

Construction Management

The construction management (CM) programs at the University of Missouri provide students with the knowledge and foundation to become leaders in the construction industry. These CM degrees and certificates allow our graduates to succeed in diverse roles in the project delivery process, including planning, pre-construction, construction, and operations by representing owners, designers, regulators, and contractors. Examples of such roles include planner, designer, consultant, regulator, contract administrator, estimator, field supervisor, and construction manager. Graduates obtain broad and comprehensive expertise involving technical, administrative, and communications skills.

Faculty

Professor W.G. Buttlar** P.E., P.K. Edara** P.E., S.L. Orton** P.E., C.C. Sun** P.E., Esq. G. Washer** P.E.

Associate Professor Y. Adu-Gyamfi**, T.C. Matisziw**

Assistant Teaching Professor P. Earney* P.E., S.E.
