

Minor in Health Science

The Minor in Health Science is a flexible, non-clinical program designed to provide students not majoring in Health Science with a broad overview of health care, preparing them for graduate school in health care or non-clinical health careers. This minor allows students to apply up-to-date theoretical and pragmatic knowledge to the field of health care. Using a holistic and flexible approach, the Minor in Health Sciences prepares graduates to speak the language of clinicians, understand the work environment of health and human service facilities, and hold critical business acumen to contribute to diverse organizations around the world.

Requirements

The minor requires a minimum of 15 hours (9 credit hours from required courses and 6 credit hours from the elective list. All courses must be completed with a grade of C- or higher to qualify for Health Sciences Minor.
