The MU College of Health Sciences is the University of Missouri System's only college of health professions and the state's only public health program located on a health sciences campus. Its mission is to improve the health and well-being of others. Every day, College of Health Sciences faculty, staff, and students work towards changing lives through the integration of teaching, service and discovery.

With programs in rehabilitation, diagnostic and imaging sciences, public health, and social work, graduates of the College of Health Sciences fill critical roles in health care. The college is comprised of eight departments and 16 degree opportunities, many with their own specialized accreditation processes. The college also hosts a satellite program of the University of Missouri–Kansas City School of Pharmacy.

The college offers undergraduate degrees with majors in Clinical and Diagnostic Sciences (emphasis areas - Clinical Laboratory Science, Diagnostic Medical Ultrasound, Nuclear Medicine, Radiography, and Respiratory Therapy); Fitness Programming and Management; Health Sciences; Occupational Therapy Assistant; Public Health; Speech, Language and Hearing Sciences; and Social Work. The college offers graduate/professional degrees in Health Administration; Health and Rehabilitation Science; Occupational Therapy; Physical Therapy; Public Health; Social Work; and Speech, Language and Hearing Sciences with an emphasis in Speech-Language Pathology.

Students gain valuable experience by participating in nationally recognized service centers including PhysZou, Tiger OT, the MU Speech and Hearing Clinic, Robert G. Comb's Language Preschool, MU Thompson Center for Autism and Neurodevelopmental Disorders, and more than eight hundred fieldwork sites.

Undergraduate

• Admissions (p. 1)
• Exploratory Courses (p. 1)

• International Admissions (p. 2)
• Academic Regulations (p. 2)
• Enrolling in Other Institutions Simultaneously (p. 2)
• Advising (p. 2)
• Career Development (p. 2)

Admissions

Undergraduate students enrolled in the College of Health Sciences work with a professional academic advisor to ensure timely completion of degree program requirements and for developing a personalized plan for achieving academic success. Students admitted to a clinical program are advised by a professional advisor in Student Services and a faculty advisor in the major.

Admission to the University and to the College of Health Sciences as a pre-Health student does not guarantee admission for College of Health Science degree programs that require program-specific applications. Application deadlines and requirements vary for each program. Note that the Fitness, Programming & Management major, Health Sciences major, Public Health major, and Speech, Language & Hearing Sciences major do not require an application. Students are strongly encouraged to seek advising to ensure they are making satisfactory progress towards pre-requisites, MU General Education (http://catalog.missouri.edu/academicdegreerequirements/generaleducationrequirements/), University and program requirements.

Exploratory Courses

The College of Health Sciences offers introductory courses and experiences to provide information about career opportunities in these areas. These courses are listed below:

Latin honors is available in the catalog at Information about specific requirements for students to graduate with Degree with Honors Requirements handbooks for additional information.

In addition to the academic and clinical education requirements of a program, students must possess and exhibit those personal qualities and characteristics that are associated with patient welfare and professional trust. These elements are a part of the overall evaluation process for candidates who have successfully fulfilled all University requirements for graduation. A student wishing to enroll in a course on an S/U basis must follow University policy and protocol and should consult with the advising office.

Maximum Credits Enrolled
A student may not enroll for more than 18 credits in a fall or spring term and 9 in a summer term without permission from the advising office; students should contact their advisor for more information.

Independent Study
Students must receive prior approval before enrolling in independent study courses.

Satisfactory/Unsatisfactory Grades
A student wishing to enroll in a course on an S/U basis must follow University policy and protocol and should consult with the advising office.

Enrolling in Other Institutions Simultaneously
Students should consult with their advisor before enrolling in another institution while being enrolled at the University of Missouri.

Advising
All undergraduate students are assigned a professional academic advisor in the College of Health Sciences.

Career Development
The Office of Career Services in the College of Health Sciences offers career advising, résumé, cover letter and personal statement review, mock interviews, LinkedIn consultation, job search strategies, and workshops to enhance students’ career development. In addition, the SHP Office of Career Services offers a bi-annual Career and Opportunities Fair, which allows College of Health Sciences students to connect with employers, graduate and professional programs, internships, and experiential learning opportunities. Students are encouraged to seek out and use College of Health Sciences Career Services early in their undergraduate career to connect with shadowing opportunities, find part-time employment, and explore clinical and non-clinical career paths.

Graduate
The College of Health Sciences offers a wide variety of programs of study for students interested in careers in healthcare. At the graduate/ professional level, we offer the following degrees:

- Master of Health Administration (MHA)
- Master of Health Science (MHS) in Clinical and Diagnostic Sciences
- Master of Health Science (MHS) in Speech, Language and Hearing Sciences, with an emphasis in Speech-Language Pathology
• Master of Public Health (MPH)
• Master of Social Work (MSW)

Doctoral Degrees
• Doctorate of Physical Therapy (DPT)
• Occupational Therapy Doctorate (OTD)
• PhD in Health and Rehabilitation Science
• PhD in Social Work

Graduate Certificates in the following areas are also offered:
• Epidemiology
• Global Public Health
• Public Health
• Public Health Communication
• Gerontological Social Work

Note: Prospective graduate students must apply to both the degree program of interest and to the MU Graduate School. In most cases, the entire application process may be completed online. Find program information as well as admission and application details by selecting the degree program of interest in the left navigation column.
