Physical Therapy

K. Gibson, Chair
Department of Physical Therapy
School of Health Professions
801 Clark Hall
(573) 882-7103
Fax: (573) 884-8369
https://healthprofessions.missouri.edu/physical-therapy/

Physical Therapy involves the evaluation and treatment of physical disability and pain that may result from injury, disease or developmental disability. Prevention of disability and public education are also roles of the physical therapist. Physical therapists use tests and measurements to assess body system dysfunction and determine diagnosis and treatment. Daily living skills, including work, are also addressed.

Faculty

Emeritus Professor M. Brown*, M. A. Minor*
Teaching Professor K. Gibson*
Clinical Professor C. C. Abbott*
Associate Professor E. A. Dannecker**, T. M. Guess, S. P. Sayers**
Associate Teaching Professor T. Briedwell*, K. Gibson*, M. S. Hargrove*, J. Krug*, D.E. Martin*
Assistant Professor J. Craggs
Assistant Teaching Professor J. Bridges*, A. Campbell*, E. Prost*, K. Stephens*, B. Willis*
Assistant Clinical Professor J. B. Mann
Instructor C. A. Blow*, A. C. Connell*, N. J. Dietz**

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BHS in Pre-Professional Physical Therapy (http://catalog.missouri.edu/undergraduategraduate/schoolofhealthprofessions/physicaltherapy/bhs-pre-prof-physicaltherapy)

Graduate

The Department of Physical Therapy does not offer any graduate-level degrees. We do offer Doctor of Physical Therapy at the professional level. Please see the Professional Physical Therapy section (http://catalog.missouri.edu/professional/physicaltherapy/dpt-physical-therapy) in the catalog for more information.

PH_THR 1000: Introduction to Physical Therapy
Acquaints students with the physical therapy profession including the required educational preparation, practice settings, sample interventions, current issues, trends and research. Graded on S/U basis only.

Credit Hour: 1

PH_THR 2510: Human Anatomy for Rehabilitation Professionals
System-based human anatomy. Musculoskeletal, Neuromuscular, Cardiovascular, Pulmonary, Integumentary. Lab includes three-dimensional identification of structures and instruction in common system-based physical exam procedures. Graded on A-F basis only.

Credit Hours: 4

PH_THR 3022: Principles of Physical Therapy
History of physical therapy; the profession; basic skills; first aid, infection control; vital signs; medical terminology. Graded on S/U basis only.

Credit Hour: 1

PH_THR 4240: Applied Neurophysiology for Allied Health Students
(Cross-leveled with PH_THR 7240, OC_THR 7240). Principles of basic neurophysiology, emphasizing correlation of structure and function of the nervous system.

Credit Hours: 3

PH_THR 4250: Human Kinesiology
(same as HTH_PR 4250). Study of principles of physical laws, biomechanics and anatomic structure relative to human movement. Applications through analysis of daily functional performance, exercise, and sport.

Credit Hours: 3

Prerequisites: PTH_AS 2201 or PH_THR 2500

PH_THR 4330: Physical Agents
Biophysics, theory and technique concerning the use of physical agents as adjuncts to exercise programs. Includes thermal, electrical, light, hydrotherapy and mechanical agents.

Credit Hours: 3

PH_THR 4420: Foundations of Therapeutic Exercise
Physiological basis of exercise throughout the lifespan with emphasis on the musculoskeletal, neuromuscular, cardiovascular/pulmonary and integumentary systems and the effects of injury and disease on these systems.

Credit Hours: 3

PH_THR 5110: Fundamentals of Physical Therapy
Introduction to professional school and expectations, history of physical therapy; the profession, basic skills, first aid, infection control, vital signs, surface anatomy. Instruction includes lecture and discussion, lab activities, written assignments and practical examinations. Graded on S/U basis only.

Credit Hour: 1

Prerequisites: Admission to professional phase of doctor of physical therapy program

PH_THR 5210: Applied Neurophysiology for Allied Health Students
(Cross-leveled with PH_THR 4240). Principles of basic neurophysiology, emphasizing correlation of structure and function of the nervous system.

Credit Hours: 3
PH_THR 5220: Biophysical Agents
Includes biophysics, theory and techniques concerning usage of biophysical agents as adjuncts to exercise programs. This entails the use of thermal, electrical, light, hydrotherapy, and mechanical agents.

Credit Hours: 3

PH_THR 5230: Clinical Evaluation and Procedures with Laboratory
Principles and procedures of basic evaluation methods and documentation: transfers, body mechanics, muscle strength, range of motion, muscle length, neurologic tests. Includes laboratory. Includes discussion with emphasis on critical thinking and clinical application through problem solving.

Credit Hours: 4
Prerequisites: Restricted to physical therapy students only
Recommended: Successful completion of prior professional coursework

PH_THR 5240: Foundations of Therapeutic Exercise
Physiologic basis of exercise throughout the lifespan with emphasis on the musculoskeletal, neuromuscular, cardiovascular/pulmonary and integumentary systems and the effects of injury and disease on these systems.

Credit Hours: 3

PH_THR 5250: Human Kinesiology
(same as HTH_PR 4250, OC_THR 4220 or OC_THR 7220). Study of principles of physical laws, biomechanics and anatomic structure relative to human movement. Applications through analysis of daily functional performance, exercise, and sport.

Credit Hours: 3
Prerequisites: Human Anatomy

PH_THR 5260: Introduction to Clinical Education and PhysZOU I
Introduction to the aspects of clinical education. Development of foundational clinical skills and behaviors, includes clinical experience in PhysZOU. This course is graded on a S/U basis only.

Credit Hour: 1
Prerequisites: Successful completion of prior professional coursework

PH_THR 5270: Applied Therapeutic Exercise
Application of therapeutic exercise with an emphasis on evidenced-based exercise prescription, modes and techniques of exercise typically seen in rehabilitation.

Credit Hours: 3

PH_THR 5300: Clinical Kinesiology with Laboratory
Advanced Kinesiology addressing functional mobility; specifics of normal human gait; pathokinetcs of gait. Assistive devices; wheelchairs; orthoses and prostheses. Includes laboratory.

Credit Hours: 3

PH_THR 5320: Clinical Pathophysiology
Interdisciplinary and case-based examination of the pathophysiology, prevention and general health management of disease/injury across the lifespan encountered in occupational and physical therapy practice.

Credit Hours: 3

PH_THR 5340: Introduction to Clinical Education and PhysZOU II
Continuation of Introduction to Clinical Education and PhysZOU I with further emphasis on current events in the Physical Therapy profession as well as the professional attributes of communication, teamwork and problem solving. Required experience in PhysZOU clinical setting. This course is graded on a S/U basis only.

Credit Hour: 1
Prerequisites: Successful completion of prior professional coursework

PH_THR 5350: Introduction to Orthopedic Physical Therapy with Laboratory
The physical therapy management of musculoskeletal disorders. A systematic clinical decision making model is introduced that considers the stage of inflammation and repair, impairments, and the systematic anatomical structure. Lecture/Laboratory/ Written Examination/Practical Examination.

Credit Hours: 3

PH_THR 5360: Pharmacology in Rehabilitation
Principles of pharmacology including pharmacokinetics, pharmacodynamics, and toxicology of common drugs encountered in rehabilitation. Emphasis on pharmacology related to the musculoskeletal, neuromuscular, cardiovascular/pulmonary and integumentary systems across the lifespan.

Credit Hours: 2
Prerequisites: Restricted to students accepted into professional major

PH_THR 5370: Topics in Physical Therapy
Organized study of selected topics in physical therapy, health and wellness, prevention of disease and disability, and the rehabilitation sciences. Specific content may vary from semester to semester.

Credit Hour: 1-99
Prerequisites: instructor's consent

PH_THR 5380: Problems in Physical Therapy
Independent study and development of a clinical or research paper, poster or workshop suitable for presentation in a symposium or conference. Specific plan individually developed with advisor. Journal reviews. Graded on S/U basis only.

Credit Hour: 1-3

PH_THR 6410: Clinical Education I
Full time, supervised clinical experience addressing application of basic skills in patient evaluation and treatment, documentation and professional behaviors. Graded on S/U basis only.

Credit Hours: 5

PH_THR 6510: Differential Diagnosis in Physical Therapy
Evidence-based clinical decision making emphasizing health screenings and system review to determine physical therapy diagnosis/need for referral to other health care professionals.

Credit Hours: 3

<tr>
<td>PH_THR 6564</td>
<td>Medical Testing in Rehabilitation</td>
<td>Diagnostic imaging used by disciples within and outside of physical therapy. Emphasis placed on basic skills for analyzing images to determine interpretation of results as they apply to physical therapy examination and intervention.</td>
<td>3</td>
</tr>
<tr>
<td>PH_THR 6565</td>
<td>PHYSZOU IV</td>
<td>Clinical experience through PhysZOU clinic, in three clinical areas (orthopedic, pediatric, and neurologic). Each student will work as a team with students and a clinical instructor to develop, perform and document physical therapy sessions. Graded on S/U basis only.</td>
<td>0.5</td>
</tr>
<tr>
<td>PH_THR 6566</td>
<td>Psychosocial Issues for Health Promotion</td>
<td>Psychological and social factors impact people's health and the American Physical Therapy Association has called for interprofessional approaches for the provision of fitness, health promotion, wellness, and risk reduction programs to enhance quality of life for persons across the life-span. This course focuses on psychosocial issues for health promotion in order to help future health care providers and scientists to improve the health and well-being of people. Graded on A-F basis only.</td>
<td>2</td>
</tr>
<tr>
<td>PH_THR 6567</td>
<td>Case Management: Neurological Impairments Across the Lifespan</td>
<td>Traditional and contemporary theories of physical therapy in advanced rehabilitation of children and adults with neurologic disorders; education/employment, ethical/legal issues; patient/client advocacy. Problem based format; laboratory.</td>
<td>5</td>
</tr>
<tr>
<td>PH_THR 6568</td>
<td>Case Management: Geriatrics and Orthopedics</td>
<td>Complex orthopedic problems in persons of all ages; supervision, reimbursement, ethical/legal situations; community programs for injury prevention; work capacity evaluation/work hardening; consultation. Problem-based format; laboratory.</td>
<td>5</td>
</tr>
</tbody>
</table>
PH_THR 6820: Clinical Education III
A continuation of supervised clinical education with supervision from a licensed physical therapist that has at least one year of experience. This course is a continuation of 7945 with advancing expectations of student physical therapist performance. Graded on S/U basis only.

Credit Hours: 6
Prerequisites: Successful completion of PH_THR 7945

PH_THR 6830: Health Policy for Physical Therapy
This course is designed for physical therapy students and will provide an introduction to health policy along with an overview of the health care system in the United States, including its structures, financing mechanisms, and outcomes. Lecture/reflective writing/written exams. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: Successful completion of prior coursework

PH_THR 6840: PhysZOU V
Clinical experience through PhysZOU clinic, in three clinical areas (orthopedic, pediatric, and neurologic). Each student will work as a team with students and a clinical instructor to develop, perform and document physical therapy sessions. Graded on S/U basis only

Credit Hours: 0.5

PH_THR 6850: Professional Issues
The physical therapist as health care professional, administrator, and educator; legal, ethical, and political issues. Service delivery management; delegation of care; rural vs. urban health care needs.

Credit Hours: 3

PH_THR 6810: Clinical Education IV
Full time supervised clinical education with supervision from a licensed physical therapist that has at least one year of experience. This course is a continuation of 8945 with advancing expectations of student physical therapist performance. Graded on S/U basis only.

Credit Hours: 5
Prerequisites: Successful completion of PH_THR 8945

PH_THR 6920: PhysZOU VI And Professional Development Plan
Clinical experience through PhysZOU clinic, in three clinical areas (orthopedic, pediatric, and neurologic). Each student will work as a team with students and a clinical instructor to develop, perform and document physical therapy sessions. Graded on S/U basis only. Prerequisites: Successful completion of prior professional coursework

Credit Hours: 0.5

PH_THR 6930: Seminar in Physical Therapy
Integrate previously learned content in unique patient cases and comprehensive review and evaluation of readiness for entry level physical therapist practice, in both didactic and psycho-motor domains. Enrollment is limited to students in professional physical therapy program.

Credit Hours: 4
Prerequisites: departmental consent

PH_THR 6940: Special Skills in Physical Therapy
This course will offer a menu of options to students to develop additional knowledge about specific skills in the physical therapy profession. Students may choose topics of interest in addition to the mandatory sessions to meet a minimum of 800 minutes of contact. Graded on S/U basis only. Prerequisites: successful completion of prior professional coursework.

Credit Hour: 1

PH_THR 7250: Human Kinesiology
(same as HTH_PR 4250, OC_THR 4220 or OC_THR 7220). Study of principles of physical laws, biomechanics and anatomic structure relative to human movement. Applications through analysis of daily functional performance, exercise, and sport.

Credit Hours: 3
Prerequisites: Human Anatomy

PH_THR 7420: Foundations of Therapeutic Exercise
Physiologic basis of exercise throughout the lifespan with emphasis on the musculoskeletal, neuromuscular, cardiovascular/pulmonary and integumentary systems and the effects of injury and disease on these systems.

Credit Hours: 3

PH_THR 7550: Psychosocial Issues for Health Promotion
This course focuses on psychosocial issues for health promotion in order to help future health care providers and scientists to improve the health and well-being of people. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: Restricted to students who are admitted into the Physical Therapy-DPT program

PH_THR 7850: Assessment and Neuropsychology of Pain
Pain is a common problem that impairs people’s quality of life and costs millions of dollars annually. Yet, an investigation of physical therapy education programs in the U.S. supported inadequate coverage of pain. This course focuses on the assessment and neuropsychology of pain in order to help future health care providers and scientists to improve the health and well-being of people with impaired quality of life due to pain. Graded on A-F basis only.

Credit Hour: 1
Prerequisites: Restricted to students who are admitted into the Physical Therapy-DPT program

PH_THR 7960: Special Readings in Physical Therapy
Independent readings selected in consultation with supervising faculty member. Identified educational goals and activities; discussion, annotated bibliography or report.

Credit Hour: 1-3
Prerequisites: instructor's consent
PH_THR 8945: Clinical Education IV
A continuation of supervised clinical education with supervision from a licensed physical therapist that has at least one year of experience. This course is a continuation of 7945 with advancing expectations of student physical therapist performance. Graded on S/U basis only.

Credit Hours: 7
Prerequisites: Successful completion of PH_THR 7945

PH_THR 8950: Clinical Education V
Full time supervised clinical education with supervision from a licensed physical therapist that has at least one year of experience. This course is a continuation of 8945 with advancing expectations of student physical therapist performance. Graded on S/U basis only.

Credit Hours: 6
Prerequisites: Successful completion of PH_THR 8945
