MS in Natural Resources with Emphasis in Human Dimensions of Natural Resources

Emphasis Area Focus
The Human Dimensions of Natural Resources Emphasis Area (HDNR) addresses research and management questions including peoples’ attitudes, knowledge, values, perceptions, and behaviors associated with natural resources. As an interdisciplinary emphasis area, HDNR considers applicants with backgrounds in social sciences, environmental education, natural resources management and conservation, or related disciplines.

The MS is a research-based degree. The student is expected to work closely with a faculty advisor to develop a research topic and a program of study. Students who complete a thesis are expected to publish their findings in peer-reviewed journals. A non-thesis option is also available that requires additional coursework and a research project.

Degree Requirements
All students in the HDNR Emphasis Area will be required to take at least one course from each of three categories:
1. Social science research methods
2. Quantitative and/or qualitative data analysis
3. Social science theory

Each student’s coursework requirements, including the selection of specific courses in the above categories, will be listed in the student’s plan of study and approved by their graduate committee.

Thesis Option
Students in the thesis option will complete 30 credit hours of coursework with no more than 12 credits for thesis research. Students choosing the thesis option will prepare a written research proposal and make an oral defense of that proposal within 12 months of their initial enrollment in the program. Students in the thesis option will write a thesis based on their research and participate in a public oral defense of their thesis announced at least two weeks prior to the defense date.

Non-Thesis Option
Students in the non-thesis option will complete 36 credit hours of coursework with no more than 12 credits for project research. Students choosing the non-thesis option will be required to write a project plan and to make an oral defense of that plan within the first year following their initial enrollment in the program. Students choosing the non-thesis option will write a technical report based on their project and participate in a public oral defense of their report to be announced at least two weeks prior to the defense.

Application and Admission Information
Dr. Charles Nilon
302 Anheuser-Busch Natural Resources Building

Columbia, MO 65211
nilonc@missouri.edu; (573) 882-3738

Admission Criteria
• Minimum GPA: 3.0 in last 60 hours
• Minimum TOEFL scores:
<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>80</td>
<td>550</td>
