## BS in Biological Sciences with emphasis in Medical Science and Human Biology

## Degree Program Description

The emphasis in Medical Science and Human Biology will provide students with the opportunity to expand their knowledge beyond the BS in Biological Science by allowing them to take additional coursework that will help them on post-baccalaureate examinations and entry to a variety of professional programs including pre-med, veterinary medicine and health sciences.

## Semester Plan

NOTE: These plans are intended only as general guides. Courses outside Biology and Chemistry are provided only for illustrative purposes. Advanced credit or exemption from the Second Language requirement and/or advanced credit in non-science courses, along with the interests of each individual student will determine a final combination of courses in each semester that is unique for each student. Note also that the sample schedules in Semester 5 and beyond are left incomplete on purpose because each schedule should be highly individualized at that point.
