

# OTD in Occupational Therapy

## Entry-Level OTD

### Traditional Option

This includes students with no previous OT degree to practice as licensed occupational therapists. Students must complete a baccalaureate degree in any field, including several specific prerequisite courses, prior to beginning the entry-level OTD program. Students will complete 116 credit hours over 3.5 years in a full-time on-site cohort model curriculum. Students will also be required to pass a national certification exam administered by the National Board of Certification in Occupational Therapy (NBCOT) in order to gain entry into the profession and obtain licensure. Students will have the ability to customize their educational plans through unique combinations of elective coursework, fieldwork, and doctoral capstone experiences.

### Entry-Level OTD Required Coursework

OC_THR 5010	Professional Development	3
OC_THR 5020	Foundations and Theory in Occupational Therapy	3
OC_THR 5030	Human Development and Occupation	3
OC_THR 5100	Introduction to Interprofessional Practice	1
OC_THR 5110	Introduction to Evidence-Based Practice	2
OC_THR 5120	Principles of Assessment	3
OC_THR 5130	Conditions in Occupational Therapy	2
OC_THR 5140	Human Motion and Occupation	4
OC_THR 5150	Concepts of Neuroscience	2
OC_THR 5160	Psychosocial Aspects of Occupational Therapy	3
OC_THR 5210	Adult Practice	4
OC_THR 5220	Pediatric Practice	4
OC_THR 5230	Application of Evidence Based Practice	3
OC_THR 5240	Clinical Reasoning and Documentation	2
OC_THR 5250	Emerging Trends in Occupational Therapy	1
OC_THR 5260	Occupational Therapy Practicum I	2
OC_THR 5310	Advanced Practice Strategies	4
OC_THR 5320	Performance, Participation, and Well-Being	2
OC_THR 5330	Functional Cognition	2
OC_THR 5350	Proposal Development	2
OC_THR 5410	Case Based Learning	4
OC_THR 5420	Populations and Communities	3
OC_THR 5430	Leadership, Management, and Policy	3
OC_THR 5440	Contemporary Issues in Occupational Therapy	2
OC_THR 5450	Occupational Therapy Practicum II	2
OC_THR 5470	Evidence Based Practice Seminar	2
OC_THR 5471	Evidence Based Practice Mentor Hour	1
OC_THR 5510	Fieldwork Level II-A	6
OC_THR 5520	Fieldwork Level II-B	6
OC_THR 6010	Advanced Occupation Based Practice	3
OC_THR 6020	Instructional Design and Application	2
OC_THR 6030	Occupational Therapy Practicum III	2

OC_THR 6040	Capstone I - Project Planning A	2
OC_THR 6041	Capstone I - Mentor Hour	1
OC_THR 6110	Advocacy and Quality Improvement	3
OC_THR 6120	Professional Seminar	2
OC_THR 6130	Occupational Therapy Practicum IV	2
OC_THR 6140	Capstone II - Project Planning B	2
OC_THR 6141	Capstone II - Mentor Hour	1
OC_THR 6210	Capstone III - Doctoral Capstone Experience	6

### Electives in 3rd Year (3 required, 4th optional)

OC_THR 6190	Health Professions Educator	3
OC_THR 6191	Community Engagement in Health Professions	3
OC_THR 6192	Research in Occupational Therapy	3
OC_THR 6193	Complex Adaptive Leadership	3
OC_THR 6194	Thinking Beyond the Brain	3

Coursework is subject to minor changes as the program makes occasional curricular revisions to meet accreditation requirements and to reflect contemporary occupational therapy practice.

## Early-Entry Options for the Entry-Level OTD

- This early-entry option is available to prospective students interested in completing the entry-level OTD before completion of a bachelor's degree. Accepted students start in the OTD program after completing a minimum of 90 credits of undergraduate coursework, all of the prerequisite course requirements, and all other admission requirements. Completion of their undergraduate degree will be contingent on their undergraduate institution allowing courses in the first year of the OTD program to count toward completion of their undergraduate degree. While not required, it is highly recommended students complete a bachelor's degree either before, during, or after completion of OTD coursework.
- For University of Missouri Bachelor of Health Science in Health Science (BHS) students, the first year of the entry-level OTD program may count toward some of the BHS degree requirements. This program will allow students to potentially complete both degrees in six years. BHS students must work very closely with their undergraduate advisors before, during, and after application to ensure that they have completed most, if not all, Health Science degree requirements. This includes specific degree requirements, university requirements, and general education, as well as all OT prerequisites before beginning the OTD program. All of the BHS specific requirements mentioned here are not requirements for acceptance into and/or completion of the OTD. Students are not required to complete the BHS degree in order to complete the OTD program.

## Post-Professional OTD with Master's in OT

This includes students entering with a master's degree in Occupational Therapy, and licensed to practice as occupational therapists. Students entering at this level will complete 36 credits which will be offered entirely online. Students will have the ability to customize their educational plans to meet their unique academic and professional goals. Since they are already practicing occupational therapists, they will not be required to complete fieldwork experiences. However, they will have the opportunity to select unique combinations of elective coursework and doctoral capstone experiences. Furthermore, because all post-professional

coursework will be offered online, students may choose to complete their degree on a part-time enrollment basis.

**Post-Professional OTD with Master's in OT Required Coursework**

OC_THR 5235	Advanced Evidence Based Practice	3
OC_THR 5415	Practice Analysis	3
OC_THR 5425	Population Health	3
OC_THR 5435	Professional Leadership and Development	3
OC_THR 5455	Professional Practicum	3
OC_THR 6010	Advanced Occupation Based Practice	3
OC_THR 6020	Instructional Design and Application	2
OC_THR 6025	Instructional Design Practicum	1
OC_THR 6045	Capstone I - Doctoral Capstone Project	1-3
OC_THR 6046	Capstone II - Doctoral Capstone Experience	1-3

An additional 9 credits of elective coursework are required and must be approved by PPOTD advisor.

Coursework is subject to minor changes as the program makes occasional curricular revisions to meet accreditation requirements and to reflect contemporary occupational therapy practice.

**Post-Professional OTD with Bachelor's in OT**

This includes students entering with a bachelor's degree in Occupational Therapy, and licensed to practice as occupational therapists. Students entering at this level will complete 15 hours of foundational coursework, followed by 36 credits of PPOTD coursework, for a total of 51 credits, which will be offered entirely online. Students will have the ability to customize their educational plans to meet their unique academic and professional goals. Since they are already practicing occupational therapists, they will not be required to complete fieldwork experiences. However, they will have the opportunity to select unique combinations of elective coursework and doctoral capstone experiences. Furthermore, because all post-professional coursework will be offered online, students may choose to complete their degree on a part-time enrollment basis.

**Post-Professional OTD with Bachelor's in OT Required Coursework**

OC_THR 5235	Advanced Evidence Based Practice	3
OC_THR 5415	Practice Analysis	3
OC_THR 5425	Population Health	3
OC_THR 5435	Professional Leadership and Development	3
OC_THR 5610	Theoretical Concepts of OT	3
OC_THR 5620	Evidence Based Practice	3
OC_THR 5630	Community Based OT Practice	3
OC_THR 5640	Overview of Current OT Practice	3
OC_THR 5650	Self-directed OT Practicum	3
OC_THR 6010	Advanced Occupation Based Practice	3
OC_THR 6020	Instructional Design and Application	2
OC_THR 6025	Instructional Design Practicum	1
OC_THR 6045	Capstone I - Doctoral Capstone Project	1-3
OC_THR 6046	Capstone II - Doctoral Capstone Experience	1-3

An additional 12 credits of elective coursework are required and must be approved by PPOTD advisor.

Coursework is subject to minor changes as the program makes occasional curricular revisions to reflect contemporary occupational therapy practice.
