BS in Hospitality Management with Emphasis in Lodging Management

Degree Program Description

The Lodging Management emphasis equips students for careers as hotel general managers. For students who choose this specialization, the learning experience includes observing the global hotel industry’s development and learning every aspect — such as housekeeping, sales, marketing, finance and food and beverage outlet management — of managing a hotel. To enhance their in-classroom learning, students gain hands-on experience through managerial job shadowing and internships.

Major Program Requirements
