

DNP in Nursing

About

The DNP program at Mizzou prepares leaders in the advanced nursing practice roles of Adult-Gerontology Clinical Nurse Specialist, (<https://catalog.missouri.edu/schoolofnursing/nursing/dnp-nursing-emphasis-adult-gerontology-clinical-nurse-specialist/>) Family Nurse Practitioner (<https://catalog.missouri.edu/schoolofnursing/nursing/dnp-nursing-emphasis-family-nurse-practitioner/>), Pediatric Clinical Nurse Specialist (<https://catalog.missouri.edu/schoolofnursing/nursing/dnp-nursing-emphasis-pediatric-clinical-nurse-specialist/>), Pediatric Nurse Practitioner- Primary Care (<https://catalog.missouri.edu/schoolofnursing/nursing/dnp-nursing-emphasis-pediatric-nurse-practitioner-primary-care/>), Psychiatric-Mental Health Nurse Practitioner across the lifespan (<https://catalog.missouri.edu/schoolofnursing/nursing/dnp-nursing-emphasis-psychiatric-mental-health-nurse-practitioner-across-lifespan/>), and Leadership and Innovations in Health Care (<https://catalog.missouri.edu/schoolofnursing/nursing/dnp-nursing-emphasis-nurse-leadership-innovations-health-care/>). Our program strengths include a strong clinical focus and a well-developed trajectory for the development of clinical scholarship. Unique aspects of our program are a focus on rural and underserved populations and the opportunity for students to select electives in family dynamics, financial management, nursing education, or symptom management. Successful completion of the program prepares nurses for advanced clinical practice in primary care, hospital, and community settings as well as leadership roles in practice settings and clinical faculty positions.

Upon admittance to the program, the following must be completed by the student, and documentation of these items must be submitted before registering for coursework:

- Current required immunizations
- Satisfactory criminal background check
- Satisfactory drug screen
- Current CPR certification
- Proof of undisciplined nursing licensure

Degree Requirements

DNP Program Requirements include completion of required coursework with associated on-campus days, clinical hours, and the DNP Scholarly Project. The DNP in nursing requires a minimum of 72 credits beyond the baccalaureate degree. Of the 72 hours, 36.5 credits must be completed at the University of Missouri. In addition, a minimum of 1000 faculty/preceptor-supervised academic clinical hours must be completed. Post-master's students may transfer in clinical hours completed in their previous master's degree pending approval of their academic advisor. The total number of clinical hours may vary depending on the student's emphasis area, proof of national certification in an advanced practice role, and previous graduate clinical coursework completed. The student, in collaboration with their academic advisor determines the student's plan of study, total credit hours, and clinical hours necessary to adequately prepare the student for the DNP degree in their emphasis area. DNP students have mandatory on-campus requirements dependent on their emphasis area. For specific dates click on On-Campus dates (<https://nursing.missouri.edu/academic-programs/doctor-of-nursing-practice/dnp-on-campus-dates/>). Further explanation of program requirements can be found on the DNP Program Requirements

(<https://nursing.missouri.edu/academic-programs/doctor-of-nursing-practice/>) web page.

All DNP pathways require the completion of a graduate level statistics course.

Sample Plan of Study

Sample plans of study can be found for each of the emphasis areas on the Sinclair School of Nursing DNP webpage. (<https://nursing.missouri.edu/academic-programs/doctor-of-nursing-practice/>)

Doctor of Nursing Practice Residency Project Requirements

The DNP Residency Project is an in-depth, evidence-based practice change project that will focus on a theoretically and clinically relevant problem impacting a rural or other underserved population or critical healthcare system need. Specifics of the DNP Residency Project can be found in the Sinclair School of Nursing DNP Student Handbook (<https://nursing.missouri.edu/for-students/handbooks/>).

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the Doctor of Nursing Practice program (<https://nursing.missouri.edu/academic-programs/doctor-of-nursing-practice/admission-to-dnp/>) and the minimum requirements of the Graduate School (<https://gradschool.missouri.edu/admissions/eligibility-process/>). Because requirements vary, you *must* refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you have applied before official admission to the University of Missouri.

Application Deadlines: After the application deadline, submitted materials will be reviewed. Applicants will receive notification of their acceptance decision within four weeks. Program application timelines vary by emphasis area. Refer to DNP How to Apply (<https://nursing.missouri.edu/academic-programs/doctor-of-nursing-practice/application-process/>) for specific deadlines.

State Authorization: Due to higher education regulation changes, the University of Missouri is unable to accept applications for admission to online programs from students residing in various states. You may find more information at this link: <https://online.missouri.edu/about/state-authorization/>.
