To the Office of Graduate Studies
All required Graduate Studies documents

To the Accountancy PhD Program
Departmental Application
*3 Recommendation letters
*Statement of Purpose
*Résumé
Official GMAT scores
*Upload electronically through the Office of Graduate Studies application

Prerequisites for the Doctoral Degree in Accountancy
International students should note that we rarely admit a student directly from outside the United States unless they have studied/worked in an English-language setting.

Prerequisites to undertaking doctoral course work include one, and preferably two, semesters of calculus; an introductory statistics course; and intermediate-level microeconomic theory. An undergraduate accounting major (or equivalent) is desirable but required. Prior graduate work is not required for admission to the program, but most successful applicants do have a master’s degree.

Graduation Requirements for the Doctoral Degree in Accountancy
The University requires 72 total hours beyond a baccalaureate degree for a PhD. In order to meet this requirement, the School of Accountancy requires the following program of course work and dissertation research:

<table>
<thead>
<tr>
<th>Course Type</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Doctoral-level Accounting Research courses</td>
<td>15</td>
</tr>
<tr>
<td>Course Work in supporting theoretical fields (e.g. economics, finance, organizational theory and behavior)</td>
<td>15</td>
</tr>
<tr>
<td>Statistics and other research methods courses</td>
<td>18</td>
</tr>
<tr>
<td>Weekly Research Seminar (meeting one hour per semester for four years)</td>
<td>8</td>
</tr>
<tr>
<td>Dissertation Research</td>
<td>12-16</td>
</tr>
<tr>
<td>Total Credits</td>
<td>68-72</td>
</tr>
</tbody>
</table>

Course work is designed to be completed in five semesters (two and one-half years). Written and oral comprehensive examinations are then taken after completion of course work, and the remainder of years three and four is devoted to the completion of the research dissertation. Specializations are available in areas of faculty research interests.
