Honors College Admissions

Interested students are encouraged to visit our website (https://honors.missouri.edu/admission/) for more information on how to apply and on the profile of a “typical” successful Honors applicant, as well as the required materials for admission—including official transcripts, official score report, essays, and more. The Honors College does not accept applications from conditionally admitted students. A student must be fully admitted to MU, by our required deadlines, before Honors will consider their application.

Program Requirements

Maintaining Honors Eligibility

GPA Requirement

To retain membership in the Honors College, students must maintain an MU cumulative GPA of 3.5 or above. Students with an MU cumulative GPA below 3.5 will receive a warning letter the first semester in which this occurs. Students with an MU cumulative GPA below 3.5 for a second consecutive semester will no longer be members of the Honors College. Students with a cumulative Mizzou GPA below 3.0 will be removed immediately.

Participation Requirement

Students are required to complete two honors courses per year for their first two years at MU. All honors courses will count toward this requirement, including honors-designated courses and Honors Learning-by-Contract.

Honors Certificate Requirements

Students who complete 24 or more hours for honors credit and maintain a 3.5 cumulative GPA (as calculated after final grades are posted at the end of the semester in which the student is graduating) are eligible to graduate with an Honors Certificate. In addition to General Honors and Departmental Honors course credits, the 24 hours may include up to 6 hours of honors transfer credit, 6 hours of approved study abroad credit (form required), 8 hours of Learning-by-Contract credit, and 8 hours of approved graduate credit (form required). Students must achieve a minimum letter grade for each course: a C or better for regular honors classes or a B or better for Learning-by-Contract courses and Honors Credit via Study Abroad. To do an Honors Learning-by-Contract, students must enter into a contractual agreement with a professor and gain approval from the director of the Honors College.

Honors Learning Community

The Honors Learning Community fosters a living and learning space that encourages in-depth study in traditional fields of learning as well as other kinds of intellectual inquiry, including interdisciplinary and experiential learning. The College fosters scholarly engagement through research opportunities, study abroad, internships, and other experiences that expand learning beyond the classroom. Students receive personalized advising through a team of professionally-trained advisors.

Opportunities in the Honors College are described below.

Honors Curriculum

Honors courses offered through the Honors College are listed in the University Catalog. The Honors College also offers the following alternative ways by which to earn Honors Credit:

- Honors Learning-by-Contract. This arrangement allows honors students to take a non-honors course for honors credit by completing additional or alternative work. To do an Honors Learning-by-Contract, students must enter into a contractual agreement with a professor and gain approval from the director of the Honors College.
- Honors Credit via Graduate Course Work. Honors students may earn credit toward the Honors Certificate by taking graduate-level classes.
- Honors Credit via Study Abroad. Up to six hours of study abroad credit completed while a student at MU can be considered as honors credit.
- Honors Courses offered through individual departments. These include special topics courses and honors sections of regularly-offered courses.
- Research and other independent-study types of courses, offered both through departments and the Honors College.

Honors course information and course application forms can be found on the Honors College website. (https://honors.missouri.edu/current-students/courses/)

We will spend some time with a local (KC) author who has written a novel on BBQ that is currently being turned into a TV series. And then we will spend time visiting local BBQ 'joints', speaking with owners and pitmasters, customers and devotees, about their business models, their culinary decisions, and their traditions - yes, we will taste, but we will also learn, and use what we have learned, to understand the world of BBQ and its intersections in our daily and national lives. GN_HON 3120H: Honors Humanities Colloquium
Credit Hour: 2-3

The concept of ‘human nature’ is fiercely contested and debated both within and between academic disciplines. We will use evolutionary theory to unify explanations from disparate disciplines like biology, psychology, and anthropology. In each class, we will discuss one specific topic like sex or violence and seek to make sense of it from both the proximate level (what triggers the behavior and how does it develop?) and the ultimate level (why and how did our evolutionary history imbue us with this capacity?). Graded on A-F basis only.

**GN_HON 3241H: Evolution of Human Nature**

*(same as ANTHRO 3340H)*

We will investigate the topic of human nature, asking such questions as: What are we like? Why do we behave the way we do? Are we inherently selfish or social? Do we have a unitary ‘self’ or are we made up of many (and sometimes contradictory) selves? Is there a single ‘human’ nature or are there distinct ‘male’ and ‘female’ natures? Does human nature vary across cultures? Insights come from fields ranging from genetics to literature. The concept of ‘human nature’ is fiercely contested and debated both within and between academic disciplines. We will be focusing on the scientific study of human nature, seeking naturalistic explanations by formulating and testing hypotheses. In particular, we will use evolutionary theory to unify explanations from disparate disciplines like biology, psychology, and anthropology. In each class, we will discuss one specific topic like sex or violence and seek to make sense of it from both the proximate level (what triggers the behavior and how does it develop?) and the ultimate level (why and how did our evolutionary history imbue us with this capacity?). **GN_HON 3242H: The Future Is Indigenous! - Honors**

Today, Indigenous peoples around the world are reasserting an ancient idea that our human responsibilities to the planet come through place, and that our planetary responsibilities are fulfilled by investing in and learning from place. Place-based Indigenous thought and activism give us new ways of thinking about global citizenship within a more-than-human democracy of beings - a ‘pluriverse’ - and changes our understanding of what it means to be human in the twenty-first century. After looking at the limitations of the system of global ethics in cosmopolitan philosophy, we will get acquainted with the ‘place thought’ of three Indigenous peoples: the Western Apache of the USA, the Maori of Aotearoa/New Zealand, and the Huaorani of the Ecuadorian Amazon. This course satisfies three credit hours of general education requirements in the behavioral and social sciences and is part of the Honors College’s Interdisciplinary Topics in the Human Sciences series. Graded on A-F basis only.
