

# Minor in Business

---

The business minor has the same rigor and content as the fundamental courses taken by business students. It provides flexibility in undergraduate studies and better prepares students for jobs and for graduate school. The business minor includes courses that are highly complementary. For most students, the requirements for the business minor are far more valuable than a similar number of courses in one or two areas.

Students can use only 3 transfer credit hours (or one course) to fulfill business minor requirements. This includes AP/IB credit or transfer credit taken at another institution. If you have transfer credits you are using to fulfill a minor requirement, please email [mubusbusinessminor@missouri.edu](mailto:mubusbusinessminor@missouri.edu) to have this added to your minor degree audit.

## Requirements

15 of the 18 hours must be taken in residence. A cumulative 2.0 GPA in the required business minor courses. See a business advisor for questions regarding the business minor.

ACCTCY 2010 or ACCTCY 2026 or ACCTCY 2036 or ACCTCY 2136H	Introduction to Accounting Accounting I Accounting I Honors Accounting I	3
