## Degree Program Description

Design studies is an interdisciplinary program that provides a baseline of design language and application without the rigor of the advanced coursework and curriculum set forth by accredited degrees for commercial design. Design studies is gaining popularity across the country as an area of concentration where graduates can flexibly navigate conditions unique to their career path and community demand. The curriculum includes several High Impact Practice courses for community engagement and real-world experience. Potential careers include residential design, interior decorator, construction, real estate, contractor, and product representative.

## Degree Audit

The degree audit is an automated report reflecting a student's academic progress toward the completion of a degree.

**MU students can** request a degree audit by logging in to myDegreePlanner (<https://mydegreeplanner.missouri.edu>). Students may also access myDegreePlanner via myZou, in the Student Center, click on

the Academic Progress Tile, then select Request Degree Audit. The audit automatically pulls in the student's MU course work, transfer courses and courses in progress. This is available to current students, admitted students, and those who last attended less than three terms ago.

**Past MU students** can request a degree audit by contacting the Academic Advising Unit of the division in which they were last enrolled at MU. For contact information, go to <https://advising.missouri.edu/contact/>.

**Prospective students**, can access a preliminary MU degree audit via <https://www.transferology.com> (<https://www.transferology.com/>). Information on the college credits already earned will have to be manually entered before it can be evaluated against current degree requirements.

For additional details on degree audits, go to <https://registrar.missouri.edu/degrees-audits/degree-audits/>.
