

Graduate Certificate in Care Management

No longer admitting to this program.

The Graduate Certificate in Care Management educates health care professionals to improve health outcomes, enhance care quality, and reduce health care costs. Upon completion of the graduate certificate students will be prepared to provide care coordination to diverse people across the lifespan using care management principles and approaches that include facilitating delivery of health care to individuals and families, engagement of individuals and families in care plan design, and implementation resulting in high quality, high value, cost effective care using a collaborative, interdisciplinary approach.
