.
Credit Hours: 3
Prerequisites: JOURN 8000

JOURN 8110: Editing and News Design for the High School Advisor
Fundamentals of editing and headline writing for publication. Principles of design with emphasis on newspaper usage.
Credit Hours: 3
Prerequisites: Restricted to students in the online College of Education Master's program for high school journalism instructors

JOURN 8120: Media Law and Ethics for the High School Advisor
Legal concepts, including prior restraint, libel, privacy, obscenity, contempt and access as they related to print, broadcast, scholastic journalism, advertising and other areas. Includes examination of media ethics and practice.
Credit Hours: 3
Prerequisites: Restricted to students in the online College of Education Master's program for high school journalism instructors

JOURN 8185: Area Seminar in Journalism
Seminar designed to accompany JOURN 8190, Area Problem. Through readings and discussions the master's student examines the special area related to the project.
Credit Hours: 3

JOURN 8190: Area Problem in Journalism
Work project enabling a master's student to demonstrate professional competence; may be one offered in a graduate reporting program or a creative project designed to meet a particular interest of student. Graded on S/U basis only.
Credit Hour: 1-9

JOURN 9000: Doctoral Theory and Research I
First semester of a one-year course that covers theory and method in important topic areas. Each topic would be examined from several theoretical and methodological points of view. Required of doctoral students.
Credit Hours: 3

JOURN 9001: Doctoral Theory and Research II
Continuation of JOURN 9000. Required of doctoral students.
Credit Hours: 3

JOURN 9006: Doctoral Theory and Research III
Continuation of JOURN 9000. Required of doctoral students.
Credit Hours: 3

JOURN 9008: Readings in Journalism
Directed readings for doctoral candidates. Designed to supplement work in other courses and to broaden student's knowledge of trends, interpretations and developments in the media.
Credit Hour: 1-5

JOURN 9010: Doctoral Research Design
This course is designed to meet the University requirement for a first-year qualifying examination process for doctoral students, involve students in research early in their programs and encourage students to recruit members of their doctoral committees.
Credit Hours: 3
JOURN 9085: Problems in Journalism
Individual work on chosen and specified problems not associated with the doctoral dissertation or project. Topic must be arranged with supervising teacher prior to registration.

Credit Hour: 1-4
Prerequisites: Doctoral students only

JOURN 9087: Professional Development
Weekly discussion session for doctoral students. Required of all doctoral students. Graded on S/U basis only.

Credit Hour: 1

JOURN 9090: Research in Journalism
Guidance for doctoral candidates engaged in investigations looking toward production of the dissertation. Graded on a S/U basis only.

Credit Hour: 1-9

Korean Courses
KOREAN 1001: Topics in Korean - General
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent. Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites: instructor's consent

KOREAN 1005: Topics in Korean - Humanities
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent. Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites: instructor's consent

KOREAN 1100: Elementary Korean I
Introductory course on Korean language. Five hours classroom instruction with one hour lab weekly.

Credit Hours: 6

KOREAN 1200: Elementary Korean II
Five hours classroom instruction with one hour lab work weekly.

Credit Hours: 6
Prerequisites: C- or better in KOREAN 1100

KOREAN 1830: Survey of East Asian History
(same as HIST 1830). Introductory survey of the history of East Asian countries (China, Korea, Vietnam, and Japan) in the past two thousand years, focusing on their cultural, economic, and political traditions as well as their transformations in the modern era. Graded on A-F basis only.

Credit Hours: 3

KOREAN 2001: Topics in Korean - General
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent. Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites: sophomore standing and instructor's consent

KOREAN 2005: Topics in Korean - Humanities
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent. Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites: sophomore standing or instructor's consent

KOREAN 2160: Intermediate Korean Language I
Intermediate Korean I continues to build on the skills students acquired in the first-year series with increasing work in authentic materials and situations in conversation and reading that encourage students to understand the use of language in its social and cultural context.

Credit Hours: 3
Prerequisites: KOREAN 1200

KOREAN 2310: Korean Civilization I
Focuses on understanding traditional Korean people and culture through examining social, political, economic, and belief systems. Considers literature, art, folklore, and history up to the late 19th century. May be taken independently of KOREAN 2320.

Credit Hours: 3

KOREAN 2320: Korean Civilization II
Considers the situation and culture of Korea at the end of the Chosun Kingdom, and the period of modernization beginning about 1876. Investigates how modernization has changed Korea by looking at attitudes, behaviors, values, philosophies, and trends of Korea in the 20th and 21st centuries. May be taken independently of KOREAN 2310.

Credit Hours: 3

KOREAN 2810: History of Korea: Premodern to Hypermodern
(same as HIST 2810). This course examines Korea historically. The area known as Korea and the people identified as Korean are considered temporally from the ancient times to the contemporary period. This course begins with the questions of what is Korea and when it became a distinct place in world history. More time is devoted to the contemporary period than other periods, and North Korea is equally considered with South Korea. This course is not only about what happened in Korea but also about how Korea's historical events are causally connected to world events, with the greater aim of universalizing Korea's historical questions.

Credit Hours: 3

KOREAN 3001: Topics in Korean-General
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent. Prerequisites: sophomore standing and instructor's consent;

Credit Hour: 1-3
KOREAN 3005: Topics in Korean - Humanities  
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent.  
Credit Hours: 3  
Prerequisites: sophomore standing

KOREAN 3160: Intermediate Korean Language II  
Continues to build on the skills students acquire in the third semester of Korean language with increasing work in authentic materials and situations in conversation and reading. Encourages students to understand the use of language in its social and cultural context.  
Credit Hours: 3  
Prerequisites: KOREAN 2160, or instructor's consent

KOREAN 3180: Advanced Korean I  
The course is designed to advance students to greater strength in oral communication competence, reading skills, and socio-cultural knowledge of Korea. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: C- or higher in KOREAN 3160, or equivalent

KOREAN 3650: Korean Politics  
This course is designed to help student understand the dynamics of Korean politics by critically examining major political issues in Korean political history since 1945. Korea is well known country as a rare example that has achieved rapid economic development as well as democratization in a short period of time in the world. However, Korea has experienced severe political struggles in the process of its political development. I assume Korea has survived three stages of political struggles, that is, the struggle for state-building, the struggle for the economic development, and the struggle for democratization which is in progress. For critical understanding of the Korean politics I will deal with the important issues in each stage of political struggles. I am also planning to deal with somewhat external issues that might have affected the Korean political process, that is, North Korean nuclear challenge and unification questions, and Sino-US rivalry in the East Asia.  
Credit Hours: 3  
Prerequisites: sophomore standing

KOREAN 3800: Korean Economic Development and US-Korean Free Trade Agreement  
Covers introductory theories of economic development and overviews Korean historical economic development plans. Aids with understanding how South Korean achieved high levels of economic development and what policies the South Korean Government implemented to spur growth. US-Korea Free Trade Agreement is a good example of how trade promotes the achievement of development goals.  
Credit Hours: 3

KOREAN 3890: Korean Society Through Cinema  
(same as FILMS_VS 3895). Examines the way in which Korean film reveals the cultural, political, and ideological orientation of the society in which it is created and circulated. Compares films from North and South Korea, considering modernity, gender, nation-hood, and class. Graded on A/F basis only.  
Credit Hours: 3  
Prerequisites: sophomore standing or instructor's consent required

KOREAN 4001: Topics in Korean-General  
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent.  
Credit Hour: 1-3  
Prerequisites: sophomore standing and instructor's consent

KOREAN 4005: Topics in Korean - Humanities  
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent.  
Credit Hour: 1-3  
Prerequisites: sophomore standing and instructor's consent

KOREAN 4220: North Korean Politics  
This course is designed to help student understand the dynamics of North Korean politics. North Korea can be described as an exceptional country in many ways. First, the transition of power in the North Korea was made through the hereditary succession like a monarchy even though it claimed to be a socialist country. Second, North Korea has survived as a socialist country, while most of the communist countries including the Soviet Union and East European countries collapsed in the late 1980s and the early 1990s. Third, the North Korea, one of the poorest countries, has developed the nuclear weapons as well as other weapons of mass destruction, threatening the international security. For critical understanding of the North Korean politics I will trace the Korean communist movement, and deal with the North Korean political history since 1945. I am also planning to deal with the ideology and important governmental structure including the Korean Workers' party, the Military Commission and the social control structures. Then I will examine the current issues including economic reforms, the nuclear challenge, and the several issues with the South Korea like unification questions and the conclusion of the peace treaty to end the Korean War.  
Credit Hours: 3  
Prerequisites: junior standing required

KOREAN 4260: The Korean Diaspora in the U.S., Japan and China  
Interdisciplinary course related to the phenomenon of migration and settlement from Korea. Course seeks to deepen understanding of the ways in which Korean immigrants have shaped and continue to shape social thought as well as institutions in the United States, Japan and China. Draws upon literature, history and cultural studies to examine experiences of Koreans living in the U.S., Japan and China. Through reading critical literatures, students address issues such as immigration history, race/ethnicity, racism and resistance, gender and sexuality, culture and identity, labor, migration and globalization, class, education, religion.  
Credit Hours: 3

KOREAN 4690: Korean Politics - South and North Korea  
(same as POL_SC 4690). This course is designed to help student understand the dynamics of Korean politics by critically examining major
political issues in Korean political history since 1945. Korea is the only country that still remained in the Cold War international structure. Since the division of Korean peninsula, the two Koreas are competing each other for the legitimacy among Koreans. For critical understanding of the Korean politics, I will first deal with the division of Korean peninsula and emergence of two Koreas, Korean war and the political implication of the two Koreas. And then I will focus on the South Korean politics of which country that is well known as a rare example that has achieved rapid economic growth as well as democratization in a short period of time in the world. I am also planning to deal with several issues that might have affected the South-North Korean politics, that is. ROK-US Alliance, North Korean nuclear challenge and unification questions, and Sino-US rivalry in the East Asia.

Credit Hours: 3

KOREAN 4867: North Korea: History, Political Economy, Culture (same as HIST 4867). The aim of this course is to survey North Korea’s history, especially in terms of political economy and culture. Through several themes, we will examine the historical situations of North Korea from its beginnings in the postliberation period to the present, as North Korea undergoes monumental changes. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: sophomore standing, or instructor's consent

Laboratory Animal Medicine Courses

LAB_AN 8090: Research in Laboratory Animal Medicine
Research expected to terminate in a thesis. Graded on a S/U basis only.
Credit Hour: 1-99

LAB_AN 9087: Seminar in Laboratory Animal Medicine
Theme-oriented seminars and discussions in the field of laboratory animal medicine, comparative medicine or related areas. Graded on S/U basis only.
Credit Hour: 1
Prerequisites: departmental consent

LAB_AN 9437: Pathology of Laboratory Animals
Pathogenesis, pathology and diagnosis of naturally occurring diseases in animals used in research.
Credit Hours: 4
Prerequisites: departmental consent

LAB_AN 9468: Laboratory Animal Biology
Anatomy, taxonomy, reproduction, genetics, nutrition, and behavior of common laboratory animals. Emphasis is placed on mice and rats, including genetically-engineered models with comparative discussions on other laboratory animals. Prerequisites: departmental consent
Credit Hours: 4

LAB_AN 9469: Laboratory Animal Resource Management
Policies, standards and regulations in the care and use of laboratory animals, including colony management, animal procurement, cost accounting, facility design, and supervisory skills.
Credit Hours: 4

Prerequisites: departmental consent

LAB_AN 9476: Grant and Manuscript Writing for Biomedical Researchers
Topics include experimental design applied biostatics and writing effective grant proposals and scientific manuscripts. Methods include lecture, discussion and assignments including an individual grant proposal which will be reviewed by a mock study section.
Credit Hours: 3
Prerequisites: LAB_AN 9475; instructor's consent

LAB_AN 9477: Laboratory and Project Management
This course will provide graduates with professional development skills and career guidance including instruction in laboratory and project management. Topics will include job searching, start-up considerations, equipping a lab, personnel management and budget management. Graded on S/U basis only.
Credit Hour: 1
Prerequisites: enrollment in Comparative Medicine Area Program or approval of course coordinator

Latin Courses

LATIN 1100: Elementary Latin I
Forms, grammar, syntax.
Credit Hours: 4

LATIN 1100H: Honors Elementary Latin
Beginning Latin for Honors Eligible students.
Credit Hours: 4
Prerequisites: Honors eligibility required

LATIN 1200: Elementary Latin II
Continuation of LATIN 1100.
Credit Hours: 4
Prerequisites: LATIN 1100

LATIN 1200H: Honors Elementary Latin II
Continuation of LATIN 1100H.
Credit Hours: 4
Prerequisites: LATIN 1100. Honors eligibility required

LATIN 2000: Latin Reading
Readings in Latin prose and poetry.
Credit Hours: 3
Prerequisites: LATIN 1200

LATIN 2000H: Latin Reading - Honors
Readings in Latin prose and poetry.
Credit Hours: 3
Prerequisites: LATIN 1200. Honors eligibility required
LATIN 4121: Methods of Teaching Foreign Languages
(same as SPAN 4120, FRENCH 4120). Theory and techniques of current foreign language methodology and their application in the classroom. Presentation of instructional projects, classroom observations, and strategies for classroom management. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: departmental consent

LATIN 4300: Latin Poetry
(cross-leveled with LATIN 7300). Readings in selections from the Latin poets.
Credit Hours: 3
Prerequisites: LATIN 2000

LATIN 4350: Latin Prose
(cross-leveled with LATIN 7350). Selections from various Latin prose writers; some composition at instructor's discretion.
Credit Hours: 3
Prerequisites: LATIN 2000

LATIN 4500: Latin Stylistics
(cross-leveled with LATIN 7500). Study and writing of connected prose compositions.
Credit Hour: 1-3
Recommended: LATIN 4300

LATIN 4510: Age of the Scipios
(cross-leveled with LATIN 7510). Critical readings in and integrated analyses of the culture of the second century B.C.
Credit Hours: 3-6
Recommended: LATIN 4300

LATIN 4520: Age of Cicero
(cross-leveled with LATIN 7520). Critical readings in and integrated analyses of the culture of the last decades of the Roman Republic.
Credit Hours: 3
Recommended: LATIN 4300

LATIN 4530: Vergil
(cross-leveled with LATIN 7530). Readings, discussion, and literary analysis of Vergil Aeneid.
Credit Hours: 3
Recommended: LATIN 4300

LATIN 4540: Augustan Literature
Critical readings in and integrated analyses of the culture of Augustan Rome.
Credit Hours: 3
Recommended: LATIN 4300

LATIN 4580: The Theodosian Age
(cross-leveled with LATIN 7580). A survey of major literary works of the late fourth and early fifth centuries. Readings from Augustine, Ambrose, Prudentius, Paulinus of Nola, Ammianus Marcellinus, Claudian.

LATIN 4590: Medieval Latin
(cross-leveled with LATIN 7590). Selected texts of Middle Ages and Renaissance. For students with primary interest in history, literature, philosophy, religion, Romance philology, or the classical tradition, experience with Latin sources in their field.
Credit Hours: 3
Recommended: LATIN 4300

LATIN 4600: Survey of Latin Literature
(cross-leveled with LATIN 4600). Latin literature from origins to end of Roman Empire; emphasis on authors not covered in other courses, to provide general view of styles and genres.
Credit Hours: 3
Recommended: LATIN 4300

LATIN 4960: Special Readings in Latin
Readings in authors and texts not covered in other courses.
Credit Hour: 1-3
Recommended: LATIN 4300

LATIN 7300: Latin Poetry
(cross-leveled with LATIN 4300). Readings in selections from the Latin poets. Available to students for graduate credit in departments other than Classical Studies.
Credit Hours: 3
Prerequisites: LATIN 2000 or equivalent

LATIN 7350: Latin Prose
(cross-leveled with LATIN 4350). Selections from various Latin prose writers; some composition at instructor's discretion. Available to students for graduate credit in departments other than Classical Studies.
Credit Hours: 3
Prerequisites: LATIN 2000

LATIN 7500: Latin Stylistics
(cross-leveled with LATIN 4500). Study and writing of connected prose compositions.
Credit Hours: 3
Prerequisites: two years classical Latin or equivalent

LATIN 7510: Age of the Scipios
(cross-leveled with LATIN 4510). Critical readings in and integrated analyses of the culture of the second century B.C.
Credit Hours: 3-6
Prerequisites: two years Classical Latin or equivalent

LATIN 7520: Age of Cicero
(cross-leveled with LATIN 4520). Critical readings in and integrated analyses of the culture of the last decades of the Roman Republic.
Credit Hours: 3

taken by AI rather than humans); and yes, what happens when you click 'I agree.' Although we discuss computer technology, this is not a high-tech class. You will not need any technical expertise beyond knowing about email, the world wide web, and texting.

Credit Hour: 1-3

LAW 2010H: Law of the Internet - Honors
Society has moved online - so have our legal disputes. Most of us have tapped 'I agree' without reading the fine print; streamed copyrighted works without paying a license fee; and creeped someone via google and social media. Most of us have also been digitally hacked, phished, and spied upon; our personal data has been collected by private and governmental entities; and we have repeatedly heard these buzzwords of network neutrality and bitcoin. This is a survey course in the law of the internet - civics of the internet. We cover regulation of the internet and big media companies such as Facebook and Google; privacy law from various angles; liability for various nefarious activities (including actions taken by AI rather than humans); and yes, what happens when you click 'I agree.' Although we discuss computer technology, this is not a high-tech class. You will not need any technical expertise beyond knowing about email, the world wide web, and texting.

Credit Hour: 1-3

Prerequisites: Honors eligibility required

LAW 3800: Logical Reasoning and Legal Analysis
This course provides students with the basic concepts necessary to improve their scores on the Law School Admission Test (LSAT), thereby improving their proficiency in key skills such as reading comprehension, analytical reasoning, and logical reasoning. The course will consist of (1) readings and lectures; (2) ten practice tests taken as homework, corrections to practice tests, and (3) a final exam. Graded on A-F basis only.

Credit Hours: 3

LAW 4001: Topics in Law - General
Organized study of selected topics in law. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent. Graded on A-F basis only.

Credit Hour: 1-3

LAW 4940: Internships in Law
This course is designed to help students learn how the law affects working environments of all kinds, from businesses to government agencies to non-profit organizations. Students will arrange an internship with an organization of their choice and will obtain work experience in a professional setting. Students will then complete assignments related to how various sources of law (such as state and federal statutes, state and federal regulations, and state and federal court opinions) affect that organization. Graded on S/U basis only.

Credit Hour: 1-6

Prerequisites: Students must have completed at least 55 credit hours before taking this course. Students must have an overall GPA of at least 2.00

LAW 5010: Civil Procedure I
Fundamental and recurrent problems in civil actions in federal and state courts; remedies; pleading; discovery; trials; jurisdiction; appeals; joinder; and preclusion.

Credit Hour: 1-3

LAW 5015: Civil Procedure II
Continuation of LAW 5010.

Credit Hour: 1-3

LAW 5020: Contracts I
Contract formation, insufficient and defective agreement, bases of promissory liability (including consideration and promissory estoppel), restitution, and abuse of bargaining process, Statutes of Frauds, parol evidence rule and principles of interpretation, contract performance and risk allocation, remedies for breach.

Credit Hour: 1-3

LAW 5025: Contracts II
A continuation of Law 5020

Credit Hour: 1-3

LAW 5035: Criminal Law
The purposes of criminal law; nature of criminal responsibility; characteristics of particular crimes.

Credit Hour: 1-4

LAW 5040: Property I
Classification of property; personal property; possession, bailment, lien, gift, bona fide purchase; land conveyancing at common law under statute of uses; freehold estate in land; concurrent estate in land; and introduction to future interests.

Credit Hours: 3

LAW 5045: Property II
Landlord and tenant; easements, profits, and licenses; support; introduction to water rights, nuisance, covenants running with the land, equitable servitudes, zoning, and modern conveyances.

Credit Hours: 3

LAW 5050: Property
Classification of real and personal property; rights to found goods; bailments; possession and adverse possession; estates in land and future interests; concurrent ownership; Landlord and tenant; easements, profits and licenses; covenants running with land and equitable servitudes; contracts for the sale of land; conveyancing.

Credit Hour: 1-5

LAW 5070: Torts
Principles and practices governing recovery of damages for injuries to person or property. Topics typically covered are intentional torts, negligence, strict liability, products liability, immunities and a survey of various 'no fault' proposals.
LAW 5080: Legal Research and Writing
An introduction to the basics of legal research, legal citation and legal writing. Each student writes two objective office memoranda, and a client letter.
Credit Hour: 1-3

LAW 5085: Advocacy and Research
An introduction to Computer Assisted Legal Research, written advocacy, oral advocacy, and the Missouri rules of appellate procedure. Each student writes a trial court motion and brief and then argues that motion. Each student also writes an appellate brief and presents an oral argument in the First Year Moot Court Competition directed by the Board of Advocates (BOA).
Credit Hour: 1-3

LAW 5090: Foundations of Legal Studies II
A limited enrollment course designed to assist first-year students to better understand the legal system, prepare for examinations and improve their legal analysis and reasoning skills. Graded on S/U basis only.
Credit Hour: 1-2

LAW 5095: Lawyering: Problem Solving and Dispute Resolution
The course is designed to provide students an introduction to critical lawyering skills; to give students an overview of the alternative processes that a lawyer can employ to resolve a client’s problem; and to offer students an understanding of the lawyer’s role as a problem solver. It includes an introduction to Interviewing, Counseling, Negotiation, Mediation, Arbitration, mixed dispute resolution processes and ways to choose or build dispute resolution processes.
Credit Hour: 1-2

LAW 5220: Constitutional Law
Study of theories of judicial review and justiciability; sources of federal legislative power, commerce, taxing, spending, treaty, presidential, military powers; power of states to regulate and tax interstate commerce; preemption; state actions doctrine; due process, equal protection, and First Amendment rights.
Credit Hour: 1-4

LAW 5240: Criminal Procedure
Constitutional and other limitations placed upon law enforcement officers and prosecutors.
Credit Hour: 1-3

LAW 5260: Evidence
The basic law of evidence; use in trials, relevancy, circumstantial proof and real proof; use of witnesses; methods of examination; presumptions and burden of proof; and, functions of judge and jury.
Credit Hour: 1-4

LAW 5280: Professional Responsibility
Responsibilities of lawyer to client, courts and the public. Topics include: organization of the legal profession, fees, conflicts of interest, the confidential relationship, advertising and solicitation, unauthorized practice and courtroom behavior.
Credit Hour: 1-3

LAW 5310: Administrative Law
Administrative Law is concerned with the process government agencies use to make decisions. As such it develops the requirements for establishing rules and policies. It also covers the means by which agencies enforce regulations and statutory provisions, and the means for securing judicial review of rules and enforcement actions.
Credit Hour: 1-3

LAW 5320: Advanced Legal Research
Skills training in advanced research techniques and resources used in law practice. Designed to help students become critical legal information consumers with an emphasis on developing effective, cost-efficient research strategies. Topics include advanced litigation research, legislative and regulatory history, audience research, research in transactional practice areas, and research in other practice areas including legal ethics, public interest law, and international law. In-depth practice with Lexis, Westlaw and free Internet sources, including appropriate and effective use of social networking tools to extend research is also taught.
Credit Hour: 1-2

LAW 5321: Advanced Legal Writing
This course is designed to help students think purposefully about the process of writing and to practice writing and editing in a disciplined way. Students will do exercises involving: rhetorical techniques; grammar; punctuation; and, word usage. Students also will either rewrite or critique portions of appellate briefs or judicial opinions to emphasize a particular technique.
Credit Hour: 1-3

LAW 5322: Advanced Torts: Dignitary and Economic Torts
The course will examine dignitary and economic torts covering but not limited to such topics as: defamation, invasion of privacy, tortious interference, misrepresentation and injurious falsehood. Unlike tortious conduct that results in an individual suffering physical harm or contact, the claims that arise from these torts represent one of two kinds of non-physical injury - independent dignitary harms that are similar to or include emotional harms or independent economic or commercial harms. The purpose of the course is to provide students with an opportunity to explore tortious conduct and remedies available that are omitted typically from the First Year Torts course.
Credit Hour: 1-3

LAW 5325: Advanced Trial Practice
This course will expand student knowledge of opening statements, direct/cross examination of witnesses, jury instructions, and closing arguments. The course also will focus significantly on the examination/ cross examination of expert witnesses. Grading is based on student participation in the examination of witnesses and a semester-ending
written trial brief. NOTE: Intersession Trial Practice will not satisfy the prerequisite.

Credit Hour: 1-3
Prerequisites: LAW 5260 Evidence and LAW 5925 Trial Practice

LAW 5330: Advocacy, Family Violence and Public Policy
Interdisciplinary presentations examine both the state of family violence in America and the cross disciplinary issues in effective intervention, including legal procedures. The seminar is open to 2nd or 3rd year law students and other professional graduate students with permission of the faculty.

Credit Hour: 1-2

LAW 5337: American Legal History to 1876
This is a review of Legal History. The course covers such topics as the impact of the English common law heritage; the development of law in the American colonies; and, slavery, race and gender in 19th century America. The course ends with the conclusion of the Civil War. The course will explore the effects of historical events on the development of law, but the course does not presume prior study of American history.

Credit Hour: 1-3

LAW 5338: American Legal History from 1876
Historical study of the development of American law since the Civil War. The course will cover such topics as the Civil War amendments to the Constitution; Reconstruction and its aftermath; legal change during the rise of industrialism; race and gender in late 19th century and 20th century America; law in the Progressive Era; the growth of civil liberties and civil rights in the Supreme Court; the law during war and the Depression; jurisprudential trends; and the Civil Rights Movement of the 1960s. The course will explore the effects of historical events on the development of law, but the course does not presume prior study of American history.

Credit Hour: 1-3

LAW 5340: Antitrust Law
Introduces antitrust and economic analysis and the role of competition, with an emphasis on price fixing, horizontal and vertical restraints of trade, monopoly, and merger problems.

Credit Hour: 1-3

LAW 5345: Appellate Advocacy
The course enhances skills training for the preservation and presentation of matters on appeal. In addition, the courses provides an introductory examination of extraordinary remedies (as a complement to appeal) and other unique actions filed in the Supreme Court of Missouri.

Credit Hour: 1-3

LAW 5350: Arbitration
Law, policy and practices relating to the arbitration process as it is utilized in commercial and international sectors. Topics include modern arbitration statutes (e.g., the Federal Arbitration Act), enforceability of agreements to arbitrate, public policy defenses against enforcement of arbitration agreements, arbitrators and administering institutions, components of the arbitral process, arbitral remedies and awards, and the arbitration award in the courts.

Credit Hour: 1-3

LAW 5365: Bankruptcy
The course focuses on the rights of both secured and unsecured creditors under state and federal law. State law covers collective actions and individual actions such as execution, attachment, garnishment, and the law of fraudulent conveyances. Federal law concentrates on liquidation proceedings under Chapter 7 of the Bankruptcy Code and reorganizations for wage earners under Chapter 13 of the Code. The course will include, as time permits, an introduction to the business reorganization provisions of Chapter 11.

Credit Hour: 1-3

LAW 5370: Basic Business Principles for Lawyers
This course is designed for students who want to understand the language and practices of business regardless of whether they contemplate being a business lawyer or not. All lawyers, regardless of their specialty, regularly encounter the language and concepts of business. The purpose of the class is to provide law students with little or no business knowledge or background with the information they need to practice law effectively in a business environment. This class is intended to educate students to be comfortable with business concepts regardless of their prior background. So liberal arts undergraduates should feel comfortable taking this class.

Credit Hour: 1-3

LAW 5375: Basic Federal Income Taxation
The course is designed to introduce students to the income tax considerations that arise in a variety of legal contexts and is also beneficial for students not planning to pursue a career in tax. Topics covered are federal income tax problems of individual taxpayers; nature of income; when and to whom income is taxable; exclusion from tax base; deduction; tax effects of exchange or other disposition of capital assets.

Credit Hour: 1-4

LAW 5392: Business, Entrepreneurship, and Tax Law Review
The Business, Entrepreneurship, and Tax Law Review (BETR) is affiliated with the Center for Intellectual Property and Entrepreneurship (CIPE). The BET Review journal will give students an opportunity to hone their legal research and writing skills, as well as their leadership skills as editors of the journal, on contemporary issues in growing areas of legal practice. It will also provide an outlet for the publication of articles stemming from symposia and a colloquium series that will be held on topics in the fields of intellectual property, entrepreneurship, and tax. Graded on S/U basis only.

Credit Hour: 1-2

LAW 5395: Business Organizations
The course is the law school's foundation course in business law. Topics covered include the study of agency, partnership, limited partnerships, limited liability partnerships, limited liability companies, and corporations. It is recommended for students in all areas of interest. The course is a prerequisite for several advanced electives in business law.

Credit Hour: 1-4
LAW 5410: Children and the Law
The course covers the status, rights and obligations of children in contemporary American law; civil proceedings and criminal prosecutions alleging child abuse or neglect; foster care; termination of parental rights; juvenile protective legislation; and delinquency. Emphasis is placed on juvenile justice doctrine, policy and practice issues and the historical and contemporary operation of juvenile and family courts.
Credit Hour: 1-3

LAW 5415: Constitutional and Civil Rights Litigation
The course provides advanced analysis of the protection of civil liberties that derive from the United States Constitution and federal statutes. The statutes which will be covered most extensively include the Reconstruction Era laws now codified at 42 U.S.C. Sections 1981, 1983 and 1985; the Rehabilitation Act of 1973; Title IX of the Educational Amends. of 1972; and, Titles II and VI of the Civil Rights Acts of 1964.
Credit Hour: 1-3

LAW 5420: Client Interviewing and Counseling
The course covers the nature and conduct of the counseling process including basic interviewing techniques, psychological factors affecting the interview process, facilitating and structuring the interview, clarification of statements and ascertaining legal issues, and dealing with client resistance and hostility. Graded on S/U basis only.
Credit Hour: 1-3

LAW 5425: Clinical Skills
The course provides the skills training for students enrolled in the Criminal Clinic. Lectures and simulations are designed to facilitate student skills in case preparation and presentation and client representation. The course provides students with experience in addressing ethical concerns, conducting fact investigation, client interviewing and counseling, drafting legal documents, direct and cross examination, and, making and responding to objections. (Not available to students on probation).
Credit Hour: 1-4
Prerequisites: LAW 5260 Evidence and LAW 5280 Professional Responsibility
Corequisites: LAW 5470 Criminal Clinic and LAW 5475 Criminal Clinic Writing Project

LAW 5430: Commercial Real Estate Leasing
The course is a seminar focusing on the study of selected topics involved in the negotiation, drafting, and interpretation of commercial real estate leases. Topics will include but are not limited to: rental provisions, defining the premises, use of the premises, condition of the premises, assignments and subleases, maintenance and repairs, casualty insurance, default/remedies, and collateral lease documentation. The course looks at the various parties involved in the process of commercial real estate leasing, their respective interests, and the dynamics of the negotiation and drafting process in which these parties memorialize their respective interests in the lease document. There is a heavy focus upon the careful reading, review, negotiation and revision of the lease document. Grading is based upon a series of exercises involving document review, negotiation, and drafting, and includes both individual and group work.
Credit Hour: 1-3
Prerequisites: LAW 5856 Real Estate Finance, or LAW 5858 Real Estate Transactions, or LAW 5697 Landlord/Tenant Law and Practice

LAW 5435: Comparative Law
The course examines the differences and similarities between the major legal systems of the world, focusing on distant areas of substantive and procedural law to demonstrate diverse methods of addressing similar legal issues. The course includes a discussion of the historical distinctions between the common and civil law traditions but also moves the analysis forward to address more recent legal innovations and the recognition of new groupings of legal systems. Students will leave the class with a solid understanding of (1) how U.S. legal principles compare to approaches used elsewhere and (2) the uses and benefits of the comparative approach. Principles taught in this course will be equally applicable to those who anticipate practicing domestic U.S. law as well as those who expect to develop an international practice. No foreign language skills are necessary for this course.
Credit Hour: 1-3

LAW 5440: Complex Litigation
The course will examine principles and practical techniques relevant to complex civil cases. Building on civil procedure, the course will focus on litigation involving multiple parties and/or multiple jurisdictions. Each student will be required to complete several drafting assignments.
Credit Hour: 1-3

LAW 5441: Complex Litigation: Mass Torts
This course will explore aspects of complex civil litigation through the lens of mass torts lawsuits. It will specifically examine issues such as discovery and scientific evidence, alternative liability issues, class action and multi-district litigation, and alternatives to litigation. This course will involve a final exam.
Credit Hour: 1-3

LAW 5450: Conflict and Conflict Management
The course is designed to give lawyers a better understanding of the meaning and dynamics of conflict, so that they may better understand their client’s situations, as well as the mechanisms that may be most appropriate to the resolution of any particular dispute. The course draws its theoretical teachings from a variety of disciplines beyond law: psychology, sociology, anthropology and economics.
Credit Hour: 1-3

LAW 5454: Contract Drafting
The course teaches students the principles of drafting commercial agreements. Although the course will be of particular interest to students pursuing a corporate or commercial law career, the concepts are applicable to any transactional practice. Students will learn how transactional lawyers translate business deals into contract provisions, as well as techniques for minimizing ambiguity and drafting with clarity. Through a combination of lecture, hands-on drafting exercises and extensive homework assignments, students will learn about different types of contracts, other documents used in commercial transactions,
and the drafting problems that contracts and other documents present. Course will also focus on how a drafter can add value to a deal by finding, analyzing and resolving business issues. Grades will be based on the graded assignments, good faith completion of the ungraded assignments, and class participation.

**Credit Hour:** 1-3

**LAW 5455: Copyright Law**
The course examines the nature of copyright law; common law misappropriation; scope of common law copyrights; the Copyright Revision Act of 1976 as amended; formalities of registration (fixation, copyright notice); copyrightable subject matter; originality; exclusive rights of copyright owner; scope of copyright protection; substantial similarity and infringement; fair use; joint and composite works; duration, renewal, termination, transfer; remedies; artists moral rights; federal preemption; international protection; copyrightability of computer software; and, copyright issues on the internet.

**Credit Hour:** 1-3

**Prerequisites or Corequisites:** Must have taken or be currently enrolled in LAW 5375 Basic Federal Income Taxation

**Prerequisites:** LAW 5375 Basic Federal Income Taxation

**LAW 5465: Corporate Taxation**
The course provides an in-depth study of the federal income taxation of corporations and their shareholders, including the tax aspects of forming and capitalizing a corporation, corporate distributions, redemptions, and taxable and tax-free corporate liquidations. This course will be taught using the problem method of instruction.

**Credit Hour:** 1-3

**Prerequisites or Corequisites:** Must have taken or be currently enrolled in LAW 5375 Basic Federal Income Taxation

**Prerequisites:** LAW 5375 Basic Federal Income Taxation

**LAW 5470: Criminal Clinic**
The Criminal Clinic is available during both the Fall and Winter semesters. It can only be taken once. Enrollment is limited to 8 students per semester. Students must also enroll in Clinical Skills and Criminal Clinic Writing Project and have completed, or be enrolled in, LAW 5280 Professional Responsibility and LAW 5260 Evidence. (Not available to students on probation).

**Credit Hour:** 1-5

**Prerequisites:** LAW 5280 Professional Responsibility, LAW 5260 Evidence. Students must have prior permission of professor

**LAW 5475: Criminal Clinic Writing Project**
This is the Writing Section accompanying course LAW 5470.

**Credit Hour:** 1-2

**LAW 5477: Criminal Justice Administration**
The course reviews the justice system's processing of formal criminal cases from the point at which a defendant is formally charged and going forward. The course reviews the processing and adjudication of criminal cases. Topics include the defendant's rights under the Sixth Amendment (e.g. jury trial, speedy trial, confrontation clause, and compulsory process rights); Eighth Amendment issues (e.g. bail and cruel and unusual punishment); criminal discovery (e.g. the prosecutor's Brady obligation to provide exculpatory evidence to defendants); expert witnesses; pretrial and trial publicity; plea bargaining; sentencing (e.g. use of discretionary guidelines and minimum mandatory systems); and appeals. This will be both an advanced criminal procedure course (similar to 'bail to jail' courses at other law schools) and an advanced criminal law course.

**Credit Hour:** 1-3

**Recommended:** successful completion both LAW 5035 Criminal Law and LAW 5240 Criminal Procedure before taking this course

**LAW 5485: Cross-Cultural Dispute Resolution**
The course will focus on the impact culture can have on the private ordering of disputes. Culture affects communication, perceptions regarding conflict and methods for resolution. As the world becomes more interrelated and Missouri and the U.S. more diverse, lawyers need to be prepared to resolve problems across cultural lines. 20-25% of the grade will come from timely attendance and class participation.

**Credit Hour:** 1-3

**LAW 5496: Deal Skills Class**
The course introduces students to business and legal issues common to commercial transactions. Class will emphasize the thought process involved in, and required by, the practice of transactional law, skills such as interviewing, counseling and communicating with your client, understanding business issues and drafting contract provisions to reflect those issues, negotiation deals and managing a transaction closing. Simulation exercise, in-class role-play and lectures, out-of-class due diligence, negotiation and other exercises.

**Credit Hour:** 1-3

**Prerequisites:** Either LAW 5395 - Business Organization or LAW 5454 - Contracting Drafting. Students cannot enroll concurrently in Corporate Finance and Deal Skills. Students who have completed Deal Skills are precluded from enrolling in Corporate Finance. However, students are allowed to enroll in Deal Skills even if they have already taken Corporate Finance

**LAW 5497: Death Penalty Law**
The course will focus primarily on the U.S. Supreme Court's capital punishment jurisprudence over the past 35 years or more, with particular attention to how it has shaped state statutory schemes and legal argumentation in capital sentencing trials.

**Credit Hour:** 1-3

**LAW 5516: Dispute Resolution in the Digital Age**
The course will explore the need for expanded and equalized access to remedies in consumer cases, and how the internet opens doors to online dispute resolution (ODR) systems that utilize cost-effective negotiation, mediation, and arbitration processes for resolving complaints. ODR has its drawbacks, but it can be especially effective and satisfying for low dollar claims such as those in most consumer contexts because of its efficiencies. ODR also has potential to ease power imbalances that have hindered market regulation. Accordingly, this course will look at the various systems currently used by major companies such as eBay, as well as the rules and treaty developments in global markets. We also will do ODR simulation exercises, led by Colin Rule, who has been a leader in creating ODR systems. The class also will include deep consideration of both the potential and drawbacks of ODR systems. All ODR processes are not beneficial, and thus we will also discuss development of best practices and question policy directions.

**Credit Hour:** 1-4
LAW 5520: Drafting of Legal Instruments
The course examines problems frequently encountered in general office practice (land transfers, mortgages, leases, contracts, wills, business organizations, etc.), with drafting of the related instruments. Use and adaptation of legal forms. Graded on S/U basis only.

Credit Hour: 1-2

LAW 5525: Education Law
This course examines the application of discrete doctrines from criminal law, constitutional law, juvenile law, employment law, and disability law to the legal problems facing American schools. Students will explore the ways in which the objectives of these discrete legal doctrines either promote or interfere with our educational policies. Substantive areas of concentration include state regulation of education; freedom of speech, association and religion; equal educational opportunity; employment of teachers; and discipline of students.

Credit Hour: 1-3

LAW 5530: Elder Law
This course address legal issues impacting older individuals, including discussion of government benefits (Social Security, Medicaid, Medicare, Supplemental Security Income), long-term care (types, contract issues, civil rights, and financial planning), guardianship and conservatorship, planning for incapacity, and health care decisions at the end of life. The course emphasizes planning techniques for the average client. Grade will be based on a short paper and take-home exam. The course may be taken for writing credit.

Credit Hour: 1-3

LAW 5532: Election Law
Election Law has become more important in recent years. This course will introduce students to the many theoretical and practical constitutional, statutory, common law, and policy issues that accompany the franchise, including: legislative districting, voting rights, campaign finance, political parties, interest groups, direct democracy, and alternative democratic structures. The course will emphasize federal law, but will also address Missouri state law as appropriate.

Credit Hour: 1-3

LAW 5534: Electronic Discovery
This course provides an in-depth treatment of the legal, technical, and cost management issues involving electronically stored information ('ESI') in civil litigation. Covers the 2006 FRCP ESI amendments (Rules 26 meet and confer, 34, production, and 37 sanctions), FRE 502 (privilege review and production), state e-discovery rules, the rapidly developing ESI case law, and emerging best practices from the Sedona Conference Cooperation Proclamation, the Electronic Discovery Reference Model, and other E-discovery authorities. Practice drafting litigation holds, preservation orders, and related e-discovery documents regularly used in civil litigation. Grading is based on student projects and a final examination.

Credit Hour: 1-3

LAW 5537: Emotional Intelligence in Law
Success in law requires more than substantive legal knowledge. It also requires self-awareness, or ‘emotional intelligence,’ by the lawyer in order to be able to operate effectively in a complex and nuanced legal environment. This course is designed to help students develop their emotional intelligence by cultivating such personal and social competencies as personal and social awareness, understanding of motivation, empathy and social skills.

Credit Hour: 1-3

LAW 5540: Employment Discrimination
This course examines the laws which prohibit discriminatory practices in employment. Title VII is the primary focus, but coverage is also given to the Equal Pay Act, the Americans with Disabilities Act, and the Age Discrimination in Employment Act. Additionally, the course addresses the administrative process available for dealing with employment discrimination complaints, the prima facie case requirement and burden shifting analysis used in civil rights cases, and affirmative action requirements.

Credit Hour: 1-3

LAW 5543: Employment Law
Employment Law focuses on the legal relationship between employers and employees in the non-unionized workplace. The course will survey a variety of issues regarding the establishment, maintenance and termination of the employment relationship. For example, the course will cover the common law aspects of that relationship, particularly contracts and torts. It will examine statutory modifications of the common law in areas such as wage and hours, pensions, whistle-blower protection, unemployment insurance, workers compensation, and health and safety.

Credit Hour: 1-3

LAW 5544: Entrepreneurship Legal Clinic
The Entrepreneurship Legal Clinic (the 'ELC') combines business law issues, intellectual property, and transactional experiential learning. The ELC explores the lawyer's role as counsel to entrepreneurs engaged in early-stage ventures. Students will survey the legal and business issues encountered by entrepreneurs and develop the practical skills necessary to effectively represent them, including client interviewing and counseling, entity formation and planning, governance issues, employee issues, intellectual property analysis (except patents [presently]), and contract drafting. Students will work on actual client matters approved by the ELC's Supervising Attorney. Students must have the Supervising Attorney's permission to enroll, and they must satisfy the Requisites listed below. The Clinic is graded and enrollment is limited.

Credit Hour: 1-4
Corequisites: LAW 5280 - Professional Responsibility
Recommended: LAW 5395 - Business Organizations

LAW 5545: Environmental Law
Federal and state regulation of the environment, including the economic and philosophical foundations of environmental regulation, the common law roots of environmental regulation, and substantive coverage of a number of environmental statutes, such as the Clean Air Act, Clean Water Act, Resource Conservation and Recovery Act, Comprehensive Environmental Response, Compensation and Liability Act, National Environmental Policy Act, and Endangered Species Act.
Credit Hour: 1-3

LAW 5555: Estate Planning
Applies substantive law learned in Estates and Trusts and Basic Income Tax to the drafting of estate planning documents and related documents typical of those used in law practice. Grade based entirely on student projects.

Credit Hour: 1-4
Prerequisites: LAW 5560 and LAW 5375

LAW 5560: Estates and Trusts
Wills: probate process and will contests, intestate succession; restrictions on testation; execution, revival of wills; integration, incorporation by reference, events of independent significance; will substitutes; will construction; family protection. Trusts: elements and creations; modification and termination; charitable trusts; trust construction; powers of appointment; trust administration and fiduciary duties.

Credit Hour: 1-4

LAW 5570: Externship
The Externship offers students an opportunity to develop the skills necessary to bridge the gap between law school and law practice. Through the Externship, students prepare for effective and responsible participation in the legal profession (ABA Std. 301) by applying the core concepts learned in law school courses to the challenges presented in the actual, in-office practice of law. Details concerning the requirements and structure of the course are available at the Externship webpage. Students cannot take more than 6 hours of Externship credits, except in the Semester-in-Practice program and subjected to the additional limitations of that program. Credits earned in Landlord/Tenant Practicum and ethical and policy issues.

Credit Hour: 1-9

LAW 5575: Family Law
After surveying the variety of family arrangements in contemporary America and central issues concerning the practice of domestic relations law, this course covers marriage; dissolution; distribution of marital property; alimony; child custody; visitation and support; post-dissolution disputes over custody and child-rearing; non-marital families and non-marital children; private agreements in family law; and alternative dispute resolution in collaboration with other professions in client representations, and ethical and policy issues.

Credit Hour: 1-3

LAW 5580: Family Violence Clinic: Individual and Social Justice
Rule 13 certified law students represent needy abused women and children in 13 rural Missouri counties. Students obtain orders of protection in adult abuse courts, and appear in protective custody cases in juvenile courts. Weekly debriefings may include interprofessional graduate students. Law students must complete LAW 5330 Advocacy, Family Violence and Public Policy before or during their clinical experience. (Not available to students on probation).

Credit Hour: 1-4
Prerequisites: LAW 5280 Professional Responsibility
Corequisites: LAW 5330 Advocacy, Family Violence and Public Policy

Recommended: LAW 5260 Evidence

LAW 5584: Fiduciary Administration
This course will cover key issues that arise in the administration of decedent's estates and trusts, including the necessity for probate, rights of creditors, the fiduciary obligations of trustees and personal representatives, investments, and accounting and distribution. Depending on class size, grading will be based either on an exam, a practice-oriented project, or both.

Credit Hour: 1-3
Prerequisites: LAW 5560 Estates and Trusts

LAW 5585: Federal Courts
The course will examine the role of federal courts and their relationship to state courts. Topics covered: justiciability; federal question and diversity jurisdiction; sovereign immunity; abstention; and habeas corpus.

Credit Hour: 1-3
Prerequisites: LAW 5220 Constitutional Law

LAW 5590: Freedom of Speech and Association
A study of the rights of speech and association under the First Amendment of the United States Constitution. Major Supreme Court decisions regarding freedom of speech, including content-based and content-neutral restrictions of speech, regulation of commercial speech, regulation of obscenity and pornography, regulation of speech in public and private fora, libel and privacy law, forced association with persons or ideas, and subsidization of speech.

Credit Hour: 1-3

LAW 5591: Food Law and Policy
This course examines the laws that govern food safety and food labeling, and considers how well this network works to protect American consumers. It also considers current issues affecting the global food system. Representative topics include recent food safety problems such as tainted meat and salmonella contamination of eggs; food labeling issues such as the use of the term 'grass fed' in meat labeling and the use of GMO seed; organic standards; government efforts to address the obesity problem; urban food deserts; animal welfare concerns; the regulation of pet food, and the like. Specific topics addressed each semester will depend on current events and recent legal developments. Students will be graded on the basis of research paper and class participation. The course will often include a writing section designed to meet the upper-level writing requirement. The course may be offered from time to time as a paper-only course, designed to meet the upper-level writing requirement.

Credit Hour: 1-3

LAW 5592: Firearms Law
This class will examine the historical development and modern context of the regulation of firearms. Although emphasizing domestic law, some international and comparative perspectives will be examined. The class may be taken for writing credit.

Credit Hour: 1-3
Prerequisites: LAW 5220 Constitutional Law
LAW 5595: Gender, Race, Sexuality and the Law
A study of the treatment of gender by the legal system. Topics will include a survey of writings by influential feminist legal scholars, historians and social scientists; a comparison of different theoretical frameworks; and an overview of substantive law and the latest legal developments involving gender. The primary aim of the course is to study various feminist theories to discern how gender is viewed by today's lawmakers and courts.
Credit Hour: 1-3

LAW 5615: Health Law: The Regulation of Providers
An examination of the law governing the interactions between patients and their health care providers. The course will focus on rules governing the duty to treat, confidentiality, informed consent, medical malpractice liability, institutional vicarious liability, managed care liability, conditions of participation in federal programs like Medicare and Medicaid, fraud and abuse, and ERISA preemption. The course will cover antitrust and self-policing aspects of professional associations. The class also covers selected elements of public health law.
Credit Hour: 1-3

LAW 5620: Immigration Law
A study of the development of U.S. immigration and refugee law and policy, with emphasis on current immigration problems and issues. Recent changes in the immigration laws, and future trends in dealing with increasing immigrant pressure.
Credit Hour: 2-3

LAW 5632: Innocence Project Clinic
This is a joint clinic among the MU and UMKC law schools, and The Midwest Innocence Project, a non-profit organization. Law students will work under the supervision of the Clinic Director, a practicing lawyer, on cases of possible actual innocence from six states. Graded on S/U basis only.
Credit Hour: 1-4
Prerequisites: LAW 5946 Wrongful Convictions

LAW 5634: Innovation and Technology in the Practice of Law
As in other industries, the legal profession is undergoing substantial disruption. Pressure to reduce client costs in the private sector and longstanding access to justice constraints in the public sector have fueled innovation through technology and redesign of traditional legal service models. The course surveys topics at the intersection of law and technology such as artificial intelligence, Blockchain, cybersecurity, data privacy, electronic discovery, social media, and smart contracts; established law practice tech applications including practice management software and document automation; and evolving machine learning and data analytics tools to future proof law. Innovations in the delivery of public sector legal services are considered. Throughout the course, students will experience and evaluate practice tools that are essential for a lawyer's technology competency.
Credit Hour: 1-3

LAW 5640: Intellectual Property
This course is an introduction to the four broad areas of intellectual property. Students will learn about intellectual property, contract, and tort knowledge gained from the first year curriculum. The course will cover trademarks, trade secrets, patent law, and copyright law. Thus, the course will cover how one obtains the special property rights called the copyright, patent, trademark contract. Further, the course will cover how these intellectual property rights are protected from the tortious act of infringement, as well as any defense to infringement it is important to note that this introductory class cannot be used to satisfy any of the requirements for the Intellectual Property Certificate; nor is this introductory course substitute for the more in-depth coverage offered by Patent Law and Policy, Copyright Law or Trademark Law. Rather, it is designed to allow students to explore basic intellectual property issues and to meet any prerequisites for Cyberspace Law, Software Law and International Intellectual Property. Students may find that taking this introductory course complements the rest of the intellectual property curriculum. Class participation and preparations is required, as is class attendance. An exam and several small written projects will be required.
Credit Hour: 1-3

LAW 5652: International Commercial Arbitration
This course offers a study of arbitration as a dispute resolution process for international trade and business disputes. The course reviews ad hoc and institutional arbitration, the authority of arbitral panels, enforcement of agreement to arbitrate, challenging arbitrators, procedure and choice of law in arbitral proceedings, the enforcement of international arbitral awards. Special attention will be given to the international convention on the recognition and enforcement of international arbitral agreements and awards (New York Convention) and the UNCITRAL (U.N. Commission of International Trade Law) arbitral rules and model law. The course focuses on commercial arbitration as an international practice and not on arbitration under any particular national system. Students will participate in a hypothetical arbitration matter, beginning from the development of the claim to preliminary proceedings, the arbitration hearing, and ending with the arbitrators' award.
Credit Hour: 1-3
LAW 5660: International Human Rights
The purpose of this course is to enable students to develop a basic understanding of the concept of international human rights law and the role played by international and regional organizations, states and private actors in defining and enforcing human rights. Beginning with the historical origins of human rights, the course will examine the international regional human rights instruments and institutions that form the sources of human rights law (the UN system, including the Charter and treaties, European, African and Inter-American human rights regimes). It will also examine the role of non-governmental organization, the International Criminal Court and International humanitarian law (the law of war), and the interaction between US civil rights law and International human rights. Throughout the course, students will be introduced to important critical themes of human rights, including: the distinctions between public and private acts, evolving theories of statehood, sovereignty immunity, cultural relativism, and the western tradition of individual rights, and the relationship between rights and duties. Issues examined will include: political participation and democratization, religious freedom, the use of torture, corporate liability, woman's rights, the right and status of refugees, genocide and war crimes.

Credit Hour: 1-3

LAW 5665: International Law
Introduction to the international legal system, with emphasis on relations between nation-states or international entities. Topics include statehood and recognition, legislative and judicial jurisdiction, human rights and the status of the individual, treaties and international organizations.

Credit Hour: 1-3

LAW 5677: Internet Law and Practice
This course will focus on preparing to advise business clients dealing with electronic commerce and internet law issues. There is no technological background requirement or prerequisite to take the class. We will explore a variety of themes including the control over the internet by both government and private actors; how online activities differ from their off-line counterparts; and how the laws should react to new forms of interaction and social structures found online. Specific doctrinal topics include problems of digital authorship and publication including rights of anonymity, copyrights, trademarks, defamation and other torts; sales and licensing of products; marketing, advertising and data-mining, including privacy issues; jurisdiction over online actors; and cyber-squatting. Grades will be based on the final exam and an optional short paper.

Credit Hour: 1-3

LAW 5695: Labor Law
The regulation of relations between employers and labor unions at common law and under federal and state legislation; primary emphasis on the National Labor Relations Act, as amended.

Credit Hour: 1-3

LAW 5697: Landlord Tenant Law and Practice
This course focuses primarily on litigation under the Missouri Landlord Tenant statute and under federal administrative regulations governing public entities which provide housing and housing subsidies to low-income people including the processes for litigating against such entities. The course will address proper pleading, relevant evidentiary issues, and requisite settlement skills/strategies. This course is available to all 2L's and 3L's and requires Rule 13 certification. The course is required for all students enrolled in the Landlord/Tenant Practicum.

Credit Hour: 1-3

LAW 5700: Land Use Controls
This course focuses on laws governing the use and development of land. The course examines legal rules and policy considerations related to zoning, subdivision controls, building codes, historic preservation, aesthetic regulation, growth management, eminent domain, nuisance law, regional land use conflicts, development exactions, and environmental land use restrictions.

Credit Hour: 1-3

LAW 5715: Law and Economics
Study of the use of microeconomic analysis and methods in influencing the law. Topics: economic analysis of tort, contract and property law, the use and misuse of economics in the common law judging tradition, limitations on the use of economic analysis in law and links between economic analysis and constitutional law/public choice theory.

Credit Hour: 1-3
LAW 5717: The Law of Habeas Corpus and Post-Conviction Relief
Course will cover principles and practices of post-conviction remedies available to collaterally attack a criminal conviction in state and federal courts. Students will prepare post-conviction motions and petitions for a writ of habeas corpus under state and federal rules.

Credit Hour: 1-3

LAW 5721: Law Practice Management and Technology
Managing a successful law practice requires time and project management skills, as well as knowledge about the business of practicing law. This course explores the practical and ethical challenges that confront the solo or small firm lawyer. Students will be introduced to a range of resources for the solo and small firm lawyer, and gain practical experience in preparing a business plan, client welcome package, and policies and procedure manual. Material presented is relevant to both the litigation and the transactional lawyer.

Credit Hour: 1-3
Prerequisites: LAW 5280 Professional Responsibility

LAW 5723: The Law and Practice of Criminal Sentencing
This simulation-based course examines the substantive law and practical operation of state and federal criminal sentencing systems and seeks to provide students with entry-level competence as advocates in the sentencing phase of criminal cases. Students will participate in a series of simulated sentencing proceedings in state and federal court, acting as counsel for the government or the defendant, or as the sentencing judge. Criminal Procedure and Criminal Justice Administration are recommended, but not required.

Credit Hour: 1-4

LAW 5730: Law Review
Credit for work as prescribed by the faculty for members of the Missouri Law Review. Graded on S/U basis only.

Credit Hour: 1-3

LAW 5746: Legislative Practicum
This course provides students with the opportunity to work with individual lawyer legislators, or lawyer staff, at the Missouri General Assembly. The students will assist members of the General Assembly with drafting legislation, preparing materials for hearings, conducting research and analysis to respond to broad public policy issues as well as constituent concerns. On occasion students may be assigned to legislative committees, legislative staff support services, or to groups lobbying for legislation. Students will be expected to meet periodically with the professor and to maintain a journal of their activities. Graded on S/U basis only.

Credit Hour: 1-3

LAW 5770: Mediation Clinic
A study of the process in which a neutral third party assists others in resolving a dispute or planning a transaction. The course addresses the mediation movement as regards public policy, politics, professional responsibility, malpractice, and negotiation. Students develop mediation and negotiation skills through readings, demonstrations, experimental exercises, and preparation of a case study.

Credit Hour: 1-3
Prerequisites: LAW 5765 Mediation (or concurrent enrollment), or completion of an approved training. Limited to J.D. or LL.M. students in designated semesters

LAW 5750: Local Government Law
Structure and powers of local government units; state-local relations, including 'home rule'; local government finance, including taxation and indebtedness; incorporation and annexation; eminent domain; tort liability; land use controls; labor relations.

Credit Hour: 1-3

LAW 5780: Natural Resources Law
This course is a foundational survey course in the law and policy related to management of natural resources. Resources covered may include public lands, waters, submerged lands and wetlands, forests, minerals and energy, wildlife and biodiversity and ecosystems. Topics also may include organic statutes establishing certain resource management standards and procedures, generally applicable statutes governing agency behavior, judicial review of agency decisions, integrated management of multiple resources, the use of ecosystem management and conservation methods, and takings.

Credit Hour: 1-3
LAW 5810: Negotiation
Negotiation is an essential skill for most lawyers, regardless of practice area. Lawyers must negotiate with their counterparts, clients, partners, staff, courts, and many others in the course of representing a client. This course provides an in-depth understanding of the different models of negotiation, and practical skill development for meeting the many challenges that negotiation presents.

Credit Hour: 1-3

LAW 5815: Partnership Taxation
This course will study the federal income tax treatment of partnerships and other entities treated as partnerships, including limited liability companies. The course will examine partnership formations, contributions to and distributions from partnerships, partnership operations, including special allocations of income and losses among partners, transfers of partnership interests, and partnership dissolution. This course will be taught using the problem method of instruction.

Credit Hour: 1-3
Prerequisites: LAW 5375 Basic Federal Income Taxation

LAW 5820: Patent Law and Policy
This course will provide comprehensive coverage of the U.S. Patent Laws for those interested in obtaining general information about patents, as well as for those interested in practicing before the Patent and Trademark Office. The course will trace an invention through the application, examination, reconsideration, re-examination and litigation processes. If time permits, there may also be coverage of international treaties that affect U.S. Patent Laws as well as some comparison of U.S. Patent Laws and the Patent Laws of select countries. There are no course prerequisites and a technical background is not required because the course primarily focuses on the Patent Act, its requirements and its jurisprudence. Thus, students need only be familiar with applying statutes and cases to a fact pattern. In lieu of an examination or a paper, up to six written projects, between 3-10 pages each (approx. 40 pages overall), will be due at the end of the semester, giving students an intensive writing experience. The professor will review drafts of some of these projects during the semester and all of the projects will be discussed in class. These projects will allow students to help solve a clients hypothetical patent problem as we work through the Patent Act and its jurisprudence. Students may also have the opportunity to engage in client interviewing and counseling in order to complete the projects. There are no prerequisites and a technical background is not required.

Credit Hour: 1-3

LAW 5830: Pretrial Litigation
Focus on the study of the legal principles, techniques, strategies and skills which pertain to civil pretrial practice, including: Professional and Ethical Considerations, Case Selection Case Investigation, Development of a case theory, Pleading, Discovery, Pretrial Conference, Motion Practice, Settlement Processes and Alternative Dispute Resolution.

Credit Hour: 1-3

LAW 5835: Products Liability
A study of civil liability for personal injury, property damage, and economic loss caused by defective products. The study includes actions for negligence, strict liability, misrepresentation and the effect of state and federal legislation on those actions.

Credit Hour: 1-3

LAW 5837: Property, Life, Disability and Health Insurance Law
This course will explore the legal issues that arise in connection with the purchase and ownership of 'first-party' insurance policies, which includes the categories of personal and commercial property insurance, life insurance, accidental death insurance, disability insurance, and health insurance. The course will examine the law from a national perspective but will give special attention to Missouri law when appropriate. The emphasis will be on the legal issues that typically arise when the consumer comes into contact with the insurance industry with respect to these products. The coverage of health insurance will focus on the provision and regulation of private insurance, as distinct from government programs providing access to the health care system through insurance or insurance-like benefits.

Credit Hour: 1-3

LAW 5845: Publicly Held Corporation
This course focuses on legal issues most relevant to large public corporations. Recommended for students interested in pursuing a career in corporate law or for students desiring study in corporate law beyond the Business Organizations course.

Credit Hours: 3

LAW 5856: Real Estate Finance
This course examines legal and transactional issues relating to the financing of real estate. The course covers mortgage documentation; the use of mortgagees prior to foreclosure; transfers of mortgaged property; transfers of mortgages and securitization; payment and discharge of mortgages; default and impact of bankruptcy on real estate transactions. The grade will be based upon a final examination.

Credit Hour: 1-3

LAW 5858: Real Estate Transactions
This course examines issues relating to the transfer of real estate and the practice of transactional real estate law. The course covers conveyance documentation, the recording system, title and survey review, title insurance, purchase and sale transactions, basis entity structure and tax considerations, environmental review, commercial leasing, valuation of real estate, and project cash flow. The grade will be based on a final examination.

Credit Hour: 1-3

LAW 5859: Real Estate Transaction Skills Project
Students will participate in a weekly seminar class focused on contract drafting, negotiation, due diligence, and client management in the context of a transactional real estate law practice. The grade for the course will be based upon student performance on drafting and practice skills assignments. Projects may include the negotiation and drafting of a purchase contract; the negotiation and modification of a commitment for title insurance; survey review; review and evaluation of lease; and, lease drafting and negotiation. Student projects will include both individual and group work.

Credit Hour: 1
Corequisites: Concurrent registration in LAW 5858 Real Estate Transaction is required.

LAW 5861: Regulation of Drugs and Medical Devices
This course examines the U.S. Food and Drug Administration (FDA) interpretation and implementation of the federal Food, Drug, and Cosmetic Act (FDCA) and the Public Health Service Act (PHSAA). FDA regulates food, drugs, animal drugs and feed, cosmetics, medical devices, tobacco products, and biological products (broadly speaking ‘food and drugs’). The course considers not only the substantive regulations and policies applicable to food and drugs, but also issues of administrative law (agency practice and procedure, as well as judicial review), enforcement authority (powers and priorities), the agency’s place within our federal system, and the place of food and drug law in the larger legal environment. The scope of the class will vary from semester to semester, usually covering at least drugs and devices.

Credit Hour: 1-3

LAW 5862: The Regulation of Medical Marijuana Businesses
More than half of the states now authorize designated businesses to produce and sell marijuana commercially. However, these businesses remain subject to extensive state regulation. In 2018, Missouri adopted a constitutional amendment, Art. XIV, § 1, with a purpose to authorize medical marijuana. State regulations raise a host of legal questions: How do states award commercial licenses to grow and sell marijuana? Are any state licensing regulations preempted by federal law? Do state advertising restrictions violate the First Amendment? How are marijuana licensees disciplined for regulatory violations? Marijuana businesses also face numerous regulatory hurdles erected by the federal government, adding to the questions surrounding the marijuana industry: Do marijuana businesses have any viable legal defense against federal criminal prosecution? Can marijuana businesses register their trademarks? Can they deduct their expenses when they pay their federal taxes? Will courts enforce contracts with the marijuana industry? Can the industry obtain banking or legal services? The resolution of these issues is in a state of flux throughout the nation and, in particular, in Missouri, in light of Missouri’s 2018 constitutional amendment. This class will address these and related questions surrounding the nascent marijuana industry.

Credit Hour: 1-3

LAW 5870: Remedies
Survey of damages, history of equity; coverage of various equitable remedies and their adequacy, practicability, defenses, procedural problems, enforcement of decrees, merger of law and equity, contempt.

Credit Hour: 1-3

LAW 5875: Research in Law
Independent Research with a faculty member is available during the Summer, Fall and Spring Semesters. Any student enrolling for Research credit must designate at the time of enrollment the professor who will supervise the research project. Credit is earned at the rate of 20 pages per credit hour. No more than three hours of Research may be taken or counted toward the law degree. Enrollment in LAW 5875 may, but need not, be structured so as to satisfy the upper-level writing requirement. Enrollment in LAW 5875 Research satisfies the Law School’s writing requirement only if the project culminates in an individually authored paper of at least 20 pages, based on independent research, through a process that involves an initial draft, critique by the supervising faculty members, and rewrite.

Credit Hour: 1-2

LAW 5885: Secured Transactions
The course focuses on the rights of secured creditors and debtors under Article 9 of the Uniform Commercial Code, and includes coverage of creditors with special rights (such as taxing authorities and artisans), documentary exchanges under Article 7, and bulk sales under Article 6.

Credit Hour: 1-3

LAW 5890: Securities Regulation
Financing of business through the sale of securities. Emphasis on federal securities acts, with some consideration of state statutes. Consideration of the registration process; exemptions from registration; the special antifraud rules; liabilities and criminal penalties; reporting; insider trading; and, proxy solicitation problems.

Credit Hour: 1-3

LAW 5897: Sex, Reproduction and the Law
This course surveys the legal and social history of state and federal regulation of sexual and reproductive behavior. It will explore constitutional rights vis a vis a number of specific legal and social issues including the demographics of conception, parenting, and domestic violence; forced sterilization; access to contraception and abortion; adoption; assisted reproductive technologies; left over pre-implantation frozen embryos; gestational surrogacy; rape; same sex marriage and family building; and stem cell research.

Credit Hour: 1-3

LAW 5905: Sports Law
Substantive areas of concentration include sports litigation, labor law, NCAA regulations, legal relationships in professional sports, anti-trust aspects of sports activities, and collective bargaining.

Credit Hour: 1-3

LAW 5910: State Constitutional Law
Since the departure of Chief Justice Warren, the U.S. Supreme Court and other federal courts have taken a less expansive view of the rights granted by the U.S. Constitution. Congress has also taken steps to turn over both funds and authority to states. Both developments have increased the importance of state constitutional law. The course would be taught in three parts: (1) History of state constitutions; their relationship to the U.S. Constitution and the major differences among them; (2) Individual rights; instances in which state constitutional provisions that are facially similar or identical to the Bill of Rights in the U.S. Constitution, have been interpreted by state courts to extend beyond the federal rights, and instances where state constitutions guarantee individual rights that are different from or in addition to those in the U.S. Constitution; and (3) Governmental obligations and authority; Constitutional provisions allocating governmental authority, such as limitations on legislative authority, the authority of the people to act through referendum or initiative and the relative authority of independent constitutional and officers.

Credit Hour: 1-3
LAW 5914: Tax Planning
This course will examine the application of corporate and partnership tax planning principles to accomplish common business objectives. Students will interview hypothetical clients, prepare written planning documents, present their tax plans to the class, and analyze associated substantive tax and business issues in a seminar format. The grade in this course will be based on written planning documents, a class presentation, and class participation. There will be no final exam.

Credit Hour: 1-3
Prerequisites: LAW 5375 Basic Federal Income Taxation
Recommended: Students are strongly encouraged to have taken or be concurrently enrolled in LAW 5465 Corporate Taxation or LAW 5815 Partnership Taxation

LAW 5915: Tax Research
This course provides students with an in-depth exploration of methods and sources for researching tax issues. The course provides students an opportunity to gain experience in using tax research tools. While primarily applicable to tax research, the knowledge gained by students will be helpful in future practice, regardless of practice area. Grades will be based on written assignments to be completed throughout the semester and one final project.

Credit Hour: 1-2

LAW 5916: Taxation of Property Transactions
This course will examine tax laws and policies fundamental to real estate investment. Topics include depreciation and recapture, cash and accrual methods of accounting, installment sales, non-recognition transactions, including like-kind exchanges and bad involuntary conversions, and discharge of indebtedness issues arising out of real estate transactions. This course is designed to provide a detailed analysis of complex tax provisions necessary for advanced tax planning and will be taught using the problem method of instruction.

Credit Hour: 1-3
Prerequisites: LAW 5375 Basic Federal Income Taxation

LAW 5917: Topics in Law
Various topics in law are explored in depth. Topics change each semester. Some sections may be graded either A-F only or S/U basis only.

Credit Hour: 1-5

LAW 5920: Trademark Law
Nature of trademark law; common law and statutory trademarks and trade-names; Lanham Act of 1946; distinctiveness; types of marks; qualification of marks for registration (use in commerce, intent-to-use certification, secondary meaning, abandonment); registration procedures; exclusive rights of trademark owner; scope of protection; concurrent use; infringement (including 'gray market' use); international protection; remedies; state trademark acts; related common law doctrines; trademark usage on the Internet; and, domain name issues.

Credit Hour: 1-3

LAW 5923: Transnational Litigation
This course addresses common areas of concern in private transnational litigation and provides students with an understanding of litigation tactics in this growing area of law. Topics include jurisdictional issues, forum selection, international service of process, international discovery, international choice of law, proving foreign law in U.S. courts, multiple proceedings (including parallel proceedings and interim/interlocutory assistance) and enforcement of foreign judgments. Although international in nature, the course covers many of the same sorts of concerns that arise in other sorts of complex civil litigation and emphasizes practical strategy points and transactional considerations.

Credit Hour: 1-3

LAW 5925: Trial Practice
Skills based course that focuses on the techniques of pleading, discovery, jury selection, opening statements, direct/cross examination of witnesses, preparing jury instructions, and closing arguments. Each student participates in classroom problems selected from various phases of litigation, and in one complete trial. Some sections of this course may be offered as a graded section or graded on S/U basis only.

Credit Hour: 1-4
Prerequisites: LAW 5260 Evidence

LAW 5927: Veterans Clinic
In this clinical program, students will help veterans in need and/or their dependents secure disability related benefits after an initial denial from the Regional VA office. This work will be done at the Board of Veterans' Appeals (BVA) level or before the Court of Appeals for Veterans' Claims (CAVC), both located in Washington D.C. The BVA and CAVC are federal tribunals, specially created to handle veterans' claims. Students will have the opportunity to work with the client, in a law firm type atmosphere, and prepare and argue appeals relating to the denial of benefits.

Credit Hour: 1-4
Prerequisites or Corequisites: LAW 5280 Professional Responsibility

LAW 5940: White Collar Crime
Study of what are generally considered to be business or organizational crimes. General topics to be explored may include: mail and wire fraud, conspiracy, securities fraud, tax fraud, government contracting fraud (with particular emphasis on the False Claims Act), the Hobbs Act and the Racketeer Influenced and Corrupt Organizations Acts.

Credit Hour: 1-4

LAW 5945: Will and Trust Drafting
Building on Estates and Trusts, applies substantive law of wills and trusts to actual drafting of documents typical of those used in law practice. Grade based entirely on student projects.

Credit Hour: 1-3
Prerequisites: LAW 5560 Estates and Trust

LAW 5946: Wrongful Convictions
This course offers students an insider's look into the operation of the criminal justice system. It should be of particular interest to any student interested in working in a prosecutor's office, public defender's office or for a firm doing defense work. It is a prerequisite for any student wishing...
to enroll in the Innocence Project clinic. The course is designed to help students gain insight into features of the criminal justice system that have a tendency to produce wrongful convictions. In addition to examining the causes of wrongful convictions, the course will consider systemic reforms that might minimize convicting the innocent. We will also work with the Midwest Innocence Project on cases of possible actual innocence. Finally, the class will also focus on recurring ethical issues that confront prosecutors and criminal defense lawyers.

Credit Hour: 1-4

LAW 5947: Workers’ Compensation Law and Practice
This course will cover the law and practice of Workers’ Compensation Law both in general and in Missouri. About two-thirds of the class time will be spent studying and discussing the doctrinal basis of workers’ compensation. In the balance of the time students will work on a simulation in which they will have the opportunity to work through different steps of a workers’ compensation claim.

Credit Hour: 1-3

LAW 6500: London Program
Students enrolled in classes in London. Credit will count toward graduation requirements. Zero billing hours.

Credit Hour: 1-16

LAW 6710: Comparative Dispute Resolution
South Africa Program

Credit Hour: 1-2

LAW 6720: Comparative Constitutional Law
South Africa Program

Credit Hour: 1-2

LAW 6730: Comparative Criminal Justice
South Africa Program

Credit Hour: 1-2

LAW 6905: LLM Arbitration Seminar
(same as LAW 6805). This course covers law, policy, and practices relating to the arbitration in the U.S. under modern arbitration statutes as well as arbitration of international commercial disputes under international conventions and arbitral rules.

Credit Hours: 3
Prerequisites: instructor's consent

LAW 6920: LL.M. Externship
Student will be placed (or secure placement) with attorney, professional mediator or arbitrator, or dispute resolution agency (government-based or private) for an externship ranging from three to nine weeks. Students will observe and, to the extent possible, participate in dispute resolution activities of mentor. Journal entries form basis for credit. Externship placements will be local, national or international. Graded on a S/U basis only.

Credit Hour: 1-99
Prerequisites: LL.M. students only

LAW 6925: LL.M. Independent Study
Substantial research project on selected topic of choice.

Credit Hour: 1-3
Prerequisites: LL.M. students only

LAW 6930: LL.M. Major Research Project
(same as LAW 6830). Development and presentation of substantial research paper on current topic in dispute resolution. Supervision of this work by appropriate faculty will be determined according to the topic selected.

Credit Hours: 3
Prerequisites: instructor's consent

LAW 6932: Conflict and Conflict Management
This course explores the nature and sources of conflict, the conditions under which conflict may escalate or de-escalate, models for understanding conflict, and strategies and techniques attorneys may use to effectively manage conflict. The course addresses both theory and skills. Graded on A-F basis only.

Credit Hour: 1-4

LAW 6933: Cross Cultural Dispute Resolution
The course will focus on the impact culture can have on the private ordering of disputes. Culture affects communication, perceptions regarding conflict and methods for resolution. As the world becomes more interrelated and Missouri and the U.S. more diverse, lawyers need to be prepared to resolve problems across cultural lines. Graded on A-F basis only.

Credit Hour: 1-4

LAW 6934: Dispute Resolution in the Digital Age
This course will explore Online Dispute Resolution (ODR) systems. We will look at the various systems currently used by major companies such as eBay, as well as the rules and treaty developments in global markets. We also will do ODR simulation exercises. The class also will include deep consideration of both the potential and drawbacks of ODR systems. Therefore, we also will discuss development of best practices and question policy directions. Graded on A-F basis only.

Credit Hour: 1-4

LAW 6935: Dispute System Design
(same as LAW 6835). Analysis of system design principles and the management of multi-party complex disputes. Course will include overview of statutes, regulations, court rules and general policy considerations for the development of systematic approaches to the resolution of disputes as well as the consultation process inherent in system design work. An underlying theme for this course will be issues of program quality. Students will review scholarly work evaluating the ADR field and study basic research/evaluation methodologies.

Credit Hours: 3
Prerequisites: instructor's consent
LAW 6945: Non-Binding Methods of Dispute Resolution
(same as LAW 6845). Negotiation and mediation of disputes, focusing on the theory, strategy, and skills, and public policy issues involved in using non-binding methods of dispute resolution. The course addresses the role of attorneys in unassisted and mediated negotiation as well as the role of mediators. The course considers the professional responsibility of advocates negotiating for clients and of mediators.

Credit Hour: 3-4
Prerequisites: instructor's consent

LAW 6950: Practicum on Dispute Resolution Training and Education
Structured training experience through participation in the first-year curriculum project; service as judges in J.D. student competitions, such as negotiation and client counseling; and assignments to appropriate upper division courses to assist with development of dispute resolution modules. Credit is earned for work over the entire academic year. Graded on a S/U basis only.

Credit Hour: 1-2
Prerequisites: LL.M. students only

LAW 6953: Public Policy Dispute Resolution
Public policy disputes, such as those that occur in the energy, environmental, education, and health industries, are complex and challenging to manage. This course will explore the intersections of the executive, legislative, and judicial branches of both state and federal government and legal strategies for shaping public policy, whether through litigation, legislation, regulation, alternative dispute resolution or a combination of processes. We will look at two case studies and at least one current issue. Graded on A-F basis only.

Credit Hour: 1-4

LAW 6955: Topics
Special and emerging topics in dispute resolution. Subject, content and credit varies, depending on available faculty and student interest.

Credit Hour: 1-99
Prerequisites: instructor's consent

LAW 6970: Mediation Clinic
(same as LAW 5770). Students develop and refine mediation skills by observing and participating in simulated and real mediation cases. Limited to J.D. or LL.M. students in designated semesters. Graded on S/U basis only.

Credit Hour: 1-2
Prerequisites or Corequisites: LAW 5765 (or concurrent enrollment), or completion of an approved training

LAW 6980: Overview of the US Legal System
This course will introduce fundamentals of the U.S. legal system. Topics include the basic structure and function of U.S. legal institutions, the adversarial system and judicial process, the interaction of state and federal law in the American system of federalism, sources of law including statutory, common and administrative law, selected topics in constitutional law and civil and criminal procedure, and brief overviews in selected areas of substantive law such as contracts, property, family, tax, or torts. Graded on A-F basis only.

Credit Hour: 1-4

Learning, Teaching, & Curriculum Courses

LTC 1100: Orientation
This course familiarizes and orients students with MU resources, College of Education programs and expectations and career options. Graded on S/U basis only.

Credit Hour: 1

LTC 1110: Orientation: Art Education
This course familiarizes and orients students with MU resources, College of Education programs and expectations and career options, emphasizing Art Education. Graded on S/U basis only.

Credit Hour: 1

LTC 1120: Orientation: Math Education
This course familiarizes and orients students with MU resources, College of Education programs and expectations and career options, emphasizing Math Education. Graded on S/U basis only.

Credit Hour: 1

LTC 1130: Orientation: Middle School Education
This course familiarizes and orients students with MU resources, College of Education programs and expectations and career options, emphasizing Middle School Education. Graded on S/U basis only.

Credit Hour: 1

LTC 1155: Orientation: Science Education
This course familiarizes and orients students with MU resources, College of Education programs and expectations and career options, emphasizing Science Education. Graded on S/U basis only.

Credit Hour: 1

LTC 1170: Orientation: English/Language Arts
This course familiarizes and orients students with MU resources, College of Education programs, expectations and career options, emphasizing English/Language Arts education. Graded on S/U only.

Credit Hour: 1

LTC 1320: Scuba Theory
The curriculum of the class includes bio-physics, hydrostatic pressures, physiology, fundamentals of compressed gases, environmental conditions, mechanics, first aid as it relates to diving, and planning specialty dives such as decompression, night, cave, ice, salvage and wreck diving.

Credit Hours: 3

LTC 2040: Inquiring into Schools, Community and Society I
This course focuses on schooling in American society, the school community, the school culture and students’ lives and identities. Studied are the political, cultural, and economic conditions of the schools.

Credit Hours: 3

</tbody>
</table>
**Credit Hours:** 3  
**Prerequisites:** Consent required (enrollment limited to students who have completed the first two semesters of Phase II)

**LTC 4150: Early Childhood Education Literacy Teaching Methods and Assessment II**  
(cross-leveled with LTC 7150). Advanced strategies for assessing and supporting young children's literacy development.  
**Credit Hours:** 3  
**Prerequisites:** Consent of department required  
**Recommended:** LTC 4120 or LTC 7120, LTC 4124 K-3 Field experience and admittance to the ECE certification program in Phase II of the College of Education required

**LTC 4150W: Early Childhood Education Literacy Teaching Methods and Assessment II - Writing Intensive**  
(cross-leveled with LTC 7150). Advanced strategies for assessing and supporting young children's literacy development.  
**Credit Hours:** 3  
**Prerequisites:** Consent of department required  
**Recommended:** LTC 4120 or LTC 7124 K-3 Field experience and admittance to the ECE certification program in Phase II of the College of Education required

**LTC 4160: Motor Development in Young Children**  
For Early Childhood majors. Study of young children's motor development.  
**Credit Hours:** 2  
**Recommended:** Admission to Phase II

**LTC 4170: Program Management & Environmental Organization in PreKindergarten**  
Strategies for working with children aged 2-6 and their families. Emphasis on planning and implementing developmentally appropriate practice, designing effective learning environments, and managing programs.  
**Credit Hours:** 3  
**Prerequisites:** Consent required (enrollment limited to students admitted to Phase II, and completion of first 2 semesters of Phase II)  
**Recommended:** Co-enrollment in LTC 4971 (Early Childhood section)

**LTC 4194: Elementary Education Field Experience I**  
Seminars and diverse 1-5 grade classroom experience focus is on the learner and learning in the elementary school. Graded on a S/U basis only.  
**Credit Hour:** 1-3  
**Recommended:** Admittance to Phase II

**LTC 4200: Young Children's Emergent Language**  
(cross-leveled with LTC 7200). For Early Childhood and Elementary Education majors. Study of young children's language development and implications for teachers.  
**Credit Hours:** 2  
**Corequisites:** LTC 4120, LTC 4124, and LTC 4210  
**Recommended:** Admittance to Phase II

**LTC 4210: Children's Language and Literature**  
(cross-leveled with LTC 7210). For Early Childhood Education majors. Examines children's oral language development and surveys the field of children's literature for children ages birth to eight. Graded on A-F basis only.  
**Credit Hours:** 3  
**Corequisites:** LTC 4120 and LTC 4124  
**Recommended:** Admittance to Phase II

**LTC 4211: Literacy Assessment and Development**  
Focus is on the development, assessment, and instruction of reading and writing motivations, skills, and strategies of diverse learners with emphasis on data interpretation and instruction. Graded on A-F basis only.  
**Credit Hours:** 3  
**Recommended:** Admittance to Phase II

**LTC 4221: Contexts and Methods for Elementary Reading Instruction**  
Students will closely explore the different contexts, methods, and materials for reading instruction in diverse settings. Graded on A-F basis only.  
**Credit Hours:** 3  
**Recommended:** Admittance to Phase II

**LTC 4231: Contexts and Methods for Writing Instruction**  
This course explores contexts and methods for writing instruction, with a focus on writing development, writing across the content, and multimodel and multilingual composition. Graded on A-F basis only.  
**Credit Hours:** 3  
**Recommended:** Admittance to Phase II

**LTC 4231W: Contexts and Methods for Writing Instruction - Writing Intensive**  
This course explores contexts and methods for writing instruction, with a focus on writing development, writing across the content, and multimodel and multilingual composition. Graded on A-F basis only.  
**Credit Hours:** 3  
**Recommended:** Admittance to Phase II

**LTC 4240: Art for Children**  
(cross-leveled with LTC 7270). This course focuses on appropriate teaching methods and strategies for teaching art (studio, art history, aesthetic, and criticism), artistic development of children, and curriculum, instructional, and organization strategies for the art classroom.  
**Credit Hours:** 2  
**Recommended:** Admittance to Phase II

**LTC 4241: Diverse Literature for Children and Youth**  
Reading and discussion of diverse literature within a wide variety of genres will allow students to explore issues of diversity as related to elementary instruction. Graded on A-F basis only.  
**Credit Hours:** 3
LTC 4241W: Diverse Literature for Children and Youth - Writing Intensive
Reading and discussion of diverse literature within a wide variety of genres will allow students to explore issues of diversity as related to elementary instruction. Graded on A-F basis only.
Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4250: Music for Children
Preparation of early childhood and elementary education students with the skills, knowledge, and philosophical foundations necessary to integrate music into the early childhood and elementary curricula.
Credit Hours: 2
Recommended: MUSIC_NM 1608, MUSIC_NM 1612, MUSIC_NM 1618 or competency test; Admittance to Phase II

LTC 4260: Elementary Social Studies
To develop knowledge of social studies and the skills to teach social studies in the elementary school. The course is designed to provide the student with the skills to plan, implement, and evaluate both the teaching and learning processes for the elementary social studies classroom.
Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4280: Teaching Science in Elementary Schools
Concepts, materials, methods in the elementary school program.
Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4294: Elementary Education Field Experience II
Seminars and diverse 1-5 grade classroom experiences focus is on the teacher and instruction in the elementary school. Graded on S/U basis only.
Credit Hour: 1-3
Recommended: Admittance to Phase II

LTC 4300: Learning and Teaching Number and Operation in the Elementary School
The purpose of this course is to (a) develop a deeper understanding of number and operation, (b) connect the mathematical knowledge of number as described in (a) to the learning and teaching of number in elementary school.
Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4320: Middle School Social Studies I
Curriculum decision making, instructional planning, techniques and strategies, materials selection, approaches to assessment in middle level social studies, all based upon early adolescent growth and development principles.
Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4324: Middle School Social Studies Field I
This field experience supports the Learning, Teaching and Curriculum 4320 component of Phase II for MS students. Field experience expectations are delineated in the LTC 4320 course syllabi. Graded on S/U basis only.
Credit Hour: 1
Recommended: Admittance to Phase II

LTC 4334: Middle School Social Studies Field Experience II
This field experience supports the LTC 4550 component of Phase II for MS students. Field experience expectations are delineated in the LTC 4550 course syllabi. Graded on a S/U basis only.
Credit Hour: 1
Recommended: Admittance to Phase II

LTC 4340: Middle School Science I
(cross-leveled with LTC 7340). Concepts, materials, methods in middle school program.
Credit Hours: 4
Prerequisites: Consent required
Recommended: Admittance to Phase II

LTC 4340W: Middle School Science I - Writing Intensive
(cross-leveled with LTC 7340). Concepts, materials, methods in middle school program.
Credit Hours: 4
Prerequisites: Consent required
Recommended: Admittance to Phase II

LTC 4344: Middle School Science Field I
This field experience supports the Learning, Teaching and Curriculum 4340 component of Phase II. Field experience expectations are delineated in the LTC 4340 course syllabi. Graded on a S/U basis only.
Credit Hour: 1
Recommended: Admittance to Phase II

LTC 4350: Middle School Science II
(cross-leveled with LTC 7350). Concepts, materials, methods in the middle school program.
Credit Hours: 3
Recommended: Admittance to Phase II
LTC 4354: Middle School Science Field Experience
This field experience supports the LTC 4350 component of Phase II. Field experience expectations are delineated in the LTC 4350 course syllabi. Graded on a S/U basis only.
Credit Hour: 1
Recommended: Admittance to Phase II

LTC 4360: Intro. Teaching Mathematics in Middle and Secondary Schools
(cross-leveled with LTC 7360). Introduction to teaching mathematics including: professional mathematics teacher associations and journals, learning theories related to teaching mathematics, tools, and materials for teaching mathematics, curriculum and instructional strategies (middle and lower high school level), and techniques for assessing mathematical understanding.
Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4364: Intro. Teaching Math in Middle and Secondary School Field Experience
This field experience supports the LTC 4360 component of Phase II. Field experience expectations are delineated in the LTC 4360 course syllabi. Graded on a S/U basis only.
Credit Hour: 1
Recommended: Admittance to Phase II

LTC 4370: Teaching and Modeling Middle School Mathematics
(cross-leveled with LTC 7370). Major issues/topics of the course include: nature of middle school students, lesson planning, developing and utilizing teaching strategies, assessment alternatives, teaching via problem solving and mathematical modeling, interdisciplinary strategies and materials, and techniques for assessing mathematical understanding.
Credit Hours: 3
Prerequisites: LTC 4360 or LTC 7360 and LTC 4581 or 7581
Recommended: Admittance to Phase II and at least 18 credit hours of required mathematics

LTC 4370W: Teaching and Modeling Middle School Mathematics - Writing Intensive
(cross-leveled with LTC 7370). Major issues/topics of the course include: nature of middle school students, lesson planning, developing and utilizing teaching strategies, assessment alternatives, teaching via problem solving and mathematical modeling, interdisciplinary strategies and materials, and techniques for assessing mathematical understanding.
Credit Hours: 3
Prerequisites: LTC 4360 or LTC 7360 and LTC 4581 or 7581
Recommended: Admittance to Phase II and at least 18 credit hours of required mathematics

LTC 4374: Teaching and Modeling Middle School Mathematics Field Experience
This field experience supports the LTC 4370 component of Phase II. Field experience expectations are delineated in the LTC 4370 course syllabi. Graded on a S/U basis only.

LTC 4380: Teaching Middle School Language Arts I
(cross-leveled with LTC 7380). Integrates an understanding of literacy (highlighting reading) with content area demands, literature and other media texts, evaluation and inquiry within a context of diversity.
Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4384: Teaching Middle School Language Arts I Field Experience
This field experience supports the LTC 4380 component of Phase II. Field experience expectations are delineated in the LTC 4380 course syllabi. Graded on a S/U basis only.
Credit Hour: 1
Recommended: Admittance to Phase II

LTC 4390: Teaching Middle and Secondary English/Language Arts II
(cross-leveled with LTC 7390). Prepares prospective educators with the knowledge, skills, and strategies necessary for integrating and teaching the English/Language Arts, primarily focusing on the teaching of writing and critical thinking.
Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4390W: Teaching Middle and Secondary English/Language Arts II - Writing Intensive
(cross-leveled with LTC 7390). Prepares prospective educators with the knowledge, skills, and strategies necessary for integrating and teaching the English/Language Arts, primarily focusing on the teaching of writing and critical thinking.
Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4394: Teaching Middle School Language Arts II Field Experience
This field experience supports the LTC 4390 component of Phase II. Field experience expectations are delineated in the LTC 4390 course syllabi. Graded on a S/U basis only.
Credit Hour: 1
Recommended: Admittance to Phase II

LTC 4400: Teaching Middle and Secondary English/Language Arts III
(cross-leveled with LTC 7400). Prepare prospective educators by focusing on the teaching of American culture and critical thinking, through literacy, mediacy, oracy, and cultural artifacts.
Credit Hours: 3
Prerequisites: LTC 4380 or LTC 7380 and LTC 4390 or LTC 7390
Recommended: Admittance to Phase II

LTC 4404: Teaching Middle School Language Arts III Field Experience
This field experience supports the LTC 4400 component of Phase II. Field experience expectations are delineated in the LTC 4400 course syllabi. Graded on a S/U basis only.
LTC 4410: Teaching, Engaging and Assessing Middle-Level Students
(cross-leveled with LTC 7410). In this course students will learn about the specific and individual needs of middle-level students and develop the skills and understandings to meet these needs.
Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4410W: Teaching, Engaging and Assessing Middle-Level Students - Writing Intensive
(cross-leveled with LTC 7410). In this course students will learn about the specific and individual needs of middle-level students and develop the skills and understandings to meet these needs.
Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4414: Teaching, Engaging & Assessing Mid-Level Students Field Experience
This field experience supports the LTC 4410 component of Phase II. Field experience expectations are delineated in the LTC 4410 course syllabi. Graded on a S/U basis only.
Credit Hour: 1
Recommended: Admittance to Phase II

LTC 4420: Adolescent Literacy
(cross-leveled with LTC 7420). Explores literacy implications of content areas. Topics include determining the difficulty of text, examining literature that supports content, creating alternative assessments, and evaluating reading/writing strategies as tools for learning. (Required of all students obtaining certification in middle school or concurrent certification in middle and secondary school area(s) except language arts.
Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4424: Middle School Literacy Field Experience
This field experience supports the LTC 4420 component of Phase II. Field experience expectations are delineated in the LTC 4420 course syllabi. Graded on a S/U basis only.
Credit Hour: 1
Recommended: Admittance to Phase II

LTC 4440: Teaching Secondary English/Language Arts I Field Experience
This field experience supports the LTC 4440 component of Phase II. Field experience expectations are delineated in the LTC 4440 course syllabi. Graded on a S/U basis only.
Credit Hour: 1
Recommended: Admittance to Phase II

LTC 4460: Teaching Middle and Secondary English/Language Arts II
(cross-leveled with LTC 7460). Prepares prospective educators with the knowledge and strategies necessary for integrating and teaching the English/Language Arts, primarily focusing on the teaching of writing and critical thinking.
Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4484: Teaching Secondary English/Language Arts II Field Experience
This field experience supports the LTC 4484 component of Phase II. Field experience expectations are delineated in the LTC 4484 course syllabi. Graded on a S/U basis only.
Credit Hour: 1
Recommended: Admittance to Phase II

LTC 4490: Teaching Middle and Secondary English/Language Arts III
(cross-leveled with LTC 7490). Prepares prospective educators by focusing on the teaching of American culture and critical thinking, through literacy, mediacy, oracy, and cultural artifacts.
Credit Hours: 3
Prerequisites: LTC 4470 or LTC 7470 and LTC 4480 or LTC 7480
Recommended: Admittance to Phase II

LTC 4494: Teaching Secondary English/Language Arts III Field Experience
This field experience supports the LTC 4494 component of Phase II. Field experience expectations are delineated in the LTC 4494 course syllabi. Graded on a S/U basis only.
Credit Hour: 1
Recommended: Admittance to Phase II

LTC 4470: Teaching Secondary English/Language Arts I
(cross-leveled with LTC 7470). Prepares prospective educators with the knowledge, skills, and strategies necessary for integrating and teaching the English/Language Arts, Primarily focusing on Young Adult Literature and critical thinking.
Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4474: Teaching Secondary English/Language Arts I Field Experience
This field experience supports the LTC 4474 component of Phase II.

LTC 4480W: Teaching Middle and Secondary English/Language Arts II - Writing Intensive
(cross-leveled with LTC 7480). Prepares prospective educators with the knowledge and strategies necessary for integrating and teaching the English/Language Arts, primarily focusing on the teaching of writing and critical thinking.

LTC 4490: Teaching Middle and Secondary English/Language Arts III Field Experience
This field experience supports the LTC 4490 component of Phase II. Field experience expectations are delineated in the LTC 4490 course syllabi. Graded on a S/U basis only.

LTC 4494: Teaching Secondary English/Language Arts III Field Experience
This field experience supports the LTC 4494 component of Phase II. Field experience expectations are delineated in the LTC 4494 course syllabi. Graded on a S/U basis only.

LTC 4470: Teaching Secondary English/Language Arts I
(cross-leveled with LTC 7470). Prepares prospective educators with the knowledge, skills, and strategies necessary for integrating and teaching the English/Language Arts, Primarily focusing on Young Adult Literature and critical thinking.
Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4474: Teaching Secondary English/Language Arts I Field Experience
This field experience supports the LTC 4474 component of Phase II.

LTC 4480: Teaching Middle and Secondary English/Language Arts II
(cross-leveled with LTC 7480). Prepares prospective educators with the knowledge and strategies necessary for integrating and teaching the English/Language Arts, primarily focusing on the teaching of writing and critical thinking.
Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4484: Teaching Secondary English/Language Arts II Field Experience
This field experience supports the LTC 4484 component of Phase II. Field experience expectations are delineated in the LTC 4484 course syllabi. Graded on a S/U basis only.
Credit Hour: 1
Recommended: Admittance to Phase II

LTC 4490: Teaching Middle and Secondary English/Language Arts III
(cross-leveled with LTC 7490). Prepares prospective educators by focusing on the teaching of American culture and critical thinking, through literacy, mediacy, oracy, and cultural artifacts.
Credit Hours: 3
Prerequisites: LTC 4470 or LTC 7470 and LTC 4480 or LTC 7480
Recommended: Admittance to Phase II

LTC 4494: Teaching Secondary English/Language Arts III Field Experience
This field experience supports the LTC 4494 component of Phase II. Field experience expectations are delineated in the LTC 4494 course syllabi. Graded on a S/U basis only.

LTC 4470: Teaching Secondary English/Language Arts I
(cross-leveled with LTC 7470). Prepares prospective educators with the knowledge, skills, and strategies necessary for integrating and teaching the English/Language Arts, Primarily focusing on Young Adult Literature and critical thinking.
Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4474: Teaching Secondary English/Language Arts I Field Experience
This field experience supports the LTC 4474 component of Phase II.

LTC 4480: Teaching Middle and Secondary English/Language Arts II
(cross-leveled with LTC 7480). Prepares prospective educators with the knowledge and strategies necessary for integrating and teaching the English/Language Arts, primarily focusing on the teaching of writing and critical thinking.
Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4484: Teaching Secondary English/Language Arts II Field Experience
This field experience supports the LTC 4484 component of Phase II. Field experience expectations are delineated in the LTC 4484 course syllabi. Graded on a S/U basis only.
Credit Hour: 1
Recommended: Admittance to Phase II

LTC 4490: Teaching Middle and Secondary English/Language Arts III
(cross-leveled with LTC 7490). Prepares prospective educators by focusing on the teaching of American culture and critical thinking, through literacy, mediacy, oracy, and cultural artifacts.
Credit Hours: 3
Prerequisites: LTC 4470 or LTC 7470 and LTC 4480 or LTC 7480
Recommended: Admittance to Phase II

LTC 4494: Teaching Secondary English/Language Arts III Field Experience
This field experience supports the LTC 4494 component of Phase II. Field experience expectations are delineated in the LTC 4494 course syllabi. Graded on a S/U basis only.

LTC 4470: Teaching Secondary English/Language Arts I
(cross-leveled with LTC 7470). Prepares prospective educators with the knowledge, skills, and strategies necessary for integrating and teaching the English/Language Arts, Primarily focusing on Young Adult Literature and critical thinking.
Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4474: Teaching Secondary English/Language Arts I Field Experience
This field experience supports the LTC 4474 component of Phase II.

LTC 4480: Teaching Middle and Secondary English/Language Arts II
(cross-leveled with LTC 7480). Prepares prospective educators with the knowledge and strategies necessary for integrating and teaching the English/Language Arts, primarily focusing on the teaching of writing and critical thinking.
Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4484: Teaching Secondary English/Language Arts II Field Experience
This field experience supports the LTC 4484 component of Phase II. Field experience expectations are delineated in the LTC 4484 course syllabi. Graded on a S/U basis only.
Credit Hour: 1
Recommended: Admittance to Phase II

LTC 4490: Teaching Middle and Secondary English/Language Arts III
(cross-leveled with LTC 7490). Prepares prospective educators by focusing on the teaching of American culture and critical thinking, through literacy, mediacy, oracy, and cultural artifacts.
Credit Hours: 3
Prerequisites: LTC 4470 or LTC 7470 and LTC 4480 or LTC 7480
Recommended: Admittance to Phase II

LTC 4494: Teaching Secondary English/Language Arts III Field Experience
This field experience supports the LTC 4494 component of Phase II. Field experience expectations are delineated in the LTC 4494 course syllabi. Graded on a S/U basis only.
**LTC 4500: Emergent Language in Early Childhood**  
(cross-leveled with LTC 7500). Study of language learning in young children; how meaning of the environment is gained through language; implications for teachers working with children from varying language-learning environments.  
**Credit Hours:** 3

**LTC 4510: Assessment in Early Childhood Education**  
A study of formal and informal assessment instruments and procedures used to measure progress and determine developmentally appropriate curriculum for children in early childhood settings.  
**Credit Hours:** 3  
**Recommended:** H_D_FS 3420 or equivalent child development or child psychology course

**LTC 4530: Introduction to Social Studies**  
Will introduce prospective teachers to the profession of social studies teaching; to the bases for making curriculum choices in social studies and the process of choosing content; and the process of planning curriculum and instruction in social studies classrooms.  
**Credit Hours:** 3  
**Recommended:** Admittance to Phase II

**LTC 4534: Secondary Social Studies I Field Experience**  
This field experience supports the Learning, Teaching and Curriculum 4530 component of Phase II. Field experience expectations are delineated in the LTC 4530 course syllabi. Graded on a S/U basis only.  
**Credit Hour:** 1  
**Recommended:** Admittance to Phase II

**LTC 4541: Reading and Writing in the Social Studies**  
(cross-leveled with LTC 7541). Focuses on the teaching of reading and writing strategies for social studies teachers. Students review literacy interventions related to reading and writing historical texts. Graded on A-F basis only.  
**Credit Hours:** 3  
**Recommended:** Admittance to Phase II

**LTC 4544: Reading and Writing in the Social Studies Field**  
This field experience supports the Learning, Teaching and Curriculum 4541 component of Phase II. Field experience expectations are delineated in the LTC 4541 course syllabi. Graded on a S/U basis only.  
**Credit Hour:** 1  
**Recommended:** Admittance to Phase II

**LTC 4550: Assessment in Social Studies**  
Will address the purposes and development of social studies assessment for all levels from classroom to national assessment. Assessment will be used to reflect upon curriculum/instruction, make revisions and set goals.  
**Credit Hours:** 3  
**Recommended:** Admittance to Phase II

**LTC 4550W: Assessment in Social Studies - Writing Intensive**  
Will address the purposes and development of social studies assessment for all levels from classroom to national assessment. Assessment will be used to reflect upon curriculum/instruction, make revisions and set goals.  
**Credit Hours:** 3  
**Recommended:** Admittance to Phase II

**LTC 4554: Secondary Social Studies III Field Experience**  
This field experience supports the LTC 4550 component of Phase II. Field experience expectations are delineated in the LTC 4550 course syllabi. Graded on a S/U basis only.  
**Credit Hour:** 1  
**Recommended:** Admittance to Phase II

**LTC 4560: Reading and Writing in the Content Areas**  
(cross-leveled with LTC 7560). For secondary school teachers. Specific ways teachers can help students improve reading and writing skills in content areas and ways they can be taught.  
**Credit Hours:** 3  
**Recommended:** Admittance to Phase II

**LTC 4565: Reading and Writing in the Content Areas II**  
(cross-leveled with LTC 7565). Reading and Writing in the Content Areas II explores specific reading and writing content area strategies, with a focus on struggling students and new investigations in disciplinary literacy.  
**Credit Hours:** 3  
**Prerequisites:** LTC 4560 or LTC 7560 or LTC 4380

**LTC 4571: Introduction to Teaching Mathematics in Middle and Secondary Schools**  
Introduction to teaching mathematics including: professional mathematics teacher associations and journals, learning theories related to teaching mathematics, tools, and materials for teaching mathematics, curriculum and instructional strategies (middle and lower high school level), and techniques for assessing mathematical understanding. Recommended: Admittance to Phase II  
**Credit Hours:** 3

**LTC 4574: Intro. Teaching Math in Middle and Secondary School Field Experience**  
Field experience supporting the LTC 4571 component of Phase II. Field experience expectations are delineated in the LTC 4571 course syllabi. Graded on a S/U basis only.  
**Credit Hour:** 1  
**Recommended:** Admittance to Phase II

**LTC 4571: Introduction to Teaching Mathematics in Middle and Secondary Schools: Focus on Algebra and Technology**  
(cross-leveled with LTC 7581). Key issues in the teaching of pre-algebra through advanced algebra, appropriate use of technology, lesson planning, integration of appropriate models, mathematical connections. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** LTC 4571 or LTC 7571 or LTC 4360 or LTC 7360

**LTC 4581: Teaching Mathematics in Middle and Secondary Schools**  
**Credit Hours:** 3

**LTC 4574: Intro. Teaching Math in Middle and Secondary School Field Experience**  
Field experience supporting the LTC 4571 component of Phase II. Field experience expectations are delineated in the LTC 4571 course syllabi. Graded on a S/U basis only.  
**Credit Hour:** 1  
**Recommended:** Admittance to Phase II

**LTC 4581: Teaching Mathematics in Middle and Secondary Schools: Focus on Algebra and Technology**  
(cross-leveled with LTC 7581). Key issues in the teaching of pre-algebra through advanced algebra, appropriate use of technology, lesson planning, integration of appropriate models, mathematical connections. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** LTC 4571 or LTC 7571 or LTC 4360 or LTC 7360
Recommended: Admittance to Phase II

LTC 4584: Teaching Math in Middle and Secondary Schools: Algebra and Technology Field
This field experience supports the Learning, Teaching and Curriculum 4581/7581 component of Phase II. Field experience expectations are delineated in the LTC 4581/LTC 7581 course syllabi. Graded on S/U basis only.

Credit Hour: 1

LTC 4590: Teach.Math in Sec.Schools: Focus on Geometry, Probability and Statistics
(cross-leveled with LTC 7590). Provides experience which advanced students' knowledge, understanding, and facility in engaging students in learning mathematics. Major issues/topics highlighted in the course are: exploration of curriculum, teaching strategies, and assessment for geometry, probability and statistics.

Credit Hours: 3
Prerequisites: LTC 4571 or LTC 7571 and LTC 4581 or LTC 7581
Recommended: Admittance to Phase II

LTC 4590W: Teach.Math in Sec.Schools: Focus on Geometry, Probability and Statistics - Writing Intensive
(cross-leveled with LTC 7590). Provides experience which advanced students' knowledge, understanding, and facility in engaging students in learning mathematics. Major issues/topics highlighted in the course are: exploration of curriculum, teaching strategies, and assessment for geometry, probability and statistics.

Credit Hours: 3
Prerequisites: LTC 4571 or LTC 7571 and LTC 4581 or LTC 7581
Recommended: Admittance to Phase II

LTC 4594: Teach Math in Sec Sch: Focus on Geometry/Probability
This field experience supports the LTC 4590 component of Phase II. Field experience expectations are delineated in the LTC 4590 course syllabi. Graded on a S/U basis only.

Credit Hour: 1
Recommended: Admittance to Phase II

(cross-leveled with LTC 7631). An integration of the philosophy and history of science, technology, society; teaching science as inquiry; classroom management, strategies and curricula for teaching/learning science; and using technology in science learning.

Credit Hours: 4
Prerequisites: Consent required
Recommended: Admittance to Phase II

LTC 4634: Teaching Middle and Secondary Science I Field
This field experience supports the Learning, Teaching and Curriculum 4631 component of Phase II. Field experience expectations are delineated in the LTC 4631 course syllabi. Graded on a S/U basis only.

Credit Hour: 1
Recommended: Admittance to Phase II

LTC 4641: Teaching Middle and Secondary Science II
An integration of the philosophy and history of science, technology, society; teaching science as inquiry; classroom management, strategies and curricula for teaching/learning science; and using technology in science learning.

Credit Hours: 3
Prerequisites: LTC 4631
Recommended: Admittance to Phase II

LTC 4644: Teaching Middle and Secondary Science II Field
This field experience supports the LTC 4641 component of Phase II. Field experience expectations are delineated in the LTC 4641 course syllabi. Graded on a S/U basis only.

Credit Hour: 1
Recommended: Admittance to Phase II

(cross-leveled with LTC 7651). An integration of the philosophy and history of science, technology, society; teaching science as inquiry; classroom management, strategies and curricula for teaching/learning science; and using technology in science learning.

Credit Hours: 3
Prerequisites: LTC 4631 and LTC 4641
Recommended: Admittance to Phase II

LTC 4654: Teach Sci MS/Sec Sch: Phil,Hist,Sci Inq,Curr,Assm & Tech III Fld
This field experience supports the LTC 4651 component of Phase II. Field experience expectations are delineated in the LTC 4651 course syllabi. Graded on a S/U basis only.

Credit Hour: 1
Recommended: Admittance to Phase II

LTC 4730: Overview of Art Education
(cross-leveled with LTC 7730). This is the first of a three course sequence and serves as the foundation for inquiries of methodological and philosophical approaches to the teaching of the visual arts at the elementary and secondary level.

Credit Hours: 3
Recommended: Admittance to Phase II

(cross-leveled with LTC 7631). An integration of the philosophy and history of science, technology, society; teaching science as inquiry; classroom management, strategies and curricula for teaching/learning science; and using technology in science learning.
LTC 4734: Overview of Art Education Field Experience
This field experience supports the Learning, Teaching and Curriculum 4730 component of Phase II. Field experience expectations are delineated in the LTC 4730 course syllabi. Graded on a S/U basis only.
Credit Hour: 1
Recommended: Admittance to Phase II

LTC 4740: Inquiry into Art Education: Pre-School Through Middle School
(cross-leveled with LTC 7740). The second of three course sequence. It will cover art education issues as they apply to the Pre-School through Middle School setting.
Credit Hours: 3
Prerequisites: LTC 4730 or LTC 7730
Recommended: Admittance to Phase II

LTC 4740W: Inquiry into Art Education: Pre-School Through Middle School - Writing Intensive
(cross-leveled with LTC 7740). The second of three course sequence. It will cover art education issues as they apply to the Pre-School through Middle School setting.
Credit Hours: 3
Prerequisites: LTC 4730 or LTC 7730
Recommended: Admittance to Phase II

LTC 4744: Inquiry into Art Education: Pre-School Through Middle School Field Experience
This field experience supports the LTC 4740 component of Phase II. Field experience expectations are delineated in the LTC 4740 course syllabi. Graded on a S/U basis only.
Credit Hour: 1
Recommended: Admittance to Phase II

LTC 4750: Inquiry into Art Education: Secondary
(cross-leveled with LTC 7750). The third of a three course sequence. Students will learn about secondary art education and make application to practice with emphasis on adolescent development, curriculum design, student assessment, instruction, diversity/equity, and professionalism.
Credit Hours: 3
Prerequisites: LTC 4740 or LTC 7740
Recommended: Admittance to Phase II

LTC 4754: Inquiry into Art Education: Secondary Field Experience
This field experience supports the LTC 4750 component of Phase II. Field experience expectations are delineated in the LTC 4750 course syllabi. Graded on a S/U basis only.
Credit Hour: 1
Recommended: Admittance to Phase II

LTC 4800: Educational and Cultural Experience Abroad
(cross-leveled with LTC 7800). Students work in a collaborative setting with K-12 educations in the host country. Components of this experience include research, discussion, electronic communication, in-country observations, and co-teaching experiences with a focus on the host-country education and culture.

LTC 4810: Educational and Cultural Experience Abroad - Writing Intensive
(cross-leveled with LTC 7810). Students will develop skills in writing and analysis as they work in a collaborative setting with K-12 educations in the host country. Components of this experience include research, discussion, electronic communication, in-country observations, and co-teaching experiences with a focus on the host-country education and culture.
Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4960: Special Readings in Curriculum and Instruction
Directed study of literature and research reports in education.
Credit Hour: 1-3

LTC 4970: Standardized Assessments
This non-credit course will provide resources to assist with standardized assessments required to become a Missouri certified teacher. Graded on S/U basis only.
Credit Hours: 0
Recommended: Admittance to Phase III

LTC 4971: Internship and Capstone Seminar
Internship is a full-semester experience in the public schools, including a capstone seminar addressing problems of practice integrating subjects, reading and writing across the curriculum, meeting all students’ needs, and evaluation of the intern's preparation for entering the profession. It is offered each Fall and Spring for 10-16 credit hours. Admittance to College of Education required.
Credit Hour: 1-16
Prerequisites: ED_LPA 4060 or ED_LPA 7060
Recommended: Admittance to Phase III

LTC 4971: Internship I
This field experience provides preservice interns a semester-long public school experience where they simultaneously engage in a unique combination of observation and teaching. Through observation, conferencing, reading, discussion, demonstration, and participation, the preservice intern will synthesize the course concepts of the Senior Year On-Site Program (SYOSP). Graded on A-F basis only.
Credit Hour: 1-4
Prerequisites: ED_LPA 4060 or ED_LPA 7060
Recommended: Admittance to Phase III

LTC 7040: Inquiring into Schools, Community and Society I
This course focuses on schooling in American society, the school community, the school culture, and students' lives and identities. Studied are the political, cultural, and economic conditions of the schools.
Credit Hour: 2-3
Prerequisites: completion of Phase I or enrollment in a graduate level program in the College of Education

LTC 7085: Problems in Curriculum and Instruction
Studies professional programs and issues in health or physical education.
Credit Hour: 1-3
Prerequisites: instructor's consent

LTC 7091: Assessment and Family Collaboration in Early Childhood Education
(cross-leveled with LTC 4091). Strategies for effectively observing and assessing young children and strategies for building positive family and community relationships, which support children's development and learning.

LTC 7420: Adolescent Literacy
(cross-leveled with LTC 4420). Explores literacy implications of content areas. Topics include determining the difficulty of text, examining literature that supports content, creating alternative assessments, and evaluating reading/writing strategies as tools for learning. (Required of all students obtaining certification in middle school or concurrent certification in middle and secondary school area(s) except language arts.

Credit Hours: 3
Prerequisites: admittance to College of Education required

LTC 7460: Teaching English to Speakers of Other Languages
(same as ENGLSH 7650). Linguistics and pedagogical principles of teaching English to speakers of other languages. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ENGLSH 7600 and ENGLSH 7610 or equivalent and admission to Phase II

LTC 7470: Teaching Secondary English/Language Arts I
(cross-leveled with LTC 4470). Prepares prospective educators with the knowledge, skills, and strategies necessary for integrating and teaching the English/Language Arts, primarily focusing on Young Adult Literature and critical thinking.

Credit Hours: 3
Prerequisites: admittance to Phase II of College of Education

LTC 7480: Teaching Middle and Secondary English/Language Arts II
(cross-leveled with LTC 4480). Prepares prospective educators with the knowledge, skills, and strategies necessary for integrating and teaching the English/Language Arts, primarily focusing on the teaching of writing and critical thinking.

Credit Hours: 3
Prerequisites: admittance to Phase II of College of Education

LTC 7490: Teaching Middle and Secondary English/Language Arts III
(cross-leveled with LTC 4490). Prepares prospective educators by focusing on the teaching of American culture and critical thinking, through literacy, mediacy, oracy, and cultural artifacts.

Credit Hours: 3
Prerequisites: LTC 4470 or LTC 7470 and LTC 4480 or LTC 7480; admittance to Phase II of College of Education

LTC 7500: Emergent Language in Early Childhood
(cross-leveled with LTC 4500). Study of language learning in young children; how meaning of the environment is gained through language; implications for teachers working with children from varying language-learning environments.

Credit Hours: 3

LTC 7560: Reading and Writing in Content Areas
(cross-leveled with LTC 4560). For secondary school teachers. Specific ways teachers can help students improve reading and writing skills in content areas and ways they can be taught.

Credit Hours: 3

Prerequisites: Consent required (enrollment is limited to College of Education admitted to Phase II with 60+ credit hours)

LTC 7565: Reading and Writing in the Content Areas II
(cross-leveled with LTC 4565). Reading and Writing in the Content Areas II explores specific reading and writing content area strategies, with a focus on struggling students and new investigations in disciplinary literacy.

Credit Hours: 3
Prerequisites: LTC 4560 or LTC 7560 or LTC 4380

LTC 7571: Introduction Teaching Mathematics in Middle and Secondary
Introduction to teaching mathematics including: professional mathematics teacher associations and journals, learning theories related to teaching mathematics, tools, and materials for teaching mathematics, curriculum and instructional strategies (middle and upper school level), and techniques for assessing mathematical understanding.

Credit Hours: 3
Prerequisites: professional standing and MATH 2300

LTC 7571: Introduction Teaching Mathematics in Middle and Secondary
Introduction to teaching mathematics including: professional mathematics teacher associations and journals, learning theories related to teaching mathematics, tools, and materials for teaching mathematics, curriculum and instructional strategies (middle and upper school level), and techniques for assessing mathematical understanding.

Credit Hours: 3
Prerequisites: professional standing and MATH 2300

LTC 7581: Teaching Mathematics in Middle and Secondary Schools: Focus on Algebra and Technology
(cross-leveled with LTC 4581). Key issues in the teaching of pre-algebra through advanced algebra, appropriate uses of technology, lesson planning, integration of appropriate models, mathematical connections. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: LTC 7571 or LTC 7360

LTC 7587: Seminar in Curriculum and Instruction
Seminar in Curriculum and Instruction.

Credit Hour: 1-3

(cross-leveled with LTC 4590). Provides experience which advanced students' knowledge, understanding, and facility in engaging students in learning mathematics. Major issues/topics highlighted in the course are: exploration of curriculum, teaching strategies, and assessment for geometry, probability and statistics.

Credit Hours: 3
Prerequisites: LTC 4570 or LTC 7570; admittance to College of Education required

(cross-leveled with LTC 4631). An integration of the philosophy and history of science, technology, society; teaching science as inquiry; classroom management, strategies and curricula for teaching/learning science; and using technology in science learning.

Credit Hours: 4
Prerequisites: Consent required (professional standing; admittance to College of Education required)
LTC 7641: Teaching Middle and Secondary Science II
An integration of the philosophy and history of science, technology, society; teaching science as inquiry; classroom management, strategies and curricula for teaching/learning science; and using technology in science learning.

Credit Hours: 3
Prerequisites: professional standing and Teaching Science in the Secondary School, Part I; admittance to College of Education required

LTC 7730: Overview of Art Education
This is the first of a three course sequence and serves as the foundation for inquiries of methodological and philosophical approaches to the teaching of the visual arts at the elementary and secondary level.

Credit Hours: 3
Prerequisites: admittance to College of Education required

LTC 7740: Inquiry into Art Education: Pre-School Through Middle School
The second of three course sequence. It will cover art education issues as they apply to the Pre-School through Middle School setting.

Credit Hours: 3
Prerequisites: admittance to College of Education required

LTC 7750: Inquiry into Art Education: Secondary
The third of a three course sequence. Student will learn about secondary art education and make application to practice with emphasis on adolescent development, curriculum design, student assessment, instruction, diversity/equity, and professionalism.

Credit Hours: 3
Prerequisites: admittance to College of Education required

LTC 7800: Educational and Cultural Experience Abroad
Students work in a collaborative setting with K-12 educators in the host country. Components of this experience include research, discussion, electronic communication, in-country observations, and co-teaching experiences with a focus on the host-country education and culture.

Credit Hours: 0-6

LTC 8085: Problems in Curriculum and Instruction
Problems in Curriculum and Instruction.

Credit Hours: 1-99

LTC 8611: Instructional Leadership and Advocacy in Early Childhood Education
This course supports students in examining the unique leadership context in early childhood education settings and the skills and dispositions required of leaders engaging a diverse, undercompensated workforce with a wide range of formal/degree education. The course will explore the history of leadership in ECE, historical and contemporary policies that have shaped the field, and future directions for advocacy. Graded on A-F basis only.

Credit Hours: 3

LTC 8612: Play, Inquiry, and Project-based Learning in Classrooms with Young Children
Study of early childhood curriculum in contemporary educational settings along with selection of appropriate materials and development of instructional strategies for children, prekindergarten through early primary grades. Graded on A-F basis only.

Credit Hour: 2-3
Prerequisites: teaching experience or instructor's consent

LTC 8613: Advanced Assessment in Early Childhood
Procedures and instruments used in assessment of young children, including screening, diagnosis, interpretation of diagnostic findings, and application to instructional plans. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Departmental consent required
Recommended: May be restricted to students in semester-based courses offered through Mizzou Online

LTC 8614: Language and Early Literacy Development
Investigation of the language and early literacy development of young children from birth through age 8. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Department consent required
Recommended: May be restricted to students in semester-based courses offered through Mizzou Online

LTC 8615: The Missouri Writing Project
Focus on 1) current theory and research in teaching writing; 2) development of effective practice in teaching, writing and reading; and 3) experimentation with writing and response.

Credit Hour: 3-4
Prerequisites: successful application to MWP

LTC 8616: The Teaching of Journalism
The course focuses on the learning and teaching of middle, secondary, and post-secondary journalism/mass media course. Major strands of study include the theory and practice of journalism instruction, curriculum, and assessment.

Credit Hours: 3

LTC 8617: Teaching Writing in Middle and Secondary Classroom
This course will encourage the student as a writer and as a teacher of writing, especially in the middle and high school setting. We will explore
various types of writing, with emphasis in English Education, including addressing national and state standards.

**Credit Hours: 3**

---

**LTC 8618: Writing, Reading and Teaching Nonfiction**

Students will get more than their feet wet as they read and write a variety of nonfiction texts, explore nonfiction's value and relationship to other genres, and investigate its potential for learning.

**Credit Hours: 3**

---

**LTC 8619: Media Literacy**

Teachers will learn how to incorporate visual images in the classroom while helping students 'read' the images of our media-rich culture. Teachers will pair media with literature; analyzed and evaluate different media; and design several assignments.

**Credit Hours: 3**

---

**LTC 8621: Talk in the Curriculum**

This survey examines talk's essential role in learning and the connections among language, power and cultural identity.

**Credit Hours: 3**

---

**LTC 8625: Language Acquisition and Development**

You will explore theories of language acquisition and development, and examine how language acquisition impacts reading and writing. Ideas for creating a language rich curriculum, second language learning, and cultural aspects of language will be addressed.

**Credit Hours: 3**

---

**LTC 8635: Literature for Children and Youth**

Systematic study of selected areas of particular importance to students of literature, teachers, librarians, supervisors, and school administrators.

**Credit Hours: 3**

**Prerequisites:** instructor's consent

---

**LTC 8636: Teaching Literature**

This course involves exploration of theory, research, and practice in the teaching and learning of literature to students in Grades 9-12. It is intended for master's and doctoral students - experienced teachers enrolled in MU's English Education graduate program. This course addresses selected Common Core Standards, and focuses on an integrated approach to the teaching of literature and some nonfiction. Texts include novels, short stories, poems, literary nonfiction, and plays. The teaching of critical thinking, research skills, and technology are integrated into these experiences. This course promotes the use of various teaching and learning practices. The course is divided into the following major sections: 1) Introductions of Class Members; 2) Theories of Teaching Literature in the Classroom; and 3) Trying Out Theories on Selected Literature. Graded on A-F basis only.

**Credit Hours: 3**

**Recommended:** This is a recommended course for early in a master's program

---

**LTC 8637: Teaching Communication**

This course explores the theory, research, and practice in the teaching and learning of communication. This course is intended for master's and doctoral students - experienced teachers enrolled in MU's English Education graduate program. This course addresses selected Common Core Standards, and focuses on the teaching of speaking, listening, and language, as they occur within the best practices of English/Language Arts classrooms. The course involves a variety of texts such as short stories, poems, literary nonfiction, and plays. The teaching of critical thinking, research skills, and technology are integrated into these experiences. This course encourages the use of various teaching and learning practices. The course is divided into the following major themes: 1) Introductions of Class Members; 2) Overview of Communication: Theory, Research, Practice; and 3) Teaching Communication in Context: Speaking, Listening, Reading, Writing. Graded on A-F basis only.

**Credit Hours: 3**

**Recommended:** We recommended, but do not require, that you take this course early in your program

---

**LTC 8638: Critical Literacy**

This course explores the theory, research, and practice of Critical Literacy. Students develop an understanding of the roots of critical literacy, based in critical theory, and critical pedagogy. Students develop an understanding of how critical literacy fits in conversation with other movements in literacy studies, particularly new literacies, while considering the research and practice rationales for using critical literacy as a way to engage student populations historically underserved by traditional approaches to literacy. Graded on A-F basis only.

**Credit Hours: 3**

---

**LTC 8640: Studies in English Education**

Exploration of the theory, research, and application of topics in the teaching of English, such as Writing/Thinking, Media, Literature, Language, and Creative Nonfiction. Topics announced at time of registration. May repeat to twelve hours with department's approval.

**Credit Hours: 3**

---

**LTC 8641: Foundations of English Education**

This course focuses on foundational readings in the teaching and learning of English/Language Arts. The course requires intensive reading, writing, and discussion focusing on four subcategories of English Education: writing, literature, language and critical thinking. In addition, the course situates these topics within a historical perspective of the field. An additional focus of this course is on professional networking and development. It is expected that as students develop a greater understanding of the foundations of English Studies in Language Arts, they will see where their areas of expertise and knowledge join them to the profession as a leader. Graded on A-F basis only.

**Credit Hours: 3**

---

**LTC 8642: Teaching Writing and Reading in Content Areas**

Theory and practice of teaching reading and writing. Specific ways teachers can help students use writing to communicate about the course content, as well as to learn course concepts. Class also focuses on how to teach reading in reading classes, how to help students improve reading skills in content areas, and how reading and writing skills can reinforce each other.
Credit Hours: 3

LTC 8643: Teaching ESL/EFL to Adult Learners
This course explores the characteristics of adult learners, theories of adult learning, and the contexts in which adults learn English as a second or foreign language. Students apply this knowledge in the design of language learning curricula and activities for adult learners. Graded on A-F basis only.
Credit Hours: 3

Prerequisites: LTC 8645 and LTC 8648

LTC 8644: Teaching English Grammar and Pronunciation
This course develops teachers’ knowledge of the structure of the English language (its grammar and its sound system) and provides them with pedagogical skills in teaching grammar and pronunciation to second/foreign language learners. Graded on A-F basis only.
Credit Hours: 3

LTC 8645: Second Language Acquisition
This course examines theories of how humans develop first and second languages in childhood and adulthood and how this knowledge can be used to educate language learners. Graded on A-F basis only.
Credit Hours: 3

LTC 8646: Materials for and Assessment of English Language Learners
This course will examine the appropriate classroom materials, methods, reasons, and tools for the formal and informal assessment of English Language Learners. Graded on A-F basis only.
Credit Hours: 3

LTC 8647: Language and Culture for Educators
This course will examine how to prepare educators to effectively educate students from a range of linguistic and cultural backgrounds by developing a broad understanding of the definition and nature of culture and appropriate teaching strategies and materials for diverse students. Graded on A-F basis only.
Credit Hours: 3

LTC 8648: Linguistics for Educators
This course focuses on the form, meaning, and use of language in context and applying knowledge of linguistics to the teaching of English language learners. Graded on A-F basis only.
Credit Hours: 3

LTC 8649: Methods of Teaching English Language Learners
This course will examine how to prepare teachers to develop the investigative, decision-making, and reflective teaching skills needed to work with English Language Learners. Graded on A-F basis only.
Credit Hours: 3

LTC 8650: English to Speakers of Other Languages Practicum
This culminating course will allow students to apply the theory and practice of teaching English to non-native speakers in an educational setting. Graded on A-F basis only.
Credit Hours: 3

LTC 8653: Education Toward Bi/Multilingualism: Theory, Policy, and Practice
(same as ED_LPA 8653). Overview of the theory, policy, and practice of using at least two languages in education to develop children's bi/multilingualism. Key topics include: (1) models of bilingual/multilingual education; (2) policy and politics of language education in the U.S. and international contexts; (3) psycholinguistic and sociocultural perspectives on bi/multilingual language development, as related to schooling; and (4) evaluation and assessment issues in bi/multilingual education.
Credit Hours: 3

Prerequisites: LTC 7540 and LTC 7560, or equivalent

LTC 8654: ESOL Curriculum Development
This course prepares teachers to design a language learning curriculum for students who are learning English as a second or foreign language.
Credit Hours: 3

LTC 8660: Reading Miscue Analysis
The process in which readers construct meaning by relating their socio-psycholinguistic backgrounds to discourse. 15 studied miscues (text deviations) are analyzed at several linguistic levels. A comprehension centered reading program is developed.
Credit Hours: 3

Prerequisites: LTC 7540 and LTC 7560, or equivalent

LTC 8664: Practicum in Child Study I
Practicum experiences in diagnosing educational problems of school children.
Credit Hour: 3-5
Prerequisites: LTC 7540 or LTC 7560 or LTC 8670

LTC 8665: Practicum in Child Study II
Practicum experiences in applying remedial procedures to children with educational problems.
Credit Hour: 3-5
Prerequisites: LTC 8664

LTC 8670: Analysis & Correction of Reading Disabilities
Diagnostic and corrective procedures in reading instruction that may be used for clinical study.
Credit Hours: 3
Prerequisites: LTC 7540 or instructor's consent

LTC 8675: Foundations of Reading Instruction
This online course examines principles and practices of teaching reading to PK-12 students; the nature of reading and literacy learning, the foundations of reading acquisition and development; and reading instructional across grade levels. Graded on A-F basis only.
Credit Hours: 3
LTC 8681: Guiding all Readers Toward Independence
This course is an exploration of ways to help all readers, particularly those who have been unable to achieve success in reading. Focus areas are assessment, evaluation, and planning, all examined through work with an individual reader in a targeted case study. Graded on A-F basis only.

Credit Hours: 3

LTC 8682: Focus on Writing in the Classroom
The course focuses on theory, research and practices in teaching writing in the elementary classroom (K-6) while developing a critical understanding of process methods to teach writing.

Credit Hours: 3

LTC 8683: Celebrating Reading Through Good Books
Many people can read but do not. This course will explore ways to make reading a joyful, exciting experience. Assignments will include reading journal articles that will help students meet self determined goals. Sharing books will be an important part of this course.

Credit Hours: 3

LTC 8684: Integrating Literacy and Technology
This will be a seminar course in which the students explore definitions of literacy, theoretical frameworks of educational technology, and literature that investigates the effectiveness of integrating literacy and technology. The students will also examine and evaluate a range of software used to integrate literacy and technology.

Credit Hours: 3

LTC 8685: Literature Opportunities: Using Children's and Young Adult's Literature in the Classroom
This class examines genres in children's and young adult literature (grades 1-9). In-depth look at the work of children's authors and illustrators; explore issues of censorship, gender, and culture.

Credit Hours: 3

LTC 8686: Theory of Instructional Strategies
The course investigates instructional strategies in K-12 and higher education classrooms and the theories behind those strategies. Content includes large and small group strategies, inquiry-based learning, student-centered and direct instruction, and differentiated instruction.

Credit Hours: 3

LTC 8687: Literacy and the Internet (Grades K-12)
The internet offers a myriad of opportunities to engage K-12 students in meaningful, purpose-driven reading and writing. Students examine their own literacy programs, examine ways they can incorporate the internet, and create a classroom web site.

Credit Hours: 3

LTC 8688: Nature of Literacy in a Digital World
New literacies are required to successfully engage in professional, civic, and personal lives that are imbued with technology. Students examine the literacy skills required to proficiently read and write with text messages, blogs, wikis, social networks, and virtual worlds.

Credit Hours: 3

LTC 8689: Curricular Decisions for Literacy in a Digital World (Grades K-12)
This course will focus on making a match between educational technologies that can be used to support literacy and your beliefs about literacy instruction. We will examine types of educational technologies, stances towards the integration of literacy and technology, various theoretical perspectives of literacy acquisition and development, aspects of literacy, and instructional approaches for literacy. You will examine various technologies and identify what best matches your literacy instruction. Graded on A-F basis only.

Credit Hours: 3

LTC 8710: Nature of Science and Science Teaching
Examines philosophical, historical and sociological views of the nature of science and implications for science education policy and science instruction.

Credit Hours: 3

LTC 8712: Inquiry and the Science Curriculum
Examines inquiry as the foundation of the science curriculum. Includes study of exemplary programs and curriculum materials, and provides models for curriculum development in science education.

Credit Hours: 3

LTC 8714: Research in Science Education
Studies appropriate research methodologies and reviews research and selected readings in science education. Allows option for elementary or secondary emphasis for specific areas: life, physical or earth sciences.

Credit Hours: 3

Prerequisites: undergraduate course in Science Education

LTC 8717: Teaching, Learning, & Research in Middle & Secondary School Sci.I
Course I is for Post-Baccalaureate Majors seeking Middle and/or Secondary teacher certification. Graded on A-F basis only.

Credit Hours: 3

Prerequisites: LTC 8942

LTC 8718: Teaching, Learning & Research Middle & Secondary School Sci.: II
For Post-Baccalaureate Majors seeking Middle and/or Secondary teacher certification. Graded on A-F basis only.

Credit Hours: 3

Prerequisites: LTC 8942

LTC 8719: Teaching, Learning, & Research Middle & Secondary For Post-Baccalaureate Majors seeking Middle and/or Secondary teacher certification. Graded on A-F basis only.

Credit Hours: 3

Prerequisites: LTC 8942
LTC 8724: College Science Teaching  
(same as BIO_SC 8724, PHYSICS 8310 and ASTRON 8310). Study of learner characteristics, teaching strategies, and research findings related to teaching science at the post-secondary level.  
Credit Hours: 3

LTC 8725: Science Outreach: Public Understanding of Science  
(same as BIO_SC 8725 and AN_SCI 8725). Development of presentations to adult audiences on the science underlying issues of current interest. May be repeated for credit.  
Credit Hour: 1-2

LTC 8726: Integrating Science with Outreach  
(same as BIO_SC 8726). This course provides an opportunity for students to earn credit for outreach activities in the community. Students will capitalize on their area of study and scientific expertise in developing, implementing, and evaluating related outreach activities. May be repeated for credit.  
Credit Hour: 1-6

LTC 8730: Survey of Art Education  
Provides survey of the development of art education and problems in the field by means of a critical inquiry.  
Credit Hours: 3

LTC 8735: Visual Literacy and Visual Culture  
This course will investigate the intersection between art and language, exploring the connections between visual media and the written word—how these two areas inform and enrich each other.  
Credit Hours: 3

LTC 8740: Curriculum in Art Education  
Advanced study of art education curricula, with option for elementary or secondary emphasis. Study of exemplary art programs, standards of quality, curriculum models, curriculum design and construction, concomitant instructional methods and evaluation.  
Credit Hours: 3

LTC 8745: Visual Thinking Strategies I  
This course will introduce regular classroom and art educators to Visual Thinking Strategies theory and methodology, building practical VTS facilitation skills through structured guidance and feedback as each participant implements VTS lessons within his/her own teaching context.  
Credit Hours: 3

LTC 8746: Visual Thinking Strategies II  
Visual Thinking Strategies II students will build upon the basic facilitation skills acquired during VTS I as they design an image-based studio curriculum tailored to their own students and classrooms. Action research and peer coaching are key features of the course. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: LTC 8745

LTC 8750: Review of Research in Art Education  
Studies appropriate research methodologies and reviews research and selected readings in art education.  
Credit Hours: 3

LTC 8765: Artistic Thinking: Multimedia Applications for Teaching Art  
This course is designed to keep pace with contemporary trends in technology and digital media literacies. Students will deeply explore current applications and develop curriculum implementation strategies for K-12 instruction in visual arts classrooms.  
Credit Hours: 3

LTC 8766: Illuminating Process and Product: Making Learning Visible  
This course focuses on the evaluative processes that surround and are embedded in art education. Due to the subtle, nuanced, and product based nature of visual arts, evaluative practices should be studied, understood, and implemented in an effective and encouraging manner. Graded on A-F basis only.  
Credit Hours: 3

LTC 8767: The Art of Teacher Reflection  
This course investigates reflective practices making deep inquiries into theoretical teaching practices. Students will examine their educational heritage, cultural beliefs and the implications these beliefs have on their current and future classrooms. Graded on A-F basis only.  
Credit Hours: 3

LTC 8780: Managing Classrooms for Learning  
Theoretical assumptions, goals, and research that inform various approaches to classroom management advocated for practitioners. Includes strategies for conducting action research on classroom management.  
Credit Hour: 1-3  
Prerequisites: An educational psychology course or instructor's consent

LTC 8790: Patterns for Instruction in Social Studies  
Examines current theory, trends and practices in secondary social studies curriculum with a practicum in curriculum development.  
Credit Hours: 3

LTC 8800: Secondary Social Studies Curriculum  
Examines current theory, trends and practices in secondary social studies curriculum with a practicum in curriculum development.  
Credit Hours: 3

LTC 8805: Inquiry into K-12 History and Social Science  
This course is designed as a directed study on a topic in social studies content for the K-12 classroom. The focus of the course is on what is taught in social studies. Graded on A-F basis only.  
Credit Hours: 3
LTC 8806: Issues in the Social Studies Classroom
This course is designed to provide an intensive study of current trends and significant issues in social studies that affect the social studies classroom.

Credit Hours: 3

LTC 8807: Exploration of Research in Social Studies
The course serves as the capstone experience for graduate students pursuing in the LTC Masters program with an emphasis in social studies education. This course prepares students to engage in classroom research specific to a social studies classroom and/or setting. Students will consider their role as classroom researchers. Students will be asked to synthesize course readings and discuss the underlying theories, dilemmas, and tensions found in the research. Students will also conduct a capstone project. Graded on A-F basis only.

Credit Hours: 3

LTC 8860: Mathematics Curriculum
Evolution of the mathematics curriculum during the 20th century will be studied. Emphasis will be given to examining major factors influencing the changing mathematics curriculum and their impact.

Credit Hours: 3
Prerequisites: teaching experience or the instructor's consent

LTC 8861: Teaching, Learning & Research in Middle & Secondary School Math I
Course I for Post-Baccalaureate Majors seeking Middle and/or Secondary teacher certification. Graded on A-F basis only.

Credit Hours: 3

LTC 8862: Teaching, Learning & Research Middle & Secondary School Math: II
Course II for Post-Baccalaureate Majors seeking Middle and/or Secondary teacher certification. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: LTC 8861
Corequisites: LTC 88942

LTC 8863: Teaching, Learning, and Research Middle and Secondary Math III
Course III for Post-Baccalaureate Majors seeking Middle and/or Secondary teacher certification. Graded on A-F basis only. Prerequisites: LTC 8861, and LTC 8862; Co-Requisites: LTC 88942.

Credit Hours: 3

LTC 8865: Assessment in Mathematics Education
Examination of assessment practices and the accountability movement. Emphasis is placed on significant research findings in assessment and implications for planning, implementing, and evaluating mathematics instruction.

Credit Hours: 3
Prerequisites: ESC_PS 7100 and teaching experience

LTC 8866: Contemporary Curriculum Issues in Mathematics Education
Mathematics curriculum is a concern to students, parents, school districts, business leaders, and government officials. This course examines current trends in mathematics curriculum from the perspective of mathematics educators, policymakers, and the public. Factors influencing changes in mathematics curriculum are examined. Graded on an A-F basis only.

Credit Hours: 2

LTC 8870: Studying Mathematics Teaching in Schools
This course explores issues that must be considered in the study of mathematics teaching, with a focus on appreciating the complexity of teaching mathematics and the challenges involved with improving teaching within typical school systems and structures. It includes a survey of research on mathematics teaching and an introduction to a variety of research methodologies used in such studies. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Open to masters and doctoral students

LTC 8871: Teaching and Learning Number/Operations Advanced
Course will develop understanding of learning and teaching pre-number concepts, counting and cardinality, numbers and operations in base ten. Emphasis will be given to how children think about and learn these concepts and how they fit into the elementary school curriculum. Graded on A-F basis only.

Credit Hours: 3
Corequisites: LTC 8881

LTC 8872: Teaching and Learning Rational Number Advanced
The course is designed to develop an understanding of the learning and teaching of rational numbers and the ratio and proportional relationships. Emphasis will be given to how children think about and learn these concepts and how they fit into the elementary school curriculum. Graded on A-F basis only. Corequisites: LTC 8882

Credit Hours: 3

LTC 8873: Teaching and Learning Geometry and Measurement Advanced
This course is designed to develop an understanding of the teaching and learning of geometry and measurement. Emphasis will be given to how children think about and learn these concepts and how they fit into an elementary mathematics curriculum. Graded on an A-F basis only.

Credit Hours: 3
Corequisites: LTC 8883

LTC 8874: Teaching and Learning Algebraic Reasoning Advanced
Course focuses on the content and complexities of teaching and assessing algebraic reasoning in grades 1-6. Includes examinations of representation, analysis of mathematical structures, patterns, functions, and the transition from arithmetic to algebra. Graded on A-F basis only. Corequisites: LTC 8884

Credit Hours: 3
LTC 8875: Technology and Mathematics Education
This course will focus on effective uses of technology in mathematics teaching and learning. Participants will experience different electronic technologies including computers, graphing calculators, and calculator based laboratories.
Credit Hours: 3
Prerequisites: Open to masters and doctoral students

LTC 8876: Teaching Data Analysis and Mathematical Modeling
The course will develop understanding of data analysis and mathematical modeling. Emphasis will be given to how children think and learn about these concepts and how they fit into the elementary school curriculum. Graded on A-F basis only.
Credit Hours: 3

LTC 8877: Foundations of Mathematics Leadership in Elem Schools
This course provides opportunities for participants to develop knowledge and understanding of leadership principles and the process of continuous improvement as it related to the roles and responsibilities of elementary mathematics specialists. Graded on A-F basis only.
Credit Hours: 2

LTC 8878: Mathematical Leadership for Elementary Schools Advanced
This advanced leadership course focuses on research and practice related to teamwork, interaction, communication, conflict resolution, and leadership in K-5 schools. Candidates will examine effective strategies for influencing and facilitating school/district improvement. Course graded on A-F basis only.
Credit Hours: 3

LTC 8879: Mathematical Thinking and Learning
This course surveys empirical research on mathematical thinking and learning in grades K-12, explores the complexity and mathematical power in students' thinking, and cultivates skill in using clinical interview methods to study students' thinking and learning. Graded on A-F basis only.
Credit Hours: 3

LTC 8881: Internship - Number and Operations in Elementary Schools
A supervised mathematics teaching practicum with online seminars in which the candidate acquires experience working with a range of students and adult learners (parents and teachers) on number and operations concepts. Graded on A-F basis only. Corequisites: LTC 8871
Credit Hour: 1

LTC 8882: Internship - Rational Numbers in Elementary Schools
A supervised mathematics teaching practicum with online seminars in which the candidate acquires experience working with a range of students and adult learners (teachers and parents) on rational number and proportional thinking concepts. Graded on A-F basis only. Corequisites: LTC 8872
Credit Hour: 1

LTC 8883: Internship - Geometry/Measurement in Elementary Schools
A supervised mathematics teaching practicum with online seminars in which the candidate acquires experience working with students and adult learners (teachers and parents) on geometry and measurement concepts appropriate for K-5 students. Graded on A-F basis only.
Credit Hour: 1
Corequisites: LTC 8873

LTC 8884: Internship - Algebraic Reasoning in Elementary Schools
A supervised mathematics teaching practicum with online seminars in which the candidate acquires experience working with a range of students and adult learners (teachers and parents) on concepts related to algebraic reasoning appropriate for K-5 students. Course graded on A-F basis only. Corequisites: LTC 8874
Credit Hour: 1

LTC 8886: Contemporary Equity Issues in Mathematics Education
Certain student populations (e.g., socioeconomically disadvantaged, racial minorities, English Language Learners, students with disabilities) have been traditionally underserved by the U.S. mathematics education system. This course explores the fundamental issues underlying this situation and explores mathematics teaching techniques that can be used to make students' learning opportunities more equitable. Graded on an A-F basis only.
Credit Hours: 3

LTC 8890: Mathematics Education Research
Examination of major research efforts and significant findings on learning and teaching mathematics. Emphasis will be placed on becoming knowledgeable of research and on developing wise consumers of research in mathematics education.
Credit Hours: 3
Prerequisites: teaching experience or instructor's consent

LTC 8893: Integrating Instruction in Science and Mathematics, Grades 5-12
This course is designed to help middle and secondary mathematics and science teachers enhance student understanding of mathematics and science through integration of the disciplines.
Credit Hours: 2

LTC 8896: Secondary Mathematics from an Advanced Perspective
This course deepens understanding of the mathematics underlying the secondary school curriculum. It addresses high school content from the viewpoint of advanced mathematics. Connections are explored within high school content and between high school and college content. Content strands include analysis, algebra, and Euclidean and non-Euclidean geometry. Graded on an A-F basis only.
Credit Hours: 3

LTC 8900: Seminar in Curriculum and Instruction
Seminar in Curriculum and Instruction. Some sections may be graded on A-F or S/U graded basis only.
LTC 8910: Individual Research
Independent research not leading to thesis.
Credit Hour: 1-3
Prerequisites: consent required

LTC 8913: Curriculum Development
Curriculum Development explores the intersections of learning, teaching, and curriculum. Students investigate not just various definitions of, types of, and purposes for educational curriculum, but more specifically focus on curriculum-in-practice. Student explore how teachers enact curriculum and the factors that inform curriculum use, such as state and national standards, standardized assessments, school contexts and curricular materials. Students study and apply models of curriculum development and curriculum decision-making for everyday classroom use, which may include backwards design, culturally-relevant designs, principles of learning and/or other curricular and instructional approaches. Graded on A-F basis only.
Credit Hours: 3

LTC 8914: Culturally Responsive Pedagogy
This course equips practicing teachers, curriculum developers, and community leaders with tools to address the varied cultural and social landscape of today's classrooms. Students examine political, cultural, and economic conditions of schools and develop strengths-based, culturally responsive approaches to teaching. Graded on A-F basis only.
Credit Hours: 3

LTC 8915: Classroom Research-Learning, Teaching and Curriculum
Study of original classroom research and theories of instruction leading to plans for personal research and theory development.
Credit Hour: 1-3
Prerequisites: advanced graduate standing

LTC 8930: Ethnographic Research in Education
Investigate practical aspects, nature, and assumptions of ethnographic research in education. Pilot study required.
Credit Hours: 3
Prerequisites: ESC_PS 7170 or equivalent

LTC 8940: In-Service Course in Curriculum and Instruction
Course work adapted to current vocational needs.
Credit Hour: 1-99
Prerequisites: instructor's consent

LTC 8941: Internship in Curriculum and Instruction
Provides internship experience under supervision in advanced levels of curriculum and instruction.
Credit Hour: 1-99
Prerequisites: departmental chairman's consent

LTC 8942: Advanced Internship in Curriculum and Instruction
This internship is for students enrolled in MU COE Post-Baccalaureate Certification Programs. Graded on A-F basis only.
Credit Hour: 1-10
Prerequisites: instructor's consent

LTC 8950: Case Study Research Methods
This course introduces graduate students to the advanced qualitative techniques related to case study research, within and across case coding strategies, and theoretical/philosophical underpinnings of case study research methodology.
Credit Hours: 3
Prerequisites: Previous introductory course in qualitative research methods is required

LTC 8951: Grounded Theory and Situated Inquiry
(same as LTC 8951). For qualitative researchers attempting to understand social processes, Grounded Theory (GT) offers a way of developing theory empirically, 'from the bottom up.' In fact, this is what most distinguishes GT from other methods. It is explicitly emergent. It does not test a hypothesis. It provides useful tools to learn about participants' understandings and experiences of a social issue, process, or phenomena and to discover and construct theory to account for the social processes being studied. In this course, we will consider the theoretical underpinnings and practices of classic and contemporary GT methodologies. Importantly, we will conduct research and a GT analysis of data.
Credit Hours: 3
Prerequisites: ESC_PS 8957 and ESC_PS 9620

LTC 8952: Narrative Inquiry Theory and Research Methods
Narrative inquiry has gained popularity amongst researchers specifically in education and other social science fields with various theoretical and analytical approaches. In this advanced qualitative course, students will learn about these approaches and develop critical perspectives toward narrative inquiry. The purpose of this course is to expose students, in various disciplines, to the theoretical underpinnings of narrative inquiry and provide space to 'have a try' at several analytical methods for narrative research (i.e. thematic, structural, dialogic/performative, and image analysis). This course will equip students with narrative research method experiences that could be used for dissertation research.
Credit Hours: 3
Prerequisites: ESC_PS 8957 and ESC_PS 9620

LTC 8953: Poststructural Theory and Research Methods
Poststructural perspectives call into question the universals and/or structures of society. The purpose of this course is to expose students, in various disciplines, to poststructural theory and provide space to 'have a try' at thinking with theory for data analysis. This course provides space for students to read poststructural scholars' original writings. Readings for the course also allow students to read secondary sources and research studies that apply poststructural ideas. Students are encouraged to think of ways that poststructural theory can become a methodology and/or method for research in their discipline.
Credit Hours: 3
Prerequisites: ESC_PS 8957 and ESC_PS 9620
LTC 8957: Qualitative Methods in Educational Research I
(same as ESC_PS 8957 and ED_LPA 8957). This course provides a practical introduction to qualitative research and its applications in education and social sciences. Graded on A-F basis only.

Credit Hours: 3

LTC 9050: Curriculum Theories
Examines key ideological orientations in curriculum theory, explores the notion of curriculum as more than ‘a course of study’ or ‘structured knowledge,’ and asserts that curriculum is embedded within historical discourses and practices of race, class, gender and sexuality. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Admittance into a doctoral program

LTC 9060: Theories of Learning and Implications for Education
The course will familiarize students with the learning theories most widely drawn upon in educational research. Students will examine how theories are used and the range of interpretations of these theories. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Admittance into a doctoral program

LTC 9070: Philosophical Perspectives in Education Research
An examination of the history and philosophy of social science research, including perspectives on ontology, epistemology, and axiology. Students will consider how various philosophical assumptions shape research paradigms, purposes, interests, and methodologies. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Admittance into a doctoral program

LTC 9080: Teacher Education Research
This course is designed to prepare doctoral students as researchers who understand current trends and challenges for teacher education across the professional continuum, and who have the ability to formulate, compare, and problematize relevant research in the field.

Credit Hours: 3
Prerequisites: Admittance into a doctoral program

LTC 9090: Research in Curriculum and Instruction
Graded on a S/U basis only.

Credit Hour: 1-99

LTC 9675: Language, Literacy, and Culture
This course explores how culture mediates language and literacy learning from a variety of theoretical perspectives. It examines language and literacy practices in and out of school and the ways educational polices and institutions shape what practices are valued and sustained over time. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Doctoral students only

LTC 9750: Doctoral Research Seminar in Art Education
This course focuses on art education research and is designed to offer doctoral students an opportunity to investigate, through readings, reflective thinking, writing, and discussion, the issues that impact art education research. Graded on A-F basis only.

Credit Hour: 1

LTC 9860: Research in Mathematics Education
This course focuses on research connoisseurship and expertise, and provides concrete opportunities for students to present, critique, and discuss research. It is intentionally designed as a practical research-learning environment. Graded on S/U basis only.

Credit Hour: 1
Prerequisites or Corequisites: Doctoral candidate status in Learning, Teaching, & Curriculum

Learning, Teaching, & Curriculum - Vocational Courses

LTC_V 1050: Principles of Sales
Provide the student with the concepts, tools and skills to become a professional salesperson. Emphasis is placed upon participation and performance of sales skills.

Credit Hours: 3

LTC_V 1070: Word Processing and Presentation Concepts
Instruction on preparing written documents and creating presentations for business, legal, medical, and social service career areas using word processing and presentation software; Special emphasis on the use of advanced features of computer business application software. Graded on A-F basis only.

Credit Hours: 3

LTC_V 1110: Principles of Retailing
Examines problems, opportunities and trends in retailing. Problems and cases deal with store organization, budgeting, control, personnel and operation.

Credit Hours: 3

LTC_V 4085: Problems in Curriculum and Instruction - CTE
Study of professional programs and issues or technical problems related to the field of career and technical education.

Credit Hour: 1-99
LTC_V 4210: Foundations of Adult Workforce Education
Study of workforce education and human resource development; emphasis on the foundational concepts of adult learning theory and its application to the development and use of instructional methods, curriculum design, and procedures for adult workforce and professional education. Graded on A-F basis only.

Credit Hours: 3

LTC_V 4570: Career Guidance
Problems, methods, and procedures involved in assisting individuals in choosing, preparing for, entering upon, and progressing in their career. For workforce development and human resource professionals, employment counselors, and teachers, counselors, and school administrators.

Credit Hour: 2-3

LTC_V 4710: Business Software Applications
Advanced concepts, features, and applications central to the major types of business software—spreadsheets, database management, word processing, graphics, and communications.

Credit Hours: 3

LTC_V 4750: Occupational Analysis
Techniques, procedures of analyzing occupations into their basic elements. Required of trade teachers, coordinators.

Credit Hours: 2

LTC_V 4910: Application of Adult Learning Concepts (cross-leveled with LTC_V 7910). Course introduces students to the foundational concepts of adult learning theory, with a focus on the application of these theories to the development and use of instructional methods, curriculum design, and program development principles for instructors of adult learners in a variety of instructional settings. Graded on A-F basis only.

Credit Hours: 3

Prerequisites: ESC_PS 4115; junior standing

LTC_V 4920: Workforce Education and the Community College (cross-leveled with LTC_V 7920). This course provides an overview of the philosophy, history, and development of the community college in America, and reviews the social, economic, and political forces affecting these institutions. It also explores the rationale and techniques for keeping instructional and organizational functions responsive to the changing educational and workforce needs of the community, with an emphasis on collaboration with public-sector economic development and workforce training programs and customized training services for private sector organizations. Graded on A-F basis only.

Credit Hours: 3

Prerequisites: Junior standing or instructor approval

LTC_V 7083: Teaching Personal Finance Literacy (same as FINPLN 7083) Principles and practices of teaching personal finance with particular emphasis on income, money management, spending and credit, and savings and investing. Course graded on A-F basis only.

Credit Hours: 3

LTC_V 7085: Problems in Curriculum and Instruction-CTE
Study of professional programs and issues or technical problems related to the field of career and technical education.

Credit Hour: 1-99

LTC_V 7570: Career Guidance (cross-leveled with LTC_V 4570). Problems, methods, procedures involved in assisting individuals in choosing, preparing for, entering upon, progressing in their vocation. For teachers, counselors, school administrators. Graded on A-F basis only.

Credit Hour: 2-3

LTC_V 7750: Occupational Analysis
Techniques, procedures of analyzing occupations into their basic elements. Required of trade teachers, coordinators.

Credit Hours: 2

LTC_V 7910: Application of Adult Learning Concepts (cross-leveled with LTC_V 4910). Course introduces students to the foundational concepts of adult learning theories, with a focus on the application of these theories to the development and use of instructional methods, curriculum design, and program development principles for instructors of adult learners in a variety of instructional settings. Graded on A-F basis only.

Credit Hours: 3

LTC_V 8085: Problems in Workforce and Professional Education
Independent, directed study on a topic in the areas of workforce, professional, or technology education.

Credit Hour: 1-99

LTC_V 8190: Research Applications for Career and Technical Education
Interpretation, evaluation, and application of research methodologies and findings in career and technical education.

Credit Hours: 3

LTC_V 8210: Program Development in Adult Workforce Education
The adult workforce and professional education movement; characteristics of and learning principles applied to adult students; instructional materials, methods and procedures in organizing and operating adult vocational education programs. Graded on A-F basis only.

Credit Hours: 3

LTC_V 8310: Foundations of Career and Technical Education
Philosophy, background, nature, purpose, and role of career and technical education programs in secondary and post-secondary education and workforce development. For teachers and administrators working with career and technical education programs. Graded on A-F basis only.

Credit Hours: 3
LTC_V 8350: Curriculum Development for Workforce and Professional Education
In-depth investigation of curriculum development theory, research, issues, and procedures for workforce and professional education in the public and private sectors.

Credit Hours: 3

LTC_V 8501: Topics in Workforce and Professional Education
Topics in the field of workforce, professional, or technology education in the CTE program areas.

Credit Hour: 1-99

LTC_V 8510: Evaluation in Workforce and Professional Education
Development of evaluation procedures and the construction of evaluation devices for workforce and professional education. Emphasizes performance evaluation, improvement of instruction, and program review.

Credit Hours: 3

LTC_V 8520: Implementation of Career and Technical Education Programs
Types of organization, approved administrative and supervisory practices, and state and federal guidelines for programs of career and technical education. Graded on A-F basis only.

Credit Hours: 3

Linguistics Courses

LINGST 1060: Human Language
(same as ANTHRO 1060, SLHS 1060, ENGLSH 1060). General introduction to various aspects of linguistic study. Elementary analysis of language data, with some attention to application of linguistic study to other disciplines.

Credit Hours: 3

LINGST 2001: Topics in Linguistics-General
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.

Credit Hour: 1-99
Prerequisites: consent of chair

LINGST 2601: Languages of Africa
(same as BL_STU 2601 and ENGLSH 2601). Introduction to the diversity of the 2000+ African languages, including first-hand experience exploring a few in detail with native speakers. Features of African languages are compared with others of the world. Political and social aspects of language in Africa are discussed.

Credit Hours: 3

LINGST 2700: Elementary Logic

Credit Hours: 3
Prerequisites: grade of C or higher in MATH 1100 or MATH 1120

LINGST 2820: Minds, Brains, and Machines
(same as PSYCH 2820 and PHIL 2820). Cognitive science is a many-splendored thing. It draws on a variety of disciplines, including psychology, neuroscience, computer science, linguistics, anthropology, and philosophy. The purpose of this course is to introduce the central questions of cognitive science, the conceptual and empirical tools used to investigate those questions, and some of the answers that have emerged so far. After an initial overview of the foundations of the cognitive-scientific enterprise as a whole, we will see what particular sectors of it have to say about mental capacities such as language, categorization, reasoning, social cognition, and consciousness.

Credit Hours: 3
Prerequisites: sophomore standing required
Recommended: PSYCH 1000

LINGST 3001: Topics in Linguistics-General
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.

Credit Hour: 1-99
Prerequisites: consent of chair

LINGST 3010: American Phonetics
(same as SLHS 3010). Analysis of production and acoustics of the sounds of speech with an emphasis on American English; practice in broad and narrow transcription using the International Phonetic Alphabet.

Credit Hours: 3

LINGST 3210: Anatomy and Physiology of the Speech Mechanism
(same as SLHS 3210). Introduction to anatomical and functional aspects of the speech mechanism.

Credit Hours: 3

LINGST 3220: Speech Acoustics
(same as SLHS 3220). An introduction to the acoustic aspects of speech as they relate to the respiratory, phonatory, resonatory, and articulatory systems.

Credit Hours: 2

LINGST 3470: Culture as Communication
(same as ANTHRO 3470, COMMUN 3470). Study of the influence of culture on communication processes. Examines topics such as the impact of values, languages, and nonverbal behavior on intercultural interaction.

Credit Hours: 3
Prerequisites: sophomore standing

LINGST 3620: Languages of the World
(same as ENGLSH 3620). Introduction to the diversity of the world’s languages emphasizing historical relations and structural similarities and differences.

Credit Hours: 3
LINGST 3710: Survey of Minority and Creole Languages of the U.S. and the Caribbean  
(same as SPAN 3710 and FRENCH 3710). Analysis of the state of the minority languages of the U.S. and the Creole languages of the Caribbean with particular attention to the social status of these languages and speakers' attitudes toward them in context of ethnic, cultural, and national identity (taught in English).

Credit Hours: 3  
Prerequisites: sophomore standing

LINGST 3721: Spanish Phonetics  
(same as SPAN 3721). Introductory course to the study of Spanish phonological, phonetic and spelling systems, practice of pronunciation, phonetic transcriptions, and introduction to the variation of Spanish pronunciation in the Hispanic world. The course is conducted in Spanish.

Credit Hours: 3  
Prerequisites: SPAN 2160

LINGST 4001: Topics in Linguistics-General  
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.

Credit Hour: 1-99  
Prerequisites: consent of chair

LINGST 4001H: Topics in Linguistics-General - Honors  
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisites: consent of chair; honors eligibility required.

Credit Hour: 1-99

LINGST 4001W: Topics in Linguistics-General - Writing Intensive  
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.

Credit Hour: 1-99  
Prerequisites: consent of chair

LINGST 4100: Philosophy of Language  
(same as PHIL 4100; cross-leveled with LINGST 7100, PHIL 7100). Examination of contemporary views of the relationship between language, minds, and the world.

Credit Hours: 3  
Prerequisites: sophomore standing and PHIL 2700 or instructor's consent  
Recommended: one other course in Philosophy

LINGST 4110: Advanced Logic  
(same as PHIL 4110; cross-leveled with LINGST 7110; PHIL 7110). Presents the method of truth trees for sentence and predicate logic. Examines proofs concerning the decidability, soundness, and completeness of formal systems. Emphasizes the theory of formal systems.

Credit Hours: 3

LINGST 4200: Introduction to Old English  
(same as ENGLISH 4200; cross-leveled with ENGLISH 7200; LINGST 7200). A beginning study of the Old English or Anglo-Saxon language in its cultural context, with emphasis on gaining a reading knowledge.

Credit Hours: 3

LINGST 4412: Gender, Language and Communication  
(same as COMMUN 4412, ANTHRO 4412; cross-leveled with COMMUN 7412, ANTHRO 7412, LINGST 7412). Relationships among gender, language, nonverbal communication, and culture.

Credit Hours: 3  
Prerequisites: junior standing or departmental consent

LINGST 4420: Historical Linguistics  
(same as ANTHRO 4420, ENGLISH 4660; cross-leveled with ANTHRO 7420, LINGST 7420, ENGLISH 7660). Methods of tracing the history of languages by glottochronology, and by comparative and internal reconstructions; cultural and linguistic implications of such reconstructions and of areal linguistics.

Credit Hours: 3  
Recommended: junior/senior standing

LINGST 4600: Structure of American English  
(same as ENGLISH 4600; cross-leveled with ENGLISH 7600, LINGST 7600). Introduction to English linguistics. Study of the grammar and pronunciation of contemporary English, with the major focus on syntax.

Credit Hours: 3  
Recommended: junior standing

LINGST 4610: History of the English Language  
(same as ENGLISH 4610; cross-leveled with ENGLISH 7610, LINGST 7610). Historical changes in the grammar and pronunciation of the English language from Old English to the present. Introduction to Indo-European origins of English.

Credit Hours: 3  
Recommended: junior standing

LINGST 4620: Regional and Social Dialects of American English  
(same as ENGLISH 4620; cross-leveled with ENGLISH 7620, LINGST 7620). The study of regional and social variation in pronunciation, vocabulary, and syntax of American English.

Credit Hours: 3  
Recommended: LINGST 4600 and LINGST 4610 or equivalent

LINGST 4630: Phonology  
(same as ENGLISH 4630; cross-leveled with ENGLISH 7630, LINGST 7630). Survey of the sound patterns of English and other languages.

Credit Hours: 3  
Recommended: LINGST 1060 or LINGST 4600 or equivalent
LINGST 4640: Syntax
(same as ENGLSH 4640; cross-leveled with ENGLSH 7640, LINGST 7640). Study of the properties of phrase and sentence-level grammar, emphasizing English, with some comparison to other languages.
Credit Hours: 3
Recommended: LINGST 1060 or LINGST 4600 or equivalent

LINGST 4710: History of the French Language
(same as FRENCH 4710). Study of the French language from its Latin origin to the present. The course includes a survey of the external, social, political, and historical factors that have affected the development of French, followed by diachronic study of the internal structural features of the language.
Credit Hours: 3
Prerequisites: FRENCH 3420 and FRENCH 3430

LINGST 4711: History of the Spanish Language
(same as SPAN 4711). Diachronic analysis of phonological, morphological, and syntactical systems of Spanish, from Vulgar Latin to contemporary dialects.
Credit Hours: 3
Prerequisites: SPAN 3420 and SPAN 3430

LINGST 4720: Structure of Modern French
(same as FRENCH 4720; cross-leveled with LINGST 7720, FRENCH 7720). An introductory presentation of the phonological and syntactic systems of contemporary standard French.
Credit Hours: 3
Prerequisites: FRENCH 3160

LINGST 4721: Structure of Modern Spanish
(same as SPAN 4721; cross-leveled with LINGS 7721, SPAN 7721). Synchronic analysis of phonology morphology and syntax of spoken Spanish dialects.
Credit Hours: 3
Recommended: four 3000-level courses in Spanish

LINGST 4722: Spanish Across the Continents
(same as SPAN 4722; cross-leveled with SPAN 7722). This course focuses on the effects of migratory movements on language change, considering the Spanish spoken in Latin America, Puerto Rico, Spain and the USA. The class sharpens awareness and recognition of the linguistic diversity of the Spanish-speaking regions of the world. Graded on A-F basis only.
Credit Hours: 3
Recommended: four 3000-level courses in Spanish

LINGST 4723: Language and Society: Spanish in the U.S.
(same as SPAN 4723; cross-leveled with SPAN 7723). This class surveys linguistic and social issues pertaining to Spanish in the U.S. (past, present and future). Topics include bilingualism, code switching (a.k.a. Spanglish), first language attrition, linguistic identity, and the role of Spanish in Education, services and media. Graded on A-F basis only.
Credit Hours: 3
Recommended: four 3000-level courses in Spanish

LINGST 4730: Linguistic Theory and Language Acquisition
The goal of this class is to study the implications of current linguistic theory for contemporary research on second language acquisition. In particular, the hypothesis that second language acquisition follows some of the same principles as first language acquisition is explored. Course is taught in English.
Credit Hours: 3
Prerequisites: LINGST 4720, LINGST 4721, or LINGST 4600

LINGST 4740: Interdisciplinary Introduction to NLP
(same as CMP_SC 4740; cross-leveled with LINGST 7740, CMP_SC 7740). The goal of this course is to enable students to develop substantive NLP applications. Focus on current structural and statistical techniques for the parsing and interpretation of texts.
Credit Hours: 3
Prerequisites: senior standing

LINGST 4810: Psycholinguistics
(same as SLHS 4810; cross-leveled with LINGST 7810, SLHS 7810). Examination of the knowledge and processes that underlie the human ability to produce and understand language.
Credit Hours: 3
Prerequisites: instructor's consent

LINGST 4870: Field Methods in Linguistics
(same as ANTHRO 4870 and ENGLSH 4670; cross-leveled with LINGST 7870, ANTHRO 7870, ENGLSH 7670). Intensive training in collection and analysis of data taken from a native speaker of a non-Indo-European language. May be repeated for credit.
Credit Hours: 4
Prerequisites: Contact the Linguistics advisor to request permission
Recommended: 9 hours of linguistics

LINGST 4960: Special Readings in Linguistics
Independent study through readings, conferences, reports.
Credit Hour: 1-3
Prerequisites: instructor's consent

LINGST 4991: Honors Thesis in Linguistics
Based on an original research project in theoretical or applied linguistics. Topic, director, and second reader approved by Linguistics Committee, College of Arts and Science.
Credit Hours: 3
Prerequisites: qualification for Honors degree
LINGST 7100: Philosophy of Language
(same as PHIL 7100; cross-leveled with LINGST 4100, PHIL 4100).
Examination of contemporary views of the relationship between
language, minds, and the world.
Credit Hours: 3
Prerequisites: PHIL 2700 or instructor's consent
Recommended: Some work in PHIL 1000, PHIL 3000 or PHIL 3200

玲生 7110: Advanced Logic
(same as PHIL 7110; cross-leveled with LINGST 4110, PHIL 4110).
Presents the method of truth trees for sentence and predicate
logic. Examines proofs concerning the decidability, soundness,
and completeness for formal systems. Emphasizes the theory of formal
systems.
Credit Hours: 3

玲生 7200: Introduction to Old English
(same as ENGLISH 7200; cross-leveled with LINGST 4200 and ENGLISH
4200). A beginning study of the Old English or Anglo-Saxon language in
its cultural context, with emphasis on gaining a reading knowledge.
Credit Hours: 3

玲生 7420: Historical Linguistics
(same as ANTHRO 7420, ENGLISH 7460; cross-leveled with ANTHRO
4420, LINGST 4420, ENGLISH 4460). Methods of tracing the
history of languages by glottochronology, and by comparative and
internal reconstructions; cultural and linguistic implications of such
reconstructions and of areal linguistics.
Credit Hours: 3

玲生 7600: Structure of American English
(same as ENGLISH 7600; cross-leveled with ENGLISH 4600, LINGST
4600). Introduction to English linguistics. Study of the grammar and
pronunciation of contemporary English, with the major focus on syntax.
Credit Hours: 3

玲生 7610: History of the English Language
(same as ENGLISH 7610; cross-leveled with ENGLISH 4610, LINGST
7610). Historical changes in the grammar and pronunciation of the
English language from Old English to the present. Introduction to Indo-
European origins of English.
Credit Hours: 3

玲生 7620: Regional and Social Dialects of American English
(same as ENGLISH 7620; cross-leveled with ENGLISH 4620, LINGST
7620). The study of regional and social variation in pronunciation,
vocabulary, and syntax of American English.
Credit Hours: 3
Prerequisites: LINGST 4600 or LINGST 7600 and LINGST 7610 or
equivalent

玲生 7630: Phonology
(same as ENGLISH 7630; cross-leveled with ENGLISH 4630, LINGST
4630). Survey of the sound patterns of English and other languages.
Credit Hours: 3
Recommended: at least one course in linguistics

玲生 7640: Syntax
(same as ENGLISH 7640; cross-leveled with ENGLISH 4640, LINGST
4640). Study of the properties of phrase-and sentence-level grammar,
emphasizing English, with some comparison to other languages.
Credit Hours: 3
Recommended: at least one course in linguistics

玲生 7870: Field Methods in Linguistics
(same as ANTHRO 7870, ENGLISH 4670; cross-leveled with ANTHRO
4870, ENGLISH 4670, LINGST 4870). Intensive training in collection and
analysis of data taken from a native speaker of a non-Indo-European
language. May be repeated for credit.
Credit Hours: 4
Prerequisites: instructor's consent

玲生 8000: Problems
Independent study through readings, analysis of special linguistic
problems, reports.
Credit Hours: 3
Prerequisites: one Advanced Linguistics course and instructor's consent

玲生 8120: Bilingualism and Language Contact
(same as SPAN 8120 and FRENCH 8120). Global analysis of the
study of Bilingualism from a combined sociocultural, sociolinguistic and
psycholinguistic perspective based on current research and examination
of various phenomena of language contact (taught in Eng.).
Credit Hours: 3

玲生 8600: Seminar in the English Language
(same as ENGLISH 8600). Descriptive and historical studies of the
English language. Topics (e.g., The Germanic Origins, Modern Syntactic
Analysis) announced at time of registration. May be repeated up to twelve
hours with departmental approval.
Credit Hours: 3

Listening and Speaking (Intensive English Program) Courses

IEPL _0001: Listening and Speaking I
Students will develop the listening and speaking skills required to
comprehend and talk about basic information and everyday situations.
Not open to native speakers of English. No college credit.
Credit Hours: 3
Prerequisites: must be admitted to the IEP program and placed into the
course by the IEP; consent of department required
IEPL _0002: Listening and Speaking II
Students will develop the listening and speaking skills required to comprehend and talk about simple familiar topics. Not open to native speakers of English. No college credit.
Credit Hours: 3
Prerequisites: must be admitted to the IEP program and placed into the course by the IEP; consent of department required

IEPL _0030: Listening and Speaking for Academic Purposes III
Students will develop the listening and speaking skills required to comprehend and discuss adapted academic topics. Not open to native speakers of English. No college credit.
Credit Hours: 3
Prerequisites: must be admitted to the IEP program and placed into the course by the IEP; consent of department required

IEPL _0040: Listening and Speaking for Academic Purposes IV
Students will develop the listening and speaking skills required to comprehend and discuss academic topics and adapted university lectures. Not open to native speakers of English. No college credit.
Credit Hours: 3
Prerequisites: must be admitted to the IEP program and placed into the course by the IEP; consent of department required

IEPL _0050: Listening and Speaking for Academic Purposes V
Students will develop the listening and speaking skills required to comprehend and discuss university lectures and academic interactions. Not open to native speakers of English. No college credit.
Credit Hours: 3
Prerequisites: must be admitted to the IEP program and placed into the course by the IEP; consent of department required

Management Courses
MANGMT 1030: Vasey Academy on Leadership Issues
Business seminar course restricted to Vasey Academy scholars. Focus on leadership issues and on career opportunity exploration in key areas of business. Graded on A-F basis only.
Credit Hour: 1

MANGMT 1050: Contemporary Leadership Issues in Business
Course focuses on contemporary business leadership practices and includes an overview of the accountancy, finance, management and marketing majors and careers in each of these fields.
Credit Hours: 3
Prerequisites: instructor's consent

MANGMT 2700: Introduction to Entrepreneurship
This course introduces a wide range of entrepreneurial concepts, most of which will be explored more deeply in advanced courses in the entrepreneurship and innovation management minor. Students learn about attitudes and aptitudes that are highly associated with entrepreneurial and innovation behaviors including working effectively in teams under deadline pressure. Processes for opportunity identification and recognition, working under severe resource constraints, identifying and testing key assumptions about business models, prototyping, and innovation diffusion are explored. Students will engage in experiential exercises in the field to learn more about these principles and processes. Students are encouraged to meet with and learn from real entrepreneurs through selected assignments. Graded on A-F basis only.
Credit Hours: 3

MANGMT 3000: Principles of Management
Introduction to the basic concepts of management and organization and their application to business operations.
Credit Hours: 3
Prerequisites: Completion of 45 semester hours. May require consent

MANGMT 3000H: Principles of Management - Honors
Introduction to the basic concepts of management and organization and their application to business operations. The honors section includes additional breadth (topics) and depth (topical detail) above and beyond regular sections utilizing critical review of case studies.
Credit Hours: 3
Prerequisites: Completion of 45 semester hours. Honors eligibility required

MANGMT 3200: Business and Society
This course emphasizes the ethical implications of managerial decisions and the relationships between businesses and stakeholder groups. Major topics include corporate governance, social responsibility, rights and obligations, and international business.
Credit Hours: 3
Prerequisites: Admission to upper level business program

MANGMT 3200H: Business and Society - Honors
This course emphasizes the ethical implications of managerial decisions and the relationships between businesses and stakeholder groups. Major topics include corporate governance, social responsibility, rights and obligations, and international business.
Credit Hours: 3
Prerequisites: Admission to upper level business program. Honors eligibility required. Other students may be allowed to register after early registration provided space is available. Consent may be required

MANGMT 3200HW: Business and Society - Honors/Writing Intensive
This course emphasizes the ethical implications of managerial decisions and the relationships between businesses and stakeholder groups. Major topics include corporate governance, social responsibility, rights and obligations, and international business.
Credit Hours: 3
Prerequisites: Admission to upper level business program. Honors eligibility required. Other students may be allowed to register after early registration provided space is available.

MANGMT 3200H: Business and Society - Honors
This course emphasizes the ethical implications of managerial decisions and the relationships between businesses and stakeholder groups. Major topics include corporate governance, social responsibility, rights and obligations, and international business.
Credit Hours: 3
Prerequisites: Admission to upper level business program. Honors eligibility required. Other students may be allowed to register after early registration provided space is available.

MANGMT 3200W: Business and Society - Writing Intensive
This course emphasizes the ethical implications of managerial decisions and the relationships between businesses and stakeholder groups. Major topics include corporate governance, social responsibility, rights and obligations, and international business.
Recommended: may register after early registration provided space is available. CoB students with 30 credit hours during early registration. Other students may register after early registration provided there is space available. NO OVERRIDES/PERMISSIONS will be given for this class once the lectures/labs fill.

MANGMT 3300: Introduction to Business Processes and Technologies
Introduces students to cross-functional business processes including both transactional and decision-making forms. Current and emerging technologies used to facilitate efficient and effective action in these processes are explored. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Admission to upper level business program

MANGMT 3540: Introduction to Business Law
The legal aspects of business related to society—introduction to the legal system; constitutional, criminal, tort law; contracts and sales law cases and problems; administrative regulation of business and consumer issues.

Credit Hours: 3
Prerequisites: Completion of 30 semester hours. May be restricted to CoB students only with 30 credit hours during early registration. Other students may register after early registration, provided there is space available. NO OVERRIDES/PERMISSIONS will be given for this class once the lectures/labs fill.

MANGMT 3700: Diversity and Inclusion in Management
Discuss elements of diversity including race, gender, ethnicity, religion, sexual orientation, socioeconomic status, and age, among others, as these impact effective management in the workplace through a variety of workplace performance-related outcomes. Explore ways to contribute to, learn from, and benefit from a more diverse and inclusive work environment. Examine methods of optimizing human performance and potential in organizations. Create personal action plan to increase awareness, knowledge, skills and global perspective relative to diversity and inclusion. Graded on A-F basis only.

Credit Hours: 3
Prerequisites or Corequisites: MANGMT 3000. May be restricted to CoB students with 30 credit hours during early registration. Other students may register after early registration provided space is available.

MANGMT 3720: The Entrepreneurial Mindset
The course will engage students in experiences that develop entrepreneurial characteristics such as a passion for business, tenacity despite failure, self-determination, management of risk, self-confidence, creating opportunities, creativity, initiative, and detail orientation. The product of this course intends to be a well-prepared student-entrepreneur fully confident to launch a thought-out business model. Graded on A-F basis only.

Credit Hours: 3
Recommended: ABM 3283, MANGMT 4700, T_A_M 3800

MANGMT 3760: Design Thinking for New Business Innovation
The Design Thinking for New Business Innovation course is ideally taken as the second course in a three course sequence (sequencing of courses is not required). Students, working in teams, first learn how to recognize potential opportunities in a range of business contexts (MANGMT 4700). Next, students learn how to identify meaningful issues for customers in a more focused context, how to generate multiple solutions and form these into cohesive business concepts, and how to carefully test for feasible value with potential customers using rough prototypes (this course). Finally, students learn how to develop a comprehensive business plan in areas like operations, marketing, finance, and human resources based on a business model concept for a given industry (MANGMT 4730). Such a detailed plan can be used to appeal to potential funding sources and serves as a guide for strategic action by a new venture. This course, as the middle course, bridges into the domains of both the other two courses to give students a flavor for what can be learned in both. Graded on A-F basis only.

Credit Hours: 3

MANGMT 3900: International Management
Analyzes the essential management functions within a global economy and provides a basic literacy in international management strategy and decision-making. Global markets are examined using legal, technological, ethical, and cultural considerations. Management principles in planning, organizing, leading, and controlling international trade and commerce are examined. Graded on A-F basis only.

Credit Hours: 3
Prerequisites or Corequisites: MANGMT 3000

MANGMT 3901: Special Topics in Management
Study of a selected topic in management taken as part of an organized short-term study abroad program. Some sections of this course may be graded on either on A-F or S/U basis only.

Credit Hour: 1-3
Prerequisites: May require consent

MANGMT 3901H: Special Topics in Management - Honors
Study of a selected topic in management taken as part of an organized short-term study abroad program. Some sections of this course may be graded on either on A-F or S/U basis only.

Credit Hour: 1-3
Prerequisites: May require consent. Honors eligibility required

MANGMT 3910: Managing Across Cultures
Applying cultural dimensions to developing cross-cultural behavioral competencies utilizing code-switching training methods. For all persons interested in improving international person-to-person interactions.

Credit Hours: 3
Corequisites: MANGMT 3000

MANGMT 3920: Managing People in the Global Enterprise
Focuses on management of people in global organizations—especially for-profit enterprises. Topics include differences across countries in recruitment and selection, training and development, leadership and motivation, compensation, cross-cultural negotiation, and employment relations. The use of expatriates and host country nationals as managers is contrasted. Challenges involved in repatriating expatriates and their families after lengthy terms of service in foreign countries are explored. Graded on A-F basis only.

Credit Hours: 3
Corequisites: MANGMT 3000

MANGMT 3975: Current Issues in International Management
Study of current issues and practices in international management taken as part of an organized short term study abroad program. Graded on S/U basis only.

Credit Hour: 1-3
Prerequisites: instructor's consent

MANGMT 4010: Operations Management
(cross-leveled with MANGMT 7010). Managerial analysis of operating problems, with emphasis on planning and control systems. Math Reasoning Proficiency Course. May require consent.

Credit Hours: 3
Prerequisites or Corequisites: MANGMT 3000

MANGMT 4020: Human Resource Management
(cross-leveled with MANGMT 7020) Introduction to strategies and best practices in attracting, retaining, developing, and compensating employees. May require consent.

Credit Hours: 3
Prerequisites or Corequisites: MANGMT 3000

MANGMT 4030: Organizational Behavior
(cross-leveled with MANGMT 7030). Examines theoretical constructs and research findings on human behavior in work organizations such as businesses, especially individual differences, dyadic relations and small group behavior. May require consent.

Credit Hours: 3
Prerequisites or Corequisites: MANGMT 3000

MANGMT 4050: Management of Service Operations
Managing services, especially the operation's activity in service firms. Includes determining the service package, forecasting service demand, managing demand, capacity analysis and management, scheduling, cost control, service quality, and human resource management. Standardization, franchising, and service automation addressed.

Credit Hours: 3
Prerequisites or Corequisites: MANGMT 3000

MANGMT 4060: Project Management Fundamentals
Application of predictive and agile project management methods and techniques for project breakdown, scheduling, resource allocation, and evaluation of project performance.

Credit Hours: 3
Prerequisites or Corequisites: MANGMT 3000

MANGMT 4070: Supply Chain Management
(cross-leveled with MANGMT 7070). An examination of the concepts, processes and institutions that are fundamental to an understanding of supply chain management in a global environment. Graded on A-F basis only.

Credit Hours: 3

MANGMT 4080: Managing Global Trade
(cross-leveled with MANGMT 7080). International trade is the exchange of goods and services between countries giving rise to a world economy that is affected by global events. This course will focus on global trade management issues, procedures, requirements, and strategies. The implementation of international market strategy, global supply chains, and trade finance will also be explored. These topics will be examined by exploring trade factors that influence organizations and trade relations such as different cultural norms, government regulations, technology, resources, and logistics. Graded on A-F basis only.

Credit Hours: 3

MANGMT 4090: Purchasing and Supply Management
(cross-leveled with MANGMT 7090). This course examines the critical role of the procurement function within the organization. The objective is to provide students with a fundamental understanding of the purchasing/sourcing function, key issues and developments in purchasing and supply management within the context of SCM, and to identify ways that purchasing can make a positive contribution to the competitiveness of the firm. Topics include an intro to the field/role in SCM; developing global sourcing strategies using commodity/channel/category management; make-or-buy decisions; supplier identification and selection; contract and pricing practices; negotiation; spend analytics including value analysis for services; contract performance monitoring; traditional versus collaborative supplier development; cross-functional relationship management, and ethics. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: MANGMT 4010

MANGMT 4110: Total Quality Management
Introductory, comprehensive approach to quality planning, analysis, and control. Applications orientation. Integrates customer needs, product and service design and delivery, and continuous improvement into all organizational activities. Examines full range of behavioral, technical, and organizational aspects relating to quality.

Credit Hours: 3
Prerequisites or Corequisites: MANGMT 3000

MANGMT 4120: Human Resource Management Law
Analysis and evaluation of legal and administrative regulations of terms of employment; Fair Labor Standards, discriminatory practices, safety and health regulations, other regulations.

Credit Hours: 3
Prerequisites: Restricted to COB students ONLY during early registration. Other students may register after early registration, provided there is space available. NO PERMISSIONS/OVERRIDES will be given for this class once it fills

MANGMT 4130: Advanced Organizational Behavior
Based upon behavioral science concepts and research findings directed toward understanding and explaining human behavior within organizations. Case studies, individual or team projects.

Credit Hours: 3
Prerequisites: MANGMT 4030. Restricted to COB students ONLY during early registration. Other students may register after early registration,
provided there is space available. NO PERMISSIONS/OVERRIDES will be given for this class once it fills.

**MANGMT 4140: Business Communication**
The course provides the fundamentals of business communication skills, including written, oral communication, listening, multicultural communication, and teamwork skills, with an emphasis on written communication skills as a method to communicate with important stakeholders.

**Credit Hours:** 3  
**Prerequisites:** Restricted to Trulaske College of Business students admitted to upper level  
**Corequisites:** MANGMT 3000

**MANGMT 4140W: Business Communication - Writing Intensive**
The course provides the fundamentals of business communication skills, including written, oral communication, listening, multicultural communication, and teamwork skills, with an emphasis on written communication skills as a method to communicate with important stakeholders.

**Credit Hours:** 3  
**Prerequisites:** Restricted to Trulaske College of Business students admitted to professional degree program during early registration

**MANGMT 4185: Problems in Management**
Undergraduate students may select topics for study and investigation. Selected sections of this course may be graded either on A-F or S/U basis only.

**Credit Hour:** 1-9  
**Prerequisites:** instructor's consent

**MANGMT 4201: Topics in Management**
(cross-leveled with MANGMT 7201). Selected current topics in management. Offered on an experimental, one-semester basis only.

**Credit Hours:** 3  
**Prerequisites or Corequisites:** MANGMT 3000. Restricted to College of Business students ONLY during early registration. Other students may register after early registration, provided there is space available

**MANGMT 4201H: Topics in Management - Honors**
Selected current topics in management. Offered on an experimental, one-semester basis only.

**Credit Hours:** 3  
**Prerequisites:** will vary with different topics. Honors eligibility required

**MANGMT 4201W: Topics in Management - Writing Intensive**
(cross-leveled with MANGMT 7201). Selected current topics in management. Offered on an experimental, one-semester basis only.

**Credit Hours:** 3  
**Prerequisites or Corequisites:** MANGMT 3000. Restricted to COB students ONLY during early registration. Other students may register after early registration, provided there is space available. NO PERMISSIONS/OVERRIDES will be given for this class once it fills

**MANGMT 4210: Management Science**
Further development of models and quantitative analysis as applied to production management problems. Management research design and experimentation; computer applications; quantitative case analyses; individual industrial field studies. Math Reasoning Proficiency Course.

**Credit Hours:** 3  
**Prerequisites or Corequisites:** STAT 3500 and ACCTCY 2258 or CMP_SC 1050, Junior standing required

**MANGMT 4220: Compensation Theory and Practice**
Examines the empirical research and theory relating to the effect of compensation administration systems upon employee satisfaction and performance. Analysis of financial compensation systems and benefit programs in use in modern organizations.

**Credit Hours:** 3  
**Prerequisites or Corequisites:** MANGMT 4020. Restricted to Business students ONLY during early registration. Other students may register after early registration, provided there is space available. NO PERMISSIONS/OVERRIDES will be given for this class once it fills

**MANGMT 4310: Modern Manufacturing**
Contemporary qualitative and quantitative analysis of automation systems for production and inventory; robotics, digital data matrix and Q/R coding, PLC overview; uncertainty, risk, and policy considerations; analysis of networks; management problems in application.

**Credit Hours:** 3  
**Prerequisites or Corequisites:** MANGMT 4010

**MANGMT 4320: Selected Problems in Human Resource Management**
Advanced studies in selected administrative and technical policies, practices in employee relations, with individual and group project work, research. Focuses on policy issues, research findings, advanced techniques.

**Credit Hours:** 3  
**Prerequisites or Corequisites:** MANGMT 4020. Restricted to Business students ONLY during early registration. Other students may register after early registration, provided there is space available. NO PERMISSIONS/OVERRIDES will be given for this class once it fills

**MANGMT 4340: Crisis Management**
Management strategies for organizational crisis events, including: constituent analysis, identity creation, image building, reputation control, media relations, internal communications, government relations, and investor relations. Concepts are explored through case studies, film, literature, and current events in popular culture.

**Credit Hours:** 3  
**Prerequisites or Corequisites:** MANGMT 4020. Restricted to Business students ONLY during early registration. Other students may register after early registration, provided there is space available

**MANGMT 4350: Leadership Development**
Provides a comprehensive understanding of leadership development within the corporate environment. Examines causes and outcomes of different styles of leadership that are designed to fit the needs of individuals and/or specific situations.

**Credit Hours:** 3
Corequisites: MANGMT 3000

MANGMT 4420: Collective Bargaining
Content, negotiation, administration of collective labor agreements and settlement of disputes.
Credit Hours: 3
Prerequisites or Corequisites: MANGMT 3000. Restricted to Business students ONLY during early registration. Other students may register after early registration, provided there is space available. NO PERMISSIONS/OVERRIDES will be given for this class once it fills

MANGMT 4450: Management of Electronic Commerce
An introduction to electronic commerce. Topics covered include definition and scope of e-commerce, tools and technologies used, strategies, and understanding of this dynamic field.
Credit Hours: 3
Prerequisites or Corequisites: MANGMT 3000. Restricted to Business students ONLY during early registration. Other students may register after early registration, provided there is space available. NO PERMISSIONS/OVERRIDES will be given for this class once it fills

MANGMT 4520: Change Management in Business
Provides a comprehensive understanding of the processes of change in the corporate environment. Examines antecedents of change such as acquisitions, mergers, technology and new leadership as well as approaches to managing change using tools from organization development (OD).
Credit Hours: 3
Prerequisites or Corequisites: MANGMT 3000

MANGMT 4540: Legal Aspects of Business Organization and Operation
(cross-leveled with MANGMT 7570). Includes agency and employment relationships, sole proprietorships, partnerships, and corporations, also operational aspects of business associations such as administrative regulation, taxation, bankruptcy, and trade regulation.
Credit Hours: 3
Prerequisites or Corequisites: MANGMT 3000

MANGMT 4610: Database Management
This is an introductory course on database (DB) technology. It introduces such technology and provides hands-on experience in designing and developing DBs to meet organizational goals. Topics include database concepts such as entity-relationship modeling, data modeling, relational database development, SQL, application of popular database systems software, data warehousing, and selected advanced topics in business use of DBs. Students work in groups to develop a database system project for an organization of their choice. Graded on A-F basis only.
Credit Hours: 3
Prerequisites or Corequisites: MANGMT 3000

MANGMT 4620: Web Development Fundamentals
An introduction to the fundamentals of design, technology and project management aspects of developing websites. Some web based programming languages including HTML, CSS, JavaScript and ASP/ VBScript and an introduction to Adobe Photoshop and Macromedia Dreamweaver.
Credit Hours: 3
Prerequisites: ACCTCY 2258
Corequisites: MANGMT 3000

MANGMT 4700: Principles of Entrepreneurship
An introductory course designed to provide a solid foundation of the role of entrepreneurship. The focus is on the creation of new ventures, the decisions leading to their development, and the factors that lead to their success.
Credit Hours: 3

MANGMT 4710: The Entrepreneurial Process
This course deals with critical thinking, logic, emotional intelligence, ethics and a problem solving/decision making frame in the context of the entrepreneurial business phases: opportunity identification; launch after gathering resources; managing growth and harvesting rewards.
Credit Hours: 3
Prerequisites or Corequisites: MANGMT 3000. Restricted to Business students ONLY during early registration. Other students may register after early registration, provided there is space available. NO PERMISSIONS/OVERRIDES will be given for this class once it fills

MANGMT 4720: Experiential Entrepreneurship
The course will engage students in experiences that develop entrepreneurial characteristics such as a passion for business, tenacity despite failure, self-determination, management of risk, self-confidence, creating opportunities, creativity, initiative, and detail orientation.
Credit Hours: 3
Prerequisites or Corequisites: MANGMT 3000. Restricted to Business students ONLY during early registration. Other students may register after early registration, provided there is space available. NO PERMISSIONS/OVERRIDES will be given for this class once it fills

MANGMT 4730: New Business Planning and Management
Analysis of the major functional areas of the start-up firm including accounting, finance, human resources, information systems, logistics, management, marketing, production/operations, purchasing and sales. Focus is also placed on generating ideas, scanning for environmental trends, and critically evaluating opportunities.
Credit Hours: 3

MANGMT 4740: Entrepreneurial Consulting for Small Business
This course is focused on developing the critical skills required to operate and manage a business in the growth phase following startup. Typically in this phase, the company has found and served customers and is cash flow positive. However, formal organization of the company and properly managing growth can be a challenge to the entrepreneur. The pitfalls of growth can be very different from organization to organization. For some it might be meeting production schedules, for others it might be expanding the management structure through hiring to increase organizational capacity. Properly financing growth can be a challenge for all. Graded on A-F basis only.
Credit Hours: 3
MANGMT 4940: Professional Management Internship
Provides experience with management activities in business organizations (or, occasionally, in a governmental or not-for-profit setting). Students are required to prepare and execute a plan of study approved by the instructor and to complete written assignments detailed in the plan. Course only satisfies a professional elective requirement of the program. Graded on S/U basis only.

Credit Hours: 3
Prerequisites: COB student with a management concentration, and Internship Coordinator's consent

MANGMT 4970: Strategic Management
Enterprise-level case studies, simulations, similar exercises to integrate business functional decisions; assessment of environmental influences on business. Development, implementation of company strategies.

Credit Hours: 3
Prerequisites: MANGMT 3000, MRKTNG 3000, FINANC 3000 and 93 credit hours earned. Open only to seniors admitted to a professional program in the CoB

MANGMT 4970W: Strategic Management
Enterprise-level case studies, simulations, similar exercises to integrate business functional decisions; assessment of environmental influences on business. Development, implementation of company strategies.

Credit Hours: 3
Prerequisites: MANGMT 3000, MRKTNG 3000, FINANC 3000 and 93 credit hours earned. Open only to seniors admitted to a professional program in the CoB

MANGMT 7010: Operations Management
(cross-leveled with MANGMT 4010). Managerial analysis of operating problems, with emphasis on planning and control systems. Math Reasoning Proficiency Course. May require consent.

Credit Hours: 3
Prerequisites or Corequisites: MANGMT 3000

MANGMT 7020: Human Resource Management
(cross-leveled with MANGMT 4020). Introduction to strategies and best practices in attracting, retaining, developing, and compensating employees. May require consent.

Credit Hours: 3
Prerequisites or Corequisites: MANGMT 3000

MANGMT 7030: Organizational Behavior
(cross-leveled with MANGMT 4030). Examines theoretical constructs and research findings on human behavior in work organizations such as businesses, especially individual differences, dyadic relations and small group behavior. May require consent.

Credit Hours: 3
Prerequisites or Corequisites: MANGMT 3000

MANGMT 7070: Supply Chain Management
(cross-leveled with MANGMT 4070). An examination of the concepts, processes and institutions that are fundamental to an understanding of supply chain management in a global environment. Graded on A-F basis only.

Credit Hours: 3

MANGMT 7080: Managing Global Trade
(cross-leveled with MANGMT 4080). International trade results from the buying and selling of goods and services across country borders. Events that occur globally, advancements in technology, and country policies all affect trade. This course focuses on global trade management issues, procedures, requirements, and strategies. It explores international market selection and entry strategies, risk factors, global supply chains, and trade finance. The course examines trade factors that influence organizations and trade relations including current events, different cultural considerations, governmental regulation, innovation and technology, financial resources, and logistics. Graded on A-F basis only.

Credit Hours: 3

MANGMT 7090: Purchasing and Supply Management
(cross-leveled with MANGMT 4090). This course examines the critical role of the procurement function within the organization. The objective is to provide students with a fundamental understanding of the purchasing/sourcing function, key issues and developments in purchasing and supply management within the context of SCM, and to identify ways that purchasing can make a positive contribution to the competitiveness of the firm. Topics include an intro to the field/role in SCM; developing global sourcing strategies using commodity/channel/category management; make-or-buy decisions; supplier identification and selection; contract and pricing practices; negotiation; spend analytics including value analysis for services; contract performance monitoring; traditional versus collaborative supplier development; cross-functional relationship management, and ethics. Graded on A-F basis only.

Credit Hours: 3

MANGMT 7201: Topics in Management
(cross-leveled with MANGMT 4201). Selected current topics in management. Offered on an experimental, one-semester basis only.

Credit Hours: 3
Prerequisites or Corequisites: MANGMT 3000. Restricted to College of Business students ONLY during early registration. Other students may register after early registration, provided there is space available

MANGMT 7380: Organizational Behavior and Management: The Individual
An examination of factors influencing behavior in organizations. An analysis of research, theory, and current practices dealing with managing people in work organizations. Focus on the individual within the organizational context.

Credit Hour: 1.5

MANGMT 7390: Organizational Behavior and Management: Dyadic, Group and Organizational Processes
An examination of factors influencing behavior in organizations. An Analysis of research, theory, and current practices dealing with managing people in work organizations. Focus on dyadic, group and system-wide processes. Prerequisites: MANGMT 7380
Credit Hour: 1.5
MANGMT 7410: Management Information Systems
A managerially-oriented, case-based introduction to information systems. Emphasizes how information systems technology can aid managers in improving organizational performance, group work, and personal productivity, thus providing competitive advantage.

Credit Hour: 1.5

MANGMT 7420: Managerial Statistics
Overview of statistics as an aid in decision making. Emphasis on summarizing data, statistical inference, sampling techniques, and regression based forecasting as applied to problems in business.

Credit Hour: 1.5

MANGMT 7430: Operations Strategy
Introduction to Operations Management function within an organization-the function which controls key resources necessary to produce and deliver a firm's goods or services to customers. Surveys strategic problems common to operations within complex organization. Emphasizes planning, control, and decision making to gain competitive advantage through operations-related activities. Stresses concepts, models, and behaviors across technologies, sectors, and industries, rather than emphasizing a few specific conversion technologies.

Credit Hour: 1-3

MANGMT 7450: Business Analytics
This course focuses on two areas of knowledge. One focus is on developing relevant statistical thinking skills, including an awareness of management of risk, and recognizing the type of statistical analysis that is appropriate for a given managerial problem. The other is on developing an understanding of the role of business analytics in the organization, at the managerial, tactical and strategic level. Graded on A-F basis only.

Credit Hours: 3

MANGMT 7470: Data Analysis for Managers
Statistical thinking approaches to address common business data and problems. Analysis of real-world cases and unstructured data using statistical features of spreadsheet software and communication of results in managerial format. Graded A-F only.

Credit Hour: 1.5

Prerequisites: Open to Crosby MBA students ONLY
Corequisites: MANGMT 7420

MANGMT 7480: Managerial Analytics
Spreadsheet modeling procedures to address common business problems. Analysis of real-world cases and unstructured problems using basic and advanced features software and communication of results in managerial format. Graded A-F only.

Credit Hour: 1.5

Prerequisites: MANGMT 7420 and MANGMT 7470. Open to Crosby MBA students ONLY

MANGMT 7540: Legal Aspects of Business Organization and Operation
(cross-leveled with MANGMT 4540). Includes agency and employment relationships, sole proprietorships, partnerships, and corporations, also operational aspects of business associations such as administrative regulation, taxation, bankruptcy, and trade regulation.

Credit Hours: 3

Prerequisites: MANGMT 3540. Restricted to COB students

MANGMT 7970: Introduction to Strategic Management
Examines through case analysis and simulation how business-level managers overseeing a profit center in a specific industry set direction for a firm's activities in that industry and develop policies to implement that direction. Emphasis is on aligning business strategy with overarching corporate strategy (in diversified firms) and integrating functional perspectives (marketing, operations, finance, R&D, purchasing, human resources, etc.) by effectively resolving conflicts in these perspectives when formulating effective strategy. Focus is also placed on balancing short-term efficiency in a business unit with long-term effectiveness through cultivating continuous innovation processes that redefine the business unit over time.

Credit Hour: 1.5

Prerequisites: Open to Crosby MBA students only

MANGMT 8001: Topics in Management
Selected current topics in management. Some sections may be graded on an A-F or S/U basis only. Some sections may require consent.

Credit Hour: 1-6

MANGMT 8054: Entrepreneurship and Media of the Future
(same as JOURN 8054). This course will give students an intense hands-on experience in working with real entrepreneurs on complex business problems in the journalism field. Example companies are the Associated Press, Kachingle, the Chicago Sun-Times, Spot-Us and the Media Policy Center. The goal is to offer a solution or solutions to the stated problem, and to present these ideas in a competitive, symposium environment. Graded on A-F basis only.

Credit Hours: 3

Prerequisites: graduate standing in Journalism or MBA program

MANGMT 8085: Problems in Management
Graduate students may select topics for study and investigation. Selected sections of the course may be offered either on A-F or S/U basis only.

Credit Hour: 1-99

MANGMT 8100: Exploring the Digital Globe
Impacts of technological change and globalization are explored from the perspective of business, law and journalism. The first course required for the 'CDiG certificate'. Issues involving electronic commerce, digitization and globalization will be analyzed through online and in-class projects, class discussion and guest lectures.

Credit Hours: 3

Prerequisites: enrollment in CDiG Graduate Certificate Program or instructor's consent
MANGMT 8200: Commercialization of Life Science Innovations (same as BIOL_EN 8200). This course will provide educational content and experiences that equip course participants to navigate the main pathways for commercialization of biomedical innovations. Students will also learn how to access sources of capital for R&D and develop an understanding of the role of FDA approval and the processes for approval of different types of biomedical products. Students will become familiar with quality assurance programs required in the biomedical industry. Students will also become familiar with the most common business models for biomedical companies and the importance of product development and commercialization alliances.

Credit Hours: 3

MANGMT 8330: Current Issues in Human Resource Management
Exploration of current trends, issues, and controversies involving the managing of human resources in organizations, with an emphasis on how human resources can provide competitive advantage. Considers multiple perspectives, including that of employers, employees, and other stakeholders.

Credit Hours: 3
Prerequisites: MANGMT 8310 or MANGMT 7380 and MNGMT 7390

MANGMT 8360: Negotiations
A structured overview of negotiations; includes the development of improved negotiation skills. Topics include power, distributive negotiations, integrative negotiations, maneuvers, tactics, strategies, conflict, complex negotiations, mediation, and negotiation ethics.

Credit Hours: 3

MANGMT 8380: Personal and Professional Development
Readings, activities, and discussions designed to build individual self-awareness of leadership strengths and change management skills for both personal and career development. Graded on A-F basis only.

Credit Hour: 1-3

MANGMT 8400: Management Science Modeling
Application of management science modeling procedures to organizational decision making. Topics include mathematical programming, queuing, and network models. Stresses managerial point of view with analysis of problems and interpretation of computer solutions.

Credit Hour: 1.5
Prerequisites: MANGMT 7420

MANGMT 8410: Decision Making and Risk
Managerial approaches to decision making under risk and uncertainty with emphasis on decision analysis, spreadsheet simulation, and computer solutions via other management science models. Discussion of rational and behavioral decision making and procedures for assessing risk and uncertainty.

Credit Hour: 1.5
Prerequisites: MANGMT 7400 or equivalent

MANGMT 8420: Decision Support Systems
The theory, methodology and implementation of Decision Support Systems (DSS). Topics include the DSS concept, applications, organizational issues, hardware and software technology, developmental methodology, data-model-user relationships, user interfaces, implementation strategies, and evaluation procedures. Includes hands-on building of a DSS.

Credit Hours: 3

MANGMT 8510: Project Management
An advanced introduction to methods and techniques for managing projects, with selective attention to human resource issues as required. Includes project breakdown analysis, task network scheduling, resource allocation, and assessment/evaluation of project performance.

Credit Hour: 1-3
Prerequisites: departmental consent

MANGMT 8540: Entrepreneurial Ventures
Analysis of management challenges facing entrepreneurial startups and alternative strategic responses to those challenges. Views issues from multiple functional perspectives to design cross-functional solutions to entrepreneurial problems.

Credit Hours: 3

MANGMT 8550: Launching a High-Growth Venture
An experiential learning course using a business plan competition to simulate planning and securing capital for high-growth ventures. Participants with management, marketing or finance interests learn skills for preparing and presenting business plans to investors.

Credit Hours: 3

MANGMT 8560: Legal Strategies for Entrepreneurs
The study of how legal decisions affect a business organization of various transitional states of development, from start up to going public. Designed for both MBA and Law students, who work together planning legal transitions of a business.

Credit Hours: 3

MANGMT 8800: Turnaround Management and Strategy
No turnaround is the same, and there is no secret formula that will work every time. However, there are basic principles that can take a leader to a point where they can position a company in a more stable environment quickly, which will ultimately help the company to survive. Most students who pursue a business career will find themselves in a Turnaround or restructure environment sometime in their career. This class will give the student the upper hand in understanding why these situations occur, who and what is the cause, and a framework to be part of the solution.

Credit Hours: 3

MANGMT 8900: Corporate Governance and Professional Accountability
Corporate governance (CG) is the set of processes, customs, policies, laws, and institutions affecting how a company is directed, administered or controlled. CG includes the relationships among the many stakeholders involved and the goals by which the corporation is
governed. In contemporary business corporations, the main external stakeholder groups are shareholders, debtholders, trade creditors, suppliers, customers and communities affected by the corporation’s activities. Internal stakeholders are the board of directors, executives, and other employees. This course will illustrate some of these key relationships, including how they can go wrong and the trade-offs managers have to make to manage all of these relationships. This course can be seen as a course on the professional responsibilities of business leaders. It is based on the assumption that business, like law and medicine, is a profession whose practitioners carry out essential functions in society. When individuals enter the profession, they undertake to fulfill a distinctive set of responsibilities that go with their chosen role. Graded on A-F basis only.

Credit Hours: 3

MANGMT 8970: Strategy and Global Competitiveness
Investigates alternative goals of business enterprises relative to internal resources and external environment; development and implementation of policies and strategies to achieve objectives. Cases, computer simulations, and/or field research may supplement published materials.

Credit Hour: 1-3
Prerequisites: MANGMT 7970 for the 1.5 credit hour version of the course. Open to MBA Students only

MANGMT 9010: Research Methods in the Organization Sciences
Identifying research questions, critiquing research ideas, planning, conducting, and communicating research using experimental, cross-sectional, survey and qualitative methods.

Credit Hours: 3
Prerequisites: PhD student or instructor's consent

MANGMT 9030: Seminar in Macro Organizational Behavior
This course is designated to introduce students to content areas within the organizational behavior literature. Topics in ‘macro’ organizational behavior will be covered, including groups and teams, organizational culture, and national culture. We will also cover a number of topics outside of traditional organizational behavior topics, including negotiation and social conflict, creativity, empowerment, and other topics as the instructor sees fit. Readings will consist of a combination of recent and classic journal articles on the topics.

Credit Hours: 3
Prerequisites: PhD Students and instructor's consent

MANGMT 9040: Seminar in Human Resource Management
Intensive study of current research, issues and methodology of the applied science of human resource management. Topics include recruitment and selection, training, job performance and performance feedback, and career success.

Credit Hours: 3
Prerequisites: PhD student or instructor's consent

MANGMT 9060: Seminar in Corporate Strategy
The doctoral seminar in strategy focuses on the topics of strategy content research (what strategies are used by firms, and what is their effect on performance, corporate and competitive strategy, etc.) but also considering important related research streams of strategy process and implementation.

Credit Hours: 3
Prerequisites: PhD student or instructor's consent

MANGMT 9080: Seminar in Entrepreneurship
The doctoral seminar in Entrepreneurship is intended to provide students with a broad coverage of the literature. It focuses on the foundations and ‘cutting edge’ research in entrepreneurship content research. Topics covered in the course include: a theoretical overview of entrepreneurship, identification of opportunities, the decision to exploit opportunities, resource assembly and new markets, founders and entrepreneurial teams, venture capital and venture capitalists, entrepreneurship and efficient governance, initial public offerings (IPOs), new ventures (strategy, growth, performance), entrepreneurial networks and alliances, and international entrepreneurship.

Credit Hours: 3
Prerequisites: PhD student or instructor's consent

MANGMT 9087: Seminar in Management
Intensive studies of current research and issues. Readings, independent investigations, reports.

Credit Hour: 1-99
Prerequisites: open to Ph.D. students, or instructor's consent

MANGMT 9090: Research in Management
Thesis research for Ph.D. degree. Graded on a S/U basis only.

Credit Hour: 1-99

MANGMT 9101: Topics Seminar in Management
Reading and critical evaluation of selected current management literature and research. May be repeated.

Credit Hour: 1-3
Prerequisites: Ph.D. students only

Marketing Courses

MRKTNG 3000: Principles of Marketing
Institutions, processes, and problems involved in producing and transferring goods and services from producer to consumers; emphasis on economics and social aspects.

Credit Hours: 3
Prerequisites or Corequisites: ECONOM 1014, ECONOM 1024, ECONOM 1000, or ECONOM 1051 or ABM 1041

Prerequisites: 45 semester hours

MRKTNG 3000H: Principles of Marketing - Honors
Institutions, processes, and problems involved in producing and transferring goods and services from producer to consumers; emphasis on economics and social aspects.

Credit Hours: 3
Prerequisites or Corequisites: ECONOM 1014, ECONOM 1024, ECONOM 1000 or ECONOM 1051, or ABM 1041
Prerequisites: 45 semester hours; Honors eligibility required
MRKTNG 3410: Personal Selling
Modern selling methods that focus on solving customer problems rather than using manipulative techniques. Principles underlying the sale process. Practical methods for building long-term customer relationships in business-to-business contexts are emphasized. Graded on A-F basis only.

Credit Hours: 3
Prerequisites or Corequisites: MRKTNG 3000. During early registration, some sections may be restricted to College of Business students with emphasis in Marketing, or International Business with an emphasis in Marketing

MRKTNG 3510: Procurement Processes and Analytics
Overview of the procurement process used by retailers; execution of pricing strategies, negotiations, retail planning at the category and item level; use of software to analyze data and make procurement decisions. Graded on A-F basis only.

Credit Hours: 3
Prerequisites or Corequisites: MRKTNG 3000. During Early Registration some sections may be restricted to College of Business students with emphasis in Marketing, or International Business with an emphasis in Marketing

MRKTNG 3901: Special Topics in Marketing
Study of a selected topic in Marketing in a course taken for credit as part of an organized study abroad program. May be repeated for credit. Graded on S/U basis only.

Credit Hour: 1-3

MRKTNG 3975: Current Issues in International Marketing
Study of current issues and practices in international marketing in a course taken for credit as part of an organized study abroad program. May be repeated for credit. Graded on S/U basis only.

Credit Hour: 1-3

MRKTNG 4000: Marketing Management
Further examination of marketing issues: market analysis, market research, positioning, products, pricing, promotion, distribution, relationship management, other topics.

Credit Hours: 3
Prerequisites: MRKTNG 3000, and ACCTCY 2010 or ACCTCY 2026, or ACCTCY 2036 or ACCTCY 2136H. During early registration, some sections may be restricted to College of Business students with emphasis in Marketing, or International Business with emphasis in Marketing

MRKTNG 4000H: Marketing Management - Honors
Further examination of marketing issues: market analysis, market research, positioning, products, pricing, promotion, distribution, relationship management, other topics.

Credit Hours: 3
Prerequisites: MRKTNG 3000; ACCTCY 2010 or ACCTCY 2026 or ACCTCY 2036 or ACCTCY 2136H; Honors eligibility required

MRKTNG 4050: Marketing Research
Procedures for defining marketing research problems; specifying information requirements; collecting, analyzing, interpreting, and presenting data for use in marketing decision making. Utilizes student projects and research-related computer assignments.

Credit Hours: 3
Prerequisites: MRKTNG 3000, STAT 3500. During early registration, some sections may be restricted to College of Business students with emphasis in Marketing, or International Business with emphasis in Marketing

MRKTNG 4185: Problems in Marketing
In-depth independent study of marketing topic(s). Student must have course plan (assignments, evaluation criteria, etc.) approved by faculty sponsor. Contact Marketing Department office for details and enrollment permission. Selected sections of this course may be graded either on A-F or S/U basis only.

Credit Hour: 1-3
Prerequisites: Departmental consent, MRKTNG 3000

MRKTNG 4201: Topics in Marketing
Selected marketing-related topics. Subjects may vary across semesters. During early registration, some sections may be restricted to College of Business students with emphasis in Marketing, or International Business with emphasis in Marketing.

Credit Hours: 3
Prerequisites: MRKTNG 3000

MRKTNG 4220: Consumer Behavior
Dimensions of the consumer market and decision-making process of consumers; analyzing economic, psychological and socio-psychological influences on consumer market and buying behavior.

Credit Hours: 3
Prerequisites: MRKTNG 3000. During early registration, some sections may be restricted to College of Business students with emphasis in Marketing, or International Business with emphasis in Marketing

MRKTNG 4220H: Consumer Behavior - Honors
Dimensions of the consumer market and decision-making process of consumers; analyzing economic, psychological and socio-psychological influences on consumer market and buying behavior.

Credit Hours: 3
Prerequisites: MRKTNG 3000 and Honors eligibility required

MRKTNG 4250: Retail Marketing
Strategies, policies, tactics, and procedures of marketing in a retailing environment.

Credit Hours: 3
Prerequisites: MRKTNG 3000. During early registration, some sections may be restricted to College of Business students with emphasis in Marketing, or International Business with emphasis in Marketing

MRKTNG 4250H: Retail Marketing - Honors
Strategies, policies, tactics, and procedures of marketing in a retailing environment.
MRKTNG 4420: Sales Management
Methods and tools employed by salespeople and field sales managers; emphasis on underlying behavioral and quantitative theory.
Credit Hours: 3
Prerequisites: MRKTNG 3000. During early registration, some sections may be restricted to College of Business students with emphasis in Marketing, or International Business with an emphasis in Marketing

MRKTNG 4430: Advanced Professional Selling
Emphasis on the analytics approach to sales. This reflects the overall trends in business practice, and specifically in the world of sales with increasing reliance on Sales Force Automation (SFA) and Customer Relationship Management (CRM) tools. Students will need to come to class with laptops or tablets. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: MRKTNG 3410

MRKTNG 4440: Services Marketing
Challenges, problems, and strategies specific to marketing in service industries. Topics include the unique characteristics of services and managing service-oriented businesses; service design and service recovery; service quality and customer satisfaction; service pricing issues and demand management; and management of service customers and employees. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: MRKTNG 3000. During early registration, some sections may be restricted to College of Business students with emphasis in Marketing, or International Business with an emphasis in Marketing

MRKTNG 4450: e-Marketing
Strategic and managerial challenges and issues related to use of the Internet and other electronic channels as marketing tools.
Credit Hours: 3
Prerequisites: MRKTNG 3000. During early registration, some sections may be restricted to College of Business students with emphasis in Marketing, or International Business with emphasis in Marketing

MRKTNG 4550H: Integrated Marketing Communications - Honors
Design, coordination, and management of marketing communications. Focus on the role of integrated marketing communications in the overall marketing process, with emphasis on advertising and sales promotion strategies and tactics. During early registration, some sections may be restricted to College of Business students with emphasis in Marketing, or International Business with emphasis in Marketing.
Credit Hours: 3
Prerequisites: MRKTNG 3000 and Honors eligibility required

MRKTNG 4550: Integrated Marketing Communications
Design, coordination, and management of marketing communications. Focus on the role of integrated marketing communications in the overall marketing process, with emphasis on advertising and sales promotion strategies and tactics.
Credit Hours: 3
Prerequisites: MRKTNG 3000. During early registration, some sections may be restricted to College of Business students with emphasis in Marketing, or International Business with emphasis in Marketing

MRKTNG 4560: Artificial Intelligence and Machine Learning Applications in Sales and Marketing
This course is intended to introduce students to cutting-edge Artificial Intelligence and Machine Learning (AI&ML) applications in the domain of sales and marketing. Students will use a proprietary, cloud-based software tool to learn about underlying models, but prior knowledge of programming languages is not required. The course will take an analytics approach and will require students to work with data sets. Graded on A-F basis only.
Credit Hours: 3
Prerequisites or Corequisites: MRKTNG 3000. During early registration, some sections may be restricted to College of Business students with emphasis in Marketing, or International Business with an emphasis in Marketing

MRKTNG 4580: Marketing Supply Chain Analytics
(cross-leveled with MRKTNG 7890) This course focuses on applying data analytic tools and techniques at various supply chain stages, specifically focusing on retailers. At the end of the course, the students will develop supply chain analytical skills for solving several marketing supply chain problems such as demand forecasting, inventory management, and sales and operations planning. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: STAT 3500 or equivalent

MRKTNG 4650: e-Marketing
Strategic and managerial challenges and issues related to use of the Internet and other electronic channels as marketing tools.
Credit Hours: 3
Prerequisites: MRKTNG 3000. During early registration, some sections may be restricted to College of Business students with emphasis in Marketing, or International Business with emphasis in Marketing

MRKTNG 4720: Global Marketing
Strategic and managerial issues associated with international trade and international marketing.
Credit Hours: 3
Prerequisites: MRKTNG 3000. During early registration, some sections may be restricted to College of Business students with emphasis in Marketing, or International Business with emphasis in Marketing

MRKTNG 4880: Contemporary Issues in Marketing
Selected topical issues, their impact on marketing and marketers, and implications for firms and industries. Emphasis on scanning the external environment, projection of trends, and analysis; strategy development based on environmental analysis.
Credit Hours: 3
Prerequisites: MRKTNG 3000. During early registration, some sections may be restricted to College of Business students with emphasis in Marketing, or International Business with emphasis in Marketing

MRKTNG 4890: Marketing Supply Chain Analytics
This course focuses on applying data analytic tools and techniques at various supply chain stages, specifically focusing on retailers. At the end of the course, the students will develop supply chain analytical skills for solving several marketing supply chain problems such as demand forecasting, inventory management, and sales and operations planning. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: STAT 3500 or equivalent

MRKTNG 4900: Analyzing and Communicating Business Data
This course focuses on the analysis of marketing and other business data with basic statistical techniques. Students will learn when and how to use statistical techniques to solve marketing and other business problems and how to effectively communicate the results of statistical tests to managers. The course covers univariate procedures and regression.
Credit Hours: 3
Prerequisites: ACCTCY 2258, MRKTNG 3000, STAT 2500, STAT 3500

MRKTNG 4910: Marketing Data Analytics
(cross-leveled with MRKTNG 7910): Introduction and overview of Artificial and Machine Learning applications in the domain of sales and marketing. Students will work with analytical tools and models without any coding requirements, learn to derive actionable insight from using these tools, and gain knowledge of contemporary issues involving collecting, analyzing, and sharing consumer data. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: MRKTNG 3000. During early registration, some sections may be restricted to College of Business students with emphasis in Marketing, or International Business with an emphasis in Marketing.

MRKTNG 4920: Data Visualization
An introduction to data visualization. Students will learn the principles for effective visual representation of data and learn how to prepare data visualizations using the Tableau platform. Graded on A-F basis only.

Credit Hour: 1
Prerequisites: ACCTCY 2258

MRKTNG 4930: Databases for Marketing Decisions
This is an applied course on marketing databases. The course helps students harness database management techniques to solve complex problems in the domain of marketing. In addition to learning the principles of relational database management systems (DBMS), students will learn how to apply database management skills (combined with other statistical packages) to make data-driven decisions that address important marketing problems. Specifically, they will learn how to do market segmentation analysis, cluster analysis, market share analysis, customer relationship management, brand and store positioning, and market and product sales forecasting. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ACCTCY 2258, MRKTNG 3000, STAT 2500, STAT 3500

MRKTNG 4950: Data-Based Decision-Making in Marketing
A systematic, analytical approach to marketing decision-making. Students will build their analytical skills through a combination of lectures, cloud-based software tools, and business case studies. Emphasis is on a hands-on approach to solve real-world marketing problems in domains such as segmentation, targeting, positioning, pricing, and resource allocation. Students will be able to assess the financial impact of marketing expenditures including bottom-line metrics and will draw on data visualization basics to effectively present their analysis to their peers. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ACCTCY 2258, MRKTNG 3000, STAT 2500, STAT 3500

MRKTNG 7460: Managerial Marketing
Introduces concepts and theories for marketing decision making. Provides an overview of principles and tools to analyze and understand marketing situations in order to develop and execute appropriate marketing initiatives.

Credit Hour: 1-3
Prerequisites: MBA Program consent required

MRKTNG 7470: Advanced Marketing Management
Develops knowledge and skills to manage marketing activities at the strategic and tactical levels. Course utilizes case studies, interactive class exercises, and advanced marketing readings. Students will learn to apply relevant concepts for effective marketing strategy development, marketing planning, and implementation of marketing mix decisions.

Credit Hour: 1-3
Prerequisites: MBA program consent required; MRKTNG 7460

MRKTNG 7890: Marketing Supply Chain Analytics
(cross-leveled with MRKTNG 4890). This course focuses on applying data analytic tools and techniques at various supply chain stages, specifically focusing on retailers. At the end of the course, the students will develop supply chain analytical skills for solving several marketing supply chain problems such as demand forecasting, inventory management, and sales and operations planning. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Obtain consent in Graduate Programs Office

MRKTNG 7910: Marketing Data Analytics
(cross-leveled with MRKTNG 4910). Introduction and overview of Artificial and Machine Learning applications in the domain of sales and marketing. Students will work with analytical tools and models without any coding requirements, learn to derive actionable insight from using these tools, and gain knowledge of contemporary issues involving collecting, analyzing, and sharing consumer data. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: GPO Consent

MRKTNG 8001: MBA Topics in Marketing
Advanced study of selected marketing-related topics. Subjects vary across semesters.

Credit Hour: 1-3
Prerequisites: MBA Program consent required and completion of MRKTNG 7460 and MRKTNG 7470

MRKTNG 8060: Competitive Marketing Strategy
Builds on the foundations of Marketing 7460 and 7470. Focuses on quantitative market intelligence-based design, execution, and adaptation of a market-drive business strategy to improve a firm's financial performance over time in a competitive environment. Uses a competitive, multi-period, marketing simulation game in which students are assigned to manage one of several firms competing in an industry. Prerequisites: MBA Program consent required; MRKTNG 7460 and MRKTNG 7470. Cannot receive credit for both MRKTNG 8050 and MRKTNG 8060.

Credit Hour: 1-3

MRKTNG 8070: Marketing Business Models
Builds on the foundations of Marketing 4760 and 7470. Focuses on the formulation and analysis of marketing strategy and contemporary business models for creating and capturing value in different industries such as consumer goods, services, retailing, media, sports, entertainment, and online businesses. Business revenue and profit models will be evaluated in conjunction with marketing performance.

Credit Hour: 1-3
**Prerequisites:** MBA Program consent required, MRKTNG 7460 and MRKTNG 7470. Cannot receive credit for both MRKTNG 8050 and MRKTNG 8070

**MRKTNG 8085: MBA Independent Study in Marketing**
Advanced independent study of marketing topics(s). Student must have a course plan (assignments, evaluation criteria, etc.) approved by a marketing faculty member. Graded on S/U basis only.

**Credit Hour:** 1-3
**Prerequisites:** departmental and MBA Program consent required; MRKTNG 7460, MRKTNG 7470

**MRKTNG 8180: Applied Statistics for Marketing Analytics**
This course is designed to increase students' understanding of essential statistical methods, focusing primarily on interpretation and application in marketing contexts. During the course, students will apply statistical concepts and analyses in diverse marketing settings with a variety of data sets. By the end of the course, students will know when and how to apply fundamental statistical techniques in marketing situations, how to interpret the results of statistical analysis, and how to present results in a managerially useful manner. Graded on A-F basis only.

**Credit Hour:** 1-3
**Prerequisites:** MBA program consent, prior statistical coursework

**MRKTNG 8280: Research for Marketing Decisions**
Methods for generating and using information related to marketing decisions. The course is aimed at the manager who designs, conducts, and/or uses the research. Emphasizes the design of research studies to inform managers' decisions and techniques for gathering and analyzing primary and secondary data.

**Credit Hour:** 1-3
**Prerequisites:** MBA Program consent, MRKTNG 7460, MRKTNG 7470, MRKTNG 8180

**MRKTNG 8350: Business-to-Business Marketing**
Advanced study of the marketing of goods and services to business customers; customer relationship management, and functionally integrated approaches to solving business problems.

**Credit Hour:** 1-3
**Prerequisites:** MBA Program consent required and completion of MRKTNG 7460 and MRKTNG 7470

**MRKTNG 8420: Sales Force Management**
Basic tasks of sales management as well as the application of theories and concepts to effectively manage that function. Topics covered include salesperson effectiveness, deployment, motivation, organizational design, compensation and evaluation.

**Credit Hour:** 1-3
**Prerequisites:** MBA Program consent required and completion of MRKTNG 7460 and MRKTNG 7470

**MRKTNG 8650: Digital Marketing**
The use of the Internet and other electronic channels as marketing tools. Emphasis on integration of digital interactions and communication into the overall marketing strategy.

**Credit Hour:** 1-3
**Prerequisites:** MBA Program consent required and completion of MRKTNG 7460 and MRKTNG 7470

**MRKTNG 8680: Database Marketing**
A quantitatively-oriented, hands-on course regarding the use of customer data for making decisions about marketing campaigns and targeting of individual customers. Concepts and applications in this course emphasize statistical analysis of large datasets involving customer records. The analytical and statistical programming skills learned in the course should be useful in any data-oriented business environment. Graded on A-F basis only.

**Credit Hour:** 1-3
**Prerequisites:** MBA Program consent required, MRKTNG 7460, MRKTNG 7470, MRKTNG 8180, MRKTNG 8280

**MRKTNG 8720: International Marketing**
Strategic and managerial issues associated with international trade and international marketing. The course focuses on managerial decision making in the differing and complex environments across foreign markets, alternative methods by which firms enter foreign markets and the development and implementation of international marketing strategies.

**Credit Hour:** 1-3
**Prerequisites:** MBA Program consent required and completion of MRKTNG 7460, MRKTNG 7470, MRKTNG 8180, MRKTNG 8280

**MRKTNG 8750: Brand Management**
Focuses on the creation and execution of profitable brand strategies. Examines the practice of branding, the key components of brand equity, and how firms can build and sustain successful brands in competitive markets.

**Credit Hour:** 1-3
**Prerequisites:** MBA Program consent required, MRKTNG 7460 and MRKTNG 7470

**MRKTNG 8760: Marketing Analytics for Business Decisions**
A systematic, analytical approach to marketing decision-making. Students will be able to build their analytical skills through a combination of lectures, Excel-based software tools, and business case studies. Emphasis is on hands-on approaches for solving real-world marketing problems in domains such as segmentation, targeting, positioning, and resource allocation. The course will help students understand the financial impact of marketing expenditures including ROI assessment. Graded on A-F basis only.

**Credit Hour:** 1-3
**Prerequisites:** MBA Program consent required, MRKTNG 7460 and MRKTNG 7470

**MRKTNG 8770: Marketing Databases and SQL**
A user/analyst perspective to relational databases used in marketing applications. Fundamentals of relational databases, including database concepts, table design, views, normalization, and security. Hands-on training in SQL (Structured Query Language) on database tables and views to retrieve, change, join, filter, sort, group, and summarize data.
Data analysis with SQL and Excel combined. Presentation of SQL results sets. Course graded on A-F basis only.

Credit Hour: 1-3
Prerequisites or Corequisites: MRKTNG 8180
Prerequisites: GPO consent required

MRKTNG 8780: Advanced Marketing Analytics
Analytical methods for solving marketing problems. Emphasis on use of multivariate statistical techniques (e.g. regression models, time series models, principal components analysis, cluster analysis, discriminant analysis, ANOVA, survival/duration models, etc.) to aid marketing tasks and decisions in areas such as customer classification, segmentation, profiling, and targeting; prospecting with archival data; customer response to marketing interventions; customer acquisition/retention tactics; customer relationship management (CRM); sales forecasting; media allocation decisions; market basket analysis; etc. Graded on an A-F basis only.

Credit Hour: 1-3
Prerequisites or Corequisites: MRKTNG 8180
Prerequisites: GPO consent required

MRKTNG 8800: R for Marketing Analytics
Statistical analysis in R, including various types of regression analysis and other multivariate techniques. Emphasis is also placed on deriving relevant managerial implications from the results returned by R software. Graded on A-F basis only.

Credit Hour: 1.5
Prerequisites or Corequisites: MRKTNG 8180
Prerequisites: Graduate Programs Office consent

MRKTNG 8810: Python for Marketing Analytics
The science of processing data using expert systems for faster and smarter decision-making. The course covers statistical and machine learning methods, their core principles, and real-life applications in marketing. Provides hands-on training in using Python in a variety of applications. Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites or Corequisites: MRKTNG 8180
Prerequisites: MBA Program consent

MRKTNG 8820: Artificial Intelligence and Machine Learning Applications in Marketing
Artificial Intelligence and Machine Learning (AI&ML) applications in the domain of marketing. Topics covered include applications using neural networks, support vector machines, and deep learning, among others. Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites or Corequisites: MRKTNG 8180
Prerequisites: MBA Program consent

MRKTNG 9010: Introduction to Research Methods in Marketing
Introduces students to the research process. Examines philosophy of science, constructs and measurement issues regarding validity, and hypothesis-testing. Provides an overview of experimental and survey research methods, with introduction to qualitative research, model-building, and research using secondary data.

Credit Hour: 1-3
Prerequisites: Ph.D. students only; instructor's consent

MRKTNG 9020: Seminar in Advanced Research Methods in Marketing
Familiarizes students with advanced research methods in marketing, emphasizing problem developmental and conceptualization, operationalization of research questions, measurement, and survey research.

Credit Hour: 1-3
Prerequisites: MRKTNG 9010 or equivalent; Ph.D. students only; instructor's consent

MRKTNG 9030: Seminar in Applied Multivariate Analysis in Marketing
Familiarizes students with advanced research methods and practices used for conducting and interpreting multivariate analysis. Emphasizes the use of advanced computer software to perform multiple regression, discriminant analysis, cluster analysis, multi-way frequency analysis, and ANOVA.

Credit Hour: 1-3
Prerequisites: basic course in multivariate statistical methods; Ph.D. students only; instructor's consent

MRKTNG 9090: Research in Marketing
Thesis research for Ph.D. degree. Graded on a S/U basis only.

Credit Hour: 1-99
Prerequisites: Ph.D. students only

MRKTNG 9101: Current Topics Seminar in Marketing
Reading and critical evaluation of selected current marketing literature and research. Graded on S/U basis only. May be repeated.

Credit Hour: 1-3
Prerequisites: Ph.D. students only

MRKTNG 9185: Doctoral Independent Study in Marketing
Independent study of a marketing topic or research project. Arranged in consultation with a graduate faculty member. Graded on S/U basis only.

Credit Hour: 1-3
Prerequisites: Ph.D. students only; instructor's consent

MRKTNG 9210: Seminar in Marketing Strategy
Focuses on research topics that pertain to strategic marketing programs and decisions, such as marketing productivity, services marketing, product innovation management, and pricing, among others. Coverage is also given to defining the domain of research in marketing and to the development and use of related theories.

Credit Hour: 1-3
Prerequisites: Ph.D. students only; instructor's consent

MRKTNG 9220: Seminar Marketing Models
Familiarizes students with qualitative modeling approaches to address a variety of marketing problems. The focus is on the nature, relevance,
and properties of mathematical models and analytical methods that are employed to address various types of marketing decisions. Students will gain an understanding of the process of model-building, testing and implementation.

**Credit Hour:** 1-3  
**Prerequisites:** Ph.D students only; instructor's consent

**MRKTNG 9230: Seminar in Consumer Behavior**  
Exposes doctoral students to perspectives on consumer behavior that draw from a variety of disciplines, including marketing, psychology, decision theory, sociology, and cultural anthropology. Students also learn about the different methods researchers employ to study consumers. Covers both classic and contemporary literature. Students are encouraged to evaluate and synthesize existing literature in the pursuit of new research ideas.

**Credit Hour:** 1-3  
**Prerequisites:** Ph.D. students only; instructor's consent

**Mathematics Courses**

**MATH _0110: Intermediate Algebra**  
MATH _0110 is a preparatory course for college algebra that carries no credit towards any baccalaureate degree. However, the grade received in MATH _0110 does count towards a student's overall GPA. The course covers operations with real numbers, graphs of functions, domain and range of functions, linear equations and inequalities, quadratic equations; operations with polynomials, rational expressions, exponents and radicals; equations of lines. Emphasis is also put on problem-solving.

**Credit Hours:** 3

**MATH 1050: Quantitative Reasoning**  
Promotes mathematical literacy among students. This course will cover important mathematical ideas and problem solving skills in the context of science, technology, and/or society. Topics may include: logic and critical thinking, Venn Diagrams, problem solving, sets, units of measure, percentages and ratios, counting and probability, exponential growth and decay, linear and exponential models. Quantitative Reasoning is designed to stimulate interest in and appreciation of mathematics and quantitative reasoning as valuable tools for comprehending the world in which we live. This course does not satisfy the prerequisite of any other MATH course.

**Credit Hours:** 3  
**Prerequisites:** C- or higher in MATH _0110 or a sufficient score on the myMath test

**MATH 1100: College Algebra**  
A review of exponents, order of operations, factoring, and simplifying polynomial, rational, and radical expressions. Topics include: linear, quadratic, polynomial, rational, inverse, exponential, and logarithmic functions and their applications. Students will solve equations involving these functions, and systems of linear equations in two variables, as well as inequalities. See the Math website for specific requirements. A student may receive at most 5.0 credit hours among MATH 1100, MATH 1120, MATH 1140, MATH 1160.

**Credit Hours:** 3  
**Prerequisites:** C- or higher in MATH _0110 or a sufficient score on the ALEKS exam or MyMathTest Intermediate Algebra score of 70% or higher

**MATH 1140: Trigonometry**  
A student may receive only 5 credits from among MATH 1100, MATH 1140, and MATH 1160. A Student may receive at most 5.0 credit hours from MATH 1100, MATH 1120, MATH 1140, and MATH 1160.

**Credit Hours:** 2  
**Prerequisites:** C- or higher in MATH 1100 or sufficient ALEKS score or MyMathTest College Algebra score of 70% or higher

**MATH 1160: Precalculus Mathematics**  
Review of elementary algebra. Background material for MATH 1500, including algebraic, trigonometric, logarithmic, exponential functions. A student may receive at most 5 credits from among MATH 1100, MATH 1140, and MATH 1160.

**Credit Hours:** 5  
**Prerequisites:** B+ or higher in MATH _0110 (at MU), or C- or higher in MATH 1100, or sufficient ALEKS score or MyMathTest College Algebra score of 60% or higher

**MATH 1300: Finite Mathematics**  
A selections of topics in finite mathematics such as: basic financial mathematics, counting methods and basic probability and statistics, systems of linear equations and matrices. Warning: without a College Algebra exemption, a sufficient ALEKS score will not suffice unless it is a proctored exam (for MATH 1100 credit).

**Credit Hours:** 3  
**Prerequisites:** Grade of C- or higher in MATH 1100, or MATH 1160, or both a College Algebra exemption and sufficient ALEKS score

**MATH 1360: Geometric Concepts**  
This course is primarily for education majors. This course covers topics of Euclidean geometry such as the study of points, lines, angles, polygons, circles, congruence, similarity, transformations, symmetry, area, surface area, arc length, and volume. Polyhedra, spheres, cones, and other solids are discussed. The course includes constructions and proofs, and uses inductive and deductive reasoning throughout. Math Reasoning Proficiency Course.

**Credit Hours:** 3  
**Prerequisites:** C- or higher in MATH 1100 or sufficient ALEKS exam score or MATH 1160 or equivalent

**MATH 1400: Calculus for Social and Life Sciences I**  
The real number system, functions, analytic geometry, derivatives, integrals, maximum-minimum problems. No credit for students who have completed a calculus course. A student may receive credit for MATH 1320 or MATH 1400 but not both. A student may receive at most 5 units of credit among the MATH 1320 or MATH 1400 and MATH 1500. Math Reasoning Proficiency Course.

**Credit Hours:** 3
**Prerequisites:** grade of C- or higher in MATH 1100, or MATH 1160, or sufficient ALEKS score

**MATH 1500:** Analytic Geometry and Calculus I
Elementary analytic geometry, functions, limits, continuity, derivatives, antiderivatives, definite integrals. A student may receive at most 5 units of credit among the Mathematics courses MATH 1320 or MATH 1400 and MATH 1500. Math Reasoning Proficiency Course.

**Credit Hours:** 5

**Prerequisites:** grade of C- or higher in MATH 1160 or C- in both MATH 1100 and MATH 1140 or sufficient ALEKS score or MyMathTest PreCalculus score of 70% or higher

**MATH 1500H:** Analytic Geometry and Calculus I - Honors
Elementary analytic geometry, functions, limits, continuity, derivatives, antiderivatives, definite integrals. Honors eligibility required. A student may receive at most 5 units of credit among MATH 1320 or MATH 1400 and MATH 1500. Math Reasoning Proficiency course.

**Credit Hours:** 5

**Prerequisites:** C- or higher in MATH 1160 or C- in both MATH 1100 and MATH 1140 and sufficient ALEKS score. Honors Eligibility required

**MATH 1601:** Selected Topics in Mathematics-General
The special topics covered may vary from term to term. This course may be repeated.

**Credit Hour:** 1-3

**Prerequisites:** instructor's consent

**MATH 1602:** Selected Topics in Mathematics-Biological/Physical/Math
The special topics covered may vary from term to term. This course may be repeated.

**Credit Hour:** 1-3

**Prerequisites:** instructor's consent

**MATH 1700:** Calculus II
Definite integrals, applications and techniques of integration, elementary transcendental functions, infinite series. Math Proficiency Reasoning course.

**Credit Hours:** 5

**Prerequisites:** a grade of C- or better in MATH 1500

**MATH 1700H:** Calculus II - Honors
Definite integrals, applications and techniques of integration, elementary transcendental functions, infinite series. Math Reasoning Proficiency course.

**Credit Hours:** 5

**Prerequisites:** a grade of C- or better in MATH 1500. Honors eligibility required

**MATH 2100:** Calculus for Social and Life Sciences II
Riemann integral, transcendental functions, techniques of integration, improper integrals and functions of several variables. No credit for students who have completed two calculus courses. Math Reasoning Proficiency course.

**Credit Hours:** 3

**Prerequisites:** Consent of Department required. Recommended MATH 1700

**MATH 2100W:** Calculus for Social and Life Sciences II - Writing Intensive
Riemann integral, transcendental functions, techniques of integration, improper integrals and functions of several variables. No credit for students who have completed two calculus courses. Math Reasoning Proficiency course.

**Credit Hours:** 3

**Prerequisites:** Consent of Department required. Recommended MATH 1700

**MATH 2300:** Calculus III
Vectors, solid analytic geometry, calculus of several variables. Math Reasoning Proficiency course.

**Credit Hours:** 3

**Prerequisites:** grade of C- or better in MATH 1700

**MATH 2300H:** Calculus III - Honors
Vectors, solid analytic geometry, calculus of several variables. Math Reasoning Proficiency course.

**Credit Hours:** 3

**Prerequisites:** grade of C- or better in MATH 1700. Honors eligibility required

**MATH 2320:** Discrete Mathematical Structures
Sets, functions, logic, relations, induction, recursion, counting techniques, graphs, trees, algorithms. Math Reasoning Proficiency course.

**Credit Hours:** 3

**MATH 3000:** Introduction to Advanced Mathematics
Gateway to theoretical math courses. Focus on reading and writing math proofs/seriously developing background needed in Adv Calc/Abstract Alg. Topics include logic, set theory, properties of functions and integers, the real number system, completeness of the real numbers, sequences of real numbers.

**Credit Hours:** 3

**Prerequisites:** Consent of Department required. Recommended MATH 1700

**MATH 3000W:** Introduction to Advanced Mathematics - Writing Intensive
Gateway to theoretical math courses. Focus on reading and writing math proofs/seriously developing background needed in Adv Calc/Abstract Alg. Topics include logic, set theory, properties of functions and integers, the real number system, completeness of the real numbers, sequences of real numbers.

**Credit Hours:** 3

**Prerequisites:** Consent of Department required. Recommended MATH 1700

**MATH 4002:** Topics in Mathematics-Biological Sciences
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May repeat for credit with Departmental consent.

**Credit Hour:** 1-6

**Prerequisites:** MATH 2300 and instructor's consent

**MATH 4006:** Topics in Mathematics-Mathematical Sciences
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May repeat for credit with Departmental consent.
MATH 4007: Topics in Mathematics-Physical Sciences
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May repeat for credit with Departmental consent.

Credit Hour: 1-6
Prerequisites: MATH 2300 and instructor's consent

MATH 4060: Connecting Geometry to Middle and Secondary Schools
(cross-leveled with MATH 7060). Euclidean foundations, logic, Euler Characteristic, congruence, area, Pick's Theorem, volume, Cavalieri's Principle, surface area, similarity, symmetry, transformations, matrices, introduction to spherical geometry.

Credit Hour: 1-6
Prerequisites: MATH 2300 and instructor's consent

MATH 4070: Connecting Algebra to Middle and Secondary Schools
(cross-leveled with MATH 7070). A detailed study of integer and rational arithmetic and algebra. Topics include: Bionomial Theorem, induction, division algorithm, Euclid's Algorithm, Fundamental Theorem of Arithmetic, Pythogorian triples, modular arithmetic and generalizations to polynomials, matrices and other axiomatic structures.

Credit Hour: 3
Prerequisites: Consent of Department required
Recommended: MATH 1360 or MATH 1500

MATH 4080: Calculus Connections
Course topics include: sequences, series, functions, limits, continuity, differentiation, optimization, curve sketching, antidifferentiation, areas of plane regions, lengths of plane curves, areas of surfaces of revolution, and volumes of solids.

Credit Hour: 3
Prerequisites: MATH 1400, enrollment is restricted to Math Education majors

MATH 4100: Differential Equations
(cross-leveled with MATH 7100). Traditional introductory course in ordinary differential equations. Includes 1st and 2nd order linear differential equations with numerous applications; Laplace transforms; power series solutions; numerical methods, linear systems.

Credit Hour: 3
Prerequisites: Grade of C- or above in MATH 2300

MATH 4110: Introduction to Probability Theory
Basic properties of matrices, determinants, vector spaces, linear transformations, eigenvalues, eigenvectors, and Jordan normal forms. Introduction to writing proofs.

Credit Hours: 3
Prerequisites: Grade of C- or better in MATH 2300 or MATH 2320.
Writing intensive sections require ENGLSH 1000

MATH 4150: History of Mathematics
This is a history course with mathematics as its subject. Includes topics in the history of mathematics from early civilizations onwards. The growth of mathematics, both as an abstract discipline and as a subject which interacts with others and with practical concerns, is explored.
Prerequisites or Cirequisite: MATH 2300 or MATH 2340. Writing intensive sections require ENGLSH 1000.

Credit Hours: 3

MATH 4150W: History of Mathematics - Writing Intensive
This is a history course with mathematics as its subject. Includes topics in the history of mathematics from early civilizations onwards. The growth of mathematics, both as an abstract discipline and as a subject which interacts with others and with practical concerns, is explored.
Prerequisites or Cirequisite: MATH 2300 or MATH 2340. Writing intensive sections require ENGLSH 1000.

Credit Hours: 3

MATH 4300: Numerical Analysis
(cross-leveled with MATH 7300). Machine arithmetic, approximation and interpolation, numerical differentiation and integration, nonlinear equations, linear systems, differential equations, error analysis. Selected algorithms will be programmed for solution on computers.

Credit Hour: 3
Prerequisites: Grade of C- or better in MATH 2300 and MATH 4100

MATH 4310: Numerical Linear Algebra

Credit Hours: 3
Prerequisites: MATH 2300 and familiarity with software such as Mathematica, MatLab, Maple, etc

MATH 4315: Introduction to Mathematical Statistics
(same as STAT 4750; cross-leveled with MATH 7315, STAT 7750). Introduction to theory of probability and statistics using concepts and methods of calculus.

Credit Hours: 3
Prerequisites: MATH 2300 or instructor's consent

MATH 4320: Introduction to Probability Theory
(same as STAT 4750; cross-leveled with MATH 7320, STAT 7750). Probability spaces; random variables and their distributions; repeated trials; probability limit theorems.

Credit Hours: 3
Prerequisites: MATH 2300 or instructor’s consent

MATH 4330: Theory of Numbers (cross-leveled with MATH 7330). Divisibility, factorization, arithmetic functions, means value theorems, distribution of prime numbers, congruences, primitive roots, character theory, Riemann zeta function, and Dirichlet L-functions.
Credit Hours: 3
Prerequisites: Grade of C- or better in MATH 2300.
Recommended MATH 2320

Credit Hours: 3
Prerequisites: MATH 2300

MATH 4355: Mathematics of Financial Derivatives I (cross-leveled with MATH 7355). Long and short positions, forward contracts, exchange traded index futures, European and American call and put options, put-call parity, trading and hedging strategies, synthetic transactions, arbitrage, currency options, fixed income portfolio management, duration, convexity, interest rate and currency swaps, embedded options.
Credit Hours: 3
Prerequisites: Grade of C- or higher in MATH 2300 and either STAT 2500 or STAT 4710 or MATH 4315

MATH 4370: Interest Theory (cross-leveled with MATH 7370). This course covers the concepts underlying the theory of interest and their applications to valuation of various cash flows, annuities certain, bonds, and loan repayment. This course is designed to help students prepare for Society of Actuaries exam FM (Financial Mathematics). It is oriented towards problem solving techniques applied to real-life situations and illustrated with previous exam problems.
Credit Hours: 3
Prerequisites: grade of C-or better in MATH 2300

MATH 4371: Models for Life Contingencies I (cross-leveled with MATH 7371). The sequence MATH 4371 - MATH 4372 is designed to help students prepare for the Society of Actuaries exam LTAM (Long-Term Actuarial Mathematics). This course teaches the basic theory of life contingent actuarial models and the applications of those models to insurance and other financial risks. Covered topics include: survival models, life tables and selection, insurance benefits, life annuities, premium calculation and reserves.
Credit Hours: 3
Prerequisites: MATH 4320 or STAT 4750, and MATH 4370

MATH 4372: Models for Life Contingencies II (cross-leveled with MATH 7372). The sequence MATH 4371 - MATH 4372 is designed to help students prepare for the Society of Actuaries exam LTAM (Long-Term Actuarial Mathematics). This course extends the life-death contingency models of Math 4371 to more general multi-state and multiple-life models applied to problems involving a wide range of insurance and pension benefits. Covered topics include: Markov chains, multiple decrement models, joint life and last survivor benefits, pension mathematics, profit testing.
Credit Hours: 3
Prerequisites: A grade of C- or better in MATH 4371

Credit Hours: 3
Prerequisites: MATH 2300

Credit Hours: 3
Prerequisites: Grade of C- or higher in MATH 4100

MATH 4510: Higher Algebra (cross-leveled with MATH 7510). Introduction to rings, integral domains, fields, groups.
Credit Hours: 3
Prerequisites: Grade of C- or higher in MATH 2300 or MATH 2320

MATH 4520: Statistical Inference I (same as STAT 4760; cross-leveled with MATH 7520, STAT 7760). Solution of problems from industry, physical, social and life sciences, economics, and engineering using mathematical models.
Credit Hours: 3
Prerequisites: Grade of C- or better in MATH 4371
Recommended: Familiarity with software such as MATHEMATICA, MATLAB, or MAPLE

MATH 4540: Mathematical Modeling I (cross-leveled with MATH 7540). Solution of problems from industry, physical, social and life sciences, economics, and engineering using mathematical models.
Credit Hours: 3
Prerequisites: Grade of C- or higher in MATH 2300 and MATH 4100
Recommended: Familiarity with software such as MATHEMATICA, MATLAB, or MAPLE

MATH 4550: Introductory Analysis II (cross-leveled with MATH 7550). Conceptual introduction to nonlinear dynamics, bifurcation and stability of steady states, chaos in nonlinear differential equations and maps, fractal dimension, strange attractors, and applications to physical science.
Credit Hours: 3
Prerequisites: MATH 4100 or MATH 7100, MATH 4140 or MATH 7140, and familiarity with software such as MATHEMATICA, MATLAB, or MAPLE
MATH 4590: Mathematics of Financial Derivatives II

Credit Hours: 3
Prerequisites: MATH 2300 and either STAT 2500 or STAT 4710 or MATH 4315
Recommended: MATH 4355

MATH 4700: Advanced Calculus of One Real Variable I
(cross-leveled with MATH 7700). Basic topology of the real line, numerical sequences and series, continuity, differentiability, Riemann integration, uniform convergence, power series.

Credit Hours: 3
Prerequisites: Grade of C - or higher in MATH 3000

MATH 4720: Introduction to Abstract Algebra I
(cross-leveled with MATH 7720). Basic properties of integers, fundamental theorem of arithmetic, introduction to groups, rings and fields.

Credit Hours: 3
Prerequisites: Grade of C- or higher in MATH 3000

MATH 4900: Advanced Multivariable Calculus
(cross-leveled with MATH 7900). This is a course in calculus in several variables. The following is core material: Basic topology of n-dimensional Euclidian space; limits and continuity of functions; the derivative as a linear transformation; Taylor's formula with remainder; the Inverse and Implicit Function Theorems, change of coordinates; integration (including transformation of integrals under changes of coordinates); Green's Theorem. Additional material from the calculus of several variables may be included, such as Lagrange multipliers, differential forms, etc.

Credit Hours: 3
Prerequisites: MATH 4700

MATH 4920: Introduction to Abstract Linear Algebra
(cross-leveled with MATH 7920). Study of vector spaces over arbitrary fields: topics include linear maps on finite dimensional vector spaces, bilinear and multi-linear forms, invariant subspaces and canonical forms.

Credit Hours: 3
Prerequisites: Grade of C- or higher in MATH 4720

MATH 4940: Introduction to Complex Variables
(cross-leveled with MATH 7940). Complex functions, contour integration, power series, residues and poles, conformal mapping.

Credit Hours: 3
Prerequisites: MATH 4110 or MATH 4700

MATH 4960: Special Readings in Mathematics
Credit Hour: 1-3
Prerequisites: Consent of Department required

MATH 4996: Honors in Mathematics
Special work for senior B.A. Honors and B.S. Honors candidates.

Credit Hours: 2
Prerequisites: Consent of Department required

MATH 7060: Connecting Geometry to Middle and Secondary Schools
(cross-leveled with MATH 4060). Euclidian foundations, basic concepts of symbolic logic, polyhedra, Euler Characteristic, congruence, area, Pkcs Theorem, volume, Cavalieri's Principles, surface area, similarity, reflections, translations, rotations, symmetry, vectors, general transformations, determinants, matrices, transformations using matrices, brief introduction to spherical geometry.

Credit Hours: 3
Prerequisites: MATH 1360 or MATH 1500, enrollment is restricted to Math Education majors

MATH 7070: Connecting Algebra to Middle and Secondary Schools
(cross-leveled with MATH 4070). A detailed study of integer and rational arithmetic and algebra. Topics include: Binomial Theorem, induction, division algorithm, Euclid's Algorithm, Fundamental Theorem of Arithmetic, Pythagorean triples, modular arithmetic and generalizations to polynomials, matrices and other axiomatic structures. Prerequisites: MATH 1400, enrollment is restricted to Math Education majors

Credit Hours: 3

MATH 7100: Differential Equations
(cross-leveled with MATH 4100). Traditional introductory course in ordinary differential equations. Includes 1st and 2nd order linear differential equations with numerous applications; Laplace transforms; power series solutions; numerical methods, linear systems.

Credit Hours: 3
Prerequisites: graduate standing and MATH 2300

MATH 7140: Matrix Theory
(cross-leveled with MATH 4140). Basic properties of matrices, determinants, vector spaces, linear transformations, eigenvalues, eigenvectors, and Jordan normal forms. Introduction to writing proofs.

Credit Hours: 3
Prerequisites: graduate standing and one of MATH 2300, MATH 2320, MATH 2120 or MATH 2340

MATH 7150: History of Mathematics
This is a history course with mathematics as its subject. Includes topics in the history of mathematics from early civilizations onwards. The growth of mathematics, both as an abstract discipline and as a subject which interacts with others and with practical concerns, is explored. Pre- or Co-requisite: MATH 2300 or MATH 2340 and graduate standing.

Credit Hours: 3

MATH 7300: Numerical Analysis
(cross-leveled with MATH 4300). Machine arithmetic, approximation and interpolation, numerical differentiation and integration, nonlinear
equations, linear systems, differential equations, error analysis. Selected algorithms will be programmed for solution on computers.

Credit Hours: 3
Prerequisites: graduate standing and MATH 2300 and MATH 4100 or equivalent

MATH 7310: Numerical Linear Algebra

Credit Hours: 3
Prerequisites: MATH 2300 and prior experience writing programs in Mathematica and/or in a computer language such as Fortran, Pascal, or C
Recommended: MATH 4140

MATH 7330: Theory of Numbers
(cross-leveled with MATH 4330). Divisibility, factorization, arithmetic functions, means value theorems, distribution of prime numbers, congruences, primitive roots, character theory, Riemann zeta function, and Dirichlet L-functions.

Credit Hours: 3
Prerequisites: MATH 2300; recommended MATH 2320 or MATH 2340, and MATH 4940 or MATH 7940

MATH 7350: Introduction to Non-Euclidean Geometry

Credit Hours: 3
Prerequisites: MATH 2300

MATH 7355: Mathematics of Financial Derivatives I
(cross-leveled with MATH 4355). Long and short positions, forward contracts, exchange traded index futures, European and American call and put options, put-call parity, trading and hedging strategies, synthetic transactions, arbitrage, currency options, fixed income portfolio management, duration, convexity, interest rate and currency swaps, embedded options.

Credit Hours: 3
Prerequisites: MATH 2300 and STAT 2500 or STAT 4710/ MATH 4315, or instructor's consent

MATH 7370: Interest Theory
(cross-leveled with MATH 4370). This course covers the main probability tools applied to financial risk modeling, and the financial mathematics concepts used in calculating present and accumulated values for various cash flows. It is a helpful tool in preparing for the Society of Actuaries exams P (Probability) and FM (Financial Mathematics), and it is oriented towards problem solving techniques illustrated with previous exam problems. Students are encouraged to take MATH 4355 prior to this course.

Credit Hours: 3
Prerequisites: MATH 2300, MATH 4320/ STAT 4750

MATH 7371: Models for Life Contingencies I
(cross-leveled with MATH 4371). The sequence MATH 4371 - MATH 4372 is designed to help students prepare for the Society of Actuaries exam LTAM (Long-Term Actuarial Mathematics). This course teaches the basic theory of life contingent actuarial models and the applications of those models to insurance and other financial risks. Covered topics include: survival models, life tables and selection, insurance benefits, life annuities, premium calculation and reserves.

Credit Hours: 3

MATH 7372: Models for Life Contingencies II
(cross-leveled with MATH 4372). The sequence MATH 4371 - MATH 4372 is designed to help students prepare for the Society of Actuaries exam LTAM (Long-Term Actuarial Mathematics). This course extends the life-death contingency models of MATH 4371 to more general multiple-state and multiple-life models applied to problems involving a wide range of insurance and pension benefits. Covered topics include: Markov chains, multiple decrement models, joint life and last survivor benefits, pension mathematics, profit testing.

Credit Hours: 3
Prerequisites: A grade of C- or better in MATH 4371 or MATH 7371

MATH 7400: Introduction to Topology

Credit Hours: 3
Prerequisites: MATH 4100/ MATH 7100

MATH 7500: Applied Analysis

Credit Hours: 3
Prerequisites: MATH 4100/ MATH 7100

MATH 7510: Higher Algebra
(cross-leveled with MATH 4510). Introduction to rings, integral domains, fields, groups.

Credit Hours: 3
Prerequisites: MATH 2300 OR MATH 2320

MATH 7540: Mathematical Modeling I
(cross-leveled with MATH 4540). Solution of problems from industry, physical, social and life sciences, economics, and engineering using mathematical models.

Credit Hours: 3
Prerequisites: graduate standing and 3 semesters of calculus and some exposure to ordinary differential equations or instructor's consent
MATH 7560: Nonlinear Dynamics, Chaos and Fractals
(cross-leveled with MATH 4560). Conceptual introduction to nonlinear
dynamics, bifurcation and stability of steady states, chaos in nonlinear
differential equations and maps, fractal dimension, strange attractors, and
applications to physical science.
Credit Hours: 3
Prerequisites: graduate standing and MATH 4100/ MATH 7100, MATH
4140/ MATH 7140, and familiarity with software such as MATHEMATICA,
MATLAB, or MAPLE

MATH 7590: Mathematics of Financial Derivatives II
(cross-leveled with MATH 4590). Binomial and Black-Scholes pricing
models. Option Greeks, delta and gamma hedging, market maker profit
theory. Asian, barrier, compound, gap and exchange options. Lognormal
and Monte Carlo price simulation. Geometric Brownian Motion and Ito's
Lemma. Interest rate models and volatility. Prerequisites: MATH 2300
and either STAT 2500 or STAT 4710 or MATH 4315.
Credit Hours: 3
Prerequisites: MATH 2300 and either STAT 2500 or STAT 4710 or
MATH 4315
Recommended: MATH 4355

MATH 7700: Advanced Calculus of One Real Variable I
(cross-leveled with MATH 4700). Series of real numbers, limits of
functions, continuity and uniform continuity, differentiability, and Riemann
integration.
Credit Hours: 3
Prerequisites: MATH 2300
Recommended: MATH 4140 and one other mathematics course number
above MATH 2300

MATH 7720: Introduction to Abstract Algebra I
(cross-leveled with MATH 4720). Basic properties of integers,
fundamental theorem of arithmetic, introduction to groups, rings and
fields.
Credit Hours: 3
Prerequisites: MATH 2300
Recommended: MATH 4140 and one other Mathematics course
numbered above 2300

MATH 7900: Advanced Multivariable Calculus
(cross-leveled with MATH 4900). This is a course in calculus in several
variables. The following is core material: Basic topology of n-dimensional
Euclidian space; limits and continuity of functions; the derivative as a
linear transformation; Taylor's formula with remainder; the Inverse and
Implicit Function Theorems, change of coordinates; integration (including
transformation of integrals under changes of coordinates); Green's
Theorem. Additional material from the calculus of several variables may
be included, such as Lagrange multipliers, differential forms, etc.
Credit Hours: 3
Prerequisites: MATH 4700/ MATH 7700

MATH 7920: Introduction to Abstract Linear Algebra
(cross-leveled with MATH 4920). Study of vector spaces over arbitrary
fields: topics include linear maps on finite dimensional vector spaces,
bilinear and multi-linear forms, invariant subspaces and canonical forms.

MATH 7940: Introduction to Complex Variables
(cross-leveled with MATH 4940). Complex functions, contour integration,
power series, residues and poles, conformal mapping.
Credit Hours: 3
Prerequisites: MATH 4110/ MATH 7110 OR MATH 4700/ MATH 7700

MATH 7960: Special Readings in Mathematics
Credit Hour: 1-3
Prerequisites: MATH 2300 and instructor's consent

MATH 7980: Mathematics Problem Solving
Creative advanced problem solving bringing together methods such as
integration, probability and Euclidean geometry.
Credit Hours: 3
Prerequisites: MATH 4140 and another 4000 level Mathematics course,
or instructor's consent

MATH 8085: Problems in Mathematics
Problems in Mathematics
Credit Hours: 3

MATH 8090: Master's Thesis Research in Mathematics
Students will be required to complete an independent project. Topics
are chosen in consultation with a faculty advisor and are subject to
departmental consent. Graded on S/U basis only.
Credit Hours: 3

MATH 8102: Topics in Algebra
Advanced topics in algebra.
Credit Hours: 3
Prerequisites: MATH 8410

MATH 8190: Masters Project in Mathematics
Masters Project in Mathematics
Credit Hours: 3

MATH 8202: Topics in Functional Analysis
Topics in Functional Analysis
Credit Hours: 3

MATH 8210: Basic Algebra
Accelerated problem solving course in linear and abstract algebra. Will
prepare students for the algebra qualifying exam.
Credit Hours: 3
Prerequisites: MATH 4720, MATH 4920, or instructor's consent, or
equivalent
Corequisites: MATH 8220 and MATH 8250
### MATH 8220: Basic Analysis
Accelerated problem-solving course in advanced calculus and complex analysis. Will prepare students for the analysis qualifying exam.

**Credit Hours:** 6  
**Prerequisites:** MATH 4700, MATH 4900, MATH 4940, instructor's consent or equivalent

### MATH 8250: Basic Topology and Geometry

**Credit Hours:** 3  
**Prerequisites:** MATH 4700, MATH 4900, MATH 4140, or instructor's consent, or equivalent  
**Corequisites:** MATH 8210 and MATH 8220

### MATH 8302: Topics in Harmonic Analysis
Topics in Harmonic Analysis

**Credit Hours:** 3

### MATH 8402: Topics in Mathematical Physics
Topics in Mathematical Physics

**Credit Hours:** 3

### MATH 8410: Algebra I
Theory of algebraic structures—groups, rings, fields, algebraic and transcendental extensions of fields.

**Credit Hours:** 3  
**Prerequisites:** MATH 4720 and MATH 4920, or equivalent

### MATH 8411: Algebra II
Theory of modules, Galois theory and additional topics to be selected by the instructor.

**Credit Hours:** 3  
**Prerequisites:** MATH 8410 or equivalent

### MATH 8420: Theory of Functions of Real Variables I
Properties of functions of one real variable. Lebesgue measure and integration on the line.

**Credit Hours:** 3  
**Prerequisites:** MATH 4700 or MATH 7700 and MATH 4900 or MATH 7900, or equivalent

### MATH 8421: Theory of Functions of Real Variables II
Continuation of MATH 8420. General measure and integration theory. Elements of the theory of Hilbert and Banach spaces, linear functions and linear operators.

**Credit Hours:** 3  
**Prerequisites:** MATH 8420

### MATH 8425: Complex Analysis I
Rigorous introduction to the theory of functions of a complex variable.

**Credit Hours:** 3  
**Prerequisites:** MATH 4940 or MATH 7940 or equivalent

### MATH 8426: Complex Analysis II
Analytic continuation, Riemann surfaces, entire and meromorphic functions, selected topics.

**Credit Hours:** 3  
**Prerequisites:** MATH 8425

### MATH 8440: Advanced Ordinary Differential Equations I
Topics from existence and uniqueness theorems, plane autonomous systems, periodicity and boundedness of solutions of second order nonlinear equations, perturbation theory, Sturm-Liouville systems, behavior of solutions at singularities.

**Credit Hours:** 3  
**Prerequisites:** MATH 4700 or MATH 7700 or equivalent

### MATH 8445: Partial Differential Equations I
Fourier and integral transforms, first and second order partial differential equations, methods of characteristics, Laplace's equation, Dirichlet and Neumann problems, Green's functions and maximum principles.

**Credit Hours:** 3  
**Prerequisites:** MATH 4700 or MATH 7700 or instructor's consent required

### MATH 8446: Partial Differential Equations II
The Cauchy-Kovalevski theorem, the Lewy example, the heat operator, the wave operator, Sobolev spaces, local regularity of elliptic boundary value problems.

**Credit Hours:** 3  
**Prerequisites:** MATH 8445  
**Recommended:** MATH 8420

### MATH 8460: Mathematical Finance I

**Credit Hours:** 3  
**Prerequisites:** graduate standing in Mathematics. Knowledge of elementary probability or instructor's consent  
**Recommended:** MATH 8460

### MATH 8461: Mathematical Finance II

**Credit Hours:** 3  
**Prerequisites:** knowledge of advance probability/stochastic processes or instructor's consent  
**Recommended:** MATH 8460
MATH 8480: Advanced Probability
(same as STAT 9810). Measure theoretic probability theory. Characteristic functions; conditional probability and expectation; sums of independent random variables including strong law of large numbers and central limit problem.
Credit Hours: 3
Prerequisites: MATH 4320 or MATH 8220; or instructor's consent

MATH 8502: Topics of Geometry
Topics of Geometry.
Credit Hours: 3
Prerequisites: instructor's consent

MATH 8587: Topology Seminar
Topology Seminar
Credit Hours: 3

MATH 8615: Algebraic Geometry I
Affine and projective varieties and schemes; nullstellensatz; Zariski topology, morphisms and rational maps; divisors and linear systems; topics from curves, surfaces, Grassmann varieties; commutative algebra and homological algebra as needed.
Credit Hours: 3
Prerequisites: MATH 8410

MATH 8616: Algebraic Geometry II
Continuation of MATH 8615.
Credit Hours: 3
Prerequisites: MATH 8615

MATH 8618: Introduction to Algebraic Topology
Development of singular homology theory; reference to other homology and cohomology theories. Introduction to homological algebra.
Credit Hours: 3
Prerequisites: MATH 8250

MATH 8628: Functional Analysis I
Linear topological spaces, Banach spaces, Hilbert spaces. Operator theory, including the Hahn-Banach, uniform boundedness and closed graph theorems.
Credit Hours: 3
Prerequisites: MATH 4900 and instructor's consent or MATH 8420

MATH 8630: Harmonic Analysis I
An introduction to Fourier Analysis in one and higher Dimensions. Topics include Fourier Series, conjugate functions, Fourier transforms, distributions, interpolation, and maximal functions.
Credit Hours: 3
Prerequisites: MATH 8420

MATH 8631: Harmonic Analysis II
Singular integrals, Littlewood-Paley theory, Hardy spaces, bounded mean oscillation, weighted norm inequalities, boundary value problems, and analysis on groups.
Credit Hours: 3
Prerequisites: MATH 8630

MATH 8650: Differentiable Manifolds and Riemannian Geometry
Tensor product spaces and tensor fields on manifolds. Differentiation and integration of differential forms. Riemannian geometry and applications.
Credit Hours: 3
Prerequisites: MATH 4700 or MATH 4400

MATH 8655: General Topology I
Credit Hours: 3
Prerequisites: MATH 4900, MATH 4400 or instructor's consent

MATH 8702: Topics in Applied Mathematics
Selected topics in applied mathematics drawn from variety of areas: partial differential equations, tensor analysis, calculus of variations, asymptotic methods, integral equations, advanced theory of transforms and distributions, numerical analysis.
Credit Hours: 3

MATH 9090: Doctoral Dissertation Research in Mathematics
Doctoral Dissertation Research in Mathematics. Graded on a S/U basis only.
Credit Hour: 1-9

MATH 9387: Harmonic Analysis Seminar
Harmonic Analysis Seminar
Credit Hours: 3

MATH 9487: Mathematical Physics Seminar
Mathematical Physics Seminar
Credit Hours: 3

MATH 9502: Topics in Topology
Advanced topics in topology or topological algebra.
Credit Hours: 3

MATH 9787: Applied Mathematics Seminar
Applied Mathematics Seminar
Credit Hours: 3

MATH 9887: Analysis Seminar
Analysis Seminar
Credit Hours: 3
Mechanical And Aerospace Engineering Courses

**MAE 1000: Introduction to Mechanical Engineering**
Introduction to the mechanical engineering profession, the Mechanical and Aerospace Engineering Department and curriculum, and the core disciplines of mechanical engineering. Introduction to engineering problem solving, ethics, and design.

**Credit Hour:** 1  
**Prerequisites:** Restricted to engineering students only

**MAE 1100: Introduction to Computer Aided Design**
Introduction to 2D and 3D mechanical modeling techniques using computer-aided design (CAD) software. Topics include 3D part and assembly modeling, 2D part and assembly drawings, standards of engineering drawings, and basic animation and simulation. Graded on A-F basis only. Prerequisites/

**Credit Hours:** 3  
**Prerequisites:** Restricted to Engineering Students only, or by departmental consent  
**Corequisites:** MATH 1500

**MAE 1100H: Introduction to Computer Aided Design - Honors**
Introduction to 2D and 3D mechanical modeling techniques using computer-aided design (CAD) software. Topics include 3D part and assembly modeling, 2D part and assembly drawings, standards of engineering drawings, and basic animation and simulation. Graded on A-F basis only. Prerequisites/

**Credit Hours:** 3  
**Prerequisites:** Restricted to Engineering Students only, or by departmental consent. Honors eligibility required  
**Corequisites:** MATH 1500

**MAE 2100: Programming and Software Tools**
Introduction to the use of computers, programming, and software. Topics include MATLAB syntax and programming techniques, algorithm design, and programming with Excel spreadsheets.

**Credit Hours:** 3  
**Prerequisites:** grade of C- or better in MATH 1700. Restricted to Mechanical Aerospace Engineering students only

**MAE 2200: Engineering Materials**
The nature of the structure of engineering materials. The relationship of material structure to physical properties. Mechanical behavior of engineering materials. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Grade of C- or better in ENGINR 1200 and CHEM 1320. Restricted to Mechanical and Aerospace Engineering students only

**MAE 2200W: Engineering Materials - Writing Intensive**
The nature of the structure of engineering materials. The relationship of material structure to physical properties. Mechanical behavior of engineering materials. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Grade of C- or better in ENGINR 1100 and MAE 2200. Restricted to Mechanical and Aerospace Engineering students only

**MAE 2300: Thermodynamics**
(same as ENGINR 2300). Fluid properties, work and heat, first law, second law, entropy, applications to vapor and ideal gas processes.

**Credit Hours:** 3  
**Prerequisites:** grade of C- or better in PHYSCS 2750; restricted to MAE students only

**MAE 2600: Dynamics**
Basic fundamentals of particle and rigid body dynamics; energy and momentum methods.

**Credit Hours:** 3  
**Prerequisites:** grade of C- or better in ENGINR 1200. Restricted to Mechanical and Aerospace Engineering students only

**MAE 3100: Computational Methods for Engineering Design**
Introduction to numerical methods for linear system analysis, curve-fitting, integration and differentiation, and optimization. The numerical methods are demonstrated through computer implementation and application to engineering design problems.

**Credit Hours:** 3  
**Prerequisites or Corequisites:** MATH 4100 grade of C- or better  
**Prerequisites:** Grade of C- or better in MAE 2100; Restricted to Mechanical and Aerospace Engineering students only

**MAE 3200: Fluid Mechanics**
A basic course in fluid mechanics. Topics include: fluid properties, hydrostatics, conservation laws, infinitesimal and finite control volume analysis, Navier-Stokes equations, dimensional analysis, internal and external flows.

**Credit Hours:** 3  
**Prerequisites or Corequisites:** MAE 2300 grade of C- or better  
**Prerequisites:** Grade of C- or better in MAE 2600; Restricted to Mechanical and Aerospace Engineering students only

**MAE 3500: Manufacturing Methods**
Fundamentals of manufacturing processes including forming, machining, casting, micro/nano manufacturing, rapid prototyping, and smart manufacturing systems. Emphasis on material selection and design considerations for manufacturing. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Grade of C- or better in MAE 1100 and MAE 2200. Restricted to Mechanical and Aerospace Engineering students only

**MAE 3600: Dynamic Systems and Control**
Modeling and analysis of dynamic systems and introduction to feedback control. Topics include dynamic modeling and response of mechanical, electrical, fluid, and thermal systems; and feedback control systems analysis.

**Credit Hours:** 3  
**Prerequisites or Corequisites:** ENGINR 2100 grade of C- or better
**MAE 3600H: Dynamic Systems and Control - Honors**
Modeling and analysis of dynamic systems and introduction to feedback control. Topics include dynamic modeling and response of mechanical, electrical, fluid, and thermal systems; and feedback control systems analysis.

**Credit Hours:** 3
**Prerequisites or Corequisites:** ENGINR 2100 grade of C- or better
**Prerequisites:** Grade of C- or better in MAE 2600 and MAE 3100 and MATH 4100. Restricted to Mechanical and Aerospace Engineering students only. Honors eligibility required

---

**MAE 3800: Instrumentation and Measurements Laboratory**
Design and reporting of experimental investigations. Topics include instrument design equations, sources of error, and calibration. Survey of instruments to measure: voltage, resistance, current, time, frequency, displacement, velocity, acceleration, strain, force, and torque.

**Credit Hours:** 3
**Prerequisites or Corequisites:** MAE 3600 grade of C- or better
**Prerequisites:** grade of C- or better in MAE 2600 and MAE 3100 and MATH 2760; Restricted to Mechanical and Aerospace Engineering students only

---

**MAE 3900: Mechanism Design**
Analysis of kinematics and dynamics of machinery. Topics include design and selection of various mechanisms. Graded on A-F basis only.

**Credit Hours:** 3
**Prerequisites:** Grade of C- or better in MAE 2600 and MAE 3100. Restricted to Mechanical and Aerospace Engineering students only

---

**MAE 3910: Machine Element Design**
Application of stress and fatigue analyses to the design of machine elements such as fasteners, springs, shafts, and gears. Topics include selection of appropriate materials and machine elements. Graded on A-F basis only.

**Credit Hours:** 3
**Prerequisites:** Grade of C- or better in ENGINR 2200 and MAE 2200. Restricted to Mechanical and Aerospace Engineering students only

---

**MAE 4001: Topics in Mechanical and Aerospace Engineering**
Current and new technical developments in mechanical and aerospace engineering. Enrollment limited to Mechanical and Aerospace Engineering students only. Graded on A-F basis only.

**Credit Hours:** 3
**Prerequisites:** See instructor provided prerequisites

---

**MAE 4085: Problems in Mechanical and Aerospace Engineering**
Special design, experimental and analytical problems in mechanical and aerospace engineering.

**Credit Hours:** 1-99
**Prerequisites:** Instructor's consent

---

**MAE 4201: Aerospace Structures**
(cross-leveled with MAE 7210). Fundamentals of the mechanics and design issues of aerospace structures. Analysis of thin skins with stiffeners for external surfaces, bulkheads and frames for shape support, and fasteners for holding components together. Graded on A-F basis only.

**Credit Hours:** 3
**Prerequisites:** C- or better in ENGINR 2200

---

**MAE 4220: Materials Selection**
(cross-leveled with MAE 7220). Study of the physical and mechanical metallurgy of alloy systems of interest in engineering applications.

**Credit Hours:** 3
**Prerequisites:** C- or better in MAE 2200; Restricted to Mechanical and Aerospace Engineering students only

---

**MAE 4230: Nanomaterials**
(cross-leveled with MAE 7230). The primary goal of this course is to introduce students into the new field of nanostructured materials. The emphasis of the course is to introduce the students into synthesis and characterization of nanomaterials, the behavior of such materials with nanoscale structures, and their technological applications.

**Credit Hours:** 3
**Prerequisites:** C- or better in MAE 2200 or equivalent

---

**MAE 4230W: Nanomaterials - Writing Intensive**
(cross-leveled with MAE 7230). The primary goal of this course is to introduce students into the new field of nanostructured materials. The emphasis of the course is to introduce the students into synthesis and characterization of nanomaterials, the behavior of such materials with nanoscale structures, and their technological applications.

**Credit Hours:** 3
**Prerequisites:** C- or better in MAE 2200 or equivalent

---

**MAE 4231: Transport Phenomena in Materials Processing**
(same as BIOL_EN 4231; cross-leveled with BIOL_EN 7231; MAE 7231). Applications of fluid flow, heat transfer, and mass transfer in steady-state and unsteady-state materials processing with applications to metals, polymers, and ceramics. Graded on A-F basis only.

**Credit Hours:** 3
**Prerequisites:** C- or better in MAE 2200 or equivalent

---

**MAE 4232: Ceramic Materials and Processing**
(cross-leveled with MAE 7232). Treatment of ceramics materials, structure, and ceramic processing with hands-on demonstration/labs. Graded on A-F basis only.

**Credit Hours:** 3
**Prerequisites or Corequisites:** MAE 4300
**Prerequisites:** C- or better in Math 4100

---

**MAE 4250: Composite Materials**
(cross-leveled with MAE 7250). A survey of composite materials used in engineering emphasizing fiber-reinforced composites but including laminate and particulate composites.

**Credit Hours:** 3
Prerequisites: C- or better in MAE 2200. Restricted to Mechanical and Aerospace Engineering students only

MAE 4270: Nondestructive Evaluation of Materials
(cross-leveled with MAE 7270). The role of nondestructive evaluation (NDE) in engineering is explored. Ultrasonic NDE is studied in detail. Labs are used to support the study of ultrasonic NDE. Other NDE techniques are surveyed.
Credit Hours: 3
Prerequisites: C- or better in MAE 2200, Mechanical and Aerospace Engineering students only

MAE 4280: Introduction to Finite Element Methods
(cross-leveled with MAE 7280). The application of matrix operations, energy concepts and structural mechanics to the development of the finite element method. Application of finite element method to beams, frames and trusses.
Credit Hours: 3
Prerequisites: C- or better in ENGINR 2200, MAE 3100, MAE students only

MAE 4290: Welding Engineering
(cross-leveled with MAE 7290). Welding is the most common method of joining similar as well as dissimilar materials. This course thus introduces the basic science and engineering aspects of commonly used fusion and non-fusion welding processes. Stress analysis and failure to welded joints is also introduced to develop safe and durable welded structures.
Credit Hours: 3
Prerequisites: Senior standing in Mechanical and Aerospace Engineering

MAE 4300: Heat Transfer
Credit Hours: 3
Prerequisites: Grade of C- or better in MAE 2300 and MAE 3400. Restricted to Mechanical and Aerospace Engineering students only

MAE 4310: Intermediate Heat Transfer
(cross-leveled with MAE 7310). Advanced topics in conduction, convection, and radiation. Heat exchanges and their applications will also be analyzed.
Credit Hours: 3
Prerequisites: C- or better in MAE 4300 and Mechanical Engineering students only

MAE 4320: Design of Thermal Systems
(cross-leveled with MAE 7320). Thermal systems are simulated by mathematical models (often on a digital computer), followed by optimization. Supporting topics include: economics, heat transfer, thermodynamics, and optimization.
Credit Hours: 3
Prerequisites: C- or better in MAE 4300

MAE 4320W: Design of Thermal Systems - Writing Intensive
Thermal systems are simulated by mathematical models (often on a digital computer), followed by optimization. Supporting topics include: economics, heat transfer, thermodynamics, and optimization.
Credit Hours: 3
Recommended: MAE 4300

MAE 4325: Nanoscale Energy Transport
(cross-leveled with MAE 7325). This course examines non-equilibrium energy processes from the vantage point of fundamental energy carriers. Topics include foundational solid state physics, statistical energy carrier distributions, density of states, and dispersion relationships. Energy transport will be discussed in terms of kinetic theory, the Landauer Formalism, and the Boltzmann Transport Equation. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Senior standing in MAE

MAE 4340: Heating and Air Conditioning
(cross-leveled with MAE 7340). General principles of thermal science applied to the design of environmental control systems. Topics covered include heating and cooling load calculations, annual operating and life cycle cost estimating, duct and pipe sizing, and equipment selection.
Credit Hours: 3
Prerequisites: C- or better in MAE 4300 and MAE students only

MAE 4350: Industrial Energy Analysis
Credit Hours: 3
Prerequisites or Corequisites: MAE 4300

MAE 4371: Energy Systems and Resources
(same as ECE 4020, NU_ENG 4315; cross-leveled with ECE 7020, NU_ENG 7315, MAE 7371). Analysis of present energy usage in Missouri, USA and the world, evaluation of emerging energy technologies and trends for the future. Economics and environmental impact of the developed technologies. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: C- or better in ENGINR 2300

MAE 4380: Intermediate Thermodynamics
(cross-leveled with MAE 7380). Topics from classical and statistical thermodynamics.
Credit Hours: 3
Prerequisites: C- or better in MAE 3400

MAE 4380: Intermediate Thermodynamics
(cross-leveled with MAE 7380). Topics from classical and statistical thermodynamics.
Credit Hours: 3
Prerequisites: C- or better in MAE 2300

MAE 4390: Aerospace Propulsion
(cross-leveled with MAE 7390). Analysis of aircraft engines and spacecraft propulsion systems.
Credit Hours: 3
Prerequisites: C- or better in MAE 3400 and Junior standing in Mechanical and Aerospace Engineering
MAE 4420: Intermediate Fluid Mechanics
(cross-leveled with MAE 7420). Topics in potential and viscous flow theory, and computational fluid dynamics.

Credit Hours: 3
Prerequisites: C- or better in MAE 3400

MAE 4430: Introduction to Computational Fluid Dynamics and Heat Transfer
(cross-leveled with MAE 7430). Introduction to the principles and development of the finite difference approximations to the governing differential equations of viscous and inviscid fluid flow, as well as heat transfer. Introduction to discretization methods and the calculation of flow fields, convection, diffusion and conduction.

Credit Hours: 3
Prerequisites: C- or better in MAE 3400

MAE 4440: Aerodynamics
(cross-leveled with MAE 7440). Presents fundamentals of wing and airfoil theory for incompressible flow, including fluid kinematics and dynamics, potential flow, flow about a body, thin-airfoil theory, and finite wing.

Credit Hours: 3
Prerequisites: C- or better in MAE 3400

MAE 4450: Gas Dynamics
(cross-leveled with MAE 7450). One dimensional compressible flow with and without friction and heat transfer. Isentropic flow and shock phenomenon in nozzles and diffusers.

Credit Hours: 3
Prerequisites: C- or better MAE 3400

MAE 4460: Microfluidics
(cross-leveled with MAE 7460). This course focuses on liquid transport in micro/nano fluidic devices and related electrohydrodynamics. Graded on A-F basis only.

Credit Hours: 3
Recommended: MAE 3400

MAE 4600: Advanced Mechanics of Materials
(same as CV_ENG 4600; cross-leveled with MAE 7600 and CV_ENG 7600). Analysis of more complicated problems in stresses, strains.

Credit Hours: 3
Prerequisites: C- or better in ENGINR 2200, MAE 2200 and Junior standing in MAE

MAE 4620: Aircraft Flight Performance
(cross-leveled with MAE 7620). Analysis of aircraft flight and aircraft performance metrics. Topics include airplane aerodynamics and propulsion, steady flight, range, endurance, take-off and landing, and aircraft maneuvers. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: C- or better in MAE 2600, MAE 3100, MAE 3400, and Junior standing in Mechanical and Aerospace Engineering

MAE 4630: Space Flight Mechanics
(cross-leveled with MAE 7630). Analysis of spacecraft orbits and trajectories. Topics include orbital mechanics, orbital maneuvers, interplanetary missions, and entry flight mechanics.

Credit Hours: 3
Prerequisites: C- or better in MAE 2600, MAE 3100, and Junior standing in Mechanical and Aerospace Engineering

MAE 4635: Spacecraft Attitude Dynamics and Control
(cross-leveled with MAE 7635). Spacecraft attitude representations; Spacecraft rotational kinematics and dynamics; Attitude determination and sensors; Environmental torques; Attitude stabilization strategies with gravity gradient, single and dual spins; Attitude control with momentum exchange devices. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Grade of C- or better in MAE 3600

MAE 4660: Vibration Analysis
(same as CV_ENG 4660; cross-leveled with MAE 7660, CV_ENG 7660). Vibration theory and its application to mechanical systems. Topics include free and forced vibration analysis of single- and multi-degree of freedom systems.

Credit Hours: 3
Prerequisites: C- or better in MATH 4100 and MAE 2600

MAE 4680: Introduction to MEMS
(cross-leveled with MAE 7680). The course will start with a survey of the widespread applications of MEMS sensors and actuators. Micro fabrication methods used in conventional semiconductor industry will be introduced. MEMS-specific process will be emphasized. Fundamental principles in electric circuits and mechanics will be reviewed. Special attention is on mechanical issues encountered in MEMS design and fabrication.

Credit Hours: 3
Prerequisites: C- or better in MAE 3600 and Junior standing in Mechanical and Aerospace Engineering

MAE 4690: Aircraft Flight Dynamics

Credit Hours: 3
Prerequisites: C- or better in MAE 2600, MAE 3100, and MAE 3400 and Junior Standing in Mechanical and Aerospace Engineering

MAE 4710: Hydraulic Control System
(cross-leveled with MAE 7710). Analysis of hydraulic control components and systems. Topics include pumps, valves, actuators, and industrial and mobile control systems. May be repeated for credit. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: C- or better in MAE 3400, MAE 3600, and Junior standing in Mechanical and Aerospace Engineering
MAE 4720: Modern Control  
(xcross-leveled with MAE 7720). Analysis and design of control systems using state-space methods. Topics include controllability and observability, feedback control using pole-placement, state observers, optimal linear-quadratic feedback control, and optimal estimation. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** C- or better in MAE 3600 and Junior standing in Mechanical and Aerospace Engineering

MAE 4730: Mechatronics  
(xcross-leveled with MAE 7730). Design of systems which require the integration of mechanical and electronic components. Topics include microcontrollers, sensors, actuators, mechanical systems, real time control system programming, and modeling of electronic and mechanical systems.  
**Credit Hours:** 3  
**Prerequisites:** C- or better in MAE 3600 and Junior standing in Mechanical and Aerospace Engineering

MAE 4740: Digital Control  
(xcross-leveled with MAE 7740). Design and analysis of control systems using discrete-time methods. Topics include z-transforms, sampling and reconstruction, stability analysis, and digital controller design.  
**Credit Hours:** 3  
**Prerequisites:** C- or better in MAE 3600 and Junior standing in Mechanical and Aerospace Engineering

MAE 4750: Classical Control  
(same as BIOL_EN 4310, ECE 4310; cross-leveled with MAE 7750, BIOL_EN 7310, ECE 7310). Study of feedback control design based on classical continuous-time methods. Topics include performance specifications, stability analysis, root locus compensator design, and frequency domain analysis and compensator design.  
**Credit Hours:** 3  
**Prerequisites:** C- or better in MATH 4100

MAE 4825: Materials and Manufacturing Laboratory  
Experiments in materials characterization, material properties, and manufacturing processes. Graded on A-F basis only.  
**Credit Hour:** 1-3  
**Prerequisites:** C- or better in MAE 3500 and MAE 3800, Restricted to Mechanical and Aerospace Engineering students only

MAE 4834: Thermal Fluids Laboratory  
Applied thermal and fluid systems, such as HVAC and psychometrics, will be introduced. Experiments conducted on thermal/fluid hardware components will be used to reinforce concepts. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** Grade of C- or better in MAE 4300 and MAE 3800. Restricted to Mechanical and Aerospace Engineering students only

MAE 4834W: Thermal Fluids Laboratory - Writing Intensive  
Applied thermal and fluid systems, such as HVAC and psychometrics, will be introduced. Experiments conducted on thermal/fluid hardware components will be used to reinforce concepts. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** Grade of C- or better in MAE 3800 and MAE 4300. Restricted to Mechanical and Aerospace Engineering students only

MAE 4930: Applied Mechanical Optimization  
(xcross-leveled with MAE 7930). Introduction to mathematical programming techniques and applications to the design of mechanical systems and components.  
**Credit Hours:** 3  
**Prerequisites:** C- or better in MAE 3100. Mechanical and Aerospace Engineering students only

MAE 4940: Aircraft Design  
(xcross-leveled with MAE 7940). Conceptual design of aircraft, from initial sizing and design layout to design analysis, optimization and trade studies. Fundamental theories for aircraft design including sizing, aerodynamic forces, airfoil selection, wing loading, configuration layout payloads, propulsion systems, landing gear, aerospace structures, and cost analysis. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** C- or better in ENGINR 2200, MAE 3400, MAE 3600, and Junior standing in MAE

MAE 4980: Senior Capstone Design  
Senior design experience. Topics include reliability, safety, manufacturability, economic, and environmental constraints; design case studies; and industrial design projects. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites or Corequisites:** C- or better in MAE 4825, MAE 4834, and STAT 4710 or IMSE 2110

MAE 4980W: Senior Capstone Design - Writing Intensive  
Senior design experience. Topics include reliability, safety, manufacturability, economic, and environmental constraints; design case studies; and industrial design projects. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites or Corequisites:** C- or better in MAE 4825, MAE 4834, and STAT 4710 or IMSE 2110

MAE 4990: Undergraduate Research in Mechanical and Aerospace Engineering  
Independent investigation or project in Mechanical Engineering. Enrollment limited to senior Mechanical and Aerospace Engineering students only.  
**Credit Hour:** 0-6  
**Prerequisites:** Instructor's consent

</table>
MAE 7325: Nanoscale Energy Transport
(cross-leveled with MAE 4325). This course examines non-equilibrium energy processes from the vantage point of fundamental energy carriers. Topics include foundational solid state physics, statistical energy carrier distributions, density of states, and dispersion relationships. Energy transport will be discussed in terms of kinetic theory, the Landauer Formalism, and the Boltzmann Transport Equation. Graded on A-F basis only.

Credit Hours: 3

MAE 7340: Heating and Air Conditioning
(cross-leveled with MAE 4340). General principles of thermal science applied to the design of environmental control systems. Topics covered include heating and cooling load calculations, annual operating and life cycle cost estimating, duct and pipe sizing, and equipment selection.

Credit Hours: 3
Prerequisites: MAE 4300

MAE 7355: Industrial Energy Analysis

Credit Hours: 3
Corequisites: MAE 4300 or instructor's consent

MAE 7371: Energy Systems and Resources
(same as ECE 7020, NU_ENG 7315; cross-leveled with ECE 4020, NU_ENG 4315, MAE 4371). Analysis of present energy usage in Missouri, USA and the world, evaluation of emerging energy technologies and trends for the future. Economics and environmental impact of the developed technologies.

Credit Hours: 3

MAE 7380: Intermediate Thermodynamics
(cross-leveled with MAE 4380). Topics from classical and statistical thermodynamics.

Credit Hours: 3
Prerequisites: ENGINR 2300

MAE 7390: Aerospace Propulsion
(cross-leveled with MAE 4390). Analysis of aircraft engines and spacecraft propulsion systems.

Credit Hours: 3
Prerequisites: MAE 3400

MAE 7420: Intermediate Fluid Mechanics
(cross-leveled with MAE 4420). Topics in potential and viscous flow theory, and computational fluid dynamics.

Credit Hours: 3
Prerequisites: MAE 3400

MAE 7430: Introduction to Computational Fluid Dynamics and Heat Transfer
(cross-leveled with MAE 4430). Introduction to the principles and development of the finite difference approximations to the governing differential equations of viscous and inviscid fluid flow, as well as heat transfer. Introduction to discretization methods and the calculation of flow fields, convection, diffusion and conduction.

Credit Hours: 3
Prerequisites: MAE 3400, MAE 3000 and MAE 4420

MAE 7440: Aerodynamics
(cross-leveled with MAE 4440). Presents fundamentals of wing and airfoil theory for incompressible flow, including fluid kinematics and dynamics, potential flow, flow about a body, thin-airfoil theory, and finite wing.

Credit Hours: 3
Prerequisites: MAE 3100 and MAE 3400

MAE 7450: Gas Dynamics
(cross-leveled with MAE 4450). One-dimensional compressible flow with and without friction and heat transfer. Isentropic flow and shock phenomenon in nozzles and diffusers.

Credit Hours: 3
Prerequisites: MAE 3400

MAE 7460: Microfluidics
(cross-leveled with MAE 4460). This course focuses on liquid transport in micro/nano fluidic devices and related electrohydrodynamics. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: MAE 3400

MAE 7600: Advanced Mechanics of Materials
(same as CV_ENG 7600; cross-leveled with MAE 4600 and CV_ENG 4600). Analysis of more complicated problems in stresses, strains.

Credit Hours: 3
Prerequisites: C- or better in ENGINR 2200, MAE 2200 and Junior standing in MAE

MAE 7620: Aircraft Flight Performance
(cross-leveled with MAE 4620). Analysis of aircraft flight dynamics and aircraft performance. Topics include airplane aerodynamics and propulsion, steady flight, flight performance, aircraft maneuvers, aircraft stability, and an introduction to flight controls. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: MAE 3600

MAE 7630: Space Flight Mechanics
(cross-leveled with MAE 4630). Analysis of spacecraft motion. Topics include orbital dynamics, spacecraft attitude dynamics, satellite trajectory design, and spacecraft control system design.

Credit Hours: 3
Prerequisites: MAE 3600
MAE 7635: Spacecraft Attitude Dynamics and Control
(cross-leveled with MAE 4635). Spacecraft attitude representations; Spacecraft rotational kinematics and dynamics; Attitude determination and sensors; Environmental torques; Attitude stabilization strategies with gravity gradient, single and dual spins; Attitude control with momentum exchange devices. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: MAE 4635

MAE 7660: Vibration Analysis
(same as CV_ENG 7660; cross-leveled with CV_ENG 4660, MAE 4660). Vibration theory and its application to Mechanical systems. Topics include free and forced vibration analysis of single and multi-degree of freedom systems.

Credit Hours: 3
Prerequisites: C- or better in MATH 4100 and MAE 2600

MAE 7680: Introduction to MEMS
(cross-leveled with MAE 4680). The course will start with a survey of the widespread applications of MEMS sensors and actuators. Micro fabrication methods used in conventional semiconductor industry will be introduced. MEMS-specific processes will be emphasized. Fundamental principles in electric circuits and mechanics will be reviewed. Special attention is on mechanical issues encountered in MEMS design and fabrication. Graded on A-F basis only.

Credit Hours: 3

MAE 7690: Aircraft Flight Dynamics

Credit Hours: 3

MAE 7710: Hydraulic Control Systems
(cross-leveled with MAE 4710). Analysis of hydraulic control components and systems. Topics include pumps, valves, actuators, and industrial and mobile control systems.

Credit Hours: 1-3
Prerequisites: MAE 3400 and MAE 3600

MAE 7720: Modern Control
(cross-leveled with MAE 4720). Analysis and design of control systems using state-space methods. Topics include controllability and observability, feedback control using pole-placement, state observers, optimal linear-quadratic feedback control, and optimal estimation. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: MAE 3600

MAE 7730: Mechatronics
(cross-leveled with MAE 4730). Design of systems which require the integration of mechanical and electronic components. Topics include microcontrollers, sensors, actuators, mechanical systems, real time control system programming, and modeling of electronic and mechanical systems.

Credit Hours: 3
Prerequisites: MAE 3600

MAE 7750: Classical Control
(same as ECE 7310, BIOL_EN 7310; cross-leveled with MAE 4750, ECE 4310, BIOL_EN 4310). Study of feedback control design based on classical continuous-time methods. Topics include performance specifications, stability analysis, root locus compensator design, and frequency domain analysis and compensator design.

Credit Hours: 3

MAE 7910: Mechanism Design
(cross-leveled with MAE 4910). Analysis of kinematics and dynamics of machinery. Topics include design and selection of various mechanisms. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: MAE 3600

MAE 7930: Applied Mechanical Optimization
(cross-leveled with MAE 4930). Introduction to mathematical programming techniques and applications to the design of mechanical systems and components.

Credit Hours: 3

MAE 7940: Aircraft Design
(cross-leveled with MAE 4940). Conceptual design of aircraft, from initial sizing and design layout to design analysis, optimization, and trade studies. Fundamental theories for aircraft design, including sizing, aerodynamic forces, airfoil selection, wing loading, configuration layout, payloads, propulsion systems, landing gear, aerospace structures, and cost analysis. Graded A-F basis only.

Credit Hours: 3
Prerequisites: MAE 3400, MAE 3600, MAE 3600

MAE 8001: Advanced Topics in Mechanical and Aerospace Engineering
Advanced Topics in Mechanical and Aerospace Engineering.

Credit Hours: 3

MAE 8085: Problems in Mechanical and Aerospace Engineering
Supervised investigation in mechanical and aerospace engineering to be presented in the form of a report.

Credit Hour: 1-99

MAE 8087: Graduate Seminar in Mechanical and Aerospace Engineering
Reviews recent investigations, projects of major importance in mechanical and aerospace engineering. Graded on S/U basis only.

Credit Hour: 1
MAE 8240: Mechanical Behavior of Materials
This course will cover the mechanical behavior of metallic, ceramic, polymeric, and composite materials and their relationships to the underlying microstructures. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: MAE 2200 and graduate standing in engineering, or instructor's consent

MAE 8250: Plasma Technology for Materials Engineering
The course is intended to give graduate students a fundamental knowledge of plasma-assisted materials processing and an understanding of state-of-the-art plasma processing technology and applications. The content is designed for graduate students from materials science, mechanical engineering, chemical engineering, electrical engineering, etc. Graded on A-F basis only.

Credit Hours: 3

MAE 8280: Finite Element Methods
(same as CV_ENG 8208). The concepts and fundamentals of the finite element method with applications to problems in solid and fluid mechanics.

Credit Hours: 3
Prerequisites: MAE 4280

MAE 8300: Microscale Heat Transfer
Review of existing models. Concept of thermal lagging and the second-law admissibility. Applications to low temperatures, thermal processing of thin-film devices; amorphous materials; advanced composites.

Credit Hours: 3
Prerequisites: MAE 4300

MAE 8311: Heat Transfer-Convection
Principles of heat transfer by convection, review of boundary layer theory, laminar and turbulent heat transfer, temperature-dependent fluid properties, high velocity heat transfer and an introduction to mass transfer.

Credit Hours: 3
Prerequisites: MAE 4300 and MAE 8410

MAE 8313: Heat Transfer-Conduction
Distribution of temperature and temperature history within solids by the four essential methods of evaluation of these temperature fields.

Credit Hours: 3
Prerequisites: MAE 4300

MAE 8315: Multiphase Heat Transfer
Fundamentals and application of heat and mass transfer and fluid flow with phase change; melting and solidification, sublimation and vapor deposition, condensation, evaporation, nucleate and film boiling, two-phase flow. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: MAE 4300

MAE 8320: Continuum Mechanics
(same as CV_ENG 8320). Introductory course in the mechanics of continuous media. Basic concepts of stress, strain, constitutive relationships; conservation laws are treated using Cartesian tensor notation. Examples from both solid and fluid mechanics investigated.

Credit Hours: 3
Prerequisites: MAE 3400, MATH 4100, ENGINR 2200

MAE 8330: Theory of Elasticity

Credit Hours: 3

MAE 8332: Thermal Stresses
General equations of thermoelasticity. Constitutive equations of thermoelastoplasticity; Analytical and numerical analyses of thermal stresses in bars, beams, 3D media, 2D plane stress and strain media, cylinders, and spheres. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: MAE 4300, or instructor's consent
Recommended: MAE 8330

MAE 8350: Theory of Elastic Stability

Credit Hours: 3

MAE 8360: Theory of Plasticity

Credit Hours: 3
Prerequisites: MAE 8330 or instructor's consent

MAE 8380: Advanced Thermodynamics
Advanced topics from classical thermodynamics.

Credit Hours: 3
Prerequisites: MAE 4380

MAE 8420: Computational Heat Transfer and Fluid Dynamics
Introduction to numeric analysis techniques applied to heat transfer and fluid dynamics problems. Coverage will include, the development of discretization equations for the control volume approach and solution strategies of those equations. Results from numeric simulations will be compared with close form analytic solutions and commercial numeric code output.

Credit Hours: 3

MAE 8430: Introduction to Two Phase Flow
An introduction to the analysis of the mechanics and transport processes in two phase flows.
MAE 8450: Introduction to Turbulence
An introduction to the physical phenomena of turbulence, supported by mathematical and statistical descriptions. Especially appropriate for engineers involved in research of momentum, heat, and mass transport.
Credit Hours: 3
Prerequisites: MAE 3400

MAE 8510: Manufacturing Design
Design for manufacture methods, their capabilities and applications. Design of intelligent manufacturing systems using sensory systems and artificial intelligence techniques.
Credit Hours: 3
Prerequisites: MAE 3100 and MAE 4500

MAE 8620: Advanced Dynamics
(same as CV_ENG 8620). Fundamental principles of advanced rigid body dynamics with applications. Special mathematical techniques including Lagrangian and Hamiltonian methods.
Credit Hours: 3
Prerequisites: MAE 2600

MAE 8740: Robust Control
Definition of the robust performance problem with the goal of achieving specified signal levels in the face of plant uncertainty; uncertainty and robustness, stabilization, design constraints, loopshaping, model matching and design for robust performance.
Credit Hours: 3
Prerequisites: MAE 4750, and MAE 8780 or instructor's consent

MAE 8750: Nonlinear Control
Nonlinear systems analysis techniques including phase plane analysis, Lyapunov theory. Control design including feedback linearization, sliding control, and adaptive control.
Credit Hours: 3
Prerequisites: MAE 4750 and MAE 8780

MAE 8760: Optimal Control
The course will study optimization under dynamic constraints and optimal control theory. Topics include calculus of variation, Pontryagin's minimum principle, dynamic programming, and linear quadratic optimal control. Graded on A-F basis only.
Credit Hours: 3

MAE 8910: Modular Machine Tool Design
This course introduces necessary concepts and tools for modular machine tool design. Students will learn how to apply mechanical design knowledge and commercially available subassemblies and parts to design modular machine tools for mass production application.
Credit Hours: 3
Prerequisites: MAE 4980 or instructor's consent

MAE 8930: Advanced Mechanical System Modeling and Optimization
Calculus of variations is introduced as a basic tool. Hamilton's Principle is used for system modeling. Numerical solution methods are used for dynamic simulation. Genetic algorithm and other algorithms are applied for system optimization. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: MAE 3600 and MAE 4980. Seniors will require consent

MAE 8990: Research-Masters Thesis in Mechanical and Aerospace Engineering
Independent investigation in field of mechanical and aerospace engineering to be presented as a thesis. Graded on a S/U basis only.
Credit Hour: 1-99

MAE 9990: Research-Doctoral Dissertation Mechanical & Aerospace Engineering
Independent investigation in field of mechanical and aerospace engineering to be presented as a thesis. Graded on a S/U basis only.
Credit Hour: 1-99

Medical Pharmacology and Physiology Courses

MPP 1111: How to Inquire and Investigate
In this course we will be interviewing faculty members from different departments to learn about their area of research and they will also be interviewing me about my area of research. How does one learn about a new subject with all its technical language (jargon)? What are common themes and approaches in different disciplines? What are conceptual and viewpoint differences in different disciplines?
Credit Hour: 1

MPP 2010: The Science of Sex, Drugs and Rock'n'Roll
This course will examine the data and theories for how drugs affect the body, for the physiology of reproduction and, for how sound affects the body. These topics will be used to motivate an understanding, and provide training in applying, the key scientific principles. Graded on A-F basis only.
Credit Hour: 1

In this course, the students will explore toxins. We will discuss how toxins are formed, the 'value' of the toxin to the organism that makes it, how the toxin is delivered, the effect of the toxin on the target animal and on humans. In addition, we will discuss how toxins have led to new therapies and drugs. We will also analyze some famous cases of apparent toxin poisoning. In all cases, the students will be urged to critically evaluate the data and the theories and encouraged to think of novel uses of toxins and of experiments that would provide important new information about the toxins and their effects.
Credit Hours: 3
In this course, the students will explore toxins. We will discuss how toxins are formed, the ‘value’ of the toxin to the organism that makes it, how the toxin is delivered, the effect of the toxin on the target animal and on humans. In addition, we will discuss how toxins have led to new therapies and drugs. We will also analyze some famous cases of apparent toxin poisoning. In all cases, the students will be urged to critically evaluate the data and the theories and encouraged to think of novel uses of toxins and of experiments that would provide important new information about the toxins and their effects.

Credit Hours: 3
Prerequisites: Honors eligibility required

In this course, the students will explore toxins. We will discuss how toxins are formed, the ‘value’ of the toxin to the organism that makes it, how the toxin is delivered, the effect of the toxin on the target animal and on humans. In addition, we will discuss how toxins have led to new therapies and drugs. We will also analyze some famous cases of apparent toxin poisoning. In all cases, the students will be urged to critically evaluate the data and the theories and encouraged to think of novel uses of toxins and of experiments that would provide important new information about the toxins and their effects.

Credit Hours: 3

MPP 2020: Bodily Fluids and Functions
In this course, the students will study body fluids. We will learn about how the fluids are formed and the functions of the fluids. We will also critically evaluate some theories about the formation and function of the fluids.

Credit Hours: 3

MPP 2020W: Bodily Fluids and Functions - Writing Intensive
In this course, the students will study body fluids. We will learn about how the fluids are formed and the functions of the fluids. We will also critically evaluate some theories about the formation and function of the fluids.

Credit Hours: 3

MPP 2222: Let's Do Experiments for Research
This course is designed to provide students a hands on opportunity to do experiments in the first part of the semester, students will be working primarily on two projects that they chose from a list developed by the previous class; the second half of the semester will be not only working on those projects, but developing the choice of projects for students to start for the next time the course is offered. The projects can be basic science, translational science, or developing education activities/ experiments or a combination of these. Some of the choices will involve safe materials and will require no additional training. Other choices may involve human subjects, animal tissues, or hazardous chemicals in which case, the students will need to obtain the appropriate training and that can be done to fulfill part of this course's requirements.

Credit Hours: 3

MPP 3202: Elements of Physiology
Beginning course for sophomore and above designed to cover the basic functional aspects of major organ systems of the body.

Credit Hours: 3

MPP 3202H: Elements of Physiology - Honors
Beginning course for sophomore and above designed to cover the basic functional aspects of major organ systems of the body.

Credit Hours: 5
Prerequisites: sophomore standing

MPP 3290: Undergraduate Research
Laboratory experience and opportunity to explore research in medical pharmacology and physiology.

Credit Hour: 1-3

MPP 3333: Fundamentals of Human Physiology
This course presents the basic concepts of physiology using a problem based approach. The major organs systems are discussed with the relevance to everyday physiology as well as clinical and animal applications discussed.

Credit Hours: 3

MPP 3333H: Fundamentals of Human Physiology - Honors
This course presents the basic concepts of physiology using a problem based approach. The major organs systems are discussed with the relevance to everyday physiology as well as clinical and animal applications discussed.

Credit Hours: 3

MPP 3337: Human Physiology Laboratory
This lab course will involve experiments to illustrate basic physiology concepts.

Credit Hours: 2

MPP 3500: Introduction to Human Physiology
This is an online course that will introduce students to basic concepts in human physiology, with a focus on the integrated function of organ system in homeostasis/human health. The final section of the course will expose students to important issues in exercise physiology, specifically the impact of exercise on cardiovascular and metabolic functions.

Credit Hours: 3
Recommended: Cell Biology, Biochemistry

MPP 4001: Undergraduate Topics in Medical Pharmacology and Physiology
Selected topics not in regularly offered courses.

Credit Hour: 1-3
Prerequisites: instructor's consent

MPP 4085: Undergraduate Problems in Medical Pharmacology and Physiology
This course is designed to provide well-qualified undergraduate students the opportunity to engage in advanced study in topics in pharmacology or physiology with individual faculty members. Topics will be drawn from recent primary literature. Graded on A-F basis only.
Credit Hour: 1-3  
Prerequisites: instructor's consent

MPP 4085W: Undergraduate Problems in Medical Pharmacology and Physiology - Writing Intensive  
This course is designed to provide well-qualified undergraduate students the opportunity to engage in advanced study in topics in pharmacology or physiology with individual faculty members. Topics will be drawn from recent primary literature. Graded on A-F basis only.

Credit Hour: 1-3  
Prerequisites: instructor's consent

MPP 4202: Medical Physiology  
(cross-leveled with MPP 7422). Medical Physiology is intended for health scientists. Fat, bone, digestion, nutrition, appetite and brain health will be emphasized for health reform and updates for nervous, muscle, heart, vascular, liver, renal, lung and endocrine systems with analysis for preventative medicine. May be repeated for credit. Graded on A-F basis only.

Credit Hours: 4  
Prerequisites: Nutrition or Biochemistry

MPP 4204: Medical Pharmacology  
(cross-leveled with MPP 7424). Medical pharmacology teaches the science of drug actions in medicine today, and principles of pharma kinetics/dynamics. Future health professionals will learn prescription judgment and quality/cost improvements for patient safety. An online laboratory will teach drug database information technology.

Credit Hours: 4  
Prerequisites or Corequisites: BIO_SC 3700 or MPP 3202 or MPP 4202 or equivalent physiology course from other colleges  
Recommended: nutrition or biochemistry courses are recommended but not required

MPP 4204H: Medical Pharmacology-Honors  
Medical pharmacology teaches the science of drug actions in medicine today, and principles of pharma kinetics/dynamics. Future health professionals will learn prescription judgment and quality/cost improvements for patient safety. An online laboratory will teach drug database information technology.

Credit Hours: 4  
Prerequisites or Corequisites: BIO_SC 3700 or MPP 3202 or MPP 4202 or equivalent physiology course from other colleges; Honors eligibility required  
Recommended: nutrition or biochemistry courses are recommended but not required

MPP 4417: Diagrams, Figures and Graphs  
(cross-leveled with MPP 7717). In this course, we will examine what features optimize the drawing of diagrams, figures and graphs for communication to different audiences. Graded on A-F basis only.

Credit Hour: 1

MPP 7302: Drug Discovery and Action  
This course is designed to provide the student with an in depth knowledge of specific aspects of cardiovascular physiology with major emphasis on cardiac structure and function. Topics are covered in 1, 3-4 hour session per week and are based on reading assignments from the literature. The following topics have been addressed in previous offerings but the specific topics may vary from year to year: Heart muscle structure related to function; Contractile proteins structures and function; Regulation of protein synthesis; Regulation of myocardial hypertrophy; Regulation of myocardial metabolism; Myocardial mechanics systolic and diastolic function; Mechanisms of length dependent contraction; Control of electrical-mechanical coupling processes; Mechanisms for adrenergic regulation of myocardial function.

Credit Hour: 1

MPP 7422: Medical Physiology  
(cross-leveled with MPP 4202). Medical Physiology is intended for health scientist. Fat, bone, digestion, nutrition, appetite and brain health will be emphasized for health reform and updates for nervous, muscle, heart, vascular, liver, renal, lung and endocrine systems with analysis for preventative medicine. May be repeated for credit. Graded on A-F basis only.

Credit Hours: 4  
Prerequisites: Nutrition or Biochemistry

MPP 7424: Medical Pharmacology  
(cross-leveled with MPP 4204). Pharmacology teaches the science of drug actions in medicine today and principles of pharmacokinetics/dynamics. Future medical researchers will learn molecular probes for medical research and translational science to improve health care. An online laboratory will teach drug database information technology. Graded on A-F basis only.

Credit Hours: 4  
Prerequisites or Corequisites: BIO_SC 3700 or MPP 3202 or MPP 4202 or equivalent physiology course from other colleges  
Recommended: nutrition or biochemistry courses are recommended but not required

MPP 7717: Diagrams, Figures, and Graphs  
(cross-leveled with MPP 4417). In this course, we will examine what features optimize the drawing of diagrams, figures and graphs for communication to different audiences. Graded on A-F basis only.

Credit Hour: 1

MPP 8000: Scientific Discovery Leading to Life Science Innovations  
(same as BIOL_EN 8000). This course explains the scientific discovery process from idea to product release, examining problem identification, need validation, and commercialization. Clinical, business and engineering perspectives are examined to understand translating innovation into clinical practice. May be repeated for credit. Graded on A-F basis only.

Credit Hours: 3  
Prerequisites: must be enrolled in a graduate degree program

MPP 8004: Regulatory Issues in Clinical Research and Clinical Trials  
(same as BIOL_EN 8004). The goal of the course is to highlight key FDA regulatory issues for conducting human clinical trials and clinical research. For clinical trials, FDA has set up several compliance programs and guidance documents as a part of human subject protection (HSP)/
Bioresearch Monitoring (BIMO) initiatives. The aim of the program was to strengthen FDA oversight and protection of subjects in clinical trials and to preserve confidentiality of data. The HSP/BIMO initiative comprehends all FDA regulated clinical trials including human drugs and biological drug products, devices, foods, and veterinary medicine. The course is designed for students in medical professions, management, biomedical engineering, and related areas. Adequate knowledge regarding FDA guidance in conducting human clinical trials and clinical research will help professionals steer drug/device development and commercialization in their respective field. This course will be offered online only. An introduction to essential disciplines for conducting clinical trials and clinical research will be provided. The basics of good clinical practices (GCPs), biostatistics and clinical epidemiology in relation to clinical trials will be presented. Several relevant case studies for conducting clinical trials, both nationally and internationally, will be discussed. The importance of data collection and data management while conducting clinical trials will be explained. Graded on A-F basis only.

Credit Hours: 3

Recommended: Knowledge in biomedical sciences, clinical sciences

MPP 8050: Non-Thesis Research in Medical Pharmacology and Physiology
Opportunities for graduate research in physiology or pharmacology not leading to dissertation. Graded on A-F basis only.

Credit Hour: 1-5
Prerequisites: instructor's consent

MPP 8085: Graduate Problems in Medical Pharmacology and Physiology
Guided study to strengthen knowledge in physiology and pharmacology. Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites: instructor's consent

MPP 8090: Thesis Research in Medical Pharmacology and Physiology
Research for Master's Students in physiology or pharmacology, leading to dissertation. Graded on a S/U basis only.

Credit Hour: 1-99
Prerequisites: instructor's consent

MPP 8100: Design and Development of Biomedical Innovations
(same as BIOL_EN 8100, ENGINR 8100). The overarching goal of this course is to help participants understand the design and development (drug or device) process in biomedical innovation. This course will help participants to understand the process of choosing unmet clinical needs, articulate a need statement without integrating solution, design and develop a solution. Participants will learn to assess the commercial potential of clinical needs by performing market analysis and valuing customer needs. A conceptual understanding about development of a prototype for a device and also drug development by different brainstorming process will be provided. Details of regulatory, reimbursement, patenting process required for product development will be explained with examples. An overview about how to evaluate preliminary designs, define product specifications, comply with manufacturing principles and methods, costs, cGMP requirements will be explained. Quality control and Quality assurance necessities for drug/device will be elucidated with case studies. Participants will gain knowledge about different business models for drug and devices, estimate market penetration and how to make profitable, patient-driven products. Graded on A-F basis only.

Credit Hours: 3

MPP 8411: Mammalian Pharmacology and Physiology
An integrated course covering the basic concepts in physiology and pharmacology of the cardiovascular, gastrointestinal, endocrine, renal, and respiratory systems with an emphasis of applying the key concepts to clinically relevant examples. Graded on A-F basis only.

Credit Hours: 5
Prerequisites: instructor's consent

MPP 8412: Seminar in Medical Pharmacology and Physiology
Instruction in critical evaluation, review, and summary of scientific data and practice in oral presentation of scientific research seminar. Taught in conjunction with weekly department seminar series.

Credit Hour: 1

MPP 8415: Responsible Conduct of Research thru Engagement, Enactment and Empowerment NIH and other Federal Age
The emphasis is on the scientific research ethics problems in interdisciplinary work. Student involvement can include designing mock misconduct trials or writing advocacy letters to change current policy.

Credit Hours: 2
Prerequisites: instructor's consent

MPP 8417: Scientific Communication
A course to foster and improve students ability to communicate orally and in writing. Student enrolled in the course will be expected to write a report and present a seminar on a topic related to one of the lab rotation projects to the mentor of the rotation and other interested faculty members and students. Graded on A-F basis only.

Credit Hours: 2

MPP 8420: Skills in Biomedical Research
This course focuses on introducing graduate students to the basics of biomedical research. Course objectives are to provide new graduate students with a basic understanding of laboratory safety issues and fundamental skills that are integral to research including principles of experimental design, theory and practical application of modern research techniques, written and oral communication of research information, and scientific record keeping standards. Graded on S/U basis only.

Credit Hours: 3

MPP 8500: Translational Biosciences I
This course covers foundational principles in molecular and cellular biology that are required for understanding a wide range of biomedical science disciplines, including cancer biology, microbiology, virology and physiology. This is a lecture-based course that also feature a discussion session each week in which students will read/discuss current primary scientific literature to emphasize the translational implications of these pathways. Graded on A-F basis only.
MPP 8550: Skills in Translational Biosciences I
Skills in Translational Biosciences I will provide students an overview of current techniques in biomedical sciences, including bioethics. Students will also be exposed to state of the art techniques ranging from subcellular to whole animal studies, as well as medical bioinformatics, health outcomes and epidemiology. The course will have a significant emphasis on reading primary literature in a journal club format.

Credit Hours: 5

MPP 9090: Thesis Research in Medical Pharmacology and Physiology
Research for PhD students in physiology or pharmacology, leading to dissertation. Graded on a S/U basis only.

Credit Hour: 1-99
Prerequisites: instructor’s consent

MPP 9422: Medical Pharmacology and Physiology Journal Club
On a weekly basis, individual students are assigned current high profile journal articles to present to their fellow students and faculty in a journal club setting. Each student in the course is required to read the paper in advance and participate in discussions of the figures and general topics that is being presented. Graded on S/U basis only.

Credit Hour: 1
Prerequisites: enrolled in MPP PhD graduate program

MPP 9426: Transmembrane Signaling
This course is for advanced level graduate students. The course is designed to develop state of the art knowledge and understanding of current research issues in the cell signaling. The major emphasis is on receptor and non-receptor mediated transmembrane signaling events underlying physiological and pharmacological responses of the cells. Students are also involved in class presentations, and the development and critical review of new research proposals, all focused on cellular signaling.

Credit Hours: 4
Prerequisites: basic courses in biochemistry and or cell and molecular biology or equivalent

MPP 9429: Principles and Frontiers of Molecular Pharmacology
An in-depth examination of pharmacodynamics, structure-activity relationships, pharmacokinetics/drug metabolism, and toxicology, followed by a consideration of emerging concepts regarding membrane receptors and channels and their role in biology and medicine.

Credit Hours: 5
Prerequisites: Students must have completed a physiology, biochemistry or cell biology course

MPP 9430: Cardiovascular Physiology
This course is designed to provide the student with an in depth knowledge of specific aspects of cardiovascular physiology with major emphasis on cardiac structure and function. Topics are covered in 1, 3-4 hour session per week and are based on reading assignments from the literature. The following topics have been addressed in previous offerings but the specific topics may vary from year to year: Heart muscle structure related to function; Contractile proteins structures and function; Regulation of protein synthesis; Regulation of myocardial hypertrophy; Regulation of myocardial metabolism; Myocardial mechanics systolic and diastolic function; Mechanisms of length dependent contraction; Control of electrical-mechanical coupling processes; Mechanisms for adrenergic regulation of myocardial function.

Credit Hours: 3
Prerequisites: MPP 4310 and MPP 8411 or the equivalent (e.g., UM first year medical school curriculum, V_BSCI 8421, or BIO_SC 3700 with supporting courses)

MPP 9431: Control of Energy Metabolism
(same as V_BSCI 9431). This advanced elective is in a lecture/discussion format using primary literature to explore how cells organize and regulate metabolism to meet energy demands.

Credit Hours: 3
Prerequisites: instructor’s consent

MPP 9432: Mammalian Membrane Physiology
This course is designed to stimulate active learning of the concepts of modern membrane physiology. Throughout the course, a balance will be maintained between examining classic papers in the field and current literature, including not only theories that have held up over time, but areas in which there is current dispute as the best model that describes the observations.

Credit Hour: 1-3

MPP 9434: Microvascular Circulatory Function
(same as V_BSCI 9425). An in-depth study of microcirculatory structure and function in various tissues with emphasis on recent developments in the understanding of the mechanisms involved in nutrient supply, edema formation, lymphatic function and fluid balance.

Credit Hours: 4
Prerequisites: V_BSCI 8420 and V_BSCI 8421 or equivalent and instructor’s consent

MPP 9435: Molecular Exercise Biology
(same as V_BSCI 9435). Skeletal muscle mechanics, contractions theories, transgenic models, development, gene expression regulation, adaptation to exercise, aging, metabolic functions, and inactivity induced chronic diseases.

Credit Hour: 1-3
Prerequisites: course director’s consent required for enrollment

MPP 9437: Neural Cardiorespiratory Control
(same as V_BSCI 9467). Course objectives include developing a general understanding of CNS mechanisms in the regulation of the cardiovascular and respiratory system, including autonomic, neurohumoral and body fluid homeostatic mechanisms, gaining knowledge of the major advances and topics in the field and becoming familiar with some of the methods used to study CNS cardiorespiratory regulation. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: instructor’s consent
Medicine-Interdisciplinary Courses

**MED_ID 5041: Structure and Function of the Human Body I**
Biochemical principles, cell biology, human development, histology and gross anatomy with clinical correlates utilizing patient examples and non-invasive techniques.

Credit Hours: 6

**MED_ID 5042: Interviewing**
Development of skills needed to obtain a history of the patient's present illness, past medical history and other pertinent background information. Vital to medical practice, these skills are role modeled, practiced and evaluated with detailed feedback. Additional emphasis is placed on the doctor-patient relationship, ethics and the role of the physician as a therapeutic agent.

Credit Hours: 3

**MED_ID 5043: Structure and Function of the Human Body II**
Study of the structure and function of the body's metabolic, nervous and muscular systems.

Credit Hours: 6

**MED_ID 5044: Physical Examination**
Introduction to the doctor-patient relationship and systematic physical examination of the patient. Certification in basic life support is also included.

Credit Hours: 3

**MED_ID 5045: Structure and Function of the Human Body III**
Study of the structure and function of the body's cardiovascular, gastrointestinal, and urinary systems.

Credit Hours: 6

**MED_ID 5046: Psychosocial Aspects of Medicine**
A brief study of the history of medicine and the impact of key events on current medical practice. Study of the biophychosocial model, biomedical ethics and specific psychosocial problems encountered by physicians such as compliance, problems based in human sexuality, substance abuse and death and dying.

Credit Hours: 3

**MED_ID 5047: Structure and Functions of the Human Body IV**
Study of the structure and function of the endocrine, reproductive, vascular systems. The classification of pathogenic and non-pathogenic organisms, mechanisms of infection, the immune response and the interaction between pharmacologic agents and exogenous organisms.

Credit Hours: 6

**MED_ID 5048: Clinical Epidemiology and Preventive Medicine**
Application of clinical epidemiology to understanding measurement of population characteristics and to the critical analysis of the literature through analysis of study designs and interpretation of the results and causal relationships. Study of prevention, screening and health maintenance as important aspects of health care.

Credit Hours: 3

**MED_ID 5051: Ambulatory Clinical Experience I**
Ambulatory Clinical Experience I

Credit Hour: 1

**MED_ID 5052: Ambulatory Clinical Experience II**
Ambulatory Clinical Experience II

Credit Hour: 1

**MED_ID 5180: FULL-TIME ENROLLMENT FOR POST-SOPHOMORE FELLOWS**
FULL-TIME ENROLLMENT FOR POST-SOPHOMORE FELLOWS

Credit Hours: 18

**MED_ID 5205: Individualized Study**
Individualized Study

Credit Hour: 1-5

**MED_ID 5207: Summer Clinical Practicum Internal Medicine**
Summer Clinical Practicum Internal Medicine. 4 week course. Zero credit hours, 4 FA hours.

Credit Hours: 0

**MED_ID 5213: Leadership Practicum**
Leadership Practicum

Credit Hours: 0

**MED_ID 5215: Summer Clinical Practicum - Medical Education**
Summer Clinical Practicum - Medical Education- Zero billing hours and 4 FA hours

Credit Hours: 0

**MED_ID 5217: Summer Clinical Practicum - Rural Track**
This represents non-credit clinical and research experiences that medical students may take during the summer following their first (M1) year of medical school. 8 weeks. Zero Credit.

Credit Hours: 0

**MED_ID 5341: Structure/Function Human Body I - Remediation**
Structure/Function Human Body I - Remediation

Clinical Epidemiology and Preventive Medicine - Remediation
Credit Hours: 3

MED_ID 5551: Pathophysiology I
Pathophysiologic mechanisms of cell injury, inflammation and repair, hemodynamic disturbances, genetic disorders, autoimmune response, immune deficiency and hypersensitivity reactions.
Credit Hours: 6

MED_ID 5552: Diagnostic Tests and Medical Decisions
Assessment of the appropriate use and interpretation of common diagnostic tests and their contribution to medical decisions and the care of patients. Includes emphasis on the review of systems, interactive hypothesis testing, differential diagnosis probability, sensitivity and specificity, and cost benefit and cost effectiveness analysis.
Credit Hours: 6

MED_ID 5553: Pathophysiology II
Pathophysiologic mechanisms of cardiovascular disease, diseases of the respiratory system, disorders of the blood, and nutritional diseases.
Credit Hours: 6

MED_ID 5554: Psychopathology and Behavioral Medicine
Presentation and discussion of the U.S. health care system and health care reform, financing and resource allocation, and the impact of change on individuals, communities, employers and the government. Included are analyses of the ethical and legal implications of health care and health care reform.
Credit Hours: 3

MED_ID 5555: Pathophysiology III
Pathophysiologic mechanisms of the digestive, endocrine and urogenital systems.
Credit Hours: 6

MED_ID 5556: Clinical Practicum
A continuation of Block 6 objectives and a clinical practicum and review comprise this block.
Credit Hours: 3

MED_ID 5557: Pathophysiology IV
Pathophysiology of infectious diseases, reproductive disorders, musculoskeletal and soft tissues diseases, diseases affecting the nervous system and skin diseases.
Credit Hours: 6

MED_ID 5558: Physician as a Person
Exploration of the physician as a person, the balance between professional and personal demands, family life, membership in a community, the stresses and rewards of the medical profession, professional ethics and the doctor-patient relationship. A four week clinical review completes this block.
Credit Hours: 3

MED_ID 5559: Advanced Physical Diagnosis I
Advanced Physical Diagnosis I
Credit Hour: 1

MED_ID 5560: Advanced Clinical Skill Practicum
This course is designed for MD/PhD students and other medical students away on research or post-sophomore fellowship leave. Approval to enroll must be obtained from the Director of the MD/PhD program or the Faculty Director of Clinical curriculum. Graded on S/U basis only.
Credit Hours: 0
Prerequisites: Advanced Physical Diagnosis; must have satisfactorily completed the second year of medical school

MED_ID 5571: Pathophysiology I - Remediation
Pathophysiology I - Remediation
Credit Hours: 6

MED_ID 5572: Diagnosis Test/Med Decision - Remediation

Physician as a Person - Remediation  
Credit Hours: 3

MED_ID 5850: Contemplating Medicine, Patients, Self and Society  
The purpose of the longitudinal COMPASS course is to foster the development of patient-centered physicians in relation to patients, self, and society. This is accomplished through an innovative longitudinal small group experience using a variety of learning methods including group discussion, reflective writing, storytelling, reading and case problem solving. The small group membership includes students from each of the 4 medical school classes and 2 faculty Guides. Curricular themes and small group session titles for the 4 year course recur on a two year cycle. The content and focus of each session is unique. Students in the first, second and third years of medical school will receive a final course grade (satisfactory or unsatisfactory) at the end of their M4 year. The final course grade will reflect the student's performance in the small group sessions and performance on the capstone assignment.  
Credit Hour: 1-5

MED_ID 5950: Remediation of MED_ID 5850  
Medical Students who receive an unsatisfactory grade in MED_ID 5850 Contemplating Medicine, Patients, Self and Society will enroll for this course in order to remediate their grade.  
Credit Hour: 1-5

MED_ID 6030: SCC Advanced Biomedical Sciences Elective  
Students will work under the supervision of an MU faculty member at MU's Springfield Clinical Campus in a pre-approved learning experience. Activities that fulfill this requirement may include, but are not limited to: Anatomy dissection at Missouri State University (MSU), research project at a Springfield based clinical location or lab (Cox, Mercy, MSU), PBL case writing, and cross cultural medicine (global health study abroad). ABS elective content and requirements will be similar to those offered at MU's Columbia Clinical Campus.  
Credit Hours: 5

MED_ID 6040: SCC Advanced Clinical Surgical Selective  
Students will work under the supervision of a faculty preceptor at the Springfield Clinical Campus. Students will see patients in the outpatient clinic and/or inpatient hospital setting, perform a history and exam, and develop a patient-centered assessment and plan. They will then discuss their findings, assessment and plan with the faculty preceptor and go see the patient together. The student will complete oral patient presentations and document patient encounters in the medical record as directed by the faculty preceptor. Students will enhance their knowledge, skills, and attitudes about patient-centered care through active participation in direct patient care activities while under the supervision of a faculty preceptor. Students will integrate previously acquired knowledge and concepts and apply them to the care and management of patients.  
Credit Hours: 5

MED_ID 6040: SCC General Elective  
Students will work under the supervision of a faculty preceptor at the Springfield Clinical Campus. Students will see patients in the outpatient clinic and/or inpatient hospital setting, perform a history and exam, and develop a patient-centered assessment and plan. They will then discuss their findings, assessment and plan with the faculty preceptor and go see the patient together. The student will complete oral patient presentations and document patient encounters in the medical record as directed by the faculty preceptor. Students will enhance their knowledge, skills, and attitudes about patient-centered care through active participation in direct patient care activities while under the supervision of a faculty preceptor. Students will integrate previously acquired knowledge and concepts and apply them to the care and management of patients.  
Credit Hours: 5

MED_ID 6244: ABS Quality Improvement and Patient Safety Elective  
The 4th year student will work with leaders in the Office of Clinical Effectiveness to identify an improvement project to be conducted during the elective. Students will have self-paced readings/didactic expectations, and will be expected to review and report on medical literature relevant to the care process(es) targeted for improvement. To complete their project, the student will present the improvement work to patient safety and quality improvement leaders, as well as stakeholders in the care process(es) identified for improvement efforts.  
Credit Hours: 5

MED_ID 6390: ABS Individualized Study in Medicine-M1  
Goals/Objectives: Participate in PBL as a tutor under the guidance of an experienced faculty tutor. Review the literature appropriate to each case. Update one PBL case that is used in the course of the block OR update a problem solving exam OR write a new problem solving exam. Students must submit the case or exam electronically to the course coordinator. Evaluation: Student's performance as tutor will be evaluated by the supervising faculty member and the tutor group members. Notes: During a four-week block, the fourth year student will tutor an M-1 PBL group (Monday, Wednesday, & Friday mornings) under the supervision of a senior faculty member. Contact course coordinator for case update details. Submission date for case update is set two weeks after the tutoring session ends. The student will attend all tutor preparation meetings and prepare for PBL through reading, self-directed study and
discussions with faculty. Complete student mid-block and end-of-block evaluation as directed.

Credit Hours: 5
Prerequisites: M4s registering for PBL tutoring must be in good standing and not on probation. M4s must not have come before the CSP for an automatic vote for dismissal

MED_ID 6391: ABS Individualized Study in Medicine-M2
ABS Individualized Study in Medicine-M2

Credit Hours: 5

MED_ID 6690: Elective Individual Study in Medicine - M1
Elective Individual Study in Medicine - M1
Credit Hours: 5

MED_ID 6691: Elective Individual Study in Medicine - M2
Goals/Objectives: Participate in PBL as a tutor under the guidance of an experienced faculty tutor. Evaluations: the student's performance as tutor will be evaluated by the supervising faculty member and the tutor group members. Notes: During the four-week block, the fourth year student will tutor a M-2 PBL group (Tuesday and Thursday afternoons) under the supervision of a senior faculty member.

Credit Hours: 5
Prerequisites: M4s registering for PBL tutoring must be in good standing and not on probation. M4s must not have come before the CSP for an automatic vote for dismissal

MED_ID 6692: Case/Exam Writing Elective
The fourth year medical student will work as part of a team in order to develop learning materials for the first and second year students. Students will work closely with faculty advisors and clinical mentors to develop educationally sound learning materials. Under the guidance of faculty preceptors, medical students will author one original PBL case including a comprehensive tutor guide and multiple choice examination questions covering the case objectives, AND one original Clinical Reasoning Exam including an annotated key.

Credit Hours: 5
Prerequisites: fourth year medical student in good standing

MED_ID 6693: Simulation Preparation for Internship
This course is meant to increase the medical students' knowledge and skillsbase in preparation for the first year of internship. In order to accomplish this, the students will be exposed to a variety situations common to first year residents through activities created with simulation. Throughout the course, students will demonstrate how to provide effective and efficient patient-centered care, while improving their communication skills and professionalism with patients and other healthcare providers. Students will understand the role of simulation in medical education and develop skills in debriefing of scenarios throughout the course. At the end of the course, students will be expected to complete a simulation capstone project. Prerequisites: Class level: 4th year medical student. Approval by Simulation Director and Completion of all Core Clerkship Requirements.

Credit Hours: 5

MED_ID 6694: Nutrition Elective
The Nutrition 4-week elective is largely a customizable elective that can be designed to match a student's interest(s) with a wide range of mentored nutrition experiences. The experience will include some fixed elements such as participation in a weekly seminar series and/or weekly journal clubs in which the student will be expected to present research papers. Focused experiences can be designed in areas including, but not limited, to Medical Nutrition Therapy, General Dietetics, Inpatient TPN/ICU and enteral feeds, Research Nutrition Studies, and Bariatric Surgery Nutrition. A wide variety of clinical environments will be available (pediatric obesity/endocrinology, failure to thrive, gastroenterology, cancer, etc.). Students will learn using a variety of experiences, evidence-based materials, patient simulations, and case studies. Students will produce a final written product of a revised or new PBL case or a paper on a specific nutrition prescription for a given diagnosis.

Credit Hours: 5
Prerequisites: Successful completion of the first two years of medical school

MED_ID 6925: Springfield Clinical Campus Elective
Students will work under the supervision of a faculty preceptor at the Springfield Clinical Campus. Students will see patients in the outpatient clinic and/or inpatient hospital setting, perform a history and exam, and develop a patient-centered assessment and plan. They will then discuss their findings, assessment and plan with the faculty preceptor and go see the patient together. The student will complete oral patient presentations and document patient encounters in the medical record as directed by the faculty preceptor.

Credit Hours: 2
**Prerequisites:** successful completion of the first two years of medical school

**MED_ID 6934: Sexual and Gender Minority Health Issues Across the Lifecourse**
The purpose of this course is to increase student's familiarity with sexual and gender minority health issues likely to be seen in practice. Integral to the course structure is improved cultural competency in not only appropriate language and terms used within the community but also a sense of the social-cultural issues each generation has faced growing up in America.

**Credit Hours:** 2
**Prerequisites:** successful completion of the first two years of medical school

---

**Medieval Renaissance Studies Courses**

**MDVL_REN 2004: Topics in Medieval and Renaissance Studies-Social Science**
Organized study of selected medieval and Renaissance topics. Subjects and earnable credit may vary from semester to semester. Topics announced at time of enrollment. May be repeated for credit with departmental consent.

**Credit Hour:** 1-3

**MDVL_REN 2005: Topics in Medieval and Renaissance Studies-Humanities**
Organized study of selected medieval and Renaissance topics. Subjects and earnable credit may vary from semester to semester. Topics announced at time of enrollment. May be repeated for credit with departmental consent.

**Credit Hour:** 1-3

**MDVL_REN 3004: Topics in Medieval and Renaissance Studies-Social Science**
Organized study of selected medieval and Renaissance topics. Subjects and earnable credit may vary from semester to semester. Topics announced at time of enrollment. May be repeated for credit with departmental consent.

**Credit Hour:** 1-3
**Prerequisites:** Instructor's consent

**MDVL_REN 3005: Topics in Medieval and Renaissance Studies-Humanities**
Organized study of selected medieval and Renaissance topics. Subjects and earnable credit may vary from semester to semester. Topics announced at time of enrollment. May be repeated for credit with departmental consent.

**Credit Hour:** 1-3
**Prerequisites:** Instructor's consent

**MDVL_REN 4104: Studies in Medieval and Renaissance Cultures-Social Science**
(cross-leveled with MDVL_REN 7104). In-depth study of selected topics in medieval and Renaissance cultures. Subjects vary from semester to semester. Topics announced at time of enrollment. May be repeated for credit with departmental consent.

**Credit Hours:** 3
**Prerequisites:** Junior standing or Instructor's consent

**MDVL_REN 4105: Studies in Medieval and Renaissance Cultures-Humanities**
(cross-leveled with MDVL_REN 7105). In-depth study of selected topics in medieval and Renaissance cultures. Subjects vary from semester to semester. Topics announced at time of enrollment. May be repeated for credit with departmental consent.

**Credit Hours:** 3
**Prerequisites:** Junior standing or Instructor's consent

**MDVL_REN 4411: Studies in Medieval and Renaissance Languages**
(cross-leveled with MDVL_REN 7411). Study of a medieval or early modern language.

**Credit Hours:** 3
**Prerequisites:** Instructors consent

**MDVL_REN 4535: Monastic Worlds**
(same as REL_ST 4535; cross-leveled with MDVL_REN 7535, REL_ST 7535). Monastic Worlds is an experiential learning course designed to serve as a Humanities Field School in medieval and early modern studies. It will be taught by faculty from UMKC and UMC through the Intercampus Course Sharing initiative. The class introduces students to humanities research methodology and the religious history and culture of premodern Europe and the contemporary Midwest by using the monastic communities as a focal point to learn about musicology, history, art history, literature, and religion. Following two weeks of online course modules, students will travel to the Benedictine communities of Conception Abbey in Conception, Missouri and Mount Saint Scholastica's in Atchison, Kansas, for additional face-to-face classes and research projects. On-site, students will participate in communal living and attend face-to-face classes on the historical and cultural worlds of medieval and early modern Europe. They will practice ethnography through observation of and participation in communal life of prayer, study, book production, and labor. Students will also have the opportunity to work with the manuscripts and rare books owned by these communities and visit the largest reliquary collection in North America, housed at the nearby Benedictine community of the Sisters of Perpetual Adoration in Clyde, MO. This course has an associated fee. Contact teaching faculty for this year's fee details. Graded on A-F basis only.

**Credit Hours:** 3

**MDVL_REN 7104: Studies in Medieval and Renaissance Cultures-Social Science**
(cross-leveled with MDVL_REN 4104). In-depth study of selected topics in medieval and Renaissance cultures. Subjects vary from semester to semester. Topics announced at time of enrollment. May be repeated for credit with departmental consent.

**Credit Hours:** 3
MDVL_REN 7105: Studies in Medieval and Renaissance Cultures-Humanities
(cross-leveled with MDVL_REN 4105). In-depth study of selected topics in medieval and Renaissance cultures. Subjects vary from semester to semester. Topics announced at time of enrollment. May be repeated for credit with departmental consent.
Credit Hours: 3

MDVL_REN 7411: Studies in Medieval and Renaissance Languages
(cross-leveled with MDVL_REN 4411). Study of a medieval or early modern language.
Credit Hours: 3
Prerequisites: Instructor's consent

MDVL_REN 7535: Monastic Worlds
(same as REL_ST 7535; cross-leveled with MDVL_REN 4535, REL_ST 4535). This course has an associated fee. Contact teaching faculty for this year’s fee details. Graded on A/F basis only.
Credit Hours: 3

MDVL_REN 8411: Studies in Medieval and Renaissance Languages
Study of a medieval or early modern language.
Credit Hours: 3
Prerequisites: Instructor's consent

Microbiology Courses

MICROB 2800: Microbiology for Nursing and Health Professions
This course will provide basic principles for understanding microbial growth, function, and control. This includes a survey of microbial cellular structure/functions, immunity concepts, epidemiology, specimen handling, and causes of microbial disease (bacterial, viral, and parasitic). Material is presented in lecture and corresponding laboratory exercises that will allow students to explore the microbial world around them.
Credit Hours: 4
Prerequisites: The overall content is “restricted to Freshman and sophomore Nursing and Health Related Professional students only”. Other inquiries contact department

MICROB 3200: Medical Microbiology and Immunology
Focus on medically important viruses, bacteria, fungi and parasites with emphasis on their disease causing potential and mechanisms. Introduction to cells and molecules of the immune system with emphasis on their role in fighting infectious diseases. Discussion of treatment and prevention strategies. Lecture material will be reinforced with laboratory demonstrations and hands-on exercises. The course is intended for preprofessional students.
Credit Hours: 4

MICROB 3800: Case-Based Microbiology: Assembling Systemic Health Connections
Detailed infectious diseases across organ systems. The biological characteristics and pathologic mechanisms of infectious diseases caused by bacteria, viruses, fungi and parasites are explored in a case-based learning. Student-driven learning objectives for each case (to include microbiology, anatomy, physiology, pharmacology, technology and clinical LO's each case) help groups connect scientific information across disciplines.
Credit Hours: 3
Prerequisites: Instructor's consent
Recommended: MICROB 2800 or MICROB 3200, MPP 3202, and PTH_AS 2201

MICROB 4300: Bacterial Pathogenesis
(cross-leveled with MICROB 7404). This team taught course covers the biology and virulence mechanisms of bacterial pathogens, with emphasis on those causing human and zoonotic diseases. Topics covered include bacterial structure, genetics, physiology, and metabolism; antibiotic resistance; host-pathogen interactions; microbiomes and emerging pathogens.
Credit Hours: 2
Prerequisites: MICROB 3200 or equivalent. Consent from Course Director is required to insure academic readiness

MICROB 4303: Fundamental Virology
(cross-leveled with MICROB 7303). Classification of viruses, life cycles, genome organization and expression, host-virus interactions, oncogenes and cellular transformation, viral pathogenesis, viral gene therapy approaches, strategies for anti viral therapy.
Credit Hours: 2
Prerequisites: undergraduates require instructor's consent. This course will include evaluation of current literature and require paper presentations

MICROB 4304: Immunology
(cross-leveled with MICROB 7304). This is a comprehensive team-taught, basic immunology course covering cells and organs of the immune system, lymphocyte development, innate immunity, antibody production, antibody-antigen presentation, CD4+ and CD8+ T lymphocyte responses, cytokines, autoimmunity and immunodeficiency among other immunologically relevant topics. Completion of a biochemistry, genetics, or molecular biology course would be helpful. Graded on A-F basis only.
Credit Hours: 3
Recommended: MICROB 3200 or BIOCHM 4270
MICROB 7101: Structure and Synthesis of Macro Molecules
This multiple-instructor course is designed to provide students with a detailed understanding of the structure, function, and biophysical properties of bio-molecules. Principles and techniques of molecular biology related to the study of recombinant DNA and genetic analysis, protein structure, function and basic immunological principles will be covered. Admission is dependent on approval by course director.
Credit Hours: 2
Prerequisites: consent required

MICROB 7303: Fundamental Virology
(cross-leveled with MICROB 4304). Classification of viruses, life cycles, genome organization and expression, host-virus interactions, oncogenes and cellular transformation, viral pathogenesis, viral gene therapy approaches, strategies for anti viral therapy.
Credit Hours: 2
Prerequisites: Undergraduates require instructor's consent. This course will include evaluation of current literature and require paper presentations

MICROB 7304: Immunology
(cross-leveled with MICROB 4304). Covers innate immunity, antibodies, antigens, MHC, antigen presentation, lymphocyte development, antigen specific receptors, lymphocyte activation and differentiation, immune effector mechanisms, hypersensitivities, tolerance, autoimmunity, immunodeciencies. Graded on A-F basis only.
Credit Hours: 3
Recommended: MICROB 3200 or BIOCHM 4270 or BIOCHM 4272 or instructor's consent

MICROB 7404: Foundations in Bacteriology and Pathogenesis
(cross-leveled with MICROB 4300). This team taught course covers the biology and virulence mechanisms of bacterial pathogens, with emphasis on those causing human and zoonotic disease. Topics covered include bacterial structure, genetics, physiology, and metabolism; antibiotic resistance; host-pathogen interactions; microbiomes and emerging pathogens.
Credit Hours: 3

MICROB 8050: Graduate Student Survival Skills
This course is an introduction to inform new graduate students about the Microbiology program and provide them with the knowledge to access resources and information needed for a successful transition into their course work and research. The course will also focus on guidelines in selecting mentors and their relationships, time management, good notebook practices, presentation and posters, comprehensive exams, and computer skills needed. Graded on A-F basis only.
Credit Hour: 1

MICROB 9001: Topics in Microbiology
Current topics, highly specialized topics taught infrequently, or courses taught by visiting professors.
Credit Hour: 1-99
Prerequisites: instructor's consent

MICROB 9085: Problems in Microbiology
Students assigned individual problems in microbiology for library or lab investigation. Graded on A-F basis only.
Credit Hour: 1-99
Prerequisites: instructor's consent

MICROB 9087: Seminar in Microbiology
Presentation and critical discussion of student and faculty research, current literature, and guest lectures on subjects in various areas of microbiology. Graded on A-F basis only.
Credit Hour: 1

MICROB 9090: Research in Microbiology
Original investigations in various areas of microbiology related to bacteria, fungi, rickettsia, viruses, and animal parasites, or immunology relating to antigens and antibodies of infectious and noninfectious nature designed for graduate thesis research. Graded on a S/U basis only.
Credit Hour: 1-99
Prerequisites: instructor's consent

MICROB 9403: Advanced Medical Microbiology
Similar to MICROB 4300 but treats medical microbiology and immunology in a more advanced manner. Methods of preparation and instruction stressed. Graded on A-F basis only.
Credit Hours: 2
Prerequisites: instructor's consent

MICROB 9404: Advanced Bacterial Pathogenesis
Literature based lectures and discussions covering current issues in bacterial pathogenesis. Focus is on understanding host-pathogen interactions that lead to disease. Topics include bacterial toxins and secreted virulence factors, intracellular bacterial growth and survival, host cell death and inflammatory pathways. Course will focus on a few model pathogens and discuss the molecular mechanisms of the pathogen and host that contribute to virulence. Graded on A-F basis only.
Credit Hours: 4
Prerequisites: MICROB 7404
Recommended: MICROB 4304 or MICROB 7304

MICROB 9407: Advanced Immunology
Literature based lectures and discussions covering current issues in molecular and cellular immunology. Topics include innate immunity; lymphocyte development; inflammation; tolerance, infection, and autoimmunity; mucosal immunity; asthma and allergy and tumor immunology.
Credit Hours: 4
Prerequisites: MICROB 4304 or MICROB 7304, or instructor's consent

MICROB 9432: Molecular Biology II
(same as BIOCHM 9432 and BIO.SC 9432). Detailed experimental analysis of eukaryotic cellular and molecular biology relevant to cellular and viral gene expression, post-transcriptional and post-translational modifications and genome replication. Models for developmental genetic
analysis and genetic determinants controlling developmental processes utilizing the current literature will be examined.

Credit Hours: 4
Prerequisites: MICROB 9430

MICROB 9449: Infection and Immunity
Writing, discussion, literature driven course, covering topics that focus on the interface between infectious diseases, cancer and the immune system. May be repeated for credit. Graded A-F basis only.

Credit Hours: 4
Prerequisites: 2nd year Graduate student with bacteriology, virology, microbial pathogenesis and immunology background only. 1st year graduate students require instructor approval

Military Science Courses

MIL_SC 1100: Foundations of Officership
Introduces students to issues and competencies that are central to a commissioned officer's responsibilities. Establish framework for understanding officership, leadership, and Army values followed and 'life skills' such as physical fitness and time management.

Credit Hour: 1

MIL_SC 1110: Introductory Military Science Laboratory I
Field application of skills taught in MIL_SC 1100, to include leadership, land navigation, tactical skills and basic soldier skills.

Credit Hour: 1
Recommended: MIL_SC 1100

MIL_SC 1120: Basic Leadership
Establishes foundation of basic leadership fundamentals such as problem solving, communication, briefings and effective writing, goal setting, techniques for improving listening and speaking skills and an introduction to counseling.

Credit Hour: 1

MIL_SC 1130: Introductory Military Science Laboratory II
Field application of skills taught in MIL_SC 1120, to include leadership, land navigation, tactical skills and basic soldier skills.

Credit Hour: 1
Recommended: MIL_SC 1120

MIL_SC 1140: Introduction to Outdoor Adventure Skills
This course is an entry-level outdoor education program designed to introduce students to general skills in outdoor adventure-type activities, team-building, leadership and physical fitness. This program emphasizes the importance of the individual's role within a team, problem-solving through critical thinking, improving oral and written communication skills, physical and mental resilience and demonstrating a commitment to lifelong learning. This course introduces students to several general concepts within outdoor education. Students will gain an understanding and appreciation of life-development skills through a series of real-world training labs. Subject materials will range from individual empowerment abilities to life-saving techniques. Through the usage of the experiential learning model, students will be introduced to new topics each week and then will apply this knowledge in a practical application format. Graded on A-F basis only.

Credit Hours: 2

MIL_SC 2200: Individual Leadership Studies
Students identify successful leadership characteristics through observation of others and self through experimental learning exercises. Students record observed traits (good and bad) in a dimensional leadership journal and discuss observations in small group settings.

Credit Hours: 2

MIL_SC 2220: Leadership and Teamwork
Study examines how to build successful teams, various methods for influencing action, effective communication in selling and achieving goals, the importance of timing the decision, creativity in the problem solving process, and obtaining team buy-in through immediate feedback.

Credit Hours: 2
Recommended: MIL_SC 2200

MIL_SC 2230: Intermediate Military Science Laboratory II
Progressively more challenging leadership scenarios presented in a field and classroom environment. Students practice basic military skills such as platoon-level offensive and defensive operations. Practical application of night land navigation.

Credit Hour: 1
Recommended: MIL_SC 2220

MIL_SC 3160: Death by a Thousand Cuts: Counterinsurgency/Insurgency the American Experience
This course explores the problem of insurgency and counterinsurgency in terms of what we can learn from these conflicts. It examines counterinsurgency theory and practice, the Philippine Insurrection, Banana Wars, Vietnam War, Afghanistan, and Iraq.

Credit Hours: 3

MIL_SC 3161: The American Experience in Vietnam
This course was developed to provide students the opportunity to examine the American experience in the Vietnam War, to search for meanings in this experience, and to arrive at their own conclusions concerning the impact of the war upon the nation. Moreover, it challenges the students to think critically about war and the use of military power to settle differences between nations. May be repeated for credit.

Credit Hours: 3

MIL_SC 3162: Counterinsurgency in Asia
This course explores the problem of insurgency and counterinsurgency in Asia in terms of what we can learn from these conflicts. The course
MIL_SC 3163: U.S. Military History in the Western Tradition
Analysis of United States military history from the Colonial period to the present, (1609-2012). It is a comprehensive look into the evolution of warfare in America, military traditions and heritage, and technology. This course analyzes the following: American Revolution, War of 1812, Mexican American War, Civil War, Indian Wars, Spanish American War, World War I, Inter War Period, World War II, Korean War, Vietnam War, Gulf War, Afghanistan and Iraq. All cadets are required to take this course for commissioning. May be repeated for credit.

Credit Hours: 3

MIL_SC 3164: Nation Building through a Barrel of a Gun
(same as POL_SC 3164). This course was developed to provide students the opportunity to examine the dilemmas of military intervention, nation-building/peacekeeping operations and exit strategies. This course is designed to challenge students to think critically and arrive at their own conclusions about the use of military power to settle differences between nations, and use of military forces to conduct nation building.

Credit Hours: 3

MIL_SC 3165: 'Chasing Ghost', The History of Irregular Warfare
(same as POL_SC 3165). This course explores the history of Irregular Warfare from the guerrilla perspective. The course examines the works of Mao Tse-Tung, Che Guevara, T.E. Lawrence and several other Guerrilla Leaders. You will analyze the evolution of Irregular Warfare through history and understand the complexities associated with the difficulties of countering and defeating Irregular Warfare. Graded on A-F basis only.

Credit Hours: 3

MIL_SC 3230: Leadership and Problem Solving
Students conduct self-assessment of leadership style, develop personal fitness regimen, and learn to plan and conduct individual/small unit tactical training while testing reasoning and problem-solving techniques. Students receive direct feedback on leadership abilities. Student must be a contracted cadet to enroll in this course.

Credit Hours: 3
Recommended: MIL_SC 1100 and MIL_SC 2200

MIL_SC 3240: Leadership and Ethics
Examines the role communications, values, and ethics play in effective leadership. Topics include ethical decision-making, considerations of others, spirituality in the military, and survey Army leadership doctrine. Emphasis on improving oral and written communication ability.

Credit Hours: 3
Recommended: MIL_SC 3230

MIL_SC 3250W: Leadership and Management
Develops student proficiency in planning and executing complex operations, functioning as a member of a staff, and mentoring subordinates. Students explore training management, methods of effective staff collaboration, and developmental counseling techniques.

Credit Hours: 3
Recommended: MIL_SC 3240

MIL_SC 3250: Officership
Study includes case study analysis of military law and practical exercises on establishing an ethical command climate, service as an officer; capstone exercise. Leadership lab Students must complete a semester long Senior Leadership Project that requires them to plan, organize, collaborate, analyze, and demonstrate their leadership skills.

Credit Hours: 3
Recommended: MIL_SC 3250W

MIL_SC 3270: Advanced Transition to Lieutenant I
Independent research, analysis and monthly discussion on related military topics. Personal, academic and professional goals and objectives, development and maintenance of an officer evaluation report support form.

Credit Hours: 3
Prerequisites: MIL_SC 3250W, MIL_SC 3260
Recommended: department head permission

MIL_SC 3280: Advanced Transition to Lieutenant II
Independent research, analysis and monthly discussion on related military topics. Personal academic and professional goals and objectives, development and maintenance of an officer evaluation report support form.

Credit Hours: 3
Prerequisites: MIL_SC 3250W, MIL_SC 3260
Recommended: department head permission

MU Informatics Institute Courses
INFOINST 7001: Topics in Informatics
This course provides an overview to the informatics foundations as well as introduces topics regarding the current informatics-driven areas of science. Graded on A-F basis only.

Credit Hours: 3

INFOINST 7002: Introduction to Informatics
This course provides an overview to informatics foundations in addition to introducing topics regarding the current informatics-driven areas of science. Topics to include: recent trends in informatics; database management and Big Data analytics; data visualization, bioinformatics, health informatics, geoinformatics, nursing informatics, social informatics, and legal informatics. Graded on A-F only.

Credit Hours: 3
Prerequisites: Instructor’s consent

INFOINST 7010: Computational Methods in Bioinformatics
(same as CMP_SC 7010). Fundamental concepts and basic computational techniques for mainstream bioinformatics problems. Emphasis placed on computational aspect of bioinformatics including
Instructor's consent

Prerequisites: CMP_SC 4050 and STAT 4710

INFOINST 7430: Introduction to Health Informatics
Introduction to the use of clinical information systems in healthcare. Topics include clinical data, standards, electronic medical records, computerized provider order entry, decision support, telemedicine, and consumer applications. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: departmental consent required

INFOINST 8001: Topics in Informatics
Organized study of selected topics. Subjects and earned credit may vary from semester to semester. Repeatable upon consent of department. Graded A-F basis only.

Credit Hours: 3

INFOINST 8005: Applications of Bioinformatics Tools in Biological Research
This service course is designed for bioinformatics non-major students from life sciences, biological sciences, plant sciences, animal sciences, biochemistry, medicine fields and others. This course will provide an introduction to the current state of the art topics in bioinformatics and the computational tools available to the research community for application to biological research questions. Students will learn how to effectively utilize the tools and software packages to analyze data and visualize the results. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Instructor's consent
Recommended: Graduate students are expected to have basic knowledge in algorithms, databases, and molecular biology

INFOINST 8008: Lab Rotations in Informatics
This course is designed to train students in both computational/informatics and life science/hospital laboratories to foster critical research collaborations in biomedical informatics. Students are expected to write reports with their advisors and the mentor of the rotation. Graded on S/U basis only.

Credit Hours: 1-3

INFOINST 8090: Dissertation (pre-candidacy) Research in Informatics
Research leading to dissertation before comprehensive examination. Graded on S/U basis only.

Credit Hour: 1-99

INFOINST 8150: Integrative Methods in Bioinformatics
(same as CMP_SC 8150). With biology entering the Big Data era, scientists are overwhelmed with the amount and the diversity of the experimental, statistical, and omics data about the biological objects they study. As a result, the frontier bioinformatics and computational genomics methods have started to utilize a so-called integrative approach, where the computational and informatics methods are used to combine the high-throughput and low-throughput data. The main objective of this course is to teach students how to utilize bioinformatics and programming techniques for such multi-omics data integration. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: INFOINST 8005 or instructor's permission

INFOINST 8190: Computational Systems Biology
(same as CMP_SC 8190). This course covers current theories and methods in the modeling and analysis of high-throughput experiments such as microarrays, proteomics, and metabolomics. Topics include the inference of causal relations from experimental data and reverse engineering of cellular systems. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: INFOINST 7010 or CMP_SC 7010; INFOINST 8010

INFOINST 8210: Computational Genomics
(same as CMP_SC 8210). This course introduces computational concepts and methods of genomics to students. The course covers genome structure, database, sequencing, assembly, annotation, gene and RNA finding, motif and repeats identification, single nucleotide polymorphism, and epigenomics. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: INFOINST 7010 or CMP_SC 7010

INFOINST 8310: Integrative Methods in Bioinformatics
Course objective is to introduce the most popular experimental methods from the point of view of the information sources that can be used in. Students will learn to use data obtained directly from biological experiments and how to suggest new experiments to improve results. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: INFOINST 7010 or CMP_SC 7010

INFOINST 8350: Integrative Methods in Bioinformatics
(same as CMP_SC 8350). This course covers current theories and methods in the modeling and analysis of high-throughput experiments such as microarrays, proteomics, and metabolomics. Topics include the inference of casual relations from experimental data and reverse engineering of cellular systems. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: INFOINST 7010 or CMP_SC 7010

INFOINST 8630: Applications of Bioinformatics Tools in Biological Research
This service course is designed for bioinformatics non-major students from life sciences, biological sciences, plant sciences, animal sciences, biochemistry, medicine fields and others. This course will provide an introduction to the current state of the art topics in bioinformatics and the computational tools available to the research community for application to biological research questions. Students will learn how to effectively utilize the tools and software packages to analyze data and visualize the results. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Instructor's consent
Recommended: Graduate students are expected to have basic knowledge in algorithms, databases, and molecular biology

INFOINST 8808: Lab Rotations in Informatics
This course is designed to train students in both computational/informatics and life science/hospital laboratories to foster critical research collaborations in biomedical informatics. Students are expected to write reports with their advisors and the mentor of the rotation. Graded on S/U basis only.

Credit Hours: 1-3

INFOINST 8890: Computational Systems Biology
This course covers current theories and methods in the modeling and analysis of high-throughput experiments such as microarrays, proteomics, and metabolomics. Topics include the inference of casual relations from experimental data and reverse engineering of cellular systems. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: INFOINST 7010 or CMP_SC 7010; INFOINST 8010 or instructors consent
INFOINST 8450: Precision Medicine Informatics
(same as PTH_AS 7450). This course will introduce students with the theoretical and practical aspects of precision medicine informatics. Topics include: complex diseases, computational genomics/proteomics, informatics of molecular interactions and biological pathways, somatic mutations, signal transduction and cancer, biomarker discovery, machine learning and data mining for PMI, networks methods for PMI, knowledge representation and reasoning for PMI. The course will consist of a set of didactic lectures, computational assignments, in-class demonstrations of PMI methods and discussions of recent publications.

Credit Hours: 3
Prerequisites: INFOINST 8005 with C or better or INFOINST 7010 with C or better or instructor's consent

INFOINST 8810: Research Methods in Informatics
Research Methods in Health and Bioinformatics is a writing intensive course that provides students with an understanding of research proposal development, literature searching, research synthesis, research designs, evaluation methods, and ethics. Graded A-F basis only.

Credit Hours: 3
Prerequisites: Second semester or later in PhD program or instructor's consent

INFOINST 8870: Knowledge Representation in Biology and Medicine
The main topics presented in the course are: logic systems, knowledge representation methods, production systems and representation of statistical and uncertain knowledge. Graded A-F basis only.

Credit Hours: 3
Prerequisites: HMI 7430 and HMI 7440

INFOINST 8880: Machine Learning Methods for Biomedical Informatics
(same as CMP_SC 8180) This course teaches statistical machine learning methods and their applications in biomedical informatics. The course covers theories of advanced statistical machine learning methods and teaches how to develop machine learning methods to solve biomedical problems. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: CMP_SC 7050 and INFOINST 7010 or CMP_SC 7010 or INFOINST 8005

INFOINST 9090: Dissertation (post-candidacy) Research in Informatics
Research leading to Ph.D. dissertation after comprehensive examination. Graded on S/U basis only.

Credit Hour: 1-99

Music-Applied Music Courses
MUS_APMS 1435: Studio Instruction for Majors
Acceptable as a secondary applied subject on B.S. in music education and B.M. degrees. Materials varies according to educational purpose. May be repeated for credit.

Credit Hour: 1

MUS_APMS 2455: Studio Instruction
Credit accepted toward all undergraduate music and music education degrees. May be repeated for credit.

Credit Hour: 1-5
Prerequisites: instructor's consent

MUS_APMS 3455: Studio Instruction
Accepted as upperclass credit only in Music Education, music theory, history, or composition. May be repeated for credit.

Credit Hour: 1-3
Prerequisites: 8 hours and 4 semesters of MUS_APMS 2455 or equivalent; audition by committee, and instructor's consent

MUS_APMS 3970: Junior Recital
Preparation and presentation of Junior Recital. Appropriate applied music course to be taken concurrently. May be repeated for credit. Each recital must be approved by a committee at least two weeks before the recital.

Credit Hour: 1

MUS_APMS 4455: Studio Instruction
For B.M. degrees in performance. Study of pedagogy in studio class. May be repeated for credit.

Credit Hour: 1-5
Prerequisites: 8 hours and 4 semesters of MUS_APMS 2455; audition; instructor's consent

MUS_APMS 4970: Senior Recital
Preparation and presentation of Senior Recital. Appropriate applied music course to be taken concurrently. May be repeated for credit. Each recital must be approved by a committee at least two weeks before the recital.

Credit Hour: 1

MUS_APMS 7435: Studio Instruction
For music teachers needing instruction in secondary instruments or voice. May be repeated for credit.

Credit Hour: 1-5
Prerequisites: audition by committee and instructor's consent

MUS_APMS 7455: Studio Instruction
Required for graduate credit as major applied study on M.M. degree. Acceptable for graduate credit on M.A., M.Ed., Ed.D., and Ph.D. degrees. Maybe repeated for credit.

Credit Hour: 1-5
Prerequisites: audition by committee and instructor's consent
MUS_APMS 8970: Graduate Recital
Preparation and presentation of Graduate Recital. Appropriate applied music course to be taken concurrently. May be repeated for credit. Each recital must be approved by a committee at least two weeks before the recital.

Credit Hour: 1

Music-Courses for Non-Majors Courses

MUSIC_NM 1005: Topics in Music-Humanities
Organized study of selected topics. Subjects vary from semester to semester. May be repeated once for additional credit with departmental consent.

Credit Hour: 1-3

MUSIC_NM 1085: Problems in Music
Independent investigation leading to a paper project. Sections are: Music Theory, Music Composition, Music History, Music Performance/Pedagogy. May be repeated for credit.

Credit Hour: 1:99
Prerequisites: instructor's consent

MUSIC_NM 1211: Fundamentals of Music I
Introduction to rhythmic, melodic, harmonic, and structural elements of music. Designed for non-music majors. No credit for music majors or minors.

Credit Hours: 2

MUSIC_NM 1214: Songwriting and Beat Making
Introductory course into the world of creating music that starts from the very beginnings of melody, harmony, and form to a finished, recorded product ready to be released.

Credit Hours: 3

MUSIC_NM 1300: Experiencing Music Through Concert Attendance
Development of music listening skills through concert attendance, reading and class attendance.

Credit Hour: 1

MUSIC_NM 1310: Masterpieces of Western Music
Introduction to the Western fine-art tradition through the study of representative masterworks, emphasis on developing listening skills; directed to non-majors.

Credit Hours: 3

MUSIC_NM 1311: Jazz, Pop, and Rock
Historical introduction to jazz (to approximately 1970) and the American popular song, including rock and roll (to approximately 1980); directed to non-majors.

Credit Hours: 3

MUSIC_NM 1313: Introduction to World Music
Introduction to the musical traditions of selected non-Western societies; emphasis on developing listening skills; directed to non-majors, but music majors may enroll.

Credit Hours: 3

MUSIC_NM 1314: Orchestral Masterpieces
In-depth study of selected symphonic works of masters from Joseph Haydn to Aaron Copland. Students develop critical listening skills to identify orchestral instruments and perceive the structure and character of selected orchestral works. Directed to non-music majors. Graded on A-F basis only.

Credit Hours: 3

MUSIC_NM 1315: Musical Profile-Bach
Systematic study of the music of J.S. Bach directed to the general student. Graded on A-F basis only.

Credit Hour: 1

MUSIC_NM 1316: Music Profile--Wolfgang A. Mozart
A systematic introduction to the music of Wolfgang Amadeus Mozart. Graded on A-F basis only.

Credit Hour: 1

MUSIC_NM 1318: Music Profile--Claude Debussy
A systematic introduction to the music of Claude Debussy. Graded on A-F basis only.

Credit Hour: 1

MUSIC_NM 1320: Musical Profile-Copland
Systematic study of the music of Aaron Copland directed to the general student. Graded on A-F basis only.

Credit Hour: 1

MUSIC_NM 1330: Introduction to African-American Music
Introduction to the history and scholarship of African American music from eighteenth through twentieth centuries. Focus on African legacies and retentions, slave culture, the black church, minstrelsy, folk traditions, spirituals, ragtime, blues, jazz, soul, R&B, and hip hop.

Credit Hours: 3

MUSIC_NM 1335: Introduction to Soul and Country
(same as BL_STU 1335). Examination of musical cultures signified by 'soul' and 'country'. Study of the evolution and aesthetics of these genres and how they deal with concepts like identity, class, race, and ethnicity; gender and sexuality; politics and patriotism.

Credit Hours: 3

MUSIC_NM 1445: Studio Instruction
Acceptable for non-majors and majors requiring a half-hour lesson with instructor's consent. May be repeated for credit.

Credit Hour: 1
MUSIC_NM 1608: Beginning Piano Class
For non-music majors only.
Credit Hour: 1

MUSIC_NM 1609: Intermediate Piano Class
For non-music majors only. Continuation of MUSIC_NM 1608.
Credit Hour: 1

MUSIC_NM 1612: Elementary Folk Guitar Class
Teaching correct hand position, strum patterns, and chords needed for accompaniment of popular and folk songs.
Credit Hour: 1

MUSIC_NM 1618: Basic Musicianship
Development of musicianship through music reading, playing, creating, and perceptive listening, including study of pitch, rhythm, structure, style, expressive and interpretive elements, and related vocabulary. No credit for music majors or minors or students who have completed MUSIC_NM 1211 or MUSIC_NM 1212.
Credit Hours: 3

MUSIC_NM 1651: Voice Class I
Fundamentals of singing; posture, breath support, control, vocalization, concepts of tone quality, placement and resonance. Literature selected for students with no previous vocal training. Adapted to needs of drama and other interdisciplinary students.
Credit Hour: 1

MUSIC_NM 2306: Perceiving Musical Traditions and Styles
An introduction to music from the late Baroque to the present day, including fine art, folk, and popular music. Designed to serve as a foundation for developing knowledge and skills of musical perception that will eventually lead to thoughtful written commentary on musical performances. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ENGLISH 1000

MUSIC_NM 2306H: Perceiving Musical Traditions and Styles - Honors
An introduction to music from the late Baroque to the present day, including fine art, folk, and popular music. Designed to serve as a foundation for developing knowledge and skills of musical perception that will eventually lead to thoughtful written commentary on musical performances. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ENGLISH 1000, Honors eligibility required

MUSIC_NM 2310: Live Music: Up Close and Personal
Study of classical chamber music from 1770-present through live performances. Artistic, cultural and historical contexts; development of listening skills and basic music vocabulary. No credit for music majors and music minors.
Credit Hour: 1
Recommended: Humanities credit for non-music students

MUSIC_NM 2320: History of the Classical Guitar
Historical development of the classical guitar and guitar music from 1400 to today.
Credit Hours: 2
Recommended: Humanities credit for any and all non-music majors

MUSIC_NM 2445: Studio Instruction for Non-Majors
Acceptable for non-majors only. May be repeated for credit.
Credit Hour: 1-2
Prerequisites: audition by examining committee and instructor's consent

MUS_ENS 1841: Instrumental Ensemble
Provides experience in instrumental performance and repertory. Open to all MU students by audition. May be repeated for credit. Enrollment in Marching Band is limited to a maximum of five semesters. Sections are: Philharmonic Orchestra, Chamber Orchestra, Symphonic Band, Wind Ensemble, Concert Band, Varsity Band, Studio Jazz Ensemble, Jazz Lab Band, Marching Band. Some sections may be graded on an S/U or A-F basis only.
Credit Hour: 0-1
Prerequisites: Audition

MUS_ENS 1842: Choral Ensemble
Provides experience in choral performance and repertory. Open to all MU students. May be repeated for credit. Sections are: University Singers, Chamber Singers, Choral Union, Vocal Jazz Ensemble, Concert Chorale, Men's Chorus, Women's Chorus. Some sections may be graded on an S/U or A-F basis only.
Credit Hour: 0-1
Prerequisites: audition required for all but Choral Union

MUS_ENS 1846: Chamber Music
Preparation and performance of chamber music. May be repeated for credit. Sections are: String Ensemble, Woodwind Ensemble, Brass Ensemble, Percussion Ensemble, Jazz Combo. Some sections may be graded on an S/U or A-F basis only.
Credit Hour: 0-1
Prerequisites: audition and instructor's consent
MUS_ENS 1865: Opera Workshop
Study, preparation and performance of selected operatic or musical theatre work in staged or concert versions. Open to all MU students by audition. Credit arranged; may be repeated for credit. Some sections may be graded on an S/U or A-F basis only.

Credit Hour: 0-1
Prerequisites: audition and instructor's consent

MUS_ENS 4866: Musical Theatre Performance
(same as THEATR 4460). A practical study for the actor of theatrical songs through character analysis, lyric interpretation, and movement. A performance course.

Credit Hours: 3
Prerequisites: instructor's consent

MUS_ENS 8841: Instrumental Ensemble
Research, preparation and performance of instrumental compositions. May be repeated for credit. Sections and credit hours are: Philharmonic Orchestra, Chamber Orchestra, Symphonic Band, Wind Ensemble, Concert Band, Studio Jazz Ensemble, Jazz Lab Band, Marching Band. Some sections may be graded on an S/U or A-F basis only.

Credit Hour: 0-1
Prerequisites: audition and instructor's consent

MUS_ENS 8842: Choral Ensemble
Research, preparation and performance of choral compositions. May be repeated for credit. Sections are: University Singers, Chamber Singers, Choral Union, Vocal Jazz Ensemble, Concert Choral, Men's Chorus, Women's Chorus. Some sections may be graded on an S/U or A-F basis only.

Credit Hour: 0-1
Prerequisites: audition and instructor's consent

MUS_ENS 8846: Advanced Chamber Ensemble
Study, preparation and performance of chamber music. May be repeated for credit. Sections are: String Ensemble, Woodwind Ensemble, Brass Ensemble, Percussion Ensemble, Jazz Combo. Some sections may be graded on an S/U or A-F basis only.

Credit Hour: 0-1
Prerequisites: audition and instructor's consent

MUS_ENS 8865: Advanced Opera Workshop
Study, preparation and performance of selected operatic or musical theatre works in staged or concert versions. Credit arranged; may be repeated for credit. Some sections may be graded on an S/U or A-F basis only.

Credit Hour: 0-2
Prerequisites: audition and instructor's consent

Music-General Courses

MUS_GENL 1091: Recital Attendance for Undergraduate Music Majors
Required attendance of eleven music events from the Music Department listing. 0 credit, and may be repeated until the total degree requirement is satisfactorily met. No tuition charged. Graded on S/U basis only.

Credit Hours: 0
Prerequisites: Undergraduate music or music education majors only

MUS_GENL 3085: Problems in Music
Independent investigation leading to a paper or project. May be repeated for credit. Sections are: Music Theory, Music Composition, Music History, Music Performance/Pedagogy.

Credit Hour: 1-99
Prerequisites: instructor's consent

MUS_GENL 3085W: Problems in Music - Writing Intensive
Independent investigation leading to a paper or project. May be repeated for credit. Sections are: Music Theory, Music Composition, Music History, Music Performance/Pedagogy.

Credit Hour: 1-99
Prerequisites: instructor's consent

MUS_GENL 4005: Topics in Music-Humanities
Organized study of selected topics in music. Subjects and credit variable. May be repeated for additional credit with departmental consent.

Credit Hour: 1-99
Prerequisites: junior standing in Music and instructor's consent

MUS_GENL 4005W: Topics in Music-Humanities - Writing Intensive
Organized study of selected topics in music. Subjects and credit variable. May be repeated for additional credit with departmental consent.

Credit Hour: 1-99
Prerequisites: junior standing in Music and instructor's consent

MUS_GENL 4029: Music Travel Course
(cross-leveled with MUS_GENL 7029). Experience designed to broaden music students' perspectives on music in different social and/or cultural context(s). Participant bears cost of the course.

Credit Hour: 1-3
Prerequisites: instructor's consent

MUS_GENL 4510: Career Development for Musicians
(cross-leveled with MUS_GENL 7510). Examination of professional opportunities available in the Creative Economy; development of a framework for career planning, professional portfolio, and personal business plan.

Credit Hours: 2
Prerequisites: sophomore standing and instructor's consent

MUS_GENL 4512: Principles of Arts Entrepreneurship
(cross-leveled with MUS_GENL 7512). Provisions of a solid foundation of the core principles of entrepreneurial practice: creation of new ventures, the decisions leading to their development, and the factors that lead
to their success. Students identify a career objective and develop a framework for achieving it.

**Credit Hours:** 2  
**Prerequisites:** MUS_GENL 4510; sophomore standing or instructor's consent

**MUS_GENL 4514: Arts Marketing**  
(cross-leveled with MUS_GENL 7514). Exploration of marketing the arts in the 21st Century. Students formulate a marketing plan for a project or career goal, including establishing a competitive advantage, identifying target markets, formulating marketing strategy, and measuring outcomes.

**Credit Hour:** 1  
**Prerequisites:** MUS_GENL 4510; Sophomore standing or instructor's consent

**MUS_GENL 4516: Grant Writing for the Arts**  
(cross-leveled with MUS_GENL 7516). Exploration of the nuts and bolts of grant writing, including resources for freelance performers and teachers, and alternative fundraising strategies for individual venture ideas. Students identify a grant opportunity and draft a funding proposal for a real or imagined project.

**Credit Hour:** 1  
**Prerequisites:** MUS_GENL 4510; sophomore standing or instructor's consent

**MUS_GENL 4518: Arts Industry Survey**  
(cross-leveled with MUS_GENL 7518). In-depth survey of the commercial arts industry world, with emphasis on career opportunities within the recording, performing, music retail, and music management sectors.

**Credit Hour:** 1  
**Prerequisites:** MUS_GENL 4510 and sophomore standing

**MUS_GENL 4520: Non-Profit Management in the Arts**  
(cross-leveled with MUS_GENL 7520). Introduction to management strategy and its application within the not-for-profit arts sector.

**Credit Hour:** 1  
**Prerequisites:** MUS_GENL 4510, sophomore standing or instructor's consent

**MUS_GENL 4522: Community Engagement in the Arts**  
(cross-leveled with MUS_GENL 4522). Introduction to community-based arts and their relationship to personal branding in the non-profit arts sector.

**Credit Hour:** 1  
**Prerequisites:** MUS_GENL 4510, sophomore standing, or instructor's consent

**MUS_GENL 4530: Leadership, Advocacy, and Policy in the Arts**  
(cross-leveled with MUS_GENL 7530). Seminar investigating advocacy methods, the application of leadership within non-profit arts organizations, arts policy and implications for artists in the 21st century. Writing and research-based work is a heavy component.

**Credit Hour:** 1  
**Prerequisites:** MUS_GENL 4510 and sophomore standing

**MUS_GENL 4540: Music Entrepreneurship Practicum**  
(cross-leveled with MUS_GENL 7540). Students either A) design and execute an entrepreneurial music leadership project in the community, or B) complete an internship (and accompanying report) with an approved partner organization, supervised by the instructor.

**Credit Hour:** 1-2  
**Prerequisites:** MUS_GENL 4510, sophomore standing or instructor's consent

**MUS_GENL 4550: Movement and Wellness for Musicians**  
(cross-leveled with MUS_GENL 7550). Students will actively engage with various somatic practices with the goal of holistically improving musical performance.

**Credit Hour:** 1  
**Prerequisites:** Instructor's consent

**MUS_GENL 7005: Topics in Music**  
Organized study of selected topics in music. Subjects and credit variable. May be repeated with departmental consent.

**Credit Hour:** 1-99  
**Prerequisites:** departmental consent

**MUS_GENL 7029: Music Travel Course**  
(cross-leveled with MUS_GENL 4029). Experience designed to broaden music students' perspectives on music in different social and/or cultural context(s). Participant bears cost of the course.

**Credit Hour:** 1-3  
**Prerequisites:** instructor's consent

**MUS_GENL 7510: Career Development for Musicians**  
(cross-leveled with MUS_GENL 4510). Examination of professional opportunities available in the Creative Economy; development of a framework for career planning, professional portfolio, and personal business plan.

**Credit Hours:** 2  
**Prerequisites:** instructor's consent

**MUS_GENL 7512: Principles of Arts Entrepreneurship**  
(cross-leveled with MUS_GENL 4512). Provision of a solid foundation of the core principles of entrepreneurial practice: creation of new ventures, the decisions leading to their development, and the factors that lead to their success. Students identify a career objective and develop a framework for achieving it.

**Credit Hours:** 2  
**Prerequisites:** MUS_GENL 7510 and instructor's consent

**MUS_GENL 7514: Arts Marketing**  
(cross-leveled with MUS_GENL 4514). Exploration of marketing the arts in the 21st Century. Students formulate a marketing plan for a project or career goal, including establishing a competitive advantage, identifying target markets, formulating marketing strategy, and measuring outcomes.

**Credit Hour:** 1  
**Prerequisites:** MUS_GENL 7510 and instructor's consent
MUS_GENL 7516: Grant Writing for the Arts  
(cross-leveled with MUS_GENL 4516). Explorations of the nuts and bolts of grant writing, including resources for freelance performers and teachers, and alternative fundraising strategies for individual venture ideas. Students identify a grant opportunity and draft a funding proposal for a real or imagined project.  
Credit Hour: 1  
Prerequisites: MUS_GENL 7510; instructor's consent

MUS_GENL 7518: Arts Industry Survey  
(cross-leveled with MUS_GENL 4518). In-depth survey of the commercial arts industry world, with emphasis on career opportunities within the recording, performing, music retail, and music management sectors.  
Credit Hour: 1  
Prerequisites: MUS_GENL 7510 or instructor's consent

MUS_GENL 7520: Non-Profit Management in the Arts  
(cross-leveled with MUS_GENL 4520). Introduction to management strategy and its application within the not-for-profit arts sector.  
Credit Hour: 1  
Prerequisites: MUS_GENL 7510 or instructor's consent

MUS_GENL 7522: Community Engagement in the Arts  
(cross-leveled with MUS_GENL 4522). Introduction to community-based arts and their relationship to personal branding in the non-profit arts sector.  
Credit Hour: 1  
Prerequisites: MUS_GENL 7510 or instructor's consent

MUS_GENL 7530: Leadership, Advocacy, and Policy in the Arts  
(cross-leveled with MUS_GENL 4530). Seminar investigating advocacy methods, the application of leadership within non-profit arts organizations, arts policy and implications for artists in the 21st century. Writing and research-based work is a heavy component.  
Credit Hour: 1  
Prerequisites: MUS_GENL 7510 or instructor's consent

MUS_GENL 8085: Problems in Music  
Independent investigation leading to a paper or project. May be repeated for credit. Sections are: Music Theory, Music Composition, Music History, Music Performance/Pedagogy.  
Credit Hour: 1-99  
Prerequisites: instructor's consent

MUS_GENL 8090: Research in Music  
Thesis course. May be repeated for additional credit. Sections are: Music Theory, Music Composition, Music History. Performance/Pedagogy. Graded on S/U basis only.  
Credit Hour: 1-99

Music-Instrumental And Vocal Repertory Courses

MUS_I_VR 3753: Piano Literature I  
Survey of keyboard music from ca. 1600 to ca. 1800.  
Credit Hours: 2  
Prerequisites: junior standing and instructor's consent

MUS_I_VR 3753W: Piano Literature I - Writing Intensive  
Survey of keyboard music from ca. 1600 to ca. 1800.  
Credit Hours: 2  
Prerequisites: junior standing and instructor's consent

MUS_I_VR 3754: Piano Literature II  
Continuation of MUS_I_VR 3753.  
Credit Hours: 2  
Prerequisites: MUS_I_VR 3753 or instructor's consent

MUS_I_VR 4767: Vocal Literature I  
Introduction to and study of song literature with emphasis on style and interpretation. Prerequisites: junior standing  
Credit Hours: 2

MUS_I_VR 4768: Vocal Literature II  
Continuation of MUS_I_VR 4767.  
Credit Hours: 2

MUS_I_VR 4776: Orchestral Excerpts  
Study and preparation of selected excerpts from the standard audition repertoire, culminating in a mock audition. May be repeated for credit.  
Credit Hours: 1  
Prerequisites: Instructor's consent required

MUS_I_VR 4780: Classical Guitar Repertory I  
Survey of guitar repertory and history from 1400 to present.  
Credit Hour: 1
Prerequisites: instructor's consent

MUS_I_VR 4781: Classical Guitar Repertory II
(cross-leveled with MUS_I_VR 7781). Continued study of guitar repertory from 1400 to present, with emphasis on organological development of the guitar and performance practice.
Credit Hour: 1
Prerequisites: MUS_I_VR 4780; instructor's consent

MUS_I_VR 7767: Advanced Vocal Literature I
Study of specific aspects of vocal repertory. Individual projects in research, analysis and performance.
Credit Hours: 3
Prerequisites: MUS_APMS 7455 or instructor's consent

MUS_I_VR 7768: Advanced Vocal Literature II
Continuation of MUS_I_VR 7767.
Credit Hours: 3
Prerequisites: MUS_I_VR 7767 or instructor's consent

MUS_I_VR 7776: Orchestral Excerpts
(cross-leveled with MUS_I_VR 4776). Study and preparation of selected excerpts from the standard audition repertoire, culminating in a mock audition. May be repeated for credit.
Credit Hour: 1
Prerequisites: instructor's consent required

MUS_I_VR 7770: Graduate Classical Guitar Repertory I
(cross-leveled with MUS_I_VR 4770). Survey of guitar repertory and history from 1400 to present.
Credit Hour: 1
Prerequisites: instructor's consent required

MUS_I_VR 7771: Graduate Classical Guitar Repertory II
(cross-leveled with MUS_I_VR 4771). Continued study of guitar repertory from 1400 to present, with emphasis on organological development of the guitar and performance practice.
Credit Hour: 1
Prerequisites: MUS_I_VR 7770. Instructor's consent required

MUS_I_VR 8753: Piano Repertory I
Credit Hours: 2
Prerequisites: MUS_APMS 7455 or instructor's consent

MUS_I_VR 8754: Piano Repertory II
Credit Hours: 2
Prerequisites: MUS_I_VR 8753 or instructor's consent

MUS_I_VR 8755: Choral Repertory
Survey of choral works from selected periods with an emphasis on various aspects of choral performance. May be repeated once for additional credit.
Credit Hours: 2
Prerequisites: instructor's consent

MUS_I_VR 8770: Band Repertoire
To survey band and wind ensemble repertoire with emphasis on various aspects of performance practice in order to prepare the student for a career which includes conducting advanced high school and college bands and wind ensembles.
Credit Hours: 3

MUS_I_VR 8773: String Instrument Repertory I
Credit Hour: 1
Prerequisites: MUS_APMS 7455 or instructor's consent

MUS_I_VR 8774: String Instrument Repertory II
Continuation of MUS_I_VR 8773.
Credit Hour: 1
Prerequisites: MUS_I_VR 8773

MUS_I_VR 8775: Orchestral Repertory
A survey of orchestral repertory, emphasizing various aspects of performance practice. Appropriate for graduate music conducting majors who wish to pursue a career which includes conducting orchestras at the advanced high school, college, and professional levels. May be repeated.
Credit Hours: 2
Prerequisites: Conducting experience at the high school or college level and instructor's consent

Music-Instrumental And Vocal Techniques Courses

MUS_I_VT 1610: Group Piano for Music Majors I
Beginning piano for music majors and concentrations only.
Credit Hour: 1
Prerequisites: instructor's consent

MUS_I_VT 1611: Group Piano for Music Majors II
Continuation of MUS_I_VT 1610.
Credit Hour: 1
Prerequisites: MUS_I_VT 1610 with a minimum grade of C- or instructor's consent

MUS_I_VT 1620: Jazz Piano Class
Beginning piano technique and study of common jazz piano voicings for accompaniment and solo performance.
Credit Hour: 1
Prerequisites: MUSIC_NM 1211 or MUS_THRY 1220; instructor's consent required
MUS_I_VT 2610: Group Piano for Music Majors III
Continuation of MUS_I_VT 1611.

Credit Hour: 1
Prerequisites: MUS_I_VT 1611 with a minimum grade of C- or instructor's consent

MUS_I_VT 2611: Group Piano for Music Majors IV
Continuation of MUS_I_VT 2610.

Credit Hour: 1
Prerequisites: MUS_I_VT 2610 with a minimum grade of C- or instructor's consent

MUS_I_VT 2631: Basic Conducting and Score Reading
To develop the basic psychomotor and score reading skills prerequisite to the art of conducting.

Credit Hours: 2
Prerequisites: grade of C- or better in MUS_THRY 2220

MUS_I_VT 2633: Rehearsal Clinic: Choral Conducting I
To develop musical and interpersonal skills requisite for successful leadership of a choral ensemble, emphasizing rehearsal strategies and repertoire.

Credit Hours: 2
Prerequisites: Grade of C- or better in MUS_I_VT 2631 or instructor's consent

MUS_I_VT 2634: Rehearsal Clinic: Band Conducting I
To develop musical and interpersonal skills requisite for successful rehearsal leadership, emphasizing strategies effective for rehearsal of wind and percussion ensembles.

Credit Hour: 1
Prerequisites: Grade of C- or better in MUS_I_VT 2631 or instructor's consent

MUS_I_VT 2635: Rehearsal Clinic: Choral Conducting II
Continuation of MUS_I_VT 2633.

Credit Hours: 2
Prerequisites: Grade of C- or better in MUS_I_VT 2633

MUS_I_VT 2636: Rehearsal Clinic: Band Conducting II
Continuation of MUS_I_VT 2634.

Credit Hour: 1
Prerequisites: Grade of C- or better in MUS_I_VT 2634

MUS_I_VT 2637: Woodwinds I
Class instruction in clarinet and saxophone; playing and methods/materials for teaching. Taught on a laboratory basis. Meets twice weekly.

Credit Hour: 1
Prerequisites: major in Music or Music Education

MUS_I_VT 2638: Woodwinds II
Class instruction in flute and double reeds; playing and methods/materials for teaching. Taught on a laboratory basis. Meets twice weekly.

MUS_I_VT 2640: Strings I
Class instruction in violin and viola; playing and methods and materials for teaching. Taught on a laboratory basis. Meets twice weekly.

Credit Hour: 1
Prerequisites: major in Music or Music Education. Grade of C- or better in MUS_THRY 1221 or instructor's consent

MUS_I_VT 2641: Strings II
Class instruction in violoncello and string bass; playing and methods and materials for teaching. Taught on a laboratory basis. Meets twice weekly.

Credit Hour: 1
Prerequisites: major in Music or Music Education. Grade of C- or better in MUS_THRY 1221 or instructor's consent. Recommend enrolling after earning a grade of C- or better in MUS_I_VT 2640

MUS_I_VT 2645: Brass I
Class instruction in trumpet and horn; playing and methods/materials for teaching. Taught on a laboratory basis. Meets twice weekly.

Credit Hour: 1
Prerequisites: major in Music or Music Education

MUS_I_VT 2646: Brass II
Class instruction in trombone, euphonium, and tuba; playing and methods/materials for teaching. Taught on a laboratory basis. Meets twice weekly.

Credit Hour: 1
Prerequisites: major in Music or Music Education

MUS_I_VT 2648: Percussion
Class instruction in percussion instruments; playing and methods and materials for teaching. Taught on a laboratory basis. Meets twice weekly.

Credit Hour: 1
Prerequisites: major in Music Education

MUS_I_VT 2649: Percussion II
Extension of MUS_I_VT 2648. Topics include marching percussion, drumset, Latin accessory instruments, and percussion ensemble literature.

Credit Hour: 1
Prerequisites: MUS_I_VT 2648

MUS_I_VT 2661: Keyboard Skills for Piano Majors I
Study of sightreading, harmonization, transposition, figured bass realization, and duet skills.

Credit Hours: 2
Prerequisites: grade of C- or better in MUS_THRY 1221 and MUS_THRY 1231; instructor's consent

MUS_I_VT 2662: Keyboard Skills for Piano Majors II
Study of score reading, duet performance, and collaborative experiences with voice and instruments.
Credit Hours: 2
Prerequisites: grade of C- or better in MUS_I_VT 2661; instructor's consent

MUS_I_VT 3642: Seminar in String Techniques
In-depth study of publications, philosophies, repertory, grading, specific problems for the string player. May be repeated once for credit.
Credit Hour: 1
Prerequisites: MUS_I_VT 2640 and MUS_I_VT 2641, or instructor's consent

MUS_I_VT 3643: Symposium in Instrumental Music
Study of procedures, techniques and literature for variable combinations of wind, string, and percussion classes and the administration of instrumental music programs.
Credit Hours: 2
Prerequisites: junior standing in Music or Music Education or instructor's consent

MUS_I_VT 3644: Jazz Methods and Materials
Training and supervised practice in conducting Jazz Ensembles; study of administration, methods, and materials pertinent to teaching Jazz, Rock, and Commercial Music in high school and college.
Credit Hour: 1
Prerequisites: junior standing or instructor's consent

MUS_I_VT 3646: Marching Band Techniques
Study of techniques and procedures used in the development of field and street marching.
Credit Hours: 2
Prerequisites: junior standing in Music or Music Education

MUS_I_VT 3670: Diction in Singing: Italian
Study of the correct principles and application of Italian diction in singing the solo vocal, operatic and choral literature; the International phonetic alphabet; spoken language drill, study and recitation of representative literature.
Credit Hour: 1
Prerequisites: sophomore standing

MUS_I_VT 3671: Diction in Singing: German
Study of the correct principles and application of German diction in singing the solo vocal, operatic and choral literature; the International Phonetic Alphabet spoken language drill, study and recitation of representative literature.
Credit Hour: 1
Prerequisites: sophomore standing

MUS_I_VT 3672: Diction in Singing: French
Study of the correct principles and application of French diction in singing the solo vocal, operatic, and choral literature; the International Phonetic Alphabet spoken language drill, study and recitation of representative literature. Prerequisites: sophomore standing
Credit Hour: 1

MUS_I_VT 3673: Diction in Singing: English
Study of the correct principles and application of English diction in singing the solo vocal, operatic and choral literature; the International phonetic alphabet; spoken language drill, study and recitation of representative literature.
Credit Hour: 1
Prerequisites: sophomore standing

MUS_I_VT 4640: Introduction to Improvisation
(cross-leveled with MUS_I_VT 7640). Introduction to contemporary improvisation, aimed at classically trained musicians. No improvisational experience necessary.
Credit Hours: 2
Prerequisites: Consent of instructor

MUS_I_VT 4645: Jazz Improvisation
Creation of a melodic vocabulary for jazz improvisation through study and application of jazz chord-scale theory, solo transcription, and careful listening to the vanguard of jazz.
Credit Hours: 2
Prerequisites: MUSIC_NM 1211 or MUS_THRY 1220, instructor's consent

MUS_I_VT 4650: Composing for Percussion
(cross-leveled with MUS_I_VT 7650). Hands-on compositional practice course with weekly exercises, weekly compositional sketches and score study. The course will allow students to collaborate with performers, solve compositional problems, and write for a wide variety of percussion instruments. Graded on A-F basis only.
Credit Hours: 2
Prerequisites: Grade of C- or better in MUS_THRY 2216 or by Instructor's Consent

MUS_I_VT 4661: Piano Pedagogy Survey I
Study of approaches for teaching young beginning and intermediate student; survey of materials and resources.
Credit Hours: 2
Prerequisites: instructor's consent

MUS_I_VT 4662: Piano Pedagogy Survey II
Study of approaches for teaching older, more advanced and class piano students; survey of materials and resources.
Credit Hours: 2
Prerequisites: instructor's consent

MUS_I_VT 4663: Piano Pedagogy Laboratory
Supervised instruction in private and class piano . May be repeated once for additional credit.
Credit Hour: 1
Prerequisites: MUS_I_VT 4661 and MUS_I_VT 4662
MUS_I_VT 4680: Classical Guitar Pedagogy
Basic anatomical and physiological aspects of guitar performance, setting technical and musical goals for students, repertoire development in relation to age, level, and musical style. Career goals (building a private studio, lesson planning, organizational skills) are addressed.

Credit Hour: 1
Prerequisites: Audition required and instructor's consent

MUS_I_VT 7640: Introduction to Improvisation
(cross-leveled with MUS_I_VT 4640). Introduction to contemporary improvisation, aimed at classically trained musicians. No improvisational experience necessary.

Credit Hours: 2
Prerequisites: Consent of instructor

MUS_I_VT 7645: Graduate Jazz Improvisation
Creation of a melodic vocabulary for jazz improvisation through study and application of jazz chord-scale theory, solo transcription, and careful listening to the vanguard of jazz.

Credit Hours: 2
Prerequisites: instructor's consent

MUS_I_VT 7650: Composing for Percussion
(cross-leveled with MUS_I_VT 4650). A hands-on compositional practice course with weekly exercises, weekly compositional sketches and score study. The course will allow students to collaborate with performers, solve compositional problems, and write for a wide variety of percussion instruments. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: Grade of C- or better in MUS_THRY 2216 or by Instructor's Consent

MUS_I_VT 7660: Graduate Classical Guitar Pedagogy
Basic anatomical and physiological aspects of guitar performance, setting technical and musical goals for students, repertoire development in relation to age, level and musical style. Career goals (building a private studio, lesson planning, organizational skills) are addressed.

Credit Hour: 1
Prerequisites: Audition and approval of instructor

MUS_I_VT 8646: Jazz Pedagogy I
Study of historical and current trends in jazz education and pedagogy, including administration and curriculum, through assigned readings, supervised teaching, classroom discussion, survey of materials, and formation of an annotated bibliography. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: instructor's consent required

MUS_I_VT 8647: Jazz Pedagogy II
Continuation of MUS_I_VT 8646; formulation of an extensive philosophy of jazz education. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: MUS_I_VT 8646 and instructor's consent

MUS_I_VT 8671: Principles of Singing I
Credit Hours: 2
Prerequisites: instructor's consent

MUS_I_VT 8673: Advanced Choral Conducting
Advanced conducting techniques in the interpretation of choral literature; score analysis. May be repeated for additional credit.

Credit Hours: 2
Prerequisites: MUS_I_VT 2633 or instructor's consent

MUS_I_VT 8674: Advanced Instrumental Conducting
Advanced conducting techniques in the interpretation of band and orchestral literature; score analysis. May be repeated for additional credit.

Credit Hours: 2
Prerequisites: MUS_I_VT 2634 or instructor's consent

MUS_I_VT 8681: Advanced Piano Pedagogy I
A survey of materials and techniques of instruction for teaching the young beginner and the intermediate piano student.

Credit Hours: 2
Prerequisites: instructor's consent

MUS_I_VT 8682: Advanced Piano Pedagogy II
A survey of materials and techniques of instruction for teaching class piano, the older beginner, and the advanced student.

Credit Hours: 2
Prerequisites: instructor's consent

MUS_I_VT 8683: Piano Pedagogy Internship
Supervised teaching of individual and group lessons. May be repeated once for credit.

Credit Hour: 1
Prerequisites: MUS_I_VT 8681 and MUS_I_VT 8682 and instructor's consent

MUS_I_VT 8684: Group Piano Pedagogy
Preparation of graduate students to teach group piano to both college level music majors and adult beginners.

Credit Hours: 2
Prerequisites: instructor's consent

MUS_I_VT 8689: Band Techniques
To develop individual conducting techniques as well as instrumental ensemble techniques. Emphasis is placed on the learning process to give the student a perspective to improve the techniques of others.

Credit Hours: 3
Prerequisites: instructor's consent

Music-Music Education Courses
MUS_EDUC 1100: Orientation: Music Education
This course familiarizes and orients students with MU resources, Music Education degree expectations and career options. Graded on S/U basis only.
MUS_EDUC 4140: Teaching Music I
Study of skills, knowledge, and philosophical foundations necessary to teach general music to children in grades preK - 5, including methods, philosophies, and teacher and learner behaviors.

Credit Hours: 1
Prerequisites: Music methods or instructor's consent

MUS_EDUC 4141: Teaching Music I Field Experience
This field experience supports the MUS_EDUC 4140 course. Field experience expectations are delineated in the course syllabus. Graded on a S/U basis only.

Credit Hour: 1
Prerequisites: junior standing; music education major or instructor's consent

MUS_EDUC 4142: Teaching Music II
Study of a broad repertoire of music literature and instructional materials, including critical evaluation and analysis for use in the general music classroom.

Credit Hours: 2
Prerequisites: MUS_EDUC 4140

MUS_EDUC 4142W: Teaching Music II - Writing Intensive
Study of a broad repertoire of music literature and instructional materials, including critical evaluation and analysis for use in the general music classroom.

Credit Hours: 2
Prerequisites: MUS_EDUC 4140

MUS_EDUC 4143: Teaching Music II Field Experience
This field experience supports the MUS_EDUC 4142 course. Field experience expectations are delineated in the course syllabus. Graded on a S/U basis only.

Credit Hour: 1
Prerequisites: MUS_EDUC 4141

MUS_EDUC 4143W: Teaching Music II Field Experience - Writing Intensive
This field experience supports the MUS_EDUC 4142 course. Field experience expectations are delineated in the course syllabus. Graded on a S/U basis only.

Credit Hour: 1
Prerequisites: MUS_EDUC 4141

MUS_EDUC 4144: Teaching Music III
A study of various strategies for the successful teaching of middle and high school music programs.

Credit Hours: 3
Prerequisites: MUS_EDUC 4142

MUS_EDUC 4144W: Teaching Music III - Writing Intensive
A study of various strategies for the successful teaching of middle and high school music programs.

Credit Hours: 3
Prerequisites: MUS_EDUC 4142

MUS_EDUC 4145: Teaching Music III Field Experience
This field experience supports the MUS_EDUC 4144 course. Field experience expectations are delineated in the course syllabus. Graded on a S/U basis only.

Credit Hour: 1
Prerequisites: MUS_EDUC 4143

MUS_EDUC 4145W: Teaching Music III Field Experience - Writing Intensive
This field experience supports the MUS_EDUC 4144 course. Field experience expectations are delineated in the course syllabus. Graded on a S/U basis only.

Credit Hour: 1
Prerequisites: MUS_EDUC 4143

MUS_EDUC 8140: Advanced Techniques in Music Education-General
A review and evaluation of teaching/learning strategies in general music instruction.

Credit Hour: 2-5
Prerequisites: Music methods or instructor's consent

MUS_EDUC 8141: Advanced Techniques in Music Education-Early Childhood
A review and evaluation of teaching/learning strategies in early childhood music instruction.

Credit Hour: 2-5
Prerequisites: Music methods or instructor's consent

MUS_EDUC 8142: Curriculum Materials in Music Education-General
A development of critical abilities in evaluation and selection of music education materials for general music.

Credit Hour: 2-5
Prerequisites: instructor's consent

MUS_EDUC 8143: Curriculum Materials in Music Education-Vocal
A development of critical abilities in evaluation and selection of music education materials for secondary vocal music.

Credit Hour: 2-5
Prerequisites: instructor's consent

MUS_EDUC 8150: Foundations of Music Education
A study of the history, philosophy and rationale of music education.

Credit Hours: 3
Prerequisites: instructor's consent
MUS_EDUC 8151: Measurement and Research in Music Education
Introduction to measurement and research strategies and techniques employed by music educators to assess music achievement, aptitude, perception, performance, cognition, and affective development. Emphasis on reading with understanding and applying research to pedagogical practice. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Graduate standing in music education

MUS_EDUC 8152: Psychology of Music Instruction and Performance
Introduction to the study of psychological factors, theories and research related to the musical development and performance of children, adolescents, and adults, with implications and applications for music education programs and instruction. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Graduate standing in music education

MUS_EDUC 8160: Current Issues in Music Education
This course is designed to stimulate thinking about current issues related to the field of music education and the influences of these issues on approaches to music teaching and learning.
Credit Hour: 1-3
Prerequisites: Graduate standing in music education

MUS_EDUC 8170: Doctoral Seminar in Music Education
Emphasis on knowledge, strategies, and skills necessary for doctoral students to be prepared to make contributions to the profession as successful college teachers, researchers, master teachers in K-12 schools, and arts administrators. Graded on A-F basis only.
Credit Hour: 1-3
Prerequisites: Admission to doctoral study in music education

MUS_H_LI 1322: Introduction to Music in the United States
Historical overview of American folk, popular, and fine-art music; emphasis on listening skills.
Credit Hours: 2

MUS_H_LI 2307: History of Western Music I
Historical survey of selected European practices up to 1700 following a consideration of the major fine-art traditions of the world.
Credit Hours: 2
Prerequisites: Grade of C- or better in MUS_H_LI 1322

MUS_H_LI 2308: History of Western Music II
Historical survey of Western fine-art music from approximately 1700 to the present.
MUS_H_LI 4317: Historical Studies in Jazz and Popular Music
(cross-leveled with MUS_H_LI 7317). Historical survey of works from the realm of American jazz and popular music.

Credit Hours: 3
Prerequisites: Grade of C- or better in MUS_H_LI 2308 and instructor's consent

MUS_H_LI 4317W: Historical Studies in Jazz and Popular Music - Writing Intensive
(cross-leveled with MUS_H_LI 7317). Historical survey of works from the realm of American jazz and popular music.

Credit Hours: 3
Prerequisites: Grade of C- or better in MUS_H_LI 2308 and instructor's consent

MUS_H_LI 4318: Studies in World Music
(cross-leveled with MUS_H_LI 7318). Advanced systematic study of musical activities in selected world cultures, with the emphasis on developing listening skills and understanding the role of music in a culture.

Credit Hours: 3
Prerequisites: Grade of C- or better in MUS_H_LI 2307 and MUS_H_LI 2308

MUS_H_LI 4318W: Studies in World Music - Writing Intensive
(cross-leveled with MUS_H_LI 7318). Advanced systematic study of musical activities in selected world cultures, with the emphasis on developing listening skills and understanding the role of music in a culture.

Credit Hours: 3
Prerequisites: Grade of C- or better in MUS_H_LI 2307 and MUS_H_LI 2308

MUS_H_LI 4320W: Historical Studies in African-American Music - Writing Intensive
(cross-leveled with MUS_H_LI 7320). Exploration of history and current scholarship in African-American music from the eighteenth to twenty-first centuries. Genres include folk music, religious music, blues, ragtime, jazz, musical theater, art music, R&B, funk, soul, disco, house, hip-hop and rap.

Credit Hours: 3
Prerequisites: Grade of C- or better in MUS_H_LI 2308 and Instructor's consent

MUS_H_LI 4330: Music of the Postmodern Era
(cross-leveled with MUS_H_LI 7330). Systematic study of fine-art musical practice from approximately 1945 to the present.

Credit Hours: 3
Prerequisites: Grade of C- or better in MUS_H_LI 2308 and instructor's consent

MUS_H_LI 4330W: Focal Composers
Systematic study of the works of landmark composers: J.S. Bach, Mozart, Beethoven, Verdi/Wagner, Debussy, or Stravinsky, studied in rotation. Repeatable for up to 6 hours or credit.

Credit Hours: 3
Prerequisites: Grade of C- or better in MUS_H_LI 2308 and instructor's consent

MUS_H_LI 4336: Music in the Baroque Era
(cross-leveled with MUS_H_LI 7336). Systematic study of European musical practice from approximately 1600 to 1750.

Credit Hours: 3

MUS_H_LI 4337: Music of the Classic Era
(cross-leveled with MUS_H_LI 7337). Systematic study of European musical practice from approximately 1750 to 1800.

Credit Hours: 3
Prerequisites: Grade of C- or better in MUS_H_LI 2308 and instructor's consent

MUS_H_LI 4337W: Music of the Classic Era - Writing Intensive
(cross-leveled with MUS_H_LI 7337). Systematic study of European musical practice from approximately 1750 to 1800.

Credit Hours: 3
Prerequisites: Grade of C- or better in MUS_H_LI 2308 and instructor's consent

MUS_H_LI 4338: Music of the Romantic Era
(cross-leveled with MUS_H_LI 7338). Systematic study of European musical practice from approximately 1800 to 1900.

Credit Hours: 3
Prerequisites: Grade of C- or better in MUS_H_LI 2308 and instructor's consent

MUS_H_LI 4338W: Music of the Romantic - Writing Intensive
(cross-leveled with MUS_H_LI 7338). Systematic study of European musical practice from approximately 1800 to 1900.

Credit Hours: 3
Prerequisites: Grade of C- or better in MUS_H_LI 2308 and instructor's consent

MUS_H_LI 4339: Music of the Modern Era
(cross-leveled with MUS_H_LI 7339). Systematic study of fine-art musical practice from approximately 1900 to the present.

Credit Hours: 3
Prerequisites: Grade of C- or better in MUS_H_LI 2308

MUS_H_LI 4340: Focal Composers
Systematic study of the works of landmark composers: J.S. Bach, Mozart, Beethoven, Verdi/Wagner, Debussy, or Stravinsky, studied in rotation. Repeatable for up to 6 hours or credit.

Credit Hours: 3
Prerequisites: Grade of C- or better in MUS_H_LI 2308 and instructor's consent

MUS_H_LI 4340W: Focal Composers - Writing Intensive
Systematic study of the works of landmark composers: J.S. Bach, Mozart, Beethoven, Verdi/Wagner, Debussy, or Stravinsky, studied in rotation. Repeatable for up to 6 hours or credit.

Credit Hours: 3
Prerequisites: Grade of C- or better in MUS_H_LI 2308 and instructor's consent
MUS_H_LI 4341: Advanced Studies in American Music
(cross-leveled with MUS_H_LI 7341). Systematic study of the diverse streams of musical practice in the United States from the colonial time to the present.

Credit Hours: 3
Prerequisites: Grade of C- or better in MUS_H_LI 2308 and instructor's consent

MUS_H_LI 4341W: Advanced Studies in American Music - Writing Intensive
(cross-leveled with MUS_H_LI 7341). Systematic study of the diverse streams of musical practice in the United States from the colonial time to the present.

Credit Hours: 3
Prerequisites: Grade of C- or better in MUS_H_LI 2308 and instructor's consent

MUS_H_LI 4342: Contemporary Issues in Musicology
(cross-leveled with MUS_H_LI 7342). Systematic study of single musicological problem of contemporary relevance.

Credit Hours: 3
Prerequisites: Grade of C- or better in MUS_H_LI 2308 and instructor's consent

MUS_H_LI 4342W: Contemporary Issues in Musicology - Writing Intensive
(cross-leveled with MUS_H_LI 7342). Systematic study of single musicological problem of contemporary relevance.

Credit Hours: 3
Prerequisites: Grade of C- or better in MUS_H_LI 2308 and instructor's consent

MUS_H_LI 4350: Introduction to Ethnomusicology
(cross-leveled with MUS_H_LI 7350). Study of theories, historical development, research methodologies, and practice of ethnomusicology, in an interdisciplinary approach. Topics include ethnographic research, oral and literate sources, transcription and analysis, critical analysis, and interpretative techniques.

Credit Hours: 3
Prerequisites: grade of C-or better in MUS_H_LI 2308; instructor's consent

MUS_H_LI 4350W: Introduction to Ethnomusicology - Writing Intensive
(cross-leveled with MUS_H_LI 7350). Study of theories, historical development, research methodologies, and practice of ethnomusicology, in an interdisciplinary approach. Topics include ethnographic research, oral and literate sources, transcription and analysis, critical analysis, and interpretative techniques.

Credit Hours: 3
Prerequisites: grade of C-or better in MUS_H_LI 2308; instructor's consent

MUS_H_LI 4352W: Historical Studies in African Music - Writing Intensive
(same as BL_STU 4352; cross-leveled with MUS_H_LI 7352). Ethnomusicological introduction to the music and culture of countries and ethnic groups in Africa. Traditional and contemporary popular styles are explored, and influences of Islamic invasions, missionary arrivals, colonial conquests, neo-colonial trends, and globalization.

Credit Hours: 3
Prerequisites: grade of C-or better in MUS_H_LI 2308; instructor's consent

MUS_H_LI 4376: American Musicals
(same as THEATR 4720). Historical survey of the development of the 20th-Century American Musical in Theatre and Film.

Credit Hours: 3

MUS_H_LI 4399: Graduate History Review
Review of history for graduate students. Does not fulfill graduate degree requirements. Graded on S/U basis only.

Credit Hours: 2
Prerequisites: instructor's consent

MUS_H_LI 7311: Historical Studies in Art Song
(cross-leveled with MUS_H_LI 4311). Advanced historical survey of works for solo voice and instruments.

Credit Hours: 3
Prerequisites: instructor's consent

MUS_H_LI 7312: Historical Studies in Choral Music
(cross-leveled with MUS_H_LI 4312). Advanced historical survey of works featuring choral ensembles.

Credit Hours: 3
Prerequisites: instructor's consent

MUS_H_LI 7313: Historical Studies in Opera
(cross-leveled with MUS_H_LI 4313). Advanced historical survey of opera.

Credit Hours: 3
Prerequisites: instructor's consent

MUS_H_LI 7315: Historical Studies in Chamber Music
(cross-leveled with MUS_H_LI 4315). Advanced historical survey of works for small ensembles, instrumental and vocal.

Credit Hours: 3
Prerequisites: instructor's consent

MUS_H_LI 7317: Historical Studies in Jazz and Popular Music
(cross-leveled with MUS_H_LI 4317). Advanced historical survey of works from the realm of American jazz and popular music.

Credit Hours: 3
Prerequisites: instructor's consent
MUS_H_LI 7318: Studies in World Music
(cross-leveled with MUS_H_LI 4318). Advanced systematic study of
musical activities in selected world cultures, with emphasis on developing
listening skills and understanding the role of music in a culture.
Credit Hours: 3
Prerequisites: instructor's consent

MUS_H_LI 7320: Historical Studies in African-American Music
(cross-leveled with MUS_H_LI 4320). Exploration of history and current
scholarship in African-American music from the eighteenth to the twenty-
first centuries. Genres include folk music, religious music, blues, ragtime,
jazz, musical theater, art music, R&B, funk, soul, disco, house, hip-hop
and rap.
Credit Hours: 3
Prerequisites: instructor's consent

MUS_H_LI 7330: Music of the PostModern Era
(cross-leveled with MUS_H_LI 4330). Systematic study of fine-art musical
practice from approximately 1945 to the present.
Credit Hours: 3
Prerequisites: Instructor's consent

MUS_H_LI 7336: Music in the Baroque Era
(cross-leveled with MUS_H_LI 4336). Advanced systematic study of
European musical practice from approximately 1600 to 1750.
Credit Hours: 3
Prerequisites: instructor's consent

MUS_H_LI 7337: Music of the Classic Era
(cross-leveled with MUS_H_LI 4337). Advanced systematic study of
European musical practice from approximately 1750 to 1800.
Credit Hours: 3
Prerequisites: instructor's consent

MUS_H_LI 7338: Music of the Romantic Era
(cross-leveled with MUS_H_LI 4338). Advanced systematic study of
European musical practice from approximately 1800 to 1900.
Credit Hours: 3
Prerequisites: instructor's consent

MUS_H_LI 7339: Music of the Modern Era
(cross-leveled with MUS_H_LI 4339). Advanced systematic study of fine-
art musical practice from approximately 1900 to the present.
Credit Hours: 3
Prerequisites: instructor's consent

MUS_H_LI 7341: Advanced Studies in American Music
(cross-leveled with MUS_H_LI 4341). Advanced systematic study of the
diverse streams of musical practice in the United States from the colonial
time to the present.
Credit Hours: 3
Prerequisites: instructor's consent

MUS_H_LI 7342: Contemporary Issues in Musicology
(cross-leveled with MUS_H_LI 4342). Advanced systematic study of
single musicological problem of contemporary relevance.
Credit Hours: 3
Prerequisites: instructor's consent

MUS_H_LI 7350: Introduction to Ethnomusicology
(cross-leveled with MUS_H_LI 4350). Study of theories, historical
development, research methodologies, and practice of ethnomusicology,
in an interdisciplinary approach. Topics include ethnographic research,
oral and literate sources, transcription and analysis, critical analysis, and
interpretative techniques.
Credit Hours: 3
Prerequisites: instructor's consent

MUS_H_LI 8313: Introduction to Graduate Study
Introduction to library procedures, basic sources of information in music
and techniques for research.
Credit Hours: 2
Prerequisites: instructor's consent

MUS_H_LI 8314: Introduction to Graduate Studies in Music II
The application of basic music bibliography, research techniques, and
conventions of music scholarship.
Credit Hour: 1
Prerequisites: MUS_H_LI 8313 or instructor's consent

MUS_H_LI 8340: Focal Composers
Advanced systematic study of the works of landmark composers: J.S.
Bach, Mozart, Beethoven, Verdi/Wagner, Debussy, or Stravinsky, studied
in rotation. Repeatable for up to 6 hours or credit.
Credit Hours: 3
Prerequisites: instructor's consent

Music-Music Theory Courses

MUS_THRY 1210: Introduction to Computer Technology and Music
Introduces Finale, music engraving and playback software, and
introduces sequencing and other software applications that may impact
students while they are in school and as professional musicians.
Credit Hours: 2

MUS_THRY 1213: Introduction to Music Theory
Introduction to music notation and to rhythmic, melodic, harmonic, and
structural elements of music. Emphasis on written skills, but ear training,
sight singing, and keyboard components included as well. Graded on A/F
basis only.
Credit Hours: 2
Prerequisites: consent required. Placement by exam

MUS_THRY 1220: Tonal Music Theory I
Review of fundamentals. Study of rhythm, melody, harmonic, structure
and stylistic characteristics of various periods. Application through original
composition projects. Prerequisites: none for Music majors; others:
instructor's consent.
MUS_THRY 1221: Tonal Music Theory II
Continuation of MUS_THRY 1220. Study of smaller forms and introduction to chromatic harmony.

Credit Hours: 2
Prerequisites: Grade of C- or better in MUS_THRY 1220

MUS_THRY 1230: Aural Training and Sight Singing I
Development of aural and sight singing skills.

Credit Hours: 2
Prerequisites: MUS_THRY 1220

MUS_THRY 1231: Aural Training and Sight Singing II
Continuation of MUS_THRY 1230.

Credit Hours: 2
Prerequisites: Grade of C- or better in MUS_THRY 1221

MUS_THRY 2215: Composition I
Fundamentals of composition and writing in small forms.

Credit Hours: 2
Prerequisites: grade of B- or better in MUS_THRY 1220, MUS_THRY 1221, MUS_THRY 1230, and instructor's consent

MUS_THRY 2216: Composition II
Continuation of MUS_THRY 2215.

Credit Hours: 2
Prerequisites: Grade of C- or better in MUS_THRY 2215

MUS_THRY 2220: Tonal Music Theory III
Chromatic harmony, variation techniques and contrapuntal genres. Study of traditional forms in instrumental, vocal and choral compositions. Applications through original composition projects.

Credit Hours: 2
Prerequisites: Grade of C- or better in MUS_THRY 1221

MUS_THRY 2221: Tonal Music Theory IV
Continued study of chromatic harmony and compositions in larger forms. Application through original composition projects.

Credit Hours: 2
Prerequisites: Grade of C- or better in MUS_THRY 2220

MUS_THRY 2230: Aural Training and Sight Singing III
Continuation of MUS_THRY 1231. Further development of aural and sight singing skills with an emphasis on chromatic harmony and decorative pitches. Introduction of structural perception.

Credit Hours: 2
Prerequisites: Grade of C- or better in MUS_THRY 1231 and MUS_THRY 2220 or MUS_THRY 2220 concurrently

MUS_THRY 2231: Aural Training and Sight Singing IV
Continuation MUS_THRY 2230.

Credit Hours: 2
Prerequisites: Grade of C- or better in MUS_THRY 2221

MUS_THRY 3215: Composition III
Further development of creative writing in traditional forms.

Credit Hours: 2
Prerequisites: Grade of C- or better in MUS_THRY 2221

MUS_THRY 3216: Composition IV
Continuation of MUS_THRY 3215.

Credit Hours: 2
Prerequisites: Grade of C- or better in MUS_THRY 3215

MUS_THRY 4210: Jazz Harmony and Arranging I (cross-leveled with MUS_THRY 7210). Study of basic melodic and harmonic materials commonly used in jazz. Application through arranging projects for small jazz groups.

Credit Hours: 2
Prerequisites: MUSIC_NM 1211 or MUS_THRY 1220; instructor's consent required

MUS_THRY 4211: Jazz Harmony and Arranging II (cross-leveled with MUS_THRY 7211). Continuation of MUS_THRY 4210. Study of advanced melodic and harmonic materials commonly used in jazz. Application through arranging projects for small and large jazz groups.

Credit Hours: 2
Prerequisites: MUS_THRY 4210; instructor's consent

MUS_THRY 4212: Jazz Theory I
Comprehensive study of the grammar and syntax of jazz harmony.

Credit Hour: 1
Prerequisites: Grade of C- or better in MUSIC_NM 1211 or MUS_THRY 1220

MUS_THRY 4215: Composition V
Writing of works in larger forms for a solo instrument or chamber ensemble.

Credit Hours: 2
Prerequisites: Grade of C- or better in MUS_THRY 3216

MUS_THRY 4216: Composition VI
Continuation of MUS_THRY 4215. May be repeated for additional credit.

Credit Hours: 2
Prerequisites: Grade of C- or better in MUS_THRY 4215

MUS_THRY 4220: Post-Tonal Music Theory (cross-leveled with MUS_THRY 7220). The study and application of analytical procedures in post-tonal music.

Credit Hours: 2
Prerequisites: Grade of C- or better in MUS_THRY 2221
MUS_THRY 4221: Analysis of Music
An analytical study of rhythmic, melodic, harmonic and structural aspects of 18th-, 19th- and 20th-century music.

Credit Hours: 2
Prerequisites: Grade of C- or better in MUS_THRY 2221 or equivalent

MUS_THRY 4223: Eighteenth-Century Counterpoint

Credit Hours: 3
Prerequisites: Grade of C- or better in MUS_THRY 2221

MUS_THRY 4225: Sixteenth-Century Counterpoint
(cross-leveled with MUS_THRY 7225). Analysis of contrapuntal procedures and representative compositions of 16th century. Emphasis on styles of Palestrina, Lassus and Victoria. Stylistic writing in two, three or more voices.

Credit Hours: 3
Prerequisites: Grade of C- or better in MUS_THRY 2221

MUS_THRY 4225W: Sixteenth-Century Counterpoint - Writing Intensive
(cross-leveled with MUS_THRY 7225). Analysis of contrapuntal procedures and representative compositions of 16th century. Emphasis on styles of Palestrina, Lassus and Victoria. Stylistic writing in two, three or more voices.

Credit Hours: 3
Prerequisites: Grade of C- or better in MUS_THRY 2221

MUS_THRY 4226: Instrumentation
(cross-leveled with MUS_THRY 7226). This course will provide students with the background to successfully write for all instruments of the orchestra and wind ensemble. Topics will include ranges, tessitura, and basic techniques. Central to the course will be writing projects for ensembles. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: MUS_THRY 2221

MUS_THRY 4227: Orchestration
(cross-leveled with MUS_THRY 7227). Study of orchestral instruments and the process of scoring for various orchestral combinations.

Credit Hours: 2
Prerequisites: Grade of C- or better in MUS_THRY 2221

MUS_THRY 4229: Band Arranging
Transcription, scoring of solo and ensemble literature for band instrument combinations of varying sizes up to and including concert band.

Credit Hours: 2
Prerequisites: Grade of C- or better in MUS_THRY 2221

MUS_THRY 4230: Choral Arranging
Transcription and arrangement of music suitable for performance by various vocal ensembles.

Credit Hours: 2
Prerequisites: Grade of C- or better in MUS_THRY 2221

MUS_THRY 4231: Schenkerian Analysis
Techniques of musical analysis developed by Heinrich Schenker.

Credit Hours: 3
Prerequisites: Grade of C- or better in MUS_THRY 2221

MUS_THRY 4232: Rhythmic Analysis of Tonal Music
Introduction to rhythmic analysis, including context of current thinking, basic concepts, various approaches, selected topics, performance issues, and particular problems.

Credit Hours: 3
Prerequisites: Grade of C- or better in MUS_THRY 2221

MUS_THRY 4241: Advanced Schenkerian Analysis
(cross-leveled with MUS_THRY 7241). Continuation of MUS_THRY 4231, with a focus on the analysis of complete works, including larger forms.

Credit Hours: 3
Prerequisites: Grade of C-minus or better in MUS_THRY 4231, or equivalent at another institution

MUS_THRY 4245: Introduction to Electronic Music
(cross-leveled with MUS_THRY 7245). Techniques used in the creation of music with tape recorders, voltage-controlled synthesizers and electronics.

Credit Hours: 2
Prerequisites: Grade of C- or better in MUS_THRY 4220

MUS_THRY 4247: Introduction to Digital Synthesis
Introduction to the techniques of digital synthesis, including the study of programming, and Musical Instrument Digital Interfacing.

Credit Hours: 2
Prerequisites: instructor's consent

MUS_THRY 4250: Analysis of Musical Styles
(cross-leveled with MUS_THRY 7250). Analytical study of specific rhythmic, melodic, harmonic, and structural factors which constitute the stylistic practices of a specific period or composer. May be repeated for credit with departmental consent.

Credit Hours: 2
Prerequisites: Grade of C- or better in MUS_THRY 2221

MUS_THRY 4252: Keyboard Harmony and Score Reading
(cross-leveled with MUS_THRY 7252). Study of idiomatic chord progressions and harmonization strategies at the keyboard, including figured bass, score reading, and score playing. Skills are reinforce by analysis, both at sight and prepared.

Credit Hours: 3
Prerequisites: Grade of C- or better in MUS_THRY 2221; instructor's consent

MUS_THRY 4271: Pedagogy of Music Theory I
Techniques and materials for teaching basic music theory courses for high schools and colleges.
Credit Hours: 2
Prerequisites: Grade of C- or better in MUS_THRY 2221

MUS_THRY 4284: Contemporary Analytical Techniques
Study and application of various analytical systems for 20th century compositions. Analysis of music employing contemporary theories.
Credit Hours: 2
Prerequisites: Grade of C- or better in MUS_THRY 2221

MUS_THRY 4290: Music Composition Seminar
(cross-leveled with MUS_THRY 7290). A venue for student, faculty, and guest composers to actively exchange thoughts and ideas about the music of today. Through lectures, presentations, attendance of New Music Initiative events, and reading assignments pertaining to topics in new music, this course will give students a greater understanding of what it means to be a composer writing in our time by discussing issues raised from their experiences inside and outside of class. Graded on S/U basis only. Corequisites: Students enrolled in one of the following: MUS_THRY 2215, MUS_THRY 2216, MUS_THRY 3215, MUS_THRY 3216, MUS_THRY 4215, MUS_THRY 4216 or consent.
Credit Hour: 1

MUS_THRY 4299: Graduate Theory Review
Review of music theory for graduate students in music. Does not fulfill graduate degree requirements. Graded on S/U basis only.
Credit Hours: 2
Prerequisites: instructor's consent

MUS_THRY 7210: Advanced Jazz Harmony and Arranging I
(cross-leveled with MUS_THRY 4210). Study of basic melodic and harmonic materials commonly used in jazz. Application through arranging projects for small jazz groups.
Credit Hours: 2
Prerequisites: instructor's consent

MUS_THRY 7211: Advanced Jazz Harmony and Arranging II
(cross-leveled with MUS_THRY 4211). Continuation of MUS_THRY 7210. Study of advanced melodic and harmonic materials commonly used in jazz. Application through arranging projects for small and large groups.
Credit Hours: 2
Prerequisites: instructor's consent

MUS_THRY 7215: Composition I
Fundamentals of Composition: Writing in small forms. For non-composition graduate students in music.
Credit Hours: 2
Prerequisites: instructor's consent

MUS_THRY 7216: Composition II
Continuation of MUS_THRY 7215.
Credit Hours: 2
Prerequisites: MUS_THRY 7215

MUS_THRY 7220: Post-Tonal Music Theory
(cross-leveled with MUS_THRY 4220). Graduate review in the study and application of analytical procedures to 20th century music literature. Special readings; individual projects. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: instructor's consent

MUS_THRY 7221: Analysis of Music
Graduate review in the analytical study of rhythmic, melodic, harmonic and structural aspects of 18th-, 19th- and 20th-century music.
Credit Hours: 2
Prerequisites: instructor's consent

MUS_THRY 7223: Eighteenth-Century Counterpoint
(cross-leveled with MUS_THRY 4223). Advanced study of contrapuntal procedures and representative works of the eighteenth century. Emphasis on compositions and style of Johann Sebastian Bach. Original composition projects: canon, invention, and fugue. Prerequisites: instructor's consent
Credit Hours: 3

MUS_THRY 7225: Sixteenth-Century Counterpoint
(cross-leveled with MUS_THRY 4225). Advanced analysis of contrapuntal procedures and representative compositions of 16th century. Emphasis on styles of Palestrina, Lassus and Victoria. Stylistic writing in two, three or more voices.
Credit Hours: 3
Prerequisites: instructor's consent

MUS_THRY 7226: Instrumentation
(cross-leveled with MUS_THRY 4226). This course will provide students with the background to successfully write for all instruments of the orchestra and wind ensemble. Topics will include ranges, tessitura, and basic techniques. Central to the course will be writing projects for ensembles. Graded on A-F basis only.
Credit Hours: 2
Prerequisites: MUS_THRY 2230 or the equivalent

MUS_THRY 7227: Advanced Orchestration
(cross-leveled with MUS_THRY 4227). Study of orchestral instruments and the process of scoring for various orchestral combinations.
Credit Hours: 2
Prerequisites: instructor's consent

MUS_THRY 7229: Band Arranging
Advanced transcription, scoring of solo and ensemble literature for band instrument combinations of varying sizes up to and including concert band.
MUS_THRY 7230: Choral Arranging
Advanced transcription and arrangement of music suitable for performance by various vocal ensembles.
Credit Hours: 2
Prerequisites: instructor's consent

MUS_THRY 7231: Schenkerian Analysis
Advanced techniques of musical analysis developed by Heinrich Schenker.
Credit Hours: 3
Prerequisites: instructor's consent

MUS_THRY 7232: Rhythmic Analysis of Tonal Music
Advanced study of rhythmic analysis, including context of current thinking, basic concepts, various approaches, selected topics, performance issues, and particular problems.
Credit Hours: 3
Prerequisites: instructor's consent

MUS_THRY 7241: Advanced Schenkerian Analysis
(cross-leveled with MUS_THRY 4241). Continuation of MUS_THRY 7231, with a focus on the analysis of complete works, including larger forms.
Credit Hours: 3
Prerequisites: Grade of C-minus or better in MUS_THRY 4231 or MUS_THRY 7231, or equivalent at another institution

MUS_THRY 7245: Introduction to Electronic Music
(cross-leveled with MUS_THRY 7245). Advanced techniques used in the creation of music with tape recorders, voltage-controlled synthesizers and electronics.
Credit Hours: 2
Prerequisites: instructor's consent

MUS_THRY 7247: Introduction to Digital Synthesis
Graduate-level introduction to the techniques of digital synthesis, including the study of programming, and Musical Instrument Digital Interfacing.
Credit Hours: 2
Prerequisites: instructor's consent

MUS_THRY 7250: Analysis of Musical Styles
(cross-leveled with MUS_THRY 4250). Advanced analytical study of specific rhythmic, melodic, harmonic, and structural factors which constitute the stylistic practices of a specific period or composer. May be repeated for credit with departmental consent. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: instructor's consent

MUS_THRY 7252: Keyboard Harmony and Score Reading
(cross-leveled with MUS_THRY 4252). Study of idiomatic chord progressions and harmonization strategies at the keyboard, including figured bass, score reading, and score playing. Skills are reinforce by analysis, both at sight and prepared.
Credit Hours: 3
Prerequisites: demonstrable keyboard proficiency at level of Bach invention; instructor's consent

MUS_THRY 7271: Pedagogy of Music Theory I
Advanced techniques and materials for teaching basic music theory courses for high schools and colleges.
Credit Hours: 2
Prerequisites: instructor's consent

MUS_THRY 7290: Music Composition Seminar
(cross-leveled with MUS_THRY 4290). A venue for student, faculty, and guest composers to actively exchange thoughts and ideas about the music of today. Through lectures, presentations, attendance of New Music Initiative events, and reading assignments pertaining to topics in new music, this course will give students a greater understanding of what it means to be a composer writing in our time by discussing issues raised from their experiences inside and outside of class. Graded on S/U basis only. Corequisites: Enrollment in one of the following: MUS_THRY 7215, MUS_THRY 7216, MUS_THRY 8215, MUS_GENL 8090 or consent.
Credit Hour: 1

MUS_THRY 8215: Composition VII
Intensive work in larger forms. Seminar, private lessons. May be repeated for credit with departmental consent.
Credit Hours: 2
Prerequisites: instructor's consent

Natural Resources Courses

NAT_R 1040: Conservation Studies
A one-week field experience in natural resource management issues—soil and water conservation, air pollution, fish and wildlife habitat requirements, importance of forest ecosystems. Limited to high school students who have completed their junior year and taken the PSAT or equivalent. Graded on S/U basis only.
Credit Hour: 1

NAT_R 1060: Ecology and Conservation of Natural Resources
Introduction to the principles of resource and conservation describing the foundation of the variety of natural resources and conservation practices used to protect and maintain these resources.
Credit Hours: 3

NAT_R 1070: Ecology and Renewable Resource Management
Introduction to ecological principles and their relationship to resource use and management.
Credit Hours: 3
Prerequisites: restricted to Natural Resources majors
NAT_R 2002: Topics in Natural Resources - Biological
Organized study of selected topics. Subjects and credit may vary from semester to semester.

Credit Hour: 1-99

NAT_R 2080: Outdoor Recreation Consortium
Outdoor Recreation Consortium is a collaborative course taught by MU, North Carolina State University, Penn State University, East Carolina University, Texas A&M University and Western Illinois University. The course uses Great Smoky Mountains National Park as a case study for understanding the relationship between ecosystem management, natural resource management, tourism, and outdoor recreation. This course is based around a one week trip to the Smokies. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: NAT_R 1070 or PRST 2111 or ENV_SC 1100 and permission of instructor

NAT_R 2160: Issues in Natural Resources and the Environment
This course provides an introduction to ecological and environmental challenges in natural resource management in our rapidly changing world. Topical discussions will provide students with informed perspectives of several contemporary issues that affect the sustainability of our natural resources.

Credit Hours: 3
Recommended: This course is recommended as an introductory course for non-science majors

NAT_R 2325: Introduction to Geographic Information Systems
Cover basic theories and techniques of GIS, including vector and raster data representation, vector data digitizing, attribute data input, map projection, layout database manipulation, terrain analysis and spatial interpolation.

Credit Hours: 3
Prerequisites: NAT_R 1070 or instructor's consent

NAT_R 3110: Natural Resource Biometrics
Sampling methods and analysis as applied to a variety of natural resources, including fisheries, range, recreation, forests, water and wildlife.

Credit Hours: 3
Recommended: STAT 2500 or equivalent

NAT_R 3290: Hydrologic Measurement Techniques
Students will be introduced to field methods and tools used by water resource and environmental science professionals. Students will sample and measure hydrologic and environmental variables, learn about data storage systems, and access and analyze data. Course may be repeated for credit. Graded on A-F basis only.

Credit Hour: 1
Prerequisites: MATH 1100 or permission of instructor

NAT_R 3290W: Hydrologic Measurement Techniques - Writing Intensive
Students will be introduced to field methods and tools used by water resource and environmental science professionals. Students will sample and measure hydrologic and environmental variables, learn about data storage systems, and access and analyze data. Course may be repeated for credit. Graded on A-F basis only.

Credit Hour: 1
Prerequisites: MATH 1100 or permission of instructor

NAT_R 3400: Water Quality and Natural Resource Management
(same as ENV_SC 3400). Introduction to broad aspects of water quality, science, management, and policy. Topics include aquatic ecology, eutrophication, lake and coastal management, water supply and treatment, watershed management with respect to agriculture and urban development, and toxicology. Graded on A-F basis only.

Credit Hours: 3
Recommended: CHEM 1320 and ENV_SC 1100 or NAT_R 1070

NAT_R 4001: Topics in Natural Resources
Organized study of selected topics. Subjects may vary from semester to semester.

Credit Hour: 1-99

NAT_R 4024: Foundations of Environmental Education
(same as ENV_SC 4024; cross-leveled with NAT_R 7024). This course provides a theoretical foundation to environmental education (EE). The purpose of this course is to develop the knowledge and skills for developing quality, age-appropriate EE for students in both formal and non-formal education setting. The emphasis is on EE curriculum materials, resources, and programs that can be used with students in settings at classrooms, nature centers, museums, and parks. This course involves training in the Missouri Department of Conservation Discover Nature School educational materials, and in observing and teaching EE lessons in a local nature center. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: BIO_SC 1010 or ENV_SC 1100 or NAT_R 1060 or NAT_R 1070 or NAT_R 2160 or Instructor's consent

NAT_R 4100: Lake Ecology
(same as ENV_SC 4100; cross-leveled with NAT_R 7100). Ecology of inland waters with emphasis on productivity. Graded on A-F basis only.

Credit Hours: 3
Recommended: senior standing or BIO_SC 3650

NAT_R 4300: Methods in Aquatic Ecology
(same as ENV_SC 4300; cross-leveled with ENV_SC 7300, NAT_R 7300). Methods used for quantitative assessment of water quality and quantity in inland waters. Graded on A-F basis only.

Credit Hours: 3
Recommended: Senior standing or BIO_SC 3650 and ENV_SC 4100 or NAT_R 4100 or NAT_R 4200 or FOREST 4390 or NAT_R 3400

NAT_R 4353: Natural Resource Policy/Administration
This course examines law, policy, and administration related to public lands and natural resources in the United States. The focus of this course is U.S. federal decision-making; we will also discuss Missouri state-level processes and selected topics in international environmental governance. Substantive policy areas addressed by this course include: public
lands, wildlife and fisheries, water resources, forests, and energy and mineral resources. This course uses case studies to illustrate historical and contemporary natural resource management challenges. It also addresses topics on governance such as public participation, the role of lobbyists, campaign finance, and the use of technology to improve policy-making. This course will use a variety of teaching methods, including lecture and classroom discussion, guest speakers, map quizzes, and a natural resources book club.

**Credit Hours:** 3  
**Prerequisites:** senior standing or instructor's consent

---

**NAT_R 4365: GIS Applications**  
Introduces logical thinking and techniques in applying GIS to practical problems. Covers general GIS functionalities, Arc View Spatial Analyst including georeference, terrain analysis, hydrological analysis, grid, and remote sensing image processing.

**Credit Hours:** 3  
**Prerequisites:** GEOG 3040 or NAT_R 2325

---

**NAT_R 4385: Landscape Ecology and GIS Analysis I**  
(same as GEOG 4810). Examination of the landscape-scale approach to biodiversity, ecosystem dynamics, and habitat management. Particular emphasis on the use of Geographic Information Systems to analyze the spatial dimension of ecological patterns and processes.

**Credit Hours:** 3  
**Prerequisites:** GEOG 3040 or NAT_R 2325

---

**NAT_R 7001: Topics in Natural Resources**  
Organized study of selected topics. Subjects may vary from semester to semester.

**Credit Hour:** 1-99

---

**NAT_R 7024: Foundations of Environmental Education**  
(cross-leveled with NAT_R 4024, ENV_SC 4024). This course provides a theoretical foundation to environmental education (EE). The purpose of this course is to develop the knowledge and skills for developing quality, age-appropriate EE for students in both formal and non-formal education settings. The emphasis is on EE curriculum materials, resources, and programs that can be used with students in settings at classrooms, nature centers, museums, and parks. This course involves training in the Missouri Department of Conservation Discover Nature School educational materials, and in observing and teaching EE lessons in a local nature center. Graded on A-F basis only.

**Credit Hours:** 3

---

**NAT_R 7100: Lake Ecology**  
(same as ENV_SC 7100; cross-leveled with ENV_SC 4100 and NAT_R 4100). Ecology of inland waters with emphasis on productivity. Graded on A-F basis only.

**Credit Hours:** 3  
**Recommended:** BIO_SC 3650

---

**NAT_R 7300: Methods in Aquatic Ecology**  
(same as ENV_SC 7300; cross-leveled with NAT_R 4300, ENV_SC 4300). Methods used for quantitative assessment of water quality and quantity in inland waters. Graded on A-F basis only.

**Credit Hours:** 3  
**Recommended:** senior standing or BIO_SC 3650. ENV_SC/NAT_R 4100 OR 3400 OR FOR 4390

---

**NAT_R 7353: Natural Resource Policy/Administration**  
(cross-leveled with NAT_R 4353). This course examines law, policy, and administration related to public lands and natural resources in the United States. The focus of this course is U.S. federal decision-making; we will also discuss Missouri state-level processes and selected topics in international environmental governance. Substantive policy areas addressed by this course include: public lands, wildlife and fisheries, water resources, forests, and energy and mineral resources. This course uses case studies to illustrate historical and contemporary natural resource management challenges. It also addresses topics on governance such as public participation, the role of lobbyists, campaign finance, and the use of technology to improve policy-making. This course will use a variety of teaching methods, including lecture and classroom discussion, guest speakers, map quizzes, and a natural resources book club.

**Credit Hours:** 3  
**Prerequisites:** instructor's consent

---

**NAT_R 7365: GIS Applications**  
Introduces logical thinking and techniques in applying GIS to practical problems. Cover general GIS functionalities, Arc View Spatial Analyst including georeference, terrain analysis, hydrological analysis, grid, and remote sensing image processing.

**Credit Hours:** 3  
**Prerequisites:** GEOG 3040, NAT_R 1080 and NAT_R 1090, or instructor's consent

---

**NAT_R 8001: Topics in Natural Resources**  
Organized study of selected topics. Subjects may vary from semester to semester.

**Credit Hour:** 1-99

---

**NAT_R 8024: Program Development and Evaluation in Informal Settings**  
This advanced level course focuses on designing, conducting, and analyzing quantitative educational research data and evaluation studies that measure the impact and effectiveness of environmental education and/or STEM education programs. Applied statistics in educational research will be taught. Evaluation is a set of approaches and techniques used to make judgments about the effectiveness or quality of a program or treatment; to inform decisions about its design, development, and implementation. This course provides theoretical background and techniques of program development and evaluation. This course will practice using qualitative and quantitative data for data analysis and manuscript writing. This is designed for those who will be working in leadership or supervisory capacities to gain skills in conducting needs assessments, designing programs, and conducting formative and summative evaluations of these programs for citizen science, inquiry-based learning, place-based program, students-centered, science
outreach program, and nature explore study programs. By the end of the semester, students will have a ready-to-submit manuscript completed. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Instructor's consent

NAT_R 8395: Landscape Ecology and GIS Analysis II
(same as GEOG 8815). Provide students with principles and applications of landscape ecology and firm understandings of spatial analysis techniques using GIS. Discuss metrics for spatial pattern and models for landscape-scale dynamics.

Credit Hours: 3
Prerequisites: NAT_R 4365; FOREST 4320 or equivalent; basic statistics; instructor's consent
Recommended: GEOG 4810 or GEOG 7810

NAT_R 8450: Advanced Limnology
This graduate course will cover the physical, chemical, and biological processes of lakes and streams emphasizing biological production, water quality, and emerging issues. This seminar-style graduate course will familiarize students with the limnological literature. Students will learn how to critically read, interpret, and evaluate journal publications. They will learn the publication process from beginning to end with the opportunity to provide perspectives and assessments of emerging manuscripts in the limnological field. Graded on A-F basis only.

Credit Hours: 3
Recommended: NAT_R 4100 or NAT_R 7100

NAT_R 8500: Qualitative Research
Introduces students to qualitative field research from design, data collection, analysis, reporting, and peer-reviewed publication. Readings emphasize qualitative methods in a variety of social and behavioral sciences to address environmental problems.

Credit Hours: 3
Recommended: PRST 8430

NAT_R 8860: International Comparative Rural Policy
(same as PUB_AF 8860. AAE 8860). Compares the rural policy objectives and implementation strategies of various countries, and assesses these policies in terms of economic, social, environmental outcomes and their implications for international relations. Includes 2-weeks of study Abroad. May be repeated for credit. Graded on A-F basis only.

Credit Hours: 3

NAT_R 9001: Topics in Natural Resources
Organized study of selected topics. Subjects and topics may vary from semester to semester. Graded on S/U basis only.

Credit Hour: 1-10
Prerequisites: instructor's consent. Restricted to School of Natural Resources Graduate Students

NAT_R 9090: Dissertation Research in Natural Resources
Research leading to a dissertation and Ph.D. in the School of Natural Resources. Graded on S/U basis only.

Credit Hour: 1-10
Prerequisites: Restricted to PhD students in the School of Natural Resources

NAT_R 9490: Ecohydrology: Contemporary Topics
A series of discussions centered on primary literature within disciplines relevant to the participants. All Natural Resources disciplines are encouraged to participate (e.g., ecology, wildlife, fisheries, recreation/tourism, hydrology, atmospheric sciences, soils, etc.) with emphasis on interdisciplinary research (i.e. integrated natural, social and/or physical scientific research). May be repeated for credit. Graded on A-F basis only.
Credit Hour: 1

Naval Science Courses

NAVY 1100: Introduction to Naval Science
This course serves as an introduction to the organization of the Naval Service, the varied career opportunities available, the long held customs and traditions of the service, and the duties of a Junior Officer.
Credit Hours: 3

NAVY 1200: Seapower and Maritime Affairs
Seminars examine the application of seapower as an instrument of foreign policy by the major nations of the world. Emphasis placed on role of the Navy.
Credit Hours: 3

NAVY 2110: Naval Ship Systems I
Ship construction, stability and damage control, basic thermodynamics, the steam cycle and engineering plant, including introduction to gas turbine, diesel and nuclear powered systems.
Credit Hours: 3

NAVY 2130: Evolution of Warfare
Evolution of strategy, tactics, weapons and leadership from earliest beginning through the Vietnam period. Development of military policy, the impact of warfare on the political, social and economic structure of nations.
Credit Hours: 3

NAVY 2210: Naval Ship Systems II
Naval weapons systems, their employment and control, including the basic fire control problem, with emphasis on new systems.
Credit Hours: 3

NAVY 3120: Marine Navigation
Theoretical and practical application of the principles of marine navigation. Includes fundamentals of dead reckoning, piloting, tides and current, celestial navigation, electronic navigation.
Credit Hours: 3

NAVY 3140: Leadership and Management
This course will provide a basic understanding of the interrelationship between authority, responsibility and accountability within a task oriented organization. Students will learn to apply leadership and management skills to prioritize competing demands and to attain mission objectives; the importance of planning and follow-up; and develop a basic understanding of communication and counseling as it pertains to personnel management.

NAVY 3220: Naval Operations
Principles and concepts of naval operations: rules of the road, command and control in naval operations, communications, ASW warfare, international maritime law, and practical solution of relative motion problems.
Credit Hours: 3

NAVY 3230: Fundamentals of Maneuver Warfare
This course prepares future military officers and other leaders for service by studying modern tactical principles, current military developments, and other aspects of warfare and their interactions with and influences on maneuver warfare doctrine. There is a specific focus on the United States Marine Corps as the premier maneuver warfighting organization. Study also includes historical influences on tactical, operational, and strategic levels of maneuver warfare practices in the current and future operating environments. Graded on A-F basis only.
Credit Hours: 3

NAVY 4940: Leadership and Ethics
(same as PEA_ST 4940). The curriculum provides a foundation in leadership, ethical decision making, the Law of Armed Conflict and the military justice system. Course explores ethical theories and helps students to build an ethical framework for decision making. Topic areas include: Kant, Utilitarianism, Stoicism, Constitutional Paradigm, Uniform Code of Military Justice and Law of Armed Conflict. Designed as a capstone course for juniors and seniors enrolled in NROTC it is open to all MU students.
Credit Hours: 3

NAVY 4940W: Leadership and Ethics - Writing Intensive
(same as PEA_ST 4940). The curriculum provides a foundation in leadership, ethical decision making, the Law of Armed Conflict and the military justice system. Course explores ethical theories and helps students to build an ethical framework for decision making. Topic areas include: Kant, Utilitarianism, Stoicism, Constitutional Paradigm, Uniform Code of Military Justice and Law of Armed Conflict. Designed as a capstone course for juniors and seniors enrolled in NROTC it is open to all MU students.
Credit Hours: 3

Prerequisites: junior standing required
Neurology Courses

NEUROL 6003: Neurology Clerkship
Students see patients with neurological disorders in the outpatient clinics, in hospital settings, and on consultation services.
Credit Hours: 4

NEUROL 6013: Rural Neurology Clerkship
Rural Neurology Clerkship
Credit Hours: 4

NEUROL 6023: Springfield Neurology Clerkship
Students see patients with neurological disorders in the outpatient clinics, in hospital settings, and on consultation services.
Credit Hours: 4
Prerequisites: successful completion of the first two years of medical school

NEUROL 6103: Remediation Neurology Clerkship
Enrolled students are those who received an unsatisfactory grade in a Child Health Clerkship at any Mizzou Med location or site. This course gives the student an opportunity to rectify their deficiency.
Credit Hours: 4
Prerequisites: NEUROL 6003 Neurology Clerkship, received unsatisfactory grade

NEUROL 6123: Remediation Springfield Neurology Clerkship
Students see patients with neurological disorders in the outpatient clinics, in hospital settings, and on consultation services.
Credit Hours: 4
Prerequisites: successful completion of the first two years of medical school

NEUROL 6303: ABS Neurology Research
ABS Neurology Research
Credit Hours: 5

NEUROL 6845: Neurology
Neurology
Credit Hours: 5

NEUROL 6850: Advanced Neurology
Advanced Neurology
Credit Hours: 5

NEUROL 6923: Neuromuscular Disorders
One week will be spent in the outpatient unit and one inpatient. The inpatient experience will consist of rounding on neuromuscular patients and being an integral part of patient care. A significant portion of the experience will be spent in Electromyography (EMG). During the outpatient experience, the student will rotate with one of three neuromuscular specialists and participate in patient care, and participate in MDA clinic.
Credit Hours: 2
Prerequisites: successful completion of the first two years of medical school

Nuclear Engineering Courses

NU_ENG 2201: Topics in Nuclear Engineering
Current and new developments in nuclear engineering.
Credit Hours: 3
Prerequisites: sophomore standing; PHYSCS 1210 and PHYSCS 1220 and MATH 1100 or MATH 1120 or instructor's consent

NU_ENG 2303: Harnessing the Atoms in Everyday Life: Fulfill M Curie's Dream
Introduction to applications of nuclear science and technology, utilizing web-based learning scenarios.
Credit Hours: 3

NU_ENG 4001: Topics in Nuclear Engineering
Current and new developments in nuclear engineering. May be repeated for credit.
Credit Hour: 2-5
Prerequisites: instructor's consent

NU_ENG 4303: Radiation Safety
(same as RA_SCI 4303) Types and origins of radiation; radiation detection and measurement; radiation interactions; shielding; dose calculations; federal, state and local regulations; and procedures for safe uses of radiation. Laboratory experiments in radiation measurements and protection.
Credit Hours: 3
Prerequisites: college physics, calculus based

NU_ENG 4315: Energy Systems and Resources
(same as ECE 4020, MAE 4371; cross-leveled with ECE 7020, NU_ENG 7315, MAE 7371). Analysis of present energy usage in Missouri, USA and the world, evaluation of emerging energy technologies and trends for the future. Economics and environmental impact of the developed technologies. Prerequisites: C- or better in ENGINR 2300
Credit Hours: 3
Prerequisites: ENGINR 2300 or equivalent
NU_ENG 4319: Physics and Chemistry of Materials
(same as PHYSCS 4190, BIOL_EN 4480, CHEM 4490, BME 4480; cross-leveled with NU_ENG 7319, PHYSCS 7190, BIOL_EN 7480, CHEM 7490). Physics and Chemistry of Materials is a 3 credit hours course offered every spring semester for students from Physics, Chemistry, Engineering and Medical Departments and consists of lectures, laboratory demonstrations, two mid-term and one final exam. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: PHYSCS 2750, CHEM 1320 or equivalent, or instructor's consent

NU_ENG 4328: Introductory Radiation Biology
(same as BIO_SC 4328, RADIOL 4328; cross-leveled with BIO_SC 7328, RADIOL 7328, V_M_S 7328). Concepts of ionizing radiations, their actions on matter through effects on simple chemical systems, biological molecules, cell, organisms, man.
Credit Hours: 3
Prerequisites: junior standing, Sciences/Engineering; one course in Biological Sciences and Physics/Chemistry; or instructor's consent

NU_ENG 4330: Science and Technology of Terrorism and Counter Terrorism
(same as PEA_ST 4330; cross-leveled with NU_ENG 7330). Terrorism has been a familiar tool of political conflict, and it has assumed greater importance during the past twenty years. This subject has been treated by political scientists in various forms, but the scientific and technological aspects of different forms of terrorism cannot be found in a single place. It is important for persons who propose counter measures to understand the basics of different types of terrorism such as for instance the nature of chemical agents, their properties such as toxicity, etc. in order to build better defense systems.
Credit Hours: 3

NU_ENG 4331: Nonproliferation Issues for Weapons of Mass Destruction
(cross-leveled with NU_ENG 7331). Nonproliferation and impact on technology and world events.
Credit Hours: 3
Prerequisites: junior/senior standing or instructor's consent. May be repeated for credit

NU_ENG 4331W: Nonproliferation Issues for Weapons of Mass Destruction - Writing Intensive
Nonproliferation and impact on technology and world events.
Credit Hours: 3
Prerequisites: junior/senior standing or instructor's consent. May be repeated for credit

NU_ENG 4346: Introduction to Nuclear Reactor Engineering I
(same as ECE 4030; cross-leveled with NU_ENG 7346, ECE 7030). Engineering principles of nuclear power systems, primarily for the production of electrical energy.
Credit Hours: 3
Prerequisites: ENGINR 1200, ENGINR 2300 or equivalent

NU_ENG 4369: Principles of Direct Energy Conversion
(cross-leveled with NU_ENG 7369). Principles and utilization of thermoelectric, thermionic, photovoltaic, magnetohydrodynamic generators and fuel cells.
Credit Hours: 3
Prerequisites: ENGINR 2300, MAE 3400, or equivalent

NU_ENG 4375: Introduction to Plasmas
(same as ECE 4550; cross-leveled with NU_ENG 7375, ECE 7550). Equations of plasma physics, interaction of waves and plasmas; plasma sheaths and oscillations; measurements and applications.
Credit Hours: 3
Prerequisites: ECE 4930 or instructor's consent

NU_ENG 4391: Nuclear Radiation Detection
(cross-leveled with NU_ENG 7391). Principles and application of radiation detectors and analyzers: ionization, Geiger-Muller, proportional, liquid and solid scintillation, semiconductor, pulse height analyzers, coincidence circuits, data reduction, tracer applications, activation analysis. Lectures, laboratory.
Credit Hours: 3
Prerequisites: senior standing or instructor's consent

NU_ENG 7001: Topics in Nuclear Science and Engineering
Current and new developments in nuclear engineering.
Credit Hour: 2-5
Prerequisites: instructor's consent

NU_ENG 7080: Medical Ethics for Medical Physics
This course will start with an introduction into medical ethics then transitions into research procedures with humans and animals. This course will cover research ethics, professional conduct, authorship, publishing, and plagiarism.
Credit Hour: 1

NU_ENG 7085: Special Problems in Nuclear Science and Engineering
Special Problems in Nuclear Science and Engineering.
Credit Hour: 1-5

NU_ENG 7087: Seminar in Nuclear Science and Engineering
Reviews of investigations and projects of importance in nuclear engineering.
Credit Hour: 1

NU_ENG 7302: Safe Handling of Radioisotopes
Introduction of methods and procedures for safe handling of radioisotopes in the research laboratory. Intensive lecture and laboratory training sessions designed for persons planning to use radioisotopes at the University.
Credit Hour: 1
Prerequisites: instructor's consent
NU_ENG 7303: Radiation Safety
(same as RA_SCI 7303; cross-leveled with NU_ENG 4303). Types and origins of radiation; radiation detection and measurement; radiation interactions; shielding; dose calculations; federal, state and local regulations; and procedures for safe uses of radiation. Laboratory experiments in radiation measurements and protection.

Credit Hours: 3
Prerequisites: college physics, calculus based

NU_ENG 7306: Advanced Engineering Math
(cross-leveled with NU_ENG 7306). Applies ordinary and partial differential equations to engineering problems; Fourier’s series; determinants and matrices; Laplace transforms; analog computer techniques.

Credit Hours: 3
Prerequisites: MATH 4100

NU_ENG 7313: Nuclear Science for Engineering for Secondary Science Teachers
This one-week course is for high school science and math teachers, and provides basic of nuclear scheme concepts and their applications, types of radiation (including radiation detection and protection), and industrial, medical and nuclear power generation application.

Credit Hours: 3
Prerequisites: instructor’s consent; actively engaged in STEM teaching at the secondary level

NU_ENG 7315: Energy Systems and Resources
(same as ECE 7020, MAE 7371; cross-leveled with ECE 4020, MAE 4371, NU_ENG 4315). Analysis of present energy usage in Missouri, USA and the world, evaluation of emerging energy technologies and trends for the future. Economics and environmental impact of the developed technologies.

Credit Hours: 3

NU_ENG 7319: Physics and Chemistry of Materials
(same as PHYSCS 7190, BIOL_EN 7480, CHEM 7490; cross-leveled with NU_ENG 4319, PHYSCS 4190, BIOL 4480, CHEM 4490, BME 4480). Physics and Chemistry of Materials is a 3 credit hours course offered every spring semester for students from Physics, Chemistry, Engineering and Medical Departments and consists of lectures, laboratory demonstrations, two mid-term and one final exam. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: PHYSCS 2750, CHEM 1320 or equivalent, or instructor’s consent

NU_ENG 7320: Natural Resources and Nuclear Energy
Not for engineering students. Lecture, demonstration; describes physical environment, energy, power plants, nuclear reactors; radioactivity, its biological effects; health physics measures, rad-waste disposal; nuclear safeguards, nuclear explosives, societal implications.

Credit Hours: 3
Prerequisites: high school algebra

NU_ENG 7328: Introductory Radiation Biology
(same as BIO_SC 7328, RADIOL 7328, and V_M_S 7328; cross-leveled with BIO_SC 4328, RADIOL 4328). Concepts of ionizing radiations, their actions on matter through effects on simple chemical systems, biological molecules, cell, organisms, man.

Credit Hours: 3
Prerequisites: Sciences/Engineering; one course in Biological Sciences and Physics/Chemistry; or instructor’s consent

NU_ENG 7330: Science and Technology of Terrorism and Counter Terrorism
(cross-leveled with NU_ENG 4330, PEA_ST 4330). Terrorism has been a familiar tool of political conflict, and it has assumed greater importance during the past twenty years. This subject has been treated by political scientists in various forms, but the scientific and technological aspects of different forms of terrorism cannot be found in a single place. It is important for persons who propose counter measures to understand the basics of different types of terrorism such as for instance the nature of chemical agents, their properties such as toxicity, etc. in order to build better defense systems.

Credit Hours: 3

NU_ENG 7331: Nonproliferation Issues for Weapons of Mass Destruction
(cross-leveled with NU_ENG 4331). Nonproliferation and impact on technology and world events.

Credit Hours: 3
Prerequisites: junior or senior standing or instructor's consent

NU_ENG 7335: Nuclear Safeguards Science and Technology
(same as ECE 7335). This course provides an overview of nuclear materials management and safeguards, including physical protection systems, material accounting and control, monitoring, and regulatory issues.

Credit Hours: 3

NU_ENG 7341: Nuclear Chemical Engineering
Principles and processes of importance in the field of nuclear technology.

Credit Hours: 3

NU_ENG 7346: Introduction to Nuclear Reactor Engineering I
(same as ECE 7030; cross-leveled with NU_ENG 4346, NU_ENG 4030). Engineering principles of nuclear power systems, primarily for the production of electrical energy.

Credit Hours: 3
Prerequisites: ENGINR 1200, ENGINR 2300 or equivalent

NU_ENG 7349: Nuclear Engineering Materials
Properties of materials for reactor components; radiation damage and corrosion; metallurgy of reactor materials.

Credit Hours: 3
Prerequisites: upper division or graduate standing in Physical Sciences or Engineering, or instructor's consent

NU_ENG 7353: Introduction to Fusion
Basic plasma physics, principles of thermonuclear fusion, plasma confinement and heating, and devices.
Credit Hours: 3
Prerequisites: graduate standing in Engineering or Science or instructor's consent

NU_ENG 7357: Nuclear Heat Transport
Credit Hours: 2
Prerequisites: NU_ENG 4305, NU_ENG 4346 or instructor's consent

NU_ENG 7365: Nuclear Power Engineering
(cross-leveled with NU_ENG 4365). Nuclear reactor heat generation and removal; nuclear reactor coolants; analysis of nuclear reactor power plants.
Credit Hours: 3
Prerequisites: ENGINR 2300

NU_ENG 7369: Principles of Direct Energy Conversion
(cross-leveled with NU_ENG 4369). Principles and utilization of thermoelectric, thermionic, photovoltaic, magnetohydrodynamic generators and fuel cells.
Credit Hours: 3
Prerequisites: ENGINR 2300, MAE 3400, or equivalent

NU_ENG 7375: Introduction to Plasmas
(same as ECE 7550; cross-leveled with NU_ENG 4375, ECE 4550). Equations of plasma physics, interaction of waves and plasmas; plasma sheaths and oscillations; measurements and applications.
Credit Hours: 3
Prerequisites: ECE 4930 or instructor's consent

NU_ENG 7391: Nuclear Radiation Detection
(cross-leveled with NU_ENG 4391). Principles and application of radiation detectors and analyzers: ionization, Geiger-Müller, proportional, liquid and solid scintillation, semiconductor, pulse height analyzers, coincidence circuits, data reduction, tracer applications, activation analysis. Lectures, laboratory.
Credit Hours: 3
Prerequisites: Entrance requirements

NU_ENG 8085: Problems in Nuclear Science and Engineering
Supervised investigation in nuclear engineering to be presented in the form of a report.
Credit Hour: 1-6

NU_ENG 8090: Research in Nuclear Science and Engineering
Independent investigation in nuclear engineering to be presented as a thesis. Graded on an S/U basis only.
Credit Hour: 1-99

NU_ENG 8402: Nuclear Fuel Cycle
Covers the nuclear fuel cycle from mine through enrichment, fuel element burn-up reactor physics, chemical reprocessing, waste disposal, with special emphasis on the newer proliferation-resistant fuel cycles.
Credit Hours: 3
Prerequisites: NU_ENG 4346 or NU_ENG 4305 and instructor's consent

NU_ENG 8403: Applied Topics in Medical Physics and Health Physics
Directed observations and experience in scientific aspects of daily operations in nuclear medicine, diagnostic radiology, radiotherapy and health physics.
Credit Hour: 1-6
Prerequisites: departmental consent

NU_ENG 8404: Nuclear Reactor Laboratory I
Application of reactor physics principals to operation of and experiments with the University of Missouri Research Reactor. Neutron activation analysis, instrumentation, reactivity evaluation.
Credit Hours: 3
Prerequisites: NU_ENG 4346 or NU_ENG 8411

NU_ENG 8409: Interaction of Radiation with Matter
Theory/applications of radiation interaction processes. Reviews nuclear physics concepts; radioactive decay; sources/ spectra of ionizing radiation; collision mechanisms for changed particles, electromagnetic radiation, neutrons for interaction with matter.
Credit Hours: 3
Prerequisites: NU_ENG 4346 or NU_ENG 8411

NU_ENG 8412: Nuclear Reactor Theory II
Linear and non-linear reactor kinetics; perturbation theory; temperature and fission product effects; control rod theory; transport theory.
Credit Hours: 3
Prerequisites: NU_ENG 8411 or NU_ENG 4346

NU_ENG 8422: Radiation Shielding
Fundamentals of radiation interactions stressing neutron and gamma radiation transport; ray theory, removal theory, multi-group transport shield design principles.
Credit Hours: 3
Prerequisites: NU_ENG 8409 or instructor's consent
NU_ENG 8429: Radiation Dosimetry
Basis and applications of conventional and microscopic radiation dosimetry. Dose concepts and quantities; biological dose-response models; dose measurement principles; photon, charged particle, and neutron dosimetry.

Credit Hours: 3
Prerequisites: NU_ENG 8409
Recommended: NU_ENG 4328

NU_ENG 8432: Nuclear Thermal Hydraulics and Safety
Engineering topics from reactor heat transfer and thermal stresses, fuel cycle analysis, power plant thermodynamics, shielding, and reactor safety analysis.

Credit Hours: 3
Prerequisites: NU_ENG 8411 or NU_ENG 4346, or instructor's consent

NU_ENG 8434: Fracture Mechanics I
(same as MAE 8220). Mechanics of flawed structure. Concepts include Griffith theory, Barenblatt's theory, Irwin analysis, energy analysis of cracked bodies, fracture toughness testing, plane strain, plane stress, transition temperature concepts, subcritical flaw growth.

Credit Hours: 3
Prerequisites: MAE 3200 or instructor's consent

NU_ENG 8435: Physics of Diagnostic Radiology
Principles and applications of X-ray production and interactions. Images production concepts including X-ray film, intensifying screens, grids, fluoroscopy, image intensification and television monitors. Image quality analysis and assessment.

Credit Hours: 3
Prerequisites: NU_ENG 8409 or equivalent or instructor's consent

NU_ENG 8439: Clinical Physics in Radiotherapy
Principles and applications of radiation producing units, exposure and dose measurements, and calibration. External beam physics parameters and application to fixed field and rotational field treatment planning.

Credit Hours: 3
Prerequisites: NU_ENG 8409 or equivalent or instructor's consent

NU_ENG 8452: Ultrasound and Magnetic Resonance Imaging
The physical principles of MRI and ultrasound including clinical instrumentation, artifacts in images, biological effects and quality control. Images obtained with both techniques will be presented.

Credit Hours: 3
Prerequisites: NU_ENG 4391, NU_ENG 8409, NU_ENG 4306 or equivalent

NU_ENG 8453: Advanced Fusion Theory
Plasma stability theory, charged particle diffusion, slowing down of charged particles, interaction of radiation with matter, direct energy conversion using charged particles, and engineering considerations.

Credit Hours: 3
Prerequisites: NU_ENG 4353 and NU_ENG 4375 or PHYSCS 8450 or instructor's consent

NU_ENG 8461: Neutron Transport Theory
The Boltzmann equation; general properties and solution; numerical methods of solving the transport equation; neutron thermalization and neutron spectra.

Credit Hours: 3
Prerequisites: NU_ENG 8412; MATH 4940, MATH 4300, or instructor's consent

NU_ENG 8470: Fast Reactor Analysis
Analytical methods for designing fast breeder reactor systems. Graded on a S/U basis only.

Credit Hours: 3
Prerequisites: NU_ENG 8412, NU_ENG 8432, NU_ENG 8451 or instructor's consent

NU_ENG 8471: Radiation Protection
Theory and applications of radiation protection and health physics. Radiation dosimetry methods and calculations, shielding evaluations, equipment surveys and inspection, environmental monitoring, radiation standards and regulations and administration presented.

Credit Hours: 3
Prerequisites: NU_ENG 4303 and NU_ENG 4328

NU_ENG 9090: Research in Nuclear Science and Engineering
Independent investigation in nuclear engineering to be presented as a thesis. Graded on an S/U basis only.

Credit Hour: 1-99

NUCMED 1000: Introduction to Nuclear Medicine
Introduction to the profession of nuclear medicine technology. In addition to scheduled clinical experiences, topics include educational requirements, procedures, and professional trends.

Credit Hour: 1
Prerequisites: Pre-Health Professions students only

NUCMED 3255: Orientation to Clinical Practice
This course provides an introductory experience to clinical practice. Must be accepted into Nuclear Medicine Program. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: Restricted to Nuclear Medicine students, junior standing required

NUCMED 3256: Clinical Nuclear Medicine I
Introductory clinical course. Introduces instrumentation, administration, procedures, and laboratory techniques. Includes supervised clinical participation.

Credit Hours: 2
Prerequisites: NUCMED 3263 and restricted to Nuclear Medicine students only
NUCMED 3263: Morphological Correlations in Nuclear Medicine I
Anatomy, physiology, and pathology of the human body as assessed using medicine techniques. The first of two courses that address current clinical applications of nuclear medicine.

Credit Hours: 3
Prerequisites: restricted to Nuclear Medicine students only

NUCMED 3328: Introductory Radiation Biology
(same as BIO_SC 4328, NU_ENG 4328, V_M_S 7328). Concepts of ionizing radiations, their actions on matter through effects on simple chemical systems, biological molecules, cell, organisms, man.

Credit Hours: 3
Prerequisites: junior standing
Recommended: Sciences/Engineering; one course in Biological Sciences and Physics/Chemistry; or instructor's consent

NUCMED 4085: Problems in Nuclear Medicine
Supervised investigation in an aspect of nuclear medicine technology, usually culminating in a written report.

Credit Hour: 1-3

NUCMED 4232: Clinical In Vitro
Detailed review of current regulations and procedures governing the use of open sources of radioactivity in a nuclear medicine setting.

Credit Hours: 3
Prerequisites: Restricted to Nuclear Medicine students

NUCMED 4268: Clinical Nuclear Medicine II
Continuation of clinical series taught in conjunction with NUCMED 3256 and NUCMED 4232. Addresses advanced therapeutic and diagnostic procedures, computer applications, and quality assurance procedures.

Credit Hours: 3
Prerequisites: NUCMED 3256. Restricted to Nuclear Medicine students only

NUCMED 4268W: Clinical Nuclear Medicine II - Writing Intensive
Continuation of clinical series taught in conjunction with NUCMED 3256 and NUCMED 4232. Addresses advanced therapeutic and diagnostic procedures, computer applications, and quality assurance procedures.

Credit Hours: 3
Prerequisites: NUCMED 3256. Restricted to Nuclear Medicine students only

NUCMED 4269: Clinical Nuclear Medicine III
Final course in clinical series. Seminar discussion of the areas of professional ethics, current medical-legal considerations, and future nuclear medicine applications.

Credit Hour: 1
Prerequisites: NUCMED 3256. Restricted to Nuclear Medicine students only

NUCMED 4299: Morphological Correlations in Nuclear Medicine II
Anatomy, physiology, and pathology of the human body as assessed using nuclear medicine techniques. The second of two courses that address current clinical applications of nuclear medicine.

Credit Hours: 3
Prerequisites: NUCMED 3263, restricted to Nuclear Medicine students

NUCMED 4327: Nuclear Medicine Instrumentation
Radionuclide imaging systems and the use of computers. Topics include Anger camera systems, emission tomography, ultrasound, nuclear magnetic resonance, and bone absorptiometry.

Credit Hours: 3
Prerequisites: Restricted to Nuclear Medicine students

NUCMED 4329: Radiopharmaceuticals in Nuclear Medicine
(cross-leveled with NUCMED 7329). Introduces concepts of radiopharmacy, generator systems, labeling of materials, quality control procedures and FDA regulations concerning radiopharmaceuticals.

Credit Hours: 3
Prerequisites: instructor's consent
Recommended: CHEM 1320

NUCMED 4330: PET in Nuclear Medicine
(cross-leveled with NUCMED 7330). Overview of special isotope production techniques for positron emitting agents; instrumentation concerns beyond standard Anger imaging; and image critique and analysis with morphologic correlation. May be repeated for credit. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Nuclear Medicine students only

NUCMED 4841: Microbiological Control and Radiation Monitoring
This lecture and laboratory class includes analytic techniques used for monitoring and controlling microbial, particulate, and radioactive contamination. Topics will include testing of QC supplies, monitoring of clean room environments, product testing both before and after sterilization, bioburden / microbial limit testing, sterility testing as a qualitative measure for contamination control, endotoxin testing, waste handling, and disposal techniques. Graded on A-F basis only.

Credit Hours: 4
Prerequisites or Corequisites: CDS 4328, or NUCMED 3328 and RA_SCI 4303; CHEM 2100; BIOCHM 3630; MICROB 2800; STAT 1200 or STAT 1300 or STAT 1400
Corequisites: concurrent enrollment in NUCMED 4842

NUCMED 4842: Statistical Analysis in Radioisotope Manufacturing
This combination lecture and computer lab class covers topics including statistical methods for sample evaluation, data analysis software coding (e.g., MINTAB), quality assurance methodologies used for ensuring radiochemical and radioisotopic quality and integrity during production, transportation, and end use, and practice standards for maintaining regulatory compliance. Graded on A-F basis only.

Credit Hours: 2
Prerequisites or Corequisites: CDS 4328, or NU_ENG 4328 and NU_ENG 4303; CHEM 2100; BIOCHM 3630; STAT 1200 or STAT 1300 or STAT 1400
**Corequisites:** concurrent enrollment in NUCMED 4841

**NUCMED 4843: Quality Control of Radiochemical Products**
This course is designed to be a correlative course taken in conjunction with other nuclear medicine courses and will provide an overview of reactor and accelerator based production of radioisotopes, and the techniques used to ensure product identity, strength, and purity. Additionally, course topics will include the discussion of the factors affecting radiochemical integrity, Good Laboratory Practice (GLP), Good Manufacturing Practice (GMP), FDA documentation practices, vendor qualifications, and control of materials. Graded on A-F basis only.

Credit Hours: 3  
Prerequisites: PHYSCS 1210 and NUCMED 4327 or instructor's consent

**Nursing Courses**

**NURC 1000: Advisory Seminar for Nursing**
Orientation to the undergraduate nursing program, professional role development, and introduction to the professional milieu. Graded on an S/U basis only.

Credit Hour: 1

**NURC 2000: Nursing as a Profession**
Introduces the structure of nursing knowledge and explores professional nursing role characteristics from historical, ethical, legal, economic, professional, occupational, and social perspectives. Examines nursing as subsystem of the health care system.

Credit Hours: 3  
Prerequisites: sophomore standing. Restricted to pre-nursing majors with a GPA of 2.8 or higher

**NURC 2000H: Nursing as a Profession - Honors**
Introduces the structure of nursing knowledge and explores professional nursing role characteristics from historical, ethical, legal, economic, professional, occupational, and social perspectives. Examines nursing as subsystem of the health care system. Graded on A-F basis only.

Credit Hours: 3  
Prerequisites: Sophomore standing with undergraduate GPA of 2.8 or higher; honors eligibility required

**NURC 2100: Communication Issues in Nursing**
In this course students develop their interpersonal communication skills and cultural competency in health care. Topics include social determinants of health, biases in the healthcare setting, diversity issues in health care, health literacy and health disparities. Students will learn evidence-based communication techniques.

Credit Hours: 2  
Prerequisites: Sophomore Standing. Restricted to pre-nursing majors only

**NURC 2100H: Communication Issues in Nursing - Honors**
Reviews psychosocial and communication issues. Focuses on improving interpersonal communication skills and learning how to provide therapeutic interventions to people with selected mental health issues. An experiential model emphasizes personal skill development strategies.

Credit Hour: 2-3  
Prerequisites: Sophomore Standing. Restricted to pre-nursing majors only. Honors eligibility required
NURSE 2200: Foundations of Communication and Professionalism in Nursing
In this course, students develop their interpersonal communication skills and cultural competency in health care. Topics include social determinants of health, biases in the healthcare setting, health literacy, and health disparities. Students will learn evidence-based communication techniques. Graded on A-F basis only.

Credit Hours: 3

NURSE 2200H: Foundations of Communication and Professionalism in Nursing - Honors
In this course, students develop their interpersonal communication skills and cultural competency in health care. Topics include social determinants of health, biases in the healthcare setting, health literacy, and health disparities. Students will learn evidence-based communication techniques. Graded on A-F basis only.

Credit Hours: 3

NURSE 3000: Health Care Resiliency
This course examines the unique psychosocial, spiritual, and physical stressors health professionals encounter while carrying out their duties. Self-care practices are examined that build the resilience needed to address challenging professional demands. This course draws on the extensive scientific literature that explores health and wellness promotion. Graded on A-F basis only.

Credit Hour: 1
Prerequisites: For Clinical Nursing majors only during Early Registration

NURSE 3002: Topics in Nursing - Biological, Physical, Mathematical
Specialized topics in nursing not available through regularly offered courses. Sections may be offered either on S/U or A-F basis.

Credit Hour: 1-4

NURSE 3002H: Topics in Nursing - Biological Sciences- Honors
Specialized topics in nursing not available through regularly offered courses. Sections may be offered either on S/U or A-F basis.

Credit Hour: 1-4
Prerequisites: Honors Eligibility required

NURSE 3080: Introduction to Nursing Informatics
Informatics is the science of managing information. This course provides basic content for understanding informatics in nursing. Principles, theories, and practices of informatics from seeking and storing to retrieving and analyzing information will be presented. Students will apply basic content as they consider informatics from consumer and provider perspectives for current or future use as nursing professionals.

Credit Hours: 3
Prerequisites: RN-BSN students only

NURSE 3080W: Introduction to Nursing Informatics - Writing Intensive
Informatics is the science of managing information. This course provides basic content for understanding informatics in nursing. Principles, theories, and practices of informatics from seeking and storing to retrieving and analyzing information will be presented. Students will apply basic content as they consider informatics from consumer and provider perspectives for current or future use as nursing professionals.

Credit Hours: 5

NURSE 3100: Pharmacology for Nursing
This course will focus on pharmacological classification and the nurse's role in medication administration and patient education. Medication issues with special populations will be addressed. Graded on A-F basis only.

Credit Hours: 3
Prerequisites or Corequisites: NURSE 3200 or NURSE 3260
Prerequisites: Restricted to Clinical BSN Accelerated students; restricted to clinical majors during early registration; PTH_AS 2201 and PTH_AS 2203 and MPP 3202

NURSE 3170: Nursing Skills, Technologies, and Simulation
Provides laboratory experiences for fundamental to complex nursing skills and procedures. Focuses on application of therapeutic interventions and procedure to provide safe, patient-centered care.

Credit Hours: 4
Prerequisites: Clinical BSN Nursing CLN_BSN
Recommended: NURSE 3270

NURSE 3180: Role Transitions
Explores returning-to-school issues important to adult learners. Links previous basic nursing courses with baccalaureate courses and begins building new knowledge on prior nursing education.

Credit Hours: 3

NURSE 3200: Pathophysiology
Focus is on commonly occurring alterations in health across the life span. Developmental concepts, diagnostics, and treatment modalities are integrated throughout course content. Enrollment requires admission to the clinical nursing major BSN option.

Credit Hours: 4
Prerequisites: Restricted to pre-nursing and students in the Clinical Nursing Major. PTH_AS 2201 and PTH_AS 2203 and MPP 3202

NURSE 3260: Pathophysiology
Focus is on commonly occurring alterations in health across the life span. Developmental concepts, diagnostics, and treatment modalities are integrated throughout course content. Course is designed for students applying to the accelerated BSN option.

Credit Hours: 3
Prerequisites or Corequisites: MICROB 2800 or MICROB 3200
Prerequisites: MPP 3202; PTH_AS 2201 and PTH_AS 2203

NURSE 3270: Foundations of Nursing: Physical Assessment and the Nursing Process
NURSE 3270 provides knowledge and skills in physical assessment and the application of the Nursing Process. Clinical application of foundational knowledge determines the health status of individuals.

Credit Hours: 3
Prerequisites or Corequisites: For Clinical BSN, students must have completed NURSE 2000 and NURSE 2100 and be concurrently enrolled in NURSE 3170, NURSE 3200, NURSE 3300; for Clinical BSN Accelerated students must have completed NURSE 3200 or NURSE 3260 and be concurrently enrolled NURSE 3170 and NURSE 3100 or NURSE 3300

NURSE 3280: Fundamentals of Nursing
This course assists students to identify and apply the nursing process in both laboratory and clinical settings. The course provides classroom, laboratory and clinical experiences for learning fundamental to complex nursing skills and technologies. Assists students with necessary application of foundational knowledge and critical thinking in the clinical setting. The student will utilize skills of data collection, documentation, communication, implementation and evaluation of a plan of care to meet health care needs. Graded on A-F basis only.

Credit Hours: 5
Prerequisites or Corequisites: NURSE 3200 or NURSE 3260 and NURSE 3370 and NURSE 3300 or NURSE 3100
Prerequisites: Restricted to Clinical BSN Nursing Major

NURSE 3300: Pharmacology and Nursing Implications
This course will focus on pharmacological classifications and the nurse's role in medication administration and patient education. Medication issues with special populations will be addressed. Graded on a A-F basis only.

Credit Hours: 4
Prerequisites or Corequisites: NURSE 3200 or NURSE 3260
Prerequisites: Restricted to Clinical Nursing Majors. PTH_AS 2201 and PTH_AS 2203 and MPP 3202

NURSE 3350: Individual Study
Independent study for qualified students in specific areas of interest in nursing under faculty guidance. Some sections may be graded A-F only or S/U only.

Credit Hour: 0-6
Prerequisites: instructor's consent

NURSE 3370: Health Assessment in Nursing
This course provides opportunities for students to acquire and build upon knowledge of health and illness and to develop skill in assessment of the whole individual. Students will learn a holistic approach to assessment, focused on physical, mental and social aspects, to determine the health status of individuals, families and communities. Students will develop skills in taking a health history and conducting a complete head-to-toe assessment of adults as well as individuals across the life-span from infants and children to older adults. Students will perform skills in a laboratory setting that are transferable to the clinical setting. The student is expected to apply knowledge from prerequisite and concurrent courses in data collection and interpretation of findings to determine the need for nursing care. Graded on A-F basis only.

Credit Hours: 4
Prerequisites or Corequisites: NURSE 3200 or NURSE 3260 and NURSE 3370 and NURSE 3300 or NURSE 3100
Prerequisites: Traditional Students - Clinical Nursing Majors (CLN_BSN) NURSE 2200 or NURSE 2100; Accelerated Students - Acceptance into the Accelerated Nursing Program

NURSE 3470: Mental Health Nursing
Students discover behavioral, social, interpersonal, and neuro-biological aspects of mental health nursing. Therapeutic use of self in designing and implementing nursing care for clients throughout the life cycle is emphasized. Content on psychopathology is included.

Credit Hours: 5
Prerequisites or Corequisites: NURSE 3900 or NURSE 3900H
Prerequisites: NURSE 3280 and NURSE 3300 or NURSE 3100 and NURSE 3370

NURSE 3670: Nursing of Adults I
Application of the nursing process to deliver care for hospitalized adults with health deviations. Evidence, technologies, professional standards and collaboration are used to enhance patient-centered, safe and effective care.

Credit Hours: 6
Prerequisites or Corequisites: NURSE 3900 or NURSE 3900H
Prerequisites: NURSE 3280 and NURSE 3300 or NURSE 3100 and NURSE 3370

NURSE 3750: Nursing of the Childbearing Family
This course provides learning experiences with childbearing families. Students apply the nursing process to promote health and well-being for the childbearing family. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: NURSE 3260 or NURSE 3200, and NURSE 3270, NURSE 3100, admission to accelerated BSN option

NURSE 3760: Pediatric Nursing
Provides learning experiences with children and their families from newborn to adolescents. Examines health alterations that interfere with self-care in and for children.

Credit Hours: 3
Prerequisites: NURSE 3270, admission to accelerated option

NURSE 3800: Gerontological Nursing Care
Emphasis on normal aging processes, health promotion, disease prevention, management of complex health conditions, and evaluation of care for older adults.

Credit Hours: 3
Prerequisites or Corequisites: NURSE 3300 or NURSE 3100
Prerequisites: NURSE 3370 and NURSE 3280

NURSE 3900: Introduction to Nursing Science
Introduces nursing as a science from the perspective of knowledge development. Structures nursing knowledge from a theoretical perspective. Presents nursing research as a method of knowledge development and validation.

Credit Hours: 3
Prerequisites: STAT 1200 or STAT 1300 or ESC_PS 4170 and Clinical Nursing Major
NURSE 3900H: Introduction to Nursing Science - Honors
Introduces nursing as a science from the perspective of knowledge development. Students examine the structure of nursing knowledge using theory, research and clinical practice. Nursing research is discussed as a method of building nursing knowledge, developing practice based on evidence, and validation of clinical activities. Graded on A-F basis only.
Credit Hours: 4
Prerequisites: Clinical Nursing Majors and STAT 1200 or STAT 1300 or ESC_PS 4170; Honors eligibility required

NURSE 4110: RN to MS Role Transition
Seamless academic progression to support registered nurses prepared in community colleges and hospital based programs to advance their education is essential, based upon recommendations from professional nursing organizations, as well as institutions of higher learning. This course focuses on the role transitions encountered in advanced nursing roles at the master's level. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: RN to MSN majors

NURSE 4200: Nursing Ethics and Law
This course examines and explores legal and ethical principles and applications as they pertain to clinical nursing practice and healthcare. The information in this course is applied in concurrent and subsequent program courses and provides a foundation for ethical and legal professional nursing practice.
Credit Hours: 3
Prerequisites: Restricted to RN-BSN students

NURSE 4200W: Nursing Ethics and Law - Writing Intensive
Analyzes clinical nursing situations using ethical principles and decision-making models. Examines the basic doctrines and principles foundational for providing legally sound nursing practice.
Credit Hour: 3-4
Prerequisites or Corequisites: NURSE 3080 or NURSE 3670
Prerequisites: Senior Clinical Major

NURSE 4201: Legal Concepts in Nursing
This course examines fundamental legal guidelines for professional nursing practice using content gleaned from nursing and medicine. The student will analyze and apply legal principles pertaining to nursing practice. Enrollment requires a prerequisite of a medical ethics, healthcare ethics or a bioethics course which is subject to instructor approval. Graded on A-F basis only.
Credit Hour: 1
Prerequisites: PHIL 2440 or PHIL 1150 or HLTH_SCI 4480

NURSE 4210: Nursing Ethics
This course examines and explores legal and ethical principles and applications as they pertain to clinical nursing practice and healthcare. The information in this course is applied in concurrent and subsequent program courses and provides a foundation for ethical and legal professional nursing practice. Graded on A-F basis only.
Credit Hours: 3
Prerequisites or Corequisites: NURSE 3370

NURSE 4210W: Nursing Ethics - Writing Intensive
This course examines and explores legal and ethical principles and applications as they pertain to clinical nursing practice and healthcare. The information in this course is applied in concurrent and subsequent program courses and provides a foundation for ethical and legal professional nursing practice. Graded on A-F basis only.
Credit Hours: 3
Prerequisites or Corequisites: NURSE 3370

NURSE 4270: Nursing of Children
Nursing of children with acute and chronic health and developmental deviations. Self-care and dependent care abilities are emphasized. Content includes health promotion for infants, children and adolescents.
Credit Hours: 4
Prerequisites or Corequisites: For accelerated BSN students NURSE 3470
Prerequisites: For Clinical BSN, students must have completed NURSE 3470 and NURSE 3670

NURSE 4270H: Nursing of Children - Honors
Nursing of children with acute and chronic health and developmental deviations. Self-care and dependent care abilities are emphasized. Content includes health promotion for infants, children and adolescents. Prerequisites or Corequisites: For accelerated BSN students NURSE 3470; Honors eligibility required
Credit Hours: 4
Prerequisites: For Clinical BSN, students must have completed NURSE 3470 and NURSE 3670

NURSE 4270H: Nursing of Children - Honors
Nursing of children with acute and chronic health and developmental deviations. Self-care and dependent care abilities are emphasized. Content includes health promotion for infants, children and adolescents. Prerequisites or Corequisites: For accelerated BSN students NURSE 3470; Honors eligibility required
Credit Hours: 4
Prerequisites: For Clinical BSN, students must have completed NURSE 3470 and NURSE 3670

NURSE 4270H: Nursing of Children - Honors
Nursing of children with acute and chronic health and developmental deviations. Self-care and dependent care abilities are emphasized. Content includes health promotion for infants, children and adolescents. Prerequisites or Corequisites: For accelerated BSN students NURSE 3470; Honors eligibility required
Credit Hours: 4
Prerequisites: For Clinical BSN, students must have completed NURSE 3470 and NURSE 3670

NURSE 4300: Nursing Issues/Leadership and Management
Examines leadership and organizational theories in relation to resource management and effective delivery of nursing to sets of clients. Analyzes societal/political issues and trends related to nursing and contemporary health care.
Credit Hours: 3
Prerequisites or Corequisites: NURSE 3670

NURSE 4300: Nursing Issues/Leadership and Management
Examines leadership and organizational theories in relation to resource management and effective delivery of nursing to sets of clients. Analyzes societal/political issues and trends related to nursing and contemporary health care.
Credit Hours: 3
Prerequisites or Corequisites: NURSE 3670

NURSE 4380: Health Assessment and Pathophysiology
Examines biologic basis for selected commonly occurring diseases throughout the life-span. Study and performance of health assessments with application of findings to adults and children.
Credit Hours: 3
Prerequisites: RN-BSN student

NURSE 4400: Nursing Leadership and Management
Examines leadership, management, and organizational theories in relation to resource management and effective delivery of nursing to sets of clients. Analyzes societal and political issues and trends related to nursing and contemporary health care. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: RN-BSN student
Corequisites: NURSE 3080
NURSE 4470: Nursing of the Childbearing Family
This course provides nursing care learning experiences for childbearing families. Students apply the nursing process to promote health and well-being for the childbearing family.

Credit Hours: 4
Prerequisites: For Clinical BSN, students must have completed NURSE 3470 and NURSE 3670
Corequisites: For Accelerated BSN students NURSE 3670

NURSE 4870: Nursing of Adults II
Application of nursing process to care for adults with acute physiological health deviations. Leadership and management principles are integrated in delivering care for sets of clients.

Credit Hour: 3-7
Prerequisites or Corequisites: NURSE 4970
Prerequisites: NURSE 3470 and NURSE 3670 and NURSE 4270 and NURSE 4470

NURSE 4870H: Nursing of Adults II Honors
Application of nursing process to care for adults with acute physiological health deviations. Leadership and management principles are integrated in delivering patient care. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: NURSE 3470 and NURSE 3670 and NURSE 4270 and NURSE 4470

NURSE 4930: Evidence-Based Nursing Practice
Concepts of evidence-based nursing practice are applied to clinical nursing questions, emphasizing use of research findings in practice settings to generate best nursing practices and optimal patient care outcomes.

Credit Hours: 5
Prerequisites: NURSE 4950

NURSE 4930W: Evidence-Based Nursing Practice - Writing Intensive
Concepts of evidence-based nursing practice are applied to clinical nursing questions, emphasizing use of research findings in practice settings to generate best nursing practices and optimal patient care outcomes.

Credit Hours: 5
Prerequisites: NURSE 4950

NURSE 4950: Nursing Theory and Research
Addresses nursing research as means of acquiring and refining knowledge. Research utilization to impact nursing addressed. Examines development and utilization of nursing theory.

Credit Hours: 3
Prerequisites: STAT 1200 or ESC_PS 4170. Must be a RN-BSN student

NURSE 4950W: Nursing Theory and Research - Writing Intensive
Addresses nursing research as means of acquiring and refining knowledge. Research utilization to impact nursing addressed. Examines development and utilization of nursing theory.

Credit Hours: 3
Prerequisites: STAT 1200 or ESC_PS 4170. Must be a RN-BSN student

NURSE 4970: Nursing in Communities
Examines roles and functions of nurses within community with emphasis on application of community/public health concepts and design and implementation of nursing systems of care for individuals, families, and populations.

Credit Hour: 4-5
Prerequisites: Restricted to RN-BSN students. NURSE 4950 and NURSE 4930

NURSE 4970H: Nursing in Communities - Honors
(same as NURSE 4970W). Examines roles and functions of nurses within community with emphasis on application of community/public health concepts and design and implementation of nursing systems of care for individuals, families, and populations. Graded on A-F basis only.

Credit Hours: 5
Prerequisites: Honors eligibility required. Students must meet one of the following - Traditional students - NURSE 4470, NURSE 4270 and NURSE 3470; or Accelerated students - NURSE 3750 and NURSE 3760 and pre- or co-enrolled in NURSE 3470

NURSE 4970HW: Nursing in Communities - Honors/Writing Intensive
Examines roles and functions of nurses within community with emphasis on application of community/public health concepts and design and implementation of nursing systems of care for individuals, families, and populations.

Credit Hours: 5
Prerequisites: Honors Eligibility required; Students must meet one of the following - Traditional students - NURSE 4470, NURSE 4270 and NURSE 3470; or Accelerated students - NURSE 3750 and NURSE 3760 and pre- or co-enrolled in NURSE 3470

NURSE 4970W: Nursing in Communities - Writing Intensive
Examines roles and functions of nurses within community with emphasis on application of community/public health concepts and design and implementation of nursing systems of care for individuals, families, and populations.

Credit Hours: 5
Prerequisites or Corequisites: Accelerated students - NURSE 3670 and NURSE 4270 and NURSE 4470
Prerequisites: Students must meet one of the following - Traditional students - NURSE 4470, NURSE 4270

NURSE 7010: Biostatistical Foundations for Health Researchers
Examines basic concepts of data management, study design, descriptive and inferential biostatistics using analytic software. Emphasizes statistical literacy and critical thinking for health researchers. Graded on A-F basis only.

Credit Hours: 3

NURSE 7087: Leadership and Technology Institute
Introduction to knowledge and skills essential to support research and practice doctorates. May be repeated for credit.

Credit Hour: 1
Prerequisites: Admission to DNP or PhD program
NURSE 7089: Transition to APRN Practice
The Transition to APRN Practice course is designed to provide additional guidance, support, and reinforcement of knowledge for new APRNs as they transition into practice. Case conferences, webinars, discussion, and speakers will be utilized to address a variety of topics of interest to the practitioner. Graded on S/U basis only.

Credit Hour: 1
Prerequisites: MSN APRN Completion

NURSE 7100: Theoretical Basis for Advanced Nursing
Analysis, application and evaluation of a variety of nursing and non-nursing theories used in advanced nursing practice and research.

Credit Hours: 3

NURSE 7110: Advanced Nursing Roles and Professional Communication
This course provides an overview of advanced nursing roles (Clinical Nurse Specialists, Nurse Practitioners [MS and DNP prepared], Executives, Educators, and Nurse Researchers [PhD]) and professional issues for which foundational knowledge of other advanced nursing courses will build. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Admission to the graduate program or faculty consent

NURSE 7120: Advanced Physiology and Pathophysiology
Focus on the normal and altered physiological functioning of body systems. Provides essential knowledge of human health and disease across the lifespan necessary for advanced nursing practice.

Credit Hours: 3

NURSE 7130: Advanced Pharmacology and Pharmacotherapeutics
Advanced practice nurse drug therapy management for health maintenance and treatment of acute episodic and chronic health problems in various populations over the life span.

Credit Hours: 3
Prerequisites: BSN or instructor's consent

NURSE 7140: Advanced Health Assessment and Promotion
Expands history and physical assessment techniques across lifespan. Addresses diagnostic reasoning, differential diagnosis, selection of common diagnostic test, disease risk factors, and health promotion strategies.

Credit Hours: 3.5
Prerequisites: BSN or instructor's consent

NURSE 7150: Research Basis for Advanced Nursing
Examines fundamentals of scientific inquiry. Addresses research design issues. Focuses on interpreting, critiquing, and synthesizing research findings.

Credit Hours: 3
Prerequisites: NURSE 7100

NURSE 7160: Scientific Foundations for Health Sciences
Students examine integrity in scientific research; scientific inquiry fundamentals; research design issues; theory analysis, application, and evaluation; data analyses for research designs; and critical evaluation of research findings in health sciences. Graded on A-F basis only.

Credit Hours: 4

NURSE 7500: Foundations of Care Management: Professional, Legal, Financial, and Business
This course will introduce students to the interdisciplinary care management role. Topics covered include practice settings and models of care as well as professional, legal, financial, and leadership responsibilities within the context of the current U.S. health system. Graded on A-F basis only.

Credit Hours: 3

NURSE 7510: Pharmacology, Pathophysiology, & Physical Assessment for Care Managers
This course develops student's knowledge of common acute and chronic health conditions. Topics include normal and altered physiological functioning, physical assessment, and therapeutic interventions. Students gain an understanding of human health and disease across the lifespan, which can be applied to care management practice. Graded on A-F basis only.

Credit Hours: 3

NURSE 7750: Functional Dimensions of Aging
(same as ARCHST 7640, F_C_MD 7750, HMI 7750, H_D_FS 7750, SOC_WK 7752). This online course provides a variety of learning activities to facilitate understanding and appreciation of physical, psychosocial, and economic challenges older adults may experience. Content will include determinants of and approaches to quality of life and successful aging. Graded on A-F basis only.

Credit Hours: 3

NURSE 7751: Psychosocial Function and Older Adults
(same as ARCHST 7650, F_C_MD 7751, HMI 7751, H_D_FS 7751, P_HLTH 7751 and SOC_WK 7751). This course takes an interdisciplinary approach to understanding the psychosocial function of older adults and explores approaches to alleviate disabling conditions that interfere with psychosocial function and quality of life in old age. Graded on A-F basis only.

Credit Hours: 3

NURSE 8001: Topics in Advanced Clinical Nursing
Specialized topics in advanced clinical nursing not available through regularly offered courses.

Credit Hours: 3

NURSE 8002: Research Topics in Nursing and Health
Topics courses are intended for special offerings, or as opportunities to experiment with a new course prior to seeking approval for it as a regular course. Graded on A-F basis only.

Credit Hours: 3
NURSE 8010: Family Dynamics and Intervention
(same as H_D_FS 8012). Theories of family function and dysfunction; techniques of assessment; models of family intervention. Practicum with selected families.

Credit Hours: 3
Prerequisites: NURSE 7100 (Nursing students)

NURSE 8020: Intermediate Statistical Methods for Health Researchers
Examination of generalized linear models, multiple logistic regression, and multilevel modeling as applied to health sciences research.

Credit Hours: 3
Prerequisites: NURSE 7010 or equivalent

NURSE 8030: Interpreting Statistical Evidence in the Health Sciences
Students learn to critically evaluate statistical designs and data analysis methods used in health sciences research and scientific evidence for health care decision making. May be repeated for credit.

Credit Hours: 3
Prerequisites: Graduate level statistics course

NURSE 8085: Problems in Nursing
Guided readings, special study and/or a practicum in an area of the student's interest or in an area which the student needs to strengthen. Selected sections of the course may be offered on A-F or S/U basis only.

Credit Hour: 1-4
Prerequisites: instructor's consent

NURSE 8090: Research in Nursing
Original investigation for presentation as thesis or dissertation. Graded on S/U basis only.

Credit Hour: 1-99
Prerequisites: graduate statistics, instructor's consent

NURSE 8100: Principles of Epidemiology
Explores key concepts of epidemiology and epidemiologic methods for studying the distribution and determinants of health and disease in populations. Application to public health and population-based practice addressed.

Credit Hours: 3
Prerequisites: NURSE 7150 or faculty consent

NURSE 8150: Interprofessional Practice: Transforming Healthcare
This course provides an introduction to interprofessional care management theories and models within the health professions. Differences and similarities of the specific elements that comprise various models of care management will be explored. Core competencies of interprofessional collaborative practice will be examined with specific emphasis placed on developing a wraparound service model that uses an interprofessional team approach. Graded on A-F basis only.

Credit Hours: 3

NURSE 8160: Evidence Based Care Management Practice for Individuals and Populations
This course builds upon fundamentals of interdisciplinary care management. Evidence based practice concepts are explored including distinguishing relevant resources and critiquing specific evidence related to care management. Tools, assessments, and techniques used in the management of complex patients with physical and mental health needs will be examined. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: NURSE 7500 and NURSE 7510

NURSE 8170: Public Health, Sociocultural Issues, and Health Policy
Explores concepts of public health, social determinants of health, and health policy interventions. This course evaluates the role of the advanced practice nurse in the development, implementation, advocacy for and administration of programs and policies designed to meet the health needs of the public. Graded on A-F basis only.

Credit Hours: 3

NURSE 8210: Special Health Care Needs of Children
Perform developmental, neuro developmental, and psychosocial assessments of chronically ill children. Collaborate with families, schools; health care, community, family services to meet child's needs.

Credit Hour: 3.5-5
Prerequisites: NURSE 7100 or instructor's consent

NURSE 8300: Public Health and Sociocultural Issues
Explores concepts of public health with a focus on the advanced practice nurse in population-based/primary care practice; core public health functions will be addressed at three service levels--the aggregate, the family, and the individual.

Credit Hours: 3
Prerequisites: NURSE 7100

NURSE 8310: Health Disparities of Rural and Other Underserved Populations
In-depth examination of rural and other vulnerable populations and their interactions with the health care system including access, utilization, and outcomes. May be repeated for credit.

Credit Hours: 3
Prerequisites: NURSE 7087, NURSE 8300 or faculty consent

NURSE 8400: Adult and Geriatric Primary Care I
Advanced practice nursing clinical diagnosis and management of acute and chronic cardiovascular, respiratory, HEENT, renal, metabolic and musculoskeletal problems in adults, older adults and their families.

Credit Hour: 3.5-5
Prerequisites: NURSE 7120, NURSE 7130, NURSE 7140

NURSE 8410: Adult and Geriatric Primary Care II
Advanced practice nursing clinical diagnosis and management of acute and chronic gastrointestinal, endocrine, hematological, neuropsychological problems and bioterrorism and CAM issues in adults, older adults and their families.

Credit Hour: 3.5-5
**Prerequisites:** NURSE 8400

**NURSE 8420: Newborn Through Adolescence Primary Care**
Advanced nursing practice of newborn through adolescence of health maintenance/promotion, clinical diagnosis and management of common childhood illness, behavioral, developmental problems. Advanced knowledge of human growth, development, family dynamics, community resources, collaborative relationships. Integrated clinical practicum.

**Credit Hour:** 3.5-5

**Prerequisites:** NURSE 7140 or NURSE 7310

---

**NURSE 8425: Participatory Approaches for Health and Health Systems**
(same as F_C_MD 8425). Focuses on the use of participatory approaches for the design of health and health-system interventions. Graded on A-F basis only.

**Credit Hours:** 3

**Prerequisites:** NURSE 8100 or F_C_MD 8420 or instructor consent

---

**NURSE 8430: Reproductive and Sexual Health Primary Care**

**Credit Hour:** 3.5-5

**Prerequisites:** NURSE 7140, NURSE 8410 or instructor’s consent

---

**NURSE 8540: Advanced Diagnostics and Reasoning I**
Expands upon knowledge of advanced assessment, diagnostic, and procedural skills; utilizes current technology in a cost-effective and patient-centered manner. Clinical increases specialty-specific knowledge. May be repeated for credit.

**Credit Hour:** 3.5-5

**Prerequisites:** 4th clinical specialty course

---

**NURSE 8545: Advanced Diagnostics II**
Expands upon initial advanced assessment, diagnostic, and procedural skills; utilizes the latest technology in a cost-effective and patient-centered manner. Clinical component allows for increasing specialty-specific knowledge to provide appropriate evidence-based management of pediatric, adult and geriatric populations. Population focus will be discipline specific. Graded on A-F basis only.

**Credit Hour:** 3.5-5

**Prerequisites:** NURSE 8540

---

**NURSE 8620: Brief Individual Psychotherapy for Mental Health Nurses**
Develops advanced skills in assessment, treatment, and follow-up evaluation of individuals experiencing acute mental health problems. Emphasizes brief psychotherapy based on frameworks from nursing and other disciplines.

**Credit Hour:** 3.5-4

**Prerequisites:** NURSE 8610

---

**NURSE 8640: Group Therapy and Social Skills Training**
Application of group and behavioral methods in mental health prevention, promotion, maintenance, and restoration. Designing, implementing, and evaluating mental health promotion groups and social skills training programs.

**Credit Hour:** 3.5-4

**Prerequisites:** NURSE 8610

---

**NURSE 8660: Mental Health Nursing Interventions for Families**
Application of nursing and family theories in advanced nursing management of families experiencing a variety of problems. Emphasis on designing, implementing, and evaluating advanced nursing interventions for families.

**Credit Hour:** 3.5-4

**Prerequisites:** NURSE 8620 or consent of instructor

---

**NURSE 8680: Pediatric Mental Health Assessment and Treatment**
Develops advanced skills in psychiatric assessment and follow-up evaluation of children and adolescents experiencing mental health problems. Explores diagnosis, treatment, and management of child and adolescent mental health disorders. Graded on A-F basis only.

**Credit Hour:** 3.5-4

**Prerequisites:** NURSE 8610 or faculty consent

---

**NURSE 8710: Clinical Management of Acute and Critical Care Problems**
Advanced practice nurse management of selected clinical problems across the lifespan commonly encountered in the acute and/or critical care settings. Patient safety, technology, and product selection addressed. Integrated clinical practicum with selected population and setting. May be repeated for credit.

**Credit Hour:** 3.5-5

**Prerequisites:** NURSE 7140

---

**NURSE 8720: Symptom Management in Acute and Chronic Illness**
Clinical management of symptoms of acute and chronic illness across the lifespan. Preparation for teaching patient self-management strategies. Integrated clinical practicum with selected population and setting.

**Credit Hour:** 3-5

**Prerequisites:** NURSE 7140 and NURSE 7150 or faculty consent

---

**NURSE 8820: Health Care Financial Management**
Prepares nurses to use the techniques that facilitate financial analysis and decision-making for patient care programs across the healthcare continuum. Focuses on efficient, effective management of resources for delivery of quality healthcare services. Prerequisites: NURSE 7100
NURSE 8830: Informatics Applications and Innovations in Health Care Systems
This course explores informatics from the perspective of health related fields through technology assessment and evaluation, and research and development in technological innovations. The impact of technology on patient privacy will also be examined. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: NURSE 7087 or instructor's consent

NURSE 8840: Nursing Leadership, Innovation, and Entrepreneurship
This course will provide an overview of leadership theories and strategies for managing individuals, groups, or systems within rapidly changing healthcare environments. Innovative and cutting edge phenomena in healthcare will be explored as well as entrepreneurship. May be repeated for credit. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: NURSE 7087 or instructors consent

NURSE 8854: Teaching Strategies in Nursing
Examines principles, issues, techniques, and evaluation methods in teaching nursing. Focuses on the development of a variety of teaching strategies and evaluation methods for didactic and clinical settings.

Credit Hours: 3
Prerequisites: NURSE 7100 and NURSE 7110 or instructor's consent

NURSE 8860: Organizations & Human Resource Management in Nursing
This course will examine various organizational theories, organizational behavior, and the impact of change within organizations. Participants will apply and analyze workforce management principles in regard to employee rights, resources, and responsibilities. May be repeated for credit. Graded on an A-F basis only.

Credit Hours: 3
Prerequisites: NURSE 7100 and NURSE 7110 or instructor's consent

NURSE 8864: Curriculum Development in Nursing
Examines theoretical foundations, principles, and issues in curriculum design. Explores systematic evaluation of curriculum at all levels.

Credit Hours: 3
Prerequisites: NURSE 7100 and NURSE 7110 or instructor's consent

NURSE 8890: Clinical/Scholarly Project
Design, implement and evaluate nursing projects derived from theory, including written report with explanation or justification to support the empirical and/or theoretical basis for the project. Graded on a S/U basis only.

Credit Hour: 1-3
Prerequisites: NURSE 7100, NURSE 7110, graduate statistics

NURSE 8900: Research Practicum in Nursing
Selected independent research activities in conjunction with ongoing research programs of faculty. Graded on S/U basis only.

Credit Hours: 3
Prerequisites: NURSE 7500, NURSE 7510, NURSE 8150 and NURSE 8160

NURSE 8910: Translational Evidence-Based Nursing Practice
Provides essential skills for utilizing research to support practice change: assessing practice based problems, analyzing current evidence, proposing practice changes, and developing plans for implementing evidence-based practice concepts.

Credit Hours: 3
Prerequisites: NURSE 8100 or NURSE 7150, or faculty consent

NURSE 8920: Quality, Safety, and Performance Outcomes
Uses information systems to identify and analyze patient safety and other clinical issues and recommend system-wide actions and measurement plans that result in safe, effective, efficient, equitable, patient-centered outcomes.

Credit Hours: 3
Prerequisites: NURSE 8910

NURSE 8930: Health Program Design and Management
Designing, implementing and evaluating effective health programs. Addresses leadership and organizational change issues.

Credit Hours: 3
Prerequisites: NURSE 8920 or instructor's consent

NURSE 8940: Nursing and Health Policy
Designed to explore and critically evaluate the role of nursing and nurse leaders/scholars in health policy development and the organization and financing of health care in response to the health and social needs of the public.

Credit Hours: 3

NURSE 8950: Teaching Nursing Practicum
Participation in application of principles and methods of teaching, learning, and evaluation to the education of nursing students. Graded on S/U basis only.

Credit Hours: 4
Prerequisites: NURSE 8854 and NURSE 8864

NURSE 8954: Distance-Mediated Teaching Nursing Practicum
Faculty-guided application of distance mediated teaching, learning, and evaluation methods with graduate &/or undergraduate nursing students. Course graded on S/U basis only.

Credit Hours: 4
Prerequisites: NURSE 8854 and NURSE 8864 or equivalents

NURSE 8955: Care Management Role-Focused Practicum
Care management will be delivered in the student's setting and population of interest with an approved preceptor. Students will have the opportunity to operationalize content from prerequisite courses related to care management practice. Graded on S/U basis only.

Credit Hours: 3
Prerequisites: NURSE 7500, NURSE 7510, NURSE 8150 and NURSE 8160
NURSE 8960: Leadership in Nursing and Healthcare Systems Practicum  
Participation in application of principles and methods of leadership, management, and evaluation to facilitate patient care operations in various settings. Graded on an S/U basis only.  
Credit Hours: 5  
Prerequisites: NURSE 8800, NURSE 8810, NURSE 8820

NURSE 8980: Advanced Clinical Nursing Practicum  
Intensive preceptor or faculty-guided clinical experience that synthesizes previous theory and clinical coursework. Refines knowledge and skills required to transition to an autonomous advanced nursing practice role. Graded on S/U basis only.  
Credit Hour: 2-7  
Prerequisites: NURSE 7110, NURSE 8910 or faculty consent

NURSE 8990: Practice Inquiry  
In this course, students will demonstrate a culmination of knowledge and skills learned throughout the MS program. Students must successfully complete a critical review of the literature in an integrative review format on a healthcare topic of their choice related to their area of study. The MS Examination is the final course product comprised of the comprehensive oral presentation that assists in evaluating the paper process and students meeting program outcomes. Graded on S/U basis only.  
Credit Hour: 1-3  
Prerequisites: Course must be completed in last semester of coursework

NURSE 9020: Hierarchical Linear Models for Health Researchers  
Introduction to the use of hierarchical or multilevel models which take into account dependencies between observations. Content will cover basic concepts, theory, and application of hierarchical linear models. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: NURSE 8020 or instructor consent

NURSE 9020: Hierarchical Linear Models for Health Researchers  
Introduction to the use of hierarchical or multilevel models which take into account dependencies between observations. Content will cover basic concepts, theory, and application of hierarchical linear models. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: NURSE 8020 or instructor consent

NURSE 9070: DNP Clinical Residency  
Intensive clinical experience. Prepare experts in advanced nursing practice and leadership to effectively evaluate practice problems, translate evidence into practice, monitor outcomes, and implement innovative models of care. May be repeated for credit. Some sections may be graded on either an A-F or S/U basis only.  
Credit Hour: 1-5  
Prerequisites: NURSE 8930 and NURSE 8450 or NURSE 8610

NURSE 9080: DNP Residency Project  
Final synthesis of DNP coursework culminating in an in-depth practice change project or case analysis impacting a rural or other undeserved population or critical healthcare system need. May be repeated for credit. Some sections may be offered on an A-F or S/U graded basis only.  
Credit Hour: 1-3  
Prerequisites or Corequisites: NURSE 8930 and NURSE 9070

NURSE 9087: Leadership and Transformational Role Institute  
Synthesis of advanced nursing practice knowledge and leadership skills. Prepares DNP graduate to implement an advanced nursing practice role that will result in practice and/or policy change at the local, state, or national levels. May be repeated for credit.  
Credit Hours: 2  
Prerequisites or Corequisites: NURSE 9080 and NURSE 9070

NURSE 9090: Research in Nursing and Health  
Original research leading to dissertation. Graded on S/U basis only.  
Credit Hour: 1-12  
Prerequisites: Instructor's consent

NURSE 9100: State of the Science  
The existing body of research literature is the foundation upon which new scientific knowledge is built. This course will guide the student through the purpose and processes of scholarly writing. Students will conduct a systematic review of the scientific literature on a selected focus area in the health sciences. Students will work with course faculty, with input from the student’s advisor, to develop and implement strategies to search, evaluate, and synthesize the literature in the selected area. Scholarly writing will be emphasized in this course. Graded on an A-F basis only.  
Credit Hours: 3  
Prerequisites: Admission to a doctoral program or permission of instructor

NURSE 9120: Philosophical and Theoretical Basis for Research  
Based on an understanding of the philosophy of science, critically appraise and adapt conceptual models and theoretical frameworks for use in research.  
Credit Hours: 3  
Prerequisites: NURSE 7110 or faculty consent

NURSE 9131: Responsible Conduct of Research in the Health and Social Sciences  
(same as H_D_FS 9131) This course examines professional research ethics including the rights of human subjects. Graded on S/U basis only.  
Credit Hour: 1  
Prerequisites: Instructor's permission required

NURSE 9132: Writing Research Grants: Skill Building  
(same as H_D_FS 9130). This course teaches the components of writing a research grant for external funding. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: NURSE 9120, graduate research methods course, or instructor's permission

NURSE 9410: Advanced Quantitative Methods  
(same as H_D_FS 9200). Study of explanatory and predictive quantitative designs in health-related research, including nested, double-blind, time series, casual models, retrospective cohort; secondary database use will be explored.  
Credit Hours: 3  
Prerequisites: NURSE 9131, Advanced Statistics Course
NURSE 9420: Qualitative Methods
(same as H_D_FS 9420) Examines the following selected qualitative research approaches appropriate for the study of nursing phenomena and the extension or modification of scientific knowledge so as to be relevant to nursing: case study research methods, verbal qualitative approaches, and nonverbal qualitative approaches. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: NURSE 7150 and doctoral status (or permission of faculty)

NURSE 9450: Doctoral Seminar: Social Determinants of Health
Doctoral seminar on defining, measuring and conducting research on social determinants of health. May be repeated for credit.

Credit Hours: 3
Prerequisites: NURSE 9120 and NURSE 9410

NURSE 9460: Theories and Interventions in Health Behavior Science
Focuses on health behavior science theories, linking theories to measurement, and designing health behavior interventions. Graded on A-F basis only.

Credit Hours: 3
Prerequisites or Corequisites: NURSE 9100, NURSE 9120 or faculty consent

NURSE 9470: Technology Evaluation in Health Care Systems Research
(same as HMI 9440). Examines technology applications and evaluation methods used to determine outcomes, efficiencies, effectiveness, satisfaction, and cost of using technology. Prerequisites: 6 credit hours of graduate statistics;

Credit Hours: 3
Prerequisites or Corequisites: NURSE 9410 or faculty consent

NURSE 9540: Seminar in Nursing
Course content varies. May be repeated to a maximum of six hours.

Credit Hour: 1-99

NURSE 9550: Meta-Analysis Research
(Same as H_D_FS 9550). Examines quantitative synthesis including research questions, search strategies, coding issues, meta-analysis statistical procedures, and interpretation of findings. Emphasizes conceptual understanding and practical methods.

Credit Hours: 3
Prerequisites: 6 credit hours of graduate statistics course, NURSE 9410 or graduate level quantitative methods course

NURSE 9560: Qualitative Systematic Reviews
(Same as SOC_WK 9560 and H_D_FS 9560) Examine and carry out elements of qualitative systematic reviews: topic/problem identification, data collection, and analysis. Understand how to limit threats to validity and maximize generalizability.

Credit Hours: 3

Prerequisites: NURSE 9420 or equivalent

NURSE 9710: Advanced Research Practicum
Mentored research experience designed by student, mentor, and program committee based on student's substantive areas of interest and program of research. Graded on S/U basis only.

Credit Hour: 1-6
Prerequisites or Corequisites: NURSE 9120; advisor consent

Nutrition Courses

NUTRIT 7020: Monogastric Nutrition
(same as AN_SCI 7312 and NEP 7020; cross-leveled with AN_SCI 4312 and NEP 4020). Principles of nutrition, feed formulation and recent research in poultry feeding. Graded on A-F basis only.

Credit Hours: 3
Prerequisites or Corequisites: AN_SCI 3242

Nutrition and Exercise Physiology Courses

NEP 1001: Topics in Nutritional Sciences
Supervised study in specialized topic of nutritional sciences.

Credit Hour: 1-99

NEP 1034: Introduction to Human Nutrition
Basic nutrition principles, including: nutrient functions, food sources, and needs; healthy eating tools; energy balance and weight management; nutrition and fitness; nutrition through the life cycle; food safety; and consumer topics. No credit if taken after NEP 2340.

Credit Hours: 3

NEP 1034H: Introduction to Human Nutrition - Honors
Basic nutrition principles, including: nutrient functions, food sources, and needs; healthy eating tools; energy balance and weight management; nutrition and fitness; nutrition through the life cycle; food safety; and consumer topics. No credit if taken after NEP 2340.

Credit Hours: 3
Prerequisites: Honors eligibility required

NEP 1210: The Ethics of Eating
This introductory course for non-majors provides a general overview of the scope of ethical issues we should consider surrounding the food we eat. We explore the intersection of the science and societal issues regarding what we eat. We will discuss what we choose to eat, how related issues such as agricultural practices and food transportation impact those choices with an emphasis on the intersection of the science and current societal considerations.

Credit Hours: 3

NEP 1310: Food and Cultures of the World
Trans-disciplinary approach to nutrition, considering anthropological, physiological, geographical, socioeconomic and psychological elements in world nutrition. These ideas will be explored in the context of cuisines and cultures that are found in the US, but originate elsewhere.

Credit Hours: 3
NEP 1310W: Food and Cultures of the World - Writing Intensive  
Trans-disciplinary approach to nutrition, considering anthropological, physiological, geographical, socioeconomic and psychological elements in world nutrition. These ideas will be explored in the context of cuisines and cultures that are found in the US, but originate elsewhere.  
Credit Hours: 3

NEP 1340: Introduction to Exercise and Fitness  
Provides students with practical information about exercise and physical fitness. After taking this class, students will be prepared to be physically active, understand the 'Do's and Don'ts' of exercise, and know how to live a healthy way of life. As part of the course, students will assess their current level of activity/fitness, develop a plan for improvement, and put that plan into action.  
Credit Hours: 3

NEP 1485: Career Exploration in Exercise Science  
Undergraduate course designed to provide an overview of the components important to developing an understanding and appreciation of all aspects of Exercise Science. Graded on A-F basis only.  
Credit Hour: 1

NEP 1995: Nutritional Food Science  
The study of components of food systems and how they are affected by processing, preservation, preparation and by techniques that improve taste, texture, flavor, appearance and nutrient retention. This course is 100% online and includes a virtual lab. Graded on A-F basis only.  
Credit Hours: 3

NEP 2085: Problems in Nutritional Sciences  
Supervised study in a specialized phase of nutritional sciences.  
Credit Hour: 1-99  
Prerequisites: consent required

NEP 2140: Exercise Practicum I  
This course provides an overview of the necessary skills and techniques for successful implementation of exercise programing. This course will help prepare the student for completion of the PANHP degree and prepare for completion of the ACSM EP-C certification.  
Credit Hours: 3  
Prerequisites: NEP 1340 and NEP 1485

NEP 2222: Landscape of Obesity  
The societal, economic, medical, behavioral, and psychological causes and results of the obesity epidemic and potential modes of treatment and prevention. Lecture course. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: sophomore standing required

NEP 2340: Human Nutrition I  
Basic concepts of normal nutrition related to physiological/chemical processes; changing nutrient needs during human life cycle, emphasis on adult; some social/psychological influences on dietary habits. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: C- or better in CHEM 2030 or CHEM 2100 or CHEM 2160H

NEP 2340H: Human Nutrition I - Honors  
Basic concepts of normal nutrition related to physiological/chemical processes; changing nutrient needs during human life cycle, emphasis on adult; some social/psychological influences on dietary habits. Includes weekly discussion on controversial issues. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: CHEM 2030 or CHEM 2100 or CHEM 2160H. NEP majors must have a C- or better in CHEM 2030, CHEM 2100 or CHEM 2160H. Honors eligibility required

NEP 2380: Diet Therapy for Health Professionals  
Principles underlying normal nutrition and diet for health and disease. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: sophomore standing

NEP 2450: Nutrition Throughout the Life Span  
Nutritional requirements, challenges, community nutrition programs, and eating patterns throughout the life span with emphasis on health promotion and disease prevention; Role of beliefs, culture, socio-psychological influences, and economic resources in food selection and nutrition/health status. Lecture/discussion course. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: NEP 1034 or NEP 2340 or NEP 2380 or equivalent. Nutrition and Exercise Physiology majors must earn a C or better in NEP 2340 or 2380 to enroll

NEP 2460: Eating Disorders  
Definition, etiology, treatment, and research related to eating disorders: anorexia nervosa, bulimia nervosa and binge eating disorder/obesity. Graded on A-F basis only.  
Recommended: NEP 1034 or 2380

NEP 3001: Topics in Nutritional Science  
Instruction in specific subject matter areas in the field of food science and nutrition.  
Credit Hour: 1-99

NEP 3085: Problems in Nutritional Sciences  
Advanced problems in a selected field of food science and nutrition.  
Credit Hour: 1-99  
Prerequisites: consent required

NEP 3085W: Problems in Nutritional Sciences - Writing Intensive  
Advanced problems in a selected field of food science and nutrition.  
Credit Hour: 1-99
**Prerequisites:** consent required

**NEP 3131: International Nutrition and Exercise Physiology**
Immersion into and examination of selected cultures - beliefs, practices, policies and social structures around food, physical activity and health. Graded on A-F basis only.

**Credit Hour:** 0-6
**Prerequisites:** instructor's consent

**NEP 3131H: International Nutrition and Exercise Physiology - Honors**
Immersion into and examination of selected cultures - beliefs, practices, policies and social structures around food, physical activity and health. Graded on A-F basis only.

**Credit Hour:** 0-6
**Prerequisites:** instructor's consent; Honors eligibility required

**NEP 3290: Food Service I: Supervised Practice Experience**
A practicum designed to expose the student to concepts of quantity food production, evaluation of products and resources, personnel administration and application of food microbiological concepts. 1 lecture class and 4 hours of supervised practice per week. Graded on A-F basis only.

**Credit Hour:** 1
**Prerequisites:** Open only to students accepted into the Coordinated Program in Nutrition and Foods/Dietetics. Department consent required

**NEP 3360: Nutritional Assessment Supervised Practice Experience**
Supervised practice to develop skills in screening individuals for nutrition risk; use of dietary, anthropometric, laboratory, clinical and sociocultural criteria to assess nutritional status of individuals. 8 hours of supervised practice per week. Enrollment limited to students who have taken or are concurrently enrolled in NEP 4360; Open to Nutrition and Food majors in the Coordinated Program in Dietetics only.

**Credit Hours:** 2
**Prerequisites:** Open only to students accepted into the Coordinated Program in Nutrition and Foods/Dietetics. Departmental consent required

**NEP 3370: Medical Nutrition Therapy I: Supervised Practice Experience**
Practice and application of principles of nutrition care for selected disease states. 12 hours of supervised practice per week. Graded on A-F basis only.

**Credit Hours:** 3
**Prerequisites:** Open to students accepted into the Coordinated Program in Nutrition and Foods/Dietetics. Department consent required

**NEP 3390: Teaching and Counseling Techniques in Nutrition**
Principles and theories of learning; Resources, methods and techniques for teaching food/nutrition principles and dietary guidelines; Group dynamics and facilitation; Introduction to counseling theories and methods used in nutrition care of individuals. Lecture course. Graded on A-F basis only.

**Credit Hours:** 2
**Prerequisites:** C or better in PSYCH 1000 and NEP 2340

**NEP 3400: Teaching & Counseling Techniques in Nutr. Supervised Practice Exp**
Skill development and practice in counseling individuals for health promotion and disease prevention and the teaching of food and nutrition topics to groups. 4 hours of supervised practice per week. Graded on A-F basis only.

**Credit Hour:** 1
**Prerequisites:** Open only to students accepted into the Coordinated Program in Nutrition and Foods/Dietetics. Department consent required

**NEP 3420: Role of Inactivity in Chronic Diseases**
This course is designed to provide an understanding of selected topics related to physical inactivity and chronic diseases and conditions including obesity, type 2 diabetes, hypertension, vascular dysfunction, atherosclerosis, heart failure, and dementia. Specifically, this course will focus on examining the scientific evidence supporting the role of sedentarism as a causal factor in the development of chronic diseases and the role of physical activity as a mitigating factor. Graded on A-F basis only.

**Credit Hours:** 3
**Prerequisites:** NEP 1340 and MPP 3202 or BIO_SC 3700 - NEP majors must receive a C or better in the pre-reqs

**NEP 3450: Activity Throughout the Lifespan**
Course is designed to develop knowledge and understanding of the value of physical activity across the lifespan. The physiology, psychology, and guidelines of exercise, along with the integration of nutrition with physical activity, will be explored from pregnancy through early development and into old age. Graded on A-F basis only.

**Credit Hours:** 3
**Prerequisites:** NEP 1340 - NEP majors must have a C or higher; May be restricted to Nutrition and Fitness/ Physical Activity, Nutrition and Human Performance majors only during early registration

**NEP 3550: Corporate, Community, and Personal Fitness**
Course is designed to develop the knowledge and understanding of exercise application for corporate wellness, community programs, and personal fitness. Topics covered will include exercise prescription, behavioral and motivational theories, legality, ethics and professionalism, and how these topics relate to corporate, community, and personal fitness clients. Students should be able to understand the various needs of these populations and how to apply the science of physical activity, nutrition, and human performance to each. Graded on A-F basis only.

**Credit Hours:** 3
**Prerequisites:** NEP 1340 and NEP 2340 or NEP 2380. NEP majors must have a C or better in these courses to enroll

**NEP 3590: Community Nutrition Supervised Practice Experience**
A practicum which explores and applies the concepts and techniques of nutrition programming in a community setting. 4 hours of supervised practice per week. Enrollment limited to students who have taken NEP 4590. Open to students enrolled in the Coordinated Program in Dietetics only. Graded on A-F basis only.

**Credit Hour:** 1
NEP 3800: Prevention and Care of Athletic Injury
Theory, practice in prevention, emergency care, rehabilitation of injuries encountered in vigorous games.
Credit Hours: 3
Prerequisites: PTH_AS 2201. Restricted from Pre-Nutrition and Fitness majors

NEP 3820: Kinesiology
Study of the relationships of physical laws, mechanical principles, and structural parameters to the analysis of human motion, with emphasis on application to daily activities, sport/athletic performance, and developmental exercise.
Credit Hours: 3
Prerequisites: PTH AS 2201

NEP 3850: Physiology of Exercise
This is the basic course in exercise physiology, which applies specific principles and concepts of human physiology to the physical work situation. This course will look at ventilation, oxygen transport, cardiovascular physiology, muscle physiology and the metabolic systems; and emphasis will be given to the adaptations to exercise and training. This course will first explore basic exercise physiology and then will explore many of the applied issues pertaining to performance and health. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: PTH AS 2201; MPP 3202 or BIO_SC 3700. Restricted from Pre-Nutritional and Fitness students

NEP 3850W: Physiology of Exercise - Writing Intensive
This is the basic course in exercise physiology, which applies specific principles and concepts of human physiology to the physical work situation. This course will look at ventilation, oxygen transport, cardiovascular physiology, muscle physiology and the metabolic systems; and emphasis will be given to the adaptations to exercise and training. This course will first explore basic exercise physiology and then will explore many of the applied issues pertaining to performance and health. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: C or better in PTH AS 2201; MPP 3202 or BIO_SC 3700. C- or better in ENGLISH 1000

NEP 4001: Topics in Nutrition and Exercise Physiology
Instruction in specific subject matter areas in the field of nutrition science and exercise physiology.
Credit Hour: 1-3

NEP 4008: Advanced Seminar in Dietetics
Examines current applications in nutrition and dietetics, using journal articles and position and practice papers. Graded on A-F basis only.
Credit Hour: 1-5
Prerequisites: Department consent required. Must be enrolled in Coordinated Program in Dietetics

NEP 4200: Sports Performance and Conditioning
(cross-leveled with NEP 7200). Course utilizes scientific theory and applied instruction to teach procedures, techniques, and modalities used to improve physical sports performance. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: PTH AS 2201, MPP 3202 or BIO_SC 3700 - NEP majors must have a C or better in these courses. Junior or senior standing required

NEP 4280: Food Service Management
(cross-leveled with NEP 7280). Issues related to marketing and financial control in the foodservice sector. Lecture course. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: MANGMT 3000 or equivalent

NEP 4290: Food Serv. II: Adv. Food Service Manage. Supervised Practice Exp
A practicum tailored to apply marketing and budgetary principles in the foodservice industry. 8 hours of supervised practice per week. Enrollment limited to students with concurrent enrollment in NEP 4280. Open to students admitted to the Dietetics program. Graded on A-F basis only.
Credit Hours: 2
Prerequisites: Open to students accepted into the Coordinated Program in Dietetics only. Departmental consent required

NEP 4330: Human Nutrition II Laboratory
(cross-leveled with NEP 7330). A techniques course in nutrition, usually taken concurrently with NEP 4340.
Credit Hours: 2
Prerequisites: NEP 2340, Biochemistry and instructor's consent

NEP 4340: Human Nutrition II Lecture
(cross-leveled with NEP 7340). Physiological and biochemical aspects of nutrition; functions of methods of measuring nutritional status; various aspects of applied nutrition. Continuation of NEP 2340. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: NEP 2340 - NEP majors must have a C or better to enroll and either BIOCHM 3630, BIOCHM 4270 or BIOCHM 4272

NEP 4360: Nutritional Assessment
(cross-leveled with NEP 7360). Introduction to the nutrition assessment process. The identification of dietary, anthropometric, laboratory, clinical and sociocultural parameters used to assess nutritional status of individuals. Lecture course. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: NEP 2340

NEP 4370: Medical Nutrition Therapy I
(cross-leveled with NEP 7370). In-depth study of physiological/biochemical changes in selected disease states (cardiovascular disease, rehabilitation, diabetes and cancer); development of principles underlying nutrition therapy. Lecture course. Graded on A-F basis only.
Credit Hours: 3  
Prerequisites: C or better in NEP 4360

NEP 4385: Professional Development I  
(cross-leveled with NEP 7385). Course designed to provide career exploration and assessment and prepare students for the final rotations in the coordinated program in dietetics. Graded on A-F basis only. Enrollment limited to students enrolled in the coordinated program in Dietetics.

Credit Hour: 1  
Prerequisites: Departmental consent required

NEP 4400: Pathophysiology of Diseases Affecting Metabolic Health  
There is not a universally-accepted definition of 'metabolic health', however, a similar combination of assessment criteria including measurements of body weight/composition, blood pressure, lipid profile, insulin sensitivity/resistance, and systemic inflammation are frequently used for clinical and research purposes. This course will explore the disordered physiological processes in diseases affecting these metabolic health parameters. Focus will be on the leading causes of death in the US, cardiovascular disease, stroke and cancer, as well as the related diseases of diabetes and osteoporosis, all of which are diseases of enormous burden to the US healthcare system. The common theme of modifiable factors (diet, exercise, sleep) to prevent and manage these chronic conditions will be woven throughout the course. This course may be particularly useful for students seeking careers in health care and prevention. Graded on A-F basis only.

Credit Hours: 3  
Prerequisites: MPP 3202 or BIO_SC 3700 and BIOCHM 3630 or BIOCHM 4270  
Recommended: NEP 2340 and PTH_AS 2201

NEP 4480: Pediatric Exercise Physiology  
Course is designed to develop knowledge and understanding of the value of physical activity in the pediatric population. The physiology, psychology, and guidelines of exercise will be explored in the developmental process of youth. Graded on A-F basis only.

Credit Hours: 3  
Prerequisites: NEP 1340 and NEP 3850W - NEP majors must have a C or better in these courses

NEP 4550: Exercise is Medicine  
Provide an overview of Exercise Is Medicine On Campus. As the designated Exercise is Medicine program on campus we will explore ways to promote the program across the MU Campus, develop student engagement, and implement the program through event planning and collaboration with key services on the MU Campus. Graded on A-F basis only.

Credit Hours: 2  
Prerequisites: NEP 3450, NEP 3850, majors only

NEP 4590: Community Nutrition  
(cross-leveled with NEP 7590). Public health nutrition and chronic disease prevention, food security, nutrition programs and food access, public policy, sustainable agriculture and food production systems, cultural food practices, needs assessment. Graded on A-F basis only.

Credit Hours: 3  
Prerequisites: NEP 2340 or NEP 2380. Restricted from Pre-Nutrition and Fitness majors

NEP 4750: Cardiopulmonary Rehabilitation - A Multifactorial Process  
A guide to the practice of Cardiopulmonary Rehab in the 21st Century. We will explore the interdisciplinary aspects of a successful approach to the delivery of cardiac and pulmonary rehabilitation throughout a broad spectrum of patients. Graded on A-F basis only.

Credit Hours: 3  
Prerequisites: NEP 3450 and NEP 3850W. NEP majors must earn a C or better in these courses to enroll

NEP 4860: Exercise Prescription  
Course investigates theory and methods of testing and prescribing exercise for circulatory fitness, body composition, muscle strength, joint and muscle ranges in motion, and posture. Graded on A-F basis only.

Credit Hours: 3  
Prerequisites or Corequisites: NEP 3850W. All NEP majors must have a C- or better in this class to enroll  
Prerequisites: MPP 3202 or BIO_SC 3700 and, PTH_AS 2201. All NEP majors must have a C or better in these courses to enroll

NEP 4940: Internship in Nutritional Science and Exercise Physiology  
Combines study, observation and employment in an area of exercise physiology and/or nutrition. Written reports, faculty evaluation.

Credit Hour: 1-6  
Prerequisites: instructor’s consent required

NEP 4950: Capstone: Research in Nutritional Sciences  
Introduction to research, including the types of basic, clinical, and outcomes-based research. Defining research problems related to nutrition and exercise sciences, developing hypotheses, reviewing scientific literature, writing research protocols, analyzing data. Lecture course.

Credit Hours: 2  
Prerequisites: NEP 2340 and either STAT 2500 or ESC_PS 4170 and senior standing. Restricted from Pre-Nutrition and Fitness majors

NEP 4951: Nutrition Research Communication  
Analyze and interpret data; present results of a research study in manuscript and seminar presentation formats. Emphasis on effective communication of nutrition research to scientific and lay audiences. Graded on A-F basis only.

Credit Hour: 1  
Prerequisites: NEP 4950 or instructor’s consent
NEP 4951W: Nutrition Research Communication - Writing Intensive
Analyze and interpret data; present results of a research study in manuscript and seminar presentation formats. Emphasis on effective communication of nutrition research to scientific and lay audiences. Graded on A-F basis only.

Credit Hour: 1
Prerequisites: NEP 4950 or instructor's consent

NEP 4970: PANHP Capstone: Sports Nutrition
(cross-leveled with NEP 7970). Integration of research literature with knowledge from previous coursework, emphasis on sports nutrition research, nutrient requirements of athletes, critical evaluation of ergogenic aids. Graded on A-F basis only. Prerequisites: C or better in all pre-reqs: NEP 2340, and either MPP 3202 or BIO_SC 3700, and either STAT 1200 or ESC_PS 4170; Senior standing. Restricted to Nutrition and Fitness or Physical Activity, Nutrition and Human Performance majors only.

Credit Hours: 2

NEP 4975: Practice of Dietetics Supervised Practice Experience
Supervised practice in providing quality nutrition services in clinical, community, management and specialty settings. 40 hours of supervised practice per week.

Credit Hours: 10
Prerequisites: NEP 3590, NEP 4280, NEP 4290, NEP 4380, NEP 4381, and NEP 4590; Open to students admitted to the Dietetics Program only

NEP 7001: Topics in Nutritional Science and Exercise Physiology
Instruction in specific subject matter areas in the field of food science and nutrition.

Credit Hour: 1-99

NEP 7020: Monogastric Nutrition
(same as AN_SCI 7312 and NUTRIT 7020; cross-leveled with NEP 4020 and AN_SCI 4312). Principles of nutrition, feed formulation and recent research in poultry feeding. Graded on A-F basis only.

Credit Hours: 3
Prerequisites or Corequisites: AN_SCI 3242

NEP 7085: Problems in Nutritional Sciences and Exercise Physiology
Advanced problems in a selected field of food science and nutrition.

Credit Hour: 1-99

NEP 7200: Sports Performance and Conditioning
(cross-leveled with NEP 4200). Course utilizes scientific theory and applied instruction to teach procedures, techniques, and modalities used to improve physical sports performance. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: PTH_AS 2201, MPP 3202 or BIO_SC 3700 - NEP majors must have a C or better in these courses

NEP 7330: Human Nutrition II Laboratory
(cross-leveled with NEP 4330). A techniques course in nutrition, usually taken concurrently with NEP 4340.

Credit Hours: 2
Prerequisites: NEP 2340, Biochemistry and instructor's consent

NEP 7340: Human Nutrition II Lecture
(cross-leveled with NEP 4340). Physiological and biochemical aspects of nutrition; functions of methods of measuring nutritional status; various aspects of applied nutrition. Continuation of NEP 2340. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: NEP 2340 - NEP majors must have a C or better to enroll and either BIOCHM 3630, BIOCHM 4270 or BIOCHM 4272

NEP 7360: Nutritional Assessment
(cross-leveled with NEP 4360). Introduction to the nutrition assessment process. The identification of dietary, anthropometric, laboratory, clinical and sociocultural parameters used to assess nutritional status of individuals. Lecture course. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: C or better in NEP 4360

NEP 7370: Medical Nutrition Therapy I
(cross-leveled with NEP 4370). In-depth study of physiological/biochemical changes in selected disease states (cardiovascular disease, rehabilitation, diabetes and cancer); development of principles underlying nutrition therapy. Lecture course. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: C or better in NEP 4370

NEP 7381: Nutrition Therapy II: Supervised Practice Experience
Practice in the nutrition care of complex health disorders with emphasis on nutrition support. 16 hours of supervised practice per week. Enrollment limited to students with concurrent enrollment in NEP 7380. Open to students admitted to Dietetics program only. Graded A-F only.

Credit Hours: 4
Prerequisites: NEP 4370 or NEP 7370
Corequisites: NEP 4380 or NEP 7380

NEP 7385: Professional Development I
(cross-leveled with NEP 4385). Course designed to provide career exploration and assessment and prepare students for the final rotations in the coordinated program in dietetics.

Credit Hour: 1
Corequisites: Concurrent enrollment in NEP 7380, NEP 7381
NEP 7390: Professional Development II
Lectures and discussions focus on issues and trends in dietetics. Discussions are used to encourage the development of skills and attitudes that foster lifelong professional learning. Graded on A-F basis only.
Credit Hour: 1
Prerequisites: NEP 7385, and in the Coordinated Program for Dietetics

NEP 7500: Research in Nutritional Sciences and Exercise Physiology
Original investigations, usually in connection with one of the research projects of Agricultural Experiment Station. Written report required.
Credit Hour: 1-99

NEP 7590: Community Nutrition
(cross-leveled with NEP 4590). Public health nutrition and chronic disease prevention, food security, nutrition programs and food access, public policy, sustainable agriculture and production systems, cultural food practices, needs assessment. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Nutrition course or instructor's consent

NEP 7950: Research in Dietetics
(cross-leveled with NEP 4950). Introduction to research, including the relationship of basic, clinical, and outcomes-based research to dietetics practice. Defining research problems in a dietetics practice setting, developing hypotheses, reviewing scientific literature, writing research protocols, analyzing data. Lecture course.
Credit Hours: 2
Prerequisites: statistics course

NEP 7970: PANHP Capstone: Sports Nutrition
(cross-leveled with NEP 4970). Integration of research literature with knowledge from previous coursework, emphasis on sports nutrition research, nutrient requirements of athletes, critical evaluation of ergogenic aids. Graded on A-F basis only. Prerequisites: C or better in all pre-reqs: NEP 2340, and either MPP 3202 or BIO_SC 3700, and either STAT 1200 or ESC_PS 4170; Senior standing. Restricted to Nutrition and Fitness or Physical Activity, Nutrition and Human Performance majors only.
Credit Hours: 2
Prerequisites: NEP 7340

NEP 8001: Topics in Nutritional Sciences and Exercise Physiology
Instruction in specific subject matter areas in the field of nutrition science and exercise physiology. May be repeated for credit. Graded on A-F basis only.
Credit Hour: 1-3

NEP 8030: Etiology of Obesity
This course is designed to provide an understanding of the cause and implications of human obesity. General topic areas covered will include: methodologies of obesity research, physiology of obesity, behavioral and environmental factors influencing obesity, obesity and disease, therapeutic approaches to obesity, and emerging topics in obesity. The structure of this course will be mixture of lectures and interactive discussions/reviews of primary research articles in these areas. Students will be expected to present and critically evaluate research papers relevant to the field of obesity.
Credit Hours: 3
Prerequisites: NEP 7340

NEP 8085: Problems in Nutritional Sciences and Exercise Physiology
Individual studies include a minor research problems.
Credit Hour: 1-99

NEP 8087: Masters Seminar in Nutritional Sciences and Exercise Physiology
Seminars feature expert presentations of current research and issue-based applications that represent the breadth of nutritional sciences and/or exercise physiology. Graded on S/U basis only.
Credit Hour: 1

NEP 8090: Masters Research in Nutritional Sciences and Exercise Physiology
Original investigation of advanced nature, leading to thesis. Graded on a S/U basis only.
Credit Hour: 1-99

NEP 8095: Internship in Exercise Physiology
The internship experience will take place in professionally supervised settings, and allow students to complement their academic work with employment-related experiences. Organizations, companies and business that offer internships can be selected to match with student interests. This experience will offer the student meaningful learning opportunities that will complement their career goals.
Credit Hours: 4
Prerequisites: must be accepted into the Exercise Physiology graduate program, 3.0 GPA or higher, completed 50% of the coursework at the masters level

NEP 8125: Preventive and Therapeutic Exercise Physiology
Graduate level course designed to prepare Masters Candidates for a career in Clinical Exercise Physiology. Students will be provided opportunities to develop knowledge, skills, and ability to work with individuals with diverse range of chronic diseases and disabilities. Graded on A-F basis only.
Credit Hours: 3

NEP 8127: Advanced Physiological Assessment and Exercise Prescription
Graduate Level course designed to enhance the Exercise Science student's knowledge and skills in the administration of appropriate physiological assessments and the interpretation of the results from those tests. Course Objectives: 1) Understand the nature and importance of physiological assessments. 2) Understand the measurable components of physical fitness and how each of them relates to overall health. 3) Become familiar with and conduct various tests of physical and performance related parameters.
Girth measurements, skin folds, bioelectrical impedance; BODPOD, DEXA; Cardiorespiratory Fitness - Resting measurements, submaximal protocols; VO2max testing; Musculoskeletal Fitness - Muscular strength and endurance testing; flexibility testing. 4) Interpret results of various test batteries conducted in class. 5) Understand limitations of tests conducted in class. 6) Develop research thesis ideas for comparison of techniques. Graded on A-F basis only.

Credit Hours: 3

NEP 8220: Cardiovascular Disease and Exercise
Advanced study through readings and discussion of selected topics related to cardiovascular risk and disease development, including hypertension, endothelial dysfunction, vascular insulin resistance, arterial stiffness, atherosclerosis and heart failure, with a particular emphasis on the effects of physical activity and exercise. Special focus will also be placed on understanding the links between lack of physical activity, metabolic disorders, and increased cardiovascular risk. Graded on A-F basis only.

Credit Hours: 3
Recommended: Undergraduate level exercise physiology is highly recommended

NEP 8310: Nutritional Biochemistry of Lipids
(same as AN_SCI 8431 and NUTRIT 8310). Current concepts in the nutritional regulation of lipid metabolism. Emphasis on integrating information and interpreting current research data.

Credit Hours: 3
Prerequisites: BIOCHM 4270 and BIOCHM 4272

NEP 8340: Nutrition in Human Health
(same as NUTRIT 8340). Nutritional aspects of maintaining human health with emphasis on micronutrients, basis for dietary recommendations, and nutrition public health initiatives. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: BIOCHM 4270 and BIOCHM 4272; 4000-level nutrition course; graduate standing or current enrollment in the Masters in Dietetics Program

NEP 8380: Medical Nutrition Therapy III
In-depth study of physiological/biochemical changes in advanced selected disease states focusing on special complex clinical issues of infants, children, and the geriatric population, as well as investigation into cutting edge treatments for these special populations. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: NEP 7380; Coordinated Program students in Masters in Dietetics only

NEP 8501: Hot Topics in Nutrition, Exercise and Disease
This course addresses various topics and examine the interaction of nutrition and exercise/physical activity on these topics. The topics and assignments will focus on a specific physiological topic and how nutrition and exercise can either prevent disease and/or possibly minimize disease progression. The topics in this course will focus on current hot topics in the literature and the format will vary by instructor, but may include didactic, seminar, journal club style, presentations, etc. Graded on A-F basis only.

Credit Hour: 1-3

NEP 8580: Advanced Exercise Physiology
Lectures, laboratory experiences, and readings in current literature to provide reasonable depth in selected areas of physiology as applied to activity and health.

Credit Hours: 3
Prerequisites: NEP 4850 and Chemistry

NEP 8860: Exercise Endocrinology
The nervous system and the endocrine system integrate to regulate the functions of the body. These systems are tightly linked and frequently one system cannot be considered without consideration of the other system. This course integrates endocrine physiology and the impact that exercise has on the endocrine response. This class will focus on the glands producing hormones, the target organs, mechanisms and how both acute and chronic exercise impacts hormone action. This is an advanced exercise physiology course designed for graduate students in Exercise Physiology or the life sciences and will consist of lectures, readings and discussion. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: NEP 8850, V_BSCI 8420 or graduate standing in the Life Sciences

NEP 8870: Exercise Metabolism
Review of major metabolic pathways and the effect of exercise upon them. Special topics include indirect calorimetry, EPOC, anaerobic threshold; weight control, ergogenic aids, and exercise nutrition.

Credit Hours: 3
Prerequisites: NEP 4850 and Chemistry

NEP 8975: Dietetics Supervised Practice Experience
This course provides supervised practice for students in their final semester in the Coordinated Program in Dietetics at the University of Missouri. Supervised practice is designed to provide quality nutrition experiences in clinical, community and management settings. Students are in their field sites for 40 hours/week for supervised practice for approximately 13 weeks. In addition, classblocks are held in Columbia three times throughout the semester for a total of approximately three weeks (may also include supervised practice activities). Graded on A-F basis only.

Credit Hours: 10
Prerequisites: For dietetic students in their final semester in the Coordinated Program (CP) only. Consent required

NEP 9087: Doctorate Seminar in Nutritional Sciences and Exercise Physiology
Seminar features expert presentations of current research and issue-based topics that represent the breadth of nutritional sciences and exercise physiology. Graded on S/U basis only.

Credit Hour: 1
NEP 9090: Doctorate Research in Nutritional Sciences and Exercise Physiology
Original investigation of advanced nature, leading to a dissertation. Graded on a S/U basis only.
Credit Hour: 1-99

Obstetrics And Gynecology Courses

OB_GYN 6004: Obstetrics/Gynecology Clerkship
Students rotate on the obstetric service, the gynecology service and the gynecologic oncology service, seeing a broad range of patients in both inpatient and outpatient settings. In addition, they attend lectures and interactive case presentations.
Credit Hours: 8
Prerequisites: OB_GYN 6004 Clerkship, received unsatisfactory grade

OB_GYN 6014: Rural Obstetrics/Gynecology Clerkship
Rural Obstetrics/Gynecology Clerkship
Credit Hours: 8

OB_GYN 6024: Springfield Obstetrics and Gynecology Clerkship
Students rotate on the obstetric service, the gynecology service and the gynecologic oncology service, seeing a broad range of patients in both inpatient and outpatient settings. In addition, they attend lectures and interactive case presentations.
Credit Hours: 8
Prerequisites: successful completion of the first two years of medical school

OB_GYN 6041: SCC Gynecologic Surgical Oncology Selective
The medical student will work as a member of the Gynecologic Oncology team providing hands-on clinical and surgical services in the inpatient, outpatient, and consultative settings. Students will learn using a variety of evidence-based resources, on-line resources, and from clinical dialogue with the members of the health care team.
Credit Hours: 5
Prerequisites: Successful completion of the first two years of medical school and the OB/GYN Clerkship

OB_GYN 6053: OB/GYN Clinical Reproductive Endocrinology
The fourth-year student will work as a member of the Reproductive Endocrinology and Infertility team, providing hands-on clinical and surgical services in the inpatient, outpatient and consultative settings. The medical student will participate in daily outpatient clinic and any observe surgical services related to care of those patients. Students will learn using a variety of evidence-based resources, on-line resources and from clinical dialogue with the members of the care team.
Credit Hours: 5
Prerequisites: Ob-Gyn Clerkship

OB_GYN 6065: Maternal-Fetal Medicine Selective
Goals/Objectives: To expose the student to high-risk obstetrical experiences in the Maternal Fetal Medicine division. All obstetrical selectives are done at Women's and Children's Hospital.
Credit Hours: 5
Prerequisites: Ob-Gyn Clerkship

OB_GYN 6865: Obstetrical
Goals/Objectives: To provide the student with additional obstetrical experience in the Labor and delivery suite. All obstetrical electives are done at the Missouri Ob/Gyn Associates Clinic and Women's and Children's Hospital. Evaluations: The student will be graded on their ward performance. An evaluation for this rotation will be completed by the appropriate faculty and resident physicians. Notes: While on this rotation students will have exposure to various faculty members, residents, and
fellow medical students. Students will participate in the evaluation of patients on labor and delivery including those presenting for evaluation of first trimester problems and labor evaluations. Some participation in operative procedures and labor management is expected. Students will have exposure to antenatal testing and ultrasonography including the interpretation of ultrasounds and limited participation in genetic counseling and invasive ante-partum diagnostic procedures is expected. Night call will be required and can be worked into the core rotation’s student call schedule. Teaching will be on an ongoing bases with Dr. Floyd keeping daily routine with the students expected to participate in management decisions.

Credit Hours: 5
Prerequisites: Ob-Gyn Clerkship. Core reading for this rotation will include Obstetrics, Normal and Problem Pregnancies, latest edition, edited by Gabbe, Niebyl and Simpson

OB_GYN 6867: Obstetrical/Gynecological Outpatient
Obstetrical/Gynecological Outpatient
Credit Hours: 5

OB_GYN 6868: Urogynecology Selective
The 4th year medical student will work as part of a team providing hands-on clinical services in an inpatient, outpatient, and consultative setting. Students will participate in daily morning report, weekly didactic sessions, weekly surgical procedures and Friday afternoon seminars. Students will learn using a variety of evidence-based resources and direct faculty interaction. Successful completion of one of the core Obstetrics and Gynecology Clerkship courses: OB_GYN 6004 or OB_GYN 6014, and/or OB_GYN 6104.

Credit Hours: 5
Prerequisites: Successful completion of the first two years of medical school

OB_GYN 6930: Obstetrics/Gynecology Outpatient Two-Week Elective
The 3rd or 4th year medical student will work as part of a team providing hands-on clinical services in an outpatient setting. Students will participate in daily clinic evaluations of patients. Students will learn using a variety of evidence-based resources and direct faculty teaching. Students will also participate in weekly teaching didactics within the OB/GYN department such as Grand Rounds.

Credit Hours: 2
Prerequisites: Successful completion of the first two years of medical school

OB_GYN 6937: Ultrasound Two Week Elective
To provide additional clinical ultrasound experience in the outpatient setting. Students will learn how to integrate acquired knowledge and concepts; then apply them in the management of patients in an outpatient OB/GYN setting.

Credit Hours: 2
Prerequisites: Successful completion of the first two year of medical school

OB_GYN 6960: Gynecologic/Oncology Surgery
Goals/Objectives: To provide the student with additional surgical and gynecological clinical experience. All gynecologic surgical electives are performed at Ellis Fischel Cancer Center and the University Hospital. Evaluations: An evaluation for this rotation will be completed by the elective chairmen and appropriate resident physicians. The students will be graded on their clinic, ward, and operating room performance. Note: While on this rotation, students will have exposure to faculty members, three residents, and other fellow medical students. They will have the opportunity to assist in gynecologic oncology surgical cases, attend tumor clinics where they will encounter various procedures such as colposcopies, cryotherapy, and cervical and endometrial biopsies. A copy of a representative weekly schedule is available from the department student coordinator. In addition, students will be required to make two ten minute presentations with audio-visual aids on assigned topics. The students will not take night call, but are expected to attend patient rounds on weekdays and weekends with the residents. The department also holds conferences on Tuesdays and Thursdays which are to be attended. Core reading for this rotation will include Clinical Gynecologic Oncology by DiSaia and Creasman.

Credit Hours: 5
Prerequisites: Ob-Gyn Clerkship

OB_GYN 6963: SCC OB GYN Outpatient 2-Week Elective
Third or fourth year medical student(s) will work as a member of the team providing hands on OB-GYN clinical and surgical services in outpatient and consultative settings. Students will participate in the daily clinical care setting and mini lectures throughout the week. Students will learn using a variety of evidence-based resources including online references, case conferences, and daily clinical dialogue with members of the care team.

Credit Hours: 2
Prerequisites: Successful completion of the first two years of medical school

OB_GYN 6964: Obstetrics/Gynecology Offsite Advanced Selective
Obstetrics/Gynecology Offsite Advanced Selective
Credit Hours: 5

Occupational Therapy Courses
OC_THR 1000: Introduction to Occupational Therapy
Introductory course to provide students information about the occupational therapy profession. Registered therapists lecture on clinical aspects. Students participate in discussions on program requirements, placement, and trends in the profession.

Credit Hour: 1

OC_THR 4085: Problems in Occupational Therapy
Independent investigation leading to the completion of a project or paper. Repeatable upon consent of department.

Credit Hour: 1-99
Prerequisites: Instructor's consent
Recommended: Junior standing
**OC_THR 5010: Professional Development**
This course provides a foundation for understanding professional development as students evolve into occupational therapy practitioners. Students are provided an introduction to professional associations, legislative processes affecting occupational therapy practice, and requirements for initial and ongoing professional registration, certification, and licensure. Students examine how occupational therapists interface with other stakeholders within a complex healthcare environment to ensure that the occupational needs of individuals and communities are met. Advocacy and ethical decision making as a part of contemporary practice are also introduced. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Restricted to Occupational Therapy students

**OC_THR 5020: Foundations and Theory in Occupational Therapy**
Historical, philosophical, and conceptual foundations of occupational therapy practice will be analyzed for the purpose of understanding current standards and models of practice. As a core concept of occupational therapy practice, students will be expected to analyze therapeutic activities to assure the therapy process is client and occupation centered. Concepts of occupation, occupational balance, and occupational justice will be addressed as related to contemporary domestic and global issues. Students will discover the value of professional organizations and learn how to access and utilize official documents of the OT profession. Development of a professional occupational therapy identity and methods to further personal and professional growth will be explored. Students will develop a foundational knowledge of occupational therapy management and the role of the occupational therapist in the supervision of OT assistants and OT students. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Restricted to Occupational Therapy students only

**OC_THR 5030: Human Development and Occupation**
Overview from an occupational perspective of typical development from infancy through adolescence and the biopsychosocial development and aging process from young adulthood through end of life. Emphasis on the impact of personal and contextual factors on occupational development throughout the lifespan. This course will contain a variety of instructional methods including online learning, lecture, lab, and active learning assignments. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Restricted to Occupational Therapy students

**OC_THR 5100: Introduction to Interprofessional Practice**
(same as PH_THR 5100; cross-leveled with HTH_PR 7100, HTH_PR 4100). This course serves as a foundation and introduction to interprofessional education and collaboration. Students who enroll in this course will be assigned to mini-teams of students from a range of disciplines. Through this course, students will develop an understanding of their own unique role as a healthcare provider and the importance of client- and community-centered care and effective teamwork, as well as communication skills.

**Credit Hour:** 1

**OC_THR 5110: Introduction to Evidence-Based Practice**
This course will introduce you to the importance of research for the profession of occupational therapy and provide you with basic skills necessary to locate, evaluate, and incorporate evidence into clinical practice. All of the classwork, assignments, and journal clubs are designed to provide you with the opportunity to put into practice the ideas, language, and components of research that are presented in the readings, lectures, and discussions. Writing assignments, interactive journal clubs, blog posts, and critical appraisals will be the methods of assessing your understanding of the material and assist you in learning how to communicate your understanding of evidence to support occupational therapy practice. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Restricted to Occupational Therapy students

**OC_THR 5120: Principles of Assessment**
This course introduces foundational knowledge regarding assessment as part of the occupational therapy process. Students will develop an understanding of the complexity of assessment for individuals with a wide range of limitations in various areas of practice that reflects occupation and evidence and occupation based practice. Throughout the course, students will be provided with opportunities to develop self-reflection and critical thinking skills as they integrate knowledge of the human condition and the occupational needs of those served. Students will also develop an understanding of how assessment is guided by theoretical knowledge and clinical reasoning. An increased understanding of the role of the OT as a member of the healthcare assessment team within an ever evolving society is also addressed. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Restricted to occupational therapy students only

**OC_THR 5130: Conditions in Occupational Therapy**
This course introduces students to a variety of health conditions relevant to occupational therapy practice and each condition's potential impact on client factors and performance skills as they relate to occupational performance across the lifespan. Course content includes an overview of developmental, mental health, neurological, orthopedic, traumatic, and chronic health conditions commonly addressed in occupational practice settings. Graded on A-F basis only.

**Credit Hour:** 1  
**Prerequisites:** Restricted to occupational therapy students

**OC_THR 5140: Human Motion and Occupation**
Daily occupation will be explored through human movement within the context of the physical environment. Students will learn to analyze common activities while taking into account body structures and functions, activity demands, environmental supports, and technology supports. Assessment of human movement and movement-related deficits will be addressed and methods for adapting the environment and selecting appropriate assistive technologies will be introduced. Graded on A-F basis only.

**Credit Hours:** 4  
**Prerequisites:** Restricted to Occupational Therapy students only

**OC_THR 5150: Concepts of Neuroscience**
This foundational course uses a systems-based approach to examine the major structures and functions of the human nervous system. The content will explore the effects of a normal and abnormal nervous system on occupational performance. Theories, evaluation, and treatment topics
related to the neurological system will be introduced. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: Restricted to occupational therapy students

OC_THR 5160: Psychosocial Aspects of Occupational Therapy
This course will engage students in the examination of the role of the occupational therapist in the promotion of mental health and wellness in a variety of clinical and community based contexts. Throughout this course students will demonstrate entry-level clinical competence in both the therapeutic use of self and in providing group interventions for clients represented by a wide range of developmental levels. Students will actively explore course content through self-guided learning, hands on and practical learning experiences including leadership of group interventions and development of service delivery plans. Upon completion of this course, students will synthesize knowledge of mental health conditions, sociocultural factors, occupational justice, and theory related to recovery and mental health interventions to develop roles for occupational therapists in addressing societies’ occupational and mental health needs. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Occupational Therapy students only

OC_THR 5210: Adult Practice
This course utilizes active learning methodologies to engage students in learning about occupational therapy intervention with the adult population in various practice settings. Students will use assessment results and activity analysis in combination with evidence and clinical reasoning to guide intervention planning for enhancing occupational performance. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: Restricted to Occupational Therapy Students only

OC_THR 5220: Pediatric Practice
This course is designed to provide students with an understanding of common frames of reference and theories utilized in pediatric practice, as well as increase student understanding of the interplay of common conditions and the influence of conditions on participation in the home and community and the role of the occupational therapist with children and as a member of the therapeutic team. Emphasis is also placed on development of clinical reasoning skills and implementation of evidence based practice. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: Restricted to occupational therapy students

OC_THR 5230: Application of Evidence Based Practice
This course will expose you to the process of writing a research proposal. Specific topics include writing an answerable research question, literature searching, research ethics and Institutional Review Boards (IRBs), study designs, methods for recruitment, data collection, and data analysis, and funding for research. You will work with a group (or individually) to prepare a research proposal for a clinically-relevant question. Guest speakers from various healthcare fields (including physical therapy, communication sciences disorders, and medicine) will enhance learning. This course is held in conjunction with the 1 credit OC_THR 5231 - Application of Evidence Based Practice Mentor Hour. Students will meet with a faculty mentor weekly to review progress on the proposal. Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites: Restricted to Occupational Therapy students

OC_THR 5231: Application of Evidence Based Practice - Mentor Hour
This course is the 1-credit mentor hour that is associated with OC_THR 5230: Application of Evidence Based Practice. The student will meet with the research faculty mentor for 1 hour per week with additional work and meetings as appropriate. Graded on S/U basis only.

Credit Hours: 1
Prerequisites: Restricted to Occupational Therapy students

OC_THR 5240: Clinical Reasoning and Documentation
This course focuses on developing the observation, clinical reasoning, and documentation skills necessary in effectively reporting occupational therapy services across practice settings. Students are also introduced to ethical, legal, and reimbursement policies impacting occupational therapy documentation. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: Restricted to Occupational Therapy students only

OC_THR 5250: Emerging Trends in Occupational Therapy
Students explore contextual factors associated with individual and population access to quality rehabilitation, health, and wellness services in societies and communities. Using their knowledge of the changing landscape of occupational therapy service delivery, students will assess the potential roles of occupational therapists in strengthening the health and wellness of communities and populations. Additionally, students will explore ways in which occupational therapists can collaborate and partner with organizations and communities to promote the full inclusion and participation of individuals in all aspects of society. Students will explore and negotiate innovative ways to deliver occupational therapy services in non-traditional clinical practice settings. Graded on A-F basis only.

Credit Hour: 1

OC_THR 5260: Occupational Therapy Practicum I
This clinical course is designed to provide students an opportunity to implement the occupational therapy process with individuals experiencing limitations in occupational performance. Through this hands-on experience, students will gain opportunities for application of theory and a deepened understanding of occupational therapy practice by identifying strengths and limitations during the evaluation process, developing and measuring client-centered goals, planning and executing interventions, implementing home programs, and preparing and performing discharge procedures. Graded on S/U basis only.

Credit Hours: 2
Prerequisites: Restricted to Occupational Therapy Students only

OC_THR 5310: Advanced Practice Strategies
Students will learn to synthesize knowledge regarding common conditions seen in children and adults and understand functional implications related to occupational performance. Students will also gain a greater understanding of the role of the occupational therapist
across settings when working with children and adults in contemporary society. Learning will culminate with students applying theory and an understanding of cognitive, mental, physical and sensory contributions to occupational performance when developing assessment and intervention plans. Exploration and application of evidence-based practice is an essential component of this course. Graded on A-F basis only.

**Credit Hours:** 4  
**Prerequisites:** Restricted to occupational therapy students

### OC_THR 5320: Performance, Participation, and Well-Being

Students will explore occupational performance and participation in daily life through the lenses of health promotion and prevention. The factors that contribute to individuals' lifestyle and health choices including culture, diversity, and disability, will be discussed. Topics such as health literacy and self-management will be covered in relation to participation. Contextual factors and the environment, from narrow to broad in scope, are also the focus of this course. Environmental modifications, assistive technologies, compensatory strategies, and advanced strategies for grading and adapting tasks to support occupational performance will be explored in depth beyond introductory coursework. Other non-traditional contexts for participation such as work integration, driving, community mobility and transportation will also be explored. Graded on A-F basis only.

**Credit Hours:** 2  
**Prerequisites:** Restricted to Occupational Therapy students

### OC_THR 5330: Functional Cognition

This course provides an overview of theoretical models of cognitive function, an overview of an occupational therapy cognitive assessment framework and assessment tools, and an introduction to models of intervention for working with individuals with cognitive disabilities across the lifespan. Graded on A-F basis only.

**Credit Hours:** 2  
**Prerequisites:** Restricted to Occupational Therapy Majors

### OC_THR 5340: Evidence Based Practice Seminar

Students who wish to pursue this one credit seminar option will implement the proposal that was designed during OC_THR 7830 - Application of Evidence-Based Practice. Working with a research mentor, the student will carry out the proposed research project including data collection, data analysis, and dissemination. Graded on A-F basis only.

**Credit Hour:** 1  
**Prerequisites:** Restricted to Occupational Therapy students

### OC_THR 5410: Case Based Learning

Integrates clinical reasoning and critical thinking, client-centered practice, and evidence-based decision making into the occupational therapy process across the lifespan in various practice domains. Problem-based methodology emphasizes small group learning and problem solving, self/peer evaluation, and self-directed learning. Graded on A-F basis only.

**Credit Hours:** 4  
**Prerequisites:** Restricted to Occupational Therapy students

### OC_THR 5420: Populations and Communities

This course provides students with foundational knowledge and background of the broad concept of community and community based practice in occupational therapy. Students will explore community health, wellness, occupational and social justice, and health disparities. Discovering the role and emerging roles of OT in addressing social and community issues will occur through reading, reflection, discussion, and other assignment work. Graded on A-F basis only.

**Credit Hours:** 4  
**Prerequisites:** Restricted to occupational therapy students

### OC_THR 5430: Leadership, Management, and Policy

This course will provide an overview of the leadership and management responsibilities of occupational therapy leaders in varying practice settings. The significance of public and organizational policy will be discussed as related to service delivery and advocacy of consumer access to occupational therapy services. Content includes the supervisory roles of occupational therapists, professional standards of practice, ethics in practice, quality improvement activities, and the importance of professional competencies. The course content also includes leadership and mentoring of individuals and teams to provide evidence-based, occupation-based, and client-centered practice across a wide range of socio-cultural contexts. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Restricted to Occupational Therapy students

### OC_THR 5440: Contemporary Issues in Occupational Therapy

This course focuses on the integration of clinical skills, professionalism, and current trends and topics in occupational therapy. Students will engage in direct application of knowledge through a variety of experiences and guided assignments. Collaboration with other professionals will be explored in the context of client supports, referrals, and supervision of OTAs. Students will determine appropriate interventions for clients and populations considering reimbursement, in terms of group design, home programming, and appropriate discharge from services. Graded on A-F basis only.

**Credit Hours:** 2  
**Prerequisites:** Restricted to Occupational Therapy students

### OC_THR 5450: Occupational Therapy Practicum II

This course is designed to further advance practice skills and an understanding of the occupational therapy process through diverse experiences. Opportunities will be provided to increase professional development through application of evidence based practice in action. An increased emphasis and understanding of the role of families and caregivers, other stakeholders such as providers and service agencies and the greater community as they relate to occupational therapy practice are also addressed. Graded on S/U basis only.

**Credit Hours:** 3  
**Prerequisites:** Restricted to occupational therapy students only

### OC_THR 5460: Professional Seminar

This course requires students to apply and integrate information that they have learned throughout their professional coursework about the various roles of occupational therapists as practitioners, scholars, educators, and advocates. Students will reflect upon personal and professional competencies as they relate to the stated ability-based outcomes of the MU OT Department's curriculum design and each student's future career goals. They will design a plan for ongoing professional development as they prepare for transition to Level II Fieldwork and entry-level practice.
To facilitate this process, this course requires students to review the AOTA Code of Ethics, AOTA Standards of Practice, AOTA Standards for Continuing Competence, and other AOTA Official Documents that guide occupational therapy practice. Students will also explore various resources for fieldwork, certification exam preparation, entry-level practice, professional development, involvement in professional associations, making ethical decisions, and resolving conflicts. Students will update their professional resume and develop a plan for employment search as they approach graduation. Graded on A-F basis only.

**Credit Hours:** 1  
**Prerequisites:** Restricted to Occupational Therapy students

---

**OC_THR 5510: Fieldwork Level II-A**  
In-depth practicum experience in delivering occupational therapy services to clients. Designed to promote clinical reasoning and reflective practice. Settings include traditional and emerging areas of occupational therapy practice. Emphasis on hands-on experiences and translation of theory into practice. Graded on S/U basis only.

**Credit Hours:** 6  
**Prerequisites:** Restricted to occupational therapy students

---

**OC_THR 5520: Fieldwork Level II-B**  
In-depth practicum experience designed to produce competent, entry-level, generalist occupational therapists. Settings include traditional and emerging areas of occupational therapy practice. Emphasis on hands-on experiences and translation of theory into practice. Graded on S/U basis only.

**Credit Hours:** 6  
**Prerequisites:** Restricted to occupational therapy students

---

**OC_THR 5610: Theoretical Concepts of OT**  
Conceptual foundations of occupational therapy practice will be analyzed for the purpose of understanding current standards and models of practice. Concepts of occupation, occupational balance, and occupational justice will be addressed as related to contemporary domestic and global issues.

**Credit Hours:** 3  
**Prerequisites:** Acceptance into the Professional OT program is required

---

**OC_THR 5620: Evidence Based Practice**  
In order to be effective practitioners, educators and clinical researchers; occupational therapists must possess a foundational understanding of the research process including the structure of qualitative and quantitative studies, methodologies and an understanding of basic statistical applications. Students will locate and critique various forms of OT literature to inform practice decisions. At the completion of this course, students will be able to locate, evaluate and incorporate evidence into clinical practice. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites or Corequisites:** Acceptance into the Occupational Therapy Program  
**Prerequisites:** Students must be accepted into the professional Occupational Therapy Program in order to take this course

---

**OC_THR 5630: Community Based OT Practice**  
This course provides students with foundational knowledge and background of the broad concept of community and community-based practice in occupational therapy. Students will explore community health, wellness, occupational and social justice, and health disparities. Discovering the role and emerging roles of OT in addressing social and community issues will occur through reading, reflection, discussion, and other assignments. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Acceptance into the Professional Occupational Therapy program

---

**OC_THR 5650: Self-directed OT Practicum**  
Students will work with a faculty mentor on a self-selected project related to a practice area of interest. This course will help students identify options for the doctoral capstone project and experience. Graded on S/U basis only.

**Credit Hours:** 3  
**Prerequisites:** Admission to the professional Occupational Therapy program

---

**OC_THR 5999: Problems in Occupational Therapy**  
Independent investigation leading to the completion of a project or paper. Repeatable upon consent of department. May be offered on S/U or A-F basis.

**Credit Hour:** 1-99

---

**OC_THR 6010: Advanced Occupation Based Practice**  
This course focuses on examination of occupation-based practice across diverse OT settings and throughout the history of the profession. Students will reflect on fieldwork and/or related work experiences in OT practice settings and compare and contrast those experiences to theory and policy that affect OT practice. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Enrollment in occupational therapy program

---

**OC_THR 6030: OT Practicum III**  
This course is designed to provide students the opportunity to develop a mentoring relationship with both faculty and other students in the foundational phase of OT learning. Students will apply practice knowledge as well as relevant evidence through diverse experiences. Opportunities for leadership, reflection, and collaboration will be provided. This course is meant to complement content from concurrent courses in the same semester. Graded on A-F basis only.

**Credit Hours:** 2

---

**OC_THR 7085: Problems in Occupational Therapy**  
Independent investigation leading to the completion of a project or paper. Repeatable upon consent of department. May be offered on S/U or A-F basis.

**Credit Hour:** 1-99
Ophthalmology Courses

OPHTH 6050: SCC Introduction to Ophthalmology
This curriculum is designed to introduce you to the specialty of ophthalmology, which involves the recognition, diagnosis, and management of diseases of the eye. Students will work in the outpatient setting seeing patients Monday through Friday. The primary clinic for this course may be in Bolivar or Springfield. Students on the Ophthalmology elective are integrated into the outpatient, inpatient, and surgical care programs as if they were beginning first-year resident physicians in the specialty. They are taught ophthalmic instrumentation, ophthalmological examination techniques, and the fundamentals of ocular surgical procedures.

Credit Hours: 5
Prerequisites: Surgery Clerkship

OPHTH 6323: ABS Ophthalmology Research
ABS Ophthalmology Research
Credit Hour: 5-10

OPHTH 6585: Ophthalmology
Ophthalmology
Credit Hours: 5

OPHTH 6903: SCC Ophthalmology Two Week Elective
This curriculum is designed to introduce you to the specialty of ophthalmology, which involves the recognition, diagnosis, and management of diseases of the eye. Students will work with an attending Ophthalmologist from the Springfield Clinical Campus. This may involve travel to Bolivar. During this 2 week elective, students will become familiar with the screening eye examination, learn to perform a more comprehensive ocular examination, learn about common ocular abnormalities and treatments, and become familiar with the common ophthalmic instruments.

Credit Hours: 2
Prerequisites: Successful completion of the first two years of medical school

OPHTH 6936: Introduction to Ophthalmology
Welcome to the Ophthalmology Elective. This curriculum is designed to introduce you to the specialty of ophthalmology, which involves the recognition, diagnosis, and management of diseases of the eye. Students will work in the outpatient setting seeing patients at the University Eye Institute. Students will participate in didactic sessions each week. During this 2 week elective, students will become familiar with the screening eye examination, learn to perform a more comprehensive ocular examination, learn about common ocular abnormalities and treatments, and become familiar with the common ophthalmic instruments.

Credit Hours: 2
Prerequisites: successful completion of the first two years of medical school

OPHTH 6990: Ophthalmology Surgical Selective
The medical student will be exposed to the full spectrum of medical and surgical ophthalmology. The medical student will work alongside Ophthalmology attendings, fellows, and residents in outpatient clinics and in the operating room. The medical student will take histories and perform ocular examinations in an outpatient setting. The medical student will observe inpatient consultations and operating room procedures.

Credit Hours: 5
Prerequisites: Successful completion of 5 of the 7 core clerkships

Parks, Recreation, Sport & Tourism Courses

PRST 1010: The American Leisure Experience
History of recreation and leisure movement; theories and philosophies of play, recreation and leisure. Developmental stages of leisure services to contemporary status. Graded on A-F basis only.

Credit Hours: 3

PRST 1011: Academic Planning and Career Orientation in Parks, Recreation and Tourism
Orientation to the field and analysis of career opportunities in leisure services. Academic planning leading to B.S. in parks, recreation and tourism. Graded on S/U basis only.

Credit Hour: 1
Recommended: Parks, Recreation and Sport Major

PRST 1081: Sport Facility Design
This course will investigate the functions of management in terms of design, implementation, operating and financing public assembly facilities in order to help sell the sport product. Venues such as public and private arenas, coliseums and stadiums will be studied. Graded on A-F basis only.

Credit Hour: 1
Prerequisites or Corequisites: PRST 2010
Prerequisites: May be restricted to Parks, Recreation, and Tourism majors
Corequisites: PRST 2082, PRST 2083

PRST 1084: Recreational Shooting Sports
This course provides introductory instruction and hands-on shooting with an introduction to shooting range management. Graded on A-F basis only.

Credit Hour: 1
Prerequisites: instructor's consent

PRST 2010: Foundations of Sport
This course will examine the meaning of sport management in terms of its history, scope, principles, issues and future trends. In addition, this course examines the job responsibilities and competencies required of sport managers in a variety of sport organizations. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Parks, Recreation and Sport Major

PRST 2060: Tourism Management
Introduction to the scope and scale of the tourism industry. Focus on the industry components, concepts, structures, relationships, and issues with regard to accommodation, transportation, travel, regional development,
political system, and the economic, social and environmental effects of tourism. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** PRST 1011

---

**PRST 2080: Global Sport Environments**
This course will provide an overview of organization and management of domestic and international sport, including the Olympic movement and examination of the globalization of U.S. professional sports. The course will also look into facility design and technology used in sports environment. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Parks, Recreation and Tourism; Parks, Recreation and Sport Major

---

**PRST 2082: Domestic and International Sports Environment**
This course will provide an overview of organization and management of domestic and international sport, including the Olympic movement and examination of the globalization of U.S. profession sports. Graded on A-F basis only.

**Credit Hour:** 1  
**Prerequisites or Corequisites:** PRST 1010  
**Corequisites:** PRST 1081, PRST 2083

---

**PRST 2083: Technological Advancement in Sport**
This course will teach students how to solve sports technology problems they will face in their future career, plus develop computer aided design and manufacturing skills. They will also gain skills in team work, communication and presentation, IT, research and project management. Graded on A-F basis only.

**Credit Hour:** 1  
**Prerequisites or Corequisites:** PRST 1010  
**Corequisites:** PRST 1081, PRST 2082

---

**PRST 2101: Topics in Parks, Recreation, Sports and Tourism**
Specialized topic content in parks, recreation and tourism programs, management and/or development. Subject content and credit may vary by semester based on faculty resources and student needs. Offered periodically.

**Credit Hour:** 1-3

---

**PRST 2101W: Topics in Parks, Recreation, Sports and Tourism - Writing Intensive**
Specialized topic content in parks, recreation and tourism programs, management and/or development. Subject content and credit may vary by semester based on faculty resources and student needs. Offered periodically.

**Credit Hour:** 1-3

---

**PRST 2107: Aquatics Science**
A scientific perspective on water chemistry, preventive maintenance of aquatic facilities with an emphasis on the newest safety and engineering design information and construction techniques. Graded on A-F basis only.

**Credit Hours:** 3

---

**PRST 2111: Park Planning and Design**
Presentation of basic planning principles. Evaluation of existing areas and facilities based upon planning guidelines. Consideration of park plans, standards, terminology, map preparation and evaluation.

**Credit Hours:** 3

---

**PRST 2115: Practicum Experience**
An organized undergraduate experiential learning opportunity. In which students and faculty visit identified cities to meet with professionals in the field, tour parks, recreation, sport and tourism venues and network with professionals.

**Credit Hour:** 1-3  
**Prerequisites or Corequisites:** PRST 1011  
**Prerequisites:** Instructor's consent

---

**PRST 2281: Business of Sport and Recreation**
This course focuses on the business side of sport management, considering issues of marketing, sponsorship, and sales. Students will also be presented with actual models relevant to working in sales in the competitive sport environment. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Parks, Recreation and Sport Major

---

**PRST 2355: Private and Commercial Recreation Principles and Practice**
Considers principles, practices, influences in public/private leisure services; influence of tourism/travel on public/private recreation services. Graded on A-F basis only.

**Credit Hours:** 3

---

**PRST 2711: Experience Internship**
This course is designed as an independent study for students to gain professional experience. Graded on A-F basis only.

**Credit Hour:** 1-3  
**Prerequisites:** PRT/PRST Major and Instructor Consent

---

**PRST 2750: Methods in Research and Evaluation**
An overview of social research methods, including terms, human and scientific inquiry, ethical behavior, literature review, sampling questionnaire construction, types of data collection, statistical analysis, and reporting of results. Graded on A-F basis only.

**Credit Hours:** 3

---

**PRST 3101: Topics in Parks, Recreation and Tourism**
Organized study of selected topics in parks, recreation and tourism. Subjects may vary from semester to semester.

**Credit Hour:** 1-3

---

**PRST 3165: Sports Economics and Finance**
This course focuses on the economic and financial issues within the sport industry. The class will help students understand basic and complex concepts within economics and finance in a sport context, and to grasp
the importance of financial and economic decision making. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** PRST 1011; Restricted to Parks, Recreation, and Tourism majors with Sport Management emphasis or instructor consent

---

**PRST 3185H: Sports Economics and Finance - Honors**  
This course focuses on the economic and financial issues within the sport industry. The class will help students understand basic and complex concepts within economics and finance in a sport context, and to grasp the importance of financial and economic decision making. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** PRST 1011; Restricted to Parks, Recreation, and Tourism majors with Sport Management emphasis or instructor consent. Honors eligibility required

---

**PRST 3189: Pre-Internship and Career Development Seminar**  
The course is designed to prepare students for PRST 4940 and careers beyond the internship. Emphasis is placed on students’ responsibilities prior to enrollment in PRST 4940, selecting internship sites and completing internship requirements. Graded on A-F basis only.

**Credit Hour:** 1  
**Prerequisites:** PRT/PRST Major in Junior/Senior Standing; PRST 1011

---

**PRST 3210: Personnel Management and Leadership**  
Considers theories and practices of leadership and management in leisure services employment. Topic presentation in relationships, attitudes, supervision, motivation and group functioning. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Parks, Recreation and Tourism/ Parks, Recreation and Sport majors

---

**PRST 3210W: Personnel Management and Leadership - Writing Intensive**  
Considers theories and practices of leadership and management in leisure services employment. Topic presentation in relationships, attitudes, supervision, motivation and group functioning. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Parks, Recreation and Tourism/ Parks, Recreation and Sport majors

---

**PRST 3215: Program and Event Development**  
Fundamental principles and techniques of program development and event management; seasonal, year round, specialty areas and total agency program planning. The purpose of this course is to make students better prepared to implement and evaluate recreation programming and events that fulfill the diverse needs of society. Graded on A-F basis only.

**Credit Hours:** 4  
**Prerequisites:** PRST 1011, or instructor's consent; restricted to Parks, Recreation and Tourism, Parks, Recreation and Sport majors

---

**PRST 3220: Introduction to Recreation for Individuals with Disabilities**  
Principles, concepts and historical development of recreation for individuals with disabilities. Explanation of attitudes, issues, practice and barriers related to recreation participation. Graded on A-F basis only.

**Credit Hours:** 3

---

**PRST 3230: Outdoor Recreation Policy**  
An overview of parks and outdoor recreation, natural environment, supply-demand-need relationships, interpretative programming, management philosophies/practices will be studied.

**Credit Hours:** 3

---

**PRST 3230W: Outdoor Recreation Polcys - Writing Intensive**  
An overview of parks and outdoor recreation, natural environment, supply-demand-need relationships, interpretative programming, management philosophies/practices will be studied.

**Credit Hours:** 3

---

**PRST 3231: Interpretation of Natural and Cultural Resources**  
Interpretive principles and techniques employed to communicate the values/meanings of natural and cultural resources to visitors.

**Credit Hours:** 3

---

**PRST 3282: Governance and Policy in Sport and Leisure**  
This course serves as a comprehensive study in examining how leisure organizations address fundamental issues of governance and policy. Through careful use of policy and understanding of governance, organizations often form strategies in their attempts to gain an advantage. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** PRT/PRST Major

---

**PRST 4100: Ethics and Diversity**  
(cross-leveled with PRST 7100). This course examines an encompassing perspective of ethics and diversity within North American and international sport and recreation organizations. Specifically, the purpose of this course is to provide students with an analysis and understanding of the various ways that people within sport and recreation organizations can differ, and how differences based on this diversity impact life experiences and outcomes.

**Credit Hours:** 3  
**Prerequisites:** Parks, Recreation, & Sport Major

---

**PRST 4101: Topics in Parks, Recreation and Tourism**  
Organized study of selected topics in parks, recreation and tourism. Subjects may vary from semester to semester.

**Credit Hour:** 1-3

---

**PRST 4105: Contemporary Issues in Sport**  
(cross-leveled with PRST 7150). This course provides an analysis of the place of sport in American society and the impact of sport on American culture. Social and cultural contexts in which sport exists and how those contexts are influenced by sport will be examined. Concepts and theories
will be utilized to examine how social issues and change, relationships, and organization affect sport. Emphasis will be placed on current issues and trends in sport and society. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: PRS Major

PRST 4208: Administration and Organizational Behavior
(cross-leveled with PRST 7208). Theoretical foundations of the organization and administration of leisure services in both community and institutional settings. Emphasis on the roles of the administrator. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: PRST 1011; Restricted to Parks, Recreation and Tourism; Parks, Recreation and Sport majors

PRST 4250: Parks, Health and Wellness
(cross-leveled with PRST 7250). Exposure to nature in parks and natural areas can improve physical, psychological and social health. This course explores the concepts, research, theories and contemporary issues related to the health benefits of parks and exposure to nature. Through this course, students will examine the importance of parks and natural resources to public health. The course emphasizes case studies and practical applications in addition to guided discussions of assigned readings. Offered periodically. Graded on A-F basis only.

Credit Hours: 3

PRST 4333: Park and Sport Facility Operations
(cross-leveled with PRST 7333). Basic principles, practices and problems associated with the operations of park and sport facilities including green space, aquatic facilities, sports fields, outdoor park facilities and buildings. Additional focus on necessary maintenance personnel management, equipment management and management of volunteers within a park system or sports facility. Graded on A-F basis only.

Credit Hours: 3

PRST 4340: Recreation Land Management
(cross-leveled with PRST 7340). This course provides students with an understanding of the principles and practices of recreation land management. Topics include federal land management agencies, wilderness management, benefits based management, recreation opportunity spectrum, limits of acceptable change, citizen participation in decision making, and visitor experience/resource protection.

Credit Hours: 3

PRST 4350: Problems in Parks, Recreation, Sport and Tourism
Individual study with a designated faculty member.

Credit Hour: 1-3
Prerequisites: Instructor Consent

PRST 4357: Domestic and International Tourism: Resources, Market, and Impacts
(cross-leveled with PRST 7357). Nature and scope of tourism planning at the local, regional, and national levels; economic social, environmental, and policy considerations. Comparative study of initiating, planning and implementing tourism and the organization of community resources for developing and controlling a tourism industry. Graded on A-F basis only.

Credit Hours: 3

PRST 4385: Legal Aspects of Sport
This course studies the U.S. legal system, its structure and terminology. Legal aspects of contract law, statutory law, constitutional law, intellectual property, torts, negligence, and risk management in sport will be examined. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: PRST/PRST Major; PRST 1011

PRST 4940: Parks, Recreation, Sport and Tourism Internship
Supervised professional experience with an approved organization. Course entails weekly reports, case studies, agency evaluations and a special project related to the student's curricular emphasis. Students must complete core, emphasis, and pre-internship courses with a C- or better to be eligible to start the capstone. Graded on A-F basis only.

Credit Hours: 12
Prerequisites: PRST 1011 and PRST 3189, PRST majors only, instructor's consent. Students must complete core, emphasis, and pre-internship courses with a C- or better to be eligible to start the capstone

PRST 4949: Western Canada Study Abroad
This course provides students an educational opportunity to explore Western Canada. Students analyze natural resource management, customer and visitor relations, community relations, cultural entrepreneurship, and transportation networks with US and Canadian Management methods.

Credit Hours: 3
Prerequisites: Instructor's consent

PRST 7101: Topics in Parks, Recreation and Sport
Specialized topics in recreation and park administration dynamics. Subjects and credits vary by semester based on available faculty resources and expertise. Course content announced in advance. Graded on A-F basis only.

Credit Hour: 1-3

PRST 7208: Administration and Organizational Behavior
(cross-leveled with PRST 4208). Theoretical foundations of the organization and administration of leisure services in both community and institutional settings. Emphasis on the roles of the administrator. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: PRST 1011; Restricted to Parks, Recreation and Tourism; Parks, Recreation and Sport majors

PRST 7250: Parks, Health and Wellness
(cross-leveled with PRST 4250). Exposure to nature in parks and natural areas can improve physical, psychological and social health. This course explores the concepts, research, theories and contemporary issues related to the health benefits of parks and exposure to nature. Through this course, students will examine the importance of parks and natural resources to public health. The course emphasizes case studies and
practical applications in addition to guided discussions of assigned readings. Offered periodically. Graded on A-F basis only.

Credit Hours: 3

PRST 7260: Sustainable Tourism
(cross-leveled with PRST 4260). Sustainability in the tourism field refers to the adoption of sound environmental, economic, and socio-cultural practices in tourism development and management. Sustainable tourism is considered an alternative to mass tourism and covers a wide range of different tourism niches (e.g., sports tourism, agritourism, ecotourism, film tourism). This course is designed to provide students with a basic understanding of tourism impacts and sustainable tourism development. Students will be introduced to theory, practice, history, terminology and issues in the planning and management of major tourism niches. Graded on A-F basis only.

Credit Hours: 3

PRST 7333: Park and Sport Facility Operations
(cross-leveled with PRST 4333). Basic principles, practices and problems associated with the operations of park and sport facilities including green space, aquatic facilities, sports fields, outdoor park facilities and buildings. Additional focus on necessary maintenance personnel management, equipment management and management of volunteers within a park system or sports facility. Graded on A-F basis only.

Credit Hours: 3

PRST 7340: Recreation Land Management
(cross-leveled with PRST 4340). This course provides students with an understanding of the principles and practices of recreation land management. Topics include federal land management agencies, wilderness management, benefits based management, recreation opportunity spectrum, limits of acceptable change, citizen participation in decision making, and visitor experience/resource protection.

Credit Hours: 3

PRST 7357: Domestic and International Tourism: Resources, Market, and Impacts
(cross-leveled with PRST 4357). Nature and scope of tourism planning at the local, regional, and national levels; economic social, environmental, and policy considerations. Comparative study of initiating, planning and implementing tourism and the organization of community resources for developing and controlling a tourism industry. Graded on A-F basis only.

Credit Hours: 3

PRST 7960: Guided Reading in Parks, Recreation, Sport and Tourism
Selected reading in parks, recreation, sport and tourism identified to fulfill a graduate student's academic needs or specialized interests.

Credit Hour: 1-3
Prerequisites: instructor's consent

PRST 8008: Sport and Leisure Economics
This course focuses on the business side of sport management, primarily considering issues of marketing, sponsorship, and sales. In this, students will not only supplement knowledge of these concepts, but also be presented with actual models relevant to working in sales in the competitive sport environment. Graded on A-F basis only.

Credit Hours: 3

PRST 8088: Sport and Leisure Economics
This course focuses on the business side of sport management, primarily considering issues of marketing, sponsorship, and sales. In this, students will not only supplement knowledge of these concepts, but also be presented with actual models relevant to working in sales in the competitive sport environment. Graded on A-F basis only.

Credit Hours: 3

PRST 8089: Research Project
Individual research on approved project. Involves creativity and scholarly inquiry where product does not adhere to the traditional thesis format. Graded on S/U basis only.

Credit Hour: 1-99
Prerequisites: Parks, Recreation and Tourism graduate major

PRST 8090: Thesis Research in Parks, Recreation, Sport and Tourism
Research leading to thesis in field of parks, recreation and tourism. Graded on S/U basis only.

Credit Hour: 1-6
Prerequisites: Parks, Recreation and Tourism graduate major

PRST 8400: Constructs of Leisure
Review analysis and implications of fundamental psycho-social determinants of leisure behavior. Application theories of determinants to existing and proposed leisure service systems.

Credit Hours: 3

PRST 8401: Topics in Recreation and Park Administration
Specialized topics in recreation and park administration dynamics. Subjects and credits vary by semester based on available faculty resources and expertise. Course content announced in advance.

Credit Hour: 1-3
Prerequisites: instructor's consent

PRST 8411: Independent Work in Parks, Recreation, Sport and Tourism
Independent research or special projects in parks, recreation, sport and tourism.

Credit Hour: 1-3
Prerequisites: instructor's consent

PRST 8430: Research Methods in Parks, Recreation and Tourism
Analysis of basic research methodology. Review and analysis of research work completed in recreation, park and leisure field.

Credit Hours: 3

PRST 8436: Visitor Behavior and Policy
Course presents issues, concerns and policies dealing with multi-management/planning/operations of outdoor resource based recreation.
Such issues as energy, economics, social/political, pollution and user characteristics will be studied.

**Credit Hours:** 3

**PRST 8450: Administration in Leisure Service Delivery**
Review, analysis and synthesis of administrative functions as related to public and private recreation and leisure service enterprises.

**Credit Hours:** 3

**PRST 8460: Financial Operations in Leisure Service Delivery**
Review and critical analysis of financial functions, strategies and methodology as related to public and private recreation and leisure service enterprises.

**Credit Hours:** 3

**PRST 8940: Internship in Parks, Recreation and Tourism**
Supervised student practice in recreation, park or related settings under qualified instructor.

**Credit Hours:** 1-6

**Prerequisites:** Parks, Recreation and Tourism graduate major

---

**Pathology & Anatomical Science Courses**

**PTH AS 2201: Human Anatomy Lecture**
A systems-based survey of human gross anatomy including structure, function and history. Internet access required: lectures and assignments will be online. Graded on A-F basis only.

**Credit Hours:** 3

**Recommended:** Minimum cumulative MU GPA of 2.5 required

**PTH AS 2203: Human Anatomy Laboratory**
A systems-based survey of human gross anatomy. Internet access required: most materials will be online. One on-campus laboratory meeting per week. Graded A-F only. Recommend: Minimum cumulative MU GPA of 2.5 and completed or currently enrolled in PTH AS 2201.

**Credit Hours:** 2

**PTH AS 3460: Research and Instructional Techniques**
Involves library and laboratory research. Includes development of oral and written communications skills.

**Credit Hours:** 3

**PTH AS 4210: Seminar in Pathology and Anatomical Sciences**
Presentation and discussion of original investigations and current literature.

**Credit Hour:** 1

**PTH AS 4220: Forensic Pathology and Death Investigation**
(cross-leveled with PTH AS 7020). Forensic Pathology and Death Investigation.

**Credit Hours:** 2

**Prerequisites:** Honors eligibility required

**PTH AS 4220H: Forensic Pathology and Death Investigation - Honors**
(cross-leveled with PTH AS 7020). Forensic Pathology and Death Investigation.

**Credit Hours:** 2

**Prerequisites:** Honors eligibility required

**PTH AS 4220W: Forensic Pathology and Death Investigation - Writing Intensive**
(cross-leveled with PTH AS 7020). Forensic Pathology and Death Investigation.

**Credit Hours:** 2

**PTH AS 4222: Gross Human Anatomy (The Health Professions)**
(cross-leveled with PTH AS 7222). Gross structure and neuroanatomy of the human body; dissection of extremities, back, head, neck abdomen and thorax.

**Credit Hours:** 7

**Prerequisites:** instructor's consent

**PTH AS 4222H: Gross Human Anatomy (The Health Professions) - Honors**
(cross-leveled with PTH AS 7222). Gross structure and neuroanatomy of the human body; dissection of extremities, back, head, neck abdomen and thorax.

**Credit Hours:** 2

**Prerequisites:** instructor's consent; Honors eligibility required

**PTH AS 6033: SCC ABS Surgical Anatomy**
The 4th year anatomy student will work independently or as a team to dissect and explore regions of cadavers particular to their interests. We generally offer the following regions (Lower Limb, Upper Limb, Pelvis, Thorax, Abdomen, Head & Neck). Students will improve their anatomical knowledge and learn using hands-on experiences and a variety of evidence-based resources while exploring the human body. Requirements: A) Complete a dissection relevant to your interests of the following regions: brain, head and neck, thorax, abdomen, pelvis, upper limb (one side), lower limb (one side). B) Give a 15-minute presentation to Occupational Therapy or Physician Assistant class about the anatomy of your region behind clinical practice. Schedule this presentation with the course coordinator and/or the course director within two months of the scheduled block. However, presentation slides must be given to the course faculty leader by the end of the block. C) Prepare 5 PowerPoint slides for use in Occupational Therapy or Physician Assistant courses on clinically-relevant anatomy for the audience by the end of the block. After review by course faculty the slides will also be sent to Columbia for consideration of use in M1 classes. D) Complete an exit interview with a faculty member to discuss the student's experience during the course.

**Credit Hours:** 5

**Prerequisites:** Successful completion of the first 2 years of medical school and 5 of the 7 core clerkships

**PTH AS 6331: ABS Advanced Medical Neurosciences**
ABS Advanced Medical Neurosciences

**Credit Hour:** 5-10
PTH_AS 6333: ABS Pathology/Anatomical Science Research
ABS Pathology/Anatomical Science Research
Credit Hours: 5

PTH_AS 6341: ABS Science Anatomical Science Teaching
ABS Science Anatomical Science Teaching
Credit Hours: 5

PTH_AS 6343: ABS Surgical Anatomy
ABS Surgical Anatomy
Credit Hours: 5

PTH_AS 6345: ABS Surgical Anatomy of the Head and Neck
ABS Surgical Anatomy of the Head and Neck
Credit Hours: 5

PTH_AS 6347: ABS Surgical Anatomy of the Back and Limbs
ABS Surgical Anatomy of the Back and Limbs
Credit Hours: 5

PTH_AS 6600: Anatomic Pathology
Anatomic Pathology
Credit Hours: 5

PTH_AS 6602: Clinical Pathology
Clinical Pathology
Credit Hours: 5

PTH_AS 6604: Forensic Pathology
Forensic Pathology
Credit Hours: 5

PTH_AS 6606: Anatomic/Clinical Pathology
Anatomic/Clinical Pathology
Credit Hours: 5

PTH_AS 6608: Anatomy Elective
Anatomy Elective
Credit Hours: 5

PTH_AS 6916: Anatomic Pathology Two-Week
This is a two week rotation. Students will learn how to integrate information and apply previously acquired knowledge and concepts to the assessment and interpretation of surgical pathology, cytopathology, and/or autopsy cases. Students will learn about the procedures necessary to arrive at anatomic pathology diagnoses and the work that goes into specimen processing and examination so as to produce diagnoses.
Credit Hours: 2
Prerequisites: Successful completion of the first two years of medical school

PTH_AS 7020: Forensic Pathology and Death Investigation
Summary of Forensic Death Investigation from beginning to end. Will include some of the current laboratory techniques seen on 'CSI' Team taught by experts in the fields including medical examiners, death investigators, forensic anthropologists, police CSI teams, lawyers and others.
Credit Hours: 2
Prerequisites: Basic Biology

PTH_AS 7222: Gross Human Anatomy (The Health Professions)
(cross-leveled with PTH_AS 4222). Gross/human structure through dissection. Graded on A-F basis only.
Credit Hours: 7
Prerequisites: Acceptance into Physical Therapy Programs or instructor's consent

PTH_AS 7400: Seminars in Translational Medicine
Students participate in regular seminars and discussion groups with other students interested in clinical and translational sciences. Students, working together with faculty in biomedical sciences and those working in clinical and translational fields, identify seminar topics. Learning objectives and written assignments are arranged on an individual basis. The course is open to all graduate level students and students enrolled in professional schools, for 0-5 credit hours, with instructor's approval. Graded on S/U basis only.
Credit Hour: 0-5

PTH_AS 7450: Precision Medicine Informatics
This course will introduce students with the theoretical and practical aspects of precision medicine informatics. Topics include: complex diseases, computational genomics/proteomics, informatics of molecular interactions and biological pathways, somatic mutations, signal transduction and cancer, biomarker discovery, machine learning and data mining for PMI, networks methods for PMI, knowledge representation and reasoning for PMI. The course will consist of a set of didactic lectures, computational assignments, in-class demonstrations of PMI methods and discussions of recent publications. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: INFOINST 8005 with C or better or INFOINST 7010 with C or better or instructor's consent

PTH_AS 8010: Current Issues in Anatomical Sciences
Survey of the recent literature in integrative anatomy, including functional, evolutionary, developmental and translational anatomy, conducted through readings and discussion. Grade determined by participation and presentation of weekly readings. May be repeated for a maximum of 10 hours. Graded on S/U basis only.
Credit Hour: 1
Prerequisites: instructor's consent

PTH_AS 8090: Advanced Pathology
Open only to properly qualified graduate students, with counsel of faculty. Focus of MS-related research in evolutionary morphology, genomics, neuroscience, pathobiology or laboratory sciences. Graded on S/U basis only.
PTH_AS 8100: Fundamentals of Evolutionary Biology
Principles of modern evolutionary biology. Topics include: phylogeny, paleobiology, developmental processes, genetic and phenotypic variation, form and function, speculation, macroevolution, and molecular mechanisms.
Credit Hours: 1-99
Prerequisites: instructor's consent

PTH_AS 8150: Fundamentals of Evolutionary Morphology
This course is a survey of the fundamentals of modern evolutionary morphology. Topics will include: patterns of vertebrate evolution, comparative methods, development and ontogeny, constraint, functional morphology, evolutionary innovations, and experimental methods. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: instructor's consent required

PTH_AS 8201: Human Anatomy: Back and Upper Limb
Developmental, gross, and clinical anatomy of the human back and upper limb, including skeletal, muscular, nervous, and vascular tissues. Graded on A-F basis only.
Credit Hours: 2
Prerequisites: instructor's consent required

PTH_AS 8202: Human Anatomy: Thorax and Abdomen
Developmental, gross, and clinical anatomy of the human thorax and abdomen. Graded on an A-F basis only.
Credit Hours: 2
Prerequisites: instructor's consent required

PTH_AS 8203: Human Anatomy: Head, Neck and Neuroanatomy
Developmental, gross and clinical anatomy of the human head, neck and neuroanatomy. Graded on A-F basis only.
Credit Hours: 2
Prerequisites: instructor's consent required

PTH_AS 8204: Human Anatomy: Pelvis and Lower Limb
Developmental, gross and clinical anatomy of the human pelvis and lower limb. Graded A-F basis only.
Credit Hours: 2
Prerequisites: instructor's consent required

PTH_AS 8285: Problems in Pathology and Anatomical Sciences
Regions or systems which may include developmental, microscopic, and gross anatomy.
Credit Hour: 1-99
Prerequisites: instructor's consent

PTH_AS 8290: Research in Pathology and Anatomical Sciences
Research unrelated to thesis work in evolutionary morphology, genomics, neuroscience, pathobiology or laboratory sciences.
Credit Hour: 1-99
Prerequisites: instructor's consent

PTH_AS 8450: Human Anatomy Teaching Practicum
Provides practical experience teaching clinically oriented human anatomy in lecture and laboratory settings. For students pursuing doctoral degrees in Pathobiology. Enrollment is limited to students who have completed PTH_AS 8201, PTH_AS 8202, PTH_AS 8203, and PTH_AS 8204. Graded on S/U basis only. May be repeated for credit.
Credit Hour: 1
Prerequisites: instructor's consent

PTH_AS 8500: Seminar in Translational Neuroscience
Students participate in seminars and discussion groups. Masters students identify seminar topics and present existing data with findings. PhD students identify seminar topics, conduct research and present findings. Learning objective and written assignments are arranged individually. May be repeated for credit. Graded on S/U basis only.
Credit Hour: 1-5

PTH_AS 8640: Quantitative Methods in Life Sciences
Quantitative Methods in Life Sciences is a graduate-level course in statistical analysis designed for the specific needs of students in life sciences, focusing on statistical literacy: performing, interpreting, and writing about biological data analysis. As such, the course assumes a basic understanding of some topics and little understanding of other topics. The course will cover most topics broadly and occasionally in great depth, highlighting the perils and pitfalls of different methods, while providing guidelines for a wide array of statistical approaches to data analysis. The course seeks to find the balance between really understanding all the math involved and learning to be a competent practitioner and consumer of analysis, emphasizing the practical over the theoretical, with additional focus on the communication of data (plotting, graphs, figures) and of results. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Consent of instructor

PTH_AS 9090: Research in Pathology and Anatomical Sciences
Open only to properly qualified graduate students, with counsel of faculty. Focus of PhD-related research in evolutionary morphology, genomics, neuroscience or pathobiology. Graded on S/U basis only.
Credit Hour: 1-99

PTH_AS 9290: Research in Pathology and Anatomical Sciences
Open only with instructor's consent. Courses with specialized lectures in various topics such as evolutionary morphology, genomics, neuroscience and pathobiology, depending on faculty expertise and student demand. Graded on S/U basis only.
Credit Hour: 1-99
Peace Studies Courses

PEA_ST 1050: Introduction to Peace Studies
Interdisciplinary overview including theories on the nature of aggression and war, case studies of contemporary conflicts, consideration of various peace proposals, conditions making war or peace likely.
Credit Hours: 3
Recommended: sophomore standing. Writing intensive not fulfilled unless ENGLSH 1000 or equivalent has already been taken

PEA_ST 1050W: Introduction to Peace Studies - Writing Intensive
Interdisciplinary overview including theories on the nature of aggression and war, case studies of contemporary conflicts, consideration of various peace proposals, conditions making war or peace likely.
Credit Hours: 3
Recommended: sophomore standing. Writing intensive not fulfilled unless ENGLSH 1000 or equivalent has already been taken

PEA_ST 1051: International Conflict Resolution and Group Reconciliation
Theories of conflict resolution. We will study achieving peace through techniques and institutions that attempt personal and interactive reconciliation of opposing groups personally. Case studies might include the ‘Truth and Reconciliation’ committees following South African Independence, and similar projects to promote inter-group understanding in Middle East conflicts. The course will then analyze examples of the resolution of major international conflicts and issues, such as the Irish Peace Accords, the Camp David peace process for the Middle East, Strategic Nuclear Arms Limitation, and the Kyoto Protocol.
Credit Hours: 3

PEA_ST 1051W: International Conflict Resolution and Group Reconciliation - Writing Intensive
Theories of conflict resolution. We will study achieving peace through techniques and institutions that attempt personal and interactive reconciliation of opposing groups personally. Case studies might include the ‘Truth and Reconciliation’ committees following South African Independence, and similar projects to promote inter-group understanding in Middle East conflicts. The course will then analyze examples of the resolution of major international conflicts and issues, such as the Irish Peace Accords, the Camp David peace process for the Middle East, Strategic Nuclear Arms Limitation, and the Kyoto Protocol.
Credit Hours: 3

PEA_ST 1052: Global Warming, Climate Change, Catastrophic Climate Destabilization
Global warming, climate change and catastrophic climate destabilization as alternate conceptualizations. The greenhouse gas effect; the consequences of climate change for oceans, fresh water ecosystems, forests, agriculture, biodiversity, public health, social justice and global social stability. Potential solutions will be considered, including sustainable energy sources, efficiency of energy use, divestment from fossil fuels, and putting a price on carbon.
Credit Hours: 3

PEA_ST 1052W: Global Warming, Climate Change, Catastrophic Climate Destabilization - Writing Intensive
Global warming, climate change and catastrophic climate destabilization as alternate conceptualizations. The greenhouse gas effect; the consequences of climate change for oceans, fresh water ecosystems, forests, agriculture, biodiversity, public health, social justice and global social stability. Potential solutions will be considered, including sustainable energy sources, efficiency of energy use, divestment from fossil fuels, and putting a price on carbon.
Credit Hours: 3

PEA_ST 1120: Population and Ecology
(same as RU_SOC 1120 and SOCIOL 1120). Changes in the structure and characteristics of population groups and their relationship to both human and non-human aspects of the biophysical environment.
Credit Hours: 3

PEA_ST 1150: The Amish Community
(same as RU_SOC 1150). Examines historical antecedents and contemporary culture and social structure of the Amish. Topics include cultural symbols, life ceremonies, the family, counter cultural pressures, stresses and social change.
Credit Hours: 3
Recommended: RU_SOC 1000, SOCIOL 1000, or ANTHRO 1000

PEA_ST 1150W: The Amish Community - Writing Intensive
(same as RU_SOC 1150). Examines historical antecedents and contemporary culture and social structure of the Amish. Topics include cultural symbols, life ceremonies, the family, counter cultural pressures, stresses and social change.
Credit Hours: 3
Recommended: RU_SOC 1000, SOCIOL 1000, or ANTHRO 1000

PEA_ST 2000: Exploration in Social and Economic Justice
(same as SOC_WK 2000). This course explores issues of fairness and equality in economic, political and social systems, and applies social justice principles to major social problems. May be repeated for credit. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ENGLSH 1000

(same as SOC_WK 2000). This course explores issues of fairness and equality in economic, political and social systems, and applies social justice principles to major social problems. May be repeated for credit. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ENGLSH 1000

PEA_ST 2003: Topics in Peace Studies: Behavioral Science
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent. Graded on A-F basis only.
Credit Hour: 2-3
Recommended: Sophomore standing

PEA_ST 2003W: Topics in Peace Studies: Behavioral Science - Writing Intensive
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent. Graded on A-F basis only.

Credit Hours: 2-3
Recommended: Sophomore standing

PEA_ST 2004: Topics in Peace Studies - Social Sciences
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent.

Credit Hour: 2-3
Recommended: sophomore standing

PEA_ST 2004W: Topics in Peace Studies - Social Sciences - Writing Intensive
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent.

Credit Hour: 2-3
Recommended: sophomore standing

PEA_ST 2005: Topics in Peace Studies - Humanities
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent. Graded on A-F basis only.

Credit Hour: 2-3
Recommended: sophomore standing

PEA_ST 2016: Authoritarian Societies, States, and the Prospects for Democracy
The course analyzes and critiques current authoritarian tendencies in civil society and the state, in politics, economy, culture, and individually experienced social life. It will synthesize varied approaches and theories from several disciplines, and will place developments in the US and other nations in historical and multicultural context. Topics may include: authoritarian racism and social control, movements and resistance against authoritarianism, mobilization through mass and social media, and authoritarianism as a global phenomena.

Credit Hours: 3

The course analyzes and critiques current authoritarian tendencies in civil society and the state, in politics, economy, culture, and individually experienced social life. It will synthesize varied approaches and theories from several disciplines, and will place developments in the US and other nations in historical and multicultural context. Topics may include: authoritarian racism and social control, movements and resistance against authoritarianism, mobilization through mass and social media, and authoritarianism as a global phenomena. Prerequisites: Honors eligibility required

Credit Hours: 3

PEA_ST 2016W: Authoritarian Societies, States, and the Prospects for Democracy - Writing Intensive
The course analyzes and critiques current authoritarian tendencies in civil society and the state, in politics, economy, culture, and individually experienced social life. It will synthesize varied approaches and theories from several disciplines, and will place developments in the US and other nations in historical and multicultural context. Topics may include: authoritarian racism and social control, movements and resistance against authoritarianism, mobilization through mass and social media, and authoritarianism as a global phenomena.

Credit Hours: 3

PEA_ST 2100: The Vietnam and Iraq Wars: Lessons for the Future
An interdisciplinary analysis of the Vietnam War and the American-led war with Iraq. Course focuses on the reasons that America lost in Vietnam, the reasons it won in Iraq, and the lessons these conflicts provided for America's future. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: sophomore standing

PEA_ST 2140: ART: Visual Culture and The Iconography of Social Intent
The focus of the course is to encourage students to view and discuss visual arts in an informed manner. The course will also raise key issues in the humanities, such as how certain artists reflect upon and explore the cultural, social and historical impact of human agency. Provided is a basic review of the visual arts during selected time periods of the past, along with an emphasis on creative responses by modern and post-modern artists to the changing socio-economic and cultural landscape of the present day. The influence, manipulation, and oftentimes, conflictual aspects of the arts, will be discussed together with an appropriate overview of context, and vocabulary. Students will come to recognize and appreciate art’s intriguing versatility, and the power of art 'to integrate individual and communal needs’ (Dissanayake, 2000).

Credit Hours: 3

PEA_ST 2182: Critical Dialogues: Nonviolence in Peace/Democracy Movements
(same as SOCIOL 2182). History and theory of movements for peace, justice, and democracy. Development of violent and nonviolent tactics and factions in movements: relationship to state authority. Cases such as Gandhi’s Independence, American Civil Rights, Arab Spring, and Occupy movements.

Credit Hours: 3

PEA_ST 2182W: Critical Dialogues: Nonviolence in Peace/Democracy Movements - Writing Intensive
(same as SOCIOL 2182). History and theory of movements for peace, justice, and democracy. Development of violent and nonviolent tactics and factions in movements: relationship to state authority. Cases such as Gandhi’s Independence, American Civil Rights, Arab Spring, and Occupy movements.

Credit Hours: 3
Prerequisites: PEA_ST 1050 or instructor's consent

PEA_ST 2200: Nuclear Weapons: Environmental, Health and Social Effects
(same as HLTH_SCI 2200 and SOCIOL 2281). Environmental consequences of the nuclear arms race, 'regional' nuclear war, and weapons testing for human health, agriculture, and society. Examining 'a world without nuclear weapons'; political dialogue on proliferation; Iran, North Korea, and nuclear weapons conventions. Graded on A-F basis only.
Credit Hours: 3

PEA_ST 2200W: Nuclear Weapons: Environmental, Health and Social Effects-Writing Intensive
(same as HLTH_SCI 2200 and SOCIOL 2281). Environmental consequences of the nuclear arms race, 'regional' nuclear war, and weapons testing for human health, agriculture, and society. Examining 'a world without nuclear weapons'; political dialogue on proliferation; Iran, North Korea, and nuclear weapons conventions. Graded on A-F basis only.
Credit Hours: 3

PEA_ST 2220: America in the 1960's
(same as HIST 2220). Examines the political and cultural main currents of the 1960s. Emphasizes the challenges mounted by protest groups and the responses of America's political leadership to the ferment of the period.
Credit Hours: 3
Prerequisites: sophomore standing

PEA_ST 2255: Youth, Islam, and Global Cultures
(same as SOCIOL 2255). Youth subcultures and the social issues and problems faced by youth, focusing on the Islamic world and Muslim immigrants, in the United States and elsewhere. Social and behavioral theories and concepts such as paths to modernization, Orientalism, post-colonialism, population movements, social construction, identity, and recognition will be illustrated.
Credit Hours: 3

PEA_ST 2280: Race, Democracy, and Violence in Cuba and Haiti
(same as SOCIOL 2280, GEGO 2280). A sociological approach to understand race/ethnicity, identity, citizenship, human rights, violence, and political and economic systems in the Caribbean. Comparisons of the culture, politics, and historical trajectories of Cuba and Haiti using Post-Colonial and Feminist theories. Graded on A-F basis only.
Credit Hours: 3

PEA_ST 2280W: Race, Democracy, and Violence in Cuba and Haiti - Writing Intensive
(same as SOCIOL 2280, GEGO 2280). A sociological approach to understand race/ethnicity, identity, citizenship, human rights, violence, and political and economic systems in the Caribbean. Comparisons of the culture, politics, and historical trajectories of Cuba and Haiti using Post-Colonial and Feminist theories. Graded on A-F basis only.
Credit Hours: 3

PEA_ST 2285: Large Corporations, Economic Crisis, Social Responsibility
(same as SOCIOL 2285). Institutional power of the corporate CEO; ethical regulatory restraint. Historical contexts of economic crisis. Theories of justice, alternative concepts of justice in popular culture. Politics of policy issues in prosecution and criminalization of corporate behavior. Graded on A-F basis only.
Credit Hours: 3

PEA_ST 2286: Technological Futures, National Security, and Civil Liberties
(same as SOCIOL 2286). Contemporary practices and future trends in data collection and mining by the NSA and by businesses. The interplay of government and corporate power, and possibilities of regulation and maintenance of privacy and civil liberties. The development of digital intellectual copyright and its consequences on patterns of dissemination of knowledge.
Credit Hours: 3

(same as SOCIOL 2286). Contemporary practices and future trends in data collection and mining by the NSA and by businesses. The interplay of government and corporate power, and possibilities of regulation and maintenance of privacy and civil liberties. The development of digital intellectual copyright and its consequences on patterns of dissemination of knowledge.
Credit Hours: 3

PEA_ST 2287: Conspiracies, Popular Imagination, Evidence
In-depth and critical analysis of cases involving allegations of 'conspiracy' in international affairs, contrasted with official reports and presentations of evidence in a variety of venues. Conspiracy theories considered might include those centering on 9-11 and the Kennedy assassination. Conspiracy theories will be compared and contrasted to what is known about secrecy and the functioning of elite political and economic institutions such as the Trilateral Commission and campaign financing organizations. Students will analyze a variety of NGO and government documents and investigative journalism drawing on Wiki Leaks. We will compare and contrast what is considered evidence in different venues such as the criminal justice system, government reports, journalism, and academic writing by historians, social and behavioral scientists, and natural scientists. Concepts clarified and utilized will include: state corporate crime, system determination, social construction, narrative, historical memory, symbolic politics, and individual and group responsibility.
Credit Hours: 3

Credit Hours: 3

PEA_ST 2288: Sports, Protest Movements, and Conflict Resolution
This course will critically analyze the social significance of sports, focusing on events leading to and influencing protest movements and the peaceful outcomes (or lack thereof) of these movements through conflict resolution. We will identify the non-violent behaviors, strategies, and ideologies of numerous athletes such as: Muhammad Ali, Jim Brown, Harry Edwards, John Carlos and Tommy Smith, Colin Kaepernick, and their particular methods of rebellion and representation of issues. Furthermore, we will examine how fans, organizations, media, and sporting committees (i.e. International Olympic Committee) have reacted to athlete revolts, and the effectiveness of revolts in changing society.

Credit Hours: 3

PEA_ST 2288W: Sports, Protest Movements, and Conflict Resolution - Writing Intensive

Credit Hours: 3

PEA_ST 2289: Towns in Missouri and the Midwest: Voices and Inequalities
(same as GEOG 2289, RU_SOC 2289). Focusing on towns and communities and their regional history and cultural traditions. Examines the issues and concerns of small-town America in the context of recent hardships and adverse economic trends. Examples of topics covered include case studies of communities such as Marceline, Missouri (Walt Disney's boyhood home), race and the immigration of non-whites in to rural areas; gender roles in small communities, the role of religion in small-town identity formation, and other current issues faced by 'middle America.' The responsiveness of government, large corporations, and institutions to the problems of diverse communities will be critically examined, with a multidisciplinary approach that draws on key theories and works in the disciplines of sociology, rural sociology, community development, and geography.

Credit Hours: 3

PEA_ST 2289W: Towns in Missouri and the Midwest: Voices and Inequalities - Writing Intensive

Credit Hours: 3

PEA_ST 2290: Drugs, Violence and the Police in Latin America and Latina/o Communities in the United States
A regional and global perspective on the 'war on drugs' and violence in Latin American countries such as Mexico and Colombia, as well as the United States. The course may include units on such topics as: the recent history of gangs in US urban areas; political violence in Central America and such countries as Colombia and Venezuela; and attempts to mediate and reconcile social conflicts and war in those areas. The interplay between gangs, drug policies, policing, and citizens' action and protests in major cities of the hemisphere, such as in Argentina and Brazil. Drugs, policing, gangs, and violence as a symbolic and hot button issue in domestic politics, and the consequences for public policy and the character of the discourse about public policy.

Credit Hours: 3

PEA_ST 2291: Artificial Intelligence Big Data: Social, Political, Ethical Issues
This course will enable students to evaluate contrasting interpretations by leading thinkers about the development of information technologies, the internet, and robotics and artificial intelligence. Current debates will be covered; topics might include: views that social media are constraining the development of human relationships (Turkel); that commercialization of the internet reduces its function to attention getting (Wu); that automation degrades the humanity of work (Carr) and restricts the pay for producing creative content (Lanier). On the other hand, the course will consider arguments that human mind can be reverse reengineered to advance a new era of artificially intelligent machines (Kurzweil). Current theories of information technology and society will be grounded in the multidisciplinary thinking about mind, intelligence, art, and work.

Credit Hours: 3

PEA_ST 2291W: Artificial Intelligence Big Data: Social, Political, Ethical Issues - Writing intensive
This course will enable students to evaluate contrasting interpretations by leading thinkers about the development of information technologies, the internet, and robotics and artificial intelligence. Current debates will be covered; topics might include: views that social media are constraining the development of human relationships (Turkel); that commercialization of the internet reduces its function to attention getting (Wu); that automation degrades the humanity of work (Carr) and restricts the pay for producing creative content (Lanier). On the other hand, the course will consider arguments that human mind can be reverse reengineered to
advances a new era of artificially intelligent machines (Kurzweil). Current
to realize how technology and society will be grounded in the
multidisciplinary thinking about mind, intelligence, art, and work.

Credit Hours: 3

PEA_ST 2292: Internet Identities, and the Clash of Global
Countercultures and Oppositional Cultures
This course problematizes the development of individual and group
identities on the internet and social media due to their multiple, global,
shallow, shifting, segmented, and conflictual character. We emphasize
a multidisciplinary examination of the internet presentation of diverse
identities such as those of the 1960s counter-culture, the Christian
right, militias, the alt-right, rural towns, terrorist cells, and life-style
and sectarian political and religious groups. We will also examine the
processes of publicity and celebrity in the creation of personal identities
such as ‘entrepreneur’ (Bill Gates and Steve Jobs), ‘geek’, ‘hacker’, and
anonymous, and the development of internet technologies and personal
identities in the context of commercialism and ideals such as freedom
and rebellion. The intersection of personal, work, and professional
identities will be considered. Sources will include autobiography,
biography, and literature on such topics as diaspora, borders, Empire,
and exile.

Credit Hours: 3

PEA_ST 2293: Globalization, Identity and Citizenship
(same as GEG 2293, POL_SC 2293). This course examines the
forces of globalization that are transforming our world, and explores
the various responses -- psychological, social and political -- that
people have been making over the past fifty years. Part I examines
globalization as an economic and geographical process, generating
huge social consequences, with rapid growth, population movements,
political change and a vast gap between global wealth and poverty.
Part II focuses on the ways in which individuals are now seeking to find
themselves in this globalizing world. Emphasis will be placed on the ways
in which national identity, faith, gender and sexuality are emerging as
key loci around which contemporary people (especially young people)
are trying to forge new social identities for themselves. The course will
conclude by examining the recently emerging (and highly contested)
concept of ‘global citizenship’. Graded on A-F basis only.

Credit Hours: 3

PEA_ST 2293W: Globalization, Identity and Citizenship - Writing
Intensive
(same as GEG 2293W, POL_SC 2293W). This course examines the
forces of globalization that are transforming our world, and explores
the various responses -- psychological, social and political -- that
people have been making over the past fifty years. Part I examines
globalization as an economic and geographical process, generating
huge social consequences, with rapid growth, population movements,

Credit Hours: 3

PEA_ST 2294: Public Health, Social Justice, Health Activism
This course features a focus on (1) the literature on health and social
justice movements and activism, and (2) community-based and local
health problems and organizing, with a consideration of the relation
between local community and the global. In a ‘place matters’ assignment,
students will identify, collect, analyze, synthesize, and present relevant
place-based data on factors influencing health. The concept of ‘structural
competency’ underlies the approach of this course. Topics pursued
might include: the water crisis in Flint, Michigan; women’s health; racism
and morbidity and mortality crisis; HIV/AIDS activism; public health
mobilization for immigrant rights; and health educators and ethical issues.

Credit Hours: 3

Credit Hours: 3

PEA_ST 2320: Literature of Spanish Civil War
(same as SPAN 2320). Study of the Spanish Civil War: History, Politics,
Literature. May not be included in the area of concentration in Spanish.

Credit Hours: 3

Prerequisites: sophomore standing

PEA_ST 2321: Germany in War and Peace: Division and Unity
1945-89
This course will compare notions of war and peace in East (German
Democratic Republic) and West Germany (Federal Republic of
Germany), 1945-1989. In particular, there are three main ways to think
about war and peace: 1. Dealing with the Nazi past; 2. Dealing with the
Cold War present; Negotiating violence and peace within various dissent
and peace movements.

Credit Hour: 2-3

PEA_ST 2322: Rise of Hitler: Politics and Society in Germany
This course will examine the social climate of Germany that contributed to
the rise of Hitler and the National Socialist Party, 1914-1933. The Nazis,
in order to revise the last peace at Versailles and to construct a New
Racial Order, organized a national community and planned and initiated a
world war.

Credit Hours: 2

PEA_ST 2410: Philosophies of War and Peace
(same as PHIL 2410). Moral issues about the recourse to war by the
nation and the individual's obligations to participate. The nature of peace,
social and personal. Special attention to the Vietnam War and the nuclear age.

Credit Hours: 3

PEA_ST 2410W: Philosophies of War and Peace - Writing Intensive
(same as PHIL 2410). Moral issues about the recourse to war by the nation and the individual's obligations to participate. The nature of peace, social and personal. Special attention to the Vietnam War and the nuclear age.

Credit Hours: 3

PEA_ST 2490: Introduction to Indigenous Literatures
(Same as ENGLISH 2490). Introduces students to global indigenous literatures in English and translation. Graded on A-F basis only.

Credit Hours: 3

PEA_ST 2550: Human Rights, Law, War and Peace
Interdisciplinary exploration of how human rights, law, war and peace are connected through an analysis of various theories and contemporary examples, which may include issues regarding citizenship in the United States today, the regulation of economic markets in the U.S. today, state surveillance, the military industrial complex, the manner in which gender affects the experience of warfare and individuals.

Credit Hours: 3

PEA_ST 2600: CAFO: Concentrated Animals, Deep Ecology
Throughout the ages humans have toiled and tilled the land confirming their role as integral providers as well as graceful recipients of nature's bounty. The significant metamorphosis that this gentle and cautious stewardship of the earth has undergone, necessitates close scrutiny. This multi-disciplined humanities course will consider the prole of the human community as it intersects widespread industrialized animal production with its inevitable social, economic and environmental realities. Eco-Feminist readings and the Fine Arts with its theoretical underpinnings associated with a liberal arts aesthetic will invite a wider perspective.

Credit Hours: 3

Credit Hours: 3

PEA_ST 3005: Topics in Peace Studies - Humanities
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent. Graded on A-F basis only.

Credit Hour: 1-3

Prerequisites: sophomore standing

PEA_ST 3005H: Topics in Peace Studies - Humanities - Honors
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent. Graded on A-F basis only.

Credit Hour: 1-3

Prerequisites: sophomore standing. Honors eligibility required

PEA_ST 3030: Topics in Peace Studies - Behavioral Science
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent.

Credit Hour: 2-3

PEA_ST 3050: Topics in Peace Studies - Humanities
Recommended: sophomore standing

PEA_ST 3140: Art of War and Peace
Exploration of selected visual art pieces and consideration of humanistic concerns during times of war and peace from various perspectives including a peace studies perspective. Viewing and discussing art within varied selected historical and cultural contexts that generated the imagery. Includes visits to studios and galleries. May be repeated for credit.

Credit Hour: 2-3

PEA_ST 3230H: Terrorism and Conflict Resolution - Honors
Religious, ethnic, ideological movements; state and international reactions. Case studies from South America, Europe, Africa, Asia. Identifying problems, possible resolution. Dramatized thru discussions, documentaries, role-playing; short term paper, exams.

Credit Hours: 3

Prerequisites: Honors eligibility required

PEA_ST 3280: Internship in Peace Studies
Students work in a peace-related agency or institution for 1 to 3 credit hours. Repeatable for maximum of 6 hours. Graded on S/U basis only.

Credit Hour: 1-3

Prerequisites: departmental consent

PEA_ST 3300: Environmental Justice
(same as SOCIOL 3330). Environmental justice refers to the ways in which the 'cost and benefits' of modern industrial society are distributed among social groups. This course is concerned with justice, not as an abstract concept, and inequality not in terms of numbers in a bank account. Social justice or inequality are lived, embodied experiences. An individual's likelihood of experiencing environmental harm is related to intersecting gender, race and class formations, among other things. Justice or inequality is not only embodied, it also happens in places--national and regional differences matter. In this course we will look at some of the extensive literature documenting the ways in which communities of color and poor communities are subject to disproportionate environmental risks. In addition, we will focus on gender as an important category in understanding environmental inequality.

Credit Hours: 3
PEA_ST 3350: Readings in Peace Studies
Students may receive 1 to 3 credit hours for doing readings and research in a particular area of peace studies. At least one paper will be required. Repeatable for a maximum of 6 hours.

Credit Hour: 1-3
Prerequisites: instructor's consent

PEA_ST 3400: Fake News and Media Politics
(same as SOCIOL 3400). In this course we study the political impact of the growing concentration of media ownership in the U.S. We develop critical thinking skills to identify 'fake news,' and types of media bias to compare U.S. media coverage of current issues with media in other parts of the world.

Credit Hours: 3

PEA_ST 3400W: Fake News and Media Politics - Writing Intensive
(same as SOCIOL 3400). In this course we study the political impact of the growing concentration of media ownership in the U.S. We develop critical thinking skills to identify 'fake news,' and types of media bias to compare U.S. media coverage of current issues with media in other parts of the world.

Credit Hours: 3

PEA_ST 3401: Global Public Health and Health Care Systems
(Same as HLTH_SCI 3400). An introduction to public health in a global context, with an emphasis on understanding how disparities in socioeconomic status, differences in political and national health care systems and the work of international organizations impact health in communities around the world. Graded on A-F basis only.

Credit Hours: 3

PEA_ST 3496: Digital Indigenous Studies
(same as GEOG 3496). This course introduces students to Indigenous studies in a digital world. The course begins with study of Indigenous sovereignty and representation, and moves quickly to critical and theoretical readings in new media, tracing both the historical impact of digital technologies (such as GIS) on Native communities, and the ways that both urban and rural Native communities have engaged in innovative digital projects that expand the way we understand information and storytelling in digital environments. The course materials will cover a wide range of platforms and audio-visual genres, from documentary, community video, and animation productions, to GIS, video games, and social media sites. Students will engage with both scholars and artists working with new media through a program of public lectures, classroom visits, and Skype interviews. All interview will be archived as podcasts from the course website. Students will write weekly short response papers and produce independent audio-visual projects over the course of the semester, with opportunities to revise their work leading up to substantial final projects. The course will also integrate community outreach into the curriculum through online participation of students from the Kiowa Kids, an Indigenous language immersion and storytelling program. Prerequisites: Honors eligibility required

Credit Hours: 3

Credit Hours: 3

PEA_ST 4003: Topics in Peace Studies - Behavioral Sciences
Upperclass Topics. Subject may vary from semester to semester.
Credit Hours: 3
Prerequisites: junior standing required

PEA_ST 4005: Topics in Peace Studies: Humanities
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent. Graded on A-F basis only.
Credit Hour: 2-6
Recommended: sophomore standing
PEA_ST 4005H: Topics in Peace Studies: Humanities - Honors
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent. Graded on A-F basis only.

Credit Hour: 2-6
Prerequisites: Honors eligibility required
Recommended: sophomore standing

PEA_ST 4005W: Topics in Peace Studies: Humanities - Writing Intensive
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent. Graded on A-F basis only.

Credit Hour: 2-6
Recommended: sophomore standing

PEA_ST 4080: American Foreign Policy from Colonial Times to 1898
(same as HIST 4080, CNST_DEM 4080; cross-leveled with HIST 7080, PEA_ST 7080). This class probes the entwined development of the U.S. nation and empire, to the backdrop of accelerating structures of global economic integration, technological innovation, and the hardening of national, racial, and ideological formations.

Credit Hours: 3

PEA_ST 4230: Women, Development and Globalization
(same as SOCIOL 4230 and WGST 4230 and BL_STU 4230; cross-leveled with SOCIOL 4230, WGST 7230, BL_STU 7230). Examines the history and structure of 'development' discourse and practices. Stresses the interconnections and impact on women globally. Reviews women's strategies in defining and instituting programs to improve quality of life in communities.

Credit Hours: 3

Philosophy Courses

PHIL 1000: The Big Questions: An Introduction to Philosophy
Introduction to traditional philosophical problems and methods of philosophical inquiry. Consideration given to different philosophical theories on the nature of reality, human beings, nature and God; knowledge and how it is acquired; values and social issues.

Credit Hours: 3

Extended Honors:

PHIL 1000H: The Big Questions: An Introduction to Philosophy - Honors
Introduction to traditional philosophical problems and methods of philosophical inquiry. Consideration given to different philosophical theories on the nature of reality, human beings, nature and God; knowledge and how it is acquired; values and social issues.

Credit Hours: 3
Prerequisites: Honors eligibility required

PHIL 1100: The Difference Between Right and Wrong: An Introduction to Ethics
Introduction to different philosophical theories regarding when acts are morally right rather than wrong; when things are good rather than bad; nature of the 'good life', nature of ethical reasoning and justification.

Credit Hours: 3

Extended Honors:

PHIL 1100H: The Difference Between Right and Wrong: An Introduction to Ethics - Honors
Introduction to different philosophical theories regarding when acts are morally right rather than wrong; when things are good rather than bad; nature of the 'good life', nature of ethical reasoning and justification.

Credit Hours: 3
Prerequisites: Honors eligibility required

PHIL 1150: Introductory Bioethics
This course approaches moral problems in biomedical and scientific research from a philosophical perspective. First, we’ll familiarize ourselves with ethics and political philosophy. Then we’ll study the ethical issues that arise in connection with a series of issues, including research involving human and animal subjects, eugenics, the human genome project, cloning and stem cell research. By thinking about these issues, we learn how to think critically about particular moral quandaries, as well as to uncover and examine some of our deepest moral commitments.

Credit Hours: 3

PHIL 1159: Blind Spots
The human mind is systematically biased towards illusion, distortion, and error. Failing to recognize one’s own biases, moreover, is a bias in itself - the so-called Blind Spot Bias. PHIL 1159 is an online philosophy course that will provide a comprehensive introduction to cognitive biases, and to the skills that can be used to identify and negotiate their influences on patterns of cognition and behavior. The course will be structured around case studies of particular biases, such as confirmation bias, probability neglect, and overconfidence. The course will employ a variety of instructional materials including popular science articles, essays written by philosophers and psychologists, and video lectures by the instructors and by other researchers. Assignments include discussion board posts, a few short essays, and the creation of argument maps using MindMap, a free, web-based platform developed by researchers at Princeton University. Graded on A-F basis only.

Credit Hours: 3

PHIL 1200: How to Think: Logic and Reasoning for Everyday Life
Methods of analyzing and evaluating arguments of all types. Uses both informal and formal techniques. Identifies informal fallacies and introduces elementary symbolic logic.

Credit Hours: 3

PHIL 1200H: How to Think: Logic and Reasoning for Everyday Life - Honors
Methods of analyzing and evaluating arguments of all types. Uses both informal and formal techniques. Identifies informal fallacies and introduces elementary symbolic logic.

Credit Hours: 3
Prerequisites: Honors eligibility required

PHIL 2005: Topics in Philosophy-Humanities
Organized study of philosophical issues to which no regular course in devoted. Subjects and earnable credit may vary from semester to semester.

Credit Hour: 1-3

PHIL 2100: The Philosophy of Film
(same as FILMS_VS 2010). Philosophical problems having to do with film. Topic may include the nature of films, the differences between fiction and documentary film, ethical issues with film and filmmaking.

Credit Hours: 3

PHIL 2100: Philosophy: East and West
(same as S_A_ST 2100). Compares the interpretation and role of philosophical concepts such as experience, reason, permanence, change, immortality, soul, God, etc., in Indian, Chinese and European traditions.

Credit Hours: 3

PHIL 2150: Philosophy of Race
This course surveys developments in the philosophy of race. We will examine the ordinary conception of race and consider criticisms of it. Theorists in the field generally hold the ordinary notion of race in disrepute. The line of inquiry then becomes 'What does 'race' denote?' and 'Why?' In response, we will disambiguate race from closely associated concepts such as ethnicity, culture, nation, and class as part of a sustained investigation into the relationship between race and racism. Toward the end of the course, we will more directly reflect on implications of the inequality that race seems to track with a focus on mass incarceration and reparations. Graded on A-F basis only.

Credit Hours: 3
Recommended: PHIL 1000, PHIL 1100, or PHIL 1200

<tbody>
<tr>
<td>PHIL 2200</td>
<td>Philosophy and Intellectual Revolution</td>
<td>Examines such revolutions as the Copernican, Darwinian, Marxian and Freudian. What are the new views? How is our place in the universe affected? What puzzles arise in replacing old by new views?</td>
<td>3</td>
<td>sophomore standing</td>
</tr>
<tr>
<td>PHIL 2300</td>
<td>Philosophy and Human Nature</td>
<td>Philosophical exploration and examination of theories of human nature with reference to relevant developments in such sciences as biology, psychology, and economics.</td>
<td>3</td>
<td>sophomore standing</td>
</tr>
<tr>
<td>PHIL 2350</td>
<td>The Meaning of Life</td>
<td>Does life have meaning, or is it essentially meaningless, absurd? This course will examine some of answers philosophers have given to this and related questions.</td>
<td>3</td>
<td>sophomore standing</td>
</tr>
<tr>
<td>PHIL 2400</td>
<td>Ethics and the Professions</td>
<td>Examination of ethical issues confronted by members of different professions such as medicine, law, business, journalism and engineering.</td>
<td>3</td>
<td>sophomore standing</td>
</tr>
<tr>
<td>PHIL 2410</td>
<td>Philosophies of War and Peace</td>
<td>(same as PEA_ST 2410). Moral issues about the recourse to war by the nation and the individual's obligations to participate. The nature of peace, social and personal. Special attention to the Vietnam War and the nuclear age.</td>
<td>3</td>
<td>sophomore standing</td>
</tr>
<tr>
<td>PHIL 2410W</td>
<td>Philosophies of War and Peace - Writing Intensive</td>
<td>(same as PEA_ST 2410W). Moral issues about the recourse to war by the nation and the individual's obligations to participate. The nature of peace, social and personal. Special attention to the Vietnam War and the nuclear age.</td>
<td>3</td>
<td>sophomore standing</td>
</tr>
<tr>
<td>PHIL 2420</td>
<td>Ethical Issues in Business</td>
<td>Major theories of moral obligation and justice and their application to business practices. Corporate responsibility, government regulation, investment and production, advertisement, the environment, preferential hiring, etc. through case studies, legal opinions and philosophical analysis.</td>
<td>3</td>
<td>sophomore standing and grade of C or better in MATH 1050, MATH 1100, MATH 1160, MATH 1400, or MATH 1500</td>
</tr>
<tr>
<td>PHIL 2430</td>
<td>Contemporary Moral Issues</td>
<td>Review of the major contemporary ethical theories and their contribution to the resolution of major social issues such as euthanasia, suicide, abortion, capital punishment, violence and war. Emphasis on nature, interests, and rights of persons. Graded on A-F basis only.</td>
<td>3</td>
<td>sophomore standing</td>
</tr>
<tr>
<td>PHIL 2440</td>
<td>Medical Ethics</td>
<td>Considers moral issues posed by developments in biological sciences and medical technology. Topics may include: genetic engineering, abortion and euthanasia, distribution of health care.</td>
<td>3</td>
<td>sophomore standing</td>
</tr>
<tr>
<td>PHIL 2500</td>
<td>Philosophy and Gender</td>
<td>(same as WGST 2500). A critical examination of central ideas and themes in feminist philosophical thought. Topics may include: sex, marriage, parenthood, reproduction, body image, pornography, prostitution.</td>
<td>3</td>
<td>sophomore standing</td>
</tr>
<tr>
<td>PHIL 2500H</td>
<td>Philosophy and Gender - Honors</td>
<td>A critical examination of central ideas and themes in feminist philosophical thought. Topics may include: sex, marriage, parenthood, reproduction, body image, pornography, prostitution.</td>
<td>3</td>
<td>Honors eligibility required</td>
</tr>
<tr>
<td>PHIL 2600</td>
<td>Rational Decisions</td>
<td>Principles for making decisions in a rational way. Special attention to principles that use probabilities and utilities. Some discussion of decisions made in conjunction with other people, and decisions made for other people. Math Reasoning Proficiency Course.</td>
<td>3</td>
<td>sophomore standing and grade of C or better in MATH 1050, MATH 1100, MATH 1160, MATH 1400, or MATH 1500</td>
</tr>
<tr>
<td>PHIL 2700</td>
<td>Elementary Logic</td>
<td>(same as LINGST 2700). Introduces a symbolic language for representing the structure of arguments. Presents precise rules for demonstrating the validity of arguments. Covers natural deduction for sentence and predicate logic. Develops skill in constructing derivations. Math Reasoning Proficiency Course.</td>
<td>3</td>
<td>sophomore standing and grade of C or better in MATH 1050, MATH 1100, MATH 1160, MATH 1400, or MATH 1500</td>
</tr>
<tr>
<td>PHIL 2780</td>
<td>Minds, Brains, and Machines</td>
<td>(same as PSYCH 2820 and LINGST 2820). Cognitive science is a many-splendored thing. It draws on a variety of disciplines, including psychology, neuroscience, computer science, linguistics, anthropology, and philosophy. The purpose of this course is to introduce the central questions of cognitive science, the conceptual and empirical tools used to investigate those questions, and some of the answers that have emerged so far. After an initial overview of the foundations of the cognitive-scientific enterprise as a whole, we will see what particular sectors of it have to say about mental capacities such as language, categorization, reasoning, social cognition, and consciousness.</td>
<td>3</td>
<td>sophomore standing and grade of C or better in MATH 1050, MATH 1100, MATH 1160, MATH 1400, or MATH 1500</td>
</tr>
</tbody>
</table>
Prerequisites: sophomore standing
Recommended: PSYCH 1000

PHIL 2850: Minds and Morals: An Introduction to Moral Psychology
Moral psychology is the interdisciplinary study of how we reason and act morally. This course is a systematic introduction to the field, drawing on research from both psychology and philosophy. Topics include competing theories of moral judgment, the situationist challenge to virtue ethics, and the role of deliberation in moral agency.
Credit Hours: 3
Recommended: PHIL 1100, PHIL 2820

PHIL 2900: Environmental Ethics
Environmental Ethics explores the ethical, ecological, and policy dimensions of a range of issues such as climate change, land and natural resource management, sustainability, animal rights, hunting and fishing, ecofeminism, property rights, and environmental justice. Graded on A-F basis only.
Credit Hours: 3
Recommended: PHIL 1100

PHIL 3000: Ancient Western Philosophy
(same as AMS 3025). Philosophical thought on nature, knowledge, the gods, human life and society, from Thales to Augustine. Emphasis on Plato and Aristotle. The relevance of the ancients to contemporary life.
Credit Hours: 3
Prerequisites: sophomore standing
Recommended: one course in Philosophy

PHIL 3100: Medieval Philosophy
Major thinkers from St. Augustine through 14th century Ockhamists.
Credit Hours: 3
Prerequisites: sophomore standing
Recommended: one course in Philosophy

PHIL 3200: Modern Philosophy
Surveys critical and speculative thinking of modern period from Descartes to Kant in relation to scientific, religious and social movements.
Credit Hours: 3
Prerequisites: sophomore standing
Recommended: one course in Philosophy

PHIL 3200W: Modern Philosophy - Writing Intensive
Surveys critical and speculative thinking of modern period from Descartes to Kant in relation to scientific, religious and social movements.
Credit Hours: 3
Prerequisites: sophomore standing
Recommended: one course in Philosophy

PHIL 3400: 19th Century Philosophy
A careful and sympathetic study of some of the major thinkers of this period, notably Kierkegaard and Nietzsche.
Credit Hours: 3
Prerequisites: sophomore standing

PHIL 3500: Existentialism
The nature of human existence, the meaning of life, the relation of the individual to nature, society, and any gods that may be, according to Kierkegaard, Nietzsche, Heidegger, Sartre, de Beauvoir, Camus and others. Students are encouraged to come to grips with the issues in relation to their own lives.
Credit Hours: 3
Prerequisites: sophomore standing
Recommended: one course in Philosophy

PHIL 3600: 20th Century Philosophy
The course will be a survey of some of the notable philosophers/thinkers whose contributions have been made in the twentieth century.
Credit Hours: 3
Prerequisites: sophomore standing
Recommended: one course in Philosophy

PHIL 3700: Selected Modern Philosophers
Advanced study of a particular philosopher or a number of philosophers from the same school in the modern period. May be taken twice for credit with permission of the department.
Credit Hours: 3
Prerequisites: sophomore standing
Recommended: one course in Philosophy

PHIL 3800: Selected Contemporary Philosophers
Advanced study of a particular contemporary philosopher or philosophers. May be taken twice for credit with permission of the department.
Credit Hours: 3
Prerequisites: sophomore standing
Recommended: one course in Philosophy

PHIL 4001: Topics in Philosophy-General
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.
Credit Hour: 1-3
Prerequisites: sophomore standing and two courses in Philosophy, or instructor's consent; departmental consent for repetition

PHIL 4005: Topics in Philosophy-Humanities
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Departmental consent for repetition.
Credit Hour: 1-3
Prerequisites: sophomore standing
Recommended: two courses in Philosophy, or instructor's consent

PHIL 4100: Philosophy of Language
(same as LINGST 4100; cross-leveled with PHIL 7100, LINGST 7100). Examination of contemporary views of the relationship between language, minds, and the world.
Credit Hours: 3
Prerequisites: sophomore standing and PHIL 2700
Recommended: one other course in Philosophy

PHIL 4110: Advanced Logic
(same as LINGST 4110; cross-leveled with PHIL 7110, LINGST 7110). Presents the method of truth trees for sentence and predicate logic. Examines proofs concerning the decidability, soundness, and completeness of formal systems. Emphasizes the theory of formal systems. Math Reasoning Proficiency Course.
Credit Hours: 3
Prerequisites: sophomore standing and PHIL 2700
Recommended: one other course in Philosophy

PHIL 4120: Selected Topics in Logic
(cross-leveled with PHIL 7120). Possible topics include elementary set theory and modal logic, the logic of possibility and necessity.
Credit Hours: 3
Prerequisites: sophomore standing and either PHIL 2700 or PHIL 4110

PHIL 4130: Probability and Induction
(cross-leveled with PHIL 7130). This course studies probability, its various interpretations, and its basic principles. It identifies forms of reasoning that establish the probability of a conclusion. The methods of reasoning it treats are at the heart of science and practical affairs.
Credit Hours: 3
Prerequisites: sophomore standing and PHIL 2700

PHIL 4150: Formal Semantics
(cross-leveled with PHIL 7150). The course provides a systematic introduction to the semantics of natural languages, using the tools of formal logic. Prerequisites: Sophomore standing and one of the following classes: PHIL 2700, PHIL 4110, or ENGLISH 4640.
Credit Hours: 3
Prerequisites: sophomore standing and PHIL 2700

PHIL 4200: Metaphysics
Metaphysics studies what there is and how things are, most generally speaking. Topics may include realism versus nominalism, substance and attribute, facts, modality, identity and causality.
Credit Hours: 3
Prerequisites: sophomore standing
Recommended: Previous work in PHIL 1000, PHIL 3000, PHIL 3200

PHIL 4210: Philosophy of Mind
(cross-leveled with PHIL 7210). Considers theories and arguments in contemporary philosophy of mind, focusing on the nature of mental states, their relation to brain states and the plausibility of various materialist theories of the mind.
Credit Hours: 3
Prerequisites: sophomore standing
Recommended: two Philosophy courses

PHIL 4220: Philosophy of Religion
(cross-leveled with PHIL 4210). Considers basis for and nature of religious beliefs.
Credit Hours: 3

PHIL 4300: Epistemology
(cross-leveled with PHIL 7300). An examination of contemporary philosophical theories concerning the nature, sources and limits of knowledge and justified belief.
Credit Hours: 3
Prerequisites: sophomore standing
Recommended: Previous work in PHIL 1000, PHIL 3000, PHIL 3200

PHIL 4400: Philosophy of Science
(cross-leveled with PHIL 7400). Why believe the scientific world-view? What, if anything, is the scientific method? Are today's theories really superior to past theories? Examines contemporary philosophical answers to such questions.
Credit Hours: 3
Prerequisites: sophomore standing
Recommended: two courses in Philosophy

PHIL 4410: Philosophy of History
(cross-leveled with PHIL 7210). Readings from classic and contemporary philosophers of history. Problems about nature and limits of historical knowledge; relation between history and other disciplines; the existence, nature, and kinds of historical laws.
Credit Hours: 3
Prerequisites: sophomore standing
Recommended: two courses in Philosophy

PHIL 4420: Philosophy of Biology
A survey of philosophical problems arising from consideration of evolutionary theory and the biological sciences. Topics may include reductionism, sociobiology, biological laws, and epistemic problems relating to evolutionary theory.
Credit Hours: 3
Prerequisites: sophomore standing
Recommended: two courses in Philosophy

PHIL 4500: Theories of Ethics
(cross-leveled with PHIL 7500). Normative and meta-ethical theories. Topics may include the rationality and objectivity of morality, the meaning of moral language, the differences between deontological, utilitarian and virtue theories.
Credit Hours: 3
Prerequisites: sophomore standing
Recommended: two courses in Philosophy

PHIL 4600: Political and Social Philosophy
(same as PEA_ST 4600; cross-leveled with PHIL 4210). Contemporary and/or historical theories of justice and the state. Utilitarianism, Liberalism, Libertarianism, Marxism, Communitarianism and Feminism may be among the views covered.
Credit Hours: 3
Prerequisites: sophomore standing
Recommended: two courses in Philosophy
PHIL 4610: Philosophy of Law
(cross-leveled with PHIL 7610). What is law? Are there pre- or trans-legal rights? Is punishment justifiable? How can judicial decisions be justified? What are the relations between law and morality?
Credit Hours: 3
Prerequisites: sophomore standing
Recommended: one course in Philosophy

PHIL 4620: Marxism
(cross-leveled with PHIL 7620). A philosophical examination of (a) the notion of critique as seen in Marx's early and middle writings, and (b) specific topics by such authors as Lenin, Lukacs and Plekhanov.
Credit Hours: 3
Prerequisites: Sophomore standing
Recommended: two courses in Philosophy

PHIL 4700: Aesthetics
(cross-leveled with PHIL 7700). Typical components of art; theories of art as representation, form, expression; relation of art to value.
Credit Hours: 3
Prerequisites: sophomore standing
Recommended: one course in Philosophy

PHIL 4700W: Aesthetics-Writing Intensive
(cross-leveled with PHIL 7700). Typical components of art; theories of art as representation, form, expression; relation of art to value.
Credit Hours: 3
Prerequisites: sophomore standing
Recommended: one course in Philosophy

PHIL 4800: Asian Philosophy
(same as S.A.ST 4800; cross-leveled with PHIL 7800). This course traces the origins of Indian and Chinese philosophical world views. Included are the major ideas in Hindu, Jaina, and Buddhist thought in India, and Taoism and Confucianism in China. Emphasis is placed on the diverse, assimilative, and pragmatic nature of Indian thought and its impact on contemporary Asian philosophy.
Credit Hours: 3
Prerequisites: sophomore standing
Recommended: one course in Philosophy

PHIL 4810: Philosophy of India
(same as S.A.ST 4810; cross-leveled with PHIL 7810). General development of Indian philosophy.
Credit Hours: 3
Prerequisites: sophomore standing
Recommended: one course in Philosophy

PHIL 4850: Special Readings in Philosophy
Regular individual meetings with an instructor as part of studying a sequence of readings, comparable in difficulty and number to readings assigned in a regularly-offered 4000-level course. Only by special arrangement with an instructor.

PHIL 4950: Senior Seminar in Philosophy
A capstone course required of and only open to senior Philosophy majors. Course content will vary, depending on the professor teaching the course.
Credit Hours: 3
Prerequisites: senior Philosophy major

PHIL 4950W: Senior Seminar in Philosophy - Writing Intensive
A capstone course required of and only open to senior Philosophy majors. Course content will vary, depending on the professor teaching the course.
Credit Hours: 3
Prerequisites: senior Philosophy major

PHIL 4998: Honors I in Philosophy
Special work for Honors candidates.
Credit Hours: 3
Prerequisites: junior standing

PHIL 4999: Honors II in Philosophy
Special work for Honors candidates.
Credit Hours: 3
Prerequisites: junior standing

PHIL 7100: Philosophy of Language
(same as LINGST 7100; cross-leveled with PHIL 4100, LINGST 4100). Examination of contemporary views of the relationship between language, minds, and the world.
Credit Hours: 3
Prerequisites: PHIL 2700 or instructor's consent
Recommended: Some work in PHIL 1000, PHIL 3000 or PHIL 3200

PHIL 7110: Advanced Logic
(same as LINGST 7110; cross-leveled with PHIL 4110, LINGST 4110). Presents the method of truth trees for sentence and predicate logic. Examines proofs concerning the decidability, soundness, and completeness of formal systems. Emphasizes the theory of formal systems.
Credit Hours: 3

PHIL 7120: Selected Topics in Logic
(cross-leveled with PHIL 4120). Possible topics include elementary set theory and modal logic, the logic of possibility and necessity.
Credit Hours: 3
Prerequisites: PHIL 2700 or PHIL 7110

PHIL 7130: Probability and Induction
(cross-leveled with PHIL 4130). This course studies probability, its various interpretations, and its basic principles. It identifies forms of reasoning that establish the probability of a conclusion. The methods
of reasoning it treats are at the heart of science and practical affairs.
Prerequisites: PHIL 2700
Credit Hours: 3

**PHIL 7150: Formal Semantics**
(cross-leveled with PHIL 4150). The course provides a systematic introduction to the semantics of natural languages, using the tools of formal logic.
Credit Hours: 3
Prerequisites: Basic proficiency in first order logic

**PHIL 7210: Philosophy of Mind**
(cross-leveled with PHIL 4210). Considers theories and arguments in contemporary philosophy of mind, focusing on the nature of mental states, their relation to brain states and the plausibility of various materialist theories of the mind.
Credit Hours: 3

**PHIL 7220: Philosophy of Religion**
(cross-leveled with PHIL 4220). Considers basis for and nature of religious beliefs. Philosophical approaches to religion, cultural implications of religion, mysticism and myth.
Credit Hours: 3

**PHIL 7300: Epistemology**
(cross-leveled with PHIL 4300). An examination of contemporary philosophical theories concerning the nature, sources and limits of knowledge and justified belief.
Credit Hours: 3
Recommended: Previous work in PHIL 1000, PHIL 3000, or PHIL 3200

**PHIL 7400: Philosophy of Science**
(cross-leveled with PHIL 4400). Why believe the scientific world-view? What, if anything, is the scientific method? Are today's theories really superior to the past theories? Examines contemporary philosophical answers to such questions.
Credit Hours: 3

**PHIL 7410: Philosophy of History**
(cross-leveled with PHIL 4410). Readings from classic and contemporary philosophers of history. Problems about nature and limits of historical knowledge; relation between history and other disciplines; the existence, nature, and kinds of historical laws.
Credit Hours: 3

**PHIL 7500: Theories of Ethics**
(cross-leveled with PHIL 4500). Normative and meta-ethical theories. Topics may include the rationality and objectivity of morality, the meaning of moral language, the differences between deontological, utilitarian and virtue theories.
Credit Hours: 3
Recommended: one course in Philosophy

**PHIL 7600: Political and Social Philosophy**
(cross-leveled with PHIL 4600, PEA_ST 4600). Contemporary and/or historical theories of justice and the state. Utilitarianism, Liberalism, Libertarianism, Marxism, Communitarianism and Feminism may be among the views covered.
Credit Hours: 3

**PHIL 7610: Philosophy of Law**
(cross-leveled with PHIL 4610). What is law? Are there pre- or trans-legal rights? Is punishment justifiable? How can judicial decisions be justified? What are the relations between law and morality?
Credit Hours: 3

**PHIL 7620: Marxism**
(cross-leveled with PHIL 4620). A philosophical examination of (a) the notion of critique as seen in Marx's early and middle writings, and (b) specific topics by such authors as Lenin, Lukacs and Plekhanov.
Credit Hours: 3

**PHIL 7700: Aesthetics**
(cross-leveled with PHIL 4700). Typical components of art; theories of art as representation, form, expression; relation of art to value.
Credit Hours: 3

**PHIL 7810: Philosophy of India**
(cross-leveled with PHIL 4810, S_A_ST 4810). General development of Indian philosophy.
Credit Hours: 3

**PHIL 7850: Special Readings in Philosophy**
Special Readings in Philosophy.
Credit Hour: 1-3

**PHIL 8090: Research in Philosophy**
Research not leading to thesis. Graded S/U only.
Credit Hour: 1-99

**PHIL 8100: Protoseminar in Philosophy**
Introduction to graduate level work in philosophy. Required of all students entering the program, in the first year. An intensive workshop focused on skills rather than any particular philosophical content.
Credit Hours: 3
Prerequisites: restricted to first year graduate students

**PHIL 8210: Teaching of Philosophy I**
Seminar meetings on course design, teaching methods, the evaluation of teaching, grading, instructor obligations, and teaching aids. Some individualized instruction, including help preparing for and assessing the effectiveness of practice teaching.
Credit Hour: 1
Prerequisites: graduate philosophy students
PHIL 8300: Dissertation Seminar
The course will address writing and time management for Ph.D. students writing a dissertation. Also discussed will be preparation for the academic job market in philosophy, especially the development of an application dossier. Graded on S/U basis only.

Credit Hour: 1
Prerequisites: Philosophy Ph.D. student

PHIL 8510: Metaphysics: A Survey
A graduate-level survey of central issues in metaphysics. May be repeated up to 6 hours of credit.

Credit Hours: 3

PHIL 8520: Philosophy of Mind: A Survey
A graduate-level survey of central issues in the philosophy of mind.

Credit Hours: 3

PHIL 8530: Epistemology: A Survey
A graduate-level survey of central issues in epistemology.

Credit Hours: 3

PHIL 8540: Philosophy of Language: A Survey
A graduate-level survey of central issues in philosophy of language.

Credit Hours: 3

PHIL 9001: Topics in Philosophy
Organized study of selected topics. Need departmental consent for repetition.

Credit Hour: 1-99
Prerequisites: instructor's consent

PHIL 9030: Topics in Modern Philosophy: 17th-19th Centuries
Interpretation and evaluation of philosophical debates from the 17th to the 19th centuries. These will be addressed in relation to their historical context and current philosophical problems.

Credit Hours: 3
Prerequisites: Graduate Philosophy Student

PHIL 9050: Plato
Advanced studies in Plato; emphasis on recent scholarship.

Credit Hours: 3
Prerequisites: graduate Philosophy student

PHIL 9060: Aristotle
Advanced studies in Aristotle; emphasis on recent scholarship.

Credit Hours: 3
Prerequisites: graduate Philosophy student

PHIL 9090: Research in Philosophy
Work toward preparation of thesis or dissertation. Graded on a S/U basis only.

Credit Hour: 1-99
Prerequisites: graduate Philosophy students

PHIL 9110: The Rationalists
Interpretation and evaluation of major works of Descartes, Leibniz, and/or Spinoza in relation to their historical context and current philosophical problems.

Credit Hours: 3
Prerequisites: graduate Philosophy student

PHIL 9120: The Empiricists
Epistemological and metaphysical doctrines of Locke, Berkeley and Hume.

Credit Hours: 3
Prerequisites: graduate Philosophy student

PHIL 9130: Kant
Critique of Pure Reason: historical context, meaning and cohesion of its claims, critical assessment of them.

Credit Hours: 3
Prerequisites: graduate Philosophy student

PHIL 9240: Russell and Wittgenstein
Each initially defends, but then rejects logical atomism. Metaphysical and epistemological themes of such intellectual phases and shifts of one or both philosophers.

Credit Hours: 3
Prerequisites: graduate Philosophy student

PHIL 9320: Social and Political Philosophy
Topics of current interest in social and political philosophy. Generally one of the following: social contract theory, utilitarianism, voting procedures, or convention.

Credit Hours: 3
Prerequisites: PHIL 4600 or instructor's consent and graduate Philosophy student

PHIL 9350: History of Eastern Ethics
Historical survey of major eastern ethical theories. Explores broad range of ethical theories developed in Asia: Hindu and Buddhist in India; Taoism and Confucianism in China; and Zen in Japan.

Credit Hours: 3
Prerequisites: graduate Philosophy student

PHIL 9510: Decision Theory
Principles for making rational decisions, including principles of expected utility theory, game theory, and social choice theory. A survey of basic ideas and an introduction to selected research topics.

Credit Hours: 3
Prerequisites: PHIL 4110; graduate Philosophy student

PHIL 9520: Ethical Theory
Contemporary theories of the right and the good. Metaethical topics such as moral language, reasoning, and justification.

Credit Hours: 3
Prerequisites: graduate Philosophy student

PHIL 9610: Metaphysics
Theories of the categories and structures of reality, e.g., appearance and reality, causality, space and time, God, Nature, the human being.
Credit Hours: 3
Prerequisites: graduate Philosophy student

PHIL 9710: Philosophy of Mind and Psychology
Survey of important recent work in contemporary philosophy of mind and psychology. Graduate seminar.
Credit Hours: 3
Prerequisites: graduate Philosophy student

PHIL 9720: Foundations of Cognitive Science
Examination of philosophical questions arising in cognitive science concerning, for instance, the nature of computation and representation, inter-disciplinary relations, the nature of cognitive scientific explanation, and its relation to folk psychological explanation.
Credit Hours: 3
Prerequisites: graduate Philosophy student

PHIL 9820: Epistemology
Knowledge and opinion, the types, sources, and extent of knowledge, according to a variety of views.
Credit Hours: 3
Prerequisites: graduate Philosophy student

PHIL 9830: Philosophy of Science
Examines central issues in general philosophy of science concerning the scientific method and the role in it of observation, the nature of rational theory-choice, progress, and the status of theories postulating unobservables.
Credit Hours: 3
Prerequisites: graduate Philosophy student

PHIL 9840: Philosophy of Language
Topics of current interest in the philosophy of language.
Credit Hours: 3
Prerequisites: Graduate Philosophy student

PHIL 9850: Philosophy of Biology
Philosophical problems relating to the life sciences, with attention given especially to explanation and reductionism in biology.
Credit Hours: 3

PHIL 9901: Seminar in Philosophy
Special topics. May be repeated for credit.
Credit Hours: 3
Prerequisites: graduate Philosophy student

Physical Medicine And Rehabilitation Courses

PM_REH 6615: Physical Medicine and Rehabilitation
Physical Medicine and Rehabilitation
Credit Hours: 5

PM_REH 6915: Rehabilitation of Musculoskeletal and Neurologic Diseases
The rotating student will be an integral part of the inpatient team, serving in an active role on the floor and participating in the evaluation and treatment of clinic patients. Daily morning rounds will be completed with the inpatient teams and will be followed by scheduled didactic sessions with various faculty throughout the week. Outpatient rotations will be included as a fundamental clinical experience and will encompass the breadth of PM&R to the best that can be accomplished in this short block. In-depth examinations of the neurologic and musculoskeletal systems will be performed.
Credit Hours: 2
Prerequisites: Successful completion of the first two years of medical school

Physical Therapy Courses

PH_THR 1000: Introduction to Physical Therapy
Acquaints students with the physical therapy profession including the required educational preparation, practice settings, sample interventions, current issues, trends and research. Graded on S/U basis only.
Credit Hour: 1

PH_THR 4250: Human Kinesiology
(same as HTH_PR 4250). Study of principles of physical laws, biomechanics and anatomic structure relative to human movement. Applications through analysis of daily functional performance, exercise, and sport.
Credit Hours: 3
Prerequisites: PTH_AS 2201

PH_THR 4420: Foundations of Therapeutic Exercise
Physiological basis of exercise throughout the lifespan with emphasis on the musculoskeletal, neuromuscular, cardiovascular/pulmonary and integumentary systems and the effects of injury and disease on these systems.
Credit Hours: 3

PH_THR 5100: Introduction to Interprofessional Practice
(same as OC_THR 5100; cross-leveled with HTH_PR 7100, HTH_PR 4100). This course serves as a foundation and introduction to interprofessional education and collaboration. Students who enroll in this course will be assigned to mini-teams of students from a range of
disciplines. Through this course, students will develop an understanding of their own unique role as a healthcare provider and the importance of client- and community-centered care and effective teamwork, as well as communication skills.

**Credit Hour: 1**

**PH_THR 5110: Fundamentals of Physical Therapy**
Introduction to professional school and expectations, history of physical therapy; the profession, basic skills, first aid, infection control, vital signs, surface anatomy.

**Credit Hour: 1**

**PH_THR 5200: Problems in Physical Therapy**
Organized study of selected content/topics in physical therapy, health and wellness, prevention of disease and disability, and the rehabilitation sciences. Specific content may vary from semester to semester.

**Credit Hour: 1**

**PH_THR 5210: Applied Neurophysiology for Allied Health Students**
Principles of basic neurophysiology, emphasizing correlation of structure and function of the nervous system.

**Credit Hours: 3**

**PH_THR 5220: Biophysical Agents**
Includes biophysics, theory and techniques concerning usage of biophysical agents as adjuncts to exercise programs. This entails the use of thermal, electrical, light, hydrotherapy, and mechanical agents.

**Credit Hours: 3**

**PH_THR 5230: Clinical Evaluation and Procedures**
Principles and procedures of basic evaluation methods and documentation: transfers, body mechanics, muscle strength, range of motion, muscle length, neurologic tests.

**Credit Hours: 4**

**PH_THR 5240: Foundations of Therapeutic Exercise**
Physiologic basis of exercise throughout the lifespan with emphasis on the musculoskeletal, neuromuscular, cardiovascular/pulmonary and integumentary systems and the effects of injury and disease on these systems.

**Credit Hours: 3**

**PH_THR 5250: Human Kinesiology**
Study of principles of physical laws, biomechanics and anatomic structure relative to human movement. Applications through analysis of daily functional performance, exercise, and sport.

**Credit Hours: 3**

**PH_THR 5260: Introduction to Clinical Education and PhysZOU I**
Introduction to the aspects of clinical education. Development of foundational clinical skills and behaviors, includes clinical experience in PhysZOU.

**Credit Hour: 1**

**PH_THR 5310: Applied Therapeutic Exercise**
Application of therapeutic exercise with an emphasis on evidenced-based exercise prescription, modes and techniques of exercise typically seen in rehabilitation.

**Credit Hours: 3**

**PH_THR 5320: Clinical Kinesiology**
Advanced Kinesiology addressing functional mobility; specifics of normal human gait; pathokinetics of gait. Assistive devices; wheelchairs; orthoses and prostheses.

**Credit Hours: 3**

**PH_THR 5330: Clinical Pathophysiology**
Interdisciplinary and case-based examination of the pathophysiology, prevention and general health management of disease/injury across the lifespan encountered in rehabilitation.

**Credit Hours: 3**

**PH_THR 5340: Introduction to Clinical Education and PhysZOU II**
Continuation of Introduction to Clinical Education and PhysZOU I with further emphasis on current events in the Physical Therapy profession as well as the professional attributes of communication, teamwork and problem solving, includes clinical experience in PhysZOU.

**Credit Hour: 1**

**PH_THR 5350: Introduction to Orthopedic Physical Therapy with Laboratory**
The physical therapy management of musculoskeletal disorders. A systematic clinical decision making model is introduced that considers the stage of inflammation and repair, impairments, and the systematic anatomical structure.

**Credit Hours: 3**

**PH_THR 5360: Pharmacology in Rehabilitation**
Principles of pharmacology including pharmacokinetics, pharmacodynamics, and toxicology of common drugs encountered in rehabilitation. Emphasis on pharmacology related to the musculoskeletal, neuromuscular, cardiovascular/pulmonary and integumentary systems across the lifespan.

**Credit Hours: 2**

**Prerequisites:** Restricted to students accepted into professional major

**PH_THR 6000: Topics in Physical Therapy**
Organized study of selected topics in physical therapy, health and wellness, prevention of disease and disability, and the rehabilitation sciences. Specific content may vary from semester to semester.

**Credit Hour: 1-99**

**PH_THR 6010: Problems in Physical Therapy**
Organized study of selected content/topics in physical therapy, health and wellness, prevention of disease and disability, and the rehabilitation sciences. Specific content may vary from semester to semester.

**Credit Hour: 1-3**
PH_THR 6410: Clinical Education I
Full time, supervised clinical experience addressing application of basic skills in patient evaluation and treatment, documentation and professional behaviors.
Credit Hours: 5

PH_THR 6510: Differential Diagnosis in Physical Therapy
Evidence-based clinical decision making emphasizing health screenings and system review to determine physical therapy diagnosis/need for referral to other health care professionals.
Credit Hours: 3

PH_THR 6520: Evidence-Based Practice
This course focuses on improving students' knowledge and skills for asking clinical questions, accessing and appraising research evidence, and integrating research, patient preferences, clinical expertise, and context into clinical decision making.
Credit Hours: 3

PH_THR 6530: Orthopedic Physical Therapy
Physical therapy diagnosis, management, and prevention of disorders of the musculoskeletal systems; continuation of Introduction to Orthopedic Physical Therapy emphasizing physical therapy interventions.
Credit Hours: 3

PH_THR 6540: Pediatric Physical Therapy
Physical therapy evaluation and treatment of children with movement dysfunction. Emphasis on therapeutic exercise.
Credit Hours: 4

PH_THR 6550: PhysZOU III
Part-time clinical experience through PhysZOU clinic. Students will work as a team with peers and a clinical instructor to develop, perform and document physical therapy sessions.
Credit Hours: 0.5

PH_THR 6560: Rehabilitation of the Neurologically Impaired Adult
Physical Therapy evaluation and treatment of adults who have incurred neurological deficits; emphasis on the restorative care of individuals following spinal cord injury, stroke, and traumatic head injury.
Credit Hours: 4

PH_THR 6620: Case Management: Acute and Chronic Medical and Surgical Conditions
Evaluation and team approach to physical therapy management for persons of all ages with medical and surgical conditions; cardiopulmonary, rheumatic, oncologic, integumentary or wound care, including major burn injury. Psychosocial and ethical issues incorporated.
Credit Hours: 5

PH_THR 6630: Clinical Education II
Continuation of full time, supervised clinical experiences addressing application of clinical skills in patient evaluation, treatment, documentation and professional behaviors. Progression of performance expectations from prior Clinical Education courses.
Credit Hours: 7

PH_THR 6640: Diagnostic Imaging in Rehabilitation
Diagnostic imaging used by disciples within and outside of physical therapy. Emphasis placed on basic skills for analyzing images to determine interpretation of results as they apply to physical therapy examination and intervention.
Credit Hours: 3

PH_THR 6650: PHYSZOU IV
Continuation of part-time clinical experience through PhysZOU clinic. Students work as a team with peers and a clinical instructor to develop, perform and document physical therapy sessions.
Credit Hours: 0.5

PH_THR 6660: Psychosocial Issues for Health Promotion
Psychological and social factors impact people's health and the American Physical Therapy Association has called for interprofessional approaches for the provision of fitness, health promotion, wellness, and risk reduction programs to enhance quality of life for persons across the life-span. This course focuses on psychosocial issues for health promotion in order to help future health care providers and scientists to improve the health and well-being of people.
Credit Hours: 2

PH_THR 6710: Case Management: Neurological Impairments Across the Lifespan
Traditional and contemporary theories of physical therapy in advanced rehabilitation of children and adults with neurologic disorders; education/empLOYMENT, ethical/legal issues; patient/client advocacy.
Credit Hours: 5

PH_THR 6810: Case Management: Geriatrics and Orthopedics
Complex orthopedic problems in older adults; supervision, reimbursement, ethical/legal situations; community programs for injury prevention.
Credit Hours: 5

PH_THR 6820: Clinical Education III
Continuation of full time, supervised clinical experiences addressing application of clinical skills in patient evaluation, treatment,
documentation, and professional behaviors. Progression of performance expectations from prior Clinical Education courses.

Credit Hours: 6

**PH_THR 6830: Health Policy for Physical Therapy**
This course is designed for physical therapy students and will provide an introduction to health policy along with an overview of the health care system in the United States, including its structures, financing mechanisms, and outcomes.

Credit Hours: 2

**PH_THR 6840: PhysZOU V**
Continuation of part-time clinical experience through PhysZOU clinic. Students will work as a team with peers and a clinical instructor to develop, perform and document physical therapy sessions.

Credit Hours: 0.5

**PH_THR 6850: Professional Issues**
The physical therapist as health care professional, administrator, and educator; legal, ethical, and political issues. Service delivery management; delegation of care; rural vs. urban health care needs.

Credit Hours: 3

**PH_THR 6910: Clinical Education IV**
Continuation of full time, supervised clinical experiences addressing application of clinical skills in patient evaluation, treatment, documentation and professional behaviors. Progression of performance expectations from prior Clinical Education courses.

Credit Hours: 5

**PH_THR 6920: PhysZOU VI And Professional Development Plan**
Continuation of part-time clinical experience through PhysZOU clinic. Students will work as a team with peers and a clinical instructor to develop, perform and document physical therapy sessions as well as finalize their Professional Development Plan.

Credit Hours: 0.5

**PH_THR 6930: Seminar in Physical Therapy**
Integrate previously learned content in unique patient cases and comprehensive review and evaluation of readiness for entry level physical therapist practice, in both didactic and psycho-motor domains. Enrollment is limited to students in professional physical therapy program.

Credit Hours: 4

**PH_THR 6940: Special Skills in Physical Therapy**
This course will offer a menu of options to students to develop additional knowledge about specific skills in the physical therapy profession. Students may choose topics of interest in addition to the mandatory sessions.

Credit Hours: 1

**PH_THR 7250: Human Kinesiology**
(same as HTH_PR 4250). Study of principles of physical laws, biomechanics and anatomic structure relative to human movement.

Applications through analysis of daily functional performance, exercise, and sport.

Credit Hours: 3

**PH_THR 7420: Foundations of Therapeutic Exercise**
Physiologic basis of exercise throughout the lifespan with emphasis on the musculoskeletal, neuromuscular, cardiovascular/pulmonary and integumentary systems and the effects of injury and disease on these systems.

Credit Hours: 3

**PH_THR 7550: Psychosocial Issues for Health Promotion**
Psychological and social factors impact people's health and the American Physical Therapy Association has called for interprofessional approaches for the provision of fitness, health promotion, wellness, and risk reduction programs to enhance quality of life for persons across the life-span. This course focuses on psychosocial issues for health promotion in order to help future health care providers and scientists to improve the health and well-being of people. Graded on A-F basis only.

Credit Hours: 2

**PH_THR 7850: Assessment and Neuropsychology of Pain**
Pain is a common problem that impairs people's quality of life and costs millions of dollars annually. Yet, an investigation of physical therapy education programs in the U.S. supported inadequate coverage of pain. This course focuses on the assessment and neuropsychology of pain in order to help future health care providers and scientists to improve the health and well-being of people with impaired quality of life due to pain. Graded on A-F basis only.

Credit Hours: 1

**Physics Courses**

**PHYSICS 1007: Topics in Physics and Astronomy - Physical Science**
Study of selected topics in physics and astronomy. Subjects and earnable credit may vary from semester to semester.

Credit Hours: 1-3

**PHYSICS 1050: Concepts in Cosmology**
This course explores the development of our understanding of the origin and evolution of the Universe. We will embark on a qualitative description of the Big Bang theory, the expansion of the universe and its current structure, the cosmic microwave background radiation, the existence of dark matter and dark energy and their implications for the Universe's ultimate fate.

Credit Hours: 3

**PHYSICS 1100: Science and Inventions**
This course covers the history of some of the most important inventions in science and their impact on past civilizations, current advances in science and inventions, funding and policies, and critical advances in technology required for future generations.

Credit Hours: 1
PHYSCS 1150: Concepts in Physics
Introduction to fundamental concepts of physics for non-science majors. Concepts include the conservation of energy, the second law of thermodynamics, and the special theory of relativity. Students learn to reason and apply these concepts through writing assignments.
Credit Hours: 3

PHYSCS 1200: Everyday Wonders: Explaining How Ordinary Things Work
How does an airplane fly? How does a steel boat float? How does your phone know when you are swiping the screen? Many things that seem wondrous can be explained using basic principles of physics. In this course students develop concepts in simple machines, fluids, waves, optics, and electricity as they explore real-world applications using simulations and hands-on experiments.
Credit Hours: 4

PHYSCS 1210: College Physics I
This introductory college physics course uses algebra and trigonometry in developing some of the fundamental concepts of classical physics. Topics covered are vectors, kinematics, dynamics, gravity, momentum, energy, rotational kinematics, rotational dynamics, fluids, simple harmonic motion, waves and sound, and thermodynamics. Three lectures, one discussion, one lab weekly. Students may receive credit for PHYSCS 1210 or PHYSCS 2750, but not both.
Credit Hours: 4
Prerequisites: MATH 1100

PHYSCS 1220: College Physics II
This introductory second semester college physics course uses algebra and trigonometry in developing some of the fundamental concepts of classical physics. Topics covered include electricity and magnetism, optics and modern physics. Three lectures, one discussion, one lab weekly. Students may receive credit for PHYSCS 1220 or PHYSCS 2760, but not both.
Credit Hours: 4
Prerequisites: grade of C- or better in PHYSCS 1210

PHYSCS 2002: Topics in Physics and Astronomy- Biological Science
Study of selected topics in physics and astronomy. Subjects and earnable credit may vary from semester to semester. Course may be repeated for credit.
Credit Hour: 1-3
Prerequisites: MATH 1100

PHYSCS 2002H: Topics in Physics and Astronomy- Biological Science - Honors
Study of selected topics in physics and astronomy. Subjects and earnable credit may vary from semester to semester. Course may be repeated for credit.
Credit Hour: 1-3
Prerequisites: MATH 1100; Honors eligibility required

PHYSCS 2007: Topics in Physics and Astronomy- Physical Science
Study of selected topics in physics and astronomy. Subjects and earnable credit may vary from semester to semester. Course may be repeated for credit.
Credit Hour: 1-3
Prerequisites: MATH 1100

PHYSCS 2007H: Topics in Physics and Astronomy- Physical Science - Honors
Study of selected topics in physics and astronomy. Subjects and earnable credit may vary from semester to semester. Course may be repeated for credit.
Credit Hour: 1-3
Prerequisites: MATH 1100; Honors eligibility required

PHYSCS 2010: Undergraduate Seminar in Physics
Introduction to the Physics Department and presentation of topics of current interest in physics by faculty and students. Intended for physics majors at the freshman or sophomore level only. Graded on A-F basis only.
Credit Hours: 2
Recommended: for physics majors

PHYSCS 2200: Life and the Universe
This course explores the connection between our everyday existence and the underlying physics' processes. Students will look at processes - essential to life - ranging from the very small (atomic level) to the very large (universe), and the many length scales in between (cellular level and human being level) as well as make connections between the laws of physics and the numbers that go into them and the prerequisites for the existence of life.
Credit Hours: 3

PHYSCS 2330: Exploring the Principles of Physics
A hands-on course covering topics in Electricity, Magnetism, Forces, Motion and Energy. Pedagogy reflects styles used in K-12 classrooms; emphasis on inquiry, concept development, quantitative applications and technology. Enrollment limited to Elementary and Early Childhood Education majors who have completed MATH 1100 or higher.
Credit Hours: 4
Prerequisites: instructor's consent required

PHYSCS 2500: The Beautiful Invisible: Exploring Physics, Fiction, and Reality
This course explores the conceptual structure of modern physics from a humanistic perspective. Rather than describing the natural world 'as it is', physical science weaves some key observations in a convincing and memorable narrative. It is not within its power to explain reality, but it can make it understandable, sometimes even predictable. Due to the presence of internal and external constraints, physical theories are akin to myths, i.e., fiction created by many authors over an extended period of time. The mythical character of a theory does not diminish its scientific validity - quite the contrary. Convincing myths are not easily found and better observations demand better myths. The mythical content of the theory is not some extraneous content that we introduce for the sake of popularization, but an essential part of the science itself.
**PHYSCS 2750: University Physics I**

First course in calculus-based physics for science and engineering students. Topics covered are vectors, translational and rotational kinematics, translational and rotational dynamics, energy, momentum, gravity, oscillations, waves, fluids and thermodynamics. Three lectures, one discussion, one lab weekly. Students may receive credit for PHYSCS 1210 or PHYSCS 2750, but not both.

**Credit Hours:** 3

**Prerequisites:** MATH 1500 or equivalent

**Recommended:** MATH 1700

---

**PHYSCS 2750H: University Physics I - Honors**

First course in calculus-based physics for science and engineering students. Topics covered are vectors, translational and rotational kinematics, translational and rotational dynamics, energy, momentum, gravity, oscillations, waves, fluids and thermodynamics. Three lectures, one discussion, one lab weekly. Students may receive credit for PHYSCS 1210 or PHYSCS 2750, but not both. Graded on A-F basis only.

**Credit Hours:** 5

**Prerequisites:** MATH 1500 or equivalent. Honors eligibility required

**Recommended:** MATH 1700

---

**PHYSCS 2760: University Physics II**

Second semester course in calculus-based physics for science and engineering students. Topics covered are electrostatics, circuits, magnetism, electromagnetic phenomena, optics, matter waves and particles and modern physics. Three lectures, one discussion, one lab weekly. Students may receive credit for PHYSCS 1220 or PHYSCS 2760, but not both.

**Credit Hours:** 5

**Prerequisites:** MATH 1700 and grade of C- or better in PHYSCS 2750

**Recommended:** MATH 2300

---

**PHYSCS 2760H: University Physics II - Honors**

Second semester course in calculus-based physics for science and engineering students. Topics covered are electrostatics, circuits, magnetism, electromagnetic phenomena, optics, electromagnetic waves and relativity. Three lectures, one discussion, one lab weekly. Graded on A-F basis only.

**Credit Hours:** 5

**Prerequisites:** MATH 1700 and grade of C- or better in PHYSCS 2750. Honors Eligibility required

**Recommended:** MATH 2300

---

**PHYSCS 3002: Topics in Physics and Astronomy - Biological Science**

Study of selected topics in physics and astronomy. Subjects and earnable credit may vary from semester to semester. May be repeated 3 times for credit.

**Credit Hour:** 1-3

**Prerequisites:** PHYSCS 1210 or PHYSCS 2750

---

**PHYSCS 3007: Topics in Physics and Astronomy - Physical Science**

Study of selected topics in physics and astronomy. Subjects and earnable credit may vary from semester to semester. May be repeated 3 times for credit.

**Credit Hour:** 1-3

**Prerequisites:** PHYSCS 1210 or PHYSCS 2750

---

**PHYSCS 3010: Introduction to Modern Astrophysics**

(same as ASTRON 3010). Elements of stellar, and galactic astrophysics. Interpretation of observations and physical conditions of various astronomical objects including stars, gaseous nebulae and, galaxies.

**Credit Hours:** 3

**Prerequisites:** PHYSCS 2760

---

**PHYSCS 3100: Teaching Physics**

Introduces modeling and inquiry methods of teaching about force, motion, energy, electricity and magnetism. Students learn research-based physics teaching methods, including eliciting prior understanding, facilitating conceptual change, and active learning strategies.

**Credit Hours:** 3

**Prerequisites:** PHYSCS 1220 or PHYSCS 2760

---

**PHYSCS 3150: Introduction to Modern Physics**

Relativistic kinematics and Lorentz transformations; historical basis for quantum mechanics; atomic structure; physics of solids; nuclear structure and decay.

**Credit Hours:** 3

**Prerequisites:** PHYSCS 2760

---

**PHYSCS 3150W: Introduction to Modern Physics - Writing Intensive**

Relativistic kinematics and Lorentz transformations; historical basis for quantum mechanics; atomic structure; physics of solids; nuclear structure and decay.

**Credit Hours:** 3

**Prerequisites:** PHYSCS 2760

---

**PHYSCS 3200: Physics of Space Explorations**

The course provides an overview of the solar system, spaceflight history, a review of Newtonian physics and law of universal gravitation, the application of these laws to spacecraft launch, entry, and orbit, planetary trajectories, and other special topics. Three focused case studies of actual space missions are addressed. Graded on A-F basis only.

**Credit Hours:** 3

**Prerequisites:** PHYSCS 1100

---

**PHYSCS 3300: Introduction to Methods in Mathematical Physics**

The course discusses the application of mathematical techniques that students need for upper-level physics courses. Topics include: applications of complex variables, second-order linear differential equations with applications to AC circuits, matrices/linear algebra, calculus of variations, Fourier transforms and vector analysis.

**Credit Hours:** 3

**Prerequisites:** PHYSCS 2760 and MATH 2300
PHYSCS 4020: Astrophysical Techniques
(same as ASTRON 4020; cross-leveled with PHYSCS 7020). Elements of modern astronomical instruments, observations and analysis, with the emphasis in the optical regime. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: PHYSCS 2760

PHYSCS 4050: Electronic Laboratory
(cross-leveled with PHYSCS 7050). Acquaints students with the foundations and techniques of electronics design, with emphasis on data acquisition and processing. Topics: circuits with discrete and integrated circuits, active and passive filters, amplifiers, power supplies, instrumentation and interfacing. Integrated lectures and labs. Graded on A-F basis only.
Credit Hours: 4
Prerequisites: PHYSCS 2760

PHYSCS 4060: Advanced Physics Laboratory I
This upper-level undergraduate laboratory course familiarizes students with the methods and procedures of experimental physics at an advanced level. The course covers principles of magnetism, graphic programming and interface techniques, weak-signal detection, and some modern physics discoveries such as, magneto-optical Kerr effect, digital holography and gamma-ray spectroscopy. Students work on research projects in the areas of condensed matter physics, materials science, modern spectroscopy, superconductivity, and quantum physics.
Credit Hours: 3
Prerequisites: PHYSCS 3150

PHYSCS 4080: Major Themes in Classical Physics
Introduction to classical physics: mechanics, electromagnetism and thermodynamics, emphasizing the unity and the connections between different parts of it.
Credit Hours: 3
Prerequisites: PHYSCS 2760

PHYSCS 4080W: Major Themes in Classical Physics - Writing Intensive
Introduction to classical physics: mechanics, electromagnetism and thermodynamics, emphasizing the unity and the connections between different parts of it.
Credit Hours: 3
Prerequisites: PHYSCS 2760

PHYSCS 4100: Electricity and Magnetism I
Mathematical preliminaries, properties of charge distributions at rest and in motion, the field concept, introduces electromagnetic radiation.
Credit Hours: 3
Prerequisites: PHYSCS 2760

PHYSCS 4102: Topics on Physics and Astronomy-Biological/Physical/Mathematics
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Departmental consent for repetition.
Credit Hour: 1-3

PHYSCS 4110: Light and Modern Optics
(cross-leveled with PHYSCS 7110). Interaction of light with matter, spectroscopic techniques, wave optics, interferometry, multilayer films, polarization, non-linear optics, design of optical instruments, matrix methods, waveguides, fiber optics, acousto-optic and photo-elastic modulation. Includes both lectures and laboratory.
Credit Hours: 4
Prerequisites: PHYSCS 2760

PHYSCS 4120: Introduction to Thermodynamics
Development of the concepts of temperature, heat, work, entropy, enthalpy and free energy. Applications to gases, liquids and solids. Statistical methods.
Credit Hours: 3
Prerequisites: PHYSCS 2760

PHYSCS 4140: Mechanics
Development of fundamental concepts, principles of mechanics using mathematical methods. Many problems used.
Credit Hours: 3
Prerequisites: PHYSCS 2760

PHYSCS 4180: Solar System Science
(same as GEOL 4180, ASTRON 4180; cross-leveled with GEOL 7180, PHYSCS 7180). Investigates physical states, interior structures and comparative geology of solar systems bodies: planets, moons, asteroids, comets, sun. Solar system formation and evolution.
Credit Hours: 3
Prerequisites: ASTRON 3010

PHYSCS 4190: Physics and Chemistry of Materials
(same as NU_ENG 4319, BIOL_EN 4480, CHEM 4490, BME 4480; cross-leveled with PHYSCS 7190, NU_ENG 7319, BIOL_EN 7480, CHEM 7490). Physics and Chemistry of Materials is a 3 credit hours course offered every spring semester for students from Physics, Chemistry, Engineering and Medical Departments and consists of lectures, laboratory demonstrations, two midterm and one final exam. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: PHYSCS 2750, CHEM 1320 or equivalent, or instructor's consent

PHYSCS 4210: Contributions to Science from Under-represented Groups
(same as ASTRON 4210; cross-leveled with ASTRON 7210, PHYSCS 7210). STEM fields are amongst the areas of human endeavor that struggle with increasing their human diversity. Teaching of science rarely discusses the contributions or marginalizations of under-represented groups. Meanwhile, many women and indigenous cultures have contributed to progress in STEM but are often not recognized. In this course we will investigate these contributions, and the lack of recognition both historically and in the present day. The aim is to provide students with a better understanding of the advantages of and challenges in inclusive, diverse science. Initially the course will use astronomy as its
frame of reference because the sky was one of the earliest laboratories and consequently it has a long history with many indigenous cultures developing their own cosmologies and ways of studying the sky. As we discuss the role of Indigenous peoples, people of color, and women, we will investigate the role of power structures as well as systemic biases in the marginalization of these groups. This class will be strongly discussion oriented, with assessment based on the development throughout the semester, of a final project. As many students will be pursuing graduate school in STEM fields, the final project will be to develop a Broader Impact statement. Many federal funding agencies request or even require that research grants include a component aimed at ‘broadening participation’, i.e. making STEM more inclusive and diverse. Student will work on a multipart assignment that will culminate in a Broader Impact statement that may well be directly applicable to an NSF GRFP (Graduate Research Fellowship Program) or NSF Post-Doctoral Fellowship. In addition to the Broader Impact statement - students will give presentations and learn how to be more inclusive in their presentation design, following the principles of Inclusive Design for Learning. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** PHYSCS 2760 or PHYSCS 1200 or instructors consent

---

**PHYSCS 4230: Scanning and Transmission Electron Microscopy and Microanalysis**  
(cross-leveled with PHYSCS 7230). This course is designed for senior undergraduate/graduate students. This course covers the basic principles and practical considerations using SEM, TEM, EDS, and EELS in the characterization of materials. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** PHYSCS 3150 and instructor's consent

---

**PHYSCS 4250: Stellar Astrophysics**  
(same as ASTRON 4250). Basic astrophysics of stable and unusual stars, stellar systems. Investigates stellar dimensions, radiation, spectra, energy, evolution, populations; interstellar medium, stellar motions and aggregation.

**Credit Hours:** 3  
**Prerequisites:** ASTRON 3010

---

**PHYSCS 4310: Physics in Cell and Developmental Biology**  
(same as BIO_SC 4310). Discusses the role of physical mechanisms in specific cellular and developmental processes and phenomena, in particular those characterizing the embryonic stage of multicellular organisms. Each process and phenomenon is first described in biological terms and then within a physical model, with special emphasis on the interplay between the two descriptions.

**Credit Hours:** 3  
**Prerequisites:** PHYSCS 2760 and BIO_SC 2300 or instructor's consent

---

**PHYSCS 4350: Galactic Astronomy**  
(same as ASTRON 4350). Observational properties of normal galaxies and clusters of galaxies, Seyfert and emission-line structure and dynamics of galaxies; interacting galaxies, quasi-stellar objects. Introduction to cosmology.

**Credit Hours:** 3  
**Prerequisites:** PHYSCS 2760

---

**PHYSCS 4360: Extragalactic Astronomy**  
(same as ASTRON 4360; cross-leveled with ASTRON 7360, PHYSCS 7360). This course introduces students to the most basic knowledge of extragalactic astronomy, starting from Milky Way and extending to the most distant universe. Topics covered will include galaxy morphology and classification, groups and clusters of galaxies, active galactic nuclei, and galaxy formation and evolution.

**Credit Hours:** 3  
**Prerequisites:** PHYSCS 2760

---

**PHYSCS 4390: Problems in Physics**  
Problems in Physics

**Credit Hours:** 1-3

---

**PHYSCS 4400: The Physics of Electronic Devices**  
(cross-leveled with PHYSCS 7400). This course is designed for graduate and undergraduate students of Physics and Electrical Engineering who have an interest in learning the basic physical idea underlying the operation of electronic devices. The course consists of lectures, handout lecture notes, problem sets, two mid-term and one final exam. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** PHYSCS 3150 or equivalent

---

**PHYSCS 4410: Analysis of Biological Macromolecules and Biomaterials**  
(cross-leveled with PHYSCS 7410). This interdisciplinary, team-taught course introduces basic concepts and experimental techniques for studying bio-macromolecules and biomaterials. A Problem Based Learning/ Writing Intensive approach uses four modules: Proteins, membranes, cellular interactions and biomaterials.

**Credit Hours:** 3  
**Prerequisites:** PHYSCS 2760

---

**PHYSCS 4420: Introduction to Biomedical Imaging**  
(same as BIOL_EN 4420, BME 4420; cross-leveled with PHYSCS 7420, BIOL_EN 7420). This course offers a broad introduction to medical imaging. Topics to be covered include the physics basics and instrumentation of X-ray, CT, PET, SPECT, ultrasound, MRI, and optical imaging, as well as recent developments in biomedical imagining.

**Credit Hours:** 3  
**Prerequisites:** PHYSCS 2760

---

**PHYSCS 4450: Introduction to Cosmology**  
(cross-leveled with PHYSCS 7450). Develops the physical concepts necessary for understanding the major recent discoveries in cosmology, such as the acceleration of the universe and dark energy. No prior knowledge of general relativity is assumed. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** PHYSCS 3150 or equivalent
PHYSICS 4460: Interstellar Medium  
(same as ASTRON 4460). The course discusses observational properties and physical and chemical processes occurring in the interstellar medium. Topics include interstellar diffuse and molecular clouds, HII regions, dust grains, interstellar chemistry, star formation, supernova remnants, and interstellar shock waves.  
Credit Hours: 3  
Prerequisites: ASTRON 3010

PHYSICS 4500: Computational Biological Physics  
(cross-leveled with PHYSCS 7500). Provides a practical introduction (hands-on approach) to the study of the structure and function of biomolecular systems by employing computational methods and theoretical concepts familiar from the physical sciences.  
Credit Hours: 3  
Prerequisites: PHYSCS 2760 or instructor’s consent

PHYSICS 4510: Single Molecule Biophysics  
(same as BIOCHM 4510; Cross-leveled with PHYSCS 7510). The course provides an overview of the biophysics of enzymes, nucleic acids and the cytoskeleton. Topics covered will include diffusion, molecular motors, polymerization and the cytoskeleton and the polymer properties of nucleic acids and microtubules.  
Credit Hours: 3  
Prerequisites: PHYSCS 2760

PHYSICS 4520: Introduction to Biophysics  
This course introduces the study of biological systems from the perspective of a physicist. Students will learn how to relate the structure of a particular system and its constituents to its function. The treatment of molecular and cellular phenomena will be based on physical principles quantified through the necessary analytical tools. Prominent biophysical methods and their fundamental operating principles will also be discussed. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: PHYSCS 1220 or PHYSCS 2760 or instructor’s consent

PHYSICS 4550: Cosmochemistry  
(same as ASTRON 4550; cross-leveled with ASTRON 7550; PHYSCS 7550). Cosmic dust, stardust, spectra, energy, interstellar medium, meteorites, astromineralogy.  
Credit Hours: 3  
Prerequisites: ASTRON 3010

PHYSICS 4600: Semiconductor Optics  
(cross-leveled with PHYSCS 7600). It is an introductory-level course in the field of optical processes in semiconductors (both inorganic and organic) and solid-state optoelectronics, designed both for graduate and undergraduate students of Physics, Chemistry and Electrical Engineering. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: PHYSCS 3150

PHYSICS 4650: Modern Condensed Matter Physics  
(cross-leveled with PHYSCS 7650). Introduces the basic concepts and gives an overview of the latest developments of modern condensed-matter physics as the forefront of (nano) science and technology. Combines lectures and computational laboratory, where students use and develop interactive computer simulations. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: PHYSCS 3150 or instructor’s consent

PHYSICS 4680: Introduction to Density-Functional Theory  
(cross-leveled with PHYSCS 7680). This course provides an introduction to density-functional theory (DFT), the most widely used technique for calculating the electronic structure of materials. The course covers the basic formalism of DFT and practical applications, including hands-on computational exercises. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: PHYSCS 3150 or instructor’s consent

PHYSICS 4720: Nonlinear Dynamics  
(cross-leveled with PHYSCS 7720). This course provides an introduction to nonlinear dynamical systems and chaos, with examples from physics, chemistry, biology and engineering. The emphasis will be on applications, using a combination of analytical, computational and intuitive geometrical methods. Topics covered include phase portraits, fixed point analysis, bifurcations, limit cycles, strange-attractors, iterated maps, period doubling, chaos, fractals, scaling and universality. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: MATH 4100 or instructor’s consent

PHYSICS 4800: Introduction to Quantum Mechanics I  
Foundations of wave mechanics; wave packets; Schrodinger equation and I-D problems; operators and eigenfunctions, spherically symmetric systems.  
Credit Hours: 3  
Prerequisites: PHYSCS 3150 and MATH 4100

PHYSICS 4810: Introduction to Quantum Mechanics II  
Review of quantum mechanics and units, forms of radiation, radiation detectors, spacetime symmetries, internal symmetries, nuclear structure and form factors, low-energy nuclear models, recent developments.  
Credit Hours: 3  
Prerequisites: PHYSCS 4800 or equivalent
PHYSCS 4850: Computational Methods in Physics
(cross-leveled with PHYSCS 7850). Use of modern computational techniques in solving a wide variety of problems in solid state, nuclear, quantum and statistical physics.
Credit Hours: 3
Prerequisites: PHYSCS 4800 or instructor's consent

PHYSCS 4940: Physics Internship
This internship course will provide students with work experience in a public/private company/lab organization that is relevant to the physics major. It will enable students to apply their academic knowledge and critical thinking skills in a work environment, while enhancing personal and professional development. The internship is coordinated by a faculty member. Graded on S/U basis only.
Credit Hour: 0-3
Prerequisites: Instructor's Consent

PHYSCS 4950: Undergraduate Research in Physics
Special studies for advanced undergraduate students in physics covering subjects not included in courses regularly offered. Departmental consent for repetition.
Credit Hour: 1-3
Prerequisites: instructor's consent

PHYSCS 4960: Senior Thesis in Physics
Special studies for senior undergraduate students in physics. The course requires an oral or poster presentations, or faculty-guided writing of a senior thesis involving independent research.
Credit Hours: 3
Prerequisites: instructor's consent and 3 units of PHYSCS 4950. Departmental consent required for repetition

PHYSCS 4985: Issues in Modern Physics and Engineering
Students are expected to write a major paper on a selected topic from modern physics or engineering. The paper will review the current state of the experimental and theoretical research on the topic at a level appropriate to their peers.
Credit Hours: 3
Prerequisites: PHYSCS 3150

PHYSCS 5020: Astrophysical Techniques
(same as ASTRON 7020; cross-leveled with PHYSCS 4020). Elements of modern astronomical instruments, observations and analysis, with the emphasis in the optical regime. Graded on A-F basis only.
Credit Hours: 3

PHYSCS 7050: Electronic Laboratory
(cross-leveled with PHYSCS 4050). Acquaints students with the foundations and techniques of electronics design, with emphasis on data acquisition and processing. Topics: circuits with discrete and integrated circuits, active and passive filters, amplifiers, power supplies, instrumentation and interfacing. Integrated lectures and labs. Graded on A-F basis only.

PHYSCS 7085: Problems in Physics
Laboratory work involving study of literature of special experiments in physics. Introduces research methods.
Credit Hour: 1-99

PHYSCS 7110: Light and Modern Optics
(cross-leveled with PHYSCS 4110). Interaction of light with matter, spectroscopic techniques, wave optics, interferometry, multilayer films, polarization, non-linear optics, design of optical instruments, matrix methods, waveguides, fiber optics, acousto-optic and photo-elastic modulation. Includes both lectures and laboratory.
Credit Hours: 4
Prerequisites: PHYSCS 2760

PHYSCS 7180: Solar System Science
(same as GEOL 7180 and ASTRON 7180; cross-leveled with GEOL 4180 and ASTRON 4180). Investigates physical states, interior structures and comparative geology of solar systems bodies: planets, moons, asteroids, comets, sun. Solar system formation and evolution.
Credit Hours: 3
Prerequisites: PHYSCS 1220 or PHYSCS 2760 or instructor's consent

PHYSCS 7201: Topics in Physics
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester
Credit Hour: 1-3
Prerequisites: Instructor's consent required

PHYSCS 7210: Contributions to Science from Under-represented Groups
(same as ASTRON 7210; cross-leveled with PHYSCS 4210, ASTRON 4210). STEM fields are amongst the areas of human endeavor that struggle with increasing their human diversity. Teaching of science rarely discusses the contributions or marginalizations of under-represented groups. Meanwhile, many women and indigenous cultures have contributed to progress in STEM but are often not recognized. In this course we will investigate these contributions, and the lack of recognition both historically and in the present day. The aim is to provide students with a better understanding of the advantages of and challenges in inclusive, diverse science. Initially the course will use astronomy as its frame of reference because the sky was one of the earliest laboratories...
and consequently it has a long history with many indigenous cultures developing their own cosmologies and ways of studying the sky. As we discuss the role of Indigenous peoples, people of color, and women, we will investigate the role of power structures as well as systemic biases in the marginalization of these groups. This class will be strongly discussion oriented, with assessment based on the development throughout the semester, of a final project. As many students will be pursuing graduate school in STEM fields, the final project will be to develop a Broader Impact statement. Many federal funding agencies request or even require that research grants include a component aimed at ‘broadening participation’, i.e. making STEM more inclusive and diverse. Student will work on a multipart assignment that will culminate in a Broader Impact statement that may well be directly applicable to an NSF GRFP (Graduate Research Fellowship Program) or NSF Post-Doctoral Fellowship. In addition to the Broader Impact statement - students will give presentations and learn how to be more inclusive in their presentation design, following the principles of Inclusive Design for Learning. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: PHYSCS 2760 or PHYSCS 1200 or instructors consent

PHYSCS 7230: Scanning and Transmission Electron Microscopy and Microanalysis
(cross-leveled with PHYSCS 4230). This course is designed for senior undergraduate/graduate students. This course covers the basic principles and practical considerations using SEM, TEM, EDS, and EELS in the characterization of materials. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: PHYSCS 3150 and instructor’s consent

PHYSCS 7360: Extragalactic Astronomy
(same as ASTRON 7360; cross-leveled with PHYSCS 4360, ASTRON 4360). This course introduces students to the most basic knowledge of extragalactic astronomy, starting from Milky Way and extending to the most distant universe. Topics covered will include galaxy morphology and classification, groups and clusters of galaxies, active galactic nuclei, and galaxy formation and evolution.

Credit Hours: 3
Prerequisites: PHYSCS 2760

PHYSCS 7400: Physics of Electronic Devices
(cross-leveled with PHYSCS 4400). This course is designed for graduate students of Physics and Electrical Engineering who have an interest in learning the basic physical idea underlying electronic devices. The course consists of lectures, handout lecture notes, problem sets, two mid-term and one final exam.

Credit Hours: 3
Prerequisites: PHYSCS 3150 or equivalent

PHYSCS 7410: Analysis of Biological Macromolecules and Biomaterials
(cross-leveled with PHYSCS 4410). This interdisciplinary, team-taught course introduces basic concepts and experimental techniques for studying bio-macromolecules and biomaterials. A Problem Based Learn/Write Intensive approach uses four modules: proteins, membranes, cellular interactions and biomaterials.

Credit Hours: 3
Prerequisites: PHYSCS 2760 or equivalent or instructor’s consent

PHYSCS 7420: Introduction to Biomedical Imaging
(same as BIOL_EN 7420; cross-leveled with PHYSCS 4420, BIOL_EN 4420, BME 4420). This course offers a broad introduction to medical imaging. Topics to be covered include the physics basics and instrumentation of X-ray CT, PET, SPECT, ultrasound, MRI, and optical imaging, as well as recent developments in biomedical imaging.

Credit Hours: 3
Prerequisites: PHYSCS 2760

PHYSCS 7450: Introduction to Cosmology
(cross-leveled with PHYSCS 4450). Develops the physical concepts necessary for understanding the major recent discoveries in cosmology, such as the acceleration of the universe and dark energy. No prior knowledge of general relativity is assumed. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: PHYSCS 3150 or equivalent or instructor’s consent

PHYSCS 7500: Computational Biological Physics
(cross-leveled with PHYSCS 4500). Provides a practical introduction (hands-on approach) to the study of the structure and function of biomolecular systems by employing computational methods and theoretical concepts familiar from the physical sciences.

Credit Hours: 3
Prerequisites: PHYSCS 1220 or PHYSCS 2760 or instructor’s consent

PHYSCS 7510: Single Molecule Biophysics
(same as BIOCHM 7510; cross-leveled with PHYSCS 4510). The course provides an overview of the biophysics of enzymes, nucleic acids and the cytoskeleton. Topics covered will include diffusion, molecular motors, polymerization of the cytoskelton and the polymer properties of nucleic acids and microtubules.

Credit Hours: 3
Prerequisites: PHYSCS 2760 or PHYSCS 1220

PHYSCS 7550: Cosmochemistry
(same as ASTRON 7550; cross-leveled with PHYSCS 4550, ASTRON 4550). Cosmic dust, stardust, spectra, energy, interstellar medium, meteorites, astromineralogy.

Credit Hours: 3
Prerequisites: ASTRON 3010

PHYSCS 7600: Semiconductor Optics
(cross-leveled with PHYSCS 4600). It is an introductory-level course in the field of optical processes in semiconductors (both inorganic and organic) and solid-state optoelectronics, designed both for graduate and undergraduate students of Physics, Chemistry and Electrical Engineering.

Credit Hours: 3
Prerequisites: PHYSCS 3150 or instructor’s consent

PHYSCS 7650: Modern Condensed Matter Physics
(cross-leveled with PHYSCS 4650). Introduces the basic concepts and gives an overview of the latest developments of modern condensed...
matter physics as the forefront of (nano) science and technology. Combines lectures and computational laboratory, where students use and develop interactive computer simulations. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** PHYSCS 3150 or instructor's consent

**PHYSCS 7680: Introduction to Density-Functional Theory**  
(cross-leveled with PHYSCS 4680). This course provides an introduction to density-functional theory (DFT), the most widely used technique for calculating the electronic structure of materials. The course covers the basic formalism of DFT and practical applications, including hands-on computational exercises. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** PHYSCS 3150 or instructor's consent

**PHYSCS 7720: Nonlinear Dynamics**  
(cross-leveled with PHYSCS 4720). This course provides an introduction to nonlinear dynamical systems and chaos, with examples from physics, chemistry, biology and engineering. The emphasis will be on applications, using a combination of analytical, computational and intuitive geometrical methods. Topics covered include phase portraits, fixed point analysis, bifurcations, limit cycles, strange-attractors, iterated maps, period doubling, chaos, fractals, scaling and universality. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** PHYSCS 3150 or instructor's consent

**PHYSCS 7750: Interstellar Medium**  
The course discusses observational properties and physical and chemical processes occurring in the interstellar medium. Topics include interstellar diffuse and molecular clouds, HII regions, dust grains, interstellar chemistry, star formation, supernova remnants, and interstellar shock waves.

**Credit Hours:** 3  
**Prerequisites:** PHYSCS 1220

**PHYSCS 7850: Computational Methods in Physics**  
(cross-leveled with PHYSCS 4850). Use of modern computational techniques in solving a wide variety of problems in solid state, nuclear, quantum and statistical physics.

**Credit Hours:** 3  
**Prerequisites:** PHYSCS 4800 or instructor's consent

**PHYSCS 8040: Study of Techniques of Teaching College Physics**  
Objectives, methods and problems related to teaching college physics. Some credit in this course is required for all students teaching physics. May repeat for 3 hours maximum.

**Credit Hours:** 1-3

**PHYSCS 8090: Research in Physics**  
Graduate research. Graded on S/U Basis only.

**Credit Hours:** 1-99

**PHYSCS 8101: Topics of Physics and Astronomy**  
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.

**Credit Hour:** 1-3  
**Prerequisites:** instructor's consent. Departmental consent for repetition

**PHYSCS 8110: Physics for High School Teachers I**  
This is a physics course designed primarily for high school teachers. Topics include motion, forces, Newton's Laws, electricity, k and magnetism. The course uses research based pedagogical methods utilizing inquiry, modeling, and hands-on techniques. Graded on A-F basis only.

**Credit Hours:** 4  
**Prerequisites:** instructor's consent

**PHYSCS 8130: Physics for High School Teachers II**  
This is a physics course designed primarily for high school teachers. Topics include modern physics and history of science. The course uses research based pedagogical methods utilizing inquiry, modeling, and hands-on techniques. Graded on A-F basis only.

**Credit Hours:** 2  
**Prerequisites:** instructor's consent

**PHYSCS 8150: Condensed Matter Physics I**  
Crystal structure, reciprocal lattice, phonons, neutron and x-ray scattering, free electron theory of metals, Fermi surfaces, energy bands, static properties of solids, semiconductors, devices, and quantum structures, optical properties, excitons, introduction to magnetism and superconductivity.

**Credit Hours:** 3  
**Prerequisites:** PHYSCS 4800 or equivalent

**PHYSCS 8160: Condensed Matter Physics II**  
The basic Hamiltonian, Phonons, theory of the electron gas, second quantization, Hartree and Hartree-Fock approximation, local-density method, tight-binding theory, electron-electron interaction and screening, Fermi liquid theory, transport properties, impurities, Green's function's, Localization, Quantum Hall effect, magnetism, superconductivity.

**Credit Hours:** 3  
**Prerequisites:** PHYSCS 8150

**PHYSCS 8170: Structure, Electronic Structure and Properties of Condensed Matter**  
This course covers the connections between the properties of matter and their atomic and electronic properties, especially by understanding macroscopic behaviors of condensed matter, such as magnetic ordering, vibrational properties, structural phase transitions, transport, optical properties and superconductivity. Graded on A-F basis only.

**Credit Hours:** 3  
**Recommended:** PHYSCS 8150

**PHYSCS 8301: Topics in Astronomy and Astrophysics**  
Selected topics from solar system, stellar, galactic and extragalactic astronomy and astrophysics. May be repeated to a maximum of six hours.
PHYSCS 8310: College Science Teaching
(same as ASTRON 8310, BIO_SC 8724 and LTC 8724). Study of learner characteristics, teaching strategies, and research findings related to teaching science at the post-secondary level.

Credit Hours: 3
Prerequisites: instructor's consent

PHYSCS 8350: Science Outreach: Public Understanding of Science
(same as BIO_SC 8725 and AN_SCI 8725) This course is aimed at promoting public understanding and appreciation of science. The students will develop presentations that increase awareness of the impact of science on many aspects of our daily lives.

Credit Hour: 1-2

PHYSCS 8410: Concepts in Nanoscale Materials: Interdisciplinary Science
This interdisciplinary course covers basic concepts in nanoscale materials, their characterization, and how and why they differ from conventional bulk materials. The course focuses on neutron scattering methods and uses lectures, problem-based modules, and writing assignments.

Credit Hours: 3
Prerequisites: PHYSCS 3150 and instructor's consent

PHYSCS 8420: X-ray and Neutron Scattering Methods for Studying Surfaces Interfaces of Nanocrystalline Materials
This course develops the conceptual foundation of neutron and x-ray scattering methods for probing the structure of epitaxial films, nanomaterials and their buried interfaces. A particular emphasis is given to the use of intense synchrotron x-ray radiation. Course graded on A-F basis only.

Credit Hours: 3

PHYSCS 8550: Stellar Structure and Evolution
(same as ASTRON 8550). Reviews of atomic and molecular spectra. Investigates quantum radiation law, emission and absorption processes, radiation transfer theory, continuous and discrete line spectra of stars, stellar composition.

Credit Hours: 3
Prerequisites: PHYSCS 4250, PHYSCS 4800, or instructor's consent

PHYSCS 8610: Classical Mechanics
The interplay of dynamics and symmetry, Hamilton’s principle and Noether’s theorem, Lagrangian, Hamiltonian, Hamilton-Jacobi theories of mechanics in special relativity. Rigid body motion, small oscillation, canonical transformations and fields as continuous mechanical systems.

Credit Hours: 3
Prerequisites: PHYSCS 4140 or equivalent

PHYSCS 8620: Electrodynamics I
Electrostatic potential and fields, boundary-value problems in electrostatics, methods of images, Green's functions, multipole expansion, dielectrics, magnetostatics, magnetic materials, Maxwell’s’ equations, time-varying fields.

Credit Hours: 3
Prerequisites: PHYSCS 8610 or instructor's consent

PHYSCS 8640: Electrodynamics II
Electromagnetic wave propagation, reflection, refraction, wave guides, cavities antennas and diffraction, tensors, special relativity, the Lorentz group, dynamics of relativistic particles and fields radiation by moving charges, retardation, bremsstrahlung. Additional topics may include magnetohydrodynamics and plasma physics.

Credit Hours: 3
Prerequisites: PHYSCS 8620 or instructor's consent

PHYSCS 8660: Methods in Mathematical Physics
Concentrates on mathematical techniques used in modern physics. Infinite series, functions of a complex variable, differential equations, Fourier series and integral, etc.

Credit Hours: 3
Prerequisites: PHYSCS 4700 or instructor's consent

PHYSCS 8680: Thermodynamics and Statistical Mechanics
Thermodynamics as applied in physics, chemistry; laws of distribution; statistical methods of study matter, radiation.

Credit Hours: 3
Prerequisites: PHYSCS 8710 or concurrently

PHYSCS 8710: Quantum Mechanics I
Non-relativistic quantum theory in Hilbert space. States and self-adjoint observables, unitary time evolution in various pictures, the path-integral, identical particles, Fock space, angular momentum and some perturbation theory.

Credit Hours: 3
Prerequisites: PHYSCS 8610

PHYSCS 8720: Quantum Mechanics II
More perturbation theory, variational methods, semi-classical methods and application to radiation theory; linear response theory and rudiments of relativistic quantum mechanics including the Klein-Gordon equation and the Dirac equation.

Credit Hours: 3
Prerequisites: PHYSCS 8710

PHYSCS 8820: Relativity and Gravitation
Special and general theories of relativity. Discussion of accelerated observers and the principles of equivalence. Einstein's gravitational field equations, black holes, gravitational waves and cosmology.
Credit Hours: 3
Prerequisites: PHYSCS 8610, PHYSCS 8620

PHYSCS 9090: Research in Physics
Research leading to Ph.D. dissertation. Graded on a S/U basis only.
Credit Hour: 1-99
Prerequisites: PhD candidacy has been established

Plant Science Courses

PLNT_S 1002: Topics In Plant Science - Biological
Initial offering of a course(s) in a specific subject matter area. Offered when proposed by a faculty member in that area of expertise.
Credit Hour: 1-4

PLNT_S 1120: Career Development
Introductory course for students planning a career in plant sciences. Includes an overview of each emphasis area, as well as development of professional skills required for a successful career. Graded on A-F basis only.
Credit Hour: 1
Prerequisites: Plant Science majors only

PLNT_S 2002: Topics in Plant Science - Biological
Initial offering of a course(s) in a specific subject matter area. Offered when proposed by a faculty member in that area of expertise.
Credit Hour: 1-4

PLNT_S 2075: Environmental Horticulture
Investigate interrelationships between plants and the environment. Special emphasis placed on improving homeowners' environmental stewardship and their knowledge of sustainable practices. Graded on A-F basis only.
Credit Hours: 3

PLNT_S 2100: Introduction to Soils
(same as SOIL 2100). Introduction to soil sciences with emphasis placed on physical, biological, and chemical properties and application to land use, plant growth and environmental problems.
Credit Hours: 3
Recommended: 3 hrs of Chemistry

PLNT_S 2110: Plants and their Cultivation
Principles of plant growth with emphasis on anatomy, physiology, and response to environmental factors. Production and protection of economically important crop and horticulture species.
Credit Hours: 3

PLNT_S 2125: Plant Structure and Function
Introduction to plant anatomy:physiology; how plant structures and processes are involved in growth/development. Labs explore photosynthesis, mineral nutrition, water relations, growth, and hormonal regulation.
Credit Hours: 3

Prerequisites: BIO_SC 1200 and CHEM 1100 or CHEM 1320

PLNT_S 2155: Interior Plants
Identification, cultural requirements and use of plants adaptable or capable of becoming acclimated to interior environments. Graded on A-F basis only.
Credit Hour: 1

PLNT_S 2195: Grapes and Wines of the World
(same as F_S 2195). Explores the world of wine through study of viticultural principles and practices, wine styles, classifying wine, the winemaking processes and New World and Old World wine regions. Learn wine tasting skills and experience wines from around the world. World wine consumption, social and physical health benefits of moderate wine consumption.
Credit Hours: 3

PLNT_S 2210: Ornamental Woody Plants
Identification and evaluation of trees and shrubs for landscape use.
Credit Hours: 3
Prerequisites: BIO_SC 1200 or instructor's consent

PLNT_S 2215: Ornamental Herbaceous Plants
Annuals, biennials, perennials, ground covers, and bulbs; their identification, nomenclature classification, culture and use.
Credit Hours: 3
Prerequisites: BIO_SC 1010 or BIO_SC 1500 or BIO_SC 1200

PLNT_S 2220: Introduction to Floral Design
Introduction to the basics of floral design with special emphasis on design mechanics, flower processing, care and handling. Graded on A-F basis only.
Credit Hours: 2
Prerequisites: Some sections of this course may be restricted to Plant Science Majors Only and/or students with 75 credit hours or less

PLNT_S 2221: Everyday Floral Design
Intermediate floral design course expanding skills from introductory floral design with emphasis on the elements and principles of design. Graded on A-F basis only.
Credit Hours: 3

PLNT_S 2240: Landscape Graphic Communication
Landscape design is a blend of art and science. This course is designed to help students expand their artistic skills, including graphic communications. Topics included to achieve this goal are drawing mediums and techniques, coloring mediums and techniques, symbol usage, and elevation drawings. Graded on A-F basis only.
Credit Hours: 2
Recommended: ART_DRAW 1050
PLNT_S 2250: Landscape Site Analysis
In order to effectively design what a site can become a landscape designer must first be able to accurately see what it is. This course presents a detailed look at obtaining, calculating, and manipulating a site's topography and features while offering a glimpse into the methods and means required for implementation of the final landscape design. Graded on A-F basis only.

Credit Hours: 2
Recommended: MATH 1100 or equivalent

PLNT_S 2254: Landscape Design
An introduction into the processes, principles, and practices of landscape design, this course begins with site analysis and moves through the drawing and presentation of your landscape concepts. 

Credit Hours: 3
Prerequisites: Completion of 30 hours

PLNT_S 3002: Topics in Plant Science - Biological
Initial offering of a course(s) in a specific subject matter area. Offered when proposed by a faculty member in that area of expertise.

Credit Hour: 1-4

PLNT_S 3110: Horticultural Drainage and Irrigation Systems
This course is designed to provide practical knowledge of drainage and irrigation systems for golf courses, sports fields, lawns, landscapes, greenhouses, nurseries and vineyards. Graded on A-F basis only.

Credit Hours: 2

PLNT_S 3130: Undergraduate Seminar in Plant Science
Discussion of assigned or selected topics in Plant Science, including participation in a panel debate and individual seminar oral presentations.

Credit Hour: 1
Prerequisites: Completion of 60 credit hours

PLNT_S 3210: Principles of Weed Science
Introduction to principles of weed growth, reproduction, and impact on human activities. Discussion of weed control techniques and technology, weed identification, and developing weed management strategies.

Credit Hours: 4
Prerequisites: PLNT_S 2110 or BIO_SC 1200

PLNT_S 3213: Genetics of Agricultural Plants and Animals (same as AN_SCi 3213). Concepts of molecular, transmission, and population and quantitative genetics. Emphasis given to breeding and biotechnological applications in plant and animal agriculture. Prerequisites: MATH 1100 or higher and one of the following: BIO_SC 1100 or BIO_SC 1200 or BIO_SC 1500 or FW 1100.

Credit Hours: 3

PLNT_S 3220: Special Occasion Floral Design
Advanced floral design course with emphasis in silk décor, sympathy design and public ceremony design. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: PLNT_S 2220 and PLNT_S 2221 with grade of B or above in both

PLNT_S 3221: Wedding Floral Design
Advanced floral design course with emphasis in wedding floral design and personal pieces design. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: PLNT_S 2220 and PLNT_S 2221 with grade of B or above in both

PLNT_S 3222: Retail Floral Management
Course focusing on all areas of retail floral management: business finance, marketing, products and services, employee management, and customer service. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: PLNT_S 2220 and PLNT_S 2221

PLNT_S 3222W: Retail Floral Management - Writing Intensive
Course focusing on all areas of retail floral management: business finance, marketing, products and services, employee management, and customer service. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: PLNT_S 2220 and PLNT_S 2221

PLNT_S 3225: Plant Breeding and Genetics
Mendelian genetic principles and related genetic developments applicable in plant breeding. Discussion of established and new plant breeding procedures applicable to cultivar development.

Credit Hours: 3
Prerequisites: PLNT_S 2110 or equivalent

PLNT_S 3230: Plant Propagation
Principles and practices of propagation of horticultural plants. Prerequisites: One of the following: PLNT_S 2075, BIO_SC 1200, or BIO_SC 1500 or Instructor's consent.

Credit Hours: 3

PLNT_S 3230W: Plant Propagation - Writing Intensive
Principles and practices of propagation of horticultural plants. Prerequisites: One of the following: PLNT_S 2075, BIO_SC 1200, or BIO_SC 1500 or Instructor's consent.

Credit Hours: 3

PLNT_S 3240: Principles of Viticulture I (same as F_S 3240). Grapevine growth, development, selection, propagation, training systems, pruning, and harvesting; vineyard site selection, design, and development. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: F_S 1010 and F_S 2195 or PLNT_S 2195; or PLNT_S 2100; or PLNT_S 2110; or PLNT_S 2125
PLNT_S 3250: Green Industry Bidding
Principles of interpreting drawings, estimating labor, equipment, materials and other costs and recordkeeping for preparation of competitive green industry bids. Graded on A-F basis only.
Credit Hours: 2
Prerequisites: Plant Science major and completion of 30 credit hours

PLNT_S 3252: Arboriculture and Pruning
Concepts for establishment and management of urban trees. Emphasis on planting, fertilization, pruning, disease, hazard assessment and components of a municipal trees ordinance.
Credit Hour: 1
Prerequisites: PLNT_S 2210 or instructor's consent

PLNT_S 3254: Landscape AutoCAD
AutoCAD is the most widely utilized computer aided drafting software program in the professional landscape design industry. This course will teach students how to utilize AutoCAD to transform their landscape design skills into a digital format and investigate the benefits of utilizing technology as a design tool. We will also explore other industry utilized software, and their functionality, with focus on landscape design and presentation. Additional software will include, but not be limited to, AutoDesk Revit; Adobe Photoshop; and Sketchup. Graded on A-F basis only.
Credit Hours: 3
Recommended: PLNT_S 2250 and PLNT_S 2254

PLNT_S 3260: Greenhouse Management
Greenhouse design, environmental control and equipment. Practices associated with plant nutrition management, greenhouse pest control, postproduction handling and marketing of greenhouse crops, and greenhouse management are also covered.
Credit Hours: 4
Prerequisites: PLNT_S 2075 or instructor's consent

PLNT_S 3270: Forage Crops
An introduction to principle forage crops, including identification, anatomy, physiology, and growth characteristics. Pasture production and management, grazing systems, and forage preservation and utilization will also be covered.
Credit Hours: 3

PLNT_S 3275: Grain Crops
Lecture and discussion covering production and utilization, plus growth and development of a wide range of grain crops, including Missouri crops. Problem solving tasks include agronomic, economics and environmental factors.
Credit Hours: 3
Prerequisites: PLNT_S 2110 or PLNT_S 2125

PLNT_S 3355: Introductory Turfgrass Management
Characteristics of turf materials, principles of establishment and maintenance.
Credit Hours: 3
Prerequisites: PLNT_S 2100 or instructor's consent

PLNT_S 3385: Problems in Plant Science
Not accepted as a substitute for any regularly scheduled course. Problems arranged with individual faculty member in specific matter area.
Credit Hour: 1-4
Prerequisites: consent required

PLNT_S 3510: Biology of Fungi
(same as BIO_SC 3510). The diverse roles of fungi in the biosphere will be explored by considering fungi we eat, fungi which destroy our food, fungi in folklore and fungi as global nutrient recyclers.
Credit Hours: 3
Prerequisites: BIO_SC 1200 or BIO_SC 1500 or equivalent

PLNT_S 3710: Introductory Entomology
(same as BIO_SC 3710). Emphasizes the role insects play in the scheme of life. Topics include insect structure, development, diversity, ecology, communication and behavior, and management. Prerequisites: Completion of 60 credit hours and one of the following: BIO_SC 1100 (or F_W 1100) or BIO_SC 1200, or BIO_SC 1500.
Credit Hours: 3

PLNT_S 3715: Insect Diversity
(same as BIO_SC 3715). Laboratory exercises emphasizing external insect anatomy, classification, and identification (to family level). Preparation of an insect collection is required.
Credit Hours: 2
Prerequisites or Corequisites: PLNT_S 3710 (or BIO_SC 3710)

PLNT_S 4002: Topics in Plant Science - Biological
Initial offering of a course(s) in a specific subject matter area. Offered when proposed by a faculty member in that area of expertise.
Credit Hour: 1-4

PLNT_S 4003: Topics in Plant Science - Biological- Lab
Initial offering of a course(s) in a specific subject matter area. Offered when proposed by a faculty member in that area of expertise.
Credit Hour: 1-4

PLNT_S 4225: Principles of Plant Breeding
(cross-leveled with PLNT_S 7225). This is an introductory course exploring the principles of plant breeding where we examine the application of genetics and the plant sciences to the breeding and improvement of field crops, focusing on conventional plant breeding principles. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: PLNT_S 2110 or PLNT_S 2125 or BIO_SC 1200

PLNT_S 4270: Laboratory Techniques in Forage Analysis
(cross-leveled with PLNT_S 7270). This course explores the analysis of forages for yield and nutritive value. Students will learn how to properly collect forage samples in the field, followed by proper preservation and processing techniques. Students will perform all of the laboratory analyses necessary to determine the full nutritive value of their sampled
forages (dry matter yield, crude protein, fiber and digestibility), learning the what, how and why behind each analysis performed along the way. Lastly, students will learn how to compare different forage samples and draw conclusions based on their results. Students will be prepared for employment in the feed and forage analysis industry following completion of this course. Graded on A-F basis only.

Credit Hours: 2
Prerequisites or Corequisites: PLNT_S 3270

PLNT_S 4313: Soil Fertility and Plant Nutrition
(same as SOIL 4313; cross-leveled with PLNT_S 7313, SOIL 7313). Explanation of principles of delivery of plant nutrients to plants, discussion of the role of each essential nutrient in crop plants and introduction to the management of soil amendments.

Credit Hours: 3
Prerequisites: SOIL 2100 or instructor's consent

PLNT_S 4315: Crop Physiology
(cross-leveled with PLNT_S 7315). Basic course on crop growth and development. Emphasis is on physiological processes and morphology of crop plants, and their application to crop breeding and management decisions.

Credit Hours: 3
Prerequisites: PLNT_S 2125 or equivalent

PLNT_S 4320: Molecular Plant Physiology
(same as BIO_SC 4320; cross-leveled with PLNT_S 7320, BIO_SC 7320). Modern physiology of higher plants using common cultivated plants as examples. Prerequisites: CHEM 1320 or CHEM 1330 and one of the following: BIO_SC 1500 or BIO_SC 1200.

Credit Hours: 3

PLNT_S 4325: Advanced Plant Breeding
(cross-leveled with PLNT_S 7325). Will introduce students to the application of genetics and the plant sciences to the breeding and improvement of self-pollinated field crops. Classical, current and innovative plant breeding techniques will be addressed.

Credit Hours: 3
Prerequisites: PLNT_S 2110 or PLNT_S 2125, and PLNT_S 3213 (or equivalent), and PLNT_S 3225 (or equivalent)

PLNT_S 4340: Principles of Viticulture II
(same as F_S 4340). Environmental and biological factors influencing vine physiology and winegrape quality. Irrigation, canopy management, pest and disease control, budgets and current trends in viticulture. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: F_S 3240 or PLNT_S 3240

PLNT_S 4345: Principles of Viticulture and Winemaking
(same as F_S 4345; cross-leveled with PLNT_S 7345, F_S 7345). This course will cover the basics needed by viticulturists and winemakers to understand grape vine growth and vineyard considerations along with winemaking principles. Viticultural topics will include grapevine growth and development, vineyard design and development, cultivar selection, grapevine propagation, training systems, and harvest and pruning. Winemaking topics will include sensory analysis of grapes, chemical, micro-biological and technological aspects of winemaking, and the analytical methods used for juice and wine analysis. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: BIO_SC 1010 or BIO_SC 1020 or BIO_SC 1030

PLNT_S 4355: Advanced Turfgrass Management
(cross-leveled with PLNT_S 7355). Provides turfgrass majors a more informative and applicable look at mathematics of turfgrass management, application techniques, cultural practices, and soil/water relationships applicable to careers in golf course and sports turf management, lawn care, and professional grounds maintenance.

Credit Hours: 3
Prerequisites: PLNT_S 3355 or instructor's consent

PLNT_S 4360: Precision Agriculture Science and Technology
(same as AG_S_M 4360, SOIL 4360; cross-leveled with PLNT_S 7360, AG_S_M 7360, SOIL 7360). Precision agriculture is an information-based approach to farming whereby variability is managed to optimize crop production and reduce environmental pollution. This course provides an overview of precision agriculture technologies (like GIS, GPS, remote sensing), mapping methods, and case studies illustrating decisions and management.

Credit Hours: 3
Prerequisites: PLNT_S 2100 or SOIL 2100, or PLNT_S 2110; MATH 1100; AG_S_M 1040

PLNT_S 4365: Greenhouse Crops Production
(cross-leveled with PLNT_S 7365). Production management decision and commercial culture of the major floriculture crops.

Credit Hours: 4
Prerequisites: PLNT_S 3260 or instructor's consent

PLNT_S 4385: Problems in Plant Science
Special problem in plant pathology designed for the minor program in Plant Pathology. Problems arranged on an individual student basis.

Credit Hours: 3

PLNT_S 4400: Plant Anatomy
(same as BIO_SC 4400; cross-leveled with PLNT_S 7400, BIO_SC 7400). Comparative structure, growth of meristems; development, structure of important cell types, tissues systems; comparative anatomy of stem, root, leaf. Emphasizes anatomy of gymnosperms, angiosperms. Includes lab. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: BIO_SC 1200 or equivalent

PLNT_S 4500: Biology and Pathogenesis of Plant-Associated Microbes
(cross-leveled with PLNT_S 7500). Diagnosis of diseases of plants caused by fungi, nematodes, viruses and bacteria Environmental and genetic factors leading to disease development and strategies for disease management, including biotechnology. Prerequisites: 5 hours from the
following courses: BIO_SC 1010, BIO_SC 1020, BIO_SC 1030, BIO_SC 1100, BIO_SC 1200 or BIO_SC 1500; and completion of 60 credit hours.

Credit Hours: 4

PLNT_S 4520: Environmental Microbiology
Fundamental knowledge of selected microbial processes that are important in agriculture, environmental detoxification, and microbial biotechnology. Emphasis is on molecular, genetic and physiological aspects of nitrogen metabolism, bioconversions, antibiosis and biocontrol.

Credit Hours: 3

PLNT_S 4550: Plant Biotechnology
(cross-leveled with PLNT_S 7550). Principles of gene expression, metabolic pathway analysis and data mining, plant tissue culture and transformation, transgene integration and expression analysis, plant epigenome, emerging transgenic technologies, etc. Prerequisites: PLNT_S 2125 and one of the following: PLNT_S 3213, or BIO_SC 2200 or BIO_SC 2300.

Credit Hours: 4

PLNT_S 4720: Aquatic Entomology
(cross-leveled with PLNT_S 7720). Identification, life histories, ecology of aquatic insects. Grading is based on lecture, lab, and a collection. For students of wildlife, fisheries management, aquatic biology, advanced entomology.

Credit Hours: 3
Prerequisites: PLNT_S 3710 or PLNT_S 3715 or equivalent, or instructor's consent

PLNT_S 4730: Insect Pest Management for Plant Protection
(cross-leveled with PLNT_S 7730). History and concepts of Integrated Pest Management of insect pests, emphasizing complementary use of biological control, plant resistance, environmental manipulations, genetic manipulations, and selective use of insecticides.

Credit Hours: 3
Prerequisites: PLNT_S 3710 or instructor's consent

PLNT_S 4940: Internship in Plant Science
Combines study, observation, and employment with an industry or government agency in area of agronomy or horticulture. Written and oral reports and faculty evaluation.

Credit Hours: 3
Prerequisites: Completion of 75 hours including two courses in department and instructor's consent

PLNT_S 4950: Undergraduate Research in Plant Science
Capstone experience consisting of investigations in Plant Science in support of an undergraduate thesis or special project portfolio.

Credit Hour: 1-3
Prerequisites: Completion of 75 credit hours and Plant Science Majors only

PLNT_S 4970: Readings in Plant-Insect Interactions
(cross-leveled with PLNT_S 7970). This course is designed to provide graduate and advanced undergraduate students with skills to critically read and evaluate the primary scientific literature using the current primary literature in the field of plant-herbivore interactions. The rich history of chemical, physiological, population, and multi-trophic ecology studies on plant-insect interactions has produced an exciting, fast-paced interdisciplinary field at the forefront of ecology. This course is an ideal way to help students working in this field, or other areas of plant stress, to understand what is currently known, to experience the breadth of questions asked, and to think critically about what's published. Learning to evaluate the literature and prepare well-written critiques will help students to participate effectively in the important peer-review process of science. Graded on S/U basis only.

Credit Hour: 1

PLNT_S 4975: Advanced Landscape Design
(cross-leveled with PLNT_S 7975). Development of project presentation techniques by analysis of the social, cultural, historical and ecological aspects of landscape design.

Credit Hours: 4
Prerequisites: PLNT_S 2254 or instructor's consent

PLNT_S 7001: Topics
Initial offering of a course(s) in a specific subject matter area. Offered when proposed by a faculty member in that area of expertise.

Credit Hour: 1-4

PLNT_S 7002: Topics- Lab
Initial offering of a course(s) in a specific subject matter area. Offered when proposed by a faculty member in that area of expertise.

Credit Hour: 1-4

PLNT_S 7085: Problems
Advanced studies not expected to terminate in thesis. Problems arranged with individual faculty member in specific matter area.

Credit Hour: 1-3
Prerequisites: instructor's consent

PLNT_S 7087: Seminar
In-depth development of advanced aspects of plant, insect, or microbial sciences through reviews of results of research in progress and current scientific publications. Graded on S/U basis only.

Credit Hour: 1

PLNT_S 7225: Principles of Plant Breeding
(cross-leveled with PLNT_S 4225). This is an introductory course exploring the principles of plant breeding where we examine the application of genetics and the plant sciences to the breeding and improvement of field crops, focusing on conventional plant breeding principles. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: PLNT_S 2110 or PLNT_S 2125 or BIO_SC 1200
PLNT_S 7270: Laboratory Techniques in Forage Analysis
(cross-leveled with PLNT_S 4270). This course explores the analysis of forages for yield and nutritive value. Students will learn how to properly collect forage samples in the field, followed by proper preservation and processing techniques. Students will perform all of the laboratory analyses necessary to determine the full nutritive value of their sampled forages (dry matter yield, crude protein, fiber and digestibility), learning the what, how and why behind each analysis performed along the way. Lastly, students will learn how to compare different forage samples and draw conclusions based on their results. Students will be prepared for employment in the feed and forage analysis industry following completion of this course. Graded on A-F basis only.
Credit Hours: 2

PLNT_S 7313: Soil Fertility and Plant Nutrition
(same as SOIL 7313; cross-leveled with PLNT_S 4313, SOIL 4313). Explanation of principles of delivery of plant nutrients to plants, discussion of the role of each essential nutrient in crop plants and introduction to the management of soil amendments.
Credit Hours: 3
Prerequisites: SOIL 2110 or instructor's consent

PLNT_S 7315: Crop Physiology
(cross-leveled with PLNT_S 4315). Basic course on crop growth and development. Emphasis is on physiological processes and morphology of crop plants, and their application to crop breeding and management decisions.
Credit Hours: 3
Prerequisites: PLNT_S 2125 or equivalent

PLNT_S 7320: Molecular Plant Physiology
(same as BIO_SC 7320; cross-leveled with PLNT_S 4320, BIO_SC 4320). Modern physiology of higher plants using common cultivated plants as examples. May be taken with or without laboratory.
Credit Hours: 3
Prerequisites: BIO_SC 1500 or BIO_SC 1200 and five hours of chemistry

PLNT_S 7325: Advanced Plant Breeding
(cross-leveled with PLNT_S 4325). Will introduce students to the application of genetics and the plant sciences to the breeding and improvement of self-pollinated field crops. Classical, current and innovative plant breeding techniques will be addressed.
Credit Hours: 3
Prerequisites: PLNT_S 2110 or PLNT_S 2125, and PLNT_S 3213 (or equivalent), and PLNT_S 3225 (or equivalent)

PLNT_S 7345: Principles of Viticulture and Winemaking
(same as F_S 7345; cross-leveled with PLNT_S 4345, F_S 4345). This course will cover the basics needed by viticulturists and winemakers to understand grape vine growth and vineyard considerations along with winemaking principles. Viticultural topics will include grapevine growth and development, vineyard design and development, cultivar selection, grapevine propagation, training systems, and harvest and pruning. Winemaking topics will include sensory analysis of grapes, chemical, microbiological and technological aspects of winemaking, and the analytical methods used for juice and wine analysis. Graded on A-F basis only.
Credit Hours: 3

PLNT_S 7355: Advanced Turfgrass Management
(cross-leveled with PLNT_S 4355). Provides turfgrass majors a more informative and applicable look at mathematics of turfgrass management, application techniques, cultural practices, and soil/water relationships applicable to careers in golf course and sports turf management, lawn care, and professional grounds maintenance. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: PLNT_S 3355 or instructor's consent

PLNT_S 7360: Precision Agriculture Science and Technology
(same as AG_S_M 7360 and SOIL 7360; cross-leveled with PLNT_S 4360, AG_S_M 4360, SOIL 4360). Precision agriculture is an information-based approach to farming whereby variability is managed to optimize crop production and reduce environmental pollution. This course provides an overview of precision agriculture technologies (like GIS, GPS, remote sensing), mapping methods, and case studies illustrating decisions and management.
Credit Hours: 4
Prerequisites: PLNT_S 2100 or SOIL 2100, or PLNT_S 2110; MATH 1100; AG_S_M 1040

PLNT_S 7365: Greenhouse Crops Production
(cross-leveled with PLNT_S 4365). Production management decision and commercial culture of the major floriculture crops.
Credit Hours: 4
Prerequisites: PLNT_S 3260 or instructor's consent

PLNT_S 7370: Small Fruit and Vegetable Production
Emphasizes production, management and marketing practices for small fruit and vegetable crops.
Credit Hours: 3
Prerequisites: PLNT_S 2100, PLNT_S 3230, and PLNT_S 3235

PLNT_S 7400: Plant Anatomy
(same as BIO_SC 7400; cross-leveled with PLNT_S 4400, BIO_SC 4400). Comparative structure, growth of meristems; development, structure of important cell types, tissue systems; comparative anatomy of stem, root, leaf. Emphasized anatomy of gymnosperms, angiosperms. Includes lab. Graded on A-F basis only.
Credit Hours: 4
Prerequisites: BIO_SC 1200 or equivalent

PLNT_S 7500: Biology and Pathogenesis of Plant-Associated Microbes
(cross-leveled with PLNT_S 4500). Diagnosis of disease of plants caused by fungi, nematodes, viruses and bacteria. Environmental and genetic factors leading to disease development and strategies for disease management, including biotechnology.
Credit Hours: 4
Prerequisites: 5 hours BIO_SC
PLNT_S 7550: Plant Biotechnology  
(cross-leveled with PLNT_S 4550). Principles of gene expression, metabolic pathway analysis and data mining, plant tissue culture and transformation, transgene integration and expression analysis, plant epigenome, emerging transgenic technologies, etc.

Credit Hours: 4  
Prerequisites: BIO_SC 2960 or equivalent; BIO_SC 2200 or equivalent; BIO_SC 2300 or equivalent; PLNT_S 2125

---

PLNT_S 7710: Systematic Entomology  
(cross-leveled with PLNT_S 4710). Taxonomy of insects: emphasizes biology and classification of orders and suborders in lecture, and major families in lab. Insect collection required.

Credit Hours: 5  
Prerequisites: PLNT_S 3710 and PLNT_S 3715 or 10 hours Biological Sciences

---

PLNT_S 7720: Aquatic Entomology  
(cross-leveled with PLNT_S 4720). Identification, life histories, ecology of aquatic insects. Grading is based on lecture, lab, and a collection. For students of wildlife, fisheries management, aquatic biology, advanced entomology.

Credit Hours: 3  
Prerequisites: PLNT_S 3710, PLNT_S 3715 or equivalent or instructor's consent

---

PLNT_S 7730: Insect Pest Management for Plant Protection  
(cross-leveled with PLNT_S 4730). History and concepts of Integrated Pest Management for insects pests, emphasizing complementary use of biological control, plant resistance, environmental manipulations, genetic manipulations, and selective use of insecticides.

Credit Hours: 3  
Prerequisites: PLNT_S 3710 or instructor's consent

---

PLNT_S 7820: Principles of Insect Physiology  
Major concepts of insect physiology emphasizing functions of organ-systems sensory physiology hormones in development, nutrition.

Credit Hours: 4  
Prerequisites: PLNT_S 3710, PLNT_S 3715 and PLNT_S 7810 or equivalent

---

PLNT_S 7965: Readings in Plant Stress Biology  
Independent readings and discussion of recent research publications. Topics selected in consultation with supervisory faculty member.

Credit Hour: 1-9  
Prerequisites: instructor's consent

---

PLNT_S 7970: Readings in Plant-Insect Interactions  
(cross-leveled with PLNT_S 4970). This course is designed to provide graduate and advanced undergraduate students with skills to critically read and evaluate the primary scientific literature using the current primary literature in the field of plant-herbivore interactions. The rich history of chemical, physiological, population, and multi-trophic ecology studies on plant-insect interactions has produced an exciting, fast-paced interdisciplinary field at the forefront of ecology. This course is an ideal way to help students working in this field, or other areas of plant stress, to understand what is currently known, to experience the breadth of questions asked, and to think critically about what’s published. Learning to evaluate the literature and prepare well-written critiques will help students to participate effectively in the important peer-review process of science. Graded on S/U basis only.

Credit Hour: 1  
Prerequisites: Instructor's consent

---

PLNT_S 7975: Advanced Landscape Design  
(cross-leveled with PLNT_S 4975). Development of project presentation techniques by analysis of the social, cultural, historical and ecological aspects of landscape design.

Credit Hours: 4  
Prerequisites: PLNT_S 2254, instructor's consent

---

PLNT_S 8001: Topics  
Instruction in specific subject matter areas in plant, insect or microbial sciences.

Credit Hour: 1-4  
Prerequisites: instructor's consent

---

PLNT_S 8010: Professionalism and Ethics  
Ethical issues in the conduct of scientific research including data integrity, plagiarism, and intellectual property. Scientific writing, lab management, peer review and other professional skills for the life sciences. Graded on A-F basis only.

Credit Hours: 2

---

PLNT_S 8090: Thesis Research  
Original investigations in plant, insect or microbial science in support of thesis for master's candidates. Graded on S/U basis only.

Credit Hour: 1-10

---

PLNT_S 8330: Molecular Breeding and Genomic Technology  
Development of molecular plant breeding, including genome sequencing, molecular markers, genotyping methods, and genome editing. The course provides the principles and application of marker-assisted trait introgression, genomics-assisted selection, and fundamental and methodology of genome editing for crop improvement. Graded on A-F basis only.

Credit Hours: 3  
Prerequisites: PLNT_S 4325 or equivalent

---

PLNT_S 8362: Introduction to Plant Metabolism  
(same as BIO_SC 8362 and BIOCHM 8362). This course is part of a series that aims to provide a solid conceptual foundation in interdisciplinary plant biology for graduate students with a research emphasis in plant biology. This course examines the basic concepts and techniques used to understand plant metabolism. Graded on A-F basis only.

Credit Hours: 2
PLNT_S 8365: Introduction to Molecular Cell Biology
(same as BIOCHM 8365 and BIO_SC 8365). This course is part of a series that aims to provide a solid conceptual foundation in interdisciplinary plant biology for graduate students with a research emphasis on plant biology. This course examines the basic concepts and techniques used to understand molecular cell biology. Graded on A-F basis only.
Credit Hours: 2

PLNT_S 8410: Advanced Weed Science
Discussion of herbicide physiology and fate in the environment, current development in weed science theory and methodology, and application of analytical procedures in weed research.
Credit Hours: 3
Prerequisites: PLNT_S 3210

PLNT_S 8420: Herbicide Mode of Action and Symptomology
Designed for graduate students to gain an understanding of the in-depth processes by which herbicides interrupt normal plant growth and development at a tissue, cellular, and enzymatic level while learning to diagnose visual symptoms associated with herbicide injury. Course may be repeated for credit. Graded on A-F basis.
Credit Hours: 2
Prerequisites: PLNT_S 3210; instructor's consent

PLNT_S 8430: Introduction to Bioinformatics Programming
(same as AN_SCI 8430). This course provides the basics of programming and database development to students in the life sciences who have little prior programming experience. It covers Unix/Linux, Perl, MySQL, the relational database design process, and common data formats used in genome informatics. Students will learn how programming skills can enhance their ability to analyze large biological datasets, and will gain hands on experience with examples focused on genomics and bioinformatics. Graded on A-F basis only.
Credit Hours: 4
Prerequisites: Instructor's consent
Recommended: Undergraduate or graduate course in Genetics

PLNT_S 8505: Introduction to Plant Stress Biology
(same as BIO_SC 8505) This course is part of a series that aims to provide a solid conceptual foundation to interdisciplinary plant biology for graduate students with a research emphasis in plant biology. This course examines the basic concepts and techniques used to understand plant stress biology. Graded on A-F basis only.
Credit Hours: 2

PLNT_S 8530: Research with Plant Stress Agents
Students will learn key research strategies for abiotic and biotic plant stress agents. Students will complete two focused hands-on projects. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: PLNT_S 7500 and PLNT_S 7510 or PLNT_S 7315, or PLNT_S 7320, or equivalent

PLNT_S 8720: Insect Behavior
An examination of the breadth of behaviors found in insects, such as orientation mechanisms, communication, dispersal and migration, defensive mechanisms, lost location, feeding strategies, pollination, courtship and reproduction, and social behavior.
Credit Hours: 3
Prerequisites: PLNT_S 3710 and PLNT_S 3715 or 10 hours of Biological Sciences

PLNT_S 9001: Topics
Instruction in specific subject matter areas in plant, insect or microbial sciences.
Credit Hour: 1-4
Prerequisites: instructor's consent

PLNT_S 9087: Seminar in Plant Science
In-depth development of advanced aspects of plant, insect and microbial sciences through reviews of results of research in progress and current scientific publications. Graded on A-F or S/U basis dependent on section.
Credit Hour: 1

PLNT_S 9090: Dissertation Research
Original investigations in plant, insect or microbial science in support of dissertation for doctoral candidates. Graded on a S/U basis only.
Credit Hour: 1-10

PLNT_S 9310: Ecology of Grazing Lands Systems
Students travel to grazing lands ecosystems to learn: the components and function of grazing lands; research techniques in soil-plant-animal research; forage-livestock ecology; and the role of forages in conservation practices, wildlife habitat, and sustainable agriculture.
Credit Hours: 3
Prerequisites: instructor's consent

PLNT_S 9415: Advanced Plant Physiology
Advanced course in the physiology of plant growth and development. Discussion of current and classical studies in plant physiology with emphasis on responses to environmental variation.
Credit Hour: 1-3
Prerequisites: PLNT_S 4315 or PLNT_S 4320 or equivalent. Instructor's consent required

PLNT_S 9440: Applied Quantitative and Statistical Genetics
Estimation of genetic effects using means and variances, diallel analysis, environmental stability responses, index selection, and gain from selection.
Credit Hours: 3
Prerequisites: PLNT_S 4330, STAT 4510, STAT 4530, AN_SCI 9423, or equivalent

PLNT_S 9540: Genetics of Plant-Microorganism Interaction
Molecular and general genetics of the interactions between plants and pathogenic or symbiotic microorganisms.
Credit Hours: 3
Prerequisites: PLNT_S 7500 and PLNT_S 7510, one course each in Biochemistry and Genetics

PLNT_S 9810: Insect Ecology
Ecological aspects of insect populations and communities including population dynamics, predator-prey interactions, competition, diversity and stability. Quantitative methods are emphasized.

Credit Hours: 3
Prerequisites: PLNT_S 3710 and PLNT_S 3715, STAT 1400 and BIO_SC 3650 or instructor's consent

Political Science Courses

POL_SC 1100: American Government
Topics covered include Constitution, federalism, civil liberties, political attitudes, interest groups, political parties, nominations, elections, and campaigns, voting behavior, Congress, Presidency, bureaucracy, and judiciary. Meets state law requirement.

Credit Hours: 3

POL_SC 1400: International Relations
Contemporary international affairs including family of nations, control of national foreign policies, competition and cooperation in legal, political, economic, social fields.

Credit Hours: 3

POL_SC 1704: Introduction to Black Politics (same as BL_STU 1704). This course is oriented toward the development of concepts and theory in the study of black politics. The readings in the course are divided into political science categories such as ideology, electoral participation, movement politics and public policy. In addition, major periods in black political history are examined in the light of the behavioral and theoretical concerns prominent in political science. Black Politics seeks an increased understanding of Black Diaspora history as a group and the various political effects of the history of slavery and racism; and (2) studies Black Diaspora struggles for racial justice, civil rights, political equality, and fundamental respect in the face of both explicit and structural or systematic racism.

Credit Hours: 3

POL_SC 2004: Topics in Political Science - Social Science
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.

Credit Hour: 1-3

POL_SC 2100: State Government
Government and politics at the state level, with emphasis on Missouri. Meets state law constitutional requirement.

Credit Hours: 3

POL_SC 2200: The Judicial Process
Analysis of roles played by American judges and courts in democratic policy formation.

Credit Hours: 3

POL_SC 2250: Missouri Politics
This course examines the government and politics of the state of Missouri. We will study the Missouri Constitution, the structure and function of the Missouri state government, and the politics - partisan and otherwise - of the state of Missouri. We will consider public policy development and implementation and examine several areas of that public policy: health, public safety, education, resource management, and others.

Credit Hours: 3

POL_SC 2293: Globalization, Identity and Citizenship (same as PEA_ST 2293, GEOG 2293). This course examines the forces of globalization that are transforming our world, and explores the various responses -- psychological, social and political -- that people have been making over the past fifty years. Part I examines globalization as an economic and geographical process, generating huge social consequences, with rapid growth, population movements, political change and a vast gap between global wealth and poverty. Part II focuses on the ways in which individuals are now seeking to find themselves in this globalizing world. Emphasis will be placed on the ways in which national identity, faith, gender and sexuality are emerging as key loci around which contemporary people (especially young people) are trying to forge new social identities for themselves. The course will conclude by examining the recently emerging (and highly contested) concept of 'global citizenship'. Graded on A-F basis only.

Credit Hours: 3

POL_SC 2293W: Globalization, Identity and Citizenship - Writing Intensive (same as PEA_ST 2293W, GEOG 2293W). This course examines the forces of globalization that are transforming our world, and explores the various responses -- psychological, social and political -- that people have been making over the past fifty years. Part I examines globalization as an economic and geographical process, generating huge social consequences, with rapid growth, population movements, political change and a vast gap between global wealth and poverty. Part II focuses on the ways in which individuals are now seeking to find themselves in this globalizing world. Emphasis will be placed on the ways in which national identity, faith, gender and sexuality are emerging as key loci around which contemporary people (especially young people) are trying to forge new social identities for themselves. The course will conclude by examining the recently emerging (and highly contested) concept of 'global citizenship'. Graded on A-F basis only.

Credit Hours: 3

POL_SC 2410: The Politics of International Law
This course provides an introduction to the development and evolution of international law. Using contemporary events and international relations theory, we explore the origins of international law, discuss why (or why not) states choose to comply, and consider important areas such as war, trade, environmental protection, and human rights to determine the importance of international law in the contemporary international system.

Credit Hours: 3
**POL_SC 2425: Race and the American Story**  
(same as BL_STU 2425, CNST_DEM 2425). This course represents a collaboration between the University of Missouri's Department of Black Studies and the Kinder Institute on Constitutional Democracy. Building upon the existing Citizenship@Mizzou program, the course aims to carry forward the goals of the Citizenship program and to further solidify and magnify its impact on campus. In so doing, the course will also serve as a model for improving diversity education on campuses across the country and contribute to a more informed and unified national culture. The core syllabus will consist in readings that tell the story of the confrontation between American political principles and the practice of racial injustice throughout our history. Students will read and discuss the Declaration of Independence, the slavery clauses in the Constitution, the poetry of Phillis Wheatley, and the speeches of Frederick Douglass, Abraham Lincoln, and Martin Luther King, Jr., among others. They will achieve a greater understanding of how diversity relates to humanity, and will learn to dialogue productively and civilly with others who may not share their background or opinions.

Credit Hours: 3

**POL_SC 2445: American Constitutional Democracy**  
(same as HIST 2445, CNST_DEM 2445) This course offers an introduction to American constitutional democracy. On the one hand, this course will strive to set the development of America's constitutional democracy into its historical context and to explain it in relation to larger social, political, military, and economic events. A second emphasis is on the nature and character of the American democratic system. Graded on A-F basis only.

Credit Hours: 3

**POL_SC 2450: The Intellectual World of the American Founders**  
(same as CNST_DEM 2450). This course demonstrates that truly understanding the American constitutional and democratic traditions begins with acknowledging and studying how, in framing the Constitution and in imagining the new nation, the Founders drew on the work and cobbled together the ideas of thinkers from multiple eras and continents and, moreover, thinkers of vastly different political ideologies and disciplinary expertise.

Credit Hours: 3

**POL_SC 2450H: The Intellectual World of the American Founders - Honors**  
(same as CNST_DEM 2450H). This course demonstrates that truly understanding the American constitutional and democratic traditions begins with acknowledging and studying how, in framing the Constitution and in imagining the new nation, the Founders drew on the work and cobbled together the ideas of thinkers from multiple eras and continents and, moreover, thinkers of vastly different political ideologies and disciplinary expertise.

Credit Hours: 3  
Prerequisites: Honors eligibility required

**POL_SC 2455: Constitutional Debates**  
(same as CNST_DEM 2455). While we will make reference to the work of canonical political thinkers from the Western tradition during the semester--and while we will also, at times, take a broadly philosophical approach to describing certain of the Founders' theses on governance--this is not a course in 'high theory.' Instead, our examination of the process of drafting and ratifying the United States Constitution will be more pragmatic in nature, focusing on the practical problems and questions concerning national governance that shaped the final design of the Constitution. At the same time, this description of the class as one that addresses the Constitution in terms of the practical problems that the Founders saw it solving drastically understates the complexity and contentiousness of the subject matter that we will be examining.

Specifically, the readings for the course will allow us to identify the ways in which, and reasons for which, the Founders disagreed not only on how to solve the problems of governance that the nation faced in 1787 but, moreover, on what these problems actually were. With regard to this task of understanding the principles underlying the heated debates that arose during the drafting and ratification process, it should be noted that this is not a class in Framers-worship. While we will discuss why the Federalists ultimately 'won the day,' we will also devote significant attention to how the Anti-Federalists both profoundly influenced how we understand constitutional democracy in the United States and provided an intellectual lineage that still informs contemporary political debate. We will, that is, give each side their due. In addition, we will conclude the semester by considering the Constitution's post-ratification history, looking at a handful of Supreme Court decisions and constitutional amendments in order to think about some of the questions that the 1787 Constitution left unanswered and some of the problems that it left un-solved.

Credit Hours: 3  
Prerequisites: POL_SC 1100

**POL_SC 2455H: Constitutional Debates - Honors**  
(same as CNST_DEM 2455H). While we will make reference to the work of canonical political thinkers from the Western tradition during the semester--and while we will also, at times, take a broadly philosophical approach to describing certain of the Founders' theses on governance--this is not a course in 'high theory.' Instead, our examination of the process of drafting and ratifying the United States Constitution will be more pragmatic in nature, focusing on the practical problems and questions concerning national governance that shaped the final design of the Constitution. Credit Hours: 3  
Prerequisites: Honors eligibility required; POL_SC 1100
POL_SC 2500: The Science of Politics
This course provides an introduction to the Science of Politics. We will consider a variety of research methods, including historical case study research, field research, quantitative analysis, survey research, experimental techniques, and more. Whatever the research method, one of the central objectives of the course is for students to come away with a clear understanding of how to evaluate causal relationships in the political world. The course is also chock-full of real world applications, with the goal of using actual science to empower you in three ways. First, you will appreciate that the root of science is skepticism and logic, allowing you to make freer choices and to become a better problem solver. Second, in this course you will become a practiced consumer of social science, giving you substantial power to understand, evaluate, and utilize scientific knowledge, whether you choose to work in politics, journalism, industry, government, or elsewhere. Third, the course will provide you with actual research explaining why politicians seek and win elections, why countries go to war, why we follow our parents' political ideologies, why some countries are rich and others poor, and so much more of vital importance for our planet. To think scientifically, in short, is to develop understanding of humanity, seeing the invisible yet powerful forces that shape our lives. Graded on A-F basis only.

Credit Hours: 3

POL_SC 2600: Canadian Politics and Government
Introductory survey of Canada, including constitutional development, governmental institutions, political participation, and Canadians’ political attitudes and behaviors.

Credit Hours: 3

POL_SC 2700: Comparative Political Systems
Analysis of major political systems selected from Europe, Asia, Africa, and Latin America, emphasizing basic concepts of comparative political study.

Credit Hours: 3

POL_SC 2710: Politics and the Military
Comparative study of post-cold war civil-military relations; military as an interest group, change agent, policy instrument and competitor of civilian politicians.

Credit Hours: 3

POL_SC 2720: European Democracies
This course provides an introduction to the institutions and issues in contemporary European political systems. It covers domestic institutions and policies as well as the developments of the European Union.

Credit Hours: 3

POL_SC 2800: Liberty, Justice and the Common Good
(same as CNST_DEM 2800). Selected great political theorists and their contemporary relevance. How to think critically about political ideas and ideologies.

Credit Hours: 3

POL_SC 2860: American Political Thought
Examines major themes that shaped three centuries of American political thought, including slavery, religion, and the tension between unity and difference. Readings are drawn from primary sources (Jefferson, Adams, Mason, Tocqueville, Calhoun, Lincoln, Stowe, Baldwin) as well as contemporary analytic commentary on those sources (Bercovitch, Hartz, Wolin, Guinier, Morrison).

Credit Hours: 3

POL_SC 2800W: Introduction to Political Research - Writing Intensive
This course is an introduction to the systematic analysis of political phenomenon. It examines the meaning of ‘explanation’ and ‘causal reasoning’ and research strategies designed to make valid causal inferences. The course overview experimental design, measurement, hypothesis formulation and testing, and the display of information, using substantive examples from two or more fields of political science for illustrative purposes. Graded on A-F basis only.

Credit Hours: 3

Prerequisites: Sophomore standing; C- or higher in STAT 1200, STAT 1300, STAT 1400, STAT 2200, or STAT 2500 or C- or higher in MATH 1300, MATH 1400, or MATH 1500

POL_SC 3000: Introduction to Political Research
This course is an introduction to the systematic analysis of political phenomenon. It examines the meaning of ‘explanation’ and ‘causal reasoning’ and research strategies designed to make valid causal inferences. The course overview experimental design, measurement, hypothesis formulation and testing, and the display of information, using substantive examples from two or more fields of political science for illustrative purposes. Graded on A-F basis only.

Credit Hours: 3

Prerequisites: Sophomore standing; C- or higher in STAT 1200, STAT 1300, STAT 1400, STAT 2200, or STAT 2500 or C- or higher in MATH 1300, MATH 1400, or MATH 1500

POL_SC 3000W: Introduction to Political Research - Writing Intensive
This course is an introduction to the systematic analysis of political phenomenon. It examines the meaning of ‘explanation’ and ‘causal reasoning’ and research strategies designed to make valid causal inferences. The course overview experimental design, measurement, hypothesis formulation and testing, and the display of information, using substantive examples from two or more fields of political science for illustrative purposes. Graded on A-F basis only.

Credit Hours: 3

Prerequisites: Sophomore standing; C- or higher in STAT 1200, STAT 1300, STAT 1400, STAT 2200, or STAT 2500 or C- or higher in MATH 1300, MATH 1400, or MATH 1500

POL_SC 3164: Nation Building through a Barrel of a Gun
(same as MIL_SC 3164). This course was developed to provide students the opportunity to examine the dilemmas of military intervention, nation-building/peacekeeping operations and exit strategies. This course is designed to challenge students to think critically and arrive at their own conclusions about the use of military power to settle differences between nations, and use of military forces to conduct nation building.

Credit Hours: 3

POL_SC 3165: ‘Chasing Ghost’, The History of Irregular Warfare
(same as MIL_SC 3165). This course explores the history of irregular warfare from the guerrilla perspective. The course examines the works of Mau Tse-Tung, Che Guevara, T.E. Lawrence and several other guerrilla leaders. You will analyze the evolution of irregular warfare through history and understand the complexities associated with the difficulties of countering and defeating irregular warfare. Graded on A-F basis only.

Credit Hours: 3
POL_SC 4000: Introductory Statistics for Political Science
Basic course in applied statistics and inference using extensive examples from voting behavior, congressional behavior, international relations and public policy. Topics included nonparametric measures, probability, and rudimentary hypothesis testing; computer applications with political data using SAS. Math Reasoning Proficiency Course.

Credit Hours: 3
Prerequisites: MATH 1100 or MATH 1120 or equivalent, concurrent enrollment in POL_SC 4010

POL_SC 4004W: Topics in Political Science - Social Science - Writing Intensive
Organized study of selected topics. Subjects and earnable credit vary from semester to semester.

Credit Hour: 1-99

POL_SC 4004: Topics in Political Science - Social Science
Organized study of selected topics. Subjects and earnable credit vary from semester to semester

Credit Hour: 1-99

POL_SC 4010: Computing Methods
(cross-leveled with POL_SC 7010). Develops computer-based skills with political science data. SAS, and other packages used in mainframe and PC environments. Graded on S/U basis only.

Credit Hour: 1
Prerequisites: concurrent enrollment in POL_SC 4000

POL_SC 4100: Political Parties and Election Campaigns
Development, organization, functions, activities of major and minor political parties; principles and procedures of managing campaigns; campaign finance; election administration.

Credit Hours: 3

POL_SC 4110: Political Behavior
Economic, psychological, and social dimensions of political behavior; participation, leadership and elites; political attitudes; voting behavior and decision-making processes.

Credit Hours: 3

POL_SC 4120: Politics and the Media
The role and importance of mass media in the political process, primarily the U. S. Constitutional protections of the press, politics of media control, political news and advertising, effects of information on election campaigns, political institutions, and policymaking.

Credit Hours: 3

POL_SC 4120W: Politics and the Media - Writing Intensive
The role and importance of mass media in the political process, primarily the U. S. Constitutional protections of the press, politics of media control, political news and advertising, effects of information on election campaigns, political institutions, and policymaking.

Credit Hours: 3

POL_SC 4130: African-American Politics
(same as BL_STU 4130). Surveys political participation of African-Americans in American politics. Analyzes their public lives in the context of elections, behavior of political organizations, social movements, parties, and level of government.

Credit Hours: 3

POL_SC 4131: Race and Politics
This course provides a selective survey of the vast literature on race and politics in the contemporary United States. Our purpose is to understand the complex relationship between racial and ethnic identity and political outcomes in the United States. As such, we will explore broad political science concepts in the context of racial and ethnic groups. We will focus on African Americans and Latino/as in this course, but where appropriate, we will look to Asian Americans and Native Americans.

Credit Hours: 3

POL_SC 4132: Race, Immigration, and Urban Politics
The global world is increasingly an urban world: about half of humanity lives in cities and this trend is expected to continue apace. In the United States, over 80 percent of people live in metropolitan regions. Urban areas present enormously complex opportunities and challenges, from the perceived failure of urban public schools, to seemingly intractable racial inequalities, to the integration of a new wave of immigrants, to affordable housing, to efficient public transportation. On the other hand, cities have long been heralded as places of opportunity, spaces of economic development, entrepreneurship, and multiculturalism. Under what conditions are urban spaces socially just, diverse, and prosperous? Under what conditions do they become spaces contested by different interest groups? Cities are the canvas upon which many of the most pressing social issues of our day are being constructed. This course will give students an interdisciplinary understanding and analysis of these urban social problems, by bridging the literature on urban politics with that on urban geography. The complexity of urban issues calls for diverse perspectives in order to imagine creative responses. Approaching the urban experience from qualitative and quantitative perspectives will help students address structural as well as individual solutions to the problems urban residents face.

Credit Hours: 3

POL_SC 4140: Congress and Legislative Policy
Study of national and state legislative systems and legislative policy making, with emphasis on Congress.

Credit Hours: 3
Prerequisites: POL_SC 1100

POL_SC 4150: The American Presidency
Evolution of the presidency; particular emphasis on constitutional and political roles played by chief executive in shaping public policy.

Credit Hours: 3
Prerequisites: POL_SC 1100

POL_SC 4150W: The American Presidency - Writing Intensive
Evolution of the presidency; particular emphasis on constitutional and political roles played by chief executive in shaping public policy.

Credit Hours: 3
Prerequisites: POL_SC 1100

**POL_SC 4160:** Interest Groups
Development, organization, functions, activities, internal politics of special interest groups such as business, labor, agricultural and public interest groups; lobbying and techniques for influencing public policy in the American political system.

**Credit Hours:** 3

**Prerequisites:** POL_SC 1100

**POL_SC 4160W:** Interest Groups - Writing Intensive
Development, organization, functions, activities, internal politics of special interest groups such as business, labor, agricultural and public interest groups; lobbying and techniques for influencing public policy in the American political system.

**Credit Hours:** 3

**Prerequisites:** POL_SC 1100

**POL_SC 4170:** Politics of the American South
This course focuses on the politics of the American South in the latter part of the 20th century and the early years of the current millennium. For undergraduate credit only.

**Credit Hours:** 3

**Prerequisites:** POL_SC 1100

**POL_SC 4180:** Politics and Hollywood
This course examines the impact of entertainment media on politicians, the public, and politics in the United States. We will examine the worlds of film, television, and celebrity involvement in politics.

**Credit Hours:** 3

**POL_SC 4180W:** Politics and Hollywood - Writing Intensive
This course examines the impact of entertainment media on politicians, the public, and politics in the United States. We will examine the worlds of film, television, and celebrity involvement in politics.

**Credit Hours:** 3

**Prerequisites:** POL_SC 1100

**POL_SC 4190:** Elections and Democracy in the United States
This is a class on United States election processes and their relationship to democratic governance. By election processes I mean the rules and procedures under which elections are contested. These include franchise, balloting methods, vote aggregation rules, apportionment, districting and related subjects. The class does not engage public opinion, partisanship, voter choice and other subjects typically classified as political behaviors. Elections are a means to an end; that end is normatively defensible democratic government. Consequently, we discuss these subjects in the context of American democratic thought and ideals. Election processes can either contribute towards our democratic goals and aspirations or detract from them. More precisely, different election methods privilege different democratic values. To understand whether United States elections work well or poorly one must understand the democratic ideals that have most deeply influenced the American experience. We study election processes from a historical development perspective informed by political thought. However, our assessment of United States elections is deeply informed by contemporary theory and empirical analysis.

**Credit Hours:** 3

**POL_SC 4200:** The American Constitution
Leading American constitutional principles as they have evolved through important decisions of the United States Supreme Court.

**Credit Hours:** 3

**Prerequisites:** POL_SC 1100

**POL_SC 4200W:** The American Constitution - Writing Intensive
Leading American constitutional principles as they have evolved through important decisions of the United States Supreme Court.

**Credit Hours:** 3

**Prerequisites:** POL_SC 1100

**POL_SC 4210:** Constitutional Rights
Survey of Supreme Court cases involving the Constitution's protections for life, liberty, and property and guarantee of equal protection of the law.

**Credit Hours:** 3

**Prerequisites:** POL_SC 1100

**POL_SC 4210W:** Constitutional Rights - Writing Intensive
Survey of Supreme Court cases involving the Constitution's protections for life, liberty, and property and guarantee of equal protection of the law.

**Credit Hours:** 3

**Prerequisites:** POL_SC 1100

**POL_SC 4220:** The United States Supreme Court
Role of Supreme Court in American system of government; particular attention given to reading biographies and writings of the Justices.

**Credit Hours:** 3

**Prerequisites:** POL_SC 1100

**POL_SC 4230:** Constitution and Civil Liberties
Civil liberties in the American constitutional context emphasizing freedom of expression (religion, speech, press, assembly), rights of accused and right to privacy.

**Credit Hours:** 3

**Prerequisites:** POL_SC 1100

**POL_SC 4310:** Comparative State Politics
Analyzes similarities and differences of state politics and the ways in which such politics are shaped by political and socioeconomic environments of the states.

**Credit Hours:** 3

**Prerequisites:** POL_SC 1100

**POL_SC 4320:** Public Policy
Introduction to the study of public policy in the United States. Analyzes public policy choices at the national, state and local level and the variety of forces which serve to shape policy decisions.

**Credit Hours:** 3

**Prerequisites:** POL_SC 1100
POL_SC 4320W: Public Policy - Writing Intensive
Introduction to the study of public policy in the United States. Analyzes public policy choices at the national, state and local level and the variety of forces which serve to shape policy decisions.
Credit Hours: 3
Prerequisites: POL_SC 1100

POL_SC 4370: Law, Policy, and Regulation
Off in the quiet corners of the policy process, public servants distribute public benefits, write rules that have the force of law, adjudicate conflicts and selectively enforce the law. Frequently the government delegates these tasks to non-profit organizations. These public and quasi-public administrative organizations play, therefore, a critical role in the politics of who gets what, when and how - the essential question of public policy. Administrative organizations in the United States play this powerful role, however, within a constitutional democracy. This course focuses on policymaking through the administrative state and the relationship between the administrative state, democracy and the U.S. Constitution.
Credit Hours: 3
Prerequisites: POL_SC 1100

POL_SC 4380: Politics of Criminal Justice
Course explores the political motivations for and the substantive consequences of state and federal criminal justice policy in the United States.
Credit Hours: 3

POL_SC 4390: United States Health Politics and Policy
This course deals with the politics and public policy of health in the United States. This topic is broader than you may think - when many Americans hear 'health policy,' they probably think first of the Affordable Care Act (Obamacare) and other policies dealing with health insurance. There is no doubt that these issues are important and deserve our attention; they are just the tip of the iceberg of how politics and policy affect the health of the US population. In addition to issues of health insurance coverage, this course will cover topics ranging from the quality of medical care, to socioeconomic disparities in health outcomes, to substance abuse and addition, to gender and reproductive health, to the question of what counts as a 'disease,' and more. All of these issues are deeply political, whether you may realize it or not, and all present public policy challenges. In addition to building your subject matter knowledge, this course will help you to develop critical thinking and argumentation skills about public policy issues. It will also give you experience in conceiving and drafting a policy memo, a common format of written communication in the policy world.
Credit Hours: 3

POL_SC 4400: Theories of International Relations
Surveys Theories of International Relations. Analyzes conceptions of decision-making, foreign policy behavior and international society. Prerequisites: junior standing
Credit Hours: 3

POL_SC 4410: Politics and War
(same as PEA_ST 4410). Why do wars occur? The functions of force and uses of a threat of force. Problems of national security strategy and arms control.
Credit Hours: 3

POL_SC 4411: Genocide, Terrorism and Civil War
This course explores the conditions that lead to the initiation, escalation and termination of civil wars as well as the causes and targets of terrorism and the effects of genocide.
Credit Hours: 3

POL_SC 4412: Strategy and Warfare
Examines strategic theory, traditional forms of warfare (on land, sea, and in the air), as well as irregular warfare and terrorism. Additional topics include weapons of mass destruction, deterrence, and technology.
Credit Hours: 3

POL_SC 4413: Politics of Cyber-Security
This course is an introduction to the politics of cyber-security. It will discuss what cyber-security is, from both a technical and political standpoint; examine the importance of cybersecurity for global economic activity and national security; and discuss current technical, political, and ethical debates over cyber-security topics. The course will focus largely on cases and applications of cyber-security knowledge for students in the social sciences, and will include guest lectures, either virtual or in-person, from leading national and state-level civilian and military practitioners on the topic. In order to understand the mechanics of cyber-security and the technical issues at stake, students will also take an online Security + training course, with guidance and discussion during the class and will leave with an entry-level certification for employment in the field. By the end of the semester, students will understand the technical basics and key political debates around major cyber-security topics; be familiar with a range of cases where cyber-security directly affected global commerce and international/national security; and be able to apply their knowledge to current events and professional environments.
Credit Hours: 3

POL_SC 4415: Peacekeeping and Intervention
This course will survey the causes and consequences of peacekeeping and intervention as well as assess the conditions that lead to successful and failed missions.
Credit Hours: 3

POL_SC 4420: Politics of International Economic Relations
Study of reciprocal interaction between global politics and economics. Includes politics of north/south relations, multinational non-state actors, arms transfers and dependency.
Credit Hours: 3

POL_SC 4430: Global Human Rights
Human rights violations are widespread. The majority of of the world's citizenry lives with inadequate civil and political and economic, social, and cultural rights, often with dire consequences on economic and human security. What caused this situation? And, moreover, what can be done
to fix it? This course focuses on the social scientific study of human rights. We will focus on scientific explanations of the rise of the human rights movement, political and economic explanations for human rights conditions, and the effects of advocacy efforts concerning human rights. After this class, you will have not only an understanding of the major players and factors influencing human rights, but a base understanding of the social scientific processes which govern human rights conditions and improvements. As such, this class is not a history class or a class on current events. Though current and historical events will be discussed, your grade will not depend on your rote memorization of these events. Instead, the focus will be on understanding the underlying interests of important actors towards human rights, the arenas in which these actors interact, and the rules which govern their interactions. This focus on the basic principles will provide you with a rich practical knowledge of human rights. At the conclusion of the course, you will be able to actively engage with the global human rights community.

Credit Hours: 3

**POL_SC 4440: International Organization**
Forms and functions of governmental (United Nations, European Union, NATO) and nongovernmental international organizations.

Credit Hours: 3
Prerequisites: POL_SC 1100

**POL_SC 4540: American Foreign Policies**
Bases, formulation, evaluation of current American foreign policies.

Credit Hours: 3

**POL_SC 4540W: American Foreign Policies - Writing Intensive**
Bases, formulation, evaluation of current American foreign policies.

Credit Hours: 3

**POL_SC 4550: Environmental Conflict**
This course introduces advanced undergraduate students to the linkages between the environment and conflict. This includes the use of natural resources to fund rebellion, the relationship between human-induced environmental stress and political violence, and competition between states over resources. During the course students will develop a basic understanding of climate change science, conflict studies, and conflict management strategies employed by local, regional, and international actors.

Credit Hours: 3

**POL_SC 4600: Latin American Politics**
Development, present status of political institutions in South America; emphasizes current political problems.

Credit Hours: 3

**POL_SC 4610: European Political Systems**
Comparison of political cultures, institutions, and processes of Britain, France, West Germany, and selected smaller countries in Western Europe.

Credit Hours: 3

**POL_SC 4630: The Politics of Modern Europe**
The course is an introduction to the politics of modern Europe. Europe provides an ideal setting to explore the central concepts and debates of comparative politics in industrialized countries. The course introduces the wide variety of political institutions, political economics and cultures existing in contemporary Europe and probes the question how such discrepancies might affect political outcomes and the possibility to coordinate EU policy. Several central topics in comparative politics, including political parties, elections, the welfare state, civil society and corruption will be introduces with application to modern European democracies. Graded on A-F basis only.

Credit Hours: 3

**POL_SC 4640: African Politics**
(same as BL_STU 4640). A general comparative course focusing on post-independent Africa. Theories and concepts related to decolonization, nationalism, democratization, and ethnicity; also institutional forms and organizations: political parties, parliaments, and executives.

Credit Hours: 3

**POL_SC 4660: Canada in North America**
This course focuses on the role of Canada in North America. The main topic areas include the evolution of Canada as a political system; political structures and processes; regionalism and social movements; political, economic and social connections with North America; and the future of Canada in North America.

Credit Hours: 3

**POL_SC 4670: The Political System of the European Union**
This course examines the politics, political actors, and institutions of the European Union from a comparative perspective. It questions whether we can view the EU as a federal democratic system similar to the U.S.

Credit Hours: 3

**POL_SC 4680: Chinese Politics and Foreign Policy**
This course is intended to introduce you to the history and analysis of Chinese politics and foreign policy since 1949. The course has two main goals. The first is that during the semester, you should learn the key historical events in Chinese political development and foreign policy. Second, you will examine these events and developments in light of major theories in comparative politics and international relations.

Credit Hours: 3

**POL_SC 4690: Korean Politics: North and South Korea**
(same as KOREAN 4690). This course is an introduction to the development of North and South Korea since 1945. By the end of the semester, students will 1) Know the key events and historical trends in the political development and foreign policy of the two Koreas 2) Be able to explain these developments using major theories in comparative politics and international relations We will focus on processes of continuity and change, both for the two political systems and for the everyday lives of individuals on both sides of the DMZ. We will explore the questions and topics covered in the course using historical, literary, and audiovisual materials.

Credit Hours: 3
POL_SC 4695: Understanding Korea Through Film
This course will familiarize students with major historical developments, substantive political issues, and theoretical debates in the study of Korea’s twentieth-century history and politics. The course touches on issues such as the impact of colonialism, revolution, civil and international conflict, political economy and corruption, contemporary social issues, and authoritarian and democratic political development in both North and South Korea. The course pairs analytical and explanatory readings with weekly films - either documentary or non-documentary - to interrogate major social and political developments on the Korean peninsula since the start of the twentieth century.
Credit Hours: 3

POL_SC 4700: America’s Wars in Asia/War and Peace in Asia
This course is an introduction to the causes and character of conflict in Asia, especially the conflicts that either have involved or could plausibly involve the United States of America. These conflicts often combine aspects of civil conflict with aspects of international politics, and one of the important themes of the course will be to look at Asia’s conflicts through both of these lenses. In addition, we will examine America’s foreign policy options and how it selected strategies to deal with these conflicts. By the end of the semester, students will 1) Be familiar with the key historical events and concepts related to conflict in East Asia 2) Be able to explain these developments using a range of major theories and conceptual lenses in comparative politics and international relations. The course will explore the questions and topics covered in the course using historical, literary, and audiovisual materials.
Credit Hours: 3

POL_SC 4710: Terrorism: Religious, Ethnic and Ideological Politics
Terrorism as political violence extending beyond the acts themselves. Examines major modern movements, e.g. Northern Ireland, Basques (Spain), Germany, Algeria, Arab-Israeli, Iran, India, Sri Lanka, Peru, Argentina, Uruguay.
Credit Hours: 3

POL_SC 4720: Politics of Development
(same as BL_STU 4720). Comparative, interdisciplinary analysis of the politics of developing countries in Asia, Africa, and Latin America. Special attention given to the problems of political and socioeconomic development.
Credit Hours: 3

POL_SC 4730: Women and Politics
(same as WGST 4730). This course examines women’s political participation and public policies towards women in countries around the world.
Credit Hours: 3

POL_SC 4750: Power and Money
This course provides an introduction to comparative political economy by focusing on the following questions. How and why do governments promote economic prosperity? Does democracy make people richer or poorer? Is it true that ‘money is power’? Can poor countries enjoy a stable democracy?
Credit Hours: 3

POL_SC 4770: Comparative Political Behavior
Explores research questions related to cross-national differences and similarities in public opinion formation, political culture and values, voting behavior, and other forms of political participation. Violent forms of political participation are also considered. Graded on A-F basis only.
Credit Hours: 3

POL_SC 4780: Dictatorship and Democracy
Why did the Arab Spring happen? Will China survive or collapse? Did North Korea’s new dictator Kim Jong Un really execute his old girlfriend? Throughout history, the majority of the world’s regimes have been dictatorships rather than democracies. This course is an introduction to the causes and character of contemporary authoritarian and democratic regimes: how and why they are created, why they survive, why people resist dictatorship or don’t, and why regimes survive or fall. We will use academic articles, news stories, and films to study dictatorship and democracy. You will come away from this course with an understanding of the major theoretical debates about dictatorship and democracy, and how these debates apply to important countries and issues in the world today.
Credit Hours: 3

POL_SC 4790: The Age of Democratization?
Democracy has become a global norm. After repeated waves of democratization, democracy has now reached all corners of the world and spread far beyond the affluent West. How can we understand transitions to democracy and democratic stability? What is the relationship between democracy and development and what can America and other Western powers do to promote democracy abroad? Although democracy has been on the rise in the last decades we have also seen new challenges emerge. Many countries have adopted democratic facades hiding the persistent stability of authoritarianism. We have also seen the rise of China and Russia in world politics, creating a powerful counterweight to the previously dominant liberal order. How will this change affect the prospects for democratization in the future? These and other questions will be debated in this course as students will be introduced to central question, theories, and findings in comparative democratization.
Credit Hours: 3

POL_SC 4800: Classical Political Theory
(same as AMS 4800, CNST_DEM 4800; cross-leveled with AMS 7800). Great Greek, Roman, and Medieval political theorists on the relation of psychology, ethics, politics, and the best form of government.
Credit Hours: 3

POL_SC 4810: Modern Political Theory
(same as CNST_DEM 4810). Great political theorists from Machiavelli through Marx on the nation state, capitalism, liberalism, conservatism, and Marxism.
Credit Hours: 3
POL_SC 4820: Contemporary Political Theory
Great contemporary thinkers on Western vs. Eastern Marxism, existentialism, critical theory, political theologies, postmodernism, feminism, environmentalist ideologies, biological approaches to politics.

Credit Hours: 3

POL_SC 4830: Democracy in America (and Elsewhere)
(same as CNST_DEM 4830). This course focuses on the dynamics of democracy. We will explore various topics in the history, development, and practice of democracy through an examination of the writings of Alexis de Tocqueville, one of the most insightful and prescient observers of American political culture.

Credit Hours: 3
Prerequisites: POL_SC 1100

POL_SC 4840: Developing Dynamics of Democracy
(same as POL_SC 4840). This course examines developments in the theory and practice of democracy from the ancient Greeks to the present. Beginning with the origins of democracy in the Hellenic city states, we consider the transformation of democratic concepts in the classical liberal period, review the development of democratic institutions in the United States and Europe, examine the emergence of supra-national democratic institutions such as the European Union, and assess the future of democratization in the 21st century.

Credit Hours: 3
Prerequisites: POL_SC 1100

POL_SC 4850: Scots and the Making of America
(same as CNST_DEM 4850). This class is on the influence of the Scottish Enlightenment on the founding of the United States. The Scottish Enlightenment refers to uniquely Scottish advances in social, political, scientific and literary thought that transpired in the 18th and early 19th centuries. This line of thought, especially in its social and political dimensions, was especially influential in shaping the founding of the United States.

Credit Hours: 3
Prerequisites: POL_SC 1100

POL_SC 4850H: Scots and the Making of America - Honors
This class is on the influence of the Scottish Enlightenment on the founding of the United States. The Scottish Enlightenment refers to uniquely Scottish advances in social, political, scientific and literary thought that transpired in the 18th and early 19th centuries. This line of thought, especially in its social and political dimensions, was especially influential in shaping the founding of the United States.

Credit Hours: 3
Prerequisites: POL_SC 1100, Honors eligibility required

POL_SC 4900: Beltway History and Politics: American Constitutional Democracy in Theory and Practice
(same as HIST 4900, CNST_DEM 4900). This course is an experiential overview of American political history for students on the Kinder Forum’s Washington program, showing how American constitutional democracy was developed and implemented right here on the Potomac, as much as possible in the actual places where the events occurred. Emphasis will be placed on interplay between constitutional theory and actual political experience over time, and the tensions and institutional changes that emerged as Americans and their government coped with cataclysmic social changes, unparalleled economic development, and fearsome international challenges.

Credit Hours: 3
Prerequisites: This course is limited to students participating in the Kinder Scholars Washington D.C. Internship program.

POL_SC 4940: Political Science Internship
Work experience in a public or private organization that is relevant to the political science major coordinated by a faculty member.

Credit Hour: 3-6
Prerequisites: junior standing with a 3.0 GPA; or senior standing with 2.67 GPA. Must be in good standing

POL_SC 4975: Journal on Constitutional Democracy
(same as HIST 4975, CNST_DEM 4975). The journal is sponsored by the Kinder Institute on Constitutional Democracy and staffed by current former participants in the institute’s undergraduate Society of Fellows program. Each volume of the journal is organized around a student-selected idea or era central to the historical development and philosophical foundations of constitutional democracy in the United States. Student-authored essays address this theme via arguments and historical overviews crafted from the close reading and analysis of primary source documents, with the exception being that participating in the journal will relate back to and advance students’ study of American political thought and history.

Credit Hour: 1-3

POL_SC 4985: Problems in Political Science
Independent investigation to meet needs of the individual student.

Credit Hour: 1-99
Prerequisites: instructor’s consent

POL_SC 4986: Special Readings in Political Science
Independent readings selected in consultation with supervisory faculty member.

Credit Hour: 1-99
Prerequisites: instructor’s consent

POL_SC 4996: Political Science Capstone, Honors
Special readings, reports in the several fields of political science. For political science Honors students.

Credit Hour: 1-6
Prerequisites: senior standing. Honors eligibility required

POL_SC 7000: Introductory Statistics for Political Science
Basic course in applied statistics and inference using extensive examples from voting behavior, congressional behavior, international relations and public policy. Topics included nonparametric measures, probability, and rudimentary hypothesis testing; computer applications with political data using SAS.

Credit Hours: 3
Prerequisites: MATH 1100 or MATH 1120 or equivalent
Corequisites: POL_SC 4010

</table>
POL_SC 9450: International Conflict
This is an advanced seminar in international conflict. The range of material that might be included is vast, so an effort will be made to balance overall coverage with the need to look in more depth at some especially salient areas in the literature. The seminar unfolds in five parts.

Credit Hours: 3

POL_SC 9460: Coercive Diplomacy
Research seminar on how nations apply political and economic sanctions on other nations in order to compel or entice changes in foreign policy and/or government behavior. How threats (short of conflict) and incentives govern international relations.

Credit Hours: 3

POL_SC 9470: Theories of Civil War
Seminar on why groups may engage in violence against the state or other opposition groups. Topics include causes of civil wars, terrorism as a strategy of violence and possible solutions including third part security, partition, intervention, power sharing and treaty design. Graded on A-F basis only.

Credit Hours: 3

POL_SC 9480: Human Security
Seminar on cross-national civil, political, economic, social, and cultural rights. The determinants of human security issues and the efficacy and dynamics of efforts from intergovernmental organizations, foreign aid, peacekeeping, interventions, and treaties on human rights.

Credit Hours: 3

POL_SC 9490: Selected Themes in International Relations
Graduate seminar in International Relations. Variable content. May be repeated for credit.

Credit Hours: 3

POL_SC 9550: Strategic Studies
This graduate seminar analyzes important theories regarding strategic studies. The course explores topics such as war outcomes, military effectiveness, military history, military strategy, civil-military relations, counterinsurgency, military innovation, and air warfare. Graded on A-F basis only.

Credit Hours: 3

POL_SC 9600: Introduction to Comparative Politics
Study of theories and approaches to comparative politics in Europe, Asia and/or Latin America.

Credit Hours: 3

POL_SC 9610: Latin American Politics
Research seminar on politics and government in Central and South America. Topics include modernization and dependency theories, civil-military relations, economics adjustment, democratic transitions, and area and country studies.

Credit Hours: 3

POL_SC 9645: China and Political Science Research
This is a graduate-level seminar on Chinese politics and foreign policy since 1949 covering the key historical events in Chinese political development and foreign policy. These events and developments will be examined in light of major theories in and methodological approaches adopted by the subfields of comparative politics and international relations, with the goal of exploring the strengths and weaknesses of alternative perspectives. At the end of the course, students should be familiar with the key debates and questions in the study of Chinese politics and foreign policy, and have a better sense of how to research questions on these topics. The course is also intended to encourage a dialogue between the study of China and the broader fields of comparative politics and international relations. Thus by the end of the course, students should have a sense not only for how the study of Chinese politics and foreign policy applies broader CP/IR theories to explain key patterns and events in China, but also gain insight into the question of what China as a case (or cases) can contribute back to major theories and debates in these fields.

Credit Hours: 3
Prerequisites: POL_SC 9600

POL_SC 9650: Democratization
Research seminar on comparative politics of authoritarian and democratic regimes. Topics include characteristics and durability of authoritarianism, political institutions under autocracy, tactics of rule, state-society relations, transition and breakdown of regimes.

Credit Hours: 3

POL_SC 9700: Democratization
Research seminar on the third wave of democratization. Classical and contemporary conceptions of democracy, measurement, theories, trends, and influences on democratization across the globe.

Credit Hours: 3

POL_SC 9710: Comparative Political Economy
Interdisciplinary, comparative analysis of political aspects of political economy, rural development, and related issues.

Credit Hours: 3

POL_SC 9720: Comparative Political Institutions
Research seminar on comparative political institutions. Debates in comparative politics on the influence of rules and institutions on political decisions in developed democracies. Topics include political parties, legislatures, governments, and electoral rules.

Credit Hours: 3

POL_SC 9730: Comparative Elections and Voting Behavior
This is a graduate level seminar in comparative political behavior. We will discuss a variety of topics dealing with comparative political behavior, such as the formation of partisan identification, public opinion formation, the decision to vote, organize and protest, and how foreign and domestic policy influence elections. The readings will introduce you to the various methodological techniques--including case studies, quantitative analysis, and agent-based modeling--used to test the empirical expectations of these theories. The goal of this course is to provide a solid foundation
upon which you can build for comprehensive examinations. Graded on A-F basis only.

**Credit Hours:** 3

**POL_SC 9790: Seminar in Comparative Politics**  
Comparative study of selected aspects of political systems. Variable content. May be repeated for credit.

**Credit Hours:** 3

**POL_SC 9901: Topics in Political Science**  
Organized study of selected topics. Subjects and earnable credit vary from semester to semester.

**Credit Hour:** 1-99

**POL_SC 9970: Independent Readings for Ph.D. Comprehensive Examinations**  
Graded on S/U basis only.

**Credit Hours:** 1-9

### Portuguese Courses

**PORT 1100: Elementary Portuguese I**  
This is the first course in the three-part elementary Portuguese-language sequence. The focus is on building common vocabulary and learning basic verb tenses and syntax, as well as other grammar basics such as noun/adjunctive number and gender, adverbs, and preposition usage. Students gain practice with Brazilian Portuguese through written and oral homework assignments, and in-class structured conversation and discussion of texts, videos, music and other cultural materials related to Brazilian and other Lusophone cultures. Audio and video recordings provide ample exposure to a variety of native speakers of Brazilian Portuguese, and to a lesser extent of European Portuguese.

**Credit Hours:** 4

**Prerequisites:** Grade in the C range or better in PORT 1200 or equivalent

**PORT 1200: Elementary Portuguese II**  
This is the second course in the three-part elementary Portuguese-language sequence. The focus is on increasing vocabulary (including common idiomatic expressions) and reviewing basic verb tenses and syntax. The course also includes further study of key grammatical concepts such as irregular and reflexive verbs, progressive and past tenses, the imperative, and pronoun usage. Students gain practice with Brazilian Portuguese through written and oral homework assignments, as well as in-class structured conversation and discussion of texts, videos, music and other cultural materials related to Brazilian and additional Lusophone cultures. Audio and video recordings provide ample exposure to a variety of native speakers of Brazilian Portuguese, and to a lesser extent of European Portuguese.

**Credit Hours:** 4

**Prerequisites:** Grade in the C range or better in PORT 1100 or its equivalent

**PORT 2100: Elementary Portuguese III**  
This is the third course in the three-part elementary Portuguese-language sequence. The focus is on a review of basic verb tenses and syntax, and an introduction to more advanced grammatical structures including present, past and future subjunctive usages, as well as conditional, future and perfect verb forms. Students continue to build on their existing vocabulary base and to gain practice with Brazilian Portuguese through written and oral homework assignments, as well as in-class structured conversation and discussion of texts, videos, music and other cultural materials related to Brazilian and additional Lusophone cultures. Audio and video recordings provide ample exposure to a variety of native speakers of Brazilian Portuguese, and to a lesser extent of European Portuguese. Graded on A-F basis only.

**Credit Hours:** 3

**Prerequisites:** grade in the C range or better in PORT 1200 or equivalent

**PORT 2160: Intermediate Portuguese**  
Review of grammar through Brazilian culture. Designed for students who have taken either PORT 2100 or PORT 4070 and wish to continue studying the language.

**Credit Hours:** 3

**Prerequisites:** Grade in the C range or better in PORT 2100 or equivalent

**PORT 2310: Brazilian Civilization**  
Survey of Brazilian history, arts and culture. Open to any student interested. No knowledge of Portuguese required.

**Credit Hours:** 3

**Prerequisites:** Sophomore standing

**PORT 3001: Topics in Portuguese-General**  
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent.

**Credit Hours:** 1-3

**Prerequisites:** Sophomore standing

**PORT 3005: Topics in Portuguese-Humanities/Fine Arts**  
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent.

**Credit Hours:** 1-3

**Prerequisites:** Sophomore standing

**PORT 3160: Advanced Portuguese Composition and Conversation**  
Development of more sophisticated skills of written and oral expression.

**Credit Hours:** 3

**Prerequisites:** Grade of C- or better in PORT 2160

**PORT 3260: Cinema for Portuguese Conversation**  
This course is for intermediate and advanced students of Portuguese and uses film as the basis for teaching vocabulary, strengthening oral and written skills, and presenting Brazilian culture. Graded on A-F basis only.

**Credit Hours:** 3

**Prerequisites:** grade of C- or better in PORT 2160 or equivalent

**PORT 3260: Cinema for Portuguese Conversation**  
This course is for intermediate and advanced students of Portuguese and uses film as the basis for teaching vocabulary, strengthening oral and written skills, and presenting Brazilian culture. Graded on A-F basis only.
PORT 3420: Survey of Brazilian Literature
Masterpieces of Brazilian literature in translation from its origins to present.
Credit Hours: 3
Prerequisites: sophomore standing

PORT 3420H: Survey of Brazilian Literature - Honors
Masterpieces of Brazilian literature in translation from its origins to present.
Credit Hours: 3
Prerequisites: sophomore standing; Honors eligibility required

PORT 3875: Brazilian Cinema
(same as FILMS_VS 3875). An introduction to Brazilian cinema, culture and society through the study of contemporary cinematic productions. Topics include: Hollywood perceptions of Brazil; re-definitions of national identity and history, representations of race and gender.
Credit Hours: 3
Prerequisites: ENGLSH 1000

PORT 3885: Twenty-First Century South American Cinema
(same as FILMS_VS 3885, SPAN 3885). Broad overview of the major national cinemas of the 21st century in South America. Approximately 14 feature films screened from Argentina, Brazil, Chile and other nations of the region. Instructor provides a thematic framework for films within the context of film theory, Latin American cinematic history and cultural studies. Course taught in English. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ENGLISH 1000 or ENGLISH 1000H

PORT 4070: Intensive Beginning Portuguese
Designed for rapid acquisition of a reading knowledge of Portuguese. Cannot be taken to fulfill undergraduate language requirement.
Credit Hours: 3
Prerequisites: instructor's consent

Psychiatry Courses

PSCHTY 6005: Psychiatry Clerkship
Students see patients with psychiatric disorders in the outpatient clinics, in hospital settings and on consultation services.
Credit Hours: 6

PSCHTY 6015: Rural Psychiatry Clerkship
Rural Psychiatry Clerkship
Credit Hours: 6

PSCHTY 6025: Springfield Psychiatry Clerkship
Students see patients with psychiatric disorders in the outpatient clinics, in hospital settings and on consultation services.
Credit Hours: 8
Prerequisites: successful completion of the first two years of medical school

PSCHTY 6050: Remediation Psychiatry Clerkship
Enrolled students are those who received an unsatisfactory grade in a Psychiatry Clerkship at any Mizzou Med location or site. This course gives the student an opportunity to rectify their deficiency.
Credit Hours: 6
Prerequisites: PSCHTY 6005 Psychiatry Clerkship, received unsatisfactory grade

PSCHTY 6383: ABS Psychiatry Research
ABS Psychiatry Research
Credit Hour: 5-10

PSCHTY 6630: Narrative Med and the Meaningful Life
The 4th year medical student will attend didactics and participate in discussions. They will complete suggested readings (short stories, poems and essays), assessments and writing assignments/projects. May be repeated for credit.
Credit Hours: 5
Prerequisites: 4th year medical student, all core clerkships

PSCHTY 6731: Psychiatry Rural Elective
The 4th year medical student will participate in the evaluation of adult psychiatric patients and child psychiatric patients in a clinical setting.
Credit Hours: 5
Prerequisites: PSCHTY 6005; restricted to 4th year medical students

PSCHTY 6835: Psychiatry Outpatient Clinic
Psychiatry Outpatient Clinic
Credit Hours: 5

PSCHTY 6836: Psychiatry Adult Inpatient Service
Psychiatry Adult Inpatient Service
Credit Hours: 5

PSCHTY 6837: Psychosomatic Medicine
Psychosomatic Medicine
Credit Hours: 5

PSCHTY 6838: Forensic Psychiatry
Forensic Psychiatry
Credit Hours: 5

PSCHTY 6839: Child/Adolescent Psychiatry
Child/Adolescent Psychiatry
Credit Hours: 5

PSCHTY 6840: Geriatric Psychiatry
Geriatric Psychiatry
Credit Hours: 5
PSCHTY 6939: Two Week - Psychiatry Adult Inpatient Service
The student will work as a member of an inpatient multidisciplinary team and participate in the evaluation and treatment of adults on an acute care inpatient psychiatry service at MUPC. Typical activities include following several patients, observing and conducting psychiatric evaluation, collecting collateral information, reviewing medical records, participation in staffings, rounds and therapeutic groups and documentation in the medical record.

Credit Hours: 2
Prerequisites: Successful completion of the first two years of medical school

PSCHTY 6940: Two Week - Child and Adolescent Psychiatry
The student will work as a member of an inpatient multidisciplinary team and participate in the evaluation and treatment of children and adolescents on an acute care child inpatient psychiatry service at MUPC. Typical activities include following several patients, observing and conducting psychiatric evaluation, collecting collateral information, reviewing medical records, participation in staffings, rounds and therapeutic groups and documentation in the medical record.

Credit Hours: 2
Prerequisites: Successful completion of the first two years of medical school

PSCHTY 6941: Two Week - Psychiatry Consultation and Liaison
Students will participate in the psychiatric consultation process for medical rehabilitation, medical and surgical inpatients. The types of patients seen present with a wide spectrum of psychiatric conditions such as depression, substance abuse, anxiety disorders, delirium, dementia, somatoform disorders, personality disorders, psychotic disorders and organic behavior/mood disorders. Typical duties include bedside evaluation in collaboration with attendings and residents, documentation and presentation of findings and recommendations and participation in rounds.

Credit Hours: 2
Prerequisites: Successful completion of the first two years of medical school

Psychology Courses

PSYCH 1000: General Psychology
Survey of theories, principles, and methods in the study of human behavior.

Credit Hours: 3

PSYCH 1000H: General Psychology - Honors
Survey of theories, principles, and methods in the study of human behavior.

Credit Hours: 3
Prerequisites: Honors eligibility required

PSYCH 1003H: Topics in Psychology - Honors - Behavioral Science
Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. This course carries behavioral science distribution credit for non-psychology majors. Repeatable upon consent of department.

Credit Hour: 1-3
Prerequisites: Honors eligibility required. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 1003HW: Topics in Psychology - Behavioral Science - Honors/Writing Intensive
Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. This course carries behavioral science distribution credit for non-psychology majors. Repeatable upon consent of department.

Credit Hour: 1-3
Prerequisites: Honors eligibility required. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 1030: Orientation to the Psychology Major
This course is intended to help students choose the best major for themselves and to provide information on careers available to psychology majors.

Credit Hour: 1

PSYCH 2001: Topics in Psychology-General
Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. This course may not be used toward behavioral science distribution credit. Repeatable upon consent of department.

Credit Hour: 1-99
Prerequisites: May be restricted to Undergraduate Psychology Majors during Early Registration
Recommended: PSYCH 1000

PSYCH 2003: Topics in Psychology-Behavioral Science
Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. This course carries behavioral science distribution credit for non-psychology majors. Repeatable upon consent of department.

Credit Hour: 1-99
Prerequisites: This course may be restricted to Undergraduate Psychology Majors during Early Registration
Recommended: PSYCH 1000

PSYCH 2110: Learning, Memory, and Cognition
Students will gain an understanding of the fundamental principles of learning, memory and cognition, and will be able to recognize important historical figures and their contributions. Students will also learn how the principles can be applied to their everyday lives.

Credit Hours: 3
Prerequisites: This course may be restricted to Undergraduate Psychology Majors during Early Registration
Recommended: PSYCH 1000

PSYCH 2210: Mind, Brain, and Behavior
Introduction to the structures and processes of the mind and the nervous system, including the psychobiology of eating, sleeping, emotion, stress and learning. No credit if taken after PSYCH 4210.

Credit Hours: 3
Honors eligibility required. This course may be restricted to Undergraduate Psychology Majors during Early Registration

Recommended: PSYCH 1000

PSYCH 2220: Drugs and Behavior
Basic principles of drug action on the nervous system; the effects of important psychoactive drugs; drug use and society.

Credit Hours: 3
Prerequisites: This course may be restricted to Undergraduate Psychology Majors during Early Registration
Recommended: PSYCH 1000

PSYCH 2310: Social Psychology
An introduction to how people's thoughts, feelings and behaviors are influenced by the actual or imagined thoughts, feelings and behaviors of others.

Credit Hours: 3
Prerequisites: This course may be restricted to Undergraduate Psychology Majors during Early Registration
Recommended: PSYCH 1000

PSYCH 2320: Introduction to Personality
Personality is the scientific study of individual differences (e.g., traits, motives, abilities). This course reviews historical theoretical perspectives as well as current research. Students will have an opportunity to learn about on their own motives and traits.

Credit Hours: 3
Prerequisites: This course may be restricted to undergraduate psychology majors during Early Registration
Recommended: PSYCH 1000

PSYCH 2410: Developmental Psychology
Origins and development of child behavior, emphasizing basic physical, cognitive, affective and social processes, and theory and research rather than application or guidance. Cannot receive credit for more than one of the following: PSYCH 2410, H_D_FS 2420 or H_D_FS 3420 or ESC_PS 2500.

Credit Hours: 3
Prerequisites: This course may be restricted to Undergraduate Psychology Majors during Early Registration
Recommended: PSYCH 1000

PSYCH 2410H: Developmental Psychology - Honors
Origins and development of child behavior, emphasizing basic physical, cognitive, affective and social processes, and theory and research rather than application or guidance. Cannot receive credit for more than one of the following: PSYCH 2410, H_D_FS 2420 or H_D_FS 3420 or ESC_PS 2500.

Credit Hours: 3
Prerequisites: Honors eligibility required. This course may be restricted to Undergraduate Psychology Majors during Early Registration
Recommended: PSYCH 1000

PSYCH 2510: Survey of Abnormal Psychology
Basic survey of maladaptive human behavior and experience, including personality disorders, alcohol and drug abuse, anxiety and mood disorders, sexual dysfunctions, and thought disorders.

Credit Hours: 3
Prerequisites: This course may be restricted to Undergraduate Psychology Majors during Early Registration
Recommended: PSYCH 1000

PSYCH 2520: Introduction to Addiction Science
This class provides an overview of the scientific study of addiction, focusing on a range of theoretical models and their implications for prevention, intervention and treatment. Graded on A-F basis only.

Credit Hours: 3
Recommended: PSYCH 1000

PSYCH 2810: Human Sexuality
Survey of research on sexual behavior including sex norms, gender identity, sexual dysfunctions, sexual deviation, homosexuality, and legal aspects of sexual behavior. Attendance at small group discussions may be required at the option of the instructor.

Credit Hours: 3
Prerequisites: This course may be restricted to Undergraduate Psychology Majors during Early Registration
Recommended: PSYCH 1000

PSYCH 2820: Minds, Brains, and Machines
(same as LINGST 2820 and PHIL 2820). Cognitive science is a many-splendored thing. It draws on a variety of disciplines, including psychology, neuroscience, computer science, linguistics, anthropology, and philosophy. The purpose of this course is to introduce the central questions of cognitive science, the conceptual and empirical tools used to investigate those questions, and some of the answers that have emerged so far. After an initial overview of the foundations of the cognitive-scientific enterprise as a whole, we will see what particular sectors of it have to say about mental capacities such as language, categorization, reasoning, social cognition, and consciousness.

Credit Hours: 3
Prerequisites: sophmore standing required. May be restricted to Undergraduate Psychology Majors during Early Registration
Recommended: PSYCH 1000

PSYCH 2830: Human-Companion Animal Interaction
Exploration of historical and theoretical bases of human-companion animal interaction (HAI), the nature issues, and clinical applications of HAI. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: sophmore standing required. May be restricted to Undergraduate Psychology Majors during Early Registration
Recommended: PSYCH 1000

PSYCH 2950: Special Problems in Psychology
Research apprenticeship with a faculty member, assisting a faculty member in the development and execution of research. May be repeated to 6 hours maximum.

Credit Hour: 1-99
Prerequisites: instructor's consent
Recommended: PSYCH 1000

PSYCH 3003: Topics in Psychology-Behavioral Science
Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. This course carries behavioral science distribution credit for non-psychology majors. Repeatable upon consent of department.

Credit Hour: 1-99
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 3003H: Topics in Psychology-Behavioral Science - Honors
Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. This course carries behavioral science distribution credit for non-psychology majors. Repeatable upon consent of department.

Credit Hour: 1-99
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration. Honors eligibility required

PSYCH 3003W: Topics in Psychology-Behavioral Science - Writing Intensive
Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. This course carries behavioral science distribution credit for non-psychology majors. Repeatable upon consent of department.

Credit Hour: 1-99
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 3010: Research Methods in Psychology I
Introduction to scientific reasoning, assessing validity and reliability in research, and basic research methods.

Credit Hours: 3
Prerequisites or Corequisites: concurrent enrollment in STAT 1200 or a grade of C or better in STAT 1200 (or its equivalent)
Prerequisites: PSYCH 1000. This course is restricted to psychology majors with sophomore standing and above

PSYCH 3020: Research Methods in Psychology II
Continuation of PSYCH 3010 and required for all further labs in psychology.

Credit Hours: 3
Prerequisites: MATH 1100 with a grade of C- or better or exemption, and PSYCH 1000, and a grade of C or better in PSYCH 3010 and STAT 1200 or exemption. This course is restricted to junior and senior psychology majors

PSYCH 3110: Theories of Learning
Discusses classical issues and theories in learning and conditioning, and considers them in contemporary form.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 3110W: Theories of Learning - Writing Intensive
Discuss classical issues and theories in learning and conditioning, and considers them in contemporary form.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 3130: Decisions, Values and Choice
Survey of factors influencing choices and decisions. Topics include cause and effect decisions, values and ethical considerations, outcome likelihood, biases and heuristics, concept formation, self-control and impulsiveness, and social factors.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 3130H: Decisions, Values and Choice - Honors
Survey of factors influencing choices and decisions. Topics include cause and effect decisions, values and ethical considerations, outcome likelihood, biases and heuristics, concept formation, self-control and impulsiveness, and social factors.

Credit Hours: 3
Prerequisites: PSYCH 1000. Honors eligibility required. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 3140: Cognitive Psychology
A survey of psychological theory and research on human cognition.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 3150: Human Memory
Surveys research on human memory, including basic laboratory studies with normal subjects as well as research on amnesia and other memory impairments, life-span memory development, and the cognitive neuroscience of memory.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 3160: Perception and Thought
Covers research on various aspects of mental life: language, problem-solving, decision-making, sensory perception.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 3310: Intergroup Relations
Provides an overview of the social psychological literature on stereotyping, prejudice, discrimination, and intergroup relations. Students
PSYCH 3350: Positive Psychology
This course introduces students to the science of positive psychology, including its origin and the historical imbalances it addresses within the broader field of psychology. A wide variety of topics are covered, including happiness, materialism, purpose, flow, courage, humility, positive emotions, curiosity, mindfulness, savoring, gratitude, forgiveness, personal strengths, resilience, and compassion. Psychology majors cannot receive credit for both PSYCH 3350 and ESC_PS 4200.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during early registration

PSYCH 3370: The Science of Mindfulness
To gain breadth and depth in understanding the empirical research on mindfulness and contemplative practices. To do well in the course, students must master the substantive content, psychological methodology, APA-style writing, peer-review, and presentation skills. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: PSYCH 1000 and a grade of C or better in PSYCH 3010. This course may be restricted to psychology majors through early registration

PSYCH 3370W: The Science of Mindfulness - Writing Intensive
To gain breadth and depth in understanding the empirical research on mindfulness and contemplative practices. To do well in the course, students must master the substantive content, psychological methodology, APA-style writing, peer-review, and presentation skills. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: PSYCH 1000 and a grade of C or better in PSYCH 3010. This course may be restricted to psychology majors through early registration

PSYCH 3420: Cognitive Development in Childhood
Theories and research on cognitive development in childhood.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 3430: Social Development in Childhood
Overview of children's social and emotional development (infancy-adolescence), includes changes in social domains, impact of social functioning on subsequent development, and influence of interpersonal contexts (e.g., family, peers, community) on children's development.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 3430H: Social Development in Childhood - Honors
Overview of children's social and emotional development (infancy-adolescence), includes changes in social domains, impact of social functioning on subsequent development, and influence of interpersonal contexts (e.g., family, peers, community) on children's development.

Credit Hours: 3
Prerequisites: PSYCH 1000. Honors eligibility required. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 3430W: Social Development in Childhood - Writing Intensive
Overview of children's social and emotional development (infancy-adolescence), includes changes in social domains, impact of social functioning on subsequent development, and influence of interpersonal contexts (e.g., family, peers, community) on children's development.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 3440: Women's Professional Development
This class takes a lifespan developmental perspective in regards to understanding challenges in women's professional development. Topics include: perceptions and stereotypes of successful women, division of labor in families (housework versus paid work), motherhood and the work place, social policies for working parents, girls' and boys' interests in STEM professions, and gender and workplace economics (starting salaries, negotiation, the gender pay gap). Graded on A-F basis only.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to undergraduate psychology majors through early registration

PSYCH 3440H: Women's Professional Development - Honors
This class takes a lifespan developmental perspective in regards to understanding challenges in women's professional development. Topics include: perceptions and stereotypes of successful women, division of labor in families (housework versus paid work), motherhood and the work place, social policies for working parents, girls' and boys' interests in STEM professions, and gender and workplace economics (starting salaries, negotiation, the gender pay gap). Graded on A-F basis only.

Credit Hours: 3
Prerequisites: PSYCH 1000; Honors eligibility required. This course may be restricted to undergraduate psychology majors through early registration

PSYCH 3510: Introduction to Clinical Psychology
Comprehensive survey of the field's historical roots, research methods, concepts of abnormality, assessment and intervention methods; also specialties that constitute clinical psychology.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration
PSYCH 3510W: Introduction to Clinical Psychology - Writing Intensive  
Comprehensive survey of the field's historical roots, research methods, concepts of abnormality, assessment and intervention methods; also specialties that constitute clinical psychology.  
Credit Hours: 3  
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 3815: Cross-Cultural Psychology  
We will adopt a psychological approach to the study of the cross-cultural experience. We will spend our time investigating how culture affects and determines human, behavior, thoughts, emotions and interactions with others.  
Credit Hours: 3  
Prerequisites: PSYCH 1000

PSYCH 3815H: Cross-Cultural Psychology - Honors  
We will adopt a psychological approach to the study of the cross-cultural experience. We will spend our time investigating how culture affects and determines human, behavior, thoughts, emotions and interactions with others.  
Credit Hours: 3  
Prerequisites: PSYCH 1000; Honors eligibility required

PSYCH 3825: Psychology at the Movies  
We will watch, discuss, and interpret films from a psychological-social perspective. Connections will be made between cinematic content and contemporary theory and research in psychology and diversity studies. The focus of this course will be on watching and discussing films, as well as on reading and writing about psychological aspects of film.  
Credit Hours: 3  
Prerequisites: PSYCH 1000

PSYCH 3825H: Psychology at the Movies - Honors  
We will watch, discuss, and interpret films from a psychological-social perspective. Connections will be made between cinematic content and contemporary theory and research in psychology and diversity studies. The focus of this course will be on watching and discussing films, as well as on reading and writing about psychological aspects of film. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: PSYCH 1000; Honors eligibility required

PSYCH 3830: Health Psychology  
A hands-on approach to the study of health psychology including research on a topic of current relevance to the field.  
Credit Hours: 3  
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 3840: Individual Differences  
Surveys individual and group differences. Contributions of various factors to variations in behavior.  
Credit Hours: 3

PSYCH 3860: Law and Psychological Science  
This survey course examines the interactions of law and psychology across the justice system. Emphasis is placed on how psychological research does (and does not) inform important legal issues. Requirements may include an in-class team debate of relevant controversy in law.  
Credit Hours: 3  
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 3870: Sleep and Sleep Disorders  
This course provides a critical review of the current research on both normal sleep and sleep disorders.  
Credit Hours: 3

PSYCH 3880: African-American Psychology  
(Same as BL_STU 3100 and ESC_PS 3100). The research, theories and paradigms developed to understand the attitudes, behaviors and psychosocial realities of African-Americans are discussed. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors through Early Registration

PSYCH 4001: Topics in Psychology-General  
Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. This course may not be used toward behavioral science distribution credit. Repeatable upon consent of department. Enrollment limited to students who have completed PSYCH 1000.  
Credit Hour: 1-99  
Prerequisites: instructor's consent

PSYCH 4003: Topics in Psychology-Behavioral Science  
Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. This course carries behavioral science distribution credit for non-psychology majors. Repeatable upon consent of department.  
Credit Hour: 1-99  
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 4003W: Topics in Psychology-Behavioral Science - Writing Intensive  
Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. This course carries behavioral science distribution credit for non-psychology majors. Repeatable upon consent of department.  
Credit Hour: 1-6  
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration
PSYCH 4010H: Topics in Psychology Capstone - Honors
Students review, evaluate and conduct research on selected topics in psychology. The particular topic will vary by semester and instructor. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Instructor's consent required, honors eligibility required

PSYCH 4010HW: Topics in Psychology Capstone - Honors/ Writing Intensive
Students review, evaluate and conduct research on selected topics in psychology. The particular topic will vary by semester and instructor. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Instructor's consent required, honors eligibility required

PSYCH 4010W: Topics in Psychology Capstone - Writing Intensive
Students review, evaluate and conduct research on selected topics in psychology. The particular topic will vary by semester and instructor. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Instructor's consent required

PSYCH 4110: Perception
(cross-leveled with PSYCH 7110). Data and contemporary theories of perception in all of the senses, with emphasis on visual and auditory perception.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 4210: Physiological Psychology
An introduction to neuroscience with an overview of the relation between the brain and behavior. Topics include intercellular communication, drugs and reward, emotions and stress psychoimmunology, psychopathology, nervous system development and repair, perception, cognition, learning and memory.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 4220: Animal Behavior and Cognition
The purpose of this course is to introduce the basic findings, concepts and principles of animal behavior, associative learning, memory and cognition.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 4240: Cognitive Neuroscience
The neural basis of human information processing in memory, attention, perception, imagery, movement, and language.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 4240: Cognitive Neuroscience
The neural basis of human information processing in memory, attention, perception, imagery, movement, and language.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 4360: Social Cognition
The overarching goal of this course is to provide an overview of current research and theory in social cognition. If there is a running theme to this course, it is in the use of 'top down' processes in how we construct an understanding of the world around us. That is, we use our past experiences and memories to interpret new experiences, people and behavior. This fact does not dictate whether that understanding is accurate or not. However, social psychologists have historically been interested in the ways that this process leads to errors or biases in a vast array of human endeavors. This perspective has had a strong impact on the trajectory of social cognition. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to undergraduate Psychology majors during early registration

PSYCH 4440: Sex Differences
This course covers the evolution of sex differences and hormonal and environmental influences on their expressions in nonhuman species. These insights are used to understand human sex differences in mate choices, emotions, development, brain and cognition, and in modern societies.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 4520: Behavior Genetics
(cross-leveled with PSYCH 7520). The study of genetic influences on behavioral traits such as mood, personality, intelligence, mental health, or activity level.

Credit Hours: 3
Prerequisites: PSYCH 1000; This course may be restricted to Undergraduate Psychology Majors during Early Registration

Recommended: Grade of C or better in PSYCH 3010 and STAT 1200 or higher

PSYCH 4530: Research in Psychopathology
Intensive survey and evaluation of the psychological literature on abnormal behavior, emphasizes experimental and explanatory approaches.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 4540: Emotional Disorders in Childhood and Adolescence
Surveys disturbed behavioral development during childhood and adolescence, emphasizing factors that produce deviation from normal developmental patterns.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

Recommended: PSYCH 2210 and PSYCH 4210

PSYCH 4550: Social Cognition
The overarching goal of this course is to provide an overview of current research and theory in social cognition. If there is a running theme to this course, it is in the use of 'top down' processes in how we construct an understanding of the world around us. That is, we use our past experiences and memories to interpret new experiences, people and behavior. This fact does not dictate whether that understanding is accurate or not. However, social psychologists have historically been interested in the ways that this process leads to errors or biases in a vast array of human endeavors. This perspective has had a strong impact on the trajectory of social cognition. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to undergraduate Psychology majors during early registration
PSYCH 4560: Schizophrenia
This course will examine one of the most severe, debilitating, and complex mental disorders. We will review the major symptoms and clinical features of schizophrenia, explore possible causes of Psychology disorder, and critically assess treatments for the disorder.
Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 4561: Psychosis and the Brain
The goal of this course is to better understand the nature of psychosis that occurs in psychotic disorders such as Schizophrenia and in many other disorders/conditions. The course will take a translational approach to understanding psychosis, focusing on neural mechanisms and their role in behavior. The nature of psychotic symptoms in psychotic disorders, in non-psychotic disorders and in the general population will be examined. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: PSYCH 1000

PSYCH 4570: Pediatric Neuropsychology
Introduction to the field of pediatric neuropsychology and the study of individuals with early brain dysfunction. Common central nervous system disorders of childhood (e.g. autism, ADHD, epilepsy) will be discussed.
Credit Hours: 3
Prerequisites: This course may be restricted to Undergraduate Psychology Majors during Early Registration
Recommended: PSYCH 1000, PSYCH 2210 or PSYCH 4240

PSYCH 4580: Externalizing Spectrum Disorders
The purpose of this course is to provide an overview of the symptoms, etiology, and treatment of psychiatric disorders that fall within the externalizing spectrum, including Attention-Deficit Hyperactivity Disorder, Oppositional Defiant Disorder, Conduct Disorder, Alcohol and other Substance Use Disorders, and Antisocial Personality Disorder. This course will attempt to provide an overview of key issues and topics related to the classification of psychiatric disorders and how research in this area has led to current conceptualizations of the externalizing spectrum. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 4583: Psychology of Women
(same as WGST 4830). Overview of current theories and research relating to the psychology of women. Topics include gender stereotyping, psychological sex differences, achievement motivation in women, and women and mental health.
Credit Hours: 3
Prerequisites: PSYCH 1000

PSYCH 4584: The History of Psychology
(cross-leveled with PSYCH 7840). Historical foundations of contemporary psychology.
Credit Hours: 3

PSYCH 4940: Internship in Psychology
Work experience in an organization that is relevant to the psychology major. Enrollment limited to students who are in good standing and have completed 9 credit hours in psychology. Intended for students with junior or senior standing.
Credit Hour: 3-6
Prerequisites: Instructor's consent required

PSYCH 4940W: Internship in Psychology - Writing Intensive
Work experience in an organization that is relevant to the psychology major. Enrollment limited to students who are in good standing and have completed 9 credit hours in psychology. Intended for students with junior or senior standing.
Credit Hour: 3-6
Prerequisites: Instructor's consent required

PSYCH 4950: Special Problems in Psychology
Independent investigation leading to a project or paper. Repeatable upon consent of department.
Credit Hour: 1-99
Prerequisites: Instructor's consent

PSYCH 4960: Special Readings in Psychology
Independent readings selected in consultation with supervisory faculty member. Repeatable upon consent of department.
Credit Hour: 1-99
Prerequisites: instructor's consent

PSYCH 4970: Developmental Psychology Capstone
Introduces students to developmental research methods through relevant readings and by students conducting original research. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020.
Credit Hours: 3
Prerequisites: consent required

PSYCH 4971: Developmental Psychology Capstone - Writing Intensive
Introduces students to developmental research methods through relevant readings and by students conducting original research. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020.
Credit Hours: 3
Prerequisites: consent required

PSYCH 4971W: Developmental Psychology Capstone - Writing Intensive
Introduces students to developmental research methods through relevant readings and by students conducting original research. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020.
Credit Hours: 3
Prerequisites: consent required

PSYCH 4972: Animal Learning Capstone
Survey of principles of animal behavior and animal learning and cognition. The course includes laboratory projects on research in animal behavior and animal learning. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020.
Credit Hours: 3
**Prerequisites:** Department consent required

**PSYCH 4972W: Animal Learning Capstone - Writing Intensive**
Survey of principles of animal behavior and animal learning and cognition. The course includes laboratory projects on research in animal behavior and animal learning. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020.

**Credit Hours:** 3
**Prerequisites:** consent required

**PSYCH 4973: Human Cognition Capstone**
Students review, evaluate and conduct research on various aspects of human cognition. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020.

**Credit Hours:** 3
**Prerequisites:** Department consent required

**PSYCH 4973W: Human Cognition Capstone - Writing Intensive**
Students review, evaluate and conduct research on various aspects of human cognition. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020.

**Credit Hours:** 3
**Prerequisites:** consent required

**PSYCH 4974W: Psychology of Art Capstone - Writing Intensive**
Students will examine how the psychological processes of sensation and perception influence the experience of beauty - music, cuisine, movies, dance and other artistic endeavors. grade of C better in PSYCH 3020. This course is restricted to psychology majors with senior standing. Consent required.

**Credit Hours:** 3

**PSYCH 4975: Social/Personality Capstone**
Experimental methods course emphasizing research in social psychology. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020.

**Credit Hours:** 3
**Prerequisites:** Consent required

**PSYCH 4975W: Social/Personality Capstone - Writing Intensive**
Experimental methods course emphasizing research in social psychology. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020.

**Credit Hours:** 3
**Prerequisites:** Consent required

**PSYCH 4976: Independent Research Capstone I**
Individual thesis on a topic selected with a faculty advisor. Student projects are carried out over the course of two semesters (with PSYCH 4977H) and presented as posters in a spring conference. Weekly class discussions of student progress. For students who plan to pursue a PhD in Psychology or Neuroscience. Enrollment limited to psychology majors with senior standing, honors eligibility, a cumulative GPA of 3.5, who have taken PSYCH 3020.

**Credit Hours:** 3
**Prerequisites:** Consent required

**PSYCH 4976W: Independent Research Capstone I - Writing Intensive**
Individual thesis on a topic selected with a faculty advisor. Student projects are carried out over the course of two semesters (with PSYCH 4977H) and presented as posters in a spring conference. Weekly class discussions of student progress. For students who plan to pursue a PhD in Psychology or Neuroscience. Enrollment limited to psychology majors with senior standing, honors eligibility, a cumulative GPA of 3.5, who have taken PSYCH 3020.

**Credit Hours:** 3
**Prerequisites:** Consent required

**PSYCH 4976H: Honors Research Capstone I**
Individual thesis on a topic selected with a faculty advisor. Student projects are carried out over the course of two semesters (with PSYCH 4977H) and presented as posters in a spring conference. Weekly class discussions of student progress. For students who plan to pursue a PhD in Psychology or Neuroscience. Enrollment limited to psychology majors with senior standing, honors eligibility, a cumulative GPA of 3.5, who have taken PSYCH 3020.

**Credit Hours:** 3
**Prerequisites:** Consent required

**PSYCH 4976HW: Honors Research Capstone I - Honors/Writing Intensive**
Individual thesis on a topic selected with a faculty advisor. Student projects are carried out over the course of two semesters (with PSYCH 4977HW) and presented as posters in a spring conference. Weekly class discussions of student progress. For students who plan to pursue a PhD in Psychology or Neuroscience. Enrollment limited to psychology majors with senior standing, honors eligibility, a cumulative GPA of 3.5, who have taken PSYCH 3020.

**Credit Hours:** 3
**Prerequisites:** Consent required

**PSYCH 4977: Independent Research Capstone II**
Continuation of PSYCH 4976. Completion of research project, presentation of poster in a spring conference. Weekly class discussions of student progress. Enrollment limited to psychology majors with senior standing who have completed PSYCH 4976.

**Credit Hours:** 3
**Prerequisites:** Consent required

**PSYCH 4977H: Honors Research Capstone II**
Continuation of PSYCH 4976H. Completion of research project, presentation of poster in a spring conference. Weekly class discussions of student progress. Enrollment limited to psychology majors with senior standing, honors eligibility, a cumulative GPA of 3.5, who have completed PSYCH 4976H.

**Credit Hours:** 3
**Prerequisites:** Consent required

**PSYCH 4977HW: Honors Research Capstone II - Honors/Writing Intensive**
Continuation of PSYCH 4976HW. Completion of research project, presentation of poster in a spring conference. Weekly class discussions
of student progress. Enrollment limited to psychology majors with senior standing, honors eligibility, a cumulative GPA of 3.5, who have completed PSYCH 4976HW.

Credit Hours: 3
Prerequisites: Consent required. Honors Eligibility Required

PSYCH 4977W: Independent Research Capstone II - Writing Intensive
Continuation of PSYCH 4976W. Completion of research project, presentation of poster in a spring conference. Weekly class discussions of student progress. Enrollment limited to psychology majors with senior standing who have completed PSYCH 4976W.

Credit Hours: 3
Prerequisites: Consent required

PSYCH 4979: Judgement and Decision Making Capstone
This course examines the psychology of human judgement and decision-making. We will discuss major theories, methods and basic experimental findings and identify how those findings are being used to develop public policy or in applied settings.

Credit Hours: 3
Prerequisites: grade of C or better in PSYCH 2030; This course is restricted to psychology majors with senior standing. Consent required

PSYCH 4979W: Judgement and Decision Making Capstone - Writing Intensive
This course examines the psychology of human judgement and decision-making. We will discuss major theories, methods and basic experimental findings and identify how those findings are being used to develop public policy or in applied settings.

Credit Hours: 3
Prerequisites: grade of C or better in PSYCH 2030; This course is restricted to psychology majors with senior standing. Consent required

PSYCH 4980: Human Relationships Capstone
Students design a study, collect data, and describe their research on some aspect of human relationships. Emphasis on survey research techniques. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020.

Credit Hours: 3
Prerequisites: Department consent required

PSYCH 4980W: Human Relationships Capstone - Writing Intensive
Students design a study, collect data, and describe their research on some aspect of human relationships. Emphasis on survey research techniques. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020.

Credit Hours: 3
Prerequisites: Department consent required

PSYCH 4981: Advanced Developmental Psychology Capstone I
Students propose a study to be conducted with preschool children. The course teaches skills needed to develop research questions, develop a coding system, and write a research proposal that reviews past literature in a way that makes the case for the importance of the project. Graded on A-F basis only. Enrollment limited to psychology majors with senior standing and a grade of C or better in PSYCH 3020.

Credit Hours: 3
Prerequisites: Consent required

PSYCH 4981W: Advanced Developmental Psychology Capstone I - Writing Intensive
Students propose a study to be conducted with preschool children. The course teaches skills needed to develop research questions, develop a coding system, and write a research proposal that reviews past literature in a way that makes the case for the importance of the project. Graded on A-F basis only. Enrollment limited to psychology majors with senior standing and a grade of C or better in PSYCH 3020.

Credit Hours: 3
Prerequisites: Department consent required

PSYCH 4982: Advanced Developmental Psychology II
Students conduct a research project involving observations of preschool children. The course teaches skills needed to collect data, analyze data, and write a research report. These skills provide excellent preparation for graduate school in psychology or a related field. Graded on A-F basis only. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020.

Credit Hours: 3
Prerequisites: Department consent required

PSYCH 4982W: Advanced Developmental Psychology II - Writing Intensive
Students conduct a research project involving observations of preschool children. The course teaches skills needed to collect data, analyze data, and write a research report. These skills provide excellent preparation for graduate school in psychology or a related field. Graded on A-F basis only. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020.

Credit Hours: 3
Prerequisites: Department consent required

PSYCH 4983W: Consumer Psychology Capstone - Writing Intensive
This course examines numerous social and psychological issues related to the area of consumer psychology. The course begins by examining how media exposure influences consumption, prejudice in marketing and advertising, and the question of whether children should be targets of marketing strategies. The second section examines how consumption can be influenced by unconscious and automatic factors. The third section examines unhealthy forms of consumption and consumption's relationship to well being. The fourth section focuses on ethical and social responsibility issues like consumption's impact on the environment and the voluntary simplicity movement. The last section of the course is devoted to student presentations of term papers. Graded on A-F basis only. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020.

Credit Hours: 3
Prerequisites: Consent required
PSYCH 4984W: Promoting Social Justice, Diversity, and Inclusion Capstone - Writing Intensive
This course is an advanced exploration of diversity and social justice in the United States and provides students with a framework for understanding specific forms and the interlocking systems of oppression; a process to explore how oppression affects our lives; a pedagogical framework for teaching and training about concepts of oppression and diversity; and an application of these ideologies and skills in community settings. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Department Consent required

PSYCH 4985: Health Psychology Capstone
The objectives of this course are to understand the psychosocial processes that influence health and health care delivery. Topics to be examined are the psychophysiological and sociocultural bases of health and illness; pain and healing; adaptation to chronic illness; stress; personality and illness; death, dying, and grief; substance use; health-promoting behaviors; patient adherence; physician-patient communication; and using health care. Graded on A-F only. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020.
Credit Hours: 3
Prerequisites: Department consent required

PSYCH 4986: Perception and Action Capstone
Together we will explore how the brain creates our conscious experience of, and controls our actions in, the world. A variety of weekly assignments will challenge you to improve your written communication skills. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Departmental consent required

PSYCH 4986W: Perception and Action Capstone - Writing Intensive
Together we will explore how the brain creates our conscious experience of, and controls our actions in, the world. A variety of weekly assignments will challenge you to improve your written communication skills. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Departmental consent required

PSYCH 4987: Cross-Cultural Psychology Capstone
This course adopts a psychological approach to the study of the cross-cultural experience. It will investigate how culture affects and determines human behavior, thoughts, emotions, and interactions. Graded on A-F basis only. Enrollment is limited to senior Psychology majors who have completed PSYCH 1000; PSYCH 3020 with a grade of C or better.
Credit Hours: 3
Prerequisites: departmental consent

PSYCH 4987H: Cross-Cultural Psychology Capstone - Honors
This course will adopt a psychological approach to the study of the cross-cultural experience. It will investigate how culture affects and determines human behavior, thoughts, emotions, and interactions with others. Students will be part of public scholarship and have opportunities for public presentations of projects. Graded on A-F basis only. Enrollment is limited to senior Psychology majors who have completed PSYCH 1000; PSYCH 3020 with a grade of C or better; honors eligibility required.
Credit Hours: 3
Prerequisites: departmental consent

PSYCH 4987W: Cross-Cultural Psychology Capstone - Writing Intensive
This course adopts a psychological approach to the study of the cross-cultural experience. It will investigate how culture affects and determines human behavior, thoughts, emotions, and interactions. Graded on A-F basis only. Enrollment is limited to senior Psychology majors who have completed PSYCH 1000; PSYCH 3020 with a grade of C or better.
Credit Hours: 3
Prerequisites: departmental consent

PSYCH 4988: Medical Decision Making Capstone
Students will learn how patients make decisions about their own healthcare and how doctors make diagnostic and treatment decisions for their patients. Enrollment is limited to senior Psychology majors who have completed PSYCH 1000; PSYCH 3020 with a grade of C or better. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Department Consent

PSYCH 4988W: Medical Decision Making Capstone - Writing Intensive
Students will learn how patients make decisions about their own healthcare and how doctors make diagnostic and treatment decisions for their patients. Enrollment is limited to senior Psychology majors who have completed PSYCH 1000; PSYCH 3020 with a grade of C or better. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Department Consent

PSYCH 7085: Problems in Psychology
Advanced studies to meet needs of individual student. Graded on S/U basis only.
Credit Hour: 1-99
Prerequisites: instructor's consent

PSYCH 7110: Perception
(cross-leveled with PSYCH 4110). Data and contemporary theories of perception in all of the senses, with emphasis on visual and auditory perception.
Credit Hours: 3

</tbody>
</table>
PSYCH 9320: Social Psychology Methodology
Advanced study of experimental methods in social psychological research.
Credit Hours: 3
Prerequisites: instructor's consent

PSYCH 9330: Field Research Methods
Advanced course in research methods and designs commonly used in field settings; theoretical, ethical, and pragmatic issues that arise in field settings are considered; emphasis is on learning and skill acquisition through a series of hands-on assignments.
Credit Hours: 3
Prerequisites: instructor’s consent

PSYCH 9350: Studies in Social Psychology
Critical coverage of selected research and theory in social psychology.
Credit Hour: 1-99
Prerequisites: instructor's consent, departmental consent for repetition

PSYCH 9360: Seminar in Social Psychology
Intensive review of concepts and theories of social psychology; emphasizes readings from primary sources. Ph.D. candidates only. Required for all Ph.D. candidates in social psychology program. Graded on S/U basis only.
Credit Hour: 1
Prerequisites: instructor's consent

PSYCH 9365: Positive Psychology
This seminar will discuss and critique modern research in positive psychology. Each chapter of the textbook provides overviews of positive psychology research topics at various levels of analysis, while providing suggestions for further research. Graded on A-F basis only.
Credit Hours: 3

PSYCH 9440: Studies in Developmental Psychology
Covers contemporary research and professional topics in developmental psychology. Graded on S/U basis only.
Credit Hour: 1-99
Prerequisites: instructor’s consent

PSYCH 9460: Studies in Evolution and Behavior
Reading and discussion of classic and contemporary works in evolution.
Credit Hour: 1
Prerequisites: instructor’s consent

PSYCH 9470: Women’s Professional Development
This class takes a lifespan developmental perspective in regards to understanding challenges in women’s professional development. Topics include: perceptions and stereotypes of successful women, division of labor in families (housework versus paid work), motherhood and the work place, social policies for working parents, girls’ and boys’ interests in STEM professions, and gender and workplace economics (starting salaries, negotiation, the gender pay gap). Graded on A-F basis only.
Credit Hours: 3

PSYCH 9510: Studies in Clinical Psychology
Contemporary research and theory for advanced graduate students in clinical psychology. Graded on S/U basis only.
Credit Hour: 1-99
Prerequisites: instructor’s consent, departmental consent for repetition

PSYCH 9515: Orientations in Psychotherapy
The introductory psychotherapy course for students in the clinical psychology doctoral program. The focus of the course is on development of knowledge and skills in the following four areas: (1) Theory and practice of contemporary (brief) psychotherapy; (2) Basic interviewing skills; (3) Psychotherapy research and empirically supported treatments; and (4) The role and impact of managed care in contemporary psychotherapy.
Credit Hours: 3
Prerequisites: instructor's consent

PSYCH 9520: Psychometrics
Introduction to concepts and issues essential to psychological assessment including psychometrics, test construction, controversies in psychological testing, behavioral assessment, and structured interviewing.
Credit Hours: 3
Prerequisites: instructor’s consent

PSYCH 9525: Orientations to Clinical Assessment
Topics include psychometric principles, intelligence testing, objective and projective personality testing and behavioral assessment.
Credit Hours: 3
Prerequisites: PSYCH 9520 and instructor's consent

PSYCH 9530: Clinical Child Assessment
Introduction to clinical instruments, techniques and problems in the psychological assessment of children.
Credit Hours: 3
Prerequisites: instructor’s consent

PSYCH 9540: Ethical and Professional Issues II
Legal issues, state and national codes, ethical decision-making, dangerousness, ethical clinical treatment issues, mandated reporting, and ethics in specialized clinical settings. This course is the second in a sequence for clinical psychology doctoral students.
Credit Hours: 3
Prerequisites: instructor’s consent

PSYCH 9545: Clinical Practicum
Intensive supervised training in use and interpretation of psychological techniques and in psychotherapy. Graded on S/U basis only.
Credit Hour: 1-99
Prerequisites: instructor's consent and professional liability insurance
PSYCH 9550: Clinical Intervention with Children
Introduction to theory, research and practice in the area of behavior change with children and adolescents.
Credit Hours: 3
Prerequisites: instructor's consent

PSYCH 9560: Family and Group Process
Theory, intervention, and research in the areas of family and group dynamics. Emphasis on family therapy approaches.
Credit Hours: 3
Prerequisites: instructor's consent

PSYCH 9575: Clinical Research Methods
Focus on research design with emphasis on active critique of methodological challenges (e.g., subject selection, control groups, multimodal measures, and treatment issues), includes lecture and active review or research.
Credit Hours: 3
Prerequisites: instructor's consent

PSYCH 9585: Introduction to Alcohol Studies
Intensive seminar on alcohol research primarily intended for alcohol research training fellows. Covers a range of topics of interest to psychologist, including pharmacology, research methods, genetics, diagnosis, expectancies, and treatment.
Credit Hours: 3
Prerequisites: instructor's consent

PSYCH 9710: Multivariate Statistics in Psychology
Multivariate statistical methods, including multivariate analysis of variance, discriminant analysis, principal component analysis, and elements of matrix algebra, as applied to problems in psychology.
Credit Hours: 3
Prerequisites: PSYCH 8710 and PSYCH 8720; instructor's consent

PSYCH 9715: Multilevel Modeling
Introduction to random coefficient multilevel modeling of clustered data. Topics include two- and three-level models, estimation techniques, computing options, model fitting issues, advanced model applications, and growth modeling.
Credit Hours: 3
Prerequisites: instructor's consent, a graduate course in regression analysis

PSYCH 9720: Latent Variable Models in Statistical Analysis
Covers Matrix Algebra fundamentals, Factor Rotation, Communality Estimation techniques, High Order and Dynamic Factor Models, Path Analysis, Use of computer programs.
Credit Hours: 3
Prerequisites: instructor's consent and PSYCH 8720

PSYCH 9735: Psychological Process Models
Examines mathematical and statistical models of cognition and perception. Emphasis on modeling basics such as estimation, hypothesis testing, and assessment of fit.
Credit Hours: 3
Prerequisites: PSYCH 8710 and PSYCH 8720 or instructor's consent

PSYCH 9750: Advanced Structural Equation Modeling
Growth Mixture Models, Dynamic Factor models, and nonlinear structural models.
Credit Hours: 3
Prerequisites: PSYCH 8710 or departmental consent

PSYCH 9755: Quantitative Psychology Seminar
Quantitative Psychology Topics Seminar. Graded on S/U basis only.
Credit Hour: 1
Prerequisites: departmental consent required

PSYCH 9760: Categorical Data Analysis
This course will provide an applied introduction to the most important methods for analyzing categorical data. Topics include: logistic regression modeling, Poisson regression modeling, multinomial sampling, and classic analysis of contingency tables.
Credit Hours: 3
Prerequisites: PSYCH 8710 and PSYCH 8720; instructor's consent

PSYCH 9765: Cluster Analysis and Network Analysis
The course covers traditional and modern clustering techniques (hierarchical, partitioning, and mixture modeling), both from an algorithmic and modeling perspective. Several types of data types are explored, including traditional two-mode data sets and network structures.
Credit Hours: 3
Prerequisites: instructor's consent required

PSYCH 9780: Item Response Theory I
Introduction to item response theory, including classical test theory, popular item response models, model estimation, software considerations, and application. Graded on A-F basis only.
Credit Hours: 3
Corequisites: PSYCH 8710

PSYCH 9910: Teaching of Psychology Practicum
Focuses on development and enhancement of teaching skills for graduate students in psychology who are primary instructors of undergraduate psychology courses. Graded on a S/U basis only.
Credit Hour: 1-99
Prerequisites: instructor's consent

PSYCH 9920: Advanced History of Psychology
Advanced course in history of psychology designed to show how general philosophical models of mind and behavior have been linked to doctrines of mental health and pathology and to theories of social behavior.
Credit Hours: 3
Prerequisites: instructor's consent
Public Affairs Courses

**PUB_AF 1000: Principles of Public Policy Administration**
This course introduces students to the basics of public administration and policy implementation. It focuses on what happens after public policy is passed. Students will learn how actors within and outside of government influence the administrative aspects of public policy, what motivates and influences the decision making of the individuals within the administrative state, and how non-government organizations are often tasked with administering public services. By the end of the course, students will be able to understand what makes for successful or unsuccessful implementation of public policy by public (and non-government) organizations. Graded on A-F basis only.

**Credit Hours:** 3

**PUB_AF 4001: Topics in Public Affairs**
Selected topics in public affairs.

**Credit Hours:** 3

**PUB_AF 4175: Early Childhood Policy**
(cross-leveled with PUB_AF 7175). This course explores early childhood development issues and their impacts on policy formation. We will study a range of family situations in the United States and other countries (e.g., maternal employment and job policies, divorce, child abuse and neglect) that may be of concern for child policy analysts and policy makers. Additionally, we will examine the effects of different early childhood programs in the United States and other countries using both qualitative and quantitative criteria. This course is applied in focus; as such, by the end of the semester, students should expect to understand policy analysis and the trade-offs of implementing policy choices, as well as being able to develop analytical skills for early childhood and family policies. Graded on A-F basis only.

**Credit Hours:** 3

**PUB_AF 3430: Regional and Economic Development Policy**
(cross-leveled with PUB_AF 7340). Presents an overview of historical perspectives and current practice in regional development policy. Topics include the major theories of economic development in the U.S., major trends affecting local economic development, local strategies for economic development, analyzing data from secondary sources, and federal strategies for economic development and regional collaboration. Graded on A-F basis only.

**Credit Hours:** 3

**PUB_AF 4540: Local Government Management**
(cross-leveled with PUB_AF 7540). Organization and division of service responsibility within local governments. Problems of managing delivery of services with special emphasis upon program implementation, productivity, planning, responsiveness. Graded on A-F basis only.

**Credit Hours:** 3

**PUB_AF 4700: Social Entrepreneurship**
(cross-leveled with PUB_AF 7700). This course will help illustrate social entrepreneurship in a broad sense and understand how it differs from entrepreneurship as understood in the private sector, social innovation and social enterprise. Graded on A-F basis only.

**Credit Hours:** 3

**PUB_AF 7001: Topics in Public Affairs**
Select current topics in public affairs. Graded on A-F basis only.

**Credit Hours:** 3

**Prerequisites:** consent required

**PUB_AF 7175: Early Childhood Policy**
(cross-leveled with PUB_AF 4175). This course provides an understanding of early childhood development issues and their impact on policy formation. Will study different family situations in the US and other countries (e.g. maternal employment and job policies, divorce, child abuse and neglect) that may be a concern for child policy makers and analysis. In addition we are going to examine the effects of different early childhood programs in the US and other countries around the world. Also, US federal regulations that have an impact on child policy, such as the National Health Policy and Welfare reform will be examined. Will use both qualitative and quantitative criteria to analyze these policies. This course is applied in focus, so by the end of the semester students should be able to understand policy analysis and the trade-offs of implementing policy choices, as well as being able to develop analytical skills for early childhood and family policies in their work. Graded on A-F basis only.

**Credit Hours:** 3

**PUB_AF 7330: Scientific and Technological Aspects Terrorism and Counter Terrorism**
(same as NU_ENG 7330). Terrorism has been a familiar tool of political conflict, and it has assumed greater importance during the past twenty years. This subject has been treated by political scientists in various forms, but the scientific and technological aspects of different forms of terrorism cannot be found in a single place. It is important for persons who propose counter measures to understand the basics of different types of terrorism such as for instance the nature of chemical agents, their properties such as toxicity, etc. in order to build better defense systems.

**Credit Hours:** 3

**PUB_AF 7340: Regional and Economic Development Policy**
(cross-leveled with PUB_AF 4340). Presents an overview of historical perspectives and current practice in regional development policy. Topics include the major theories of economic development in the U.S., major trends affecting local economic development, local strategies for economic development, analyzing data from secondary sources, and federal strategies for economic development and regional collaboration. Graded on A-F basis only.

**Credit Hours:** 3

**PUB_AF 7540: Local Government Management**
(cross-leveled with PUB_AF 4540). Organization and division of service responsibility within local governments. Problems of managing delivery
of services with special emphasis upon program implementation, productivity, planning, responsiveness. Graded on A-F basis.

Credit Hours: 3

PUB_AF 7700: Social Entrepreneurship
(cross-leveled with PUB_AF 4700). This course will help illustrate social entrepreneurship in a broad sense and understand how it differs from entrepreneurship as understood in the private sector, social innovation and social enterprise. Graded on A-F basis only.

Credit Hours: 3

PUB_AF 7810: Comparative and Global Governance
This course examines governance and the policy process at the international. Course topics include differences in political regimes, the structure and powers of institutions and the effect on quality of governance, roles of multi-national and non-governmental organizations in coordinating efforts to promote peace and security, human rights, education, health, and economic development. The course also examines the situations within the world's poorest countries and how the international community act to improve the lives of citizens. Graded on A-F basis only.

Credit Hours: 3

PUB_AF 8001: Topics in Public Affairs
Select current topics in public affairs.

Credit Hours: 3

Prerequisites: instructor's consent

PUB_AF 8085: Problems in Public Affairs
Intensive study of an area of public affairs related to the student's special interest.

Credit Hour: 1-99

PUB_AF 8110: Introduction to Public and Nonprofit Management
This course introduces students to the field of public and nonprofit management. It examines the histories of public and nonprofit management in the US and provides students with the knowledge of some subfields. Graded on A-F basis only.

Credit Hours: 3

PUB_AF 8150: Collaborative Governance
Political, economic, and social context of government and public service; examines theories and models of collaborative governance and implications for policy-making, public management, and public service delivery. Graded on A-F basis only.

Credit Hours: 3

PUB_AF 8160: Organizational Dynamics and Leadership
Focuses on understanding human action in administrative situations and on developing personal capacities for effective action in varied and difficult organizational situations. Graded on A-F basis only.

Credit Hours: 3

PUB_AF 8170: Public Policy Processes and Strategies
Processes through which public demands are generated, converted into public policy, and implemented. Examines the intersection of politics, policy, and management as well as the diverse strategies and tools of public action. Graded on A-F basis.

Credit Hours: 3

PUB_AF 8171: Environmental Policy
This course is an introduction to U.S. environmental policy, focusing on important political institutions and political actors. The course provides a survey of the primary laws, regulations, and policies that comprise pollution control and natural resource management policy.

Credit Hours: 3

PUB_AF 8174: Social Policy
This seminar will examine the nature and extent of poverty in the U.S., its causes and consequences, and the antipoverty effects of existing and proposed government programs and policies.

Credit Hours: 3

PUB_AF 8177: Energy Economics
The course examines economic theory and empirical analyses of global energy supply and demand. It examines the role of non-renewable and renewable energy in the economy and trends in energy production and consumption. Graded on A-F basis only.

Credit Hours: 3

Recommended: Principles of Economics, Instructor's permission

PUB_AF 8178: Sustainable Energy Policy
This course examines the concept of sustainability as it applies to energy production and consumption, and explores policy options for achieving sustainable energy use.

Credit Hours: 3

Recommended: Principles of Economics, Instructor's permission

PUB_AF 8180: Research Methods and Inquiry in Public Affairs I
Introduction to research methods for graduate students in public affairs. Topics include measurement, quantitative description, problem definition, the policy research process, and basic analytical tools commonly applied in public affairs. Graded on A-F basis only.

Credit Hours: 3

Prerequisites: PUB_AF 8177

PUB_AF 8181: Research Methods and Inquiry in Public Affairs II
Advanced topics and applications in research methods for public affairs. Topics include: multivariate analysis and other advanced quantitative techniques; evaluation of policy research products.

Credit Hours: 3

Prerequisites: PUB_AF 8180 or permission of instructor

PUB_AF 8185: Research Methods and Inquiry in Public Affairs - Mid Career
Applications in research methods for graduate students in public affairs mid-career program. Topics include: measurement; quantitative
description; problem definition; the policy research processes; basic analytical tools commonly applied in public affairs; multivariate analysis and other advanced quantitative techniques; evaluation of policy research products. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: instructor's consent

PUB_AF 8190: Economic Analysis for Public Affairs
Application of tools of economic analysis to understand and interpret the behavior of government, consumers and producers. Sources of economic inefficiency, including market failures and limitations, and policy solutions. Graded on A-F basis only.

Credit Hours: 3

PUB_AF 8195: Economic Analysis for Public Policy - Mid Career
Application of tools of economic analysis to understand and interpret the behavior of government, consumers and producers. Sources of economic inefficiency, including market failures and limitations, and policy solutions.

Credit Hours: 3
Prerequisites: instructor's consent

PUB_AF 8210: Public Service and Democracy
This course examines some of the challenges of public service in a liberal democracy. It addresses basic questions about the design of institutions through which public power is exercised and about the ethical and administrative obligations of people who work within those institutions. The aim of the course is to provide students with tools for thinking about such questions, and practice addressing them. Graded on A-F basis only.

Credit Hours: 3

PUB_AF 8211: MPA Capstone (Applied Project)
Application of concepts and methods of public affairs to actual policy or management problems. Diagnosis of problem or decision situation, collection of relevant data, development of alternative solutions, recommendations of proposed course of action.

Credit Hours: 3

PUB_AF 8280: Public Affairs Internship
Gives students an opportunity to gain experience in government operations by providing supervised work with an agency at the local, state, or federal level of government or in nonprofit agencies. Graded on A-F basis.

Credit Hours: 3

PUB_AF 8282: Practicum in Public Affairs
Supervised field experience in an approved community, public agency, or nonprofit organizations. Opportunity for observation and participation under the guidance of a qualified advisor. Formal study of advanced theories and techniques is integrated into the student's experience. Graded on A-F basis only.

Credit Hour: 3-6
Prerequisites: advanced standing and instructor's consent required

PUB_AF 8320: Spatial Analysis for Public Affairs
Examines theoretical and empirical issues related to the spatial analysis of economic activity and local public issues. Major topics include the role of the public sector, the economics of public services, social accounting matrices, input-output analysis, econometric models of regional economies, and geographic information systems. Graded on A-F basis only.

Credit Hours: 3

PUB_AF 8350: Regional Development Issues and Analysis
(same as AAE 8350). Examines theories of regional growth and development and methods for analysis with applications to current policy issues. Topics include firm location, new economic geography and agglomeration theory, clusters, human capital, migration, social capital, tax and development incentives, and sustainable regional development. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ECONOM 7351 or PUB_AF 8190 or equivalent

PUB_AF 8420: Public Program Evaluation
Covers implementation and outcome evaluation models, research design strategies, and data collection methods used to assess the effectiveness of public programs and means of their improvement. Graded on A/F basis only.

Credit Hours: 3
Prerequisites: PUB_AF 8181 or equivalent

PUB_AF 8430: Public Policy Analysis
Uses economic logic and statistical techniques to design, analyze and evaluate public policy. Applies social choice theory, cost/benefit analysis, forecasting, regression analysis, trend analysis, time series methods, and other analytic techniques to policy decision. Graded on A-F basis.

Credit Hours: 3
Prerequisites: PUB_AF 8181 and PUB_AF 8190 or equivalent, or permission of instructor

PUB_AF 8510: Public Budgeting and Taxation
Intensive study of the institutions, processes, politics, and social and economic impact of public taxation and expenditures.

Credit Hours: 3

PUB_AF 8520: Human Resources Management and Development in Public and Nonprofit Sector
Examines the political, economic, and legal context of the personnel function, as well as the technical aspects of the personnel administrator's job. Stresses the dynamics of bureaucratic organizations. Graded on A-F basis only.

Credit Hours: 3

PUB_AF 8530: Strategic Management of Public Service Organizations: People, Information and Money
Presents the rationale for strategic planning, and techniques and processes to develop and implement strategic planning in the public sector. Graded on A-F basis only.

Credit Hours: 3
PUB_AF 8610: Group Dynamics and Conflict Resolution  
Focuses on the study of group psychology in the context of communities and organizations. It provides a specific examination of the emergence and resolution of conflict. Graded on A-F basis only.  
Credit Hours: 3

PUB_AF 8620: Organizational Analysis and Change  
Investigates processes and methodologies of organizational diagnosis, intervention strategies, and the role of a change agent. Graded on A-F basis.  
Credit Hours: 3

PUB_AF 8630: Organizational Change in a Community and Global Context  
Examines changing organizations in their task environments, which include communities and the global economy. The phenomenon of ambiguous boundaries between public and private as well as nonprofit sectors will be investigated as these profound changes impact organizational behavior. Graded on A-F basis only.  
Credit Hours: 3

PUB_AF 8710: The Nonprofit and Voluntary Sector  
Provides an overview of the history, function, size, scope, development, and management of the nonprofit sector. Historical, political, economic, and social perspectives are used to examine the meaning of voluntarism, charity, philanthropy, and the nonprofit sector. Graded on A-F basis.  
Credit Hours: 3

PUB_AF 8720: Budgeting and Financial Management in the Nonprofit Sector  
Credit Hours: 3

PUB_AF 8830: Grant Writing I  
Provides students with knowledge regarding the process of seeking grant funding. Students will work in small groups to complete a letter proposal. They will experience the peer review process both as applicant and reviewer. Graded on A-F basis only.  
Credit Hours: 3

PUB_AF 8831: Grant Writing II  
Provides students with knowledge regarding the process of seeking grant funding. Students will work in small groups to complete a full-blown state or federal grant proposal. They will experience the peer review process both as applicant and reviewer. The course will cover a variety of funding sources and a range of funding types to provide students with an information base for preparing future grant applications.  
Credit Hours: 3  
Prerequisites: PUB_AF 8830

PUB_AF 8832: Sponsor Relationships  
Provides students with knowledge of the landscape and culture of grant seeking with an emphasis on understanding how private and public sector sponsors are in many ways, significantly different enterprises. Students will gain an understanding of the pivotal role relationships play in grant seeking and gain an appreciation of the particularities and rigors of both public and private grant seeking.  
Credit Hours: 3  
Prerequisites: Proposed Grant Writing 2 course

PUB_AF 8833: Grant Award Management  
Provides students with knowledge regarding the process and policies entailed in managing grant awards. Course content includes federal OMB circulars, basic human resource issues, project management strategies, reporting obligations, and project close-out.  
Credit Hours: 3  
Prerequisites: Proposed Grant Writing 2 course

PUB_AF 8850: Policies and Institutions of the European Union  
Policies and Institutions of the European Union  
Credit Hours: 3

PUB_AF 8860: International Comparative Rural Policy  
(same as AAE 8860, NAT_R 8860). Compares the rural policy objectives and implementation strategies of various countries, and assesses these policies in terms of economic, social, environmental outcomes and their implications for international relations. Includes 2-weeks of study Abroad. May be repeated for credit. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: instructor's consent

PUB_AF 8864: Administrative Law  
(same as LAW 5310). Administrative Law is concerned with the process government agencies use to make decisions. As such it develops the requirements for establishing rules and policies. It also covers the means by which agencies enforce regulations and statutory provisions, and the means for securing judicial review of rules and enforcement actions. Graded on A-F basis only.  
Credit Hours: 3

PUB_AF 9000: Directed Individual Study  
Supervised readings and research in area of doctoral specialization. Student must submit formal written proposal to doctoral supervising faculty member prior to registration. May be repeated up to 6 hours.  
Credit Hours: 3  
Prerequisites: PhD standing or permission of instructor

PUB_AF 9090: Dissertation  
Independent research for Ph.D. dissertation. Graded on S/U basis only.  
Credit Hour: 1-99  
Prerequisites: PhD standing or permission of instructor
PUB_AF 9150: Governance and Public Affairs
Examines theories of governance, the role of the state and other social institutions. Other topics include administrative reform, the new public management, and the emergence of the multi-sector public service. International comparative dimensions emphasized. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: PUB_AF 8150, PhD standing or permission of professor

PUB_AF 9160: Organization Studies in Public Affairs
Examines theories of public and nonprofit organizations, including classical and contemporary perspectives in organization science; individual and group behavior; leadership, power and influence; organization design and structure; and organizational culture. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: PhD standing or permission of instructor

PUB_AF 9170: Policy Theory
This seminar examines theories on the policy process, institutions, and delegation of power that influence public policy. Topics covered may include agenda setting, policy design, implementation, legislative decision-making, state political institutions, and federalism. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: PhD standing or permission of instructor

PUB_AF 9180: Advanced Research Methods for Public Affairs I
Focuses on multiple regression analysis, the implications and treatment of serial correlation, heteroskedasticity, multicollinearity, specification error, and measurement error. Students estimate models, use diagnostic information, and interpret and present findings for public affairs. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: PUB_AF 8180 or equivalent, PhD standing or permission of instructor

PUB_AF 9181: Advanced Research Methods for Public Affairs II
The seminar examines statistical modeling tools for limited dependent variables and complex data situations, such as time-series cross-sectional data, clustered observations, and multilevel data. Other topics include simultaneous equation models and instrument variable in public affairs. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: PUB_AF 8180 or equivalent, PhD standing or permission of instructor

PUB_AF 9182: Logics of Inquiry in Public Affairs
This course examines the philosophical foundations of social inquiry public affairs. Topics include investigation of epistemological and methodological issues in development and use of social research, and exploration of the theoretical underpinnings of multiple paradigms in public affairs. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: PhD standing or permission of instructor

PUB_AF 9183: Public Affairs Research and Professional Development Seminar
Research and professional development through participation in research seminars, colloquia, academic conferences, lectures, and professional workshops. Students required to register every spring semester in residence. Graded on S/U basis only.
Credit Hour: 1
Prerequisites: PhD standing or permission of instructor

PUB_AF 9185: Supervised Research
Research experience directed by major professor designed to prepare doctoral students for independent scholarship in area of doctoral specialization.
Credit Hours: 3
Prerequisites: PUB_AF 8150, PhD standing or permission of instructor

PUB_AF 9446: Advanced Empirical Methods
(same as ECONOM 9446). Empirical and modeling techniques for evaluation of microeconomic policy questions. Graded A-F only.
Credit Hours: 3
Prerequisites: Instructors consent or PUB_AF 8181, PUB_AF 9180, and PUB_AF 9181

PUB_AF 9447: Topics in Microeconomic Policy Analysis
(same as ECONOM 9447). Applies the methods and techniques of microeconomics and to specific timely policy questions. Taught by applied-microeconomics faculty and focuses on current topics in labor economics, public economics, the economics of education, health economics, and other applied areas of microeconomics. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Instructor's consent
Recommended: PUB_AF 8181, PUB_AF 9180 and PUB_AF 9181

Public Health Courses
P_HLTH 1000: Introduction to Public Health
Acquaints students with the Public Health profession including educational preparation, public health careers, current issues, trends, and research.
Credit Hour: 1

P_HLTH 2050: Gender and Public Health
Addresses issues of gender and public health in the US and abroad. Considers how race, class, gender, sexuality, and geopolitical context may impact health. May focus on specific health issues. May be repeated for credit (up to 6 hours) with different semester themes.
Credit Hours: 3

P_HLTH 2200: Introduction to Public Health and Health Promotion
Public Health is the science and practice of protecting and improving the health of communities through education, promotion of healthy lifestyles, and research for disease and injury prevention. It is an exciting, dynamic, interactive, and collaborative field, which encompasses many disciplines.
P_HLTH 2200 focuses on the basic tenets of public health, and the basic structures of the US public health system. We will concentrate on the core domains of public health, which include epidemiology, biostatistics, behavioral science/health education, environmental science, disaster preparedness, and health policy. In this course, you will be challenged to consider the complex web of factors that determine and affect health status. Graded on A-F basis only.

Credit Hours: 3

P_HLTH 3300: Public Health Principles, Practice, and Education
(same as HLTH_SCI 3300). Public Health is the science and practice of protecting and improving the health of communities through education, promotion of healthy lifestyles, and research for disease and injury prevention. This course focuses on the basic structures of the Public Health system in the U.S. and provides an introduction to the factors that influence and shape that system. Among others, factors include socioeconomic, financing, politics and global issues. Students in this course will be challenged to consider the complex web of factors affecting the health of communities. The course will explore: health needs assessments, examining relationships among behavioral, environmental and genetic factors that enhance or compromise health, examining factors that influence the learning process, and examining factors that enhance or compromise the process of health education. Graded on an A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Public Health Majors during pre-registration

P_HLTH 3310: Social and Behavioral Health Theory and Practice
(same as HLTH_SCI 3310). Social and Behavioral Health (SBH) is the core discipline of public health that focuses on the factors that influence individuals’ and communities health actions and decisions. This course will take both a theoretical and a practical approach to understanding SBH. Students will gain an understanding of theory and develop practical skills to apply theories to real world health issues. Readings, assignments, and discussions will focus largely on ways to understand and change health behaviors and various individual, relational, community, and social-level influences on health. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Public Health Majors during pre-registration

P_HLTH 3400: Global Public Health and Health Care Systems
(same as HLTH_SCI 3400, PEA_ST 3401). An introduction to public health in a global context, with an emphasis on understanding how disparities in socioeconomic status, differences in political and national health care systems and the work of international organizations impact health in communities around the world. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Public Health Majors during Pre-Registration

P_HLTH 3450: Introduction to Epidemiology
(same as HLTH_SCI 3450). Epidemiology is the basic science of Public Health, focusing on the study of distribution and determinants of health-related states and events. The purpose of this course is to gain a basic understand of Epidemiology principles and methods and how to use these as a framework in assessing and addressing population health issues. Employing a mix of lecture, discussion, and assignments, students will explore the epidemiological investigation process, the etiology of disease, disability, and death, how to identify population subgroups with increased risk of disease, disability, and death and how to contribute to the development and evaluation of public health programs and services that improve the health of subgroups at risk and the general population. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Acceptance into the Public Health Program or by Department Consent

P_HLTH 3460: Introduction to Public Health and Emergency Preparedness
Introduces public health emergency preparedness procedures, including procedures for natural and technological disasters; terrorism; emerging threats; and methods to address these from planning and response perspectives. Includes domestic and international public health emergency contexts, and integrates knowledge and skills learned from other courses within the Health in Crisis: Human Rights, Disaster Preparedness and Humanitarian Assistance. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Public Health Science Majors during preregistration

P_HLTH 3560: Public Health and Environmental Justice
This course is designed to give students an overview of the connection between environmental justice and public health work. Students will use current and past events as a foundation for learning about environmental health disparities faced by minorities and indigenous communities. Looking through the lens of public health, students will tackle difficult topics such as social justice, environmental racism, and climate change as it relates to minority and indigenous communities. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Public Health Science Majors during preregistration

P_HLTH 3560: Health Promotion Programs I: Assessment and Planning
(same as HLTH_SCI 3560). Health promotion planning is the development and implementation of a well-researched and tailored intervention to increase the health status of an individual and population. This course will provide a comprehensive introduction to health promotion planning and assessment by integrating a solid theoretical foundation of the discipline with hands-on experience in assessing needs, assets and capacity for health education, health education and project planning, funding, intervention development, implementation of health education projects, and evaluation. Special attention placed on implementing health education and promotion programs that are tailored to the particular population in need as well as specialized for the appropriate setting be it school, work, health care clinic, or the community. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to public health majors
Corequisites: P_HLTH 3610
P_HLTH 3610: Health Promotion Programs II: Implementation, Evaluation, and Communication
(same as HLTH_SCI 3610). This course builds on topics covered in Health Promotion Programs I: Assessment and Planning. It will provide a comprehensive introduction to the implementation, evaluation and communication required for successful health promotion programs by integrating a solid theoretical foundation of the discipline with hands-on experience in the implementation of health promotion program, developing an evaluation and communication strategies for successful health education and health promotion programs in a variety of community-based settings. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to public health majors
Corequisites: P_HLTH 3600

P_HLTH 3660: Chronic Disease and Public Health Approaches
The epidemiology of major chronic diseases of high income countries will be reviewed including heart disease, cancer, stroke, diabetes, neurological diseases, and selected other conditions. In addition students will examine emerging non-communicable disease epidemics in low-and middle-income countries. Methodologic issues related to the study of these diseases, disease surveillance and strategies for prevention will also be covered. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Public Health Science Majors during preregistration

P_HLTH 3670: Infectious Disease and Public Health Approaches
In this course students will be able to define the basic concepts of Infectious Disease Epidemiology and Identify past, present, and future infectious disease threats. Students will describe the basic methods of Infectious Disease Epidemiology and identify host factors, infectious agents, and transmission factors. By the end of the course students will be able to discuss and identify basic approaches to control and prevention of infectious disease. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Public Health Science Majors during preregistration

P_HLTH 3860: Autism Spectrum Disorder and Public Health
This class is designed to help students think critically about the identification and treatment of autism spectrum disorder (ASD) in the United States. Students will explore current research and debates surrounding the definition, prevention and treatment of ASD in the United States. In addition to learning about the presentation and treatment of ASD, they will also be introduced to concepts in public health, psychology, psychiatry, and health services research. We will also discuss the history of our beliefs about ASD and how these beliefs have influenced policy, systems, services and treatment over the last century. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Public Health Science Majors during preregistration

P_HLTH 3900W: Introduction to The Research Process and Evidence Base - Writing Intensive
(same as HLTH_SCI 3900W). This course provides an introduction to the basic quantitative and qualitative research techniques used in public health, health education and promotion, and the health professions. Conducting research, making medical decisions based on research findings, and using and interpreting research and evidence in practice settings all represent potential outcomes for students selecting a career in public health or the health professions. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to public health majors

P_HLTH 3960: Public Health, Drugs and Policy
This course is a tool to provide basic understanding of the role of legal and illegal drugs of abuse on people and the addictive processes. Using this information, the major focus will be to understand the problems and opportunities for treatment and prevention relevant to current and past policy issues. The public health implications of several Missouri and national policy decisions in treatment and prevention will be a major focus. An additional major focus will be on legal drugs of abuse - alcohol, tobacco and caffeine - which cause most of the mortality and morbidity due to drug use. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Public Health Science Majors during preregistration

P_HLTH 3965: Strategies for Effective Peer Education in Public Health
(same as WGST 3960, HLTH_SCI 3965). Course designed to promote effective presentation skills on a variety of health topics, specifically sexual health. Students will engage in experiential practice and skill building surrounding cultural competency, difficult discourses, discussion facilitation and behavior management. Graded on A-F basis only.

Credit Hour: 1
Prerequisites: Instructor's consent

P_HLTH 4001: Topics in Public Health
Organized study of selected topics. Subjects will vary from semester to semester. Graded on A-F basis only.

Credit Hour: 1-6
Prerequisites: Restricted to Public Health Science Majors during preregistration

P_HLTH 4002: Public Health Study Abroad
This course is designed for students to explore various public health issues through the global lens of study abroad. Public health is a diverse career field that touches every aspect of life and connects a global community through the mission of serving the public good. Public health issues are intertwined and complicated by culture, governments, and environmental systems. Each study abroad trip will uniquely address issues specific to the country of origin. Graded on A-F basis only.

Credit Hour: 1-6

P_HLTH 4085: Problems in Public Health
Individual study, topic/problem varies by instructor. Graded on A-F basis only.
**P_HLTH 4300: Health Care in the United States**
(same as HLTH_SCI 4300). Overview of financing, structure, and outcomes in the U.S. health care system. Contemporary health care issues, policy, and politics will be addressed. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Sophomore standing; Restricted to Public Health Majors during preregistration

---

**P_HLTH 4350: Principles of Environmental Health for Public Health**
This course is an introduction to Environmental Health as it relates to Public Health. Students will learn about the effects of environmental factors on a population's health and identify the connections between human health, animal health, and ecosystem health. Students will explore the role governments play in environmental health and identify the how globalization affects global burdens of disease. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Restricted to Public Health Science Majors during preregistration

---

**P_HLTH 4485: Ethics in Public Health**
This course provides an overview of the basis for ethics in public health. Ethical concepts, theories, and approaches that apply to public health practice will be presented. Specific topics include paternalism, confidentiality, informed consent, justice, and resource allocation. Ethical issues in the public health arena will be explored; with an emphasis on the social determinants of health and APHA’s ‘health in all policies’ approach. Legal and policy factors will also be considered related to ethical decision-making. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Restricted to Public Health Science Majors during preregistration

---

**P_HLTH 4500: Health Care Management**
(same as HLTH_SCI 4500). Examines various management concepts as they relate to the unique environment of health care. Concepts include planning, decision making, budgeting, staffing, organizing, and motivating for working with individuals or teams. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Restricted to Public Health majors

---

**P_HLTH 4900: Seminar in Health Education**
(same as HLTH_SCI 4900; cross-leveled with P_HLTH 7900). This course provides students pursuing careers in health education/promotion and public health with the opportunity to synthesize their relevant coursework and prepare for the Certified Health Education Specialist (CHES) examination. Graded on S/U basis only.

**Credit Hour:** 1  
**Prerequisites:** Open to public health students during preregistration

---

**P_HLTH 4960: Qualitative Approaches to Understanding Public Health Problems**
This course will define and describe the use of qualitative approaches to explore and solve public health problems. It will also provide opportunity for collecting, analyzing and working with qualitative data from a variety of data collection methods and using multiple analysis approaches. Discussion of analyzing photograph and video data will also provide students with insights on how best to analyze these types of data. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Restricted to Public Health Science Majors during preregistration

---

**P_HLTH 4970: Public Health Capstone: Digital Storytelling**
One of the primary tasks of the public health professional is to translate scientific evidence into sound programs and policies. To do this successfully, the public health practitioner must understand how to weigh and interpret evidence and how to communicate the meaning of that evidence to a variety of stakeholders, including policy makers and community members. This capstone will focus on the practical and ethical challenges inherent in public health practice through a focus on communication and storytelling. Students will choose a public health topic and conduct a literature review, conduct interviews with key stakeholders, develop a story proposal and a completed digital story that reflects current evidence and diverse viewpoints. In addition, through exercises, readings and reflection papers, they will explore their own relationship to the issue of choice, explore unfamiliar points of view on the topic and grapple with the ethical challenges of advocacy and representation. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Restricted to Public Health Science Majors during preregistration

---

**P_HLTH 4975: Public Health Capstone: Emerging Issues in Public Health**
In this capstone course, students will apply what they have learned throughout the program to generate solutions for an emerging issue in public health (e.g. opioids). The course is taught using Open Educational Resources (OER) and is based on current resources and materials. Research (i.e. epidemiology), practice, interventions, policy, and evaluation will be addressed with readings, reports, articles, films, and podcasts. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Restricted to Public Health Science Majors during preregistration

---

**P_HLTH 7001: Topics in Public Health**
Selected topics of interest related to Public Health.

**Credit Hours:** 3

---

**P_HLTH 7150: Principles of Public Health**
This course provides an overview of public health, including concentration areas of public health systems, epidemiology, social and behavioral determinants of health, environmental health, and public health policy. Case studies from local, state, national and international public health issues are incorporated into each segment, culminating in a discussion of the future of public health.
P_HLTH 7160: Interdisciplinary Perspectives in Global Health
This course is designed for those interested in health issues from a global perspective. It explores contemporary issues, problems, and controversies in global health through an interdisciplinary perspective. This course will follow a lecture and case study discussion format. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Department consent required

P_HLTH 7751: Psychosocial Function and Older Adults
(same as ARCHST 7650, F_C_MD 7751, HMI 7751, H_D_FS 7751, NURSE 7751, P_HLTH 7751 and SOC_WK 7751). This course takes an Interdisciplinary approach to understanding the psychosocial function of older adults and explores approaches to alleviate disabling conditions that interfere with psychosocial function and quality of life in old age. Graded on A-F basis only.
Credit Hours: 3

P_HLTH 7800: Public Health Campaign Successes and Failures
Explains public health campaigns from assessing needs to planning and implementing interventions, as well as taking lessons learned from previous public health campaigns to create strategies that increase the likelihood of success and reduce the chance of failure. Graded on A-F basis only.
Credit Hours: 3

P_HLTH 7850: Mental Health Policy
This course is an introductory survey of the principles and practice of mental health policy, beginning with its early history and continuing to the present day. Topics will include the nature of mental illness, its incidence and prevalence, mental health stigma, policy concerns related to mental health finance, the process of policy making, involvement of mental health care consumers in the policy process, and mental health in health policy reform. The needs of special populations including the homeless, persons in the criminal justice system, ethnic/minority groups, persons living in rural areas and veterans will be examined as well as needs specific to children and the elderly. Students are also expected to understand mental health policy considerations related to current health care reform and ethical issues in the practice of mental health policy. Graded on A-F basis only.
Credit Hours: 3

P_HLTH 7900: Seminar in Health Education
(cross-leveled with HLTH_SCI 4900, P_HLTH 4900). This course provides students pursuing careers in health education/promotion and public health with the opportunity to synthesize their relevant coursework and prepare for the Certified Health Education Specialist (CHES) examination. Graded on S/U basis only.
Credit Hour: 1

P_HLTH 7952: Research Methods in Public Health
This course is designed to introduce students to the process of research as a sequence of events, systematically organized to further knowledge.
Credit Hours: 3

P_HLTH 8001: Topics in Public Health
Selected topics of interest related to Public Health.
Credit Hours: 1-3

P_HLTH 8085: Problems in Public Health
Guided readings, intensive study of an area in Public Health related to special interest of student or an area in which the student needs to strengthen.
Credit Hours: 1-99
Prerequisites: instructor's consent. May be repeated for credit

P_HLTH 8090: Masters Thesis Research
Leads to preparation of masters thesis. May only be repeated for credit for six hours. Graded on S/U basis only.
Credit Hours: 1-99
Prerequisites: P_HLTH 8980. Instructor's consent required

P_HLTH 8120: Applied Epidemiology in Community Assessment
The purpose of this course is to enable students to gain skills and abilities in assessing population groups and determining their priority public health problems. Students will consider a variety of strategies for empowering and mobilizing populations in collaborative public health efforts. Communication skills are key to the community assessment and intervention process, particularly in translating epidemiological data to lay audiences, and advocating for action. Students will be challenged to communicate public health issues effectively both on-line and in writing. Graded on A-F basis only.
Credit Hours: 3
Prerequisites or Corequisites: P_HLTH 7952
Prerequisites: P_HLTH 8420, Graduate level Statistics (STAT 7020 or STAT 7410)

P_HLTH 8150: Human Health and the Environment
This graduate level course will address threats to public health related to environmental factors including biological, physical and chemical factors. Subjects will include environmental contamination and remediation, zoonotic disease food and water quality. This course will include recorded
P_HLTH 8251: Immigrant Health
Public health professions have considerable interest in understanding the unique health concerns of immigrants, in order to prevent disease, promote health, and prolong life in this specific population and in the population as a whole. This course will be based on readings in the peer-reviewed literature, discussion in a seminar format, community visits and observations/interviews, and guest speakers on topics of importance when considering issues of public health particular to immigrant communities. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: instructor's consent

P_HLTH 8260: Emergency Preparedness
An overview of current national guidance and basic assessment of the current health care system level of readiness focusing on the critical role of the health care system for community, regional, state, and nationally based emergency preparedness efforts. Graded on A-F basis only.

Credit Hours: 3

P_HLTH 8270: Storytelling in Public Health and Public Policy
Storytelling for public health and public policy offers students an opportunity to become familiar with the literature and theoretical frameworks underlying the use of narrative and digital storytelling in public health and policy advocacy and public health interventions focused on behavior change. Students will review case studies of effective narrative communication and practice elements of effective storytelling in a variety of print and digital platforms. Graded on A-F basis only.

Credit Hours: 3

P_HLTH 8300: Health Care in the United States
(same as PUB_AF 8172). Overview of financing, structure, and outcomes in the U.S. health care system. Contemporary health care issues, policy, and politics will be addressed. May be repeated for credit. Graded on A-F basis only.

Credit Hours: 3

P_HLTH 8400: Clinical Veterinary Regulatory Medicine and Public Health
(same as V_M_S 8400). The goal of this course is to familiarize the student with clinical aspects of veterinary public health/regulatory medicine. Must be enrolled in MPH (veterinary public health concentration) or DVM curriculum.

Credit Hours: 2

P_HLTH 8420: Principles of Epidemiology
This course is intended to provide a general introduction to the course epidemiological concepts and methods as grounded in the essential services of public health. The focus of the course is on developing critical thinking skills and providing a foundation in applied epidemiologic competencies. May be repeated for credit. Graded on A-F only.

Credit Hours: 3
Prerequisites: graduate level statistics; instructor's consent

P_HLTH 8470: GIS for Public Health
The purpose of this course is to understand the capacity and limitations of geographic information system (GIS) in public health. The guiding principle of developing the course is the practical aspects of using GIS while understanding the basic science behind mapping. The course is based on a weekly format of brief narrated lectures, readings and assignments similar to what you would have in a classroom. Graded on A-F basis only.

Credit Hours: 3

P_HLTH 8620: Emerging Zoonoses Diseases
This course will enhance student understanding of epidemiology and ecology as it relates to emerging and established zoonotic diseases. Risk factors for the emergence of and mechanisms for control and prevention of zoonotic diseases will be discussed. Course will involve individual and group assignments, use of discussion board, and several blackboard collaborate sessions. Blackboard collaborate sessions (time is TBA) will be held throughout the semester as an introduction to course modules and for help sessions. Students must have audio capability (microphone and speakers) for the course. Built in microphones and speakers work nicely, an inexpensive headset helps screen out background noise. If your computer does not have a build in microphone, an inexpensive one can be purchased at an electronics/computer store. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: P_HLTH 8420 or V_PBIO 8455 and P_HLTH 8150

P_HLTH 8625: Data Analysis for Health Researchers
The goal of this course is to introduce students to the systematic approach to data analysis, statistical computing, correct interpretation and presentation of results. Note that mathematical equations or their derivations forms are not emphasized. However, candidates taking this course are required to have a basic understanding of the epidemiologic and statistical principles and data analysis. The course is not expected to convert you into an expert data analyst within 16 weeks but upon completing the course, you will have acquired skills needed to analyze and interpret cohort, case-control and cross-sectional studies by cross tabulations, stratification, and regression. In addition, you will be able to build and interpret findings from complex multivariable models after controlling for confounding. Graded on A-F basis only.

Credit Hours: 3

P_HLTH 8675: Strategic Health Communication
Funding for public health is at historic lows, meaning to create change more must be done with less. One of the best ways to facilitate change is through strategic health communication. By making messages easy to understand, developing campaigns to create behavior, attitude and/ or belief change, and understanding how to utilize the concepts of social marketing, public health professionals can break away from the old way of doing business to make a difference in our society. Graded on A-F basis only.
P_HLTH 8767: Epidemiology of Vaccine-Preventable Diseases
This course is designed to provide a basic overview of epidemiology by exploring issues regarding various vaccine-preventable diseases (VPDs) and immunization program policies. Participants will learn about VPDs, while gaining skills in epidemiology, the science of public health. Graded on A-F basis only.

Credit Hours: 3

P_HLTH 8953: Evaluating Global Public Health Programs
This course is designed to prepare students to evaluate global public health programs, preferably in developing countries. Students will identify a global public health issue, find one or more global health intervention or prevention programs, evaluate the programs using principles of evaluation research methods, and suggest implications for global public health promotion. Graded on A-F basis only.

Credit Hours: 3

Prerequisites: P_HLTH 7952 or P_HLTH 8420

P_HLTH 8970: Public Health Capstone
As an integrating experience, the Public Health Capstone will allow students to articulate and share what they have learned in coursework and to supplement previous learning by exploring areas of knowledge the students identify as most relevant to their readiness for professional practice. It will enable students to test theoretical knowledge against real life practical experiences, and to integrate and refine basic and advanced concepts, values, and methods acquired during the professional education.

Credit Hours: 3

P_HLTH 8971: Veterinary Public Health Capstone
This capstone experience provides a unique set of opportunities and responsibilities. It is generally scheduled after completion of at least 2 semesters of the MPH curriculum and is designed to serve as a capstone experience integrating previous coursework and experiences. Exceptions to the requirement of completion of 2 semesters of MPH coursework will be granted for students who have completed or concurrent degree. Examples of relevant preparatory coursework will include epidemiology and veterinary public health. As an integrating experience, the capstone will require students to apply knowledge in an independent manner, integrate knowledge into cohesive production, and communication the results of this experience.

Credit Hour: 1-99

Prerequisites: completion of at least 2 semester of MPH curriculum

P_HLTH 8980: Public Health Internship
The field experience, or internship, is an opportunity for the student to test many of the theories, concepts, and information about public health learned during the first year and translate them into practice. Using the internship site as the ‘organizational laboratory,’ the student begins to develop the necessary professional skill sets for becoming a successful public health professional. The current knowledge, skills, abilities, and experiences will continue to develop and grow as each student becomes a life-long learner and practitioner of public health. Graded on S/U basis only.

Credit Hour: 1-99

Radiologic Sciences Courses

RA_SCI 3110: Radiography Procedures I
This course is an introduction to basic radiographic positioning and procedures. Specific radiographic procedures of the chest, upper extremity, shoulder girdle, pelvis and lower extremity are taught.

Credit Hours: 2

Prerequisites: Acceptance into Radiologic Sciences, Radiography
Program. Restricted to Radiologic Science students only

RA_SCI 3120: Fundamentals of Radiography
Orientation to radiology department, ethics, psychodynamics of patient care, medical legal considerations and radiation safety procedures.

Credit Hours: 3

Prerequisites: Acceptance into Radiologic Sciences, Radiography
Program. Restricted to Radiologic Science students only

RA_SCI 3130: Basic Radiographic Skills
Radiographic film processing techniques, intensifying screens and sensitometry will be discussed. The x-ray tube, x-ray production and some of the factors which affect the quantity and quality of the x-ray beam as well as the x-ray image will also be introduced.

Credit Hours: 2

Prerequisites: Acceptance into Radiologic Sciences, Radiography
Program. Restricted to Radiologic Science students only

RA_SCI 3140: Principles in Radiographic Exposure I
Theory and principles of X-ray technique; correlation of factors with application.

Credit Hours: 3

Prerequisites: Acceptance into Radiologic Sciences, Radiography
Program. Restricted to Radiologic Science students only

RA_SCI 3150: Radiologic Pharmacology
Pharmacological principles, biopharmaceutics, pharmacokinetics, pharmacodynamics, drug classifications, drug names, administration routes, and infection prevention and control will be covered. Attention will be given to contrast agents relative to radiographic imaging. Ethical and legal implications will be explored.

Credit Hours: 3

Prerequisites: Acceptance into Radiologic Sciences, Radiography
Program. Restricted to Radiologic Science students only
RA_SCI 3160: Radiologic Physics
Fundamental physics of electricity and radiant energy; principles of generation of electromagnetic radiation and applicable equipment; and principles of digital image capture, display and storage.

Credit Hours: 3
Prerequisites: Acceptance into Radiologic Sciences, Radiography Program. Restricted to Radiologic Science students only

RA_SCI 3170: Imaging Modalities
The study of radiographic and fluoroscopic equipment with emphasis to automatic exposure devices, image intensification, and imaging detectors. Consideration will be given to equipment in such modalities as computed tomography, magnetic resonance imaging, ultrasound, nuclear medicine and radiation therapy.

Credit Hours: 3
Prerequisites: Acceptance into Radiologic Sciences, Radiography Program. Restricted to Radiologic Science students only

RA_SCI 3180: Radiography Procedures II
Instruction in radiographic procedures of the upper and lower gastrointestinal system, urinary system, bony thorax, vertebral column, and cranium.

Credit Hours: 2
Prerequisites: Acceptance into Radiologic Sciences, Radiography Program. Restricted to Radiologic Science students only

RA_SCI 3190: Radiography Procedures III
Instructions in advanced radiographic imaging techniques with emphasis in trauma radiography, vascular studies and other specialty radiographic procedures.

Credit Hours: 3
Prerequisites: Acceptance into Radiologic Sciences, Radiography Program. Restricted to Radiologic Science students only

RA_SCI 3941: Clinical Education I
First in a five-part series focusing on the application and evaluation of radiography in the clinical setting. Supervised clinical experience emphasizing radiographic procedures of the chest, abdomen, and extremities.

Credit Hours: 3
Prerequisites: Acceptance into Radiologic Sciences, Radiography Program. Restricted to Radiologic Science students only

RA_SCI 3942: Clinical Education II
Second in a five-part series focusing on the application and evaluation of radiography in the clinical setting. Supervised clinical experience emphasizing the development of technical skills and procedural knowledge of routine radiographic procedures.

Credit Hours: 3
Prerequisites: Acceptance into Radiologic Sciences, Radiography Program. Restricted to Radiologic Science students only

RA_SCI 4085: Problems in Medical Imaging
Supervise investigation in an aspect of medical imaging science usually culminating in a written report.

Credit Hour: 1-3
Prerequisites: Instructor's consent

RA_SCI 4110: Sectional Anatomy
(same as DMU 4312; cross-leveled with RA_SCI 7110, DMU 7312). A study of human anatomy using the sectional approach; anatomical structures will be related to modern medical imaging techniques. Graded on an A-F basis only.

Credit Hours: 3
Prerequisites: Instructor's consent required

RA_SCI 4140: Magnetic Resonance Imaging: Physics and Procedures
(cross-leveled with RA_SCI 7140). Magnetic Resonance imaging fundamentals, applications, instrumentation, physical principles. Basic imaging concepts including positioning, scanning protocols, contrast imaging, anatomy review, and pathological considerations. Graded on A-F basis only.

Credit Hours: 5
Prerequisites: Acceptance into Radiologic Sciences

RA_SCI 4150: Computed Tomography: Physics and Procedures
(cross-leveled with RA_SCI 7150). Computed tomography imaging fundamentals, applications, instrumentation, physical principles. Applied concepts regarding patient care and CT imaging procedures. Graded on an A-F basis only.

Credit Hours: 5
Prerequisites: Acceptance into Radiologic Sciences

RA_SCI 4303: Radiation Safety
(same as NU_ENG 4303). Types and origins of radiation; radiation detection and measurement; radiation interactions; shielding; dose calculations; federal, state and local regulations; and procedures for safe uses of radiation. Laboratory experiments in radiation measurements and protection.

Credit Hours: 3

RA_SCI 4943: Clinical Education III
Third in a five-part series focusing on the application and evaluation of radiography in the clinical setting. Supervised clinical experience emphasizing the transition to self-directed practice of routine radiographic procedures and the development of technical skills and procedural knowledge of more advanced radiographic procedures.

Credit Hours: 3
Prerequisites: Acceptance into Radiologic Science, Radiography Program. Restricted to Radiologic Science students only

RA_SCI 4944: Clinical Education IV
Fourth in a five-part series focusing on the application and evaluation of radiography in the clinical setting. Supervised clinical experience emphasizing self-directed clinical practice and the development of technical skills and procedural knowledge of more advanced radiographic procedures and modalities.

Credit Hours: 3
Prerequisites: Acceptance into Radiologic Sciences, Radiography Program. Restricted to Radiologic Science students only

RA_SCI 4944W: Clinical Education IV - Writing Intensive
Fourth in a five-part series focusing on the application and evaluation of radiography in the clinical setting. Supervised clinical experience emphasizing self-directed clinical practice and the development of technical skills and procedural knowledge of more advanced radiographic procedures and modalities.
Credit Hours: 3
Prerequisites: Acceptance into Radiologic Sciences, Radiography Program. Restricted to Radiologic Science students only

RA_SCI 4945: Clinical Education V
Final clinical course. Supervised clinical experience emphasizing self-directed performance of complex radiographic procedures, continued competency in routine diagnostic radiography and the investigation of advanced modalities, while transitioning to reflective, critical, and strategic professional practice.
Credit Hours: 3
Prerequisites: Acceptance into Radiologic Sciences, Radiography Program. Restricted to Radiologic Science students only

RA_SCI 4946: Advanced Medical Imaging Externship
(cross-leveled with RA_SCI 7946). Supervised clinical experience in a medical imaging specialty with emphasis on patient care and technical practice.
Credit Hours: 3
Prerequisites: Instructor's consent required. Certification in a primary area of imaging. An affiliation agreement between the University of Missouri Radiologic Sciences Program and the clinical facility. Satisfactory completion of all Clinical Screening Requirements

RA_SCI 4947: Radiography Overview
A comprehensive overview of all aspects of diagnostic radiology with emphasis on procedures, technique, radiation protection, positioning, radiographic anatomy and patient care.
Credit Hours: 3
Prerequisites: Acceptance into Radiologic Sciences, Radiography Program

RA_SCI 7110: Sectional Anatomy
(same as DMU 7312; cross-leveled with RA_SCI 4110, DMU 4312). A study of human anatomy using the sectional approach; anatomical structures will be related to modern medical imaging techniques. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Instructor consent required

RA_SCI 7140: Magnetic Resonance Imaging: Physics and Procedures
(cross-leveled with RA_SCI 4140). Magnetic Resonance imaging fundamentals, applications, instrumentation, physical principles. Basic imaging concepts including positioning, scanning protocols, contrast imaging, anatomy review, and pathological considerations. Graded on A-F basis only.
Credit Hours: 5
Prerequisites: Instructor consent

RA_SCI 7150: Computed Tomography: Physics and Procedures
(cross-leveled with RA_SCI 4150). Computed tomography (CT) imaging fundamentals, applications, instrumentation, physical principles. Applied concepts regarding patient care and CT imaging procedures. Graded on an A-F basis only.
Credit Hours: 5
Prerequisites: Instructor's consent required

RA_SCI 7946: Advanced Medical Imaging Externship
(cross-leveled with RA_SCI 4946). Supervised clinical experience in a medical imaging specialty with emphasis on patient care and technical practice.
Credit Hours: 3
Prerequisites: Instructor's consent required. Certification in a primary area of imaging. An affiliation agreement between the University of Missouri Radiologic Sciences Program and the clinical facility. Satisfactory completion of all Clinical Screening Requirements

RA_SCI 4980: Imaging Pathology
Etiology and processes of disease. Emphasis on pathology of body systems and the manifestation of pathology through imaging.
Credit Hours: 3
Prerequisites: Acceptance into Radiologic Sciences, Radiography Program

RA_SCI 4980W: Imaging Pathology - Writing Intensive
Etiology and processes of disease. Emphasis on pathology of body systems and the manifestation of pathology through imaging.
Credit Hours: 3
Prerequisites: Acceptance into Radiologic Sciences, Radiography Program

RA_SCI 7110: Sectional Anatomy
A comprehensive overview of all aspects of diagnostic radiology with emphasis on procedures, technique, radiation protection, positioning, radiographic anatomy and patient care.
Credit Hours: 3
Prerequisites: Acceptance into Radiologic Sciences, Radiography Program. Restricted to Radiologic Science students only

Radiology Courses
RADIOL 4328: Introductory Radiation Biology
(same as BIO_SC 4328, NU ENG 4328, V_M_S 7328). Concepts of ionizing radiations, their actions on matter through effects on simple chemical systems, biological molecules, cell, organisms, man.
Credit Hours: 3
Prerequisites: junior standing Sciences/Engineering; one course in Biological Sciences and Physics/Chemistry; or instructor's consent

RADIOL 6044: SCC Radiation Oncology Elective
Students will enhance their knowledge, skills, and attitudes about patient-centered care through active participation in direct patient care activities while under the supervision of a faculty preceptor. Students will integrate previously acquired knowledge and concepts and apply them to the care and management of patients. During the elective, students will be expected to work-up patients, perform physical exams, and present cases to faculty. Students will also be exposed to treatment planning, simulations, and treatment deliveries throughout the rotation. At the end
of the elective, students will be expected to give a 10-minute presentation on a topic of their choosing.

Credit Hours: 5
Prerequisites: Successful completion of the first two years of medical school

RADIOL 6373: ABS Radiology Research
ABS Radiology Research
Credit Hour: 5-10

RADIOL 6645: Radiology
Goals/Objectives: General survey of all subspecialties of radiology. Evaluations: Written evaluations performed by both faculty and residents.
Credit Hours: 5
Prerequisites: Successful completion of the first two years of medical school; faculty approval

RADIOL 6646: SCC Radiology Elective
Students on this elective rotate through the various areas of radiology, spending time in each of the following subspecialties: musculoskeletal, ultrasound/mammography, chest/body imaging, neuroradiology (CT/MRI), pediatric imaging, and/or Interventional Radiology. Students participate in workstation rounds. Information is presented using a variety of evidence-based resources and online modules, including case conferences, daily mini-lectures, and case review websites.
Credit Hours: 5
Prerequisites: Successful completion of the first two years of medical school

RADIOL 6650: Advanced Radiology
Advanced Radiology
Credit Hours: 5

RADIOL 6745: Radiology - Rural
Radiology - Rural
Credit Hours: 5

RADIOL 6931: Introduction to Radiology
This two week elective will provide students with exposure to chest and body imaging (1 week per area). They will participate in 2-3 didactic sessions focused on the basics of radiology and imaging that is important to all fields of medicine, as well as video lectures one day a week along with the upperclassmen that are doing their 4 week elective at that time. Videos present a case based learning plan involving common emergent situations that may be encountered during their clinical training.
Credit Hours: 2
Prerequisites: successful completion of the first two years of medical school

RADIOL 6952: SCC Radiation Oncology 2 week elective
This course is intended as an introductory experience in the field of Radiation Oncology. Students will enhance their knowledge, skills, and attitudes about patient-centered care through active participation in direct patient care activities while under the supervision of a faculty preceptor. Students will integrate previously acquired knowledge and concepts and apply them to the care and management of patients. During the clerkship, students will be expected to work-up patients, perform physical exams, and present cases to faculty. Students will also be exposed to treatment planning, simulations, and treatment deliveries throughout the rotation.
Credit Hours: 2
Prerequisites: Successful completion of the first two years of medical school

RADIOL 6961: Radiation Oncology-2-Week Elective
This will be an introduction of radiation oncology including the basics of radiation physics, radiation biology, and treatment planning. Each student will be asked to attend multidisciplinary tumor conference. They will participate in evaluation and management of patients with cancer. This will include seeing consults, participating in treatment planning, seeing patients who are on treatment, and follow-up of patients. Special procedures include radiation oncology three-dimensional treatment planning, INRT, stereotactic radiosurgery and stereotactic body radiation therapy, and brachytherapy.
Credit Hours: 2
Prerequisites: Successful completion of the first two years of medical school

RADIOL 6962: SCC Introduction to Radiology
This two week elective will provide students with exposure to Chest, Body Imaging, Neuroradiology and Pediatric Imaging. Information is presented in a variety of evidence-based resources and online modules, including daily discussion and case review.
Credit Hours: 5
Prerequisites: Successful completion of the first two years of medical school

Reading (Intensive English Program)
Courses
IEPR _0001: Reading I
Students will develop the reading skills and vocabulary required to comprehend short, simple texts on general interest topics. Not open to native speakers of English. No college credit.
Credit Hours: 3
Prerequisites: must be admitted to the IEP program and placed into the course by the IEP; consent of department required

IEPR _0002: Reading II
Students will develop the reading skills and vocabulary required to comprehend short, predictable texts on general interest topics. Not open to native speakers of English. No college credit.
Credit Hours: 3
Prerequisites: must be admitted to the IEP program and placed into the course by the IEP; consent of department required

IEPR _0030: Reading for Academic Purposes III
Students will develop the reading skills and vocabulary required to comprehend pre-academic and adapted academic texts. Not open to native speakers of English. No college credit.
Credit Hours: 3
Prerequisites: must be admitted to the IEP program and placed into the course by the IEP; consent of department required
IEPR _0040: Reading for Academic Purposes IV
Students will develop the reading skills and vocabulary required to comprehend adapted university-level texts. Not open to native speakers of English. No college credit.

Credit Hours: 3
Prerequisites: must be admitted to the IEP program and placed into the course by the IEP; consent of department required

IEPR _0050: Reading for Academic Purposes V
Students will develop the reading skills and vocabulary required to comprehend and analyze university-level texts. Not open to native speakers of English. No college credit.

Credit Hours: 3
Prerequisites: must be admitted to the IEP program and placed into the course by the IEP; consent of department required; concurrent enrollment in IEPW _0050 Writing for Academic Purposes required

Religious Studies Courses

REL_ST 1100: Introduction to Religion
Engages students in reflection on the religious questions that human existence poses, and introduces them to conceptual tools for understanding and evaluating answers which have emerged in human history.

Credit Hours: 3
Prerequisites: Sections are restricted to Freshmen and Sophomores only or Juniors and Seniors only

REL_ST 1100H: Introduction to Religion - Honors
Engages students in reflection on the religious questions that human existence poses, and introduces them to conceptual tools for understanding and evaluating answers which have emerged in human history.

Credit Hours: 3
Prerequisites: Sections are restricted to Freshman and Sophomores only and Juniors and Seniors only. Honors eligibility required

REL_ST 1500: Religion and Culture
The study of religion as expressed in art, literature, music, dance, drama, architecture.

Credit Hours: 3
Prerequisites: Restricted to Freshmen and Sophomores only

REL_ST 2005: Topics in Religious Studies-Humanities
Organized study of selected topics which vary by semester and are announced at time of registration.

Credit Hour: 1-3

REL_ST 2100: Indigenous Religions
(same as ANTHRO 2100). Explores the central aspects of religious life in indigenous communities. Focusing on specific native communities, it considers individual and group identity, the meaning of the sacred, and the impact of foreign domination.

Credit Hours: 3

REL_ST 2100H: Indigenous Religions - Honors
(same as ANTHRO 2100H). Explores the central aspects of religious life in indigenous communities. Focusing on specific native communities, it considers individual and group identity and the meaning of the sacred.

Credit Hours: 3
Prerequisites: Honors eligibility required

REL_ST 2110: Global Religions
This course explores approaches to the academic study of religion and introduces students to a variety of global religious traditions through the study of their myths, rituals, beliefs, and practices.

Credit Hours: 3

REL_ST 2110H: Religions of the World - Honors
Explores the differing ways in which Asian and Western religions interpret life and reality. Includes study of Hinduism, Buddhism, Chinese and Japanese religions, Judaism, Christianity, and Islam.

Credit Hours: 3
Prerequisites: Honors eligibility required

REL_ST 2220: Death and Dying in the Western World
Death is a topic most Americans wish to avoid. Once we were very familiar with it since people before the mid-19th c. usually died at home, their bodies mourned at home, and then buried either in a designated public space or on their property (especially in the South). Today, most people die in hospitals or medical-oriented institutions (like nursing homes). Because death is so hidden (even disguised) most of us have never seen a dead body except in film or on television and those bodies are often a result of an exceptionally gruesome, yet highly staged death. Hidden death in everyday life has led to the fact that most Americans are unfamiliar with death and even outright afraid of it. People unconsciously treat death, the process of dying, and grief as a sort of infectious disease. However, death surrounds us both personally and collectively and this means that the living and the dead do not exist (and have never existed) in completely separate realms. This class explores how death has historically been approached in the Western world and familiarizes us with different types of death (natural death, death by execution, death from illness, and death by murder). Using a religious studies and American studies approach we will examine overarching themes of grief, loss, mourning, and even anger in association with death and dying.

Credit Hours: 3

REL_ST 2230: Religion and Popular Culture in the U.S.
Explores intersections of religion and popular culture and methods for analysis.

Credit Hours: 3

REL_ST 2240: Harry Potter, Magic, and Religion
This course explores religious themes in J.K. Rowling's Harry Potter series. Topics include ancient Greek, Roman, Celtic, and Norse mythological themes, the relationship between religion and magic, and reactions to the books among various religious groups.

Credit Hours: 3
REL_ST 2240H: Harry Potter, Magic, and Religion - Honors
This course explores religious themes in J.K. Rowling's Harry Potter series. Topics include ancient Greek, Roman, Celtic, and Norse mythological themes, the relationship between religion and magic, and reactions to the books among various religious groups. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Honors eligibility required

REL_ST 2260: Gods, Dwarves, and Dragons: Introduction to Old Norse Mythology
This course is an introduction to the pre-Christian religion and mythology of Northern Europe. Topics covered include Old Norse society, gender roles, and values. Main deities and mythological figures are explored through images and texts. Graded on A-F basis only.
Credit Hours: 2

REL_ST 2270: Religion and Literature
This course explores religious themes such as myth, rituals and rites, sacred power, transcendence, salvation, and pilgrimage in secular literature. Selections in English, include novels and short stories from a variety of cultures and religious traditions.
Credit Hours: 3

REL_ST 2310: Religions of China and Japan
Introduction to the religions of East Asia, focusing on both popular beliefs and institutionalized religion. Topics include: Buddhist, Confucian, and Daoist traditions of China; Buddhism and Shinto in Japan; self-cultivation practices; spirit mediumship; ritual; cosmology; religion and society; religion and the state.
Credit Hours: 3

REL_ST 2310H: Religions of China and Japan - Honors
Introduction to the religions of East Asia, focusing on both popular beliefs and institutionalized religion. Topics include: Buddhist, Confucian, and Daoist traditions of China; Buddhism and Shinto in Japan; self-cultivation practices; spirit mediumship; ritual; cosmology; religion and society; religion and the state.
Credit Hours: 3
Prerequisites: Honors eligibility required

REL_ST 2500H: Introduction to the Old Testament/Hebrew Bible and its World - Honors
An introduction to the literature of the Hebrew Bible in its Ancient Near Eastern cultural context. Students are exposed to the art, archaeology, literature, and histories of the great civilizations of the ANE and their impact on Israelite history and the formation of the Hebrew Bible. Emphasis is placed on the development and changes in Israelite theology in response to historical circumstances over the centuries that witnessed the Hebrew Bible's composition, compilation, and canonization.
Credit Hours: 3
Prerequisites: Honors eligibility required

REL_ST 2610: Medieval Christianity
(same as HIST 2610). History of Christian practices and teachings from the 5th-15th centuries, including Byzantine and Western Christianity Themes such as the influence of the Islamic world on Christianity, popular and elite formulations of theology and ritual activities.
Credit Hours: 3

REL_ST 2610H: Medieval Christianity - Honors
History of Christian practices and teachings from the 5th-15th centuries, including Byzantine and Western Christianity Themes such as the influence of the Islamic world on Christianity, popular and elite formulations of theology and ritual activities.
Credit Hours: 3
Prerequisites: Honors eligibility required

REL_ST 2630: History of Christian Traditions
(same as HIST 2630). An overview of the origins and development of Christianities from the first century of the Common Era to the present day. Topic will include competing Christian theologies, colonialism, conversion narratives, globalization, religious violence, and heresy. May be repeated for credit.
Credit Hours: 3

REL_ST 2650: Historical Introduction to the Religions of the Pre-Modern Middle East I
An introduction to the early history and development of religion in the Middle East. The course begins with the religious traditions of ancient Egypt, Anatolia, and Mesopotamia; describes how these traditions shaped the subsequent development of Judaism, Christianity, and Islam; and concludes with the transformation of the religious landscape following the Islamic conquests. In addition to mapping out these historical linkages, the course will focus on using the category of religion as a unique method in the study of social and political history. Graded on A-F basis only.
Credit Hours: 3

REL_ST 2700: Islam
Examines the historical development of Islamic traditions, noting the manner in which various sects & factions understand religion, humanity and God.
Credit Hours: 3

REL_ST 2850: Religious History of the Middle East I
An introduction to the early history and development of religion in the Middle East. The course begins with the religious traditions of ancient Egypt, Anatolia, and Mesopotamia; describes how these traditions shaped the subsequent development of Judaism, Christianity, and Islam; and concludes with the transformation of the religious landscape following the Islamic conquests. In addition to mapping out these historical linkages, the course will focus on using the category of religion as a unique method in the study of social and political history. Graded on A-F basis only.
Credit Hours: 3

REL_ST 2860: Religious History of the Middle East II
This course is a historical introduction to the religions of the pre-modern and modern Middle East. It follows the histories of Judaism, Christianity, and Islam from the defeat of the Mongol army in Palestine in 1260 to the present day. In particular it focuses on the social, political, and economic interactions of the Jewish, Christian, and Muslim populations, and the role religion has (and has not) played in the formation and development of the modern Middle East. Graded on A-F basis only.
Credit Hours: 3

REL_ST 2900: Contemporary Religious Thought
Explores issues within contemporary Christian theology that cut across denominational lines such as: the nature and existence of God; secularization, relativism, and humanism; the authority of the Bible;
attitudes toward other religions; the moral integrity of Christianity; and the purpose of human existence.

**Credit Hours:** 3

**REL_ST 2910: Religion and Contemporary Social Issues**
Study of the social ethics of Jewish and Christian theologians and movements of the 19th and 20th centuries and an examination of selected social problems in light of these systems.

**Credit Hours:** 3

**REL_ST 2930: Religion and Psychological Perspectives**
Examines how religion is understood from various psychological perspectives, and how psychological theories reflect religious presuppositions about the nature and purpose of human life.

**Credit Hours:** 3

**REL_ST 2939: Religion and Human Sexuality**
Examines attitudes within the Christian tradition toward sexuality, with particular reference to the alternatives of patriarchy and feminism, especially as they consider issues such as the meaning of bodiliness, masturbation, pornography, prostitution, homosexuality and sexual pluralism.

**Credit Hours:** 3

**REL_ST 2940: African Religions**
(same as BL_STU 2940). This course will serve as an introduction to various forms of religiosity in sub-Saharan Africa. Greater emphasis will be devoted to the indigenous religious traditions of the continent, but we will also examine Christianity and Islam as they are practiced on the continent. The aim of this course is to help students to better understand various aspects of African cultures by dismantling stereotypes and assumptions that have long characterized the study of religions on the continent. The readings and lectures are drawn from historical, anthropological, sociological, and literary sources. Graded on A-F basis only.

**Credit Hours:** 3

**REL_ST 2950: Directed Readings in Religious Studies**
Independent readings selected in consultation with supervisory faculty member. May not be repeated.

**Credit Hours:** 3

**Prerequisites:** instructor's consent

**REL_ST 3000: History of Religion in America to the Civil War**
(same as HIST 3000). Surveys major American religious traditions, patterns, and themes from 1492 to the Civil War, especially the role of religion in American social, cultural, and political developments.

**Credit Hours:** 3

**Prerequisites:** sophomore standing or instructor's consent

**REL_ST 3005: Topics in Religious Studies-Humanities**
Organized study of selected topics which vary by semester and are announced at time of registration.

**Credit Hours:** 3

**REL_ST 3020: Religion, Health, and Healing**
What does it mean to ‘be healthy’ and ‘to heal’ in different contexts? What sorts of medical, ritual, or religious expertise authorize different sorts of healers and forms of healing? What conceptions of human bodies and their capabilities are assumed? These questions probe entanglements of religion, culture, and medicine in everyday life. This course focuses on ways in which these issues might inform, challenge, and enrich thinking about global health. We will examine moral and religious histories of the global health movement alongside pressing contemporary questions such as, how do disease epidemics shape religious practice? How does religious belief shape the reception of biomedical technologies? We will consider examples from a range of contexts and traditions. Topics include colonialism, medical missionaries, social gospel and public health, human rights, bioethics, and liberation theology. Throughout the course, we will discuss the relevance of socio-economics, race, gender, and sexuality. Graded on A-F basis only.

**Credit Hours:** 3

**REL_ST 3042: Sacred Humor: Tricksters, Clowns, and Contraries**
This class will explore the notion that humor plays an important role in conveying sacred meaning. To that end, we will need to adopt a fairly common vocabulary regarding the concepts ‘humor’ and ‘sacred,’ and will do so while exploring some of the key aspects of the sacred humor discourse, especially the ‘trickster,’ ‘clown,’ and ‘contrary’ motifs in mythic narrative.

**Credit Hours:** 3

**REL_ST 3100: Religious Literacy for the Public and Professions**
This course teaches students to engage and encounter religion in day-to-day life and in the professional workplace. Its primary goal is to examine religious diversity in private and professional contexts from a practical standpoint by examining a variety of case studies.

**Credit Hours:** 3

**REL_ST 3200: Hinduism**
(same as S_A_ST 3200). Origin and development of central themes of traditional Hinduism from earliest times to the modern period. Topics include: the Vedic tradition, rituals and practice, varieties of yoga, and meditation, Indian religious thought, and devotional Hinduism.

**Credit Hours:** 3

**REL_ST 3210: History of Religion in Post-Civil War America**
(same as HIST 3210). Surveys major American religious traditions, patterns, and themes from 1865 to the present, especially the role of religion in American social, cultural and political developments.

**Credit Hours:** 3

**REL_ST 3210H: History of Religion in Post-Civil War America - Honors**
Surveys major American religious traditions, patterns, and themes from 1865 to the present, especially the role of religion in American social, cultural and political developments. Prerequisites: Honors Eligibility Required.

**Credit Hours:** 3
Prerequisites: sophomore standing or instructor's consent

REL_ST 3220: Tibetan Buddhism
This course explores the Buddhist tradition in Tibet, from its introduction in the 8th century to the present. Topics include the merger of Indian Buddhism with the local Bon religion, the relationship between Tibetan Buddhism and Mahayana Buddhism, the Tibetan Buddhist canon, lamas and tulkus, religion and material culture in Tibet, and the influence of Tibetan Buddhism in Central Asia. Graded on A-F basis only.
Credit Hours: 3

REL_ST 3230: Buddhism and Environmental Ethics
(same as S_A_ST 3230). Global environmental crisis is associated with rapidly expanding human population. Buddhist teachings about the interdependent aspects of existence and interrelatedness of all life may provide critical insights for how humanity can achieve balance and reciprocity with nature.
Credit Hours: 3

REL_ST 3240: Buddhism of South and Southeast Asia
(same as S_A_ST 3240). Examines the origins of Buddhism in India, the narratives of the life of the Buddha, the development of early Buddhist schools, the extension of Buddhism into Central and Southeast Asia, and the current practice of Buddhism in South and Southeast Asia.
Credit Hours: 3

REL_ST 3250: Buddhism in East Asia
This course will trace the transmission of Buddhism from the Indian subcontinent to China, and from there to Korea and Japan. We will examine the historical development of East Asian forms of Buddhism, deal with key issues of Buddhist thought and practice, and look at the role of Buddhism in modern East Asian societies.
Credit Hours: 3
Prerequisites: REL_ST 2110, REL_ST 2310 or REL_ST 3200, or instructor's consent

REL_ST 3260: Hindu Goddesses
(same as S_A_ST 3261). This course examines the vast range of Hindu Goddesses and their worship in South Asia. It includes information about goddess origins, mythology, symbolism, and attendant ritual practices. In order to approach this topic, background information about the history of Hinduism, major religious narratives, devotional practices, and iconographic representations of the divine are discussed. The course introduces the approaches of various scholars to Hindu Goddess worship within the context of religion, social relations, and gender roles, and explores ways in which South Asian women experience and negotiate feminine power in contemporary socio-cultural contexts.
Credit Hours: 3

REL_ST 3270: Yoga and Meditation in the Modern World
(same as S_A_ST 3270). This course explores the practice of Yoga and meditation, both as an ancient tradition of India and as an example of the globalization of religion. It will examine how the ancient Hindu religious tradition of Yoga was reinvented against the backdrop of India's colonial experience. Then it will look at a variety of emerging and transforming varieties of Hindu inspired yoga and meditation that spread globally in the context of increasing transnational interaction. To better appreciate both the traditional and the modern aspects of yoga and meditation, a secular meditation practice is included as an instructional and experiential component of this class.
Credit Hours: 4

REL_ST 3350: Monsters in Western Religion and Folklore
This course focuses on monsters found in Western cultures and more specifically how monsters are instantiated and put to use in contexts of popular culture. Theoretical and methodological approaches to the material are drawn from both Religious Studies and Folkloristics. Graded on A-F basis only.
Credit Hours: 3

REL_ST 3350W: Monsters in Western Religion and Folklore - Writing Intensive
This course focuses on monsters found in Western cultures and more specifically how monsters are instantiated and put to use in contexts of popular culture. Theoretical and methodological approaches to the material are drawn from both Religious Studies and Folkloristics. Graded on A-F basis only.
Credit Hours: 3

REL_ST 3360: Cults and New Religious Movements
While religious traditions constantly change, and new religions emerge in every historical time period, the new religious movements of the past century (many of which are often referred to negatively as ‘cults’) present a particular challenge to contemporary cultures and societies. We will begin with a theoretical overview of new religious movements (NRMs) and will proceed gradually to discuss in detail the religion of the Peoples Temple and its charismatic leader and founder, Jim Jones. Recommended: An introductory course in any of the following disciplines/area studies: Religious Studies, Psychology, Communication Studies (emphasis on Media and Society/Media Theory); or Sociology.
Credit Hours: 3

REL_ST 3380: Native American Religions
(same as ANTHRO 3380). Investigation of religious lives of the native peoples of the Americas through cultural contact with modernity. Perspectives based on historical, anthropological and native texts.
Credit Hours: 3

REL_ST 3445: The Body in Western Christianity
This course is a survey of Western Christian Perspectives of the human body ranging from the Early Church Fathers to trends in contemporary American culture.
Credit Hours: 3

REL_ST 3445W: The Body in Western Christianity - Writing Intensive
This course is a survey of Western Christian Perspectives of the human body ranging from the Early Church Fathers to trends in contemporary American culture.
Credit Hours: 3
REL_ST 3451: Religion in Science Fiction
Investigation of religious themes in science fiction novels, short stories and films. Themes include the nature of the sacred, the limits of human knowledge, understanding and experiencing transcendence, revelation and apocalypse.

Credit Hours: 3

REL_ST 3451W: Religion in Science Fiction - Writing Intensive
Investigation of religious themes in science fiction novels, short stories and films. Themes include the nature of the sacred, the limits of human knowledge, understanding and experiencing transcendence, revelation and apocalypse.

Credit Hours: 3

REL_ST 3455: Robots and Religion: Reflection on Self, Soul, and Humanity
This course explores ancient and modern texts about robots, androids, and other artificial and virtual humans in order to analyze cultural and religious notions of what it means to be human. Course readings include ancient Indian, Tibetan, and Chinese robot stories in translation, medieval Jewish legends about golems, as well as contemporary Western science fiction

Credit Hours: 3

REL_ST 3500: Judaism in the Time of Jesus
This course is an introduction to the origin and development of Judaism from the time of the destruction of the first Jerusalem temple (587 BCE) to the Bar Kochba revolt (132-135 CE).

Credit Hours: 3

REL_ST 3550: Introduction to the Qur'an
This course is meant to introduce students with little or no background to the history, content, and interpretive traditions of the Qur'an. Given the text's unfamiliarity to most non-Muslim readers, students will spend the first half of the semester learning to navigate and read the Qur'an. Students then spend the second half of the semester examining what Muslims have said about and done with the Qur'an, with an emphasis on the diversity of voices - both past and present - engaged with the text. Graded on A-F basis only.

Credit Hours: 3

REL_ST 3610: Angry Theologians
This course examines how intense debates and furious prose helped define many of modern Christianity's most widely agreed upon tenets of faith. Through close readings of theological treatises laced with profanity, insults, and outrage, we shall explore how central Christian theological convictions about baptism, the nature of Jesus, gender roles, sin, salvation, and other topics were constructed through argumentation and compromise. Though some theological disputes were settled politely through votes at church councils, even these peaceable compromises often emerged through a spate of insults and red-faced polemic. We shall read and discuss some of the most colorful—and enduringly influential—cases of theology developing through brash confrontation, from the Luther Insult Generator to the fiercely angry articulations of Christian theology in contemporary America. Students will learn to understand the logic and purpose behind these vehement arguments in their historical context and practice evaluating competing claims about complex issues such as the Trinity, the path to salvation, and sin. Graded on A-F basis only.

Credit Hours: 3

REL_ST 3610W: Angry Theologians - Writing Intensive
This course examines how intense debates and furious prose helped define many of modern Christianity's most widely agreed upon tenets of faith. Through close readings of theological treatises laced with profanity, insults, and outrage, we shall explore how central Christian theological convictions about baptism, the nature of Jesus, gender roles, sin, salvation, and other topics were constructed through argumentation and compromise. Though some theological disputes were settled politely through votes at church councils, even these peaceable compromises often emerged through a spate of insults and red-faced polemic. We shall read and discuss some of the most colorful—and enduringly influential—cases of theology developing through brash confrontation, from the Luther Insult Generator to the fiercely angry articulations of Christian theology in contemporary America. Students will learn to understand the logic and purpose behind these vehement arguments in their historical context and practice evaluating competing claims about complex issues such as the Trinity, the path to salvation, and sin. Graded on A-F basis only.

Credit Hours: 3

REL_ST 3760: Geography of the World's Religions
This course examines how intense debates and furious prose helped define many of modern Christianity's most widely agreed upon tenets of faith. Through close readings of theological treatises laced with profanity, insults, and outrage, we shall explore how central Christian theological convictions about baptism, the nature of Jesus, gender roles, sin, salvation, and other topics were constructed through argumentation and compromise. Though some theological disputes were settled politely through votes at church councils, even these peaceable compromises often emerged through a spate of insults and red-faced polemic. We shall read and discuss some of the most colorful—and enduringly influential—cases of theology developing through brash confrontation, from the Luther Insult Generator to the fiercely angry articulations of Christian theology in contemporary America. Students will learn to understand the logic and purpose behind these vehement arguments in their historical context and practice evaluating competing claims about complex issues such as the Trinity, the path to salvation, and sin. Graded on A-F basis only.

Credit Hours: 3

REL_ST 3710: Reality of God
Will explore the meaning of 'the loss of God' (Tillich) and various modern and contemporary attempts to reaffirm the reality of God.

Credit Hours: 3

REL_ST 3740: Religion and Film
Addresses issues of interpretation and analysis in the convergence of religion and film. Addresses three areas under this broad rubric: 1) film representations of established religions; 2) film and the construction of social values; 3) film as contemporary 'myth'. Treating films as social texts, we will ask what such representations of ourselves to ourselves suggest about culture in general.

Credit Hours: 3

REL_ST 3760: Geography of the World's Religions
(same as GEOG 3760). Explores the significance of place in the origin, diffusion, distribution and practice of religions, emphasizing imprints of religion on the cultural landscape and connections between culture, politics, economics, and religion.

Credit Hours: 3
Prerequisites: 1000/2000 level Geography course; junior standing or instructor's consent

REL_ST 3760W: Geography of the World's Religions - Writing Intensive
(same as GEOG 3760). Explores the significance of place in the origin, diffusion, distribution and practice of religions, emphasizing imprints of religion on the cultural landscape and connections between culture, politics, economics, and religion.
Credit Hours: 3
Prerequisites: 1000/2000 level Geography course; junior standing or instructor's consent

REL_ST 3840: Religion and Criminal Justice
This course helps students become more familiar with a religious, sociological, and American studies approach toward understanding the complicated relationship between religion and the U.S. prison system. It addresses the influence of religion on the development of the justice system in the United States and enables students to understand how this influence extends into the present day. Unit one centers on understanding religion and familiarizing ourselves with certain components of the criminal justice system. Unit two examines the direct relationship between the two institutions, and Unit three is an exploration specifically of religion and capital punishment (the death penalty).
Throughout this class we will also explore via the podcast 'Serial', as well as other sources both fictional and nonfictional that give students the opportunity to contemplate complex concepts frequently taken for granted such as criminality, justice, punishment, and of course - guilt and innocence. Recommended: Introductory courses in one or more of the following disciplines: Sociology, Religious Studies, Psychology, and Interdisciplinary Studies, and Political Science.
Credit Hours: 3

REL_ST 3900: Islam and the Myth of Religious Violence
This course explores the widespread claim that Islam is an inherently violent religion. After an overview of the history of Islam, and an introduction to the concepts of myth, religion, and violence, we examine systematically the historical, social, political, and religious contexts of a series of case studies. These case studies will underscore the nature of religious language and motivation within specific contexts, exposing students to a much more complex picture of the means and ends of so-called religious violence. No prior knowledge of Islam is required. Graded on A-F basis only.
Credit Hours: 3

REL_ST 3990: Majors Seminar
In this seminar religious studies majors will be encouraged to form a community of inquiry focused on the subject of religion and public life. Graded on S/U basis only.
Credit Hours: 3
Prerequisites: Religious Studies majors in their junior year

REL_ST 4001: Topics in Religious Studies-General
Organized study of selected topics which vary by semester and are announced at time of registration.
Credit Hours: 3

REL_ST 4005: Topics in Religious Studies-General
Organized study of selected topics which vary by semester and are announced at time of registration.
Credit Hours: 3
Prerequisites: junior standing or instructor's consent

REL_ST 4005W: Advanced Theories and Methods - Writing Intensive
(cross-leveled with REL_ST 7100). The course investigates the history of the modern academic study of religion, closely exploring influential theories and methods that have shaped scholarly perspective. May include approaches such as structuralism, phenomenology, Durkheimian and Weberian sociology, Marxism, feminism, thick description, psychoanalysis, and others.
Credit Hours: 3
Prerequisites: Restricted to Religious Studies majors and MA students

REL_ST 4100: Advanced Theories and Methods
(cross-leveled with REL_ST 7100). The course investigates the history of the modern academic study of religion, closely exploring influential theories and methods that have shaped scholarly perspective. May include approaches such as structuralism, phenomenology, Durkheimian and Weberian sociology, Marxism, feminism, thick description, psychoanalysis, and others.
Credit Hours: 3

REL_ST 4100W: Advanced Theories and Methods - Writing Intensive
(cross-leveled with REL_ST 7100). This course will unpack theoretical and methodological issues surrounding the study of embodied religious practice and the nature of religious narrative using myths and rituals from around the world's religious traditions.
Credit Hours: 3

REL_ST 4110: Religious Myth and Ritual
(cross-leveled with REL_ST 7110). This course will unpack theoretical and methodological issues surrounding the study of embodied religious practice and the nature of religious narrative using myths and rituals from around the world's religious traditions.
Credit Hours: 3

REL_ST 4130: Haunting and Healing: The Supernatural in American Culture
This course explores instances, stories, and representations of haunting in the United States. We apply a variety of theoretical and methodological approaches to illuminate the diversity of meanings, functions, and contexts of supernatural beings in American popular and folk cultures.
Credit Hours: 3

REL_ST 4150: Religion, Spirituality, and the Brain
(cross-leveled with REL_ST 7150). Explores neuropsychology of religion, spirituality, transcendence, and mystical experience. Covers development in neuroscience about how the brain works in a variety of religious and spiritual contexts, including prayer, meditation, and altered states of consciousness.
Credit Hours: 3
Prerequisites: Restricted to juniors and seniors only

REL_ST 4210: African-American Religion
(same as BL_STU 4210). Historical and thematic examination of African American religious traditions and practices. Addresses intersections of religious expression with race, identity, culture, and society.
REL ST 4280: Archaeology of Religion
(same as ANTHRO 4280; cross-levelled with REL ST 7280, ANTHRO 7280). This course examines how anthropologists conceptualize religious behavior, and how archaeologist use material remains to examine past religious behavior, rituals, religious practitioners, cosmological constructs, worldview and ideology in the Americas.

Credit Hours: 3
Prerequisites: ANTHRO 2020 and/or REL ST 2100

REL ST 4287: Empire: Intellectual History, Literature, and Society
(same as PEA ST 4287; cross-levelled with REL ST 7287, PEA ST 7287). Intellectuals and writers passionately debated the wisdom of colonies, free trade, and war as economies became increasingly global over the centuries. The proponents, critics, and interpreters of Empire will offer us rich examples of themes and theories in the culture of specific nations and eras. Intellectual life will be studied in the context of developments in social inequality, the culture of classes, media of communication, education, identities, transnational governance, and the nation-state. The course will be offered with different national and historical foci under different instructors, and may be repeated for credit with different instructors. Counts as the capstone experience for Peace Studies and is open to majors of other disciplines.

Credit Hours: 3
Prerequisites: junior standing, senior standing preferred

REL ST 4320: Introduction to Daoism
An introduction to the Daoist religious tradition, beginning with its background in earlier forms of philosophy, ritual, and belief. We will follow the development of the various Daoist schools and movements over the centuries and examine key aspects of their belief and practice, both historical and contemporary.

Credit Hours: 3

REL ST 4380: Anthropological Theories of Religion
(same as ANTHRO 4380; cross-levelled with REL ST 7380, ANTHRO 7380). Course provides a critical evaluation of anthropological explanations of various forms of traditional religious behavior such as magic, shamanism, divination, ritual, mythology, and witchcraft. The anthropological explanations examined range from nineteenth century classics to the current approaches of today.

Credit Hours: 3
Prerequisites: ANTHRO 2030, ANTHRO 2100 or REL ST 2100, or instructor's consent

REL ST 4400: The Catholic Intellectual Tradition
(cross-level with REL ST 7110). Students will read the great thinkers of the Catholic church such as Augustine, Abelard, Bernard of Clairvaux, Aquinas, Bonaventure, Nicholas of Cusa, Pascal, Newman, Maritain, Rahner, Johnson, Tracy. The theme examined may vary from year to year.

Credit Hours: 3

REL ST 4400H: The Catholic Intellectual Tradition - Honors
(cross-level with REL ST 7110). Students will read the great thinkers of the Catholic church such as Augustine, Abelard, Bernard of Clairvaux, Aquinas, Bonaventure, Nicholas of Cusa, Pascal, Newman, Maritain, Rahner, Johnson, Tracy. The theme examined may vary from year to year.

Credit Hours: 3
Prerequisites: Honors eligibility required

REL ST 4500: Greek and Roman Religion
(same as AMS 4500; cross-levelled with REL ST 7500). Survey of religious development among the Greeks and Romans.

Credit Hours: 3
Recommended: AMS 1060 and junior standing

REL ST 4535: Monastic Worlds
(same as MDVL_REN 4535; cross-levelled with REL ST 7535, MDVL_REN 7535). Monastic Worlds is an experiential learning course designed to serve as a Humanities Field School in medieval and early modern studies. It will be taught by faculty from UMKC and UMC through the Intercampus Course Sharing initiative. The class introduces students to humanities research methodology and the religious history and culture of premodern Europe and the contemporary Midwest by using the monastic communities as a focal point to learn about musicology, history, art history, literature, and religion. Following two weeks of online course modules, students will travel to the Benedictine communities of Conception Abbey in Conception, Missouri and Mount Saint Scholastica's in Atchison, Kansas, for additional face-to-face classes and research projects. On-site, students will participate in communal living and attend face-to-face classes on the historical and cultural worlds of medieval and early modern Europe. They will practice ethnography through observation of and participation in communal life of prayer, study, book production, and labor. Students will also have the opportunity to work with the manuscripts and rare books owned by these communities and visit the largest reliquary collection in North America, housed at the nearby Benedictine community of the Sisters of Perpetual Adoration in Clyde, MO. This course has an associated fee. Contact teaching faculty for this year's fee details. Graded on A-F basis only.

Credit Hours: 3

REL ST 4630: Sanskrit I
(same as S_A ST 4630). This intensive course will cover the essentials of Sanskrit grammar in one semester and prepare students for further readings in Hindu and Buddhist Literature.

Credit Hours: 3

REL ST 4640: Sanskrit II
(same as S_A ST 4640; cross-levelled with REL ST 7640). This course is intended as a ‘sampler’ of Sanskrit literature. We will read Sanskrit tests in the original. The objectives of the course are 1) Expanding the students’ knowledge of the Sanskrit language, 2) To acquaint the students with a broad range of textual genres in Sanskrit literature, and 3) To acquaint the students with some central ideas of Hindu and Buddhist philosophy.

Credit Hours: 3
REL_ST 4704: Religion and Black Freedom
(same as BL_STU 4704). In this course, we will explore the role of religion in the shaping of the African diaspora in the Americas through discussions of the readings. We will focus on the use of religion to pursue emancipation from enslavement and the concept of full freedom. Research and theories from mainly history, religious studies, and literature will be used to examine some of the ways in which black people have improved their condition through religion. The main objective of this course is to study the connections between religion and the fashioning of black resistance to slavery and systems of domination after slavery.
Credit Hours: 3

REL_ST 4750: Women, Religion and Culture
(same as WGST 4750; cross-leveled with REL_ST 7750, WGST 7750). An advanced study of the role of women in religion, focusing on the methods of determining the significance of gender in religious life, sacred texts, symbols, rituals and/or beliefs. Traditions studied include Christianity, Islam, contemporary pagan communities, and Native American traditions.
Credit Hours: 3

REL_ST 4960: Directed Readings in Religious Studies
Independent readings selected in consultation with supervisory faculty member. May be repeated up to 6 hrs.
Credit Hours: 1-6
Prerequisites: instructor's consent

REL_ST 4990: Senior Seminar in Religious Studies
A seminar in which Religious Studies majors use methods of understanding and comparing religions by focusing on times and places of significant contact among peoples of different religions.
Credit Hours: 3

REL_ST 7001: Topics in Religious Studies-General
Organized study of selected topics which vary by semester and are announced at time of registration.
Credit Hours: 3

REL_ST 7005: Topics in Religious Studies - General
Organized study of selected topics which vary by semester and are announced at time of registration.
Credit Hours: 3

REL_ST 7100: Advanced Theories and Methods
(cross-leveled with REL_ST 4100). The course investigates the history of the modern academic study of religion, closely exploring influential theories and methods that have shaped scholarly perspective. May include approaches such as structuralism, phenomenology, Durkheimian and Weberian sociology, Marxism, feminism, thick description, psychoanalysis, and others.
Credit Hours: 3
Prerequisites: Restricted to Religious Studies major or minor or instructor's consent

REL_ST 7110: Religious Myth and Ritual
(cross-leveled with REL_ST 4110). Comparative analysis of religious mythologies and symbolism as well as the ritual systems associated with those mythologies.
Credit Hours: 3

REL_ST 7150: Religion, Spirituality, and the Brain
(cross-leveled with REL_ST 4150). Explores neuropsychology of religion, spirituality, transcendence, and mystical experience. Covers development in neuroscience about how the brain works in a variety of religious and spiritual contexts, including prayer, meditation, and altered states of consciousness.
Credit Hours: 3

REL_ST 7280: Archaeology of Religion
(same as ANTHRO 7280; cross-leveled with REL_ST 4280, ANTHRO 4280). This course examines how anthropologists conceptualize religious behavior, and how anthropologists use material remains to examine past religious behavior, rituals, religious practitioners, cosmological constructs, worldview and ideology in the Americas.
Credit Hours: 3
Prerequisites: ANTHRO 2020 and/or REL_ST 2100

REL_ST 7287: Empire: Intellectual History, Literature, and Society
(same as PEA_ST 7287; cross-leveled with REL_ST 4287, PEA_ST 4287). Intellectuals and writers passionately debated the wisdom of colonies, free trade, and war as economies became increasingly global over the centuries. The proponents, critics, and interpreters of Empire will offer us rich examples of themes and theories in the culture of specific nations and eras. Intellectual life will be studied in the context of developments in social inequality, the culture of classes, media of communication, education, identities, transnational governance, and the nation-state. The course will be offered with different national and historical foci under different instructors, and may be repeated for credit with different instructors. Counts as the capstone experience for Peace Studies and is open to majors of other disciplines.
Credit Hours: 3

REL_ST 7380: Anthropological Theory of Religions
(same as ANTHRO 7380; cross-leveled with REL_ST 4380, ANTHRO 4380). Course provides a critical evaluation of anthropological explanations of various forms of traditional religious behavior such as magic, shamanism, divination, ritual, mythology and witchcraft. The anthropological explanations examined range from nineteenth century classics to the current approaches of today.
Credit Hours: 3

REL_ST 7500: Greek and Roman Religion
(cross-leveled with REL_ST 4500, AMS 4500). Survey of religious development among the Greeks and Romans.
Credit Hours: 3
Recommended: AMS 1060 and junior standing
REL_ST 7510: The Catholic Intellectual Tradition
(cross-leveled with REL_ST 4400). Students will read the great thinkers of the Catholic church such as Augustine, Abelard, Bernard of Clairvaux, Aquinas, Bonaventure, Nicholas of Cusa, Pascal, Newman, Maritain, Rahner, Johnson, Tracy. The theme examined may vary from year to year.
Credit Hours: 3

REL_ST 7535: Monastic Worlds
(same as MDVL_REN 7535; cross-leveled with MDVL_REN 4535, REL_ST 4535). Monastic Worlds is an experiential learning course designed to serve as a Humanities Field School in medieval and early modern studies. It will be taught by faculty from UMKC and UMC through the Intercampus Course Sharing initiative. The class introduces students to humanities research methodology and the religious history and culture of premodern Europe and the contemporary Midwest by using the monastic communities as a focal point to learn about musicology, history, art history, literature, and religion. Following two weeks of online course modules, students will travel to the Benedictine communities of Conception Abbey in Conception, Missouri and Mount Saint Scholastica's in Atchison, Kansas, for additional face-to-face classes and research projects. On-site, students will participate in communal living and attend face-to-face classes on the historical and cultural worlds of medieval and early modern Europe. They will practice ethnography through observation of and participation in communal life of prayer, study, book production, and labor. Students will also have the opportunity to work with the manuscripts and rare books owned by these communities and visit the largest reliquary collection in North America, housed at the nearby Benedictine community of the Sisters of Perpetual Adoration in Clyde, MO. This course has an associated fee. Contact teaching faculty for this year's fee details. Graded on A-F basis only.
Credit Hours: 3

REL_ST 7630: Sanskrit I
(same as S_A_ST 7630). This intensive course will cover the essentials of Sanskrit grammar in one semester and prepare students for further readings in Hindu and Buddhist literature.
Credit Hours: 3

REL_ST 7640: Sanskrit II
(same as S_A_ST 7640). This course is intended as a "sampler" of Sanskrit literature. We will read Sanskrit texts in the original. The objectives of the course are 1) Expanding the students' knowledge of the Sanskrit language, 2) To acquaint the students with a broad range of textual genres in Sanskrit literature, and 3) To acquaint the students with some central ideas of Hindu and Buddhist philosophy.
Credit Hours: 3

REL_ST 7720: Introduction to Daoism
An introduction to the Daoist religious tradition, beginning with its background in earlier forms of philosophy, ritual, and belief. We will follow the development of the various Daoist schools and movements over the centuries and examine key aspects of their belief and practice, both historical and contemporary.
Credit Hours: 3

REL_ST 7750: Women, Religion and Culture
(same as WGST 7750; cross-leveled with REL_ST 7750, WGST 7750). An advanced study of the role of women in religion, focusing on the methods of determining the significance of gender in religious life, sacred texts, symbols, rituals and/or beliefs. Traditions studied include Christianity, Islam, contemporary pagan communities, and Native American traditions.
Credit Hours: 3

REL_ST 7990: Independent Readings in Religious Studies
Independent readings and research selected in consultation with supervisory faculty.
Credit Hours: 3

REL_ST 8005: Topics in Religious Studies-Humanities
Organized study of selected topics which vary by semester and are announced at time of registration.
Credit Hours: 3

REL_ST 8090: Research and Thesis in Religious Studies
Research and writing for master's thesis. Graded on S/U basis only.
Credit Hour: 1-6
Prerequisites: Instructor's consent

REL_ST 8200: Religious Texts and Interpretation: The Veda
(same as S_A_ST 7200). This course examines the Veda, the foundational scripture of Hinduism. It includes close study of Vedic texts and rituals and the influence, interpretation, and application of the Veda in the later Hinduism.
Credit Hours: 3

REL_ST 8210: Indian Buddhism
This course examines the role of sacred texts in the Theravada and Mayayana Buddhist traditions. The course will emphasize canon formation and ideas about sacred texts in Buddhist traditions.
Credit Hours: 3

REL_ST 8700: Seminar in Folklore
(same as ANTHRO 8157 and ENGLISH 8700). Focus on the roots of folklore scholarship and methodology and their evolution in modern approaches to the study of oral, traditional verbal genres and their performance in natural folk groups.
Credit Hours: 3

Respiratory Therapy Courses
RS_THR 1000: Introduction to Respiratory Therapy
Introductory course to assist students acquiring information about the respiratory therapy profession. Students observe therapists in hospitals and participate in lectures on credentialing, program requirements, placement and future trends in the profession. Graded on S/U basis only.
Credit Hour: 1
RS_THR 3000: Fundamentals of Respiratory Care
Orientation to the profession. Focus on professional attributes of communication, teamwork, licensure and safety.
Credit Hour: 1
Prerequisites: acceptance into respiratory therapy major

RS_THR 3220: Equipment and Therapeutics
Credit Hours: 3
Prerequisites: Restricted to students in the Respiratory Therapy Program
Corequisites: RS_THR 3240

RS_THR 3240: Assessment and Therapeutics Lab
Evidence-based application of assessment techniques and therapeutic management of cardiopulmonary disorders. Course content includes equipment and skills associated with physical examination, blood gas analysis, chest imaging, oxygen and aerosolized pharmaceutical delivery, airway clearance therapy, lung expansion, and airway management. Emphasis placed on competency development for clinical application. Graded on S/U basis only.
Credit Hours: 3
Prerequisites or Corequisites: RS_THR 3220, RS_THR 3941
Prerequisites: Restricted to students admitted into the Respiratory Therapy Program

RS_THR 3290: Cardiopulmonary Pharmacology
To provide the student with specific knowledge of the pharmacologic strategies in treating cardiopulmonary disorders. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: restricted to students in the respiratory therapy program

RS_THR 3420: Principles of Mechanical Ventilation
Continuation of RS_THR 3220. Emphasis on the principles of mechanical ventilation, including physiologic and clinical application.
Credit Hours: 3
Prerequisites: RS_THR 3220, RS_THR 3941 and RS_THR 4040

RS_THR 3420W: Principles of Mechanical Ventilation - Writing Intensive
Continuation of RS_THR 3220. Emphasis on the principles of mechanical ventilation, including physiologic and clinical application.
Credit Hours: 3
Prerequisites: RS_THR 3220, RS_THR 3941 and RS_THR 4040

RS_THR 3440: Mechanical Ventilation Lab

RS_THR 3941: Clinical Practice I
To be taken concurrently with RS_THR 3220 for which it serves as an extension of the laboratory time and an opportunity for structured clinical experience exposures.
Credit Hours: 2

RS_THR 3942: Clinical Practice II
To be taken concurrently with RS_THR 3420, for which it serves as an extension of the laboratory time, and an opportunity for structured clinical experience exposures.
Credit Hours: 4

RS_THR 3943: Clinical Practice III
Continuation of supervised clinical experience from RS_THR 3942. Graded on A-F basis only.
Credit Hours: 2

RS_THR 4020: Perinatal/Neonatal Respiratory Care
Evaluation and management of perinatal/neonatal pulmonary, medical and surgical conditions which require respiratory care. Emphasis on resuscitation, pathophysiology, evaluation, blood gas and x-ray interpretation, treatment and mechanical ventilation.
Credit Hours: 3
Prerequisites: RS_THR 4040; Respiratory Therapy students only

RS_THR 4040: Respiratory Pathophysiology
Clinical pulmonary disease, organized around the gross structural components of the lung, airways, alveoli and pulmonary vasculature. Impact of disease on normal structure function; clinical, roentgenographic, and physiologic manifestations are described.
Credit Hours: 5

RS_THR 4085: Problems in Respiratory Therapy
Independent work on special problems related to cardiopulmonary health. Course not offered for graduate credit. Some sections of the course may be graded on either A-F or S/U basis only.
Credit Hours: 1-99
Prerequisites: instructor's consent

RS_THR 4220: Community and Patient Education I
Design and implement materials for educational presentations for a given patient population. Graded on A-F basis only.
Credit Hour: 1

RS_THR 4240: Pulmonary Rehabilitation
Focus is on an interdisciplinary approach to pulmonary rehabilitation and home care of the adult cardiopulmonary patient. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: instructor's consent required
RS_THR 4420: Pediatric Respiratory Care
Evaluation and management of pulmonary, medical and surgical pediatric conditions requiring respiratory care. Emphasis on pediatric resuscitation, pathophysiology, treatment and prevention of respiratory conditions, mechanical ventilation, lab interpretation.

Credit Hours: 3

RS_THR 4440: Organization and Administration
(same as RA_SCI 4440 and CDS 4440). Examines design and operation of allied health service departments and educational programs, including facilities, personnel procedures, record systems, ethics, medical-legal aspects, interdepartmental relations and curriculum development.

Credit Hours: 3

RS_THR 4460: Evidence-Based Medicine in Respiratory Care
This course is intended to facilitate the development of the student's ability to obtain and integrate patient assessment information and key findings and to formulate clinical decisions in respiratory therapy practice as well as use an evidence-based medicine approach to define respiratory clinical practice.

Credit Hours: 3

RS_THR 4460W: Evidence-Based Medicine in Respiratory Care - Writing Intensive
This course is intended to facilitate the development of the student's ability to obtain and integrate patient assessment information and key findings and to formulate clinical decisions in respiratory therapy practice as well as use an evidence-based medicine approach to define respiratory clinical practice.

Credit Hours: 3

RS_THR 4620: Pulmonary Function Technologies
This course will provide the student with a specific knowledge of the testing procedures and equipment for pulmonary function technology. The student will learn to interpret pulmonary function tests and perform quality assurance within the pulmonary function laboratory.

Credit Hours: 2
Prerequisites: restricted to Respiratory Therapy students only

RS_THR 4640: Teaching Practicum
Structured and supervised experience identifying student characteristics, methods for teaching, improving assessment, current development and instructional design.

Credit Hours: 3

RS_THR 4660: Advanced Mechanical Ventilation Theory
Exploration of advanced disease management via specific disease processes as well as concepts and modes of mechanical ventilation. Emphasis will be placed on mode selection for various disease and how new modes of mechanical ventilation impact disease management.

Credit Hours: 3

RS_THR 4720: Advanced Pulmonary Function Technology
This course will focus on the respiratory therapist's role in diagnostic testing. Topics include pulmonary function tests, exercise tests, and metabolic studies. In addition, the course briefly addresses polysomnography, pulmonary rehabilitation, and home care. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: Restricted to Respiratory Therapy students only

RS_THR 4820: Adult Critical Care
This course will focus on the respiratory therapist's role in the adult critical care environment. Topics include airway management, mechanical ventilation, general adult critical care and functioning as a vital member of the critical care team.

Credit Hours: 3
Prerequisites: restricted to Respiratory Therapy students only

RS_THR 4860: Neonatal and Pediatric Critical Care
This course will facilitate the evaluation and management of pulmonary, medical and surgical neonatal and pediatric conditions requiring respiratory care. There will be an emphasis on neonatal and pediatric resuscitation, pathophysiology, blood gas and x-ray interpretation, treatment and prevention of respiratory conditions, mechanical ventilation, and laboratory interpretation. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Respiratory therapy degree advancement students only

RS_THR 4930: Current Issues in Respiratory Care
(cross-leveled with RS_THR 7930). Identification and analysis of current issues in Respiratory Care with practice implications. Emphasis given to identification and evaluation of nontraditional information sources (e.g., social networking, internet). Graded on A-F basis only.

Credit Hours: 3
Prerequisites or Corequisites: HLTH_SCI 3900 or instructor consent

RS_THR 4940: Clinical Practice IV
Structured and supervised clinical experience and case conferences regarding bioterrorism response and emergency/disaster planning.

Credit Hours: 5

RS_THR 4973: Clinical Practice V
An extension of the supervised practicum begun in RS_THR 4940. Emphasis in adult critical care and special procedures including bronchoscopies, cardiac catheterization and chest tube placement.

Credit Hours: 4

RS_THR 4983: Clinical Practice VI
An extension of the supervised practicum begun in RS_THR 4940. Emphasis in perinatal and pediatric critical care including pediatric pulmonary function testing and airway management.

Credit Hours: 4
RS_THR 4990: Respiratory Therapy Capstone
Integration of literature, knowledge of previous coursework and clinical experience.
Credit Hours: 2
Prerequisites: Respiratory Therapy Majors Only

RS_THR 4993: Clinical Practice VII
An extension of the supervised practicum begun in RS_THR 4940. Emphasis in rehabilitation and home care, inservice education, and management. Students will participate in on-going research projects and community service activities.
Credit Hours: 5

RS_THR 7930: Current Issues in Respiratory Care
(cross-leveled with RS_THR 4930). Identification and analysis of current issues in Respiratory Care with practice implications. Emphasis given to identification and evaluation of nontraditional information sources (e.g., social networking, internet).
Credit Hours: 3
Prerequisites: CDS 4955 or HLTH_SCI 3900 or Instructor consent

Romance Languages Courses

RM_LAN 2200: Introduction to Catalan Language and Culture
This is an introductory course to Catalan language and culture. Previous knowledge of another Romance language might be beneficial. Students will learn basic Catalan expressions, vocabulary and grammatical structures. Furthermore, students will begin to familiarize themselves with elements of Catalan culture.
Credit Hours: 3
Recommended: Some knowledge of a Romance language desirable

RM_LAN 2310: Literature of the African Diaspora
(same as BL_STU 2310). A postcolonial analysis of selected literary texts interpreting the African diaspora in the Americas. Exemplary texts from the Caribbean (English, French, Spanish), South America and the United States are discussed in comparative perspective. No knowledge of Spanish required.
Credit Hours: 3
Prerequisites: ENGLISH 1000

RM_LAN 2820: Trends in World Cinema
(same as FILMS_VS 2820 and GERMAN 2820). This course is a historical overview of the major trends in international cinema. It focuses on the intersection of aesthetics, industry, and ideological and social concerns in cinematic production.
Credit Hours: 3
Prerequisites: sophomore standing, ENGLISH 1800 or FILMS_VS 1800

RM_LAN 3200: Catalan Culture and Identity
Students in this course are not expected to have previous exposure to Catalan instruction. If they do, it will enhance their learning experience. Knowledge of another Romance language might be beneficial as well. This is a course focused on Catalan culture and identity. Students will learn about the history of the language, the language policies in Spain and Europe, Catalan literature, cinema, music, and food. Students will read different materials in English for the most part. Course is taught in English.
Credit Hours: 3
Prerequisites: sophomore standing required

RM_LAN 4310: Literature of the African Diaspora
A study, in English translation, of writings by authors of African descent in the Americas.
Credit Hours: 3
Prerequisites: junior standing

RM_LAN 8085: Problems in Romance Languages
Credit Hours: 1-99
Prerequisites: instructor's consent

Rural Sociology Courses

RU_SOC 1000: Rural Sociology
Introduction to basic concepts and principles of sociology with a focus on rural populations and places. The course explores interconnections between rural/urban and local global economies and cultures. Students are exposed to the rich diversity of rural society, social changes underway, and to current social issues. (Students may not earn credit for both RU_SOC 1000 and SOCIOL 1000).
Credit Hours: 3

RU_SOC 1104: Topics in Rural Sociology - Social Science
Organized study of selected topics. Subjects and earnable credit vary from semester to semester. May be repeated.
Credit Hour: 1-3
Recommended: RU_SOC 1000 or SOCIOL 1000

RU_SOC 1120: Population and the Environment
(same as SOCIOL 1120 and PEA_ST 1120). Changes in the structure and characteristics of population groups and their relationship to both human and non-human aspects of the biophysical environment.
Credit Hours: 3

RU_SOC 1150: The Amish Community
(same as PEA_ST 1150). Examines historical antecedents and contemporary culture and social structure of the Amish. Topics include cultural symbols, life ceremonies, the family, counter-cultural pressures, stresses, social change.
Credit Hours: 3
Recommended: RU_SOC 1000 SOCIOL 1000 or ANTHRO 1000

RU_SOC 1150W: The Amish Community - Writing Intensive
(same as PEA_ST 1150). Examines historical antecedents and contemporary culture and social structure of the Amish. Topics include cultural symbols, life ceremonies, the family, counter-cultural pressures, stresses, social change.
Credit Hours: 3
Recommended: RU_SOC 1000 SOCIOL 1000 or ANTHRO 1000
RU_SOC 2203W: Topics in Rural Sociology - Behavioral Science - Writing Intensive
Organized study of selected topics. Subjects and earnable credit vary from semester to semester. May be repeated.
Credit Hour: 1-3
Recommended: RU_SOC 1000 or SOCIOL 1000

RU_SOC 2289: Towns in Missouri and the Midwest: Voices and Inequalities
(same as PEA_ST 2289, GEOG 2289). Focusing on towns and communities and their regional history and cultural traditions. Examines the issues and concerns of small-town America in the context of recent hardships and adverse economic trends. Examples of topics covered include case studies of communities such as Marceline, Missouri (Walt Disney's boyhood home), race and the immigration of non-whites in to rural areas; gender roles in small communities, the role of religion in small-town identity formation, and other current issues faced by 'middle America.' The responsiveness of government, large corporations, and institutions to the problems of diverse communities will be critically examined, with a multidisciplinary approach that draws on key theories and works in the disciplines of sociology, rural sociology, community development, and geography.
Credit Hours: 3

RU_SOC 3010: Leadership in Today's World
(same as AG_ED_LD 3010). Critically examines the leaders and leadership surrounding the greatest challenges to society today and in the future, while developing awareness and understanding of global and local issues in agriculture, democracy, civil society, business, and the environment. Course also focuses on fostering civil discourse and enhancing engagement. Graded on A-F basis only.
Credit Hours: 3
Recommended: RU_SOC 1000 or SOCIOL 1000

RU_SOC 3010H: Leadership in Today's World - Honors
(same as AG_ED_LD 3010H). Critically examines the leaders and leadership surrounding the greatest challenges to society today and in the future, while developing awareness and understanding of global and local issues in agriculture, democracy, civil society, business, and the environment. Course also focuses on fostering civil discourse and enhancing engagement. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Honors eligibility required
Recommended: RU_SOC 1000 or SOCIOL 1000

RU_SOC 3085: Problems in Rural Sociology
Credit Hour: 1-99
Prerequisites: instructor's consent

RU_SOC 3100: Recent Theories in Sociology
(same as SOCIOL 3100). Introduction to major theoretical positions and issues in contemporary American sociology. Logical and intellectual structure of major theoretical schools: functionalism, conflict, exchange, symbolic interaction, phenomenological-ethnomethodological theories.
Credit Hours: 3

RU_SOC 3100H: Leadership in Today's World - Honors
(same as AG_ED_LD 3010H). Critically examines the leaders and leadership surrounding the greatest challenges to society today and in the future, while developing awareness and understanding of global and local issues in agriculture, democracy, civil society, business, and the environment. Course also focuses on fostering civil discourse and enhancing engagement. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Honors eligibility required
Recommended: RU_SOC 1000 or SOCIOL 1000

RU_SOC 3235: Global Perspectives and Realities
Designed for students who have or wish to study, live or work outside of their home country. Presents sociological perspectives on globalization and intercultural communication as well as the steps needed to prepare for a valuable and safe experience abroad.
Credit Hours: 3

RU_SOC 3235W: Global Perspectives and Realities - Writing Intensive
Designed for students who have or wish to study, live or work outside of their home country. Presents sociological perspectives on globalization and intercultural communication as well as the steps needed to prepare for a valuable and safe experience abroad.
Credit Hours: 3

RU_SOC 3304: Topics in Rural Sociology - Social Science
Organized study of selected topics. Subjects and earnable credit vary from semester to semester. May be repeated.
Credit Hour: 2-3
Recommended: 6 hours Rural Sociology or Sociology, or junior standing

RU_SOC 3310: Society, Agriculture and Natural Resources
Explore the human dimensions of agriculture and natural resources through an overview of key areas in natural resource social science. Diverse conceptual approaches and empirical research topics related to society-natural resource interactions are included.
Credit Hours: 3
Recommended: junior standing or instructor's consent

RU_SOC 3325: Sociology of Food and Nutrition
This class explores individual food choices and larger social forces. Topics include: world hunger, food and the environment; food choices and culture, class and personal identity; the effects of social stigmas, advertising trends, and government regulations on body image; new social movements for sustainable food systems.
Credit Hours: 3
Recommended: ENGLSH 1000 and junior or senior standing or instructor's permission

RU_SOC 3325W: Sociology of Food and Nutrition - Writing Intensive
This class explores individual food choices and larger social forces. Topics include: world hunger, food and the environment; food choices and culture, class and personal identity; the effects of social stigmas, advertising trends, and government regulations on body image; new social movements for sustainable food systems.
Credit Hours: 3
Recommended: ENGLSH 1000 and junior or senior standing or instructor's permission

RU_SOC 3350: Social Research I
(same as SOCIOL 3950). Introduction to principles of methodology; theory and research; survey of basic research designs and perspectives;
preparation for understanding and conducting social research. Required for Sociology majors.

Credit Hours: 3

RU_SOC 3950W: Social Research I - Writing Intensive (same as SOCIOL 3950W). Introduction to principles of methodology; theory and research; survey of basic research designs and perspectives; preparation for understanding and conducting social research. Required for Sociology majors.

Credit Hours: 3

RU_SOC 4301: Topics in Rural Sociology
Current and new topics not currently offered in applied and/or theoretical areas in Rural Sociology. Graded on A-F basis only.

Credit Hours: 3
Recommended: RU_SOC 1000 or SOCIOL 1000 or equivalent

RU_SOC 4315: Social Demography
(same as SOCIOL 4315; cross-leveled with SOCIOL 7315 and RU_SOC 7315).

Credit Hours: 3
Recommended: RU_SOC 1000 or SOCIOL 1000 and junior standing

RU_SOC 4325: American Community Studies
(cross-leveled with RU_SOC 7325). An introduction to the study of American communities. The course starts with community theories and then focuses on a wide variety of historic and contemporary community studies such as Plainville, Middletown, Sidewalk and others. Seminar format.

Credit Hours: 3

RU_SOC 4335: Social Change and Development
(same as SOCIOL 4335; cross-leveled with SOCIOL 7335, RU_SOC 7335). Nature of social change and development. Emphasizes sociological theories of social change and development contrasting them with approaches from the disciplines.

Credit Hours: 3
Recommended: RU_SOC 1000 or SOCIOL 1000 and junior standing

RU_SOC 4335H: Social Change and Development - Honors
(same as SOCIOL 4335; cross-leveled with SOCIOL 7335, RU_SOC 7335). Nature of social change and development. Emphasizes sociological theories of social change and development contrasting them with approaches from the disciplines.

Credit Hours: 3
Prerequisites: Honors eligibility required
Recommended: RU_SOC 1000 or SOCIOL 1000 and junior standing

RU_SOC 4341: Building Communities from the Grassroots
(same as PEA_ST 4341; cross-leveled with RU_SOC 7341). Introduction and application of basic community development concepts, methods and practical skills for involving and empowering local citizens and leaders effectively in community-based efforts regardless of the issue.

Credit Hours: 3

RU_SOC 4342: Empowering Communities for the Future
(cross-leveled with RU_SOC 7342). Focuses on the professional practice and applications of community-based development including participatory action research, community economic development, organizational development, use of technology, citizen education and integration of practice. Graded on A-F basis only.

Credit Hours: 3
Recommended: instructor's consent

RU_SOC 4343: Creating Capacity for Dynamic Communities
(cross-leveled with RU_SOC 7343), Addresses community and citizen power; large group intervention processes for change; facilitating small group process; community organizing; community sustainability, dealing with poverty and disenfranchisement; community conflict resolution; ethics; and integration into practice. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: instructor's consent

RU_SOC 4344: Environmental Sociology
(same as SOCIOL 4344; cross-leveled with SOCIOL 7344, RU_SOC 7344). An interdisciplinary examination of domestic and international environmental issues focusing on social, cultural, and policy dimensions. Perspectives of the social sciences and humanities are included.

Credit Hours: 3
Recommended: junior standing

RU_SOC 4350: Social Statistics
(same as SOCIOL 4350; cross-leveled with SOCIOL 7350, RU_SOC 7350). Descriptive statistics and bivariate quantitative analysis techniques commonly used by social scientists. Includes coverage of parametric and non-parametric methods. Introduction to computer analysis.

Credit Hours: 3
Prerequisites: SOCIOL 2950

RU_SOC 4370: Environmental Sociology
(same as SOCIOL 4370; cross-leveled with SOCIOL 7370, RU_SOC 7370). An interdisciplinary examination of domestic and international environmental issues focusing on social, cultural, and policy dimensions. Perspectives of the social sciences and humanities are included.

Credit Hours: 3
Recommended: junior standing

RU_SOC 7120: Social Statistics
(same as SOCIOL 7120; cross-leveled with SOCIOL 4120, SOCIOL 4120). Descriptive statistics and bivariate quantitative analysis techniques commonly used by social scientists. Includes coverage of parametric and non-parametric methods. Introduction to computer analysis.

Credit Hours: 3
Prerequisites: SOCIOL 2950

RU_SOC 7315: Social Demography
(same as SOCIOL 7315; cross-leveled with SOCIOL 4315, SOCIOL 4315).

Credit Hours: 3

RU_SOC 7325: American Community Studies
(cross-leveled with RU_SOC 4325). An introduction to the study of American communities. The course starts with community theories and then focuses on a wide variety of historic and contemporary community studies such as Plainville, Middletown, Sidewalk and others. Seminar format.

Credit Hours: 3

RU_SOC 7335: Social Change and Development
(same as SOCIOL 7335; cross-leveled with SOCIOL 4335, RU_SOC 4335). Nature of social change and development. Emphasizes sociological theories of social change and development contrasting them with approaches from other disciplines.

Credit Hours: 3
Credit Hours: 3  
Prerequisites: RU_SOC 1000 or SOCIOL 1000

RU_SOC 7341: Building Communities from the Grassroots  
(cross-leveled with RU_SOC 4341). Introduction and application of basic community development concepts, methods and practical skills for involving and empowering local citizens and leaders effectively in community-based efforts regardless of the issue.  
Credit Hours: 3  
Prerequisites: instructor's consent

RU_SOC 7342: Empowering Communities for the Future  
(cross-leveled with RU_SOC 7342). Focuses on the professional practice and applications of community-based development including participatory action research, community economic development, organizational development, use of technology, citizen education and integration of practice. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: instructor's consent

RU_SOC 7343: Creating Capacity for Dynamic Communities  
(cross-leveled with RU_SOC 4343). Addresses community and citizen power; large group intervention processes for change; facilitating small group process; community organizing; community sustainability, dealing with poverty and disenfranchisement; community conflict resolution; ethics; and integration into practice. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: instructor's consent

RU_SOC 7370: Environmental Sociology  
(same as SOCIOL 7370; cross-leveled with SOCIOL 4370, RU_SOC 4370). An interdisciplinary examination of domestic and international environmental issues focusing on social, cultural, and policy dimensions. Perspectives of the social sciences and humanities are included.  
Credit Hours: 3  
Prerequisites: instructor's consent

RU_SOC 7446: Community Social Structure  
(same as SOCIOL 7446). A comparative study of communities in different nations and in urban and rural areas. A primary focus of the course will be on social change in communities in response to changing economic, political, social, cultural, and ecological factors.  
Credit Hours: 3

RU_SOC 8085: Problems in Rural Sociology  
Research for student capable of semi-independent work.  
Credit Hour: 1-99  
Prerequisites: instructor's consent

RU_SOC 8090: Research in Rural Sociology  
Research leading to thesis or dissertation. Graded on a S/U basis only.  
Credit Hour: 1-99  
Prerequisites: instructor's consent

RU_SOC 8130: Advanced Social Statistics  
Credit Hours: 3  
Prerequisites: RU_SOC 4120 or equivalent

RU_SOC 8287: Seminar on Sustainable Development  
(same as SOCIOL 8287). An interdisciplinary examination of sustainable development focusing on social, economic, cultural and environmental dimensions of development. International and domestic issues and approaches to sustainable development are included.  
Credit Hours: 3

RU_SOC 8435: Political Ecology  
Political ecology is an analytical approach to environment and natural resource issues at local, regional and global scales, emphasizing political, economic, cultural, social and historical factors and their relationship to ecological trends and processes. Seminar format. Graded on A-F basis only.  
Credit Hours: 3

RU_SOC 8436: Community, Natural Resources and Sustainability  
A graduate seminar on conceptual and methodological (mixed methods) approaches to natural resource sustainability issues at the human community level. Focuses on theoretical, methodological, and empirical topics related to the interactions between community, natural resources and sustainability. Graded on A-F basis only.  
Credit Hours: 3  
Recommended: RU_SOC 3310

RU_SOC 8444: Agriculture, Food and Community  
Introduces key debates in the sociology of food and agriculture. Includes research on the structure and history of the agriculture system and its impacts on farmers, communities and the natural environment.  
Credit Hours: 3

RU_SOC 8447: Seminar on Contemporary Issues in Rural Sociology  
Seminar on Contemporary Issues in Rural Sociology  
Credit Hour: 1-99

RU_SOC 8448: Society and Ecosystems Research Seminar  
(same as AAE 8448 and NAT_R 8448). This seminar, capstone for the Graduate Certificate Program in Society and Ecosystems, exposes students to interdisciplinary research on interactions between social, economic and ecological systems.  
Credit Hours: 3

RU_SOC 8450: Research in Rural Sociology  
Research not expected to terminate in thesis or dissertation.  
Credit Hour: 1-99  
Prerequisites: instructor's consent
RU_SOC 8510: Research Methods and Design
(same as AG_ED_LD 8510, AAE 8510). This course will give students a foundational understanding of quantitative research methods and design in the social and behavioral sciences. The main objective is to help students identify and formulate their own research questions and develop and implement a process for answering them. Students will examine the nature of the research process, explore the connection between theory and empirical research, identify viable research topics, critique published research, learn how to structure good arguments, understand the structure of research papers and proposals, plan and manage research activities, and become familiar with research ethics. Graded on A-F basis only.

Credit Hours: 3

RU_SOC 8540: Methods of Qualitative Research
(same as AG_ED_LD 8540). Overview of philosophies, approaches toward, design, data collection, analysis and reporting of qualitative research.

Credit Hours: 3

RU_SOC 8610: Economic and Sociological Approaches to Collective Action
(same as AAE 8610). This course identifies analytical and methodological tools, including rational choice and social capital, to deal with practical problems of collective action in: agricultural cooperatives, rural community development, political interest groups and other mutuals.

Credit Hours: 3

RU_SOC 9090: Research in Rural Sociology
Research leading to thesis or dissertation. Graded on a S/U basis only.

Credit Hour: 1-99

RU_SOC 9287: Seminar in Qualitative Methods in Sociology
(same as SOCIOL 9287). Examination of various qualitative methods of research, including problem-formulation, access and interpretation of data, theory-generation, and preparation of research reports.

Credit Hours: 3

Prerequisites: RU_SOC 8510 or instructor's consent

RU_SOC 9437: Synthesis of Theory and Method in Sociology
The purpose of the course is to provide the student with a critical understanding of the basic theoretical paradigms employed in the development of research projects in sociology. The course is designed for graduate students.

Credit Hours: 3

Prerequisites: RU_SOC 4130 and RU_SOC 8510, or instructor's consent

RU_SOC 9480: Community Survey Research
(same as SOCIOL 9987). This course applies social science survey research methods to the unique kinds of problems that arise in the study of whole communities.

Credit Hours: 3

Prerequisites: RU_SOC 8510 or equivalent

RU_SOC 9510: Data Collection, Analysis and Interpretation
(same as AG_ED_LD 9510). A quantitative methods course in measurement, data collection and analysis related to social and behavioral science research. An applied approach is taken on instrumentation and analyzing data using descriptive and inferential statistics. Practical skills in data manipulation using SPSS are developed. Graded on A-F basis only.

Credit Hours: 3

Prerequisites: AG_ED_LD 8510 or RU_SOC 8510 or instructor's consent

RUSS 1100: Elementary Russian I
Five hours of classroom instruction, with one hour lab work weekly. For beginners with no prior knowledge of Russian.

Credit Hours: 6

RUSS 1200: Elementary Russian II
Five hours of classroom instruction, with one hour lab work weekly.

Credit Hours: 6

Prerequisites: C- or better in RUSS 1100 or equivalent or instructor consent

RUSS 2001: Undergraduate Topics in Russian-General
Organized study of selected topics. Subjects and credits may vary from semester to semester. May be repeated for credit with departmental consent.

Credit Hour: 1-3

RUSS 2005: Undergraduate Topics in Russian-Humanities
Organized study of selected topics. Subjects and credits may vary from semester to semester. May be repeated for credit with departmental consent. No language credit.

Credit Hour: 1-3

RUSS 2100: Classics and Iconoclasts: An Introduction to Russian Literature
Designed to introduce students to some of the major genres, issues, and approaches in the study of Russian literature. Begins with the most classic of Russian authors, the so-called ‘father of Russian literature’ Aleksandr Pushkin, then moves on to two ‘classics’ from the 19th century (Gogol, Chekhov) and two ‘iconoclasts’ from the first part of the 20th (Mayakovsky, Kharms). Covers a range of genres, including poetry, short story, and drama, as well as letters, essays and manifestoes. Course reading list includes secondary essays that both shed light on specific texts/authors as well as provide models for critical and theoretical approaches to literature, with an emphasis on Russian Formalism. Readings and discussions in English; no knowledge of Russian language or literature required.

Credit Hours: 3
RUSS 2100W: Classics and Iconoclasts: An Introduction to Russian Literature - Writing Intensive
Designed to introduce students to some of the major genres, issues, and approaches in the study of Russian literature. Begins with the most classic of Russian authors, the so-called 'father of Russian literature' Aleksandr Pushkin, then moves on to two 'classics' from the 19th century (Gogol, Chekhov) and two 'iconoclasts' from the first part of the 20th (Mayakovsky, Kharms). Readings and discussions in English; no knowledge of Russian language or literature required.

Credit Hours: 3

RUSS 2130: Second-Year Russian I
Students will solidify their command of Russian grammar and begin developing their reading skills.

Credit Hours: 4
Prerequisites: RUSS 1200, equivalent, or instructor's consent

RUSS 2160: Second-Year Russian II
Continuation of RUSS 2130.

Credit Hours: 4
Prerequisites: RUSS 2130 or equivalent, or instructor's consent

RUSS 2310: Between Heaven and Earth: Russian Civilization
Survey of Russian culture from the Christianization of the Slavic peoples to late imperial period. No foreign language credit.

Credit Hours: 3

RUSS 2310W: Between Heaven and Earth: Russian Civilization - Writing Intensive
Survey of Russian culture from the Christianization of the Slavic peoples to late imperial period. No foreign language credit.

Credit Hours: 3

RUSS 2320: The Arts of Survival: Civilization in Soviet Times
Historical, social, and artistic topics. No foreign language credit.

Credit Hours: 3

RUSS 2320W: The Arts of Survival: Civilization in Soviet Times - Writing Intensive
Historical, social, and artistic topics. No foreign language credit.

Credit Hours: 3

RUSS 2340: Icons and Revolutions: Russia from its Beginnings to Today
A survey of Russian culture and history from the pre-Christian era to the present. Topics will include politics, religion, philosophy, literature, music, and visual art. Classes and readings in English; no prior courses in Russian required. Graded on A-F basis only.

Credit Hours: 3

RUSS 2340W: Icons and Revolutions: Russia from its Beginnings to Today - Writing Intensive
A survey of Russian culture and history from the pre-Christian era to the present. Topics will include politics, religion, philosophy, literature, music, and visual art. Classes and readings in English; no prior courses in Russian required. Graded on A-F basis only.

Credit Hours: 3

RUSS 2865: The Art of Soviet and Russian Cinema
(same as FILMS_VS 2865), Topics (e.g. Distorted Picture: Post-War Cinema in the Soviet State, Cinema in the Soviet Times and Beyond, etc.) announced at time of registration. Only 6 hours may be taken towards major.

Credit Hours: 3

RUSS 2865W: The Art of Soviet and Russian Cinema - Writing Intensive
(same as FILMS_VS 2865). Topics (e.g. Distorted Picture: Post-War Cinema in the Soviet State, Cinema in the Soviet Times and Beyond, etc.) announced at time of registration. Only 6 hours may be taken towards major.

Credit Hours: 3

RUSS 3001: Topics in Russian-General
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent.

Credit Hour: 1-3
Prerequisites: sophomore standing

RUSS 3005: Topics in Russian-Humanities
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent.

Credit Hour: 1-3
Prerequisites: sophomore standing

RUSS 3005W: Topics in Russian-Humanities - Writing Intensive
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent.

Credit Hour: 1-3
Prerequisites: sophomore standing

RUSS 3130: Intermediate Russian
Normally taken as 5th semester of Russian language sequence.

Credit Hours: 3
Prerequisites: Grade of C- or higher in RUSS 2160 or RUSS 3160 or instructor's consent

RUSS 3160: Intermediate Conversation and Composition
Further develops oral command of Russian as well as listening comprehension and some letter writing skills.
Credit Hours: 3
Prerequisites: Grade of C- or higher in RUSS 2160 or RUSS 3130 or instructor's consent

RUSS 3380: Sinners, Saints, and Madmen: 19th Century Russian Literature
Introduction to foundational periods (Sentimentalism, Romanticism, Realism and its decline), narratives, and authors of 19th century Russian literary tradition. Traces development of the 'Russian' short story and novel forms, as well as the all-important 'Petersburg' theme.
Credit Hours: 3
Prerequisites: Sophomore standing or instructor's consent

RUSS 3380W: Sinners, Saints, and Madmen: 19th Century Russian Literature - Writing Intensive
Introduction to foundational periods (Sentimentalism, Romanticism, Realism and its decline), narratives, and authors of 19th century Russian literary tradition. Traces development of the 'Russian' short story and novel forms, as well as the all-important 'Petersburg' theme.
Credit Hours: 3
Prerequisites: ENGLISH 1000; sophomore standing or instructor's consent

RUSS 3390: True Fictions: Russian Prose since 1900
Survey of Russian prose fiction of the twentieth and early twenty-first century. During this time Russia experienced a series of drastic changes in society and culture, and as often happens the artists responded more rapidly and insightfully than anyone else. This was a time of radical experimentation with the very nature of literature, and we will ready and examine some of the fascinating results. Course gives a short history of Russian prose fiction after 1900, offers a theory of analytical reading of imaginative prose, and hones the skills of intelligent writing about evaluative reading. Readings, lecture and discussion in English; no previous knowledge of Russian literature is assumed.
Credit Hours: 3
Prerequisites: sophomore standing, or instructor's consent

RUSS 3390W: True Fictions: Russian Prose since 1900 - Writing Intensive
Survey of Russian prose fiction of the twentieth and early twenty-first century. During this time Russia experienced a series of drastic changes in society and culture, and as often happens the artists responded more rapidly and insightfully than anyone else. This was a time of radical experimentation with the very nature of literature, and we will ready and examine some of the fascinating results. Course gives a short history of Russian prose fiction after 1900, offers a theory of analytical reading of imaginative prose, and hones the skills of intelligent writing about evaluative reading. Readings, lecture and discussion in English; no previous knowledge of Russian literature is assumed.
Credit Hours: 3
Prerequisites: ENGLISH 1000 and sophomore standing, or instructor's consent

RUSS 3630: Russian Classics I
Reading and discussion of selected works by major Russian writers of the nineteenth century. Course conducted in Russian. May be taken before or after RUSS 3640.
Credit Hours: 3
Prerequisites: RUSS 3130 or RUSS 3160 or instructor's consent

RUSS 3640: Russian Classics II
Reading and discussion of selected works by major Russian writers of the twentieth century. Course conducted in Russian. May be taken before or after RUSS 3630.
Credit Hours: 3
Prerequisites: RUSS 3130 or RUSS 3160 or instructor's consent

RUSS 3890: Russian and Soviet Cinema (same as FILMS_VS 3890)
Survey and analysis of selected Soviet films. Emphasis on film-making as a form of art. English or subtitled. Second screenings by arr. Some films may run over 2 hrs. No foreign language credit.
Credit Hours: 3
Prerequisites: Sophomore standing or instructor's consent

RUSS 4001: Topics in Russian-General
Organized study of selected topics. Subjects and eamable credit may vary from semester to semester. May be repeated for credit with departmental consent.
Credit Hour: 1-9
Prerequisites: instructor's consent

RUSS 4005: Topics in Russian-Humanities
Organized study of selected topics. Subjects and eamable credit may vary from semester to semester. May be repeated for credit with departmental consent. Prerequisites: instructor's consent,
Credit Hour: 1-3

RUSS 4005H: Topics in Russian-Humanities - Honors
Organized study of selected topics. Subjects and eamable credit may vary from semester to semester. May be repeated for credit with departmental consent. Prerequisites: instructor's consent; Honors eligibility required

Credit Hour: 1

RUSS 4005W: Topics in Russian-Humanities - Writing Intensive
Organized study of selected topics. Subjects and eamable credit may vary from semester to semester. May be repeated for credit with departmental consent. Prerequisites: instructor's consent,
Credit Hour: 1-3

RUSS 4160: Advanced Russian Conversation
Advanced syntax, idiomatic constructions, and vocabulary building.
Credit Hours: 3
Prerequisites: RUSS 3130 or RUSS 3160 or instructor's consent
RUSS 4350: Special Readings in Russian
Special Readings in Slavic literature or linguistics.

Credit Hour: 1-3
Prerequisites: instructor's consent

RUSS 4420: Russian Poetry
(cross-leveled with RUSS 7420). Survey of readings in Russian poetry from its beginnings to present.
Credit Hours: 3
Prerequisites: junior standing or instructor's consent

RUSS 4430: Russian Drama
(cross-leveled with RUSS 7430). Selected readings in and discussions of major Russian plays of the nineteenth and twentieth century.
Credit Hours: 3
Prerequisites: junior standing or instructor's consent

RUSS 4430W: Russian Drama - Writing Intensive
(cross-leveled with RUSS 7430). Selected readings in and discussions of major Russian plays of the nineteenth and twentieth century.
Credit Hours: 3
Prerequisites: junior standing or instructor's consent

RUSS 4435: Russian Prose
(cross-leveled with RUSS 7435). Explores the development of prose writing in modern Russian letters, paying special attention to native generic designations. Considers dual imagery of realist/naturalist and romantic/fantastic approaches. Studies diverse examples: rasskaz (story), the povest' (tale), the novella, novel essay early 19th c. through 20th c. Considers ways in which literature can itself stand as a philosophical form.
Credit Hours: 3
Prerequisites: junior standing or instructor's consent

RUSS 4440: The Russian Novel
(cross-leveled with RUSS 7440). Selected readings and seminar discussion of major novelists of the 19th and 20th centuries.
Credit Hours: 3
Prerequisites: junior standing or instructor's consent

RUSS 4550: Nabokov's Russian Fiction
(cross-leveled with RUSS 7550). Systematic analysis of Vladimir Nabokov's fiction, both novels and short stories. Emphasis on the artistic properties of prose. Lectures and class discussion in English. Readings in Russian (English translations for undergraduate students).
Credit Hours: 3
Prerequisites: junior standing or instructor's consent

RUSS 4820: Blogging the World: The Web in Cultural Context
(same as GERMAN 4820, FRENCH 4820). Innovative interdisciplinary course addresses issues of access to international news and specific cultural context working in cross-disciplinary teams. Students in journalism, foreign language, international studies, political science and various other disciplines track cultural developments and information on no-US Web sites, blogs and digital social networks along with exploring various historical forms of communication that preceded the digital era of the Web. Students analyze the potential and limitations/ effects of blogs and the web in specific contemporary cultural contexts and as part of the broader historical evolution of the web. The course is taught in English. The goal of this course is two-fold; students learn the particulars of web blogging, explore various features of the contemporary social network landscape while focusing on the concept of culture, in particular the cultures of Europe and the US. Questions asked are: what is culture? What is common or popular right now in other cultures? And how do new social networks amplify or alter certain features or culture across national and international contests?
Credit Hours: 3
Prerequisites: sophomore standing required

RUSS 4820W: Blogging the World: The Web in Cultural Context - Writing Intensive
(same as GERMAN 4820, FRENCH 4820). Innovative interdisciplinary course addresses issues of access to international news and specific cultural context working in cross-disciplinary teams. Students in journalism, foreign language, international studies, political science and various other disciplines track cultural developments and information on no-US Web sites, blogs and digital social networks along with exploring various historical forms of communication that preceded the digital era of the Web. And how do new social networks amplify or alter certain features or culture across national and international contests?
Credit Hours: 3
Prerequisites: sophomore standing required

RUSS 4840: Totalitarianism and Culture
(same as GERMAN 4840; cross-leveled with GERMAN 7840, RUSS 7840). In this course, we will explore the politics and poetics of totalitarian culture by examining the paintings, music, sculptures, buildings, and films produced under the rule of these regimes. In the process, we will learn how Nazi and Soviet culture producers made carefully calibrated appeals to their respective mass audiences, drawing upon the German and Russian cultural traditions - and on scientific rhetorics of cultural history and racial destiny - in crafting their utopian visions of worlds transformed, wrongs righted, and societies perfected.
Credit Hours: 3
Recommended: Junior standing or above; students taking this course for WI should have taken a 2000- or 3000-level WI course before beginning this class

RUSS 4840H: Totalitarianism and Culture - Honors
(same as GERMAN 4840H; cross-leveled with GERMAN 7840, RUSS 7840). In this course, we will explore the politics and poetics of totalitarian culture by examining the paintings, music, sculptures, buildings, and films produced under the rule of these regimes. In the process, we will learn how Nazi and Soviet culture producers made carefully calibrated appeals...
to their respective mass audiences, drawing upon the German and Russian cultural traditions - and on scientific rhetorics of cultural history and racial destiny - in crafting their utopian visions of worlds transformed, wrongs righted, and societies perfected.

**Credit Hours:** 3

**Prerequisites:** Honors eligibility required

**Recommended:** Junior standing or above; students taking this course for WI should have taken a 2000- or 3000-level WI course before beginning this class

---

**RUSS 4840HW: Totalitarianism and Culture - Honors/Writing Intensive**

(same as GERMAN 4840HW; cross-leveled with GERMAN 7840, RUSS 7840). In this course, we will explore the politics and poetics of totalitarian culture by examining the paintings, music, sculptures, buildings, and films produced under the rule of these regimes. In the process, we will learn how Nazi and Soviet culture producers made carefully calibrated appeals to their respective mass audiences, drawing upon the German and Russian cultural traditions - and on scientific rhetorics of cultural history and racial destiny - in crafting their utopian visions of worlds transformed, wrongs righted, and societies perfected.

---

**RUSS 4850: Revolution and Media in a Global Perspective**

(same as GERMAN 4850; cross-leveled with RUSS 7850, GERMAN 7850). This course offers a historical and global survey of the rise of modern revolution, from France to Haiti to Russia to the Black Power movement and beyond. Drawing on media studies and cultural studies, we will explore how revolutions are tied up in specific medial environments. This entails asking how media spread revolution, whether in print and visual culture, in the broadcast media of the twentieth century, or in the digital landscapes of the twenty-first century, and how revolutions can be understood themselves as media events. In the process students will develop a critical vocabulary for discussing the role of media in political and cultural revolution and counter-revolution in a global perspective. Graded on A-F basis only.

**Credit Hours:** 3

**Prerequisites:** Honors eligibility required

**Recommended:** Junior standing or above; students taking this course for WI should have taken a 2000- or 3000-level WI course before beginning this class

---

(same as GERMAN 4850W; cross-leveled with RUSS 7850, GERMAN 7850). This course offers a historical and global survey of the rise of modern revolution, from France to Haiti to Russia to the Black Power movement and beyond. Drawing on media studies and cultural studies, we will explore how revolutions are tied up in specific medial environments. This entails asking how media spread revolution, whether in print and visual culture, in the broadcast media of the twentieth century, or in the digital landscapes of the twenty-first century, and how revolutions can be understood themselves as media events. In the process students will develop a critical vocabulary for discussing the role of media in political and cultural revolution and counter-revolution in a global perspective. Graded on A-F basis only.

**Credit Hours:** 3

**Prerequisites:** Honors eligibility required

**Recommended:** Junior standing or above; students taking this course for WI should have taken a 2000- or 3000-level WI course before beginning this class

---

**RUSS 7085: Problems in Russian and Slavonic Studies**

Special problems in Slavic literature or linguistics.

**Credit Hour:** 1-6

**Prerequisites:** Instructor's consent

---

**RUSS 7087: Seminar in Russian**

Course content varies.

**Credit Hours:** 3

**Prerequisites:** Instructor's consent

---

**RUSS 7105: Topics in 19th Century Russian Literature-General**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.

**Credit Hour:** 1-6

**Prerequisites:** Instructor's consent

---

**RUSS 7205: Topics in 20th Century Russian Literature**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.

**Credit Hour:** 1-99

**Prerequisites:** Instructor's consent

---

**RUSS 7350: Special Readings in Russian**
RUSS 7420: Russian Poetry
(cross-leveled with RUSS 4420). Survey of readings in Russian poetry from its beginnings to present.

Credit Hours: 3

Prerequisites: instructor's consent

RUSS 7430: Russian Drama
(cross-leveled with RUSS 4430). Selected readings in and discussions of major Russian plays of the nineteenth and twentieth century.

Credit Hours: 3

RUSS 7435: Russian Prose
(cross-leveled with RUSS 4435). Explores the development of prose writing in modern Russian letters, paying special attention to native generic designations. Considers dual imagery of realist/naturalist and romantic/fantastic approaches. Studies diverse examples: rasskaz (story), the povest' (tale), the novella, novel essay, early 19th c. through 20th c. Considers ways in which literature can itself stand as a philosophical form.

Credit Hours: 3

RUSS 7550: Nabokov's Russian Fiction

Credit Hours: 3

RUSS 7730: Internship in Russian
Supervised introduction to the methodology of the teaching of elementary Russian; conducted in a classroom environment.

Credit Hours: 3

RUSS 7840: Totalitarianism and Culture
(same as GERMAN 7840; cross-leveled with GERMAN 4840, RUSS 4840). In this course, we will explore the politics and poetics of totalitarian culture by examining the paintings, music, sculptures, buildings, and films produced under the rule of these regimes. In the process, we will learn how Nazi and Soviet culture producers made carefully calibrated appeals to their respective mass audiences, drawing upon the German and Russian cultural traditions - and on scientific rhetorics of cultural history and racial destiny - in crafting their utopian visions of worlds transformed, wrongs righted, and societies perfected.

Credit Hours: 3

RUSS 7850: Revolution and Media in a Global Perspective
(same as GERMAN 7850; cross-leveled with RUSS 4850, GERMAN 4850). This course offers a historical and global survey of the rise of modern revolution, from France to Haiti to Russia to the Black Power movement and beyond. Drawing on media studies and cultural studies, we will explore how revolutions are tied up in specific medial environments. This entails asking how media spread revolution, whether in print and visual culture, in the broadcast media of the twentieth century, or in the digital landscapes of the twenty-first century, and how revolutions can be understood themselves as media events. In the process students will develop a critical vocabulary for discussing the role of media in political and cultural revolution and counter-revolution in a global perspective. Graded on A-F basis only.

Credit Hours: 3

RUSS 8050: Research in Russian
Translations or creative work not leading to thesis.

Credit Hour: 1-6

Prerequisites: instructor's consent

RUSS 8085: Problems in Russian and Slavonic Studies
Special problems in Slavic literature or linguistics.

Credit Hour: 1-99

Prerequisites: instructor's consent

RUSS 8090: Thesis Research in Russian
Independent research leading to a Master's thesis. Graded on S/U basis only.

Credit Hour: 1-6

Prerequisites: instructor's consent

RUSS 8220: Russian Intellectual History and Critical Theory I
Survey of Russian literary and cultural criticism of the 18th and 19th centuries. Course texts will include representative critical essays as well as selected literary texts. May be taken before or after RUSS 8230.

Credit Hours: 3

RUSS 8305: Topics in Slavic Linguistics
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.

Credit Hour: 1-6

Prerequisites: instructor's consent

RUSS 8405: Topics in Slavic Literatures
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.

Credit Hour: 1-6

Prerequisites: instructor's consent

RUSS 8510: The Art and Life of Pushkin
Gives a conceptual thematic overview of Alexander Pushkin's lyrical poetry, as well as some dramatic work and prose. Special attention paid to the parallel development of his artistic and religious beliefs. Poetry read in Russian; prose and dramatic poems in Russian and English.

Credit Hours: 3

RUSS 8650: Old Church Slavonic
Designed to familiarize student with the phonological system, inflectional morphology and most important literature of the oldest recorded Slavic language. Comparisons of OCS to modern Slavic languages.

Credit Hours: 3
Service Learning Courses

**SRV_LRN 1090: Independent Study-Service Learning**
Students participate in community service activities, attend regular meetings, conduct research, submit four journals, a short bibliography and a research paper on their service in the community.

**Credit Hour:** 1-3

**SRV_LRN 1090H: Independent Study-Service Learning - Honors**
Students participate in community service activities, attend regular meetings, conduct research, submit four journals, a short bibliography and a research paper on their service in the community.

**Credit Hour:** 1-3

**Prerequisites:** Honors eligibility required

**SRV_LRN 2021: MU Community Engagement Project**
The MU Community Engagement Project offers students the opportunity to engage in academically-based community services; project sections include tutoring and mentoring, public health policy and outreach, international services, and community development.

**Credit Hour:** 2-3

**SRV_LRN 2021H: MU Community Engagement Project - Honors**
The MU Community Engagement Project offers students the opportunity to engage in academically-based community services; project sections include tutoring and mentoring, public health policy and outreach, international services, and community development.

**Credit Hour:** 2-3

**Prerequisites:** Honors eligibility required

**SRV_LRN 2021HW: MU Community Engagement Project - Honors/Writing Intensive**
The MU Community Engagement Project offers students the opportunity to engage in academically-based community services; project sections include tutoring and mentoring, public health policy and outreach, international services, and community development.

**Credit Hour:** 2-3

**Prerequisites:** Honors eligibility required

**SRV_LRN 2021W: MU Community Engagement Project - Writing Intensive**
The MU Community Engagement Project offers students the opportunity to engage in academically-based community services; project sections include tutoring and mentoring, public health policy and outreach, international services, and community development.

**Credit Hour:** 2-3

Social Work Courses

**SOC_WK 1110: Introduction to the Social Work Major**
Students examine their interest in social work and other human service professions; learn of career possibilities in their interest area; and develop an educational plan to reach their goal.

**Credit Hour:** 1

**Prerequisites:** freshman or sophomore standing

**SOC_WK 1115: Social Welfare and Social Work**
Survey course that examines the history and development of social welfare in the United States and the profession of social work, as well as contemporary issues.

**Credit Hours:** 3

**SOC_WK 1200: Criminal Justice**
This course provides an introduction to the history and development of criminal justice in our country and includes policing and law enforcement, and the adjudication and court process as well as the terminology associated with each system. Theories on crime, prison, community corrections and reentry discussions for both juvenile and adult systems will be addressed. Emphasis will be placed on an overview to the major sociological and psychological perspectives on variations from normative individual and group behaviors prevalent in the U.S. society while providing a strengths perspective in which to understand them. Finally, this course will evaluate the delicate balance between community interest and personal freedom that criminal justice decision-making requires.

**Credit Hours:** 3

**SOC_WK 2000: Exploration in Social and Economic Justice**
(same as PEA_ST 2000). This course explores issues of fairness and equality in economic, political and social systems, and applies social justice principles to major social problems. Course may be repeated two times for credit. Graded on A-F basis only.

**Credit Hours:** 3
Credit Hours: 3
Prerequisites: ENGLSH 1000

(same as PEA_ST 2000). This course explores issues of fairness and equality in economic, political and social systems, and applies social justice principles to major social problems. Course may be repeated two times for credit. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ENGLSH 1000

SOC_WK 2200: Human Behavior in the Social Environment
The first of two required courses providing an introduction to selected theories, multidisciplinary knowledge, and perspectives into human development and behavior. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ENGLSH 1000 or sophomore standing

SOC_WK 2220W: Human Behavior in the Social Environment - Writing Intensive
The first of two required courses providing an introduction to selected theories, multidisciplinary knowledge, and perspectives into human development and behavior. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ENGLSH 1000 or sophomore standing

SOC_WK 3101: Topics in Social Work
Special and emerging topics in social work and social welfare. Subject, content and credit varies depending on available faculty and student interest. For undergraduate and graduate students.

Credit Hours: 1-3
Prerequisites: departmental consent required

SOC_WK 3101W: Topics in Social Work - Writing Intensive
Special and emerging topics in social work and social welfare. Subject, content and credit varies depending on available faculty and student interest. For undergraduate and graduate students.

Credit Hours: 1-3
Prerequisites: departmental consent required

SOC_WK 3320: Understanding Personality in a Social Context
Introduces students to diverse personality theories and examines background, key concepts, motivation, structure, development dynamics and applications of each theory in a social context. Required of all undergraduate social work majors.

Credit Hours: 3

SOC_WK 3350: Problems in Social Work
Research and independent study projects offered on a tutorial basis to undergraduate social work students.

Credit Hours: 1-3
Prerequisites: departmental consent required

SOC_WK 4101: Topics in Social Work
Special and emerging topics in social work and social welfare. Subject, content and credit varies depending on available faculty and student interest. May be repeated for credit.

Credit Hours: 1-6
Prerequisites: departmental consent required

SOC_WK 4310: Social Statistics
Descriptive, analytic techniques applied to qualitative and quantitative social data. Math Reasoning Proficiency Course.

Credit Hours: 4
Prerequisites: sophomore standing required

SOC_WK 4330: Addiction Treatment and Prevention
(cross-leveled with SOC_WK 7330). Provides knowledge generic to social work and other disciplines involved in substance abuse treatment. Integrated approach to problems of substance abuse and development of self-awareness are emphasized. Didactic and experiential methods employed.

Credit Hours: 3
Prerequisites: junior standing

SOC_WK 4370: Delinquency, Corrections and Social Treatment
(cross-leveled with SOC_WK 7370). Focuses on problems and causative factors in developing and maintaining delinquent and criminal behavior and attitudes: addressing critical and comparative understanding of social change strategies employed in this field.

Credit Hours: 3
Prerequisites: junior standing

SOC_WK 4390: Helping Strategies With Children and Adolescents
(cross-leveled with SOC_WK 7390). Theory and practice of work with children and adolescents. Focus on youth in transition, protective services and permanency planning, and special needs populations.

Credit Hours: 3
Prerequisites: junior standing

SOC_WK 4395: Death, Grief and Loss
(cross-leveled with SOC_WK 7395). This course is designed to provide an awareness of the impact of grief and loss whether as a result of a death or major life alteration. The perspective that grief exists in many contexts beyond death will be a focal point of the course. Theory associated with the process of dying, grief and grief resolution will be examined. Additionally, students will explore influencing factors such as life span development, religion, culture and personal responses to loss.

Credit Hours: 3
Prerequisites: junior standing

SOC_WK 4400: Domestic Violence
(same as WGST 4400; cross-leveled with SOC_WK 7400, WGST 7400). Covers history of the domestic violence movement, intimate partner violence theories and data, legislative and organizational policy issues, and intervention models for practice with individuals who have experienced domestic violence including co-occurring issues such as trauma.
**SOC_WK 4410: Law and Social Work Practice**
(cross-leveled with SOC_WK 7410). This course explores the intersection of human services, law, and policy. It explores how law shapes services directed at children, families, women, and racial and sexual minorities. Students learn to work with legal professionals, prepare for proceedings, and avoid malpractice.

**Credit Hours:** 3  
**Prerequisites:** Junior or Senior standing required

---

**SOC_WK 4450: Professional Perspectives on Child Welfare Services in the 21st Century**
(cross-leveled with SOC_WK 7450). This course examines the development and current state of child welfare services in America with an emphasis on the role of the public child welfare agency in delivery of those services. It is an overview course which addresses the relationship between practice issues in service delivery and administrative policy issues which enable and constrain service delivery activities. The overarching concepts of child safety, family stability, permanency for the child, and well-being of the child as a long-term outcome will be used to examine the five focal service delivery areas in child welfare; family support, preservation and reunification, child protection, foster placement, residential care, and adoptive services. This is a dual level BSW/MSW course and is an elective within the program's curricular structure. The differentiating objectives and assignments for the MSW members of the class are noted in the appropriate areas of the syllabus.

**Credit Hours:** 3  
**Prerequisites:** junior standing

---

**SOC_WK 4480: Helping Strategies with Older Persons**
This course is designed to provide knowledge and skill development for work with older adults and their families. It offers an intensive examination of the concepts and skills needed for effective social work practice with these populations. In particular, sociological, psychological, political, and economic factors affecting older adults will be examined as they relate to intervention, programmatic, and policy responses. Special attention will be given to assessment and intervention from macro, mezzo, and micro perspectives. The interrelationship between the aging person, the family, and society is explored since these factors affect all levels of practice. Content in this course related to the social and economic mission of the School of Social Work.

**Credit Hours:** 3  
**Prerequisites:** Junior standing

---

**SOC_WK 4710: Social Justice and Social Policy**
Based on the concepts of human need and social justice, a historical and analytical approach to social welfare policies and programs. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Social Work Professional Standing and departmental consent required

---

**SOC_WK 4711: Social Justice and Social Policy II**
Advanced course in the analysis of policies and programs relevant to social work and social welfare. Prepares students to understand and conduct policy analysis of public, voluntary, and proprietary human service organizations. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** SOC_WK 4710; Social Work Professional standing

---

**SOC_WK 4720: Variations in Human Behavior**
Basic concepts and principles regarding psychological/social dynamics of deviance; implications for social welfare policy and social interventions.

**Credit Hours:** 3  
**Prerequisites:** junior standing and departmental consent required

---

**SOC_WK 4730: Introduction to Social Work Practice**
Introductory, generalist practice theory course promoting student's understanding of professional social work practice as holistic, identifiable, unique configuration of knowledge, values and skills. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Social Work Professional Standing and departmental consent required

---

**SOC_WK 4740: Introduction to Community and Organizational Processes**
Introduction to contextual framework of social work practice with particular emphasis on community and organization as social systems. Graded on A-F basis only.

**Credit Hours:** 4  
**Prerequisites:** Social Work professional standing and departmental consent required

---

**SOC_WK 4750: Interaction Skills Workshop**
Generalist practice at individual, group and community levels. Group communication and social influence theories address generic and unique aspects of interaction across systems. Uses laboratory instruction. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Social Work Professional standing and departmental consent required

---

**SOC_WK 4760: Theory and Practice of Social Group Work**
Focuses on small group dynamics and models of group work practice suitable in all social work fields. Emphasizes practice theory and skills. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Social Work Professional standing

---

**SOC_WK 4770: Strategies of Direct Practice**
Examines social structures, processes, underlying assumptions/concepts of social change, client constellation, organizational arrangements, role relationships by which social workers define professional intervention.

**Credit Hours:** 3  
**Prerequisites:** SOC_WK 4730 and SOC_WK 4750; third semester professional program standing; departmental consent required

**Corequisites:** SOC_WK 4971 and SOC_WK 4970
SOC_WK 4770W: Strategies of Direct Practice - Writing Intensive
Examines social structures, processes, underlying assumptions/concepts of social change, client constellation, organizational arrangements, role relationships by which social workers define professional intervention.

Credit Hours: 3
Prerequisites: SOC_WK 4730 and SOC_WK 4750; third semester professional program standing; departmental consent required
Corequisites: SOC_WK 4971 and SOC_WK 4970

SOC_WK 4951: Research for Social Work Practice
This course introduces social work research and its relevance to practice, emphasizing the School of Social Work's social justice mission. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Social Work Professional standing or consent required

SOC_WK 4951W: Research for Social Work Practice - Writing Intensive
This course introduces social work research and its relevance to practice, emphasizing the School of Social Work's social justice mission. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Social Work Professional standing or consent required

SOC_WK 4952: Research Methods for Social Work
Survey of research methods germane to the development of the knowledge base of social work practice. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Social Work Professional standing or consent required

SOC_WK 4952W: Research Methods for Social Work - Writing Intensive
Survey of research methods germane to the development of the knowledge base of social work practice. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Social Work Professional standing or consent required

SOC_WK 4960: Special Readings in Social Work
Extensive readings in selected area or intensive reading in a special field.

Credit Hour: 1-3
Prerequisites: departmental consent required

SOC_WK 4970: Senior Professional Seminar
Integrative professional practice seminar for BSW students, focusing on the principles of generic social work and its application to direct practice in diverse fields, career planning and responsibilities. Enrollment is limited to students who have completed SOC_WK 2220, SOC_WK 4720, SOC_WK 4730, SOC_WK 4740, SOC_WK 4750, SOC_WK 4760, and SOC_WK 4770; and currently enrolled in SOC_WK 4770 and SOC_WK 4971.

Credit Hours: 3
Prerequisites: departmental consent required

SOC_WK 4971: Undergraduate Field Practicum
Supervised social work practice in a school-approved agency focusing on development of direct practice skills. Fall semester, three days per week. Graded on S/U basis only.

Credit Hours: 6
Prerequisites: senior standing; SOC_WK 2220, SOC_WK 4710, SOC_WK 4730, SOC_WK 4740, SOC_WK 4750, SOC_WK 4760, and SOC_WK 4770; departmental consent required
Corequisites: SOC_WK 4971 and SOC_WK 4970

SOC_WK 4971H: Advanced Study for Social Work Honors
Individual study and research or practicum leading to Honors in Social Work. Enrollment is limited to students accepted into the Professional BSW Program and for Social Work Honors. Enrollment is limited to students who are Honors eligible, have an Social Work Honors application, completed SOC_WK 2220 and completed or currently enrolled in SOC_WK 4730, SOC_WK 4740 and SOC_WK 4750.

Credit Hours: 3-6
Prerequisites: Instructor's consent

SOC_WK 7000: Professional Social Work Practice
This course introduces the social work profession within a historical and contemporary context, provides an overview of key concepts, standards and regulations, and assists students in examining personal and professional values and ethics related to practice. Graded on an A-F basis only.

Credit Hour: 1

SOC_WK 7001: Topics in Social Work
Special and emerging topics in social work and social welfare. Subject, content, and credit varies depending on available faculty and student interest.

Credit Hour: 1-3
Prerequisites: departmental consent required

SOC_WK 7085: Problems in Social Work
Intensive study of an area of social welfare related to special interest of student.

Credit Hour: 1-6
Prerequisites: departmental consent required

SOC_WK 7220: Advanced Social Work Practice in Integrated Healthcare
The course will introduce students to the essential practice skills needed to effectively address the challenges of integrating services, care, and support for persons with health, mental health, and substance use problems. Graded on A-F basis only.

Credit Hours: 3

SOC_WK 7230: Integrative Behavioral Health Clinic
This is an elective course devoted to assessment, intervention and research with under-served individuals, couples, groups and families. This course is facilitated as a skills-training laboratory. Intervention methods will be applied to client's coping with major life stressors and relational problems. Students should leave this course with increased
confidence in their ability to analyze patterns, assess, and intervene using diverse clinical methods. Graded on A-F basis only.

Credit Hour: 2-4
Prerequisites: Masters of Social Work students only

SOC_WK 7320: Rural Human Services
A study of the effect of rural and small community environments on the planning and delivery of social and health services. Emphasis on policy and program analyses relevant to rural issues and concerns.

Credit Hours: 3

SOC_WK 7330: Addiction Treatment and Prevention
(cross-leveled with SOC_WK 4330). Provides knowledge generic to social work and other disciplines involved in substance abuse treatment. Integrated approach to problems of substance abuse and development of self-awareness are emphasized. Didactic and experiential methods employed.

Credit Hours: 3

SOC_WK 7340: Military Culture
An introduction to the branches of the military and related cultural issues. Examines the historical and contemporary complexities of military service and personal and professional values and ethics related to practice with military personnel, families, and veterans. Graded on A-F basis only.

Credit Hours: 3

SOC_WK 7370: Delinquency, Corrections and Social Treatment
(cross-leveled with SOC_WK 4370). Focuses on problems and causative factors in developing and maintaining delinquent and criminal behavior and attitudes: addressing critical and comparative understanding of social change strategies employed in this field.

Credit Hours: 3

SOC_WK 7390: Helping Strategies With Children and Adolescents
(cross-leveled with SOC_WK 4390). Theory and practice of work with children and adolescents. Focus on youth in transition, protective services and permanency planning, and special needs populations.

Credit Hours: 3

SOC_WK 7395: Death, Grief and Loss
(cross-leveled with SOC_WK 4395). This course is designed to provide an awareness of the impact of grief and loss whether as a result of a death or major life alteration. The perspective that grief exists in many contexts beyond death will be a focal point of the course. Theory associated with the process of dying, grief and grief resolution will be examined. Additionally, students will explore influencing factors such as life span development, religion, culture and personal responses to loss.

Credit Hours: 3

SOC_WK 7400: Domestic Violence
(same as WGST 7400; cross-leveled with SOC_WK 4400, WGST 4400). Covers history of the domestic violence movement, intimate partner violence theories and data, legislative and organizational policy issues, and intervention models for practice with individuals who have experienced domestic violence including co-occurring issues such as trauma.

Credit Hours: 3

SOC_WK 7410: Law and Social Work Practice
(cross-leveled with SOC_WK 4410). This course explores the intersection of human services, law, and policy. It explores how law shapes services directed at children, families, women, and racial and sexual minorities. Students learn to work with legal professionals, prepare for proceedings, and avoid malpractice.

Credit Hours: 3

SOC_WK 7450: Professional Perspectives on Child Welfare Services in the 21st Century
(cross-leveled with SOC_WK 4450). This course examines the development and current state of child welfare services in America with an emphasis on the role of the public child welfare agency in delivery of those services. It is an overview course which addresses the relationship between practice issues in service delivery and administrative policy issues which enable and constrain service delivery activities. The overarching concepts of child safety, family stability, permanency for the child, and well-being of the child as a long term outcome will be used to examine the five focal service delivery areas in child welfare; family support, preservation and reunification, child protection, foster placement, residential care, and adoptive services. This is a dual level BSW/MSW course and is an elective within either program's curricular structure. The differentiating objectives and assignments for the MSW members of the class are noted in the appropriate areas of the syllabus.

Credit Hours: 3

Intensive seminar in meso-level practice in the field of child welfare. Examines communication theory, team building, and interorganizational dynamics as they affect professional practice in child welfare.

Credit Hours: 3

Prerequisites: departmental consent required

SOC_WK 7480: Helping Strategies with Older Persons
Focus on interdisciplinary methods of assessment and intervention strategies designed to optimize healthy functioning for older persons and their families.

Credit Hours: 3

Prerequisites: departmental consent required

SOC_WK 7485: Military Social Work
An overview of military culture, resilience, challenges, and behavioral health needs of military personnel and veterans. Content draws on theories and research relevant to this population. Graded on A-F basis only.

Credit Hours: 3
SOC_WK 7490: Family Treatment
Comparative study of theories and methods required for work with problems of family functioning. Both conjoint and subsystem approaches to family treatment are examined.

Credit Hours: 3
Prerequisites: departmental consent required

SOC_WK 7530: Contemporary Issues in Human Trafficking
(cross-leveled with SOC_WK 4530). This three hour course gives an overview of modern human trafficking typologies, issues, and responses. We will cover theories, policies, and intervention practices that drive our prevention and response for working with victims and survivors of this human rights abuse. Graded on A-F basis only.

Credit Hours: 3

SOC_WK 7710: Social Policy and Service Delivery in Social Work
Covers historic and contemporary issues in social welfare policy. Focuses on relationships among social problems, public policies, private actions, poverty, racism, sexism and social work practice/values. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: restricted to graduate Social Work majors

SOC_WK 7720: Foundations of Human Behavior
Substantive sources from behavioral sciences used in social work toward understanding the biosocial processes and constraints of human development.

Credit Hours: 3
Prerequisites: restricted to graduate Social Work majors

SOC_WK 7730: Social Work Skills
Introduces theory and application of strengths-based generalist practice. Develops knowledge, values, and techniques of professional social work practice at micro, mezzo, and macro levels, emphasizing assessment and interaction skills.

Credit Hours: 3
Prerequisites: graduate standing in social work; Foundation level course

SOC_WK 7740: Large Group Theory
Examination of social environment in which social work is practiced with particular emphasis on development of analytic framework for understanding formal organizations and communities.

Credit Hour: 2-3
Prerequisites: graduate standing in Social Work

SOC_WK 7751: Psychosocial Function and Older Adults
(same as ARCHST 7650, F_C_MD 7751, H_D_FS 7751, NURSE 7751, P_HLTH 7751 and HMI 7751). This course takes an Interdisciplinary approach to understanding the psychosocial function of older adults and explores approaches to alleviate disabling conditions that interfere with psychosocial function and quality of life in old age. Graded on A-F basis only.

Credit Hours: 3

SOC_WK 7760: Social Justice Seminar
Provides integrative learning experience in social work practice in foundation level social work practice focusing on social and economic justice experiences in field practicum.

Credit Hours: 2
Prerequisites: restricted to graduate Social Work majors
Corequisites: SOC_WK 7971

SOC_WK 7770: Strategies of Clinical Social Work Intervention
Strategies of social treatment with individuals and small groups applicable to practice in public and private social agency settings.

Credit Hours: 3
Prerequisites: graduate standing in social work; departmental consent required

SOC_WK 7780: Fundamentals of Social Work Administration
Basic managerial skills which social workers need for supervision, planning, staff development and administrative positions in social agencies; focus on individual management functions and skills associated with them.

Credit Hours: 3
Prerequisites: restricted to graduate Social Work majors

SOC_WK 7820: DSM V and Psychopathology: A Social Work Perspective
Examines psychopathology of human behavior within social work context, prevailing diagnostic models (Diagnostic and Statistical Manual of Mental Disorders V), and historically oppressive categorizations.

Credit Hours: 3
Prerequisites: Graduate standing in Social Work

SOC_WK 7920: Advanced Foundations of Human Behavior for Administrators
Examination of relevant theoretical and behavioral foundations in order that students can acquire the knowledge to function as a social work administrator.

Credit Hours: 3
Prerequisites: graduate Social Work majors

SOC_WK 7952: Research Methods in Social Work
Examines research methodology and design as applied to the study of social work techniques and problems. Emphasizes differential uses of scientific observation and techniques for developing knowledge and improving practice.

Credit Hours: 3
Prerequisites: Graduate Social Work Majors

SOC_WK 7971: Graduate Field Practicum I
Supervised social work practice in a school-approved agency providing a full range of interventive experiences. Graded on S/U basis only.

Credit Hour: 2-4
Prerequisites: admission to MSW program; SOC_WK 7710, SOC_WK 7720, SOC_WK 7730, SOC_WK 7740, SOC_WK 7760. Departmental Consent Required
SOC_WK 8010: Child Abuse and Neglect Assessment and Intervention
In-depth exploration of identification of and interventions with abused/ neglected children and their families. Examines roles for social work with both victims and perpetrators. Examines how environmental factors affect successful intervention.

Credit Hours: 3
Prerequisites: SOC_WK 7770; instructor's consent for non MSW students

SOC_WK 8020: Social Work in Schools
The course focuses on the etiology and development of child and adolescent educational, social, emotional, and behavioral health disorders encountered, identified and treated in school settings. Educational disabilities and related polices and the interdisciplinary nature of school settings will be highlighted. Graded on A-F basis only.

Credit Hours: 3

SOC_WK 8050: Resiliency and Solution-Focused Practice
Focuses on brief therapy approaches to dealing with clinical problems in a time-efficient, clinically effective method. Various approaches to solution-oriented work based in resiliency theory are presented. Stresses client empowerment across the lifespan.

Credit Hours: 3
Prerequisites: Social Work [SOC_WK] 7770; graduate level Social Work Majors only. Graded on A/F basis only

SOC_WK 8060: Trauma Informed Practice and Intervention
This clinical practice course focuses on evidence-based techniques for intervening with survivors of trauma. Content includes developmental theories on trauma and attachment, holistic and culturally aware assessment of post-traumatic stress disorder, the impact of trauma on the development of 'self', and evidence-based models for micro clinical practice. Resiliency, generational trauma, and trauma-informed agency are additional topics used to facilitate learning.

Credit Hours: 3
Prerequisites: SOC_WK 7770; graduate level Social Work majors only

SOC_WK 8070: Cognitive Behavioral Practice
Focuses on the theory, concepts, and techniques of cognitive behavioral therapies, with a particular emphasis on clinical intervention methods that may be used by the social worker to address specific client needs. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: SOC_WK 7770. Restricted to graduate Social Work majors

SOC_WK 8080: Introduction to Dialectical Behavioral Therapy Practice
This course is an introduction to the theory, concepts and practice of Dialectical Behavioral Therapy, an evidenced-based practice and form of cognitive-behavioral treatment. There will be an emphasis on application methods across settings that a social worker may use to work with clients with pervasive emotion dysregulation as well as other difficult to treat clients where other forms of treatment have not been effective. Graded on A-F basis only.

Credit Hours: 3

SOC_WK 8080: Introduction to Dialectical Behavioral Therapy Practice

SOC_WK 8210: Disability Rights Advocacy
Highlights historical views of disabilities in relationship to contemporary policies, programs and services. This cross-disability focus examines the shift in focus from cure, care, and treatment to participation, capabilities, adapting environments, and building community. Graded on A-F basis only.

Credit Hours: 3

SOC_WK 8220: Integrated Health Policy and Services
The course focuses on the role of social workers as social policy practitioners within an Integrated Behavioral Health environment. Strategies to influence policies and promote change in the interest of service consumer, agency, and society will be presented. Graded on A-F basis only.

Credit Hours: 3

SOC_WK 8240: Social Policy for Older Adults
Examines local, state, and federal social policies related to older adults highlighting challenges related to diverse and special needs. Students will explore and appraise needs, values, ageism, and human rights related to social policies for older adults.

Credit Hours: 3

SOC_WK 8350: Management of a Social Agency
Basic resource management and control techniques common to social agencies with emphasis on personnel management, information and data management, and fiscal management.

Credit Hours: 3

SOC_WK 8350: Management of a Social Agency

SOC_WK 8520: Evaluative Research in Clinical Social Work Practice
Develop ability to systematically evaluate effectiveness of interventive strategies designed to produce positive change in clients' environment and/or cognitive, affective and behavioral functioning.

Credit Hours: 3
Prerequisites: SOC_WK 7952. Restricted to graduate Social Work majors

SOC_WK 8530: Evaluative Research in Social Work
Develop ability to design and implement appropriate evaluative research methods and strategies employed in social and human service delivery.

Credit Hours: 3

SOC_WK 8530: Evaluative Research in Social Work

SOC_WK 8950: Independent Study in Social Work
Intensive investigation of phenomena germane to area of concentration carried out with guidance of faculty. May include data collection; leads to a written report in publishable format.
**SOC_WK 8970: Professional Practice Seminar I**
Provides integrative learning experience in social work practice in an area of beginning specialization in autonomous social work practice.

**Credit Hours:** 1-6  
**Prerequisites:** departmental consent required

**SOC_WK 8971: Graduate Field Practicum II**
Field instruction tailored to concentration interests, developing depth in clinical skills in direct service or in planning and administration. Graded on S/U basis only.

**Credit Hours:** 1-13  
**Prerequisites:** Restricted to graduate Social Work majors. Completion of all required graduate coursework except SOC_WK 8970  
**Corequisites:** SOC_WK 8970

**SOC_WK 9001: Topics in Social Work**
Special and emerging topics in social work and social welfare. Subject, content, and credit varies depending on available faculty and student interest. May be repeated for credit.

**Credit Hours:** 1-3  
**Prerequisites:** departmental consent required

**SOC_WK 9090: Research in Social Work**
Research in Social Work. Graded on S/U basis only.

**Credit Hours:** 1-12

**SOC_WK 9100: Knowledge Building I**
Advanced systemic review of theories requisite for study and implementation of practice and policy centered research in social welfare and development; emphasis placed on critical analysis of theories needed for research and study of integrated social development.

**Credit Hours:** 3  
**Prerequisites:** departmental consent required

**SOC_WK 9150: Advanced Quantitative and Qualitative Methods in Social Research**
The course provides an in-depth understanding of the use of both quantitative and qualitative methods. The curriculum emphasizes an integration of quantitative and qualitative approaches, methods, and data analysis. Computer application sessions are included. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** departmental consent required

**SOC_WK 9300: Research Methodology and Design Seminar**
Review of historical development of social welfare and social work research with emphasis on critical analysis of seminal studies; examination of 'state-of-the-art' social welfare and development initiatives, designs and methodology.

**Credit Hours:** 1-3  
**Prerequisites:** departmental consent required

**SOC_WK 9350: Advanced Quantitative and Qualitative Methods in Social Research**
The course provides an in-depth understanding of the use of both quantitative and qualitative methods. The curriculum emphasizes an integration of quantitative and qualitative approaches, methods, and data analysis. Computer application sessions are included. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** departmental consent required

**SOC_WK 9400: Macro Social Theory**
(Same as NURSE 9400). Building on the foundation laid in SOC_WK 9100, in depth examination of human development and social environment theories appropriate to scientific examination of social welfare practice with formal organizations, interorganizational combinations, communities and larger political entities.

**Credit Hours:** 3  
**Prerequisites:** SOC_WK 9300 or permission of instructor

**SOC_WK 9450: Pedagogical Methods in Social Work and Applied Professional Programs**
An in depth examination of the pedagogical issues, policies, and principles associated with teaching social work in higher education. Topics include the history and philosophy of social work education, instructional models and methods, assessing educational outcomes, and instructional improvement methods. Issues specific to social work include the need to differentiate teaching methods relative to direct practice, human services administration, community organization, policy practice, and program evaluation. Particular focus will be directed toward online education and its role in the 21st century. Graded on S/U basis only.

**Credit Hours:** 1

**SOC_WK 9500: Pro Seminar I**
Joint student-faculty exercise in intellectual discovery focusing on current and emerging issues in the field of social work and social development; emphasis on integration of multi-disciplinary perspectives. Graded on S/U basis only.

**Credit Hours:** 1  
**Prerequisites:** departmental consent required

**SOC_WK 9600: Professional Seminar II**
This second seminar focuses on topics related to long term professional success for doctoral students. The seminar covers topics on conference presentations, peer-reviewed publications, external funding, and academic job search process. Graded on S/U basis only.

**Credit Hour:** 1

**SOC_WK 9650: Pedagogical Methods in Social Work and Applied Professional Programs**
An in depth examination of the pedagogical issues, policies, and principles associated with teaching social work in higher education. Topics include the history and philosophy of social work education, instructional models and methods, assessing educational outcomes, and instructional improvement methods. Issues specific to social work include the need to differentiate teaching methods relative to direct practice, human services administration, community organization, policy practice, and program evaluation. Particular focus will be directed toward online education and its role in the 21st century. Graded on S/U basis only.

**Credit Hour:** 1

**SOC_WK 9700: Social Welfare Policy Seminar**
(Same as NURSE 9700). Critical examination of comparative models of social policy development; preparation of a professional social work policy analysis in the student's area of interest/specialization that is suitable for submission to an appropriate referred journal.
SOC_WK 9800: Research Application I
Research practicum for Social Work doctoral students.

Credit Hours: 3
Prerequisites: departmental consent required

SOC_WK 9850: Research Application II
Research Practicum. In most cases it will be a second research practicum but may also be a continuation of the research conducted in SOC_WK 9800. Prerequisites: departmental consent required

Credit Hour: 1-3

SOC_WK 9890: Dissertation Seminar
This course will assist doctoral students in planning and writing the dissertation.

Credit Hours: 3
Prerequisites: departmental consent required

SOC_WK 9900: Doctoral Dissertation Research in Social Work
Independently conducted research that includes concept development, data collection, statistical analysis and social policy implications prepared in a format suitable for publication. Graded on S/U basis only.

Credit Hour: 1-99
Prerequisites: departmental consent required

Sociology Courses

SOCIOL 1000: Introduction to Sociology
Nature of organization and activities of human groupings-family, community, crowd, social class, etc.; structure, function of institutions; social influences shaping personality, behavior, social change. No credit for both SOCIOL 1000 and RU_SOC 1000.

Credit Hours: 3

SOCIOL 1000H: Introduction to Sociology Honors
Nature of organization and activities of human groupings-family, community, crowd, social class, etc.; structure, function of institutions; social influences shaping personality, behavior, social change. No credit for both SOCIOL 1000 and RU_SOC 1000.

Credit Hours: 3
Prerequisites: Honors eligibility required

SOCIOL 1010: Social Problems
Introduces a sociological perspective on what constitutes social problems and their impact on individuals and societies. Emphasizes critical thinking skills. Topics covered may include poverty, inequalities of gender, race, class, religion, education, and political power, the environment and global conflicts among others.

Credit Hours: 3

SOCIOL 1120: Population and Ecology
(same as RU_SOC 1120 and PEA_ST 1120). Changes in the structure and characteristics of population groups and their relationship to both human and non-human aspects of the biophysical environment.

Credit Hours: 3

SOCIOL 1360: The Female Experience: Body, Identity, Culture
(same as WGST 1360). Study of the experience of being female in American culture. Course will focus on development of women's identities through such topics as: sexuality, reproduction, self-image, rape and health care.

Credit Hours: 3

SOCIOL 1650: Social Deviance
Survey of approaches to the study of behaviors commonly regarded as deviant such as crime, sexual abuse, substance abuse, mental illness, etc.

Credit Hours: 3

SOCIOL 2103: Topics in Sociology-Behavioral Science
Organized study of selected topics. Particular topics may vary from semester to semester. Departmental consent for repetition.

Credit Hour: 1-3

SOCIOL 2182: Critical Dialogues: Nonviolence in Peace/Democracy Movements
(same as PEA_ST 2182). History and theory of movements for peace, justice, and democracy. Development of violent and nonviolent tactics and factions in movements; relationship to state authority. Cases such as Gandhi's Independence, American Civil Rights, Arab Spring, and Occupy movements.

Credit Hours: 3
Recommended: PEA_ST 1050

SOCIOL 2182W: Critical Dialogues: Nonviolence in Peace/Democracy Movements - Writing Intensive
(same as PEA_ST 2182W). History and theory of movements for peace, justice, and democracy. Development of violent and nonviolent tactics and factions in movements; relationship to state authority. Cases such as Gandhi's Independence, American Civil Rights, Arab Spring, and Occupy movements.

Credit Hours: 3
Recommended: PEA_ST 1050

SOCIOL 2200: Social Inequalities
(same as BL_STU 2200). Survey of inequalities based upon criteria such as race, ethnicity, sex, age, religion and social class in contemporary societies. Focus on dynamics by which privilege and inequalities are structured.

Credit Hours: 3

</tbody>
</table>
Prerequisites: Sociology majors only. Non-sociology majors may petition the instructor to add the course.

SOCIOL 3200: Class, Status, and Power
Study of the structure of wealth, poverty, prestige, and power. Concepts of social justice in political, economic and legal issues and policies. Provides student engagement in research.
Credit Hours: 3

SOCIOL 3210: Sociology of Globalization
Globalization's origin and dynamics; the social and political effects of globalization; countervailing forces to economic globalization, in particular reassortment of 'traditional' identities, labor movements, new social movements, and the global democracy movement.
Credit Hours: 3

SOCIOL 3230: Sociology of Gender
(same as WGST 3320). Study of the ways in which femininities and masculinities are constructed in American society with particular attention to gender ideologies and the gendered nature of the social structure.
Credit Hours: 3

SOCIOL 3235: Youth in Today's World
Study of what factors influence the development of youth in today's society. Examined are types of behavior such as mating, deviance and the role of schools, parents, TV and friendship groups.
Credit Hours: 3

SOCIOL 3250: Education and Social Inequalities
Examination of the ways in which inequalities are constructed, reproduced, maintained or transformed by and within educational institutions. Particular attention will be given to inequalities based on gender, race, and social class.
Credit Hours: 3

SOCIOL 3310: Social Psychology - Writing Intensive
Survey of theories and research concerned with the ways in which individuals construct social situations and are affected by them. Topics covered include self-identities, social influence, personal relationships, prejudice and discrimination.
Credit Hours: 3

SOCIOL 3320: Sociology of Gender
(same as WGST 3320). Study of the ways in which femininities and masculinities are constructed in American society with particular attention to gender ideologies and the gendered nature of the social structure.
Credit Hours: 3

SOCIOL 3325: Youth in Today's World
Study of what factors influence the development of youth in today's society. Examined are types of behavior such as mating, deviance and the role of schools, parents, TV and friendship groups.
Credit Hours: 3

SOCIOL 3330: Environmental Justice
(same as PEA_ST 3330). Environmental justice refers to the ways in which the 'cost and benefits' of modern industrial society are distributed among social groups. This course is concerned with justice, not as an abstract concept, and inequality not in terms of numbers in a bank account. Social justice or inequality are lived, embodied experiences. An individual's likelihood of experiencing environmental harm is related to intersecting gender, race and class formations, among other things. Justice or inequality is not only embodied, it also happens in places--national and regional differences matter. In this course we will look at some of the extensive literature documenting the ways in which communities of color and poor communities are subject to disproportionate environmental risks. In addition, we will focus on gender as an important category in understanding environmental inequality.
Credit Hours: 3

SOCIOL 3340: Fake News and Media Politics
(same as PEA_ST 3400). In this course we study the political impact of the growing concentration of media ownership in the U.S. We develop critical thinking skills to identify 'fake news,' and types of media bias to compare U.S. media coverage of current issues with media in other parts of the world.
Credit Hours: 3

SOCIOL 3340W: Fake News and Media Politics - Writing Intensive
(same as PEA_ST 3400). In this course we study the political impact of the growing concentration of media ownership in the U.S. We develop critical thinking skills to identify 'fake news,' and types of media bias to compare U.S. media coverage of current issues with media in other parts of the world.
Credit Hours: 3

SOCIOL 3420: The Family
Families, kin and households as interacting groups; roles, socialization, problems, structural change; family in relation to other social institutions; historical, cultural and class variations.
Credit Hours: 3

SOCIOL 3430: The Sociology of Sport
The role of sport in modern society. Includes violence in sport; politics and economics of sport; male, female, and racial inequalities; and international comparisons of sport structures.
SOCIOL 3440: Sociology of Health
A survey of sociological thinking and research on health, health problems, health occupations and health services. How these are shaped by the society. Problems faced by individuals and the system. Potential solutions to problems.
Credit Hours: 3

SOCIOL 3450: The Sociology of Religion
Sociology of religious experience, action, organization, movements and social change; contemporary trends, including mainline and new religions, civil religion, secularization.
Credit Hours: 3

SOCIOL 3460: Technology and Society
In the last few decades science and technology have permeated our lives as never before. This has led to wide ranging intellectual debates and social movements in and around the issue of relationship between science, technology, and society. This course, which is organized on a lecture-seminar format, will critically investigate different aspects of the relationship between science, technology, and society. Graded on A-F basis only.
Credit Hours: 3

SOCIOL 3460W: Technology and Society - Writing Intensive
In the last few decades science and technology have permeated our lives as never before. This has led to wide ranging intellectual debates and social movements in and around the issue of relationship between science, technology, and society. This course, which is organized on a lecture-seminar format, will critically investigate different aspects of the relationship between science, technology, and society. Graded on A-F basis only.
Credit Hours: 3

SOCIOL 3520: Collective Behavior
(same as PEA_ST 3520). Analysis of crowd behavior and related phenomena: rumors, disasters, fashions. Social responses to unclear, dangerous or unjust conditions. The dynamics of conflict, consensus and change.
Credit Hours: 3

SOCIOL 3520W: Collective Behavior - Writing Intensive
(same as PEA_ST 3520). Analysis of crowd behavior and related phenomena: rumors, disasters, fashions. Social responses to unclear, dangerous or unjust conditions. The dynamics of conflict, consensus and change.
Credit Hours: 3

SOCIOL 3522: New Media, Conflict and Control
(same as PEA_ST 3522). This course will explore the increasing role of new media tools in conflict and surveillance. Examples from recent conflicts will illustrate how citizens and regimes use new media to communicate, report, mobilize, monitor, and/or control. Students will utilize new media as they research instances of democracy and control.
Credit Hours: 3

SOCIOL 3600: Criminology
(same as PEA_ST 3600). Sociology of law; constitutional, psychological, sociological theories of criminal behavior; process of criminal justice; treatment of corrections; control of crime.
Credit Hours: 3

SOCIOL 3700: Institutions and Society
Institutions of societies with focus on institutional arrangements (economy, polity, media, education, religion); organizational structures; interorganizational networks; interrelations of institutional sectors.
Credit Hours: 3

SOCIOL 3710: The Sociology of Work
Analysis of occupational, professional aspects of American society. Division of labor; occupational mobility; work and the self; colleagueship and informal organizations of work.
Credit Hours: 3

SOCIOL 3710W: Work in the 21st Century - Writing Intensive
Analysis of occupational, professional aspects of American society. Division of labor; occupational mobility; work and the self; colleagueship and informal organizations of work.
Credit Hours: 3

SOCIOL 3942: Service Learning in Sociology
The service learning course combines an independent study with a faculty member with practical experience in a related non-profit or other worksite.
Credit Hours: 3

SOCIOL 3950: Social Research I
(same as RU_SOC 3950). Introduction to principles of methodology; theory and research; survey of basic research designs and perspectives; preparation for understanding and conducting social research.
Credit Hours: 3

SOCIOL 3950W: Social Research I - Writing Intensive
(same as RU_SOC 3950W). Introduction to principles of methodology; theory and research; survey of basic research designs and perspectives; preparation for understanding and conducting social research.
Credit Hours: 3

SOCIOL 4104: Topics in Sociology-Social Science
Organized study of selected topics. Particular topics may vary from semester to semester. May be repeated for credit with departmental consent.
Credit Hours: 3
SOCIOL 4210: Aging and the Life Course
Course will take a life course perspective on the sociological aspects of aging in contemporary American society. Begins with birth, then childhood, adolescence, emergent adulthood, middle life, old age, and death. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Junior standing or above
Recommended: At least three credits in Sociology prior to enrollment is preferred

SOCIOL 4220: Race and Ethnic Relations
The experience of racial and ethnic minorities; inequality, assimilation, ethnic and racial conflict, accommodation.
Credit Hours: 3
Prerequisites: junior standing or instructor's consent

SOCIOL 4230: Women, Development, and Globalization
(same as BL_STU 4230 and WGST 4230; cross-leveled with BL_STU 4230, WGST 4230 and SOCIOL 7230.). Examines the history and structure of ‘development’ discourse and practices. Stresses the interconnections and impact on women globally. Reviews women's strategies in defining and instituting programs to improve quality of life in communities.
Credit Hours: 3

SOCIOL 4315: Social Demography
(same as RU_SOC 4315). General demographic theories; age, sex, and ethnic composition of population; fertility, mortality and migration as components of population change; social, economic and political implications of demographic trends.
Credit Hours: 3
Prerequisites: SOCIOL 1000 or RU_SOC 1000 and junior standing

SOCIOL 4320: Culture, Identity and Interaction
Examines the interplay between culture, identity, and interaction as these intersect with issues of social inequality, social control, social change, and the everyday production of subjectivities.
Credit Hours: 3
Prerequisites: SOCIOL 3310 graduate standing or instructor's consent

SOCIOL 4335: Social Change and Development
(same as RU_SOC 4335). Nature of social change and development. Emphasizes sociological theories of social change and development contrasting them with approaches from the disciplines.
Credit Hours: 3
Prerequisites: RU_SOC 1000 or SOCIOL 1000 and junior standing

SOCIOL 4370: Environment and Society
(same as RU_SOC 4370). An interdisciplinary examination of domestic and international environmental issues focusing on social, cultural, and policy dimensions. Perspectives of the social sciences and humanities are included.
Credit Hours: 3

SOCIOL 4450: Research Practicum in Health, Place, and Community
(cross-leveled with SOCIOL 7450). This course is a research practicum with a substantive focus on health, place, and community. The course combines lecture and field work outside the classroom. Students take part in real-world research projects with local organizations, government agencies, and/or businesses. Projects are based on the needs of participating organizations and will be conducted using a variety of research methodologies. Students will engage in data analysis, write research reports for community partners, and present findings as applicable. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: SOCIOL 2950, SOCIOL 3950, or equivalent. Junior or senior standing

SOCIOL 4500: Sociology of Social Policy
Sociological theories and methodologies focused on social policy; policy as process; contextual and critical policy analyses; assessing policy effects and consequences.
Credit Hours: 3
Prerequisites: senior standing

SOCIOL 4510: Social Movements and Conflicts
Survey of approaches and research on social movements and social change. Historical and contemporary social movements in the U.S.; collective protest and violence; political revolutions. MA core course.
Credit Hours: 3
Prerequisites: SOCIOL 3520, SOCIOL 3700, or SOCIOL 3320 or graduate standing

SOCIOL 4520: Political Sociology
(same as PEA_ST 4520). Social bases of power and politics, economic and political elites, the political economy of the advanced societies, sources of political conflict and change.
Credit Hours: 3
Prerequisites: SOCIOL 3200, SOCIOL 3510, SOCIOL 3520, or SOCIOL 3700

SOCIOL 4545: Sociology of Immigration
(cross-leveled with SOCIOL 7450). This course is a research practicum with a substantive focus on health, place, and community. The course combines lecture and field work outside the classroom. Students take part in real-world research projects with local organizations, government agencies, and/or businesses. Projects are based on the needs of participating organizations and will be conducted using a variety of research methodologies. Students will engage in data analysis, write research reports for community partners, and present findings as applicable. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: SOCIOL 3520, SOCIOL 3700, or SOCIOL 3320 or graduate standing

SOCIOL 4550: Gender and Human Rights in Cross Cultural Perspective
(same as WGST 4550 and PEA_ST 4550; cross-leveled with WGST 7550, SOCIOL 7550, PEA_ST 7550). This course focuses on the global discourse on human rights and gender, emphasizing cross-cultural theories. Course includes the meaning of rights, Western and non-western perspectives, feminist contributions, important substantive debates, violations, policymaking and activism.
Credit Hours: 3
Prerequisites: WGST 1120 or SOCIOL 2200; senior standing required

SOCIOL 4610: Society and Social Control
(cross-leveled with SOCIOL 7610). The concept of social control is analyzed from both micro and macro theoretical perspectives. Focus is on patterns of social domination.
Credit Hours: 3
Prerequisites: SOCIOL 3700 or SOCIOL 3710

SOCIOL 4620: Drugs and Society
Course will examine the social, political, and economic aspects of legal and illegal drug use in American society. Issues include: theories of drug use, the social correlates of drug use, the war on drugs and policy alternatives, and the rise of the pharmaceuticals industry. Graded on A/F basis only
Credit Hours: 3
Recommended: 1000 level sociology course or 1000 level Psychology course

SOCIOL 4630: Sociology of Mental Health
Course examines the social aspects of mental health and illness. Topics include: stress and mental health, medicalization of behavior, stigma and labeling, mental health care systems, social correlates of mental health (such as gender, childhood, work status, and social support).
Credit Hours: 3

SOCIOL 4940: Internship in Sociology
Professional experience under faculty supervision. Project must be arranged by student and faculty member prior to registration.
Credit Hour: 1-9
Prerequisites: junior standing and instructor's consent

SOCIOL 4950: Research in Sociology
Students gain research experience by assisting a faculty member with a research project in sociology. Enrollment is limited to Sociology majors with Junior standing. Repeatable upon consent of the department.
Credit Hours: 3
Prerequisites: SOCIOL 2950

SOCIOL 4960: Special Readings in Sociology
Extensive reading in selected area or special field.
Credit Hour: 1-99
Prerequisites: 12 hours Sociology and departmental consent

SOCIOL 4970: Senior Seminar
Integrates perspectives, methods, substantive foci of undergraduate courses. Analysis of sociology as a discipline and profession. Discussion of opportunities for graduate study, employment.
Credit Hours: 3
Prerequisites: SOCIOL 2950 and SOCIOL 3100 and senior sociology major

SOCIOL 4970W: Senior Seminar - Writing Intensive
Integrates perspectives, methods, substantive foci of undergraduate courses. Analysis of sociology as a discipline and profession. Discussion of opportunities for graduate study, employment.
Credit Hours: 3
Prerequisites: SOCIOL 2950 and SOCIOL 3100 and senior sociology major

SOCIOL 4995: Honors in Sociology
Intensive work in a selected field within sociology, including readings and research. Repeatable up to 6 hours with departmental consent.
Credit Hours: 3
Prerequisites: for honors candidates; SOCIOL 2950 and SOCIOL 3100

SOCIOL 7004: Topics in Sociology-Social Science
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated with departmental consent.
Credit Hour: 1-99
Prerequisites: 12 hours Sociology and departmental consent

SOCIOL 7085: Problems in Sociology
Directed research not leading to thesis or dissertation.
Credit Hour: 1-99
Prerequisites: 12 hours Sociology and departmental consent

SOCIOL 7110: Feminist Research and Criticism
(same as WGST 7110). Examination of both feminist critiques of traditional social research and recent, feminist-oriented research that attempts to answer these criticisms.
Credit Hours: 3

SOCIOL 7120: Social Statistics
(same as RU_SOC 7120). Descriptive statistics and bivariate quantitative analysis techniques commonly used by social scientists. Includes coverage of parametric and non-parametric methods. Introduction to computer analysis.
Credit Hours: 3
Prerequisites: SOCIOL 2950

SOCIOL 7200: Social Inequalities
Examination of theories and research concerned with inequalities based on social class, gender, and race-ethnicity. M.A. core course for sociology students.
Credit Hours: 3

SOCIOL 7230: Women, Development and Globalization
(same as WGST 7230 and BL_STU 7230; cross-leveled with BL_STU 4230, PEA_ST 4230, SOCIOL 4230, WGST 4230). Examines the history and structure of 'development' discourse and practices. Stresses the interconnections and impact on women globally. Reviews women's strategies in defining and instituting programs to improve quality of life in communities.
Credit Hours: 3
SOCIOL 7315: Social Demography
(same as RU_SOC 7315). General demographic theories; age, sex, and ethnic composition of population; fertility, mortality and migration as components of population change; social, economic and political implications of demographic trends.
Credit Hours: 3
Prerequisites: SOCIOL 1000 or RU_SOC 1000

SOCIOL 7320: Culture, Identity and Interaction
Examines the interplay between culture, identity, and interaction as these intersect with issues of social inequality, social control, social change, and the everyday production of subjectives.
Credit Hours: 3
Prerequisites: SOCIOL 3310

SOCIOL 7335: Social Change and Development
(same as RU_SOC 7335). Nature of social change and development. Emphasizes sociological theories of social change and development contrasting them with approaches from the disciplines.
Credit Hours: 3
Prerequisites: RU_SOC 1000 or SOCIOL 1000

SOCIOL 7340: Self, Language, and Social Life
Examines the interplay between self, language, and social life. Particular attention is paid to how the everyday construction of inner lives relates to diverse social worlds. The effects of situational and institutional conditions as they shape identity and social interactions are important considerations.
Credit Hours: 3

SOCIOL 7370: Environment and Society
(same as RU_SOC 7370). An interdisciplinary examination of domestic and international environmental issues focusing on social, cultural, and policy dimensions. Perspectives of the social sciences and humanities are included.
Credit Hours: 3

SOCIOL 7410: Sociology of Education
(same as ED_LPA 7458; cross-leveled with SOCIOL 4410). Contexts, structures and processes of schooling; effects on class, race, ethnicity and gender; social change, educational policy, and organizational dynamics; higher education and the economy.
Credit Hours: 3

SOCIOL 7500: Sociology of Social Policy
Sociological theories and methodologies focused on social policy; policy as process; contextual and critical policy analyses; assessing policy effects and consequences.
Credit Hours: 3

SOCIOL 7510: Social Movements and Conflicts
Survey of approaches and research on social movements and social change. Historical and contemporary social movements in the U.S.; collective protest and violence; political revolutions.
Credit Hours: 3

SOCIOL 7520: Political Sociology: Power and Inequalities
Focus on Power Relations, Inequalities, and Institutions. The intersections of power with the inequalities of race, ethnicity, gender, place, and economic class in global context. Application to issues of public policy and democratic decision-making and culture. Graduate students from other departments are welcome to enroll through MyZou.
Credit Hours: 3

SOCIOL 7545: Sociology of Immigration
(cross-leveled with SOCIOL 4545). This course will cover both classic and contemporary research on immigration within US sociology. Major topics of concern will be how immigration intersects with issues of law, race and ethnicity, gender and sexuality, social mobility, education, employment, politics, urban studies, marriage and family, health, and social networks. Graded on A-F basis only.
Credit Hours: 3

SOCIOL 7550: Gender and Human Rights in Cross Cultural Perspective
(same as PEA_ST 7550 and WGST 7550; cross-leveled with WGST 4550, SOCIOL 4550, PEA_ST 4550). Focuses on the global discourse on human rights and gender, emphasizing cross-cultural theories. Course includes the meaning of human rights, western and non-western perspectives, feminist contributions, important substantive debates, violations, policymaking and activism.
Credit Hours: 3

SOCIOL 7610: Society and Social Control
(cross-leveled with SOCIOL 4610). The concept of social control is analyzed from both micro and macro theoretical perspectives. Focus is on patterns of social domination.
Credit Hours: 3

SOCIOL 7960: Special Readings in Sociology for the Graduate Level
Extensive reading in selected area or special field. Graded on A-F basis only.
Credit Hour: 1-99
Prerequisites: instructor's consent
SOCIOL 8086: Teaching Sociology
This graduate seminar will cover current issues in higher education, building a teaching portfolio, the daily work of teaching, and work/life balance in academia. Graded on A-F basis only.

Credit Hours: 3

SOCIOL 8087: Critical Race Theory
Critical examination of key sociological theories of race, racialization, and racism in contemporary society.

Credit Hours: 3

SOCIOL 8100: Theoretical Thinking in Sociology
Close analysis of the texts of classical and contemporary social theory. Key concepts will be elaborated in the context of intellectual history, and will be applied to deepening the theoretical significance of an empirical research question on the student's emerging agenda. Required for all entering graduate students in Sociology.

Credit Hours: 3

SOCIOL 8110: Research in Sociology
Research not expected to terminate in thesis or dissertation.

Credit Hours: 1-6
Prerequisites: instructor's consent

SOCIOL 8120: The Logic of Social Research
Meta-theoretical and conceptual issues at the core of design decision making, questionnaire construction, qualitative field techniques, interviewing, scaling, panel analysis, computer applications to qualitative data; experimental, survey and case study designs, ethics. Required for Ph.D. students.

Credit Hours: 3

SOCIOL 8130: Advanced Social Statistics

Credit Hours: 3
Prerequisites: SOCIOL 7120 or equivalent

SOCIOL 8140: Seminar in Population Health
Graduate Seminar on the social distribution of morbidity and mortality. Covers major theoretical perspectives and the state of empirical evidence regarding several individuals and contextual explanations of health disparities. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: instructor permission

SOCIOL 8187: Seminar on Interview Theory and Technique
The seminar has three goals: First is the consideration of literature dealing with recent theoretical formulations of the interview. This will provide a basis, second, for critically examining a number of popular interview guidebooks. The third goal is to offer the opportunity to put theory and technique into practice by analyzing selected interview material.

Credit Hours: 3
Prerequisites: doctoral standing

SOCIOL 8250: Media and Power in Comparative Perspective Seminar
This course traces the historical development of U.S. and selected international media systems. We analyze and debate the relationship of differing media systems to political power, popular culture, and the facilitation or inhibition of democratic practices. Students do comparative analyses of international media institutions and related analyzes of media content.

Credit Hours: 3
Prerequisites: undergraduate seniors may enroll with instructor's consent

SOCIOL 8277: Race, Ethnicity, and Transnational Inequalities
(same as BL_STU 8277). This graduate seminar examines the global contest of our radicalized modern world system. How do people develop and give meaning to race/ethnicity in different regions? Focus on the construction of bodies Creole identities, gender, sexualities, citizenships and immigration. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: instructor permission

SOCIOL 8387: Seminar on Narrative and Identity
Credit Hours: 3
Prerequisites: graduate standing required; instructor's consent required

SOCIOL 8435: Graduate Seminar in Medicine, Technology, and Globalization
In the last two hundred years medicine and technology have transformed our day-to-day living as never before. They have permeated our social and personal imagination, our epistemological bearing, disciplinary practices, and not to forget national and global agendas. A key aspect of such transformations, which we are going to investigate in this course, has been the intertwining of medicine and technology in a variety of ways, resulting in wide ranging impact - from the emergence of medical gaze, transformation of healthcare practices, to present day transnationalization and globalization of medical practices. This course would utilize recent theoretical developments to interrogate different interrelated facets of medicine, technology, and globalization. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: SOCIOL 3600

SOCIOL 8687: Seminar in Criminology and Deviant Behavior
Survey of empirical research and sociological theory in criminology and deviant behavior. May be repeated once with instructor's consent.

Credit Hours: 3
Prerequisites: SOCIOL 3600

SOCIOL 8990: Research
Advanced work leading to thesis or dissertation. Graded on a S/U basis only.

Credit Hours: 1-99
**Prerequisites:** consent of major advisor

**SOCIOL 9187: Seminar in Sociological Theory I**
Traces development of sociological theory from the ‘generation of 1890’ through the 1940s, including the work of Durkheim, Weber, Parsons and others.

**Credit Hours:** 3  
**Prerequisites:** SOCIOL 8100 or equivalent

**SOCIOL 9287: Seminar in Qualitative Methods in Sociology**  
(same as RU_SOC 9287). Examination of various qualitative methods of research, including problem-formulation, access and interpretation of data, theory-generation, and preparation of research reports.

**Credit Hours:** 3  
**Prerequisites:** SOCIOL 8120 and instructor’s consent

**SOCIOL 9288: Ethnographic Fieldwork**
History of sociological ethnography, the analysis of key ethnographic texts, forms of ethnographic fieldwork, and recent debates related to representational practices. Applications to participant observation, field interviewing, and strategies of discourse analysis in various social settings.

**Credit Hours:** 3  
**Prerequisites:** SOCIOL 9287, instructor’s consent

**SOCIOL 9350: Graduate Seminar in Environmental Discourses**
This seminar explores human cultural interactions with nature: how we understand ourselves in relation to space, how we interact with and learn about nature, and how we use nature. Readings will include exemplary texts from sociology, geography and anthropology, science studies and cultural studies. Graduate Standing required.

**Credit Hours:** 3

**SOCIOL 9487: Seminar in Sociological Theory II**
Theoretical developments in sociology in Europe and United States since 1950. Recent formulations, controversies.

**Credit Hours:** 3  
**Prerequisites:** SOCIOL 8100 or equivalent

**SOCIOL 9687: Topical Seminar in Historical Sociology**
Methodological approaches to sociological explanation of historical phenomena; related sociological theories of historical development, including Weberian, Marxist and other perspectives applied to a topical historical problem.

**Credit Hours:** 3  
**Prerequisites:** SOCIOL 8100 or equivalent

**SOCIOL 9777: Graduate Seminar in Body and Society**
The course is organized around three major themes - body as a site of personal and political experience; the social body, emphasizing the relationship between society, culture, and individuals; and the body as a site and instrument of politics. Readings assigned for the course are aimed at critical engagement with the ‘body’ within and across these themes. Graded on A-F basis only.

**Credit Hours:** 3

**SOCIOL 987: Seminar in Sociology of Gender**
Analysis of recent research in which gender is a major focus. This research is chosen to exemplify a variety of theoretical perspectives, research strategies, and substantive topics.

**Credit Hours:** 3

**SOIL 2100: Introduction to Soils**  
(same as PLNT_S 2100). Introduction to soil sciences with emphasis placed on physical, biological, and chemical properties and application to land use, plant growth and environmental problems.

**Credit Hours:** 3  
**Recommended:** 3 hours of Chemistry

**SOIL 2106: Soil Science Laboratory**  
Laboratory application of fundamental soil science concepts.

**Credit Hours:** 2  
**Corequisites:** SOIL 2100

**SOIL 3001: Topics in Soil Science**
Organized study of selected topics in soil science.

**Credit Hour:** 1-99

**SOIL 3085: Problems in Soil Science**
Special individualized research projects or readings in soil science.

**Credit Hour:** 1-99
### SOIL 3290: Soils and the Environment
(same as ENV_SC 3290). Addresses the role of soils and soil properties on environmental pollution and management. Emphasis will be placed on carbon, nitrogen, phosphorus, and sulfur transformations and transport in natural and disturbed ecosystems and soil management practices and technology to prevent or remediate environmental pollution.

**Credit Hours:** 3  
**Prerequisites:** SOIL 2100 and ENGLISH 1000  
**Recommended:** 3 hours of chemistry

### SOIL 3290W: Soils and the Environment - Writing Intensive
(same as ENV_SC 3290W). Addresses the role of soils and soil properties on environmental pollution and management. Emphasis will be placed on carbon, nitrogen, phosphorus, and sulfur transformations and transport in natural and disturbed ecosystems and soil management practices and technology to prevent or remediate environmental pollution.

**Credit Hours:** 3  
**Prerequisites:** SOIL 2100 and ENGLISH 1000  
**Recommended:** 3 hours of chemistry

### SOIL 4085: Problems in Soil Science
Special individualized non-thesis research projects or readings in soil science.

**Credit Hour:** 1-99

### SOIL 4085W: Problems in Soil Science - Writing Intensive
Special individualized non-thesis research projects or readings in soil science.

**Credit Hour:** 1-99

### SOIL 4305: Environmental Soil Physics
(same as ENV_SC 4305; cross-leveled with ENV_SC 7305, SOIL 7305). Study of soil physical properties and processes important in solving environmental problems. Topics include soil solids, water content and energy, and transport of water, solutes, gas and heat.

**Credit Hours:** 3  
**Prerequisites:** SOIL 2100

### SOIL 4306: Environmental Soil Physics Laboratory
(same as ENV_SC 4306; cross-leveled with ENV_SC 7306, SOIL 7306). Introduction to the methodology and equipment for measurement of soil physical properties and processes.

**Credit Hours:** 2  
**Prerequisites or Corequisites:** SOIL 4305

### SOIL 4308: Soil Conservation
(cross-leveled with SOIL 7308). Conservation of soil with respect to topsoil, soil productivity, and fertility.

**Credit Hours:** 3  
**Prerequisites:** SOIL 2100  
**Recommended:** AG_S_M 4420

### SOIL 4312: Environmental Soil Microbiology
(same as ENV_SC 4312; cross-leveled with SOIL 7312, ENV_SC 7312). Microbiology/ecology of life in the soil ecosystem. Emphasis is placed on the role of microbes in nutrient cycling, microbial pesticide/xenobiotic transformation bioremediation, etc.

**Credit Hours:** 3  
**Prerequisites:** SOIL 2100  
**Recommended:** general microbiology

### SOIL 4313: Soil Fertility and Plant Nutrition
(same as PLNT_S 4313; cross-leveled with SOIL 7313, PLNT_S 4313). Explanation of principles of delivery of plant nutrients to plants, discussion of the role of each essential nutrient in crop plants and introduction to the management of soil amendments.

**Credit Hours:** 3  
**Prerequisites:** SOIL 2100 or instructor's consent

### SOIL 4318: Environmental Soil Chemistry
(same as ENV_SC 4318 and GEOL 4318; cross-leveled with ENV_SC 7318, GEOL 4318, SOIL 7318). Study of chemical constituents and processes occurring in soils. Topics include soil minerals, and weathering processes, organic matter, solution chemistry, oxidation-reduction reactions and adsorption processes.

**Credit Hours:** 3  
**Prerequisites:** SOIL 2100 or GEOL 2400, CHEM 1320 and CHEM 1330; junior standing or instructor's consent

### SOIL 4320: Genesis of Soil Landscapes

**Credit Hours:** 4  
**Recommended:** introductory soil science or introductory geology course

### SOIL 4360: Precision Agriculture Science and Technology
(same as AG_S_M 4360, PLNT_S 4360; cross-leveled with SOIL 7360, AG_S_M 7360, PLNT_S 7360). Precision agriculture is an information-based approach to farming whereby variability is managed to optimize crop production and reduce environmental pollution. This course provides an overview of precision agriculture technologies (like GIS, GPS, remote sensing), mapping methods, and case studies illustrating decisions and management.

**Credit Hours:** 3  
**Prerequisites:** PLNT_S 2100 or SOIL 2100, or PLNT_S 2110; MATH 1100; AG_S_M 1040

### SOIL 4940: Soil Science Internship
Supervised professional experience with an approved public or private organization. Course may be repeated for credit. Graded on S/U basis only.

**Credit Hour:** 1-12  
**Prerequisites:** Soil and Atmospheric Sciences majors only, instructor's consent

### SOIL 7001: Topics in Soil Science
Organized study of selected topics in soil science. Intended for graduate students.

**Credit Hour:** 1-99

### SOIL 7085: Problems in Soil Science
Special individualized non-thesis research projects or readings in soil science.
Credit Hour: 1-99
Prerequisites: graduate standing

SOIL 7305: Environmental Soil Physics
(same as ENV_SC 7305; cross-leveled with SOIL 4305, ENV_SC 4305).
Study of soil physical properties and processes important in solving environmental problems. Topics include soil solids, water content and energy, and transport of water, solutes, gas and heat.

Credit Hour: 3
Prerequisites: SOIL 2100, PHYSCS 1210 or equivalent

SOIL 7306: Environmental Soil Physics Laboratory
(same as ENV_SC 7306; cross-leveled with ENV_SC 4306, SOIL 4306).
Introduction to the methodology and equipment for measurement of soil physical properties and properties and processes.

Credit Hour: 2
Prerequisites or Corequisites: SOIL 4305

SOIL 7308: Soil Conservation
(cross-leveled with SOIL 4308). Conservation of soil with respect to topsoil, soil productivity, and fertility.

Credit Hour: 3
Prerequisites: SOIL 2100
Recommended: AG_S_M 4420

SOIL 7312: Environmental Soil Microbiology
(same as ENV_SC 7312; SOIL 4312, ENV_SC 4312). Microbiology/ ecology of life in the soil ecosystem. Emphasis is placed on the role of microbes in nutrient cycling, microbial pesticide/xenobiotic transformations bioremediation, etc.

Credit Hour: 3
Prerequisites: general microbiology, SOIL 2100, or instructor's consent

SOIL 7313: Soil Fertility and Plant Nutrition
(same as PLNT_S 7313; cross_leveled with SOIL 4313, PLNT_S 4313). Explanation of principles of delivery of plant nutrients to plants, discussion of the role of each essential nutrient in crop plants and introduction to the management of soil amendments.

Credit Hour: 3
Prerequisites: SOIL 2100 or instructor's consent

SOIL 7314: Soil Fertility and Plant Nutrition Laboratory
(same as PLNT_S 7314; cross_leveled with SOIL 4314, PLNT_S 4314). The application of elementary analytical procedures to the evaluation of the nutrient status of soils and crop plants.

Credit Hour: 2
Prerequisites or Corequisites: SOIL 7313

SOIL 7320: Genesis of Soil Landscape

Credit Hour: 4

SOIL 7360: Precision Agriculture Science and Technology
(same as AG_S_M 7360 and PLNT_S 7360; cross-leveled with SOIL 4360, AG_S_M 4360, PLNT_S 7360). Precision agriculture is an information-based approach to farming whereby variability is managed to optimize crop production and reduce environmental pollution. This course provides an overview of precision agriculture technologies (like GIS, GPS, remote sensing), mapping methods, and case studies illustrating decisions and management.

Credit Hour: 3
Prerequisites: PLNT_S 2100 or SOIL 2100, or PLNT_S 2110; MATH 1100; AG_S_M 1040

SOIL 8001: Topics in Soil Science
Organized study of selected topics in soil science. Intended for graduate students.

Credit Hour: 1-99

SOIL 8085: Problems in Soil Science
Special individualized non-thesis research projects or readings in soil science.

Credit Hour: 1-99

SOIL 8090: Masters Research in Soil Science
Original investigations in soil science for presentation in a thesis. Graded on S/U basis only.

Credit Hour: 1-10

SOIL 8400: Solute Transport in the Vadose Zone
(same as ENV_SC 8400). Transport of water and solutes in geomedia with emphasis on development of the equations of flow. Evaluation of analytical and numeral solutions to equations describing transport phenomena.

Credit Hour: 3
Prerequisites: ENV_SC 7305 or SOIL 7305

SOIL 8500: Chemistry of the Vadose Zone
(same as ENV_SC 8500). Chemical reactions occurring in geomedia with emphasis on understanding molecular scale processes occurring at the solid-water interface, aqueous geochemistry, and soil organic matter.

Credit Hour: 3
Prerequisites: SOIL 7318 or GEOL 7300 or instructor's consent

SOIL 9085: Problems in Soil Science
Special individualized non-thesis research projects or readings in soil science.

Credit Hour: 1-99

SOIL 9087: Seminar in Soil Science
In-depth development of advanced aspects of soil science through reviews of results of research in progress and current scientific publications.
South Asia Studies Courses

S_A_ST 1152: Asian Humanities
(same as REL_ST 1820, HIST 1820 and ARH_VS 1230). This course is an introduction to the literature and visual arts of Asia through selected master works. It focuses principally on India and China and investigates the distinctive features of their cultures.

Credit Hours: 3

Prerequisites: Sophomore standing or higher

S_A_ST 1861: History of Modern India
(same as HIST 1861). This course surveys the history of the South Asian subcontinent from the early seventeenth through the twentieth century. Emphasis will be placed on cultural and social history, religion, arts and literature, imperialism and colonialism, and the sources used for the study of modern civilizations. Students will develop a basic knowledge and vocabulary necessary to pursue additional South Asian courses.

Credit Hours: 3

S_A_ST 2100: Philosophy: East and West
(same as PHIL 2100). Compares the interpretation and role of philosophical concepts such as experience, reason permanence, change, immortality, soul, God, etc., in Indian, Chinese and European traditions.

Credit Hours: 3

Prerequisites: Sophomore standing

S_A_ST 3200: Hinduism
(same as REL_ST 3200). Origin and development of central themes of traditional Hinduism from earliest times to the modern period. Topics include: the Vedic tradition, rituals and practice, varieties of yoga and meditation, Indian religious thought and devotional Hinduism.

Credit Hours: 3

S_A_ST 3230: Buddhism and Environmental Ethics
(same as REL_ST 3230). Global environmental crisis is associated with rapidly expanding human population. Buddhist teachings about the interdependent aspects of existence and interrelatedness of all life may provide critical insights for how humanity can achieve balance and reciprocity with nature.

Credit Hours: 3

S_A_ST 3240: Buddhism of South and Southeast Asia
(same as REL_ST 3240). Examines the origins of Buddhism in India, the narratives of the life of the Buddha, the development of early Buddhist schools, the extension of Buddhism into Central and Southeast Asia, and the current practice of Buddhism in south and Southeast Asia.

Credit Hours: 3

S_A_ST 3261: Hindu Goddesses
(same as REL_ST 3260). This course examines the vast range of Hindu Goddesses and their worship in South Asia. It includes information about goddess origins, mythology, symbolism, and attendant ritual practices. In order to approach this topic, background information about the history of Hinduism, major religious narratives, devotional practices, and iconographic representations of the divine are discussed. The course introduces the approaches of various scholars to Hindu Goddess worship within the context of religion, social relations, and gender roles, and explores ways in which South Asian women experience and negotiate feminine power in contemporary socio-cultural contexts.

Credit Hours: 3

S_A_ST 3270: Yoga and Meditation in the Modern World
(same as REL_ST 3270). This course explores the practice of Yoga and meditation, both as an ancient tradition of India and as an example of the globalization of religion. It will examine how the ancient Hindu religious tradition of Yoga was reinvented against the backdrop of India’s colonial experience. Then it will look at a variety of emerging and transforming varieties of Hindu inspired yoga and meditation that spread globally in the context of increasing transnational interaction. To better appreciate both the traditional and the modern aspects of yoga and meditation, a secular meditation practice is included as an instructional and experiential component of this class.

Credit Hours: 4

S_A_ST 3490: Indian Cinema
(same as ANTHRO 3490, FILMS_VS 3490, ARH_VS 3790). Indian Cinema provides an overview of the key genres and themes of Indian film, including Bollywood, art cinema/parallel cinema, Indian regional cinemas, and diasporan cinema. The course combines film studies, anthropological, historical, and visual culture analyses to provide a holistic view of Indian culture and society through cinema.

Credit Hours: 3

Prerequisites: Sophomore standing or higher

S_A_ST 4630: Sanskrit I
(same as REL_ST 4630; cross-leveled with S_A_ST 7630, REL_ST 7630). This intensive course will cover the essentials of Sanskrit grammar in one semester and prepare students for further readings in Hindu and Buddhist Literature.

Credit Hours: 3

S_A_ST 4790: Culture and Society in South Asia
(same as ANTHRO 4790; cross-leveled with S_A_ST 7790, ANTHRO 7790). Survey of the cultures, social organizations, and lived experience of people from across the Indian subcontinent. Major topics include caste,
kinship, gender, religion, village life, urbanization, public culture, popular culture, social change, and the South Asian diaspora.

**Credit Hours:** 3  
**Recommended:** junior standing

---

**S_A_ST 4800: Asian Philosophy**  
(same as PHIL 4800). This course traces the origins of Indian and Chinese philosophical world views. Included are the major ideas in Hindu, Jaina, and Buddhist thought in India, and Taoism and Confucianism in China. Emphasis is placed on the diverse, assimilative, and pragmatic nature of Indian thought and its impact on contemporary Asian philosophy.

**Credit Hours:** 3  
**Prerequisites:** sophomore standing and one course in Philosophy; or instructor's consent

---

**S_A_ST 4850: Traversing the Muslim World**  
(same as HIST 4850). The traveler's tale formed an important part of the medieval world's system of knowledge. The writing intensive discussion-based course examines a wide array of the most influential travelers in Muslim lands such as Ibn Fadlan, Ibn Buttuta, Benjamin of Tudela and Marco Polo.

**Credit Hours:** 3

---

**S_A_ST 4850W: Traversing the Muslim World - Writing Intensive**  
(same as HIST 4850). The traveler's tale formed an important part of the medieval world's system of knowledge. The writing intensive discussion-based course examines a wide array of the most influential travelers in Muslim lands such as Ibn Fadlan, Ibn Buttuta, Benjamin of Tudela and Marco Polo.

**Credit Hours:** 3

---

**S_A_ST 7630: Sanskrit I**  
(same as REL_ST 7630; cross-leveled with S_A_ST 4630, REL_ST 4630). This course is intended as a "sampler" of Sanskrit literature. We will read Sanskrit texts in the original. The objectives of the course are 1) Expanding the students' knowledge of the Sanskrit language, 2) To acquaint the students with a broad range of textual genres in Sanskrit literature, and 3) To acquaint the students with some central ideas of Hindu and Buddhist philosophy.

**Credit Hours:** 3

---

**Spanish Courses**

**SPAN 1100: Elementary Spanish I**  
An introductory course for students who wish to begin their study of Spanish. It teaches the four skills - listening, speaking, reading, and writing. The class meets four days a week (with the exception of the online section, which taught completely online). Class time is used to integrate new structures and vocabulary into spoken and written language.

**Credit Hours:** 4

---

**SPAN 1100H: Elementary Spanish I - Honors**  
This designated honors section of Elementary Spanish will challenge students to explore more deeply the currently existing thematic units of the SPAN 1100 curriculum. Students will participate in group discussions, creative projects, independent study and use of authentic written and aural material from primary sources. Honors Spanish 1100 will integrate cultural events outside the classroom such as movies, guest lectures, art exhibits, seminars or concerts as available. Once a semester, Honors Spanish 1100 will meets with Honors SPAN 1200H and SPAN 2100H as a cohort group for further intellectual exchange and enrichment. Graded on A-F basis only.

**Credit Hours:** 4  
**Prerequisites:** Honors eligibility required

---

**SPAN 1200: Elementary Spanish II**  
The second course of the beginning sequence in the continuation of SPAN 1100. It places equal emphasis on the four skills; listening, speaking, reading, and writing. Students who have prior knowledge of Spanish are encouraged to take this course.

**Credit Hours:** 4  
**Recommended:** Grade in the C range or better in SPAN 1100 or equivalent course

---

**SPAN 1200H: Elementary Spanish II - Honors**  
This course, designed for students who have taken SPAN 1100 or an equivalent course and enrolled in the Honors College, offers an introduction to the Spanish language and the many cultures it encompasses. Your course work will allow you to develop all four language skills: reading, speaking, listening and writing along with the cultural background necessary to help you to communicate effectively in Spanish. With the honors designation section, the course will allow students to access greater challenges in the existing thematic units in the curriculum through group discussion, creative projects and authentic situations. Graded on A-F basis only.

**Credit Hours:** 4  
**Prerequisites:** Honors eligibility required

---

**SPAN 2005: Undergraduate Topics in Spanish-Humanities/Fine Arts**  
Organized study of selected topics. Subjects may vary from semester to semester. May be repeated with departmental consent.

**Credit Hour:** 1-3  
**Prerequisites:** SPAN 1200 with a grade of C or better

---

**SPAN 2100: Elementary Spanish III**  
A multi-skill course following SPAN 1200, centering on cultural/literary readings, and including a grammar review, practice in the spoken language, as well as some practice in written expression.

**Credit Hours:** 4  
**Recommended:** grade in the C range or better in SPAN 1200, or equivalent course

---

**SPAN 2100H: Elementary Spanish III - Honors**  
A multi-skill course following SPAN 1200, centering on cultural/literary readings, and including a grammar review, practice in the spoken language, as well as some practice in written expression. The course seeks to improve student's fluency in Spanish and to expose them to...
the many cultures it encompasses. This course will integrate cultural events outside the classroom as well such as movies, guest lectures, art exhibits, seminars or concerts as available. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: Honors eligibility required

(same as LINGST 3721). Introductory course to the study of Spanish phonological, phonetic and spelling systems, practice of pronunciation, phonetic transcriptions, and introduction to the variation of Spanish pronunciation in the Hispanic world. The course is conducted in Spanish.

Credit Hours: 3
Prerequisites: SPAN 2160 or equivalent

SPAN 3885: Twenty-First Century South American Cinema
(same as FILMS_VS 3885, PORT 3885). Broad overview of the major national cinemas of the 21st century in South America. Approximately 14 feature films screened from Argentina, Brazil, Chile and other nations of the region. Instructor provides a thematic framework for films within the context of film theory, Latin American cinematic history and cultural studies. Course taught in English. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ENGLISH 1000 or ENGLISH 1000H

SPAN 4004: Topics in Spanish-Social Science
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent.

Credit Hour: 1-3
Prerequisites: junior standing

SPAN 4070: Intensive Beginning Spanish
Designed for rapid acquisition of a reading knowledge of Spanish. Cannot be taken to fulfill undergraduate language requirement.

Credit Hours: 3
Prerequisites: instructor's consent

SPAN 4120: Foreign Language Teaching Methodology
(same as FRENCH 4120, LATIN 4121; cross-leveled with FRENCH 7120, SPAN 7120). Theory and techniques of current foreign language methodology and their application in the classroom. Presentation of instructional projects, classroom observations, and strategies for classroom management. May not be used towards Arts and Science major.

Credit Hour: 3
Prerequisites: departmental consent

SPAN 4130: Stylistics
(cross-leveled with SPAN 7130). Advanced composition class. Discussion of complex grammatical structures necessary for formal writing as well as orthographic rules in Spanish. Examination of stylistic devices and structures beyond sentence level, in order to learn to organize discourse level production.

Credit Hours: 3
Recommended: SPAN 3420 and SPAN 3430

SPAN 4130W: Stylistics - Writing Intensive
(cross-leveled with SPAN 7130). Advanced composition class. Discussion of complex grammatical structures necessary for formal writing as well as orthographic rules in Spanish. Examination of stylistic devices and structures beyond sentence level, in order to learn to organize discourse level production.

Credit Hours: 3
Recommended: SPAN 3420 and SPAN 3430

SPAN 4420: Golden Age Poetry
(cross-leveled with SPAN 7420). Poetry of the principal Spanish poets of the 16th and 17th centuries and of literary criticism devoted to it. Special emphasis is placed on the works of Garcilaso de la Vega, Fray Luis de Leon, among others. Short papers and explications are generally required.

Credit Hours: 3
Prerequisites: SPAN 3420 and SPAN 3430

SPAN 4422: Spanish Theatre in the Golden Age
(cross-leveled with SPAN 7422). Dramatists to be studied include Lope de Vega, Calderon, Ruiz de Aalarcon, Tirso de Molina, Guillen de Castro, Velez de Guevara, and some of Cervantes' theatre.

Credit Hours: 3
Prerequisites: SPAN 3420 and SPAN 3430

SPAN 4423: Don Quijote
(cross-leveled with SPAN 7423). In this course students read the two parts of Don Quijote in the original Spanish. Analysis and class discussion highlight elements of literary interest. Neo-positivist methodology, factual background, formalist considerations and psychoanalytic approaches are used in this course.

Credit Hours: 3
Prerequisites: SPAN 3420 and SPAN 3430

SPAN 4460: Advanced Contemporary Culture of Spanish America
(cross-leveled with SPAN 7460). A study of Spanish-American culture and civilization through selected readings in history and literature, and the use of visual media. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: SPAN 3150 and SPAN 3160

SPAN 4461: Advanced Spanish Civilization
(cross-leveled with SPAN 7461). A survey of Spanish culture and Spanish history from the Middle Ages to the present with special emphasis on contemporary culture. Students will be provided with knowledge of chronology, geography and contemporary issues from readings of journals, novels and Internet news.

Credit Hours: 3
Prerequisites: SPAN 3150 and SPAN 3160

SPAN 4470: Survey of Spanish American Literature I
(cross-leveled with SPAN 7470). This is an introductory course in Spanish American literature. The reading material in prose and verse is studied in chronological order from the early 16th to the early 20th century. Readings include selections from 22 major Spanish American authors.

Credit Hours: 3
Prerequisites: SPAN 3420 and SPAN 3430

SPAN 4471: Survey of Spanish American Literature II
(cross-leveled with SPAN 7471). Survey of contemporary Latin American literature from approximately 1910 to the present. Close analysis and reading of representative major texts of Latin American literature. Students read complete selections and short excerpts from a standard anthology, and three complete novels.

Credit Hours: 3
Prerequisites: SPAN 3420 and SPAN 3430

SPAN 4480: Mexican Literature
(cross-leveled with SPAN 7480). Analysis of selected poetry, prose, and drama of contemporary Mexico. Course examines the writings of major and minor figures from several critical perspectives. Works by Agustin, Aviles, Fabila, Carballido, Castellanos, Fuentes, Paz, and others are read.

Credit Hours: 3
Prerequisites: SPAN 3420 and SPAN 3430

SPAN 4490: Hispanic Oral Traditions
(cross-leveled with SPAN 7490). This course proposes to examine the Hispanic Oral Tradition through a study of romances and related genres, the corrido, decima and folktale.

Credit Hours: 3
Prerequisites: SPAN 3420 and SPAN 3430

SPAN 4530: The Spanish American Theatre
(cross-leveled with SPAN 7530). Intended as an overview of a vital genre in contemporary Spanish American studies, this survey introduces dramatists whose works are the focus of increasing attention from international specialists. The works of Emilio Carballido, Egon Wolff, Griselda Gambaro and Osvald Dragun, among others are discussed.

Credit Hours: 3
Prerequisites: SPAN 3420 and SPAN 3430

(cross-leveled with SPAN 7540). A study of prose, poetry, and drama, in Spanish, written by authors of African descent in the Americas.

Credit Hours: 3
Prerequisites: SPAN 3420 and SPAN 3430

SPAN 4571: History of the Spanish Language
(same as LINGST 4711; cross-leveled with SPAN 7711). Diachronic analysis of phonological, morphological, and syntactical systems of Spanish, from Vulgar Latin to contemporary dialects.

Credit Hours: 3
Prerequisites: Completion with a passing grade of any Linguistics course at the 3000 level or above or instructor's consent
Recommended: SPAN 3420 and SPAN 3430

SPAN 4721: Structure of Modern Spanish
(same as LINGST 4721; cross-leveled with SPAN 7721). Synchronic analysis of phonology, morphology and syntax of spoken Spanish dialects.

Credit Hours: 3
Prerequisites: four 3000-level courses in Spanish

SPAN 4722: Spanish Across the Continents
(same as LINGST 4722; cross-leveled with SPAN 7722). This course focuses on the effects of migratory movements on language change, considering the Spanish spoken in Latin America, Puerto Rico, Spain and the USA. The class sharpens awareness and recognition of the linguistic diversity of the Spanish-speaking regions of the world. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: four 3000-level courses in Spanish

SPAN 4722W: Spanish Across the Continents - Writing Intensive
(same as LINGST 4722; cross-leveled with SPAN 7722). This course focuses on the effects of migratory movements on language change, considering the Spanish spoken in Latin America, Puerto Rico, Spain and the USA. The class sharpens awareness and recognition of the linguistic diversity of the Spanish-speaking regions of the world. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: four 3000-level courses in Spanish

SPAN 4723: Language and Society: Spanish in the U.S.
(same as LINGST 4723; cross-leveled with SPAN 7723). This class surveys linguistic and social issues pertaining to Spanish in the U.S. (past, present and future). Topics include bilingualism, code switching (a.k.a. Spanglish), first language attrition, linguistic identity, and the role of Spanish in education, services and media. Graded on A-F basis only.

Credit Hours: 3
Recommended: four 3000-level courses in Spanish

SPAN 4960: Special Readings in Spanish
Independent study through readings, conferences, reports.

Credit Hour: 1-3
Prerequisites: SPAN 3420 and SPAN 3430 and departmental consent

SPAN 4980: Special Themes in Spanish
Subject varies according to instructor. May be repeated for credit.

Credit Hours: 3
Prerequisites: SPAN 3420 and SPAN 3430

SPAN 4993: The Capstone Experience in Spanish
This course is required of all majors. Topics vary but all courses synthesize and review essential components of the major: speaking, writing, reading in Spanish, and the ability to think critically and analytically.

Credit Hours: 3

SPAN 7004: Topics in Spanish-Social Science
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent.

Credit Hour: 1-99

SPAN 7120: Foreign Language Teaching Methodology
(same as FRENCH 7120; cross-leveled with FRENCH 4120, SPAN 4120 and LATIN 4121). Theory and techniques of current foreign language methodology and their application in the classroom. Presentation of instructional projects, classroom observations, and strategies for classroom management. May not be used towards Arts and Science major.

Credit Hours: 3

SPAN 7130: Stylistics
(cross-leveled with SPAN 4130). Advanced composition class. Discussion of complex grammatical structures necessary for formal writing as well as orthographic rules in Spanish. Examination of stylistic devices and structures beyond sentence level, in order to learn to organize discourse level production.

Credit Hours: 3
Recommended: SPAN 3420 and SPAN 3430

SPAN 7420: Golden Age Poetry
(cross-leveled with SPAN 4420). Poetry of the principal Spanish poets of the 16th and 17th centuries and of literary criticism devoted to it. Special emphasis is placed on the works of Garcilaso de la Vega, Fray Luis de Leon, among others. Short papers and explications are generally required.

Credit Hours: 3
Prerequisites: SPAN 3420 and SPAN 3430

SPAN 7422: Spanish Theatre in the Golden Age
(cross-leveled with SPAN 4422). Dramatists to be studied include Lope de Vega, Calderon, Ruiz de Alarcon, Tirso de Molina, Guillen de Castro, Velez de Guevara, and some of Cervantes' theatre.

Credit Hours: 3
Prerequisites: SPAN 3420 and SPAN 3430

SPAN 7423: Don Quijote
(cross-leveled with SPAN 4423). In this course students read the two parts of Don Quijote in the original Spanish. Analysis and class discussion highlight elements of literary interest. Neo-positivist methodology, factual background, formalist considerations and psychoanalytic approaches are used in this course.

Credit Hours: 3
Prerequisites: SPAN 3420 and SPAN 3430

SPAN 7460: Advanced Contemporary Culture of Spanish America
(cross-leveled with SPAN 4460). A study of Spanish-American culture and civilization through selected readings in history and literature, and the use of visual media. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: SPAN 3150 and SPAN 3160

SPAN 7470: Survey of Spanish American Literature I
(cross-leveled with SPAN 4470). This is a course in Spanish American literature. The reading material in prose and verse is studied in chronological order from the early 16th to the early 20th century. Readings include selections from 22 major Spanish American authors.

Credit Hours: 3
Prerequisites: SPAN 3420 and SPAN 3430

Credit Hours: 3
Prerequisites: knowledge of Latin, to be demonstrated by passing departmental written examination or by completing LATIN 7110 with grade of B or better

SPAN 9080: Readings in Spanish
Independent readings in preparation for Ph.D. comprehensive examination in Spanish.
Credit Hour: 3-6

SPAN 9090: Research in Spanish
Leads to preparation of PhD dissertation in Spanish. Graded on S/U basis only.
Credit Hour: 1-99

Special Education Courses

SPC_ED 1100: Orientation: Special Education
This course familiarizes and orients students with MU resources, College of Education programs and expectations and career options, emphasizing Special Education. Graded on S/U basis only.
Credit Hour: 1

SPC_ED 3100: Applied Behavior Analysis and Autism
Students will learn the behavioral principles and techniques currently employed to help children with autism acquire functional language, appropriate social behavior, and general academic and living skills as well as decrease problematic behaviors. The objectives of this course are to: 1) To identify and describe key features of applied behavior analysis (ABA), particularly as it applies to intervention for children with autism. 2) To identify and describe key issues in curricular design, program development, and evidence-based interventions in autism. 3) To become familiar with key outcome research in behavioral interventions for children with autism. 4) To become familiar with key research on language, social skills, self-help skills, and problem behavior reduction as these areas relate to the behavioral treatment of autism. Graded on A-F basis only.
Credit Hours: 3

SPC_ED 3600: Research and Practice in Applied Behavior Analysis
Students will learn about the principles and procedures of applied behavior analysis through weekly reading assignments, discussions, and presentations. Student will gain experience applying this knowledge to improve behavior in a practical setting. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: SPC_ED 3100

SPC_ED 4020: Teaching the Exceptional Learner
Teaching the Exceptional Learner addresses topics in the foundations of pedagogy for students with disabilities in inclusive settings, including the roles and responsibilities of the general educator and related service personnel with respect to special education law and policy, behavior management, universal design for learning, and evidence-based practices. Graded on A-F basis only.
Credit Hours: 3
Recommended: Progression into Phase II

SPC_ED 4300: Introduction to Special Education
Introductory overview of the field of special education; historical developments, characteristics of special populations, and compliance with state and federal regulations.
Credit Hours: 3

SPC_ED 4310: Behavioral and Classroom Management
(cross-leveled with SPC_ED 7310). Study of classroom management and applied behavior analysis strategies. Focus on teacher as decision-maker in the design, implementation, evaluation of individual and group management programs. Graded on A-F basis only.
Credit Hours: 3

SPC_ED 4320: Assessment and Evaluation in Special Education
(cross-leveled with SPC_ED 7320). Procedures and instruments used in the assessment of individual with disabilities, including standardized and non-standardized measures of intellectual ability, academic achievement, oral language, social/emotional behaviors, career/vocational needs.
Credit Hours: 3
Prerequisites: SPC_ED 4300

SPC_ED 4325: Language Development of Exceptional Students
(cross-leveled with SPC_ED 7325). Study of language and communication issues and disorders in special education; normal and atypical language development; language assessment and intervention models and programs.
Credit Hours: 3
Prerequisites: SPC_ED 4300

SPC_ED 4330: Collaboration and Consultation in Special Education
(cross-leveled with SPC_ED 4330). Study of communication, problem-solving, collaboration strategies. Application of strategies to work with exceptional students, their families, other professional members of interdisciplinary, interagency teams.
Credit Hours: 3
Prerequisites: SPC_ED 4300
SPC_ED 4370: Literacy in Special Education
(cross-leveled with SPC_ED 7370). Addresses specific literacy needs of students who are at-risk or have special needs with a focus on assessment and instruction in general education classrooms.

Credit Hours: 3
Prerequisites or Corequisites: SPC_ED 4300

SPC_ED 4371: Literacy in Special Education II
(cross-leveled with SPC_ED 7371). Advanced study in literacy methods and research for students with disabilities. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: SPC_ED 4370 or SPC_ED 7370

SPC_ED 4375: Cross Categorical Special Education
(cross-leveled with SPC_ED 4371). Study of characteristics of students with cross categorical disabilities and other pertinent issues including inclusion, assessment, and evaluation practices.

Credit Hours: 3
Recommended: Admittance to Phase II

SPC_ED 4380: Methods in Cross-Categorical Special Education
(cross-leveled with SPC_ED 7380). This course is designed to provide students with research-based instructional and behavior management methods for use with student with cross-categorical disabilities.

Credit Hour: 3-4
Prerequisites: SPC_ED 4375 and SPC_ED 4940
Recommended: Admittance to Phase II

SPC_ED 4380W: Methods in Cross-Categorical Special Education - Writing Intensive
(cross-leveled with SPC_ED 7380). This course is designed to provide students with research-based instructional and behavior management methods for use with student with cross-categorical disabilities.

Credit Hour: 3-4
Prerequisites: SPC_ED 4375 and SPC_ED 4940
Recommended: Admittance to Phase II

SPC_ED 4390: Methods in Vocational Education for the Disabled and Disadvantaged
(same as LTC_V 4770). Study of legislation, interagency cooperation, curriculum, transition, evaluation/grading role of support personnel. For educators, counselors and administrators working in vocational settings with special needs students and students with disabilities.

Credit Hour: 2-3
Prerequisites: SPC_ED 4300

SPC_ED 4401: Topics in Special Education
In-depth study of certain developments, findings, trends and issues in one or more areas of special education.

Credit Hours: 3

SPC_ED 4500: Science and Social Studies for Struggling Learners
(cross-leveled with SPC_ED 7500). This course will focus on the study of diagnostic and instructional techniques for the teaching of science and social studies. In this course, students will study the characteristics of students who struggle in science and social studies. Students with develop a knowledge base of effective practices for assessment and teaching strategies in science and social studies. Graded on A-F basis only.

Credit Hours: 3
Recommended: Admitted to Phase II in Special Education

SPC_ED 4600: Diagnosis and Remediation of Learning Problems in Math - Middle
(cross-leveled with SPC_ED 7600). The study of diagnostic and remedial instructional techniques for the teaching of mathematics. Emphasis is placed on alternative teaching methods and strategies. Graded on A-F basis only.

Credit Hours: 3

SPC_ED 4940: Cross-Categorical Special Education: Practicum I
Involvement in meaningful field-based activities that extend and/or apply content information from SPC_ED 4375.

Credit Hour: 1-4
Prerequisites or Corequisites: SPC_ED 4375
Recommended: Admittance to Phase II

SPC_ED 4941: Practicum in Cross-Categorical II
(cross-leveled with SPC_ED 7941). The purpose of this course is to provide students with experience in applying the content of Special Education 4380 (i.e. assessment and intervention strategies for use with students with cross categorical disabilities). This course may be repeated for credit.

Credit Hour: 2-3
Prerequisites or Corequisites: SPC_ED 4380
Prerequisites: SPC_ED 4375 and SPC_ED 4940

SPC_ED 4972: Capstone Seminar and Portfolio in Special Education
Students in final student teaching internship will meet weekly to examine and compare their internship experiences. Analysis, synthesis, evaluation and problem solving are the focus of the examination of various aspects of pedagogy and experience. Additionally, students will develop and submit for scoring their State mandated certification portfolio.

Credit Hour: 1
Prerequisites: SPC_ED 4981
Recommended: Enrollment in final semester of student teaching internship

SPC_ED 4981: Internship in Special Education
(cross-leveled with SPC_ED 7981). This field experience provides preservice interns a semester-long public school experience where they simultaneously engage in a unique combination of observation and teaching. Through observation, conferencing, reading, discussion, demonstration, and participation, the preservice intern will synthesize the course concepts of the Senior Year On-Site Program (SYOSP). Graded on A-F basis only.

Credit Hour: 4-10
Prerequisites: ED_LPA 4060
Recommended: Admittance to Phase II

SPC_ED 7020: Teaching the Exceptional Learner
Teaching the Exceptional Learner addresses topics in the foundations of pedagogy for students with disabilities in inclusive settings, including the roles and responsibilities of the general educator and related service personnel with respect to special education law and policy, behavior management, universal design for learning, and evidence-based practices. Graded on A-F basis only.
Credit Hours: 3
Recommended: Progression into Phase II

SPC_ED 7300: Introduction to Special Education
Introductory overview of the field of special education; historical developments, characteristics of special populations, and compliance with state and federal regulations.
Credit Hours: 3

SPC_ED 7310: Behavioral and Classroom Management
(cross-leveled with SPC_ED 4310). Study of classroom management and applied behavior analysis strategies. Focus on teacher as decision-maker in the design, implementation, evaluation of individual and group management programs. Graded on A-F basis only.
Credit Hours: 3

SPC_ED 7320: Assessment and Evaluation in Special Education
(cross-leveled with SPC_ED 4320). Procedures and instruments used in the assessment of individual with disabilities, including standardized and non-standardized measures of intellectual ability, academic achievement, oral language, social/emotional behaviors, career/vocational needs.
Credit Hours: 3
Prerequisites: SPC_ED 4300

SPC_ED 7325: Language Development of Exceptional Students
(cross-leveled with SPC_ED 7325). Study of language and communication issues and disorders in special education; normal and atypical language development; language assessment and intervention models and programs.
Credit Hours: 3
Prerequisites: SPC_ED 4300

SPC_ED 7330: Collaboration and Consultation in Special Education
(cross-leveled with SPC_ED 4330). Study of communication, problem-solving, collaboration strategies. Application of strategies to work with exceptional students, their families, other professional members of interdisciplinary, interagency teams.
Credit Hours: 3
Prerequisites: SPC_ED 4300

SPC_ED 7370: Literacy in Special Education
(cross-leveled with SPC_ED 4370). Addresses specific literacy needs of students who are at-risk or have special needs with a focus on assessment and instruction in general education classrooms.

SPC_ED 7371: Literacy in Special Education II
(cross-leveled with SPC_ED 4371). Advanced study in literacy methods and research for students with disabilities. Graded A-F only.
Credit Hours: 3
Prerequisites: SPC_ED 4370 or SPC_ED 7370

SPC_ED 7375: Cross Categorical Special Education
(cross-leveled with SPC_ED 4375). Study of characteristics of students with cross categorical disabilities and other pertinent issues including inclusion, assessment, and evaluation practices.
Credit Hours: 3
Prerequisites: professional standing in Phase II

SPC_ED 7380: Methods in Cross-Categorical Special Education
This course is designed to provide students with research-based instructional and behavior management methods for use with student with cross-categorical disabilities.
Credit Hours: 4
Prerequisites: professional standing in Phase II, SPC_ED 4375, SPC_ED 4940

SPC_ED 7390: Methods in Vocational Education for the Disabled & Disadvantaged
(same as LTC_V 7770). Study of legislation, interagency cooperation, curriculum, transition, evaluation/grading role of support personnel. For educators, counselors and administrators working in vocational settings with special needs students and students with disabilities.
Credit Hour: 2-3
Prerequisites: SPC_ED 4300

SPC_ED 7500: Science and Social Studies for Struggling Learners
(cross-leveled with SPC_ED 4500). This course will focus on the study of diagnostic and instructional techniques for the teaching of science and social studies. Students with develop a knowledge base of effective practices for assessment and teaching strategies in science and social studies. Graded on A-F basis only.
Credit Hours: 3

SPC_ED 7600: Diagnosis and Remediation of Learning Problems in Math-Middle
(cross-leveled with SPC_ED 4600). The study of diagnostic and remedial instructional techniques for the teaching of mathematics. Emphasis is placed on alternative teaching methods and strategies. Graded on A-F basis only.
Credit Hours: 3

SPC_ED 7940: Cross-Categorical Special Education: Practicum I
Involvement in meaningful field-based activities that extend and/or apply content information from SPC_ED 4375.
SPC_ED 8250: Developmental Processes in Autism and Neurodevelopmental Disorders
This graduate level course will focus on understanding autism and other neurodevelopmental disorders from within a developmental framework. An understanding of typical development is essential in order to recognize when developmental problems arise. By the same token, developmental disorders can elucidate the complexity of development among typically functioning children. The course will compare and contrast typical and atypical development across major developmental domains. We will begin with an overview of the field and foundational concepts, and will then move to an examination of key developmental domains and selected neurodevelopmental disorders (as examples of atypical development in each domain). Throughout the course, students will be encouraged to relate concepts and empirical findings to their respective professional interests. Graded on A-F basis only.

Credit Hours: 3

Recommended: Recommended for students in the Applied Behavior Analysis master's and graduate certificate program

SPC_ED 8300: Students with Behavioral Disorders
Study of characteristics of students with behavioral disorders as they relate to best practices for assessment, instruction, and intervention.

Credit Hours: 4

Prerequisites: SPC_ED 4300 and instructor's consent

SPC_ED 8305: Ethics in Applied Behavior Analysis
This graduate level course will focus on understanding autism and other neurodevelopmental disorders from within a developmental framework. An understanding of typical development is essential in order to recognize when developmental problems arise. By the same token, developmental disorders can elucidate the complexity of development among typically functioning children. The course will compare and contrast typical and atypical development across major developmental domains. We will begin with an overview of the field and foundational concepts, and will then move to an examination of key developmental domains and selected neurodevelopmental disorders (as examples of atypical development in each domain). Throughout the course, students will be encouraged to relate concepts and empirical findings to their respective professional interests. Graded on A-F basis only.

Credit Hours: 3

Recommended: Recommended for students in the Applied Behavior Analysis master's and graduate certificate program

SPC_ED 8310: Students With Learning Disabilities
Study of characteristics of students with learning disabilities as they relate to best practices for assessment, instruction, and intervention.

Credit Hours: 4

Prerequisites: SPC_ED 4300 and instructor's consent

SPC_ED 8330: Advanced Teaching Mathematics in Special Education
This course will focus on the advanced study of diagnostic and remedial instructional techniques for the teaching of mathematics. In this course, students will study the characteristics of students who struggle in mathematics. Students with develop a knowledge base of effective practices for assessment and teaching strategies in mathematics. Graded on A-F basis only.

</thead>
<tbody>
<tr>
<td>SPC_ED 8340</td>
<td>Advanced Studies in Developmental Disabilities</td>
<td>Current theories and practices and their historic roots through examination of empirical and descriptive literature.</td>
<td>3</td>
<td>admission to graduate study and instructor's consent</td>
</tr>
<tr>
<td>SPC_ED 8350</td>
<td>Research with Exceptional Children</td>
<td>Explores significant, historical, and current research in special education. Emphasizes the application of research, methodology, and findings relative to problems facing the practitioner.</td>
<td>3</td>
<td>instructor's consent</td>
</tr>
<tr>
<td>SPC_ED 8353</td>
<td>Advanced Studies: Single Subject Design</td>
<td>The course is for advanced graduate students in special education, k psychology, related fields and includes behavioral measurement, single subject research designs, data analysis methods, critical analysis and evaluation of single subject research and research proposal. Graded on A-F basis only.</td>
<td>3</td>
<td>instructor's consent</td>
</tr>
<tr>
<td>SPC_ED 8355</td>
<td>Grant Writing</td>
<td>Preparation of research, demonstration, training, or other grant proposals meeting the criteria for competitive funding by a federal agency; review and evaluation of proposals.</td>
<td>3</td>
<td>admission to graduate study and instructor's consent</td>
</tr>
<tr>
<td>SPC_ED 8360</td>
<td>Special Education Administration</td>
<td>Principles, protective safeguards, and general practices associated with the organization and administration of special education; legal foundations for special education; selection, training, and supervision of personnel.</td>
<td>3</td>
<td>instructor's consent</td>
</tr>
<tr>
<td>SPC_ED 8355</td>
<td>Research Design in Special Education</td>
<td>Overview of professional writing and intermediate research applications with a focus on knowledge and skills needed for higher level doctoral work in statistics and research design.</td>
<td>3</td>
<td>ESC_PS 4170 or equivalent, SPC_ED 8350 or equivalent, and instructor's consent</td>
</tr>
<tr>
<td>SPC_ED 8370</td>
<td>Foundations I: History, Law and Policy in Special Education</td>
<td>The changing concept of disability will be viewed from the perspectives of history, legal issues, and policy traced from early Greek and European periods through contemporary times.</td>
<td>3</td>
<td>instructor's consent</td>
</tr>
<tr>
<td>SPC_ED 8375</td>
<td>Foundations II: Pedagogical Theories in Special Education</td>
<td>A study of theories of teaching as they apply to special education with emphases on empirically based practices, historical trends, current theories, and the relationship between theories of learning and teaching.</td>
<td>3</td>
<td>instructor's consent</td>
</tr>
<tr>
<td>SPC_ED 8380</td>
<td>Nature and Needs of Gifted and Talented Students</td>
<td>A conceptual and empirical examination for educational personnel of student identification procedures, special populations, programming issues, research topics and teacher competencies.</td>
<td>3</td>
<td>instructor's consent</td>
</tr>
<tr>
<td>SPC_ED 8385</td>
<td>Individualized Assessment and Intervention</td>
<td>This course builds upon the basic principles of learning and applied behavior analysis presented during previous courses in the Behavior Analysis core. The course will offer advanced coverage of the functional assessment of problem behaviors. In particular, there will be a strong emphasis in the functional analysis of problem behaviors. Additionally, this course will focus on how identification of function guides treatment development (i.e., function-based treatments). Graded on A-F basis only.</td>
<td>3</td>
<td>ESC_PS 4170 or equivalent, SPC_ED 8350 or equivalent, and instructor's consent</td>
</tr>
<tr>
<td>SPC_ED 8375</td>
<td>Seminar in Special Education</td>
<td>Credit Hour: 1-3</td>
<td>3</td>
<td>SPC_ED 8100</td>
</tr>
<tr>
<td>SPC_ED 8391</td>
<td>Curriculum Methods for Gifted and Talented Students</td>
<td>A theoretical examination for educational personnel of specific instructional approaches including structure of intellect, enrichment triad, empirical research, and creative problem solving.</td>
<td>3</td>
<td>SPC_ED 8380 or instructor's consent</td>
</tr>
<tr>
<td>SPC_ED 8405</td>
<td>Assessment and Evaluation in Gifted Education</td>
<td>Seminar focuses on practices for identifying students for gifted education programs, evaluation models applicable to school programs and strategies for grading and evaluation of gifted students.</td>
<td>3</td>
<td>SPC_ED 8380 or instructor's consent</td>
</tr>
<tr>
<td>SPC_ED 8406</td>
<td>Differentiating Instruction: Reaching Gifted, Typical and Struggling Learners</td>
<td>Explores various instructional approaches to help meet the learning needs of a range of learners from gifted through struggling and at-risk students. Graded on A-F basis only.</td>
<td>3</td>
<td>Introduction to Special Education; instructor's consent</td>
</tr>

*Mizzou University of Missouri*
SPC_ED 8410: Administration and Supervision of Gifted Education Programs
This course focuses on developing a working knowledge of issues and competencies, policies and evaluation in the administration of gifted education programs. Rational, goals, and design for gifted education programming will be addressed. Current research and best practices in program design and administration will be examined. Assessment, communication with all stakeholders, advocacy and professional development will be addressed. Graded on A-F basis only.
Credit Hours: 3

SPC_ED 8440: Advanced Behavior Management: Applied Behavior Analysis
This course will provide graduate students with advanced theory and knowledge in behavior management. Emphasis will be placed on understanding and using the principles of applied behavior analysis.
Credit Hours: 3
Prerequisites: SPC_ED 4310 and instructor's consent

SPC_ED 8450: Verbal Behavior
This course will provide an introduction to a behavior analytic approach to the study of language (i.e., verbal behavior). The course will have two related focuses: (a) the theoretical underpinnings of a functional approach to language and (b) a review of the testing and application of the theory of verbal behavior in research and practice. During the first half of the semester, we will read and discuss Skinner's analysis of verbal behavior (VB). During the second half of the semester we will survey the literature base supporting a behavior analytic approach to language and will also discuss the application of verbal behavior analysis to practice. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: SPC_ED 8100
Recommended: HLTHPSYC 8200

SPC_ED 8455: Advanced Studies in Behavioral Disorders
Contemporary issues a historical perspective; theoretical perspectives or models which guide research, policy, and intervention approaches.
Credit Hours: 3
Prerequisites: admission to graduate study and instructor's consent

SPC_ED 8460: Survey of Applied Behavior Analysis
This course builds upon the basic principles of learning and applied behavior analysis presented during previous courses in the Behavior Analysis core. The course will offer coverage of the many different applications of behavior analysis (e.g., behavioral medicine, behavioral gerontology, substance abuse, organizational behavior management, etc.). Finally, this class will cover topics related to professional development. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: SPC_ED 8100 OR HLTHPSYC 8200

SPC_ED 8475: Advanced Studies in Learning Disabilities
Major current issues, trends, and controversies in learning disabilities; theories, research, and practices in learning disabilities.
Credit Hours: 3
Prerequisites: admission to graduate study and instructor's consent

SPC_ED 8485: Introduction and Methods of Early Intervention
This course will enhance individual knowledge and skills necessary to design, implement, and evaluate research-based strategies and practices in home and center-based programs for infants and toddlers with disabilities, consistent with the philosophical and legal requirements of IDEA Part C.
Credit Hours: 3

SPC_ED 8490: Assessment in Early Childhood Special Education
Procedures and instruments used in assessment of children with special needs, including screening, diagnosis, interpretation of diagnostic findings, and application to instructional plans.
Credit Hours: 3

SPC_ED 8495: Introduction and Methods of Early Childhood Special Education
This course will provide an introduction to the application of behavior analytic concepts and principles to problems of human behavior at the systems level. Students will learn the basics of modifying behavior at the systems level, which includes clinical settings. Class assignments will help the students learn to apply the concepts discussed in class to their own work environment. Graded on A-F basis only.
Credit Hours: 2-3
Prerequisites: SPC_ED 8100

SPC_ED 8500: Systems Level Behavior Analysis
This course will provide an introduction to the application of behavior analytic concepts and principles to problems of human behavior at the systems level. Students will learn the basics of modifying behavior at the systems level, which includes clinical settings. Class assignments will help the students learn to apply the concepts discussed in class to their own work environment. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: SPC_ED 8100

SPC_ED 8520: Meeting the Needs of all Learners
The purpose of this course is to provide information on current research and methodology on teaching students who are struggling or who have disabilities. Open only to teaching fellows. Graded on A-F basis only.
Credit Hours: 3

SPC_ED 8601: Introduction to Autism
This course provides an introduction of children youth with autism spectrum disorders. Topics include: historical and theoretical foundations, diagnostic and assessment approaches, and characteristics. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Introduction to Special Education; instructor's consent

SPC_ED 8602: Methods of Instruction for Students with Autism
Overview of interventions for individuals with autism spectrum disorders and strategies needed for teaching. Best practices and promising practices will be presented. Course graded on A-F basis only.
Credit Hours: 3
Prerequisites: SPC_ED 8601, instructor's consent required
SPC_ED 8603: Social Competency for Students with Autism
Course provides a framework for addressing social competence deficits experienced by students with autism. Course graded on A-F basis only.

Credit Hours: 3
Prerequisites: SPC_ED 8601, instructor's consent required

SPC_ED 8604: High Functioning Students with Autism
The course is designed to increase understanding and ability to support individuals on the Autism Spectrum who have average to above average intelligence. Course graded on A-F basis only.

Credit Hours: 3
Prerequisites: instructor's consent

SPC_ED 8605: Young Children with Autism
Current research on characteristics, diagnosis, and intervention for very young children with autism. Strategies for support children and their families. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: instructor's consent

SPC_ED 8606: Assessment in Autism, Special Education
This course covers procedures and instruments used in assessment of school-aged children with autism, including screening, diagnosis, interpretation of assessment findings, and application to instructional plans. Graded on A-F only.

Credit Hours: 3
Prerequisites: SPC_ED 7300
Corequisites: SPC_ED 8601

SPC_ED 8700: Evidence Based Methods and Critical Inquiry in Cross Categorical Disabilities
This course provides students with research-based instructional and behavioral management methods for use with students with cross-categorical disabilities. In addition to creating a more detailed knowledge of strategies related to the instructional needs of children, youth, and adults with learning disabilities, emotional and behavioral disorders, and intellectual disabilities, students will learn to apply critical inquiry skills in evaluating the evidence base for specific interventions as well as how best to implement techniques and support schools in the adopting these interventions. Graded on A-F basis only.

Credit Hours: 4

SPC_ED 8800: Practicum in Applied Behavior Analysis
The Practicum in Applied Behavior Analysis provides practical training in ABA. Graduate students will participate in an intensive practicum that focuses on developing well-rounded training in ABA. Students will work hands on with children at the MU Thompson Center for Autism and Neurodevelopmental Disorders. By the completion of the practicum, students will be well versed in the development of skill building programs as well as behavioral reduction programs that focus on function-based interventions (e.g., functional analyses). Graded on S/U basis only.

Credit Hour: 1-3
Prerequisites: Students must be enrolled in the Graduate Certificate in ABA or Masters of Science in ABA programs

SPC_ED 8900: Capstone in Applied Behavior Analysis
The capstone will consist of a clinical question or direct replication of previous research, which will serve as a demonstration of the student's knowledge of applied behavior analysis. The expectation is that the thesis will add to our current clinical knowledge in ABA. Graded on S/U basis only.

Credit Hour: 1-9
Prerequisites: Graduate student in the M.S. program in Applied Behavior Analysis

SPC_ED 8943: Practicum in Special Education
Provides graduate practicum experience relevant to the education of exceptional students.

Credit Hours: 1-10
Prerequisites: SPC_ED 4300 and instructor's consent

SPC_ED 8946: Practicum: Gifted Education
Provides graduate field experience in the area of gifted education.

Credit Hours: 3
Prerequisites: instructor or advisor's consent

SPC_ED 8947: Practicum: Early Childhood Special Education
Graduate field experience in an approved setting for young children with special needs. May be repeated.

Credit Hour: 1-10
Prerequisites: instructor's consent

SPC_ED 9090: Research in Special Education
Graded on a S/U basis only.

Credit Hour: 1-99
Prerequisites: instructor's consent

SPC_ED 9387: Professional Seminar in Special Education
Designed to provide overview of Special Education, COE program requirements, and general graduate student expectations. Students STRONGLY encouraged to take course first semester in graduate program. Graded on S/U basis only.

Credit Hour: 1
Prerequisites: acceptance into a master's degree program

SPC_ED 9940: Internship: College Teaching in Special Education
Individually guided and supervised college teaching experiences. Competency based activities using portfolio assessment methods. May be taken more than once. Graded on S/U basis only.

Credit Hours: 3
Prerequisites: instructor's consent
SPC_ED 9941: Internship: Special Education Research
Individually guided research internship with doctoral advisor and/or faculty mentor(s). Opportunity to develop research competencies either on individual or collaborative projects. May be taken more than once. Graded on S/U basis only.

Credit Hour: 1-99
Prerequisites: instructor's consent

SPC_ED 9942: Internship: Professional Practice in Special Education
Individually guided internship in the public schools and/or agencies serving students with special needs or exceptionalities. Focus on professional practices, administrative practices, and/or evaluation practices. Graded on S/U basis only.

Credit Hour: 1-99
Prerequisites: instructor's consent

Special Topics (Intensive English Program) Courses

IEPS _0001: Level I Guided Reading and Vocabulary
Students will increase reading fluency and vocabulary in beginning-level texts while developing independence and an appreciation of reading. Not open to native speakers of English. No college credit.

Credit Hours: 3
Prerequisites: must be admitted to the IEP program and placed into the course by the IEP; consent of department required

Speech, Language, and Hearing Sciences Courses

SLHS 1000: Introduction to Communication Science and Disorders
Nature of communication and its development; types of speech, language and hearing disorders; professional preparation, settings, and work of speech-language pathologists and audiologists. Course graded on S/U basis only.

Credit Hour: 1

SLHS 1060: Human Language
(same as ANTHRO 1060, LINGST 1060 and ENGLISH 1060). General introduction to various aspects of linguistic study. Elementary analysis of language data with some attention to application of linguistic study to other disciplines.

Credit Hours: 3

SLHS 1100: American Sign Language I
Introduction to American Sign Language (ASL). Development of basic expressive and receptive skills in ASL, the manual alphabet, numbers, and signed vocabulary. Includes an overview of ASL syntax and grammar. Course graded on A-F basis only.

Credit Hours: 5

SLHS 1200: American Sign Language II
This course is designed to increase students' understanding of American Sign Language. Students will increase their sign vocabulary, expressive and receptive skills, an understanding of ASL syntax and grammar. Graded on A-F basis only.

Credit Hours: 5
Prerequisites: SLHS 1100 or equivalent

SLHS 2120: Survey of Communication Disorders
Systematic survey of the disorders of speech, language and hearing.

Credit Hours: 3

SLHS 2150: American Sign Language III
This course expands on vocabulary and signing skills developed in ASL II. Includes review of ASL grammar and extensive discussions of ASL linguistic structure and Deaf culture. Class is conducted entirely in ASL. Course graded on A-F basis only.

Credit Hours: 3
Prerequisites: SLHS 1200 with minimum grade of C or instructor's consent

SLHS 3010: American Phonetics
(same as LINGST 3010). Analysis of production and acoustics of the sounds of speech with an emphasis on American English; practice in broad and narrow transcription using the International Phonetic Alphabet.

Credit Hours: 3
Prerequisites: Restricted to Communication Science and Disorders majors only

SLHS 3020: Normal Language Development
Language development in children and changes in language processing during normal aging. Cognition and language; language learning processes; language sample analysis; relationship between spoken and written language.

Credit Hours: 3
Prerequisites: Communication Science and Disorders majors only

SLHS 3020W: Normal Language Development - Writing Intensive
Language development in children and changes in language processing during normal aging. Cognition and language; language learning processes; language sample analysis; relationship between spoken and written language.

Credit Hours: 3
Prerequisites: Communication Science and Disorders majors only

SLHS 3050: Signed English and Communication Development
This course covers research, theory, and methods of using sign language to assist the communication of the Deaf, individuals with disabilities, and hearing learners. Use of sign language to improve literacy and classroom management also will be targeted. No prior experience with any sign language and/or sign system is required. Development of a basic vocabulary in Signed English will be included in this course.

Credit Hours: 3
SLHS 3210: Anatomy and Physiology of the Speech Mechanism
(same as LINGST 3210). Introduction to anatomical and functional aspects of the speech mechanism.

Credit Hours: 3
Prerequisites: Communication Science and Disorders majors only

SLHS 3220: Speech Acoustics
(same as LINGST 3220). An introduction to the acoustic aspects of speech as they relate to the respiratory, phonatory, resonatory, and articulatory systems.

Credit Hours: 2
Prerequisites: Communication Science and Disorders majors only or instructor’s consent

SLHS 3230: Hearing Science
Introduction to the nature of sound and its measurement; anatomy and physiology of the auditory and vestibular systems; psychoacoustic methods and phenomena.

Credit Hours: 3
Prerequisites: Restricted to Communication Science and Disorders majors only

SLHS 3950: Research Methods in Speech and Language Sciences
This course is designed to help students gain an understanding of how research in the discipline of speech and language sciences is conducted and how to differentiate between good-quality and poor-quality research design. We will explore the importance of the scientific method in conducting rigorous research. The course will enable students to explore the different types of research conducted within the discipline and will prepare students for an introductory experience in a research lab. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Sophomore standing

SLHS 4001: Topics in Speech, Language and Hearing Science
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated with program consent.

Credit Hours: 1-99
Prerequisites: Junior standing and instructor’s consent

SLHS 4020: Language Disorders in Children
Overview of language disorders from early childhood through adolescence. Includes language disorders as primary disability and as secondary to other disabilities. Introduction to assessment and intervention.

Credit Hours: 3
Prerequisites: Communication Science and Disorders majors only

SLHS 4020W: Language Disorders in Children - Writing Intensive
Overview of language disorders from early childhood through adolescence. Includes language disorders as primary disability and as secondary to other disabilities. Introduction to assessment and intervention.

Credit Hours: 3
Prerequisites: Communication Science and Disorder majors only

SLHS 4030: Language Disorders of Adults
Introduction to acquired adult language disorders. Review of neuroanatomy/phyisology, etiology and symptomatology, with introduction to assessment and treatment procedures.

Credit Hours: 2
Prerequisites: Communication Science and Disorders majors only

SLHS 4030W: Language Disorders of Adults - Writing Intensive
Introduction to acquired adult language disorders. Review of neuroanatomy/physiology, etiology and symptomatology, with introduction to assessment and treatment procedures.

Credit Hours: 2
Prerequisites: Communication Science and Disorders majors only

SLHS 4210: Fluency Disorders

Credit Hours: 2
Prerequisites: Communication Science and Disorders majors only

SLHS 4210W: Fluency Disorders - Writing Intensive

Credit Hours: 2
Prerequisites: Communication Science and Disorders majors only

SLHS 4220: Voice Disorders
Introduction to voice disorders in children and adults. Includes overview of perceptual and instrumental assessment procedures and selected treatment approaches.

Credit Hours: 1
Prerequisites: Communication Science and Disorders majors only

SLHS 4220W: Voice Disorders - Writing Intensive
Introduction to voice disorders in children and adults. Includes overview of perceptual and instrumental assessment procedures and selected treatment approaches.

Credit Hours: 1
Prerequisites: Communication Science and Disorders majors only

SLHS 4320: Disorders of Phonology and Articulation
Overview of disorders of use and production of speech sounds with an emphasis on developmental disorders. Introduction to assessment and treatment.

Credit Hours: 3
Prerequisites: Communication Science and Disorders majors only

SLHS 4320W: Disorders of Phonology and Articulation - Writing Intensive
Overview of disorders of use and production of speech sounds with an emphasis on developmental disorders. Introduction to assessment and treatment.

Credit Hours: 3
Prerequisites: Communication Science and Disorders majors only

SLHS 4330: Introduction to Audiology
Principles and techniques of audiological testing; etiologies of hearing impairment; current technologies in rehabilitation.

Credit Hours: 3
Prerequisites: Communication Science and Disorders majors only

SLHS 4340: Aural Rehabilitation
(cross-leveled with SLHS 7340). Identification, evaluation, and management of problems associated with hearing impairment in both children and adults. Includes issues related to speech/language development, communication, education, and social factors.

Credit Hours: 3
Prerequisites: Communication Science and Disorders majors only

SLHS 4340W: Aural Rehabilitation - Writing Intensive
(cross-leveled with SLHS 7340). Identification, evaluation, and management of problems associated with hearing impairment in both children and adults. Includes issues related to speech/language development, communication, education, and social factors.

Credit Hours: 3
Prerequisites: Communication Science and Disorders majors only

SLHS 4430: Neurophysiology for Speech, Language, and Hearing
(cross-leveled with SLHS 7430). Principles of basic neurophysiology, emphasizing correlation of structure and function of the nervous system.
Credit Hours: 3
Prerequisites: Communications Science and Disorders majors only

SLHS 4830: Individual Differences in Language Processing
(cross-leveled with SLHS 7830). Examination of the normal variations exhibited across individuals in the acquisition, use, and representation of language. Also considered are individual differences seen in second language learning, the aging process, and language disorders.
Credit Hours: 2
Prerequisites: instructor's consent

SLHS 4840: Language and Development in Infancy
(cross-leveled with SLHS 7840). Overview of theory and research on the foundations and development of language in infancy (0 to 2 years), with an emphasis on relevant, interrelated areas of development, individual differences, early recognition of delay, and assessment.
Credit Hours: 3
Prerequisites: senior standing required. Instructor's consent required

SLHS 4850: Bilingualism
(cross-leveled with SLHS 7850). This course is intended to establish an understanding of bilingual language processing and of the consequences of bilingualism on cognition. The course begins by reviewing the individual differences that modulate language processing in monolinguals and the factors that predict good second language learning outcomes in adults. This sets up the stage of an in-depth discussion of the ways in which second language proficiency changes the dynamics of language production and comprehension, as well as the cognitive performance across the lifespan. Students will be introduced to theories and models of bilingual language processing and will learn to evaluate evidence for and against the bilingual advantage and the benefits of bilingualism in healthy aging and recovery from acquired language deficits, such as aphasia. Students will also learn to identify patterns of language performance that distinguish bilinguals from monolinguals and from individuals with language disorders. Graded on A-F basis only.
Credit Hours: 3
Recommended: Junior or Senior standing

SLHS 4900: Clinical Observation in Communication Disorders
Directed clinical observations designed to prepare the student for clinical practicum. Required for professional certification. Graded on a S/U basis only.
Credit Hours: 2
Prerequisites: Communication Science and Disorders majors only

SLHS 4945: Clinical Apprenticeship in Communication Disorders
Supervised observation and clinical experience in speech-language pathology or audiology for undergraduates.
Credit Hours: 1-3
Prerequisites: senior standing and departmental consent. Communication Science and Disorders majors only

SLHS 4950: Research Apprenticeship
Research apprenticeship with a faculty member, assisting in the development and execution of research in communication processes and disorders. May be repeated to 9 hrs. maximum.

Credit Hour: 1-9
Prerequisites: instructor's consent

SLHS 4960: Directed Reading in Communication Science and Disorders
Independent reading; reports.
Credit Hour: 1-3
Prerequisites: instructor's consent

SLHS 4990: Honors Thesis
Individual honors thesis on a topic selected with a faculty advisor. Requires planning, conducting, and writing up a research project under the guidance of a faculty member. Successful completion of thesis and maintenance of 3.3 GPA, leads to degree with departmental honors. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Senior standing; 3.3 GPA; 3.5 GPA in Communication Science and Disorders courses; instructor's consent. Restricted to Communication Science and Disorders students only

SLHS 7001: Topics in Speech, Language and Hearing Science
Study of selected topics in speech pathology/audiology. Topic and credit may vary from semester to semester. May be repeated for credit with instructor and departmental consent.
Credit Hour: 1-99
Prerequisites: instructor's consent

SLHS 7085: Problems in Speech, Language and Hearing Science
Individual study not leading to thesis or dissertation. Credit Hour: 1-99
Prerequisites: instructor's consent

SLHS 7340: Aural Rehabilitation
(cross-leveled with SLHS 4340). Identification, evaluation, and management of problems associated with hearing impairment in both children and adults. Includes issues related to speech/language development, communication, education, and social factors.
Credit Hours: 3
Prerequisites: Communication Science and Disorders majors only

SLHS 7430: Neurophysiology for Speech, Language, and Hearing
(cross-leveled with SLHS 4430). Principles of basic neurophysiology, emphasizing correlation of structure and function of the nervous system.
Credit Hours: 3
Prerequisites: Communication Science and Disorders majors or instructor's consent

SLHS 7840: Language and Development in Infancy
(cross-leveled with SLHS 4840). Overview of theory and research on the foundations and development of language in infancy (0 to 2 years), with an emphasis on relevant, interrelated areas of development, individual differences, early recognition of delay, and assessment.
Credit Hours: 3
SLHS 7850: Bilingualism  
(cross-leveled with SLHS 4850). This course is intended to establish an understanding of bilingual language processing and of the consequences of bilingualism on cognition. The course begins by reviewing the individual differences that modulate language processing in monolinguals and the factors that predict good second language learning outcomes in adults. This sets up the stage of an in-depth discussion of the ways in which second language proficiency changes the dynamics of language production and comprehension, as well as the cognitive performance across the lifespan. Students will be introduced to theories and models of bilingual language processing and will learn to evaluate evidence for and against the bilingual advantage and the benefits of bilingualism in healthy aging and recovery from acquired language deficits, such as aphasia. Students will also learn to identify patterns of language performance that distinguish bilinguals from monolinguals and from individuals with language disorders. Graded on A-F basis only.  
Credit Hours: 3

SLHS 8001: Topics in Speech, Language and Hearing Science  
Study of selected topics in speech pathology/audiology. Topic and credit may vary from semester to semester. May be repeated for credit with instructor and departmental consent.  
Credit Hour: 1-99  
Prerequisites: instructor's consent, instructor's

SLHS 8020: Developmental Language Disorders  
Credit Hours: 3  
Prerequisites: Communication Science and Disorders students only

SLHS 8030: Acquired Language Disorders  
Etiology, symptomatology, assessment and rehabilitation of acquired neurogenic communication disorders in aphasia, traumatic brain injury, and dementia.  
Credit Hours: 3  
Prerequisites: Communication Science and Disorders students only

SLHS 8050: Research in Speech, Language and Hearing Science  
Independent research leading to a report but not to a thesis or dissertation.  
Credit Hour: 1-99  
Prerequisites: instructor's consent

SLHS 8085: Problems in Speech, Language and Hearing Science  
Individual study not leading to thesis or dissertation.  
Credit Hour: 1-99  
Prerequisites: instructor's consent

SLHS 8090: Research in Speech, Language and Hearing Science  
Research leading to thesis or dissertation.  
Credit Hour: 1-99  
Prerequisites: instructor's consent. Graded on a S/U basis only

SLHS 8200: Motor Speech Disorders  
Etiology, symptomatology, epidemiology, and prognosis of motor speech disorders resulting from acquired neurological damage. Emphasis on clinical assessment and rehabilitation procedures. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: Communication Science and Disorders students only

SLHS 8210: Disorders of Fluency  
Identification and remediation of fluency disorders in children and adults.  
Credit Hours: 3  
Prerequisites: Communication Science and Disorders students only

SLHS 8225: Voice Science and Voice Disorders  
Diagnosis and management of communicative disorders resulting from pathologies or misuse of the phonatory system. Includes experience with pertinent laboratory instrumentation. Graded on A-F basis only.  
Credit Hours: 1-99  
Prerequisites: Communication Science and Disorders students only

SLHS 8230: Dysphagia  
Etiology, symptomatology, and epidemiology of acquired and developmental swallowing disorders (dysphagia). Emphasis on instrumental and non-instrumental methods for assessing and treating dysphagia.  
Credit Hours: 3  
Prerequisites: restricted to MHS CSD students; or with instructor's consent

SLHS 8240: Cleft Palate/Craniofacial Disorders  
Credit Hour: 1  
Prerequisites: Communication Science and Disorders students only

SLHS 8250: Clinical Methods in Speech-Language Pathology  
An introduction to clinical procedures and evidence-based intervention methods relating to speech and language disorders. Topics include session design, data collection, measurement of progress, reporting of clinical results, and various treatment options. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: Communication Science and Disorders students only

SLHS 8260: Diagnosis in Speech-Language Pathology  
General principles of diagnosis; specific diagnostic tools and procedures for various speech and language disorders.  
Credit Hours: 3  
Prerequisites: Communication Science and Disorders students only

SLHS 8300: Neurological Bases of Speech and Language  
Structure and function of the human brain and nervous system including general organization, cranial nerves, basal ganglia, cerebellum, and descending motor pathways as related to the field of speech language pathology. Graded on A-F basis only.
Credit Hours: 2
Prerequisites: Communication Science and Disorders students only

SLHS 8320: Speech Sound Disorders
Principles of clinical assessment and treatment for speech sound disorders in children. Includes foundations in research on early speech sound acquisition, organic and developmental disorders, and treatment efficacy. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: Communication Science and Disorders students only

SLHS 8420: Reading and Language Disabilities in School-Age Children
Theories, research, and practice in reading development and disorders. Assessment and remediation of reading disabilities related to language disorders of various etiologies including developmental language disorders and head injury.

Credit Hours: 2
Prerequisites: SLHS 4020 or SLHS 8020

SLHS 8430: Augmentative and Alternative Communication
Students will learn the principles of AAC assessment, methods of intervention, and types of technology available for individuals unable to communicate fully through speech. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: Communication Science and Disorders students only

SLHS 8500: Issues in Professional Practice
Organizational, inter-professional, economic, legal, and ethical aspects of delivering speech, language, and hearing services. Graded on A/F basis only.

Credit Hours: 2
Prerequisites: Communication Science and Disorders students only

SLHS 8600: Clinical Language Analysis
This course provides a theoretical framework for understanding the morphology, semantics, syntax, and pragmatics of English as well as practice in the analysis of typical and atypical language samples. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Communication Science and Disorders students only

SLHS 8935: Clinical Practice in Audiology
Supervised practice in hearing screening, hearing conservation, and aural re/habilitation. May be repeated for credit. Graded on S/U basis only.

Credit Hour: 1

SLHS 8945: Clinical Practice in Speech-Language Pathology
Supervised clinical practice in speech pathology for graduate students. May be repeated for credit.

Credit Hour: 1-10
Prerequisites: Communication Science and Disorders students only

SLHS 8960: Directed Reading in Speech, Language and Hearing Science
Independent reading; reports.

Credit Hour: 1-3
Prerequisites: instructor's consent

SLHS 9050: Research in Speech, Language and Hearing Science
Independent research leading to a report but not to a thesis or dissertation.

Credit Hour: 1-99
Prerequisites: instructor's consent

SLHS 9090: Research in Speech, Language and Hearing Science
Research leading to thesis or dissertation. Graded on a S/U basis only.

Credit Hour: 1-99
Prerequisites: instructor's consent

Statistics Courses

STAT 1006: Topics in Statistics/Mathematical Science
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Repeatable with departmental consent.

Credit Hour: 1-5
Prerequisites: Instructor's consent

STAT 1200: Introductory Statistical Reasoning
Statistical concepts for critically evaluation quantitative information. Descriptive statistics, probability, estimation, hypothesis testing, correlation and regression. Students may not receive credit if they have received or are concurrently receiving credit for another numbered course offered by the Statistics Department. Math Reasoning Proficiency Course. Mathematical Sciences distribution course (requirement terms prior to fall 2019).

Credit Hours: 3
Prerequisites: C- or higher in MATH _0110 or MyMathTest Intermediate Algebra score of 70% or higher

STAT 1300: Elementary Statistics
Collection, presentation of data; averages; dispersion; introduction to statistical inference, correlation and regression. Students may not receive credit if they have received or are concurrently receiving credit for another course offered by the Statistics Department. Math Reasoning Proficiency Course.

Credit Hours: 3
Prerequisites: grade in C - or higher in MATH 1100 or MATH 1120 or MATH 1160 or MATH 1180 or exemption from college algebra by examination

STAT 1300H: Elementary Statistics - Honors
Collection, presentation of data; averages; dispersion; introduction to statistical inference, correlation and regression. Students may not receive credit if they have received or are concurrently receiving credit for another course offered by the Statistics Department. Math Reasoning Proficiency course.

Credit Hours: 3
## Prerequisites:
- grade of C- or higher in MATH 1100 or MATH 1120 or MATH 1160 or MATH 1180 or exemption from college algebra by examination. Honors eligibility required

### STAT 1400: Elementary Statistics for Life Sciences
Designed for students studying agriculture and other life sciences. Descriptive statistics, probability, estimation, hypothesis testing, correlation and regression. Students may not receive credit if they have received or are concurrently receiving credit for another course offered by the Statistics Department. Math Reasoning Proficiency Course.

**Credit Hours:** 3  
**Prerequisites:** grade in C- or higher in MATH 1050 or MATH 1100 or MATH 1120 or MATH 1160 or MATH 1180 or exemption from college algebra by examination

### STAT 2006: Topics in Statistics-Mathematical Science
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Repeatable with departmental consent.

**Credit Hours:** 1-5  
**Prerequisites:** Instructor's consent

### STAT 2200: Introductory Statistical Methods
Designed to upgrade the curriculum of STAT 1200 or STAT 1300 or STAT 1400 to the level of STAT 2500. Students may not receive credit for STAT 2200 if they have completed a course from the Department of Statistics numbered 2500 or higher. Math Reasoning Proficiency Course.

**Credit Hours:** 1  
**Prerequisites:** grade in C- or higher in STAT 1200 or STAT 1300 or STAT 1400

### STAT 2500: Introduction to Probability and Statistics I
Designed primarily for students in College of Business. Descriptive statistics, probability, random variables, sampling distributions, estimation, confidence intervals, hypothesis tests. Math Reasoning Proficiency course.

**Credit Hours:** 3  
**Prerequisites:** grade of C- or better in MATH 1300 or MATH 1400 or MATH 1500

### STAT 2530: Statistical Methods in Natural Resources
Statistical methods, with emphasis on applications to natural resources and including computer exercises. Math Reasoning Proficiency Course.

**Credit Hours:** 3  
**Prerequisites:** a college-level computing course and a grade in the C range or better in MATH 1100, MATH 1120, MATH 1160, or MATH 1180

### STAT 3006: Topics in Statistics-Mathematical Science
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Repeatable with departmental consent.

**Credit Hour:** 1-5  
**Prerequisites:** Consent of instructor required

### STAT 3500: Introduction to Probability and Statistics II
Continuation of STAT 2500. Coverage of additional topics including: Regression; model building; ANOVA; nonparametric methods; use of a statistical computer package.

**Credit Hours:** 3  
**Prerequisites:** grade in the C - or higher in STAT 2200 or STAT 2500 or STAT 2530, or STAT 4710 or concurrent enrollment in STAT 2200

### STAT 4006: Topics in Statistics-Mathematical
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Repeatable with departmental consent.

**Credit Hour:** 1-5  
**Prerequisites:** Consent of instructor required

### STAT 4050: Connecting Statistics to Middle and Secondary Schools
Primarily for middle and secondary mathematics education majors. Uses standards-based curricular materials to demonstrate connections between college-level statistics and content taught in middle and secondary schools. No credit toward a graduate degree in statistics.

**Credit Hours:** 3  
**Prerequisites:** STAT 1200 or STAT 1300 or STAT 1400 or STAT 2500 or STAT 4710 or ESC_PS 4170 or MATH 2320

### STAT 4085: Problems in Statistics for Undergraduates
Independent investigations. Reports on approved topics.

**Credit Hour:** 1-3  
**Prerequisites:** instructor's consent

### STAT 4110: Statistical Software and Data Analysis
Programming with major statistical packages emphasizing data management techniques and statistical analysis for regression, analysis of variance, categorical data, descriptive statistics, non-parametric analyses, and other selected topics.

**Credit Hours:** 3  
**Prerequisites:** STAT 3500 or STAT 7070 or STAT 4710 or STAT 7710 or STAT 4760 or STAT 7760

### STAT 4150: Applied Categorical Data Analysis
The study of statistical models and methods used in analyzing categorical data. The use of computing is emphasized and calculus is not required. No credit for students who have previously completed STAT 4830. No credit toward a graduate degree in statistics.

**Credit Hours:** 3  
**Prerequisites:** STAT 3500 or STAT 7070 or STAT 4710 or STAT 7710 or STAT 4760 or STAT 7760

### STAT 4210: Applied Nonparametric Methods
The study of statistical models and methods used in analyzing categorical data. The use of computing is emphasized and calculus is not required. No credit for students who have previously completed STAT 4830. No credit toward a graduate degree in statistics.

**Credit Hours:** 3  
**Prerequisites:** STAT 3500 or STAT 7070 or STAT 4710 or STAT 7710 or STAT 4760 or STAT 7760

### STAT 4210: Applied Nonparametric Methods
Statistical methods when the functional form of the population is unknown. Applications emphasized. Comparisons with parametric procedures. Goodness of-fit, chi-square, comparison of several populations, measures of correlation.

**Credit Hours:** 3
Prerequisites: STAT 3500 or STAT 7070 or STAT 4710 or STAT 7710 or STAT 4760 or STAT 7760

STAT 4310: Sampling Techniques
Credit Hours: 3
Prerequisites: STAT 3500 or STAT 7070 or STAT 4710 or STAT 7710 or STAT 4760 or STAT 7760

STAT 4330: Methods in Sports Analytics I
(cross-leveled with STAT 7330). Introductory course on collecting, processing, visualizing, and analyzing data in sports. Technologies used in data collection and processing will be explored, along with methods for measuring and comparing individual and team performance.
Credit Hours: 3
Prerequisites: Any one of STAT 3500, STAT 7020, STAT 7070, STAT 4710/7710, STAT 4760/7760, or instructor's consent

STAT 4340: Methods in Sports Analytics II
(cross-leveled with STAT 7340). Advanced course in methods for analyzing individual and team based performance in sports and the use of data to drive strategy and tactics. Emphasis will be put on analytical methods to improve skills and optimize the performance of athletes.
Credit Hours: 3
Prerequisites: Both STAT 4330/7330 and STAT 4510/7510

STAT 4410: Biostatistics and Clinical Trials
(cross-leveled with STAT 7410). Study of statistical techniques for the design and analysis of clinical trials, laboratory studies and epidemiology. Topics include randomization, power and sample size calculation, sequential monitoring, carcinogenicity bioassay and case-cohort designs. Prerequisites: any of the following: STAT 3500, STAT 7070, STAT 4710, STAT 7710, STAT 4760, STAT 7760, or instructor's consent
Credit Hours: 3

STAT 4420: Applied Survival Analysis
(cross-leveled with STAT 7420). Parametric models; Kaplan-Meier estimator: nonparametric estimation of survival and cumulative hazard functions; log-rank test; Cox model; Stratified Cox model; additive hazards model partial likelihood; regression diagnostics; multivariate survival data.
Credit Hours: 3
Prerequisites: STAT 3500 or STAT 7070 or STAT 4710 or STAT 7710 or STAT 4760 or STAT 7760

STAT 4510: Applied Statistical Models I
(cross-leveled with STAT 7510). Introduction to applied statistical models including regression and ANOVA, logistic regression, discriminant analysis, tree-based methods, semi-parametric regression, support vector machines, and unsupervised learning through principal component and clustering. No credit toward a graduate degree in statistics. Prerequisites: Any one of: STAT 3500 or STAT 7070 or STAT 4710 or STAT 7710 or STAT 4760 or STAT 7760.
Credit Hours: 3

STAT 4520: Applied Statistical Models II
(cross-leveled with STAT 7520). Advanced course in applied statistical modeling focusing on extensions of the linear model. Topics include generalized linear models, such as logistic and Poisson regression. Random effects models will also be introduced, with emphasis on linear and generalized linear mixed models, repeated measures, and longitudinal data. These methods will extend to general models for dependent data, such as spatially-referenced data and time series. Lastly, nonlinear models through neural networks and deep learning will also be discussed.
Credit Hours: 3
Prerequisites: Stat 4510 or 7510 or instructor's consent

STAT 4540: Experimental Design
(cross-leveled with STAT 7540). Examination and analysis of modern statistical techniques applicable to experimentation in social, physical or biological sciences.
Credit Hours: 3
Prerequisites: STAT 3500 or STAT 4510 or STAT 7510 or STAT 4530

STAT 4560: Applied Multivariate Data Analysis
(cross-leveled with STAT 7560). Testing mean vectors; Discriminant analysis; Principal components; Factor analysis; Cluster analysis; Structural equation modeling; Graphics.
Credit Hours: 3
Prerequisites: STAT 3500, STAT 7070 STAT 4710 or STAT 7710 or STAT 4760 or STAT 7760 or instructor's consent. No credit towards a graduate degree in statistics

STAT 4580: Introduction to Statistical Methods for Customized Pricing
(cross-leveled with STAT 7580). Introduction to basic concepts of and statistical methods used in customized pricing. Focuses on applying statistical methods to real customized pricing problems. Students will gain an understanding of customized pricing and some hands on experience with SAS Enterprise Miner.
Credit Hours: 3
Prerequisites: STAT 3500 or STAT 4510 or STAT 7510 or STAT 4530 or STAT 7530

STAT 4610: Applied Spatial Statistics
(cross-leveled with STAT 7610). Introduction to spatial random processes, spatial point patterns, kriging, simultaneous and conditional autoregression, and spatial data analysis.
Credit Hours: 3
Prerequisites: STAT 4510 or instructor's consent

STAT 4640: Introduction to Bayesian Data Analysis
(cross-leveled with STAT 7640). Bayes formulas, choices of prior, empirical Bayesian methods, hierarchal Bayesian methods, statistical computation, Bayesian estimation, model selection, predictive analysis, applications, Bayesian software.
Credit Hours: 3
Credit Hours: 3
Prerequisites: STAT 3500 or STAT 4510 or STAT 7510

STAT 4710: Introduction to Mathematical Statistics
(same as MATH 4315; cross-leveled with STAT 7710, MATH 7315).
Introduction to theory of probability and statistics using concepts and methods of calculus. No credit for Math 4315.

Credit Hours: 3
Prerequisites: STAT 4710 or STAT 7710 or STAT 4760 or STAT 7760
