

Graduate Certificate in Science of Reading and Special Education

This certificate prepares personnel to effectively implement evidenced-based practices for students with, or at-risk for, reading difficulties and disabilities, such as dyslexia. It enables educators to integrate all areas of curriculum to effectively assess and develop interventions and instructional plans for students with these literacy needs.

Requirements

Students complete a set 12 hours (4 course) program of study. Courses are recommended to be taken in sequence. Students eligible for the certificate program must hold a bachelor's degree in the field of education, special education, or related services. Eligible students may or may not be concurrently enrolled in a graduate program.

Requirements		12
SPC_ED 8215	Evaluation and Data-Based Decision Making in Special Education	3
SPC_ED 8325	Language and Communication in Special Education	3
SPC_ED 8335	Foundations of Science of Reading for Children with Disabilities	3
