Journalism

The world’s first School of Journalism was established in 1908 at the University of Missouri to strengthen the effectiveness of public communication in a democratic society. The school’s first dean, Walter Williams (who went on to become president of the University in 1930) wrote the Journalist’s Creed, which stresses the profession’s rights and responsibilities as a public trust.

The faculty is committed to educating students in the responsibilities and skills of the professional journalist. It also has a broader commitment to advance the profession of journalism through scholarly research, analysis and criticism and through special programs to serve practitioners. The school also prepares students for careers in corporate communication through its strategic communication emphasis area. Students in that area typically pursue careers in advertising or public relations or in strategic communication.

The Missouri Method assures a journalism student will graduate with a broad, liberal education essential for a journalist whose work may span many segments of today’s complex society. In addition to a liberal arts education, students complete practical laboratory work in a variety of settings, including a public radio station, a commercial daily newspaper and a network-affiliated television station. The school offers the Bachelor of Journalism, Master of Arts and Doctor of Philosophy degrees, along with cooperative programs with other divisions in the University. It was the first school in the world to offer all three of those degrees.

The Accrediting Council on Education in Journalism and Mass Communication has accredited the undergraduate program and a professional master’s degree.

- Minor in Journalism (http://catalog.missouri.edu/undergraduategraduate/schoolofjournalism/journalism/journalismminor/)

Undergraduate Programs

Undergraduate students in the School of Journalism pursue their degree in Journalism or with an emphasis in Strategic Communication as approved by the University Board of Curators and the Missouri Coordinating Board of Higher Education.

A minor in Journalism is also offered.

Global and Domestic Programs

The School of Journalism offers exchange, internship, and a variety of short-term programs in the United States and abroad. Students interested in these programs should consult with an advisor in the Journalism Global Programs Office.

Degree with Honors Requirements

Graduation with Latin honors is based on the grade point average from all UM-system courses. Cum laude requires 3.5, magna cum laude 3.7, and summa cum laude 3.9. The School computes the grades to three decimal points and does not round up. Students are reviewed for honors prior to the graduation ceremony and after the semester concludes.
Kappa Tau Alpha is a journalism honorary society that accepts the top 10 percent of each graduating class. Qualifying students are sent a letter with details about the society and are recognized at the journalism graduation ceremony.

About Journalism's Graduate Degree Programs

The Missouri School of Journalism awarded the first master’s and doctoral degrees in journalism in 1921 and 1934, respectively. The master’s and doctoral programs at the School enjoy superb reputations, both among scholars and among practitioners in news, advertising, public relations and strategic communication.

Master’s Programs

For the master’s program, Missouri Journalism offers a complete set of real-media experiences. We operate the only network affiliate (NBC) television station in the country used to train journalism students. We publish a community daily newspaper (not a campus paper), and we operate several major web sites, a local magazine and an international magazine. Students also may train at our campus-based NPR affiliate.

Our strategic communication students design media campaigns for local and national clients through our two student-run advertising agencies, MOJO Ad and Adzou. Our students have created advertising and public relations campaigns for Nokia, Apple, Dr Pepper, Anheuser-Busch, Duncan Hines, DuPont, Dow Chemical, Kinko’s, Eastman Kodak and many other leading international brands.

We operate educational programs in Washington, D.C., New York, Brussels and Barcelona where many of our students carry out their capstone projects or do research. We also partner with educational programs around the world.

The MA is offered in an on-campus program and an online program.

- On-Campus Master’s Program: https://journalism.missouri.edu/degrees-programs/graduate-degrees/masters/
- Online Master’s Program: https://journalism.missouri.edu/degrees-programs/graduate-degrees/online-masters/

On-Campus Options - MA in Journalism

Students who wish to pursue a traditional on-campus experience, should refer to the MA in Journalism page (https://journalism.missouri.edu/degrees-programs/graduate-degrees/masters/). Students choose from more than 20 program models, and complete a thesis or professional project. An accelerated BJ to MA program is available, as well as a joint Journalism and Law program, and a dual degree option with the Masters of Public Health.

Online Options - MA in Journalism with emphasis

Professional journalists or others who cannot travel to mid-Missouri to attend the on-campus program might consider doing their program in an online format, available to applicants who have a minimum of three years professional journalism-related experience. Students in the online program are required to make two short visits, two to three days each, to campus during their program. Learn more about our online master’s programs here https://journalism.missouri.edu/degrees-programs/graduate-degrees/online-masters/.

The online option is offered in four emphasis areas: Health Communication, Interactive Media, Media Management, and Strategic Communication.

Graduate Minor in Law and Conflict Resolution

This program is for journalism doctoral students who are interested in teaching and researching in journalism, law and conflict resolution in a school of journalism or communication department. For details, refer to the Graduate Minor in Law and Conflict Resolution (http://catalog.missouri.edu/undergraduategraduate/schoolofjournalism/additionalminorsandcertificates/graduate-minor-law-conflict-resolution-journalism-doctoral-students/).

Facilities and Resources

A variety of special facilities and resources are available to help students meet their educational objectives. These include the Columbia Missourian, a general circulation daily newspaper with full-leased wires of The Associated Press and The New York Times Service; KOMU-TV, an NBC affiliate; KBIA-FM, a National Public Radio station; MOJO Ad and Adzou advertising agencies; and Vox magazine, a weekly city magazine. All provide students the opportunity for hands-on learning under faculty supervision and to conduct applied research.

The Journalism Library subscribes to more than 125 newspapers and magazines worldwide and catalogs more than 40,000 volumes. Many more resources are available in electronic format.

The State Historical Society of Missouri, located on-campus, has an extensive collection of state newspapers dating from 1808.

The Freedom of Information Center maintains a day-to-day study of the actions by government, media and society affecting the movement of information.

The national headquarters of Investigative Reporters and Editors and the National Institute for Computer Assisted Reporting provide educational services to reporters, editors and others interested in investigative journalism.
The Association of Health Care Journalists is headquartered at Missouri and is dedicated to advancing public understanding of health care issues. Its mission is to improve the quality, accuracy and visibility of health care reporting, writing and editing.

The Center on Religion & the Professions works to improve religious literacy among professionals, to help them serve a diverse public. As America grows more religiously diverse, professionals need to better understand the religious traditions and beliefs of the public they serve. CORP's interdisciplinary, practical and applied work centers on that mission. Founded in 2003 with a grant from The Pew Charitable Trusts, the Center is one of Pew's 10 Centers of Excellence. CORP is affiliated with Religion Newswriters Association.

The American Society of News Editors focuses on leadership development and journalism-related issues. Founded in 1922 as a nonprofit professional organization, ASNE promotes fair, principled journalism, defends and protects First Amendment rights, and fights for freedom of information and open government.

Founded in 2003 with a generous gift from the Donald W. Reynolds Foundation, the Reynolds Journalism Institute is committed to developing and testing new ways to improve journalism through new technology and improved processes.

Special Events

Each year the school sponsors the Missouri Honor Medal Award program, which brings contemporary leaders in mass communications to the campus. The school also directs a number of professional development and awards programs, including the international competition for the best Pictures of the Year.

Honor Society

Kappa Tau Alpha, national honor society for scholarship in journalism, founded at the university in 1910, has its headquarters in the school.

Funding

An array of competitively awarded fellowships, assistantships, scholarships and other financial aid opportunities are available.

JOURN 4224: Effective Job Search Strategies
Are you getting ready to apply for a job or internship? A resume is a brief written account of personal, educational, and professional qualifications and experience that you prepare as part of your application materials for a prospective job. To ensure that your resume is read by the recipient, you will need a cover letter that markets your unique qualifications for the specified job description. In the current global economy, it is essential for job seekers to optimize their chances of being considered and hired.
for positions that are well-suited to their qualifications and interests. This course will help you effectively develop employment application materials for today’s job market by honing your resume writing skills, providing you with tools to create an impressive resume (or to improve the one you already have), and giving suggestions on developing an effective cover letter. You will study different types of resume and cover letter formats that can be applied to various prospective employment situations and your own personal career goals. You will undertake a critical assessment of the professional skills you already possess, brainstorm and apply the best ways to market these skills in your resume and cover letter, and enhance your application materials by using specific tips and techniques to make you more competitive for the job you seek. Special focus is placed on developing effective application correspondence, follow-up correspondence and interviewing techniques. Graded on A-F basis only.

JOURN 4246: Taking People With You: Entrepreneurial Leadership and Innovation
(cross-leveled with JOURN 7246). In this course, students explore the current landscape of entrepreneurship (with specific reference to the strategic communication space) and practice a human-centered approach to solving problems. Students will gain valuable leadership skills and develop the knowledge and mindset needed to pursue their own entrepreneurial ventures or to become innovators and ‘intrapreneurs’ within existing organizations. The course introduces students to insight-driven approaches to innovation including David Novak’s Taking People with You philosophy of leadership and design thinking while offering ample opportunities to put these methods into practice. To simulate the entrepreneurial process, students identify an unmet need or market opportunity and develop an innovative product or service to solve a real-world problem. ‘Startup teams’ of four students engage in research, ideation, rapid prototyping, and iterative design to develop insights and a solution to meet the needs of real customers. Teams also conduct a market analysis, and develop a business model and go-to-market strategy for launching their startup and enlisting key partners to support their venture. The course culminates in a pitch competition in which teams present their ideas and strategies to a panel of industry experts and investors. In the process, students gain valuable leadership skills, develop an entrepreneurial mindset, and learn how to work with diverse teams and audiences to collaborate and solve problems. This is one of the three courses comprising the Leadership Interest Area in Strategic Communication. Students admitted to this course are also given priority to participate in the Novak Future Leaders Tour to San Francisco, where they gain exposure to ideas and leaders at some of the world’s most innovative companies and organizations. Graded on A-F basis only.

JOURN 4370: Film Studies: The Intersections of Documentary Film and Journalism
(same as FILMS_VS 4370; cross-leveled with FILMS_VS 7370, JOURN 7370). The popularity of documentary film in the past ten years has skyrocketed, and recent award-winning documentaries such as Inside Job (2010), Blackfish (2013), and The Invisible War (2012) are simultaneously entertaining audiences and investigating serious issues like the financial collapse, killer whale captivity, and sex crimes in the military--issues that in the past might have been covered exclusively by investigative journalism. What explains the public's growing fascination with documentary? How is documentary film reacting to recent transformations in the media landscape? Is it filling a critical need that journalism is no longer willing or able to meet? This course will explore the intersection of these two nonfiction storytelling forms - documentary film and journalism - and examine the role played by advocacy in both modes, as well as the cultural and ethical implications of the convergence between journalism and documentary film. In that it is centered on contemporary documentary film culture, the course also takes advantage of the True/False Film Festival, and will be host to a conference during Week 6, featuring a number of major visiting filmmakers and film critics. Attendance at some sessions is required. Graded on A-F basis only.

Credit Hours: 3

JOURN 4371: Documentary Theory
(cross-leveled with JOURN 7371). Documentary and other long-form story telling methods involve a complex series of decisions made in the creation of the work that determines its style, length, direction, point of view and more. These and a thousand other editing decisions are the difference between a successful project that touches its audience and one that falls short. The focus of this course is on the craft of editing, as seen in a variety of documentary and other works and explained through the decisions made in and out of the editing room that lead to the final product. The course will introduce important concepts of editing, the work of significant editors in both documentary and narrative fiction films, and seek to apply those techniques to the conceptualization of documentary work students will do as part of their degree. Students will understand the history of documentary editing as it evolved on its own and as influenced by narrative fiction films, the language of editing, the work of important editors and directors and how it influences today's aesthetic and how to apply what they have learned to their own documentary projects at an advanced level. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Consent of instructor required

JOURN 4372: Documentary Reporting
(cross-leveled with JOURN 7372). Students will learn elementary documentary reporting techniques by producing video and audio content in small group and individual projects. The course focuses on collection of content in the field, interviewing, research, story construction, editing and presentation. Graded on A-F basis only.

Credit Hours: 3

JOURN 4373: Documentary Development
(cross-leveled with JOURN 7373). This course will concern itself primarily with the formation of projects: from theories behind different kinds of documentaries, through real world investigations and research into possible projects, into the pitching and writing stage and lastly to the final idea that will be the basis of students' senior films. The ability to properly think of, clearly articulate, pitch and hone a project idea often makes the difference between a successful and unsuccessful final film. Still these ideas don't materialize out of thin air; inspiration for great documentaries can come from many places. Understanding how to seize viable project ideas is a crucial skill for a documentary filmmaker. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Instructor consent

JOURN 4375: Documentary Business and the Public Sphere
(cross-leveled with JOURN 7375). Whether it be through contract employment, freelancing, or independent production, creating documentaries requires a knowledge of professional and business practices that differ from many other parts of journalism. The course will introduce important concepts related to the development and production of documentary work, as well as the public distribution of that work. Students will research the industry and develop skills to manage business and professional relationships with the documentary world. Students will build and maintain personal branding materials. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4371

JOURN 4377: Documentary Theory and Practice
(cross-leveled with JOURN 7377). This course will examine how the field of documentary has evolved from its early roots in the 1960s to the present day. The course will focus on both the theoretical and practical aspects of documentary filmmaking, including the role of the filmmaker in society, the ethical implications of documentary production, and the business aspects of documentary film production. Students will also have the opportunity to create their own short documentaries as part of the course. Graded on A-F basis only.

JOURN 7246: Taking People With You: Entrepreneurial Leadership and Innovation
(cross-leveled with JOURN 4246). In this course, students explore the current landscape of entrepreneurship (with specific reference to the strategic communication space) and practice a human-centered approach to solving problems. Students will gain valuable leadership skills and develop the knowledge and mindset needed to pursue their own entrepreneurial ventures or to become innovators and ‘intrapreneurs’ within existing organizations. The course introduces students to insight-driven approaches to innovation including David Novak’s Taking People with You philosophy of leadership and design thinking while offering ample opportunities to put these methods into practice. To simulate the entrepreneurial process, students identify an unmet need or market opportunity and develop an innovative product or service to solve a real-world problem. ‘Startup teams’ of four students engage in research, ideation, rapid prototyping, and iterative design to develop insights and a solution to meet the needs of real customers. Teams also conduct a market analysis, and develop a business model and go-to-market strategy for launching their startup and enlisting key partners to support their venture. The course culminates in a pitch competition in which teams present their ideas and strategies to a panel of industry experts and investors. In the process, students gain valuable leadership skills, develop an entrepreneurial mindset, and learn how to work with diverse teams and audiences to collaborate and solve problems. This is one of the three courses comprising the Leadership Interest Area in Strategic Communication. Students admitted to this course are also given priority to participate in the Novak Future Leaders Tour to San Francisco, where they gain exposure to ideas and leaders at some of the world’s most innovative companies and organizations. Graded on A-F only.

JOURN 7370: The Intersections of Documentary Film and Journalism
(same as FILMS_VS 7370; cross-leveled with JOURN 4370, FILMS_VS 4370). The popularity of documentary film in the past ten years has skyrocketed, and recent award-winning documentaries such as Inside Job (2010), Blackfish (2013), and The Invisible War (2012) are simultaneously entertaining audiences and investigating serious issues like the financial collapse, killer whale captivity, and sex crimes in the military-issues that in the past might have been covered exclusively by investigative journalism. What explains the public’s growing fascination with documentary? How is documentary film reacting to recent transformations in the media landscape? Is it filling a critical need that journalism is no longer willing or able to meet? This course will explore the intersection of these two nonfiction storytelling forms—documentary film and journalism—and examine the role played by advocacy in both modes, as well as the cultural and ethical implications of the convergence between journalism and documentary film. In that it is centered on contemporary documentary film culture, the course also takes advantage of the True/False Film Festival, and will host a presentation by filmmakers during Week 6, featuring a number of major visiting filmmakers and film critics. Attendance at some sessions is required. Graded on A-F basis only.

Credit Hours: 3

Corequisites: JOURN 7371

JOURN 7371: Documentary Theory
(cross-leveled with JOURN 4371). Documentary and other long-form storytelling methods involve a complex series of decisions made in the creation of the work that determines its style, length, direction, point of view and more. These and a thousand other editing decisions are the difference between a successful project that touches its audience and one that falls short. The focus of this course is on the craft of editing, as seen in a variety of documentary and other works and explained through the decisions made in and out of the editing room that lead to the final product. The course will introduce important concepts of editing, the work of significant editors in both documentary and narrative fiction films, and seek to apply those techniques to the conceptualization of documentary work students will do as part of their degree. Students will understand the history of documentary editing as it evolved on its own and as influenced by narrative fiction films, the language of editing, the work of important editors and directors and how it influences today’s aesthetic and how to apply what they have learned to their own documentary projects at an advanced level. Graded on A-F basis only.

Credit Hours: 3

Prerequisites: JOURN 7370

Recommended: JOURN 7564

JOURN 7372: Documentary Reporting
(cross-leveled with JOURN 4372). Students will learn elementary documentary reporting techniques by producing video and audio content in small group and individual projects. JOURN 7373: Documentary Development
(cross-leveled with JOURN 4373). This course will concern itself primarily with the formation of projects: from theories behind different kinds of documentaries, through real world investigations and research into possible projects, into the pitching and writing stage and lastly to the final idea that will be the basis of students’ senior films. The ability to properly think of, clearly articulate, pitch and hone in on a project idea often makes the difference between a successful and unsuccessful final film. Still these ideas don’t materialize out of thin air; inspiration for great documentaries can come from many places. Understanding how to seize viable project ideas is a crucial skill for a documentary filmmaker. Graded on A-F basis only.

Credit Hours: 3

Prerequisites: JOURN 7371

JOURN 7375: Documentary Business and the Public Sphere
(cross-leveled with JOURN 4375).
