

Certificate in Risk Management and Insurance

The Certificate in Risk Management and Insurance is a specialized track for students interested in career opportunities in this field. The coursework allows students to develop skills for identifying, assessing and managing risks faced by individuals, businesses and organizations. These risk management strategies require an understanding of the sources, dimensions and qualities of risk, as well as the development and implementation of efficient techniques to mitigate, control or avoid risks.

Requirements

Students must achieve a cumulative 3.0 GPA in all RMI coursework.
